8. *Part C—Schedule III*—(a) *Property items to be listed.* List in this Schedule, in the order in which the property types are given in Schedule I of this Part, each item of property of the value of $1,000 or more either on June 1, 1940, or on January 1, 1942, or both, concerning which report is being made. Property items included in Class F, *i. e.*, patents, trademarks, copyrights, and franchises, and in Class H, *i. e.*, partnership and profit-sharing agreements, shall be listed even though valued at less than $1,000. However, no reference whatever should be made to any invention with respect to which a secrecy order has been issued by the Commissioner of Patents pursuant to the Act of October 6, 1917 (40 Stat. 394), as amended. Also list all items of property, the value of which is not readily determinable. Except as provided in this paragraph, property items of a value less than $1,000 should not be listed in this Schedule, although the value of each must be included in the total value of property of the appropriate type in Schedule I.

(b) *Definition of property item.* A property item is any unit of property commonly bought, sold, assigned, released, or alienated, except that the total of wholly similar units of the same kind is regarded as one item, such as a number of certificates each for shares of stock of the same issue, or a number of bonds of the same issue, or several head of cattle. The total number of units of such property shall be stated, but in other respects the property may be treated entirely as one item. Several bank accounts with the same institution, or several debts payable by the same debtor, shall be itemized separately in this Schedule if the aggregate amount thereof exceeds $1,000, even though each individual item is less than $1,000.

(c) *Method of listing.* Enter in Column (a) the number of the property type in which the item is included. Enter in Column (b) a short description or identification of the property item. In case of property, such as a patent, commonly referred to by number or other similar designation, state briefly the object or nature of the property in addition to the number or other designation. With regard to property other than debts and claims, enter in Column (c) the name and address of the person with whom the property was deposited or by whom it was held, and give the number or other designation of any safe deposit box or similar receptacle in which the property was kept. Respecting debts owed to and claims made by the national, state the name and address of the debtor and disregard the location of the evidence of indebtedness. If the property was held by or owed by the person reporting, it will suffice to state "Person reporting" in place of the name and address. Enter in Columns (d) and (e) the value of each property item on January 1, 1942, and June 1, 1940, as determined in accordance with the provisions for valuation contained in Instruction 6, above.

(d) *Continuation sheets.* Continuation sheets identical in form with Schedule III are provided for the use of persons reporting who find the space in Schedule III insufficient.

9. *Part C—Schedule IV.* Report in this Schedule any safe deposit box, or other similar receptacle for the safe keeping of property, (i) which was maintained in the national's own name or jointly with others, or in which property belonging to the national was kept, whether or not he had access thereto; and (b) to which he had access as deputy, attorney, or otherwise. When report is being made by the lessor or grantor, it will suffice to state "Person reporting" in the space provided for the name and address of the lessor or grantor. If the property kept in the safe deposit box is known to the person reporting, he must enter it in Schedules I and III of Part C, as appropriate, in addition to filling in this Schedule. Safe deposit boxes themselves should not be reported elsewhere than in Schedule IV.

10. *Part D.* All the information called for in the questions under this part must be given as of both June 1, 1940, and January 1, 1942, for each of the property items listed in Part C, Schedule III and each of the safe deposit boxes reported in Schedule IV. If a property item or safe deposit box was held on only one date, give the information as of that date. In the answers each item of property shall be designated by the number of its type and by its description in Part C, Schedule III. Safe deposit boxes shall be identified by the number or other designation given in Schedule IV.

With respect to safe deposit boxes the phrase "any interest" in Question 1 of Part D shall include rights or privileges of persons other than the national to enter a box as deputy, attorney, or otherwise, or any other rights of a person other than the national with respect to the box or its contents.

11. *Part F.* The requirements of this Part do not extend to cases in which the interest of the national of the Philippine Islands in the property reported on another series arose after the date or dates for which the property was reported on that series. If a previous report was filed with the Governor or High Commissioner of a territory or possession of the United States, enter the name of the territory or possession in the column headed "Federal Reserve Bank with which report filed."

12. *Affidavit*—(a) *Necessity of execution.* The affidavit must be signed and sworn (affirmed) to before an officer authorized to administer oaths, whose seal must be affixed. Reports will not be accepted unless the affidavit is properly executed in every particular.

(b) *Number of affidavits.* Except as provided in Instruction 5 (a) above, only one affidavit is required to cover all reports made by any one person on Series K. The affidavit should be filed in quadruplicate. Only one copy need be attested, but the other copies must be fully conformed except as to the notarial seal.

(c) *Name of person making report.* With respect to a national reporting for himself, the information given in this section of the affidavit must be exactly the same as the corresponding information in Part A of the report. In case of other persons reporting, the information must be exactly the same as the corresponding information in Part B of each report.

(d) *Body of affidavit.* A person reporting shall state in the spaces provided in the body of the affidavit the consecutive numbers assigned to his reports in accordance with Instruction 5 (c) above.

(e) *Who shall execute.* Affidavits in behalf of partnerships shall be executed by a partner. Affidavits in behalf of any other organization shall be executed by the president, vice-president, secretary or some other principal officer authorized to make the report on behalf of the organization. In case of a national reporting his own property, the signature must correspond exactly with that appearing in Part B of the report, in accordance with Instruction 5 (a) above.

SEC. V—*Additional Instructions for Banks*

1. *Definition of "bank".* For the purposes of this Section only the term "bank" shall mean any branch or office within the United States of any national banking association, bank, private banker, trust company, or savings bank, organized under the banking laws of the United States, or of any state, territory, district, or possession thereof, or authorized under such laws to conduct the business of banking subject to supervision and examination pursuant to such laws.

2. *Part C—Schedule I*—(a) *Property not required to be reported for June 1, 1940.* Letters of credit, certified checks, drafts, acceptances, and collection items need not be reported by banks for June 1, 1940. However, all of these kinds of property must be reported for January 1, 1942.

(b) *Detailed instructions regarding certain kinds of property*— (i) *Deposits—Property types 3 and 4.* Under each type give the total balance of the national's credit accounts of that type. The amount of items received for collection for the account of the national and credited to his account, whether provisionally or finally, should be included under these types. Include also sight or cash items in process of collection for deposit, but the amount of any other kinds of items received for collection and not credited should be reported under the appropriate property type.

(ii) *Cashier's and certified checks, and bank acceptances—Property type 12.* Under this type give the total amount of all cashier's, or other official bank checks, all certified checks, and the total amount of all drafts accepted by the reporting bank drawn by or payable to the national, which were outstanding as of January 1, 1942. Include cashier's or other official bank checks of the reporting bank purchased by the national and, when appropriate records are available, such checks issued to his order. As to certified checks include checks on the national's account, and, when appropriate records are available, checks payable to the order of the national from an account with the reporting bank, certified by the reporting bank. With regard to drafts include those drawn and accepted under or pursuant to the terms of any letter of credit.

(iii) *Letters of credit—Property type 13.* Under this type give the total unexpended or unused and then available amount of all letters of credit, whether or not prepaid, including travelers' checks, outstanding on January 1, 1942, under which the national had any rights, contingent or absolute, to receive any payments in any amount pursuant to the terms of the letter of credit or in reimbursement for any unused portion thereof. In determining the unexpended or unused available amount of a letter of credit deduct from the face amount thereof or from the upper limit of credit, if greater than the face amount thereof, the amount of any drafts drawn and accepted thereunder, whether or not paid. No deduction or other adjustment should be made for any cash or other collateral or for any contingent liability under the letter of credit on the part of the person at whose request the credit was opened. Cash collateral should be reported under deposits. Other collateral should be reported under the respective property types.

(iv) *Collection items.* All collection items other than those required by paragraph (i) above to be included in deposits should be reported under the property type within which the items fall in the classification set out in Section III of this Circular. Proceeds of collection should in all cases be reported as a deposit. The bank within the United States initially receiving an item for collection must report the item; its subagents need not report.

(v) *Financal securities held in custody—Property Class B.* If the financial securities held in custody or as collateral on June 1, 1940, cannot be ascertained with reasonable facility from the records of the bank, the securities, but not the values thereof, shown in the latest statemen, audit, or reconcilement, if any, of the account made between December 31, 1939, and June 1, 1940, may be used in the Schedule. If values given in Column (b) of the Schedule are based on a statement, audit, or reconcilement of a date other than June 1, 1940, so indicate and state the date thereof at the end of the first page of the report. "Custody" shall include customer's securities accounts, security depot or deposit accounts, safekeeping accounts, safe deposit boxes to which the bank has access and the contents of which are known to the bank, and any other form of custody in which a bank holds securities as agent, either alone or jointly with others.

3. *Part C—Schedule III*—(a) *Deposits.* In describing deposits under Column (b), state in addition to any other pertinent information the name of the account and the account number. Attention is directed to the requirement of Instruction 8 (b) in Section IV that several bank accounts with the same institution shall be itemized separately, even though each individual item is less than $1,000.

(b) *Cashier's and certified checks, and bank acceptances.* In describing cashier's and certified checks under Column (b), state in addition to any other pertinent information the name and nationality of the payee. The description of a bank acceptance should include the date of the acceptance, in addition to the information necessary to identification of the item.

(c) *Letters of credit.* In describing letters of credit under Column (b) state in addition to any other pertinent information (i) the type of the letter of credit, as for example whether "confirmed" or "unconfirmed", revocable or irrevocable, or revolving (cumulative or noncumulative), (ii) the terms of payment, as for example "at sight" or "acceptance, thirty, sixty, and ninety days", (iii) the person who could draw under the letter of credit, (iv) the person at whose request the letter of credit was opened (*i. e.*, the settler, purchaser, etc.), and (v) any other relevant terms or conditions of the letter of credit. The information should be given in the order specified.

If the national was liable to the reporting bank for any drafts which thereafter might be drawn by the national and accepted under the unused portion of a letter of credit reported as property of the national, enter as part of the description in Column (b) the words "Contingent liability of national under letter of credit" followed by the excess of the total unused balance of the letter of credit over the total unused prepayment, if any, for the letter of credit. Liability of the national for acceptances actually outstanding and for the unused portion of letters of credit which are not required to be reported as property of the national should be entered under Schedule II.

(d) *Financial securities held in custody.* If financial securities appearing in any statement, audit, or reconcilement relied on under Schedule I are listed in this Schedule appropriate indication must be made.

SEC. VI—*Additional Instructions for Brokers*

1. *Part C—Schedule I*—(a) *Use of statement, audit, or reconcilement.* If the securities or other property held for a customer on June 1, 1940, cannot be ascertained from the records of the broker, the property, but not the values thereof, shown in the latest statement, audit, or reconcilement, if any, of the account made between December 31, 1939, and June 1, 1940, may be used in this Schedule. In case of inactive accounts, audited not more often than once in six months, the statement, audit, or reconcilement nearest to June 1, 1940, made between December 31, 1939, and July 1, 1940, may be used. If values given in Column (b) of the Schedule are based on a statement, audit, or reconcilement of a date other than June 1, 1940, so indicate, and state the date thereof at the end of the first page of the form.

(b) *Debit balances.* No deduction shall be made for debit balances or other offsets or claims by the broker reporting, that is, if the national had two accounts with the broker, one of which showed a credit balance and the other a debit balance, the full amount of the credit balance must be entered. Debit balances should be entered in Schedule II of this Part.

2. *Part C—Schedule II.* Enter in Column (a) the total amount of indebtedness in dollars as of January 1, 1942, and in Column (b) the total amount in dollars as of June 1, 1940. Unrealized losses on puts, calls, and similar contracts on which the national is obligated, as well as unrealized losses on unissued securities, should be entered in this Schedule, with appropriate notation at the end of the Schedule. Indebtedness need not be itemized.

3. *Part C—Schedule III.* If property items appearing in any statement, audit, or reconciement relied on under Schedule I are listed in this Schedule, appropriate indication must be made.

SEC. VII—*Additional Instructions to Exporters and Importers*

1. *Part C—Schedule I.* The attention of exporters and importers is particularly directed to sub-instructions (f), (g), and (h), in Instruction 6 of this Circular, providing that report need not be made with respect to orders for goods, goods in transit, and agency, distributor's and employment contracts, respectively. In addition, exporters and importers need not make any report with respect to letters of credit, except that exporters and importers who are nationals of the Philippine Islands must report their own interests in letters of credit.

SEC. VIII—*Additional Instructions for Insurance Companies*

1. *Definitions*—(a) *"Insurance policy."* "Insurance policy" shall include when appropriate, but not by way of limitation, fidelity and surety bonds and contracts of reinsurance.

(b) *"Ascertained value."* "Ascertained value" shall mean the value at a given date to the beneficiary of a paid-up or partly paid-up contract, such as an annuity contract, to make a payment or payments in the future, computed in accordance with standard actuarial practice.

2. *Part C—Schedule I*—(a) *Insurance policies.* Report under property type 29 insurance policies with a cash surrender or paid-up value upon which the national had any right whatsoever to realize or draw. The interest in an unmatured policy of a beneficiary who had no right to draw upon cash surrender or paid-up value prior to maturity should not be reported. Do not include policies of insurance, such as fire insurance, having no immediate value other than an unearned or return premium. Give the values without deduction for loans or advances under or against the policy, which should be entered in Part C, Schedule II, with an appropriate notation at the end of the Schedule.

(b) *Annuity contracts.* Also report under property type 29 annuity contracts, pensions, and other similar contracts and

arrangements with an ascertained value, as defined in Instruction 1 (b), in which the national had an interest. Such contracts should be reported whether or not payment under them had begun on either June 1, 1940, or January 1, 1942. Give the values without deduction for loans or advances under or against the contract, which should be entered in Part C, Schedule II, with appropriate notation at the end of the Schedule.

(c) *Claims and indebtedness arising under insurance policies.* Report in property type 14 claims and indebtedness arising under insurance policies in which the national had any interest. Report must be made whether or not the claim or indebtedness is admitted. Include claims and indebtedness resulting from an election by the insured to take cash surrender value and the like and those representing proceeds of a policy left with an insurer and the like, as well as claims and indebtedness arising because of the occurrence of a contingency covered by a policy. Do not include annuities in any way, except annuity installments actually accrued but unpaid. State the amount of claims and indebtedness without deduction for loans or offsets due or claimed to be due to the insurance company. Such loans or offsets should be listed in Part C, Schedule II with appropriate notation at the end of the Schedule.

SEC. IX—*Additional Instructions for Organizations Issuing Securities*

1. *Scope of Section.* This Section relates to reports required by paragraph (3) under Instruction B of Section II of this Circular to be made by organizations issuing financial securities as defined in Property Class B. Bearer securities must be reported when the organization reporting has any reason to believe that a national had an interest in them, as through a mailing address for dividends or for remittance of interest. The section does not apply to reports of the interest of partners under a partnership contract or of obligations of other business enterprises which do not constitute financial securities.

2. *Separation of reports.* An organization making a report of securities as required by this Section shall not include any other property, except dividends and interest as provided under Instruction 4 (c), below. If an organization which has issued securities to a national holds other property for him, it must file two reports. However, all securities issued by the organization in which a particular national has an interest should be included in one report even though of different kinds, issues, or series.

3. *Part B.* A person reporting pursuant to this Section must enter under the caption "relationship" the words "Organization issuing securities."

4. *Part C—Schedule I*—(a) *Valuation.* If the value of a security cannot fairly be ascertained by the method provided in Instruction 6 (b), under Section IV of this Circular, use the book value. When the book value on January 1, 1942 cannot be readily ascertained from the records of the organization reporting, the value shown in a statement, audit, or report made between July 1, 1941, and January 1, 1942, may be used, but when no such statement, audit, or report is available the book value on January 1, 1942, must be used. Indicate the method of valuation if the value other than market value at the close of business on December 31, 1941, is used.

(b) *Record date.* If desired, the organization reporting may give the security holdings of nationals, but not the valuation of those holdings, as of the nearest date before June 1, 1940, on which a record was established of the holders of securities of a particular issue, provided, however, that such date shall not be prior to December 31, 1939. In such a case the record date with respect to each issue which is reported for the national should be stated clearly at the end of page one of the report.

(c) *Dividends and interest.* When stock or a similar security is reported, enter in property type 14 any amount due and owing to the national by reason of any dividend declared to stockholders of record on or prior to either June 1, 1940 (or alternative date), or January 1, 1942. Do not include a dividend for which a check had been mailed in the regular course of business unless the check had been returned undelivered, in which event the dividend must be included. When funded debt or a similar obligation is reported, enter the amount of interest due and payable, unless the security was in default.

5. *Part C—Schedule III*—(a) *Description of issue.* In Column (b) describe each issue of securities of which the national had a holding, stating (i) the type of securities, *i. e.*, bonds, notes, common stock, preferred stock, etc., and (ii) the full title of the issue. If the national had an interest in securities of more than one issue, the holdings of that issue should be described immediately after the general description required for the issue, so that all the holdings of any one issue follow immediately after the description of that issue without any intermingling of holdings of other issues.

(b) *Description of each holding.* In describing particular holdings of securities state in Column (b) the exact name in which the securities were held and the number of shares, or face value of bonds, as the case may be. When any of the holdings are shown as of a record date other than June 1, 1940, the date should be stated in the description.

(c) *Column* (c). An organization issuing securities may insert the word "Issuer" in this column.

SEC. X—*Additional Instructions for Trustees and Other Representatives of Estates and Trusts and for Members of Partnerships*

1. *General requirements for report*—(a) *Report of property of estate or trust.* Trustees or other representatives of estates and trusts which are nationals of the Philippine Islands must report the trust property on Series K. In any event, the trustees or other representatives of trusts or estates in which an existing national, or nationals, of the Philippine Islands, as beneficiary had any interest, vested or contingent, obliged to be reported, including interests in income, shall report the property of the trust on Series K, when the total national interests on either or both June 1, 1940, and January 1, 1942, exceeded 25 percent of comparable interests in the trust. The report for the trust should contain on a suitable attached sheet a brief but definite description of the rights of all existing beneficiaries who are nationals of the Philippine Islands.

(b) *Report of beneficiary's interest.* A trustee or other representative of an estate or trust shall report any reportable interest of a beneficiary under a trust, with a clear reference to the report, if any, required for the trust. Except in the case of specific devises, legacies, or bequests, the beneficiary's interest should be reported under property type 27 only. A description of the rights of the beneficiary, similar to that required on reports for trusts, should in any case be given on the report for the beneficiary. None of the assets of the trust should be entered on the report for the beneficiary but the total amount of such assets should be given with the description of the beneficiary's rights. If more than one national was a beneficiary, a separate report must be made for each.

(c) *Business trusts.* Trustees of business trusts in which the interests of beneficiaries are represented by financial securities should report the property of the trust if the trust itself is a national, and should file separate reports with respect to the interests of each national beneficiary in accordance with the instructions to organizations issuing securities given in Section IX of this Circular. The preceding sub-instructions do not apply to such business trusts.

(d) *Partnerships.* Principles analogous to the requirements of sub-instructions (a) and (b), above, should be applied by members of partnerships with respect to partnership property and the interests of the members.

2. *Part A.* In reporting the property of a trust or estate the trustee or other representative may enter his own name followed by an appropriate phrase, *e. g.*, "as trustee under the will of X."

3. *Nationality.* Reports for estates and trusts, other than business trusts in which the interests of the beneficiaries were represented by financial securities, shall state the country or countries of which the trust itself is a national, and in any case shall state the country or countries of which each beneficiary of the trust is a national. Similar statement shall be made for partnerships. All entries made under the caption must be explained in Part E. If the only entries required are the countries of which the beneficiaries or partners, as the case may be, are nationals, it will suffice to state that fact in Part E without further explanation.

4. *Affidavit.* A trustee or other representative of a trust or estate need execute only one affidavit with respect to all reports relating to the trust, including reports of the interests of beneficiaries, but if he was trustee of more than one trust, a separate affidavit must be executed with respect to the reports relating to each trust.

SEC. XI—*Table of Exchange Rates*

Where the value of property is expressed in terms of foreign currency, such values should be converted into dollars at the rates of exchange set forth below. Where no rate is given for a country, the latest rate next before January 1, 1942, as generally quoted by foreign exchange dealers or other recognized sources of information shall be used. Such rate should be clearly stated in the report. The exchange rates given in this table are for use only in preparing reports on Form TFR–300, Series K, and are not intended to be used or relied upon in any other connection or for any other purpose whatsoever.

TITLE 32—NATIONAL DEFENSE

CHAPTER VI—SELECTIVE SERVICE SYSTEM

PART 611—DUTY AND RESPONSIBILITY TO REGISTER

AMENDMENT NO. 18 TO SELECTIVE SERVICE REGULATIONS, SECOND EDITION

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 611,[1] in the following respects:

1. By adding at the end of the table of contents a new subheading and three new sections as follows:

Aliens Residing in the United States

611.11 Every declarant alien is residing in the United States.
611.12 When a nondeclarant alien is residing in the United States.
611.13 When a nondeclarant alien is not residing in the United States.

2. By adding the following three new sections to this part and preceding them with the subheading: *Aliens Residing in the United States:*

§ 611.11 *Every declarant alien is residing in the United States.* Every male alien who has declared his intention to become a citizen of the United States is "a male person residing in the United States" within the meaning of section 2 and section 3 of the Selective Training and Service Act of 1940, as amended.

§ 611.12 *When a nondeclarant alien is residing in the United States.* Every male alien who is now in or hereafter enters the United States who has not declared his intention to become a citizen of the United States, unless he is in one of the categories specifically excepted by the provisions of § 611.13, is "a male person residing in the United States" within the meaning of section 2 and section 3 of the Selective Training and Service Act of 1940, as amended.

§ 611.13 *When a nondeclarant alien is not residing in the United States.* (a) A male alien who is now in or hereafter enters the United States who has not declared his intention to become a citizen of the United States is not "a male person residing in the United States" within the meaning of section 2 or section 3 of the Selective Training and Service Act of 1940, as amended:

(1) If he is a diplomatic representative, a technical attache of a foreign embassy or legation, a consul general, a consul, a vice consul, or a consular agent of a foreign country; or

(2) If he is an employee of a foreign embassy, legation, or consulate and a national of the country employing him who has been notified to the Department of State; or

(3) If he is an official or an employee of a foreign government and a national of the country employing him, who has been notified to the Department of State; provided that at the time he is notified to the Department of State, a proper representative of his government advises and the Department of State agrees that he is in fact not residing in the United States; or

(4) If he is a dependent male child of any person described in subparagraph (1), (2), or (3) of this paragraph; or

(5) If he is a member and in the active service of the armed forces of a cobelligerent or a neutral country; or

(6) If he has entered or hereafter enters the United States in a manner prescribed by its laws and does not remain in the United States after May 16, 1942, or for more than 3 months following the date of his entry, whichever is the later.

(b) When a male alien who has not declared his intention to become a citizen of the United States has entered or hereafter enters the United States in a manner prescribed by its laws and remains in the United States after May 16, 1942, or for more than 3 months following the date of his entry, whichever is the later, he is "a male person residing in the United States" within the meaning of section 2 and section 3 of the Selective Training and Service Act of 1940, as amended, unless he has filed an Alien's Application for Determination of Residence (Form 302) in the manner provided in § 611.21 and such application is either (1) pending or (2) has resulted in a determination that he is not "a male person residing in the United States" within the meaning of section 2 or section 3 of the Selective Training and Service Act of 1940, as amended, in either of which events he shall not be considered as "a male person residing in the United States" within the meaning of section 2 or section 3 of the Selective Training and Service Act of 1940, as amended, during the period when such application is pending or during the period covered by the Alien's Certificate of Nonresidence (Form 303) issued to him as a result of the determination that he is not "a male person residing in the United States" within the meaning of section 2 or section 3 of the Selective Training and Service Act of 1940, as amended. (54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. No. 8545, 5 F.R. 3779)

CHAPTER VIII—EXPORT CONTROL

[Revision I, February 7, 1942]

SUBCHAPTER B—PROCLAIMED LIST OF CERTAIN BLOCKED NATIONALS

By virtue of the authority vested in the Secretary of State, acting in conjunction with the Secretary of the Treasury, the Attorney General, the Secretary of Commerce, the Board of Economic Warfare, and the Coordinator of Inter-American Affairs, by Proclamation 2497 of the President of July 17, 1941 (6 F.R. 3555), The Proclaimed List of Certain Blocked Nationals, promulgated on July 17, 1941, and Supplements 1, 2, 3, 4, 5, 6, and 7 thereto (6 F.R. 3557, 3773, 4915, 5722, 6204, 6351, 6732; 7 F.R. 334), are superseded by the following Revision I of the List, which is hereby promulgated.

By direction of the President:

CORDELL HULL,
Secretary of State.
HENRY MORGENTHAU, JR.,
Secretary of the Treasury.
FRANCIS BIDDLE,
Attorney General.
JESSE H. JONES,
Secretary of Commerce.
MILO PERKINS,
Executive Director,
Board of Economic Warfare.
NELSON A. ROCKEFELLER,
Coordinator of Inter-American Affairs.

FEBRUARY 7, 1942.

GENERAL NOTES: This revision is divided into two parts: Part I relates to listings in the American republics; Part II relates to listings outside the American republics. Deletions made with this revision are indicated by footnotes to the country headings. No additions are made in this revision; however, numerous changes are made in the arrangement of listings, form of firm titles, spelling, addresses, etc. The indication of an address for a name on the list is not intended to exclude other addresses of the same firm or individual. A listed name refers to all branches of the business in the country. Subsequent supplements to this revision will contain additions, deletions, and amendments.

[1] Note on arrangement of names for American Republics: Titles are listed in their letter-address form, word for word as written in that form, with the following exceptions:

(1) If the title includes a full personal name, that is, a given name or initial and the surname, the title is listed under the *surname*.

(2) Personal-name prefixes such as de, la, von, etc., are considered as part of the surname and are the basis for listing.

(3) The listing is made under the next word of the title when the initial word or phrase, or abbreviation thereof, is one of the following Spanish forms or similar equivalent forms in other languages:

Compañía; Cía.; Comp.
Compañía Anónima; C. A.; Comp. Anón.
Sociedad; Soc.

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 987—COBALT

General Preference Order M–39 to Conserve the Supply and Direct the Distribution of Cobalt (as Amended February 7, 1942)

Section 987.1 is hereby amended to read as follows:

Whereas, the uncertainty of shipments of cobalt from abroad, and the national defense requirements for cobalt have created a shortage thereof, for defense, for private account, and for export and it is necessary in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution thereof;

Now therefore, it is hereby ordered that:

§ 987.1 *General Preference Order M–39*—(a) *Definitions.* For the purposes of this order:

(1) "Cobalt" means and includes:

(i) Ores, concentrates, crudes, and residues, including beneficiated or treated forms containing cobalt (commercially recognized).

(ii) The element cobalt in any form, and combinations with other elements in which cobalt is an essential constituent.

(iii) All chemical compounds in which cobalt is an essential and recognizable component.

(iv) All scrap or secondary material containing commercially recoverable cobalt as defined in (i), (ii) and (iii) above, excluding cobalt-bearing iron and steel scrap.

(b) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(c) *Restrictions on deliveries—(1) Allocations.* Hereafter, no person shall make or accept delivery of cobalt except as specifically authorized by the Director of Industry Operations. The Director will from time to time allocate the supply of cobalt and specifically direct the manner and quantities in which deliveries to particular persons or for particular uses shall be made or withheld. The Director may also, in his discretion, require any person seeking to place a purchase order for cobalt to place the same with one or more particular suppliers. Such allocations and directions will be made to insure satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made in the discretion of the Director of Industry Operations without regard to any preference ratings assigned to particular contracts or purchase orders. The Director may also take into consideration the possible dislocation of labor and the necessity of keeping a plant in operation so that it may be able to fulfill defense orders and essential civilian requirements.

(2) *Reports.* Unless otherwise ordered by the Director of Industry Operations, no person shall be entitled to receive an allocation of cobalt unless, not later than the 20th day of the month next preceding the month in which delivery is desired, he shall have filed with the War Production Board and with any supplier with whom he may have placed a purchase order for cobalt, a report in the manner and form prescribed from time to time by the War Production Board: *Provided, however,* That subject to all the other provisions, restrictions, and limitations of this order and until further order by the Director of Industry Operations any person may receive deliveries during any calendar month up to but not exceeding an aggregate of 50 pounds contained cobalt without filing the reports required by this paragraph. Failure by any person to file a report in the manner and on the date required by this paragraph may be construed as notice to the Director of Industry Operations and to all suppliers of cobalt that such person does not desire an allocation of cobalt during the period to which such report would have been applicable.

(d) *Violations.* Any person who wilfully violates any provision of this order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(e) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to the Cobalt Branch, War Production Board, Social Security Building, Washington, D. C., Reference: M–39.

(f) *Revocation of Supplementary Order M–39–a.* Supplementary Order M-39–a, issued by the Director of Priorities December 5, 1941, is hereby revoked.

(g) *Effective date.* This order shall take effect immediately upon its issuance, and unless sooner terminated by direction of the Director of Industry Operations, shall expire on the 30th day of June, 1942. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6630; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public No. 671, 76th Congress, Third Session, as amended

by Public No. 89, 77th Congress, First Session)

Issued this 7th day of February 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-1148; Filed, February 7, 1942; 10:34 a. m.]

PART 987—COBALT

Conservation Order No. M-39-b Curtailing the Use of Cobalt in Certain Items

Whereas, national defense requirements have created a shortage of cobalt for the combined needs of defense, private account, and export; and the supply now is and will be insufficient for defense and essential civilian requirements unless its use in the manufacture of many products where such use is not absolutely necessary for the defense or essential civilian requirements is curtailed or prohibited as hereinafter provided;

Now, therefore, it is hereby ordered that:

§ 987.3 *Conservation Order M-39-b*—(a) *Prohibition on use of cobalt in articles appearing on List A.* (1) Between February 1 and April 30, 1942, inclusive, no person shall use in the manufacture of any item on List A more cobalt than 40% of the cobalt used by him for such item during the first six months of 1941.

(2) Effective May 1, 1942, no cobalt shall be used in the manufacture of any item on List A.

(b) *Limitation on all other uses of cobalt.* (1) Between February 1 and March 31, 1942, inclusive, no person shall use in the manufacture of any article not covered by paragraphs (a) or (c) of this section more cobalt than 23% of the cobalt used by him for such article during the first six months of 1941.

(2) Beginning April 1, 1942, no person shall use during any calendar quarter in the manufacture of any article not covered by paragraphs (a) or (c) of this section more cobalt than 35% of the cobalt used by him for such article during the first six months of 1941.

(c) *General exceptions.* Where and to the extent the use of any less scarce material is impracticable, the prohibitions, limitations and restrictions contained in paragraphs (a) and (b) of this section shall not apply to the use of cobalt in the manufacture of any item, or for any of the uses set forth on List B attached, nor in the manufacture of any item which is being produced:

(1) For delivery under a specific contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States," (Lend-Lease Act) if in any such case the use of cobalt to the extent employed is required by the specifications of the prime contract, or

(2) To comply with Safety Regulations issued under government authority, provided the pertinent provisions of such regulations were in effect both on December 1, 1941, and on the date of such use, and specifically and exclusively require the use of cobalt to the extent employed;

(3) With the assistance of a preference rating of A-1-j or higher.

(d) *Prohibitions against sales or deliveries.* No person shall hereafter sell or deliver cobalt to any person if he knows, or has reason to believe, such material is to be used in violation of the terms of this order.

(e) *Limitation of inventories.* No manufacturer shall receive delivery of cobalt, (including scrap), or products thereof, in the form of raw materials, semi-processed materials, finished parts or sub-assemblies nor shall he put into process any raw material, in quantities which in either case shall result in an inventory of such raw, semi-processed or finished material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the production of cobalt products by this order.

(f) *Miscellaneous Provisions*—(1) *Applicability of priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(2) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of cobalt conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense work to defense work, may appeal to the War Production Board, Reference M-39-b, on such forms as may be prescribed by said Board, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(3) *Applicability of order.* The prohibitions and restrictions contained in this order shall apply to the use of material in all articles hereafter manufactured irrespective of whether such articles are manufactured pursuant to a contract made prior or subsequent to the effective date hereof, or pursuant to a contract supported by a preference rating. Insofar as any other order may have the effect of limiting or curtailing to a greater extent than herein provided the use of cobalt in the production of any article, the limitations of such other order shall be observed. In the absence of a specific direction by the Director of Industry Operations to the contrary, insofar as this order may have the effect of limiting or curtailing to a greater extent than is provided in General Preference Order M-39 or any other order or any preference rating certificate, the use of cobalt in the production of any article, the limitations imposed by this order shall be observed.

(4) *Violations or false statements.* Any person who wilfully violates any provision of this order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U. S. C. 80).

(5) *Definitions.* For the purposes of this order:

(i) "Cobalt" means and includes:

(*a*) Ores, concentrates, crudes and residues, including beneficiated or treated forms containing cobal (commercially recognized).

(*b*) The element cobalt in any form, and combinations with other elements in which cobalt is an essential constituent.

(c) All chemical compounds in which cobalt is an essential and recognizable component.

(*d*) All scrap or secondary material containing commercially recoverable cobalt as defined in (*a*), (*b*), and (c) above, excluding cobalt-bearing iron and steel scrap.

(ii) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control of or under common control with or available for the use of such person.

(iii) "Manufacture" means to fabricate, assemble, mix or process in any other way, but does not include installation of a finished product for the ultimate consumer.

(iv) "Item" means any article or any component part thereof.

(v) "Use" means both (1) the act of putting cobalt into process in the manufacture of any item and (2) the act of completing the manufacture of any such item. (Where a person is limited to a percentage of the material used in a base period, this limitation applies respectively to (1) the amount of material put into process during the base period and (2) the total amount of material contained in a completed item multiplied by the number of such items completed during the base period. Each restriction must be applied separately.)

(vi) "Put into Process" means the first change by a manufacturer in the form of material from that form in which it is received by him.

(6) *Effective date.* This order shall take effect upon the date of issuance and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 581, E.O. 9024, Jan. 16,

1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public No. 671, 76th Congress, Third Session, as amended by Public No. 89, 77th Congress, First Session)

Issued this 7th day of February 1942.

J. S. KNOWLSON,
Director of Industry Operations.

List A of Conservation Order M–59–b

The use of cobalt in the items listed below and in all component parts thereof is prohibited except to the extent permitted by the foregoing Conservation Order.

Pigments in any form for any use whatsoever, including

Ceramics
Glass
Enamelware
Inks
Paints
Stains
Pottery

except where blue glass is necessary for safety or optical properties.

List B of Conservation Order M–59–b

The uses, and the items listed below and parts thereof are excepted from the prohibitions and restrictions contained in paragraphs (a) and (b) of the foregoing Conservation Order, but only to the extent indicated below and only to the extent that the use of any less scarce material is impractical.

Catalysts
Cattle & Plant Food
Chemical Reagents
Cobalt alloys of all types including cobalt alloy steels, all types cobalt magnet steel and alloys cobalt nonferrous alloys hard cutting alloys, all types
Decolorizer for glass
Dryers
Ground Coat Frit
Hard Facing Compounds
Laboratory and Research Equipment
Pharmaceuticals
Plating
Pigment for glass wherever needed for optical or safety purposes.
Health Supplies (as defined in Preference Rating Order P–29 as the same may be amended, to the extent a preference rating of A–10, or higher, is assigned under said Order for the delivery of Cobalt in the manufacture of any such supplies.)

PART 1010—SUSPENSION ORDERS

Amendment to Suspension Order No. S–10[1]*—Acme Aluminum Foundry Co.*

Section 1010.10 (*Suspension Order No. S–10*) issued by the Director of Industry Operations on February 3, 1942, is hereby amended by striking out the words "Canton, Ohio," wherever they appear and substituting in place and stead thereof the words, "Chicago, Illinois".

This Amendment shall take effect immediately. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 6th day of February 1942.

PART 1010—SUSPENSION ORDERS

Suspension Order No. S–11—Hurley Machine Division of Electric Household Utilities Corp.

Hurley Machine Division of Electric Household Utilities Corporation of Chicago, Illinois, is a manufacturer of domestic laundry equipment and is subject to the provisions of Limitation Order L–6 and Supplementary General Limitation Order L–6–a[1] restricting the production of domestic laundry equipment. The quota for the Hurley Machine Division, established under Limitation Order L–6[2] and Supplementary General Limitation Order L–6–a, for the months of September, October, November, and December for the year 1941, was 44,376 electric washing machines and electric ironers. With full knowledge of this restriction, the Hurley Machine Division, during the months of September, October, November, and December of the year 1941, produced 76,770 electric washing machines and electric ironers.

By reason of this wilful violation of the provisions of Limitation Order L–6 and Supplementary General Limitation Order L–6–a, the Hurley Machine Division of the Electric Household Utilities Corporation has obstructed the impartial administration of the Priorities System. In view of the foregoing facts,

It is hereby ordered:

§ 1010.11 *Suspension order S–11.* (a) During the period in which this Order shall be in effect, the Hurley Machine Division of Electric Household Utilities Corporation, its successors and assigns, shall accept no deliveries from any source of electric washing machine parts or electric ironer parts, except as specifically authorized by the Director of Industry Operations.

(b) During the period in which this Order shall be in effect, Hurley Machine Division of Electric Household Utilities Corporation, its successors and assigns, shall not process, assemble, or produce electric washing machines, electric ironing machines, parts for electric washing machines, or parts for electric ironing machines, except as specifically authorized by the Director of Industry Operations.

(c) During the period in which this Order shall be in effect, Hurley Machine Division of Electric Household Utilities Corporation, its successors and assigns, shall not transfer or deliver electric washing machines, electric ironing machines, parts for electric washing machines, or parts for electric ironing machines, except as specifically authorized by the Director of Industry Operations: *Provided, however,* That Hurley Machine Division of Electric Household Utilities Corporation may deliver or transfer such machines, or the parts thereof, for the purpose of storing the same for their own account.

(d) This Order shall take effect immediately and. unless sooner terminated by further order of the Director of Industry Operations, shall expire at midnight of July 31, 1942. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 76th Cong., 3d Sess., as amended by Public No. 89, 77th Cong., 1st Sess.)

Issued this 6th day of February 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42–1136; Filed, February 6, 1942; 2:41 p. m.]

PART 1028—DOMESTIC COOKING APPLIANCES

Amendment No. 1 to General Limitation Order No. L–23

It is hereby ordered that:

Subparagraph (b) (8) of § 1028.1 (*General Limitation Order L–23*)[1] is hereby amended to read as follows:

(8) No copper, nickel, chromium, or aluminum shall be put into process for the manufacture of parts for Domestic Cooking Appliances, except for functional parts where the use of any less scarce material would seriously impair proper operation. Insofar as any other Order issued, or to be issued hereafter, limits the use of any material in the production of Domestic Cooking Appliances to a greater extent than the limits imposed by this Order the restrictions in such other order shall govern unless otherwise specified therein.

This amendment shall take effect immediately. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. PART 1050—DISTILLED SPIRITS

Supplementary Order No. 2 to General Preference Order No. M–69 to Conserve the Supply and Direct the Distribution of Distilled Spirits

§ 1050.3 *Supplementary order 2.* (a) When available storage capacity for Distilled Spirits has been filled, operation of paragraph (c) of § 1050.1 (*General Preference Order No. M–69*)[1] is suspended until February 8, 1942. The foregoing shall be operative only to the extent that allocation orders heretofore and hereafter issued by the Director of Priorities are not affected.

(b) This Order shall take effect as of February 1, 1942. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 1st day of February 1942.

PART 1091—CORUNDUM

General Preference Order M–89 to Conserve the Supply and Direct the Distribution of Corundum

Whereas, National defense requirements have created a shortage of Corundum (as hereafter defined) for the combined needs of defense and private account, and the supply of Corundum now is and will be insufficient for defense and essential civilian requirements, unless the supply of Corundum is conserved and its use in certain products manufactured for civilian use is curtailed; and it is necessary in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution and use thereof

Now, therefore, it is hereby ordered that:

§ 1091.1 *General Preference Order M–89*—(a) *Definitions.* For the purposes of this Order:

(1) "Corundum" means naturally occurring crystalline anhydrous aluminum oxide suitable for abrasive use and not artificially bonded. Emery, ruby and sapphire are specifically excluded.

(2) "Supplier" means any person who offers Corundum for sale.

(b) *Restrictions on delivery.* After the effective date of this Order, no Supplier shall make delivery of Corundum except as authorized by the Director of Industry Operations. The Director will from time to time allocate the supply of Corundum and specifically direct the manner and quantities in which deliveries to particular persons or for particular uses shall be made or withheld. Such allocations and directions will be made to insure the satisfaction of defense requirements of the United States, both direct and indirect, and they may be made, in the discretion of the Director of Industry Operations, without regard to any preference ratings assigned to particular contracts or purchase orders. The Director may also take into consideration the possible dislocation of labor and the necessity of keeping a plant in operation so that it may be able to fulfill defense orders and essential civilian requirements.

(c) *Reports.* On or before February 20, 1942, and on or before the 10th day of each calendar month thereafter, each Supplier shall file with the War Production Board all the information required by Form PD–293.

(d) *Miscellaneous provisions*—(1) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subjected to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(2) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of corundum conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense work to defense work, may appeal to the War Production Board, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to:

War Production Board, Social Security Building, Washington, D. C. Reference: M–89.

(4) *Violations.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(5) *Effective date.* This Order shall take effect immediately and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, Amended, Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1 Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040; Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public No. 671, 76th Congress, Third Session, as amended by Public No. 89, 77th Congress, First Session)

Issued this 7th day of February, 1942.

Director of Industry Operations.

PART 1102—AGAR

General Preference Order No. M–96 To Conserve the Supply and Direct the Distribution of Agar

Whereas, it appears that the fulfillment of requirements for the defense of the United States will result in a shortage in the supply of Agar for the combined needs of defense, private account and export, and it is necessary in the public interest and to promote the defense of the United States to conserve the supply and direct the distribution of Agar.

Now, therefore, it is hereby ordered, That:

§ 1102.1 *General Preference Order M–96*—(a) *Applicability of Priorities Regulation No. 1.*[1] This Order and all transactions affected hereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Additional definitions.* As used in this Order:

(1) "Agar" means the dried mucilaginous substance extracted from the *Gelidium corneum* and other species of Gelidium and closely related algae; known as "Agar-Agar", Chinese Gelatin", "Japanese Gelatin"; and not heretofore so processed as to be rendered unfit for use in the preparation of bacteriological media.

(2) "Bacteriological Media" means those products intended to meet the general and specialized nutritional requirements for bacteria under culture.

(c) *Restrictions on the sale or use of Agar.* No person may buy any Agar the sale of which is forbidden by this Order. Notwithstanding anything in Priorities Regulation No. 1, as amended, to the contrary no person having in his possession or under his control on the date of this Order, or subsequently acquiring any Agar, shall use or sell any such Agar, except as specifically ordered by the Director of Industry Operations, or for incorporation into Bacteriological Media, *provided* that any person seeking to purchase Agar for such incorporation shall furnish to the seller in duplicate a statement in writing, manually signed by a responsible official, certifying that the Agar is to be so used. Such statement shall be substantially in the following form:

I require ------ pounds of Agar for incorporation into bacteriological media. I have ------ pounds in my possession or under my control, leaving a shortage of ------ pounds which I must fill by purchase.

Name ----------

By ----------

A copy of such statement shall be filed by the seller with the War Production Board. Such statement shall constitute a representation to the War Production Board and the seller of the facts stated therein. The seller shall be entitled to rely on such representation unless he knows or has reason to believe it to be false. Any person making such a representation may use such Agar only for the purpose specified.

(d) *Applicability of Order.* This Order does not apply to the use or sale of any Agar which on the date of this Order was in the possession or control of any person who then possessed or controlled less than fifty (50) pounds of Agar, nor to purchases by importers of Agar to be delivered from outside the continental United States, but any subsequent dealing in Agar, after its importation, is governed by this Order.

(e) *Reports.* Every person having more than fifty (50) pounds of Agar in his possession or control on the date of this Order shall report the quantity such person has in his possession or control in writing to the War Production Board within fifteen (15) days subsequent to the date of this Order, and such persons, and any other persons participating in any transactions to which this Order applies shall execute and file with the War Production Board such other reports and questionnaires as said Board shall from time to time request. Failure on the part of any person to report as prescribed by this Order shall be deemed a representation to the Government that such person had less than fifty (50) pounds of Agar in his possession or control on the date of this Order, and participated in no transaction to which this Order applies.

(f) *Appeals.* Any person affected by this Order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board, setting forth pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(g) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Health Supplies Branch, Washington, D. C. Ref: M–96.

(h) *Violations.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U. S. C. 80).

(i) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, amended, December 23, 1941, 6 F.R. 6680, W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F. R. 527; sec. 2 (a), Pub. CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1306—IRON AND STEEL

AMENDMENT NO. 3 TO PRICE SCHEDULE NO. 46—RELAYING RAIL

A new subparagraph (3) is added to § 1306.260 (c) as set forth below:

§ 1306.260 *Appendix A; maximum prices for relaying rail.*

* * * * *

(c) *Maximum prices for relaying rail sold from warehouses.*

* * * * *

(3) Firm commitments entered into prior to February 7, 1942 for the sale of relaying rail pursuant to paragraph (c) of this section at prices not exceeding $1.60 cwt. f. o. b. warehouse for quantities of 25 gross tons and over may be completed at contract prices, provided that all deliveries pursuant to such firm commitments are completed on or before March 15, 1942. (E.O. Nos. 8743, 8875, 6 F.R. 1917, 4483)

This amendment No. 3 shall become effective February 7, 1942. Issued this 7th day of February 1942.

PART 1307—RAW MATERIALS FOR COTTON TEXTILES

AMENDMENT NO. 8 TO PRICE SCHEDULE NO. 7—COMBED COTTON YARNS AND THE PROCESSING THEREOF

Section 1316.12 is hereby amended so that paragraph (a), the caption of paragraph (d), and subparagraph (1) of paragraph (d) shall read as follows:

§ 1307.12 *Appendix A; maximum prices for combed yarns and for mercerizing, bleaching, and/or gassing thereof*—(a) *Arrangement of appendix.* Paragraph (b) sets forth the terms of sale and of delivery to be observed in connection with the maximum prices established in this Schedule.

Paragraph (c) recapitulates the maximum prices established for grey combed yarns prior to December 24, 1941. Grey combed yarns delivered against contracts entered into prior to that date are subject to these maximum prices.

Paragraph (d) contains maximum prices applicable to (1) all sales and deliveries of single, two and three-ply grey combed yarns except (i) deliveries against contracts entered into prior to December 24, 1941, and (ii) sales (and deliveries in pursuance thereof) made between said date and February 2, 1942, inclusive, of such yarns to be exported outside the territory of the United States, regardless of whether such export is to be effected through a middleman; (2) all sales and deliveries of grey combed yarn of four or more ply and of mercerized, bleached, and/or gassed combed yarns on or after February 3, 1942; and (3) all contracts for commission mercerizing, bleaching, and/or gassing entered into on or after February 3, 1942 and all deliveries after that date of yarn mercerized, bleached, and/or gassed on commission.

* * * * *

(d) *Maximum prices for combed yarns not covered by contract prior to December 24, 1941, and for mercerizing, bleaching, and/or gassing*—(1) *Applicability of maximum prices in paragraph (d).* The maximum prices established in paragraph (d) apply to all sales and deliveries of single, two and three-ply grey combed yarns on and after December 24, 1941, except (i) deliveries against contracts entered into prior to December 24, 1941, and (ii) sales (and deliveries in pursuance thereof) made between said date and February 2, 1942, inclusive, of such yarns to be exported outside the territory of the United States, regardless of whether such export is to be effected through a middleman; to all sales and deliveries of grey combed yarn of four or more ply and of mercerized, bleached, and/or gassed combed yarns on or after February 3, 1942; and to all contracts for and deliveries against contracts for commission mercerizing, bleaching, and/or gassing of combed yarn after February 3, 1942. (E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

PART 1309—COPPER AND COPPER ALLOYS

CORRECTION TO AMENDMENTS NO. 3 AND 4 TO PRICE SCHEDULE NO. 20—COPPER AND COPPER ALLOY SCRAP

Amendments No. 3[1] and 4,[2] respectively, to Price Schedule No. 20 should have been designated as Amendments Nos. 2 and 3, respectively, and Amendment No. 4 should have stated that the title of Price Schedule No. 20 had been amended to read "Copper and Copper Alloy Scrap" instead of "Copper Scrap."

PART 1312—LUMBER AND LUMBER PRODUCTS

AMENDMENT NO. 2 TO PRICE SCHEDULE NO. 13—DOUGLAS FIR PEELER LOGS AND DOUGLAS FIR PLYWOOD

The title, the preamble, and §§ 1312.1 to 1312.09, inclusive, are hereby amended and renumbered to read as set forth below:

Price Schedule No. 13—Douglas Fir Plywood

Douglas fir plywood, made primarily from Douglas fir peeler logs, is widely used as a building material, as a form for concrete shapes, as lining for the inside of freight cars and trucks, and as a display material. In the defense program, it has been extensively employed in the construction industry, and in the production of aircraft, pontoon bridges, and small boats. The recent increased use of plywood stemming from the defense program and the accompanying expanded economic activity has so increased demand for plywood that current requirements considerably exceed the existing capacity of the industry. As a consequence, inflationary pressure has been exerted upon the prices of these products, causing them to rise greatly in excess of previously existing levels in the industry. Such price increases have markedly outstripped cost advances. Certain members of the plywood industry have refused to cooperate voluntarily with the Office of Price Administration in maintaining stable prices, and those producers who have cooperated by withdrawing price increases have therefore been subjected to unjust discrimination.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1312.1 *Maximum prices for Douglas fir plywood.* On and after February 20, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver, or transfer, for domestic or export use, any Douglas fir plywood, where the shipment originates at the mill rather than at a distribution plant, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1312.10.*

*§§ 1312.1 to 1312.10, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1312.2 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid, or offered.*

§ 1312.3 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of Douglas fir plywood, alone or in conjunction with any other material; or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege; or by tying-agreement, or other trade understanding; or by making terms or conditions of sale more onerous than those in effect or available to the purchaser on August 1, 1941; or by unnecessarily routing plywood through a distribution plant; or by any other means.*

§ 1312.4 *Records and reports.* Every person who, during any calendar month, shall sell one or more carloads of Douglas fir plywood for shipment originating at the mill shall keep for inspection by the office of Price Administration, for a period of not less than one year, complete and accurate records of each such sale, showing the date thereof, the name and address of the buyer, the prices, and the quantities and grades sold.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1312.5 *Enforcement.* In the event of refusal or failure to abide by the price limitations record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof, (b) that the powers of the Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule, and (c) that the procurement and other services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of Douglas fir plywood, or the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1312.6 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided,* That no application under this section will be considered unless filed by persons complying with this Schedule.*

§ 1312.7 *Definitions.* When used in this Schedule the term:

(a) "Person" means an individual, partnership, association, corporation or other business entity.

(b) "Mill" means a factory or plant which processes Douglas fir peeler logs into Douglas fir plywood.

(c) "Manufacturer" means a person operating a mill.

(d) "Less than carload" means a quantity of one or more grades or sizes of Douglas fir plywood, the aggregate weight of which is less than 38,000 pounds. Either Douglas fir doors or Douglas fir millwork, or both, may be included with plywood in computing such aggregate weight.

(e) "Distribution plant" means a wholesale or retail warehouse or yard which purchases or receives Douglas fir plywood from a mill or another distribution plant for purposes of unloading and resale or redistribution, and which regularly maintains a stock of plywood.*

§ 1312.8 *Delivered prices.* A delivered price in excess of the maximum f. o. b. mill prices set forth in Appendix A may be charged, consisting of such maximum prices plus actual transportation costs paid by the seller. However, for the purposes of this section, the following two practices shall not be deemed a deviation from the use of actual transportation costs:

(a) The charging of a sum equivalent to the one-twentieth of a dollar nearest to such actual transportation costs; and

[1] 7 F.R. 713.
[2] 7 F.R. 815.

(b) the computation of transportation costs on the basis of a system of estimated average weights used by the seller during the month of July, 1941: *Provided*, That a copy of such system of estimated average weights has been filed with the Office of Price Administration either before the use of such system in a transaction subject to this Schedule as amended in Amendment No. 2, or within thirty days of the effective date of this Amendment.*

§ 1312.9 *Effective date of Schedule.* This Schedule (§§ 1312.1 to 1312.10, inclusive) shall become effective August 5, 1941.*

This amendment No. 2 (amending the title, the preamble and §§ 1312.1 to 1312.09, inclusive) shall become effective February 20, 1942. Issued this 7th day of February 1942.

PART 1330—CONTAINERS

AMENDMENT NO. 2 TO PRICE SCHEDULE NO. 55—SECOND HAND BAGS

Section 1330.59 is hereby amended to read as follows:

§ 1330.59 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Second-hand bag" means a container composed of burlap, jute, sisal, cotton cloth, gunny cloth, or other textile material which has been used once or more to package any product and thereafter emptied, and sold for re-use as a container, and shall include all containers manufactured from any such material which has itself been used once or more as a container or for any other commercial purpose. (E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This Amendment No. 2 shall become effective February 7, 1942. Issued this 7th day of February 1942.

PART 1337—RAYON

AMENDMENT NO. 2 TO PRICE SCHEDULE NO. 23—RAYON GREY GOODS

Section 1337.22 is hereby amended by adding thereto a new paragraph (b) to read as follows:

§ 1337.22 *Appendix A; maximum prices for rayon grey goods.*

* * * * *

(b) The maximum price for any construction of rayon grey goods not enumerated above shall be a price in line with the maximum price for the nearest related construction so enumerated. The term "in line with" means having a price with commensurate increases or dejustifiable relation to such maximum creases to give effect to the differences in costs of the yarn used and in weaving costs, taking into account changes in (1) the number of picks, (2) the number of ends, (3) the width and (4) the weave: *Provided*, That firm commitments entered into prior to February 9, 1942 for the sale of rayon grey goods at prices not exceeding the maximum prices established by this Schedule prior to February 9, 1942 may be completed at contract prices. (E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This Amendment shall become effective February 7, 1942. Issued this 7th day of February, 1942.

PART 1339—BURLAP AND BURLAP PRODUCTS

AMENDMENT NO. 1 TO PRICE SCHEDULE NO. 18

Section 1339.9 is hereby amended, and a new paragraph is added at the end of § 1339.11, to read as follows:

§ 1339.9 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Burlap" means jute burlap (whether new, stained, second hand, or re-sewn) of the constructions listed in Appendix A when either (1) in the United States available for immediate delivery or (2) aboard vessels en route to the United States.

§ 1339.11 *Appendix A; maximum prices for burlap.*

* * * * *

The maximum price for re-sewn burlap which contains more than one of the above constructions shall be the maximum price for the construction contained therein which has the lowest established maximum price.
(E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This Amendment No. 1 shall become effective February 7, 1942. Issued this 7th day of February 1942.

PART 1340—FUEL

AMENDMENT NO. 2 TO PRICE SCHEDULE NO. 88[1]—PETROLEUM AND PETROLEUM PRODUCTS

Section 1340.151 is amended to read as set forth below. § 1340.159 is hereby amended as follows: Subparagraph (b) (2) is amended and subparagraphs (4), (5) and (6) are added to (b) as set forth below.

§ 1340.151 *Maximum prices for petroleum and petroleum products.* On and after February 2, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, except as provided in § 1340.159, no person shall sell, offer to sell, deliver or transfer petroleum or petroleum products, and no person shall buy, offer to buy, or accept delivery of crude petroleum at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1340.159.

§ 1340.159 *Appendix A, maximum prices for petroleum and petroleum products.*

* * * * *

(b) *Petroleum products.*

* * * * *

(2) Where the maximum price for a petroleum product at a given shipping or delivery point cannot be determined under subparagraph (1) of this section the maximum price for each seller at such shipping or delivery point shall not exceed the price charged at that point by him on the last sale of a substantial quantity of the same product within sixty days prior to October 15, 1941. Where the product is sold on a delivered basis at a given point the maximum price shall be the price charged on the last sale of a substantial quantity of the same product made on a delivered basis at that point in the period specified. Where the product is sold at a given point on an f. o. b. shipping point basis, the maximum price shall be the price charged on the last f. o. b. shipping point sale at that point of a substantial quantity of the same product in the period specified.

* * * * *

(4) Notwithstanding (1), (2) and (3), where contracts covering domestic sales of petroleum products had been made prior to November 10, 1941, the prices in such contracts may be charged pursuant to such contracts up to and including March 1, 1942.

(5) Notwithstanding (1), (2) and (3), where contracts covering export sales of petroleum products had been made prior to January 20, 1942, the prices in such contracts may be charged pursuant to such contracts up to and including March 1, 1942.

(6) Notwithstanding (1), (2) and (3), sales of petroleum products may be made up to and including March 1, 1942 under the following provisions:

(i) The maximum price on each product sold, contracted to be sold, delivered, or transferred by a seller shall be the lowest quoted price published in the first issue after November 7, 1941 of the *National Petroleum News, Platt's Oilgram*, or the *Chicago Journal of Commerce*, for a product of the same class, kind, type, condition and grade. Where such products are sold and prices are quoted on a delivered basis, then the maximum delivered price shall be the lowest quoted delivered price so published. Where products are sold and prices are quoted on an f. o. b. shipping point basis, then the maximum f. o. b. price shall be the lowest quoted f. o. b. price so published.

(ii) Where the maximum price for products at a given shipping or delivery point cannot be determined under (i) above, sellers may sell such products at

PART 1356—COOKERS AND HEATERS

AMENDMENT NO. 1 TO PRICE SCHEDULE NO. 64—DOMESTIC COOKING AND HEATING STOVES

Sections 1356.1 (a), 1356.1 (d) and 1356.11 (b) are amended to read as set forth below and a new paragraph (e) is added to 1356.1:

§ 1356.1 *Maximum prices for stoves*—(a) (1) *Stoves offered for sale during the period January 15–June 1, 1941, inclusive.* The maximum price for any stove, other than a private brand stove, identical with a stove offered for sale by the manufacturer during the period January 15–June 1, 1941, inclusive (or differing therefrom only by such changes in specifications as are authorized in § 1356.4), shall be 112% of the lowest net price quoted by him during such period for the sale of such stove, to the same purchaser or to a purchaser in the same general class, except as set forth in subparagraph (2) of this paragraph (a).

(2) In the case of the Renown Stove Company, the maximum prices for models 1005—Cameo, 1015—Cameo, 1105—Crest, and 1115—Crest, shall be the prices in effect on February 2, 1942.

* * * * *

(d) *Other stoves.* The maximum price for any stove (other than a stove sold or delivered pursuant to a cost-plus contract) which differs in specifications from any stove referred to in paragraphs (a) or (b) of this section, and which may be offered for sale under § 1356.4, shall be the price approved in writing by the Office of Price Administration after the manufacturer has submitted to it an application containing (1) the proposed price and specifications of such stove, and (2) such other data as the Office of Price Administration may request; and no sale, offer to sell, deliver, or transfer of such stove shall be made until such approval shall have been given.

(1) *Approved prices.* The maximum prices for the following models of stoves of the designated manufacturers shall be the prices in effect on February 2, 1942:

The Dixie Foundry Company, Cleveland, Tennessee, Models 2R30, 7R57, and 7R17;
The Majestic Manufacturing Company, St. Louis, Missouri, Models FB–120, FB–121, FB–122, FB–123, FB–130, FB–131, FB–132, FB–133, FB–020, FB–021, FB–022, FB–023, FB–030, FB–031, FB–032, FB–033, FS–120, FS–121, FS–130, FS–131, FS–020, FS–021, FS–030, FS–031, F–55–1, F–56–1, FL–57–1, FR–57–1, F–2, A–16–122, B–16–122, G–16–122, H–16–122;

PART 1380—HOUSEHOLD AND SERVICE INDUSTRY MACHINES

PRICE SCHEDULE NO. 102—HOUSEHOLD MECHANICAL REFRIGERATORS

Household mechanical refrigerators are of considerable importance to the consuming public. Between January and June, 1941, manufacturers' prices on these refrigerators were revised upwards on three occasions and advanced on the average 5.9 per cent. On June 23 the Office of Price Administration requested refrigerator manufacturers not to make further increases without consultation with this Office. Thereafter, no price increases have become effective without the approval of the Office of Price Administration and this approval has been granted only on the basis of a demonstrated rise in costs of production. In effect, therefore, the present level of prices accords with that prevailing between October 1 and October 15, 1941, with necessary adjustments for these increased costs for all companies except the General Electric Company and the Frigidaire Division of General Motors Corporation who have not yet submitted their cost figures.

After investigation it has been determined that efficient administration, and uniform treatment of all manufacturers, make advisable the formalization of the existing arrangement by the issuance of a price schedule.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1380.51 *Maximum prices for household mechanical refrigerators.* On and after February 9, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no manufacturer shall sell, offer to sell, deliver or transfer any model of household mechanical refrigerator at a price higher than the maximum price:

(a) *Manufacturer's brand household mechanical refrigerators.* (1) In the case of all manufacturers who have had price lists on 1942 models approved by the Office of Price Administration, the maximum price, exclusive of federal excise tax, for any model of household mechanical refrigerator sold under the manufacturer's brand during the two-month period ended February 2, 1942, shall be the net price quoted to the same general class of purchasers for such model in the manufacturer's price list in effect on February 2, 1942.

(2) In the case of all other manufacturers, the maximum price, exclusive of federal excise tax, for any model manufactured for sale under the manufacturer's brand during the two-month period ended February 2, 1942, shall be the net price quoted to the same general class of purchaser for the most comparable model in the most recent 1941 price list, until a new price list has been approved by the Office of Price Administration.

(b) *Private brand household mechanical refrigerators.* The maximum price, exclusive of federal excise tax, for any model of household mechanical refrigerator sold under a brand other than the manufacturer's brand during the two-month period ended February 2, 1942, shall be the highest price, exclusive of federal excise tax, specified for such model in a contract with a purchaser of the same general class in effect on February 2, 1942.

(c) *New models.* The maximum price for any 1942 model not manufactured or offered for sale before February 2, 1942, and for any other model not offered for sale by the manufacturer in the two-month period ended February 2, 1942, shall be the price approved in writing by the Office of Price Administration after the submission to it of a report in accordance with § 1380.54 (c), and no sale, offer to sell, delivery or transfer of such model shall be made until such approval shall have been given.*

*§§ 1380.51 to 1380.59, inclusive, issued pursuant to authority contained in Executive Orders Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1380.52 *Less than maximum prices.* Lower prices than those established by this Schedule may be charged, demanded, paid, or offered.*

§ 1380.53 *Evasion.* The limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with the manufacturing or assembling of household mechanical refrigerators by deterioration of quality or performance thereof, or in connection with a purchase, sale, or transfer of household mechanical refrigerators, alone or in conjunction with any other material, or by way of any commission, service, transportation or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding, or by decreasing cash discounts, allowances for or absorption of transportation costs, or by any other means.*

§ 1380.54 *Reports.* (a) *Present line.* On or before February 25, 1942, every manufacturer shall submit to the Office of Price Administration a report on all models currently offered for sale, giving the maximum price established for each model by § 1380.51, the specifications, and the terms of sale. Manufacturers who have already submitted all or any part of this information need not duplicate such material but shall send a reference to the material already submitted.

(b) *Approval of price lists.* Manufacturers who have not had price lists on 1942 models approved, may submit to the Office of Price Administration price lists on 1942 models for approval, giving the necessary description of the models, cost, profit, and other information which may be required by the Office of Price Administration.

(c) *New models.* Manufacturers wishing to offer for sale a new model as defined in § 1380.51 (c) shall submit to the Office of Price Administration a report on such model, giving proposed maximum price, the specifications and the terms of sale.

Persons affected by this Schedule shall submit such other reports to the Office of Price Administration as it may, from time to time, require.*

§ 1380.55 *Records.* Every manufacturer making sales of household mechanical refrigerators on or after February 9, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such sale showing the date of billing, the name and address of the buyer, the name, number or other designation and the price received for each household mechanical refrigerator, the quantity of each household mechanical refrigerator sold, and discounts and allowances of any nature given.*

§ 1380.56 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and the interest of those persons who comply with this Schedule; and (c) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the receipt or demand of prices higher than the maximum prices or of any evasion or effort to evade the provisions hereof, or of the speculations, or manipulation of prices of household mechanical refrigerators, or of the hoarding or accumulation of unnecessary inventories thereof are urged to communicate with the Office of Price Administration.*

§ 1380.57 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided,* That no application under this section will be considered unless filed by persons complying with this Schedule.*

§ 1380.58 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity;

(b) "Manufacturer" means a person operating a factory or plant which manufactures or assembles household mechanical refrigerators;

(c) "Household mechanical refrigerator" means any refrigerator for household use which operates either by compression or by absorption;

(d) "Model" means any combination of size and specifications of equipment;

(e) "Net price quoted" means the actual price, exclusive of federal excise tax, but including charges for warranty and cooperative advertising, to be received by the manufacturer, f. o. b. seller's point of shipment, or delivered to the purchaser, whichever the price list specifies.*

§ 1380.59 *Effective date of the Schedule.* This Schedule shall become effective February 9, 1942.*

Issued this 4th day of February 1942.

LEON HENDERSON,
Administrator.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

CHAPTER I—COAST GUARD

PART 7—ANCHORAGE AND MOVEMENTS OF VESSELS AND THE LADING AND DISCHARGING OF EXPLOSIVE OR INFLAMMABLE MATERIAL, OR OTHER DANGEROUS CARGO

Pursuant to the authority contained in section 1, Title II of the Act of June 15, 1917, 40 Stat. 220 (50 U. S. C. 191), as amended by the Act of November 15, 1941 (Public Law 292, 77th Congress), and by virtue of the Proclamation and Executive Order issued June 27, 1940 (5 F. R. 2419) and November 1, 1941 (6 F. R. 5581), respectively, the Rules and Regulations Governing the Anchorage and Movements of Vessels and the Lading and Discharging of Explosive or Inflammable Material, or Other Dangerous Cargo, approved October 29, 1940 (5 F. R. 4401), as amended, are hereby further amended as follows:

Section 7.10 (c) (18) is amended by adding the following subparagraphs:

Savin Hill Yacht Club, Massachusetts. Northerly of a line having a bearing of 64° true from the stack of the old power plant of the Boston Elevated Railway on Freeport Street in Dorchester; westerly of a line having a bearing of 163° true from the stack of the Boston Main Drainage Pumping Station on the Cow Pasture in Dorchester; southerly of the shore line; and easterly of the shore line.

Wollaston and Squantum Yacht Clubs, Massachusetts. Northwesterly of a line having a bearing of 36° 30′ true from a point on the shore 2600 feet easterly of the east side of the Wollaston Yacht Club landing; southwesterly of a line having a bearing of 129° 15′ true from the water tank in Squantum; southeasterly of the shore line; and northeasterly of the shore line.

Boston Harbor, at Winthrop, Massachusetts. Southerly of a line having a bearing of 276° true from a point on the west side of Pleasant Street, Winthrop, Mass., 360 feet from the southwest corner of its intersection with Main Street; westerly of a line having a bearing of 186° true from a point on the south side of Main Street 140 feet from the southwest corner of its intersection with Pleasant Street; northerly of a line having a bearing of 256° true from a point on the west side of Pleasant Street 550 feet from the southwest corner of its intersection with Main Street; and easterly of a line having a bearing of 182° true from a point on the south side of Main Street 640 feet from the southwest corner of its intersection with Pleasant Street.

Beverly Creek, Massachusetts. All of the area upstream of the highway bridge (Popes Bridge) outside of the dredged channel.

Onset Bay, Massachusetts. Northerly of a line joining the northernmost point of Onset Island and the easternmost point of Wickets Island; easterly of a line joining the easternmost point of Wickets Island and the southwest extremity of Point Independence; southerly of the shore line; and westerly of the shore line and a line bearing due north from the northernmost point of Onset Island.

Plymouth Harbor, Massachusetts. Southeasterly of a line having a bearing of 39° true from Splitting Knife front range light; southwesterly of a line having a bearing of 123° true from a point on the southeast face of the State Pier, 40 feet from the northeast corner (intersection of the northeast and southeast faces produced) of said pier; westerly of a line having a bearing of 356° true from the northeast corner of the Pilgrim Yacht Club wharf; and northeasterly of the shore line.

Salem Harbor, Massachusetts. That part of the harbor lying southwesterly of a line starting from the eastern extremity of Long Point and bearing 116° true to a point bearing 20° true from the beacon southeast of Pickering Point; thence bearing 160° true to a point bearing 47° true from the aforesaid beacon; thence bearing 99° true to the shore; provided that boats shall anchor so as not to obstruct the dredged channel and basin to the Dion Boat Yard.

Parker River, Massachusetts. That portion of the river extending about 3,800 feet downstream from the highway bridge on Route 1A; provided that boats shall anchor in such a manner as to leave a clear approach to the bridge at least 100 feet wide following generally the deepest water.

San Luis Obispo Bay, California. Eastward of the San Luis Obispo County wharf, northward of a line bearing 116° true from the southeast corner of San

Luis Obispo County wharf, westward of a line bearing 210° true from the most seaward extremity of Fossil Point (see U. S. Coast & Geodetic Chart No. 5380).

Section 7.22 is amended as follows:

Anchorage A. Anchorage A is designated a Naval Anchorage. This anchorage shall be used only by Naval vessels, and by other vessels holding special permits issued by the Captain of the Port upon a finding that such special permits to anchor are not inimical to the requirements of the Navy.

FRANK KNOX,
Secretary of the Navy.

CHAPTER II—CORPS OF ENGINEERS, WAR DEPARTMENT

PART 203—BRIDGE REGULATIONS [1]

§ 203.305 *Baltimore Harbor, Md.; bridge (highway) at Hanover Street across Middle Branch of Patapsco River.* (a) When, at any time between the hours of 5 a. m. and 6:30 a. m., 9:30 a. m. and 4 p. m., and 6 p. m. and 9 p. m., a vessel, tug, or any water craft unable to pass under the bridge approaches it, the signal of intention to pass through the draw and for the draw to be opened shall be three blasts of a whistle or horn blown on the craft. When such signal is given, the bridge shall be immediately cleared, no vehicle or person not then on the drawspan shall be allowed to come upon it, and the draw shall be opened forthwith.

If the draw is ready to be opened immediately, the draw operator shall answer immediately by three blasts of a whistle or horn blown on the bridge; and if the draw is not ready to be opened immediately, he shall answer by one short blast of a whistle or horn blown on the bridge.

(b) The draw shall not be required to open to vessels between 6:30 a. m. and 9:30 a. m. and between 4 p. m. and 6 p. m., except in cases involving the passage of fire boats, police boats, and craft similarly engaged in emergency operations. An attendant shall be kept on duty during these periods.

(c) When a vessel, tug, or any water craft unable to pass under the bridge desires to pass through the draw at any time between the hours of 9 p. m. and 5 a. m., notice of such intention shall be given to the superintendent of the bridge by telephone or otherwise, either at the bridge before 9 p. m. or at his residence thereafter. If the notice is given between the hours of 5 a. m. and 9 p. m., or if at least one-half hour has elapsed since it was given, the draw shall be promptly opened at the time specified in the notice on signal given and answered as hereinbefore prescribed.

(d) The owner of the bridge shall keep conspicuously posted thereon, in such manner that it may be easily read at any time, a notice stating how the superintendent may be reached and shall arrange for ready telephonic communication with him at any time between 9 p. m. and 5 a. m., either from the bridge or from its immediate vicinity (Sec. 5, River and Harbor Act Aug. 18, 1894, 28 Stat. 362; 33 U.S.C. 499) [Regs. CHAPTER II—UNITED STATES MARITIME COMMISSION

[General Order No. 51]

PART 237—REPAIRS TO VESSELS UNDER BAREBOAT CHARTER

REPAIRS TO VESSELS BAREBOAT CHARTERED UNDER PUBLIC LAW NO. 101, 77TH CONGRESS

Whereas, Bareboat Charters of vessels, pursuant to the provisions of an Act of Congress approved June 6, 1941 (Public Law 101—77th Congress, Ch. 174, 1st Session) contain the following Articles or their equivalent:

Maintenance: All repairs to the vessels made by the charterer, not recoverable from insurance, shall be for the account of and borne by the owner and shall not be included as an item of vessel operating expense. Repairs are hereby defined as the replacement by duplication of, or restoration to satisfactory condition of, damaged or worn parts or vessels, their machinery and equipment, which are integral parts of the vessel, including the purchase of equipment and spares required by the classification societies, and any betterments; or

All repairs to the vessels shall be made by the charterer and the charterer shall be reimbursed by the Owner for the costs thereof to the extent not recoverable from insurance, and the costs so reimbursed shall not be included in vessel operating expense;

And, whereas, the condition of the Repair Industry as a whole during the past year has precluded active competitive bidding on repairs, thereby necessitating negotiation of repair contracts with limitations on profits; and

Whereas, it is essential that the cost of repairs for the owner's account be kept at the absolute minimum consistent with good operation, arrest of deterioration, safety of the vessel and its operating personnel; it is therefore ordered that:

§ 237.1 *Detailed repair specifications; payment and audit.* All required repairs and betterments (alterations and/or improvements) authorized for the owner's accounts shall be covered by specifications prepared by the charterer in sufficient detail to describe fully all items of work to be performed and shall be paid for by the charterer and allowed for reimbursement to the charterer by the owner at rates not exceeding those which would have been paid had such work been accomplished under an existing master contract between the owner and the repair company, or in the absence of such a master contract at rates not in excess of those then being currently paid by the owner to the repair company or to other repair companies in the vicinity, and the charterer in ordering any such work otherwise than upon a basis of proper competitive bids shall cause full right of audit to be reserved to the owner.*

*§§ 237.1 to 237.3, inclusive, issued under the authority contained in Public Law 101, 77th Cong., June 6, 1941.

§ 237.2 *Repairs outside United States prohibited; exceptions.* No repairs, except as hereinafter provided, shall be performed outside of the Continental limits of the United States without specific authorization in each instance of a representative of the Commission: *Provided, however,* That such specific authorization shall not be required in the case of repairs of an emergency nature required for the safety of a vessel for its return to the United States or such work as is required for convoy operating purposes.*

§ 237.3 *Consumption entries.* All consumption entries involving repairs in foreign ports shall be filed and handled to a conclusion with the United States Customs, including payment of all unremitted duties, such payments to be allowed for reimbursement to the charterer by the owner as an additional cost of such foreign repairs.*

By Order of the United States Maritime Commission.

DEPARTMENT OF THE INTERIOR

Bituminous Coal Division.

[Docket Nos. A-745, A-959]

PETITION OF JOSEPH F. STREMEL, A CODE MEMBER IN DISTRICT NO. 17, FOR MODIFICATION OF THE EFFECTIVE MINIMUM PRICES FOR THE COALS IN SIZE GROUP NO. 13 OF THE MINE INDEX NO. 442 IN THAT DISTRICT FOR LOCOMOTIVE FUEL USE; AND PETITION OF JOSEPH F. STREMEL, A CODE MEMBER IN DISTRICT NO. 17, FOR MODIFICATION OF THE EFFECTIVE MINIMUM PRICES FOR THE COALS OF MINE INDEX NO. 442 IN THAT DISTRICT

MEMORANDUM OPINION AND ORDER APPROVING AND ADOPTING THE PROPOSED FINDINGS OF FACT AND CONCLUSIONS OF LAW OF THE EXAMINER AND DENYING RELIEF

This proceeding was instituted upon original petitions filed with the Bituminous Coal Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, by Joseph F. Stremel, on March 14, 1941 (Docket No. A-745), and July 8, 1941 (Docket No. A-959). The petitioner, in Docket No. A-745, requests a reduction of 25 cents per ton in the effective minimum price established for the coal in Size Group 13 produced at petitioner's Crow Bar Mine (Mine Index No. 442) when sold for railroad locomotive fuel. In Docket No. A-959, the petitioner requests that the prices established for the Crow Bar Mine coals for all shipments be reduced 25 cents in all size groups.

District Board 17 filed answers herein on March 27, 1941 and July 15, 1941, requesting that the relief sought in the original petitions be denied, alleging, *inter alia*, that to grant such relief would adversely affect other coal producers in District 17.

On August 5, 1941, the Sleepy Cat Coal Company, a code member in District 17, intervened in Docket No. A-959 in support of the original petition and requested similar relief for the coals produced at its Sleepy Cat Mine (Mine Index No. 71).

By Order of the Acting Director, dated July 22, 1941, the dockets were consolidated and, pursuant to orders and notices duly issued, a hearing was held in this manner on August 11, 13 and 14, 1941 before D. C. McCurtain, a duly designated Examiner of the Bituminous Coal Division, at a hearing room of the Division in Denver, Colorado.

Thereafter, the Examiner made his Report, Proposed Findings of Fact and Conclusions of Law, dated October 9, 1941. Upon the basis thereof, he recommended the entry of an order denying the requests of the original petitioner and the intervener, the Sleepy Cat Coal Company. An opportunity was afforded all parties to file exceptions thereto and supporting briefs. On November 5, 1941, the original petitioner filed exceptions to the Examiner's Report. For the most part, the exceptions are merely arguments in opposition to the conclusions reached by the Examiner, rather than specific exceptions to the findings supporting those conclusions.

The petitioner contends that the coal produced at his Crow Bar Mine is inferior in certain characteristics, especially in moisture content, to certain competitive coals similarly priced, particularly those of the Harris Mine of the Colorado-Utah Coal Company and the Wadge Mine of the Victor-American Fuel Company. He contends that the difference in the quality of the latter coals and other higher priced coals is no greater than the difference in the quality of the Crow Bar Mine coals as compared with the coals produced at the Harris Mine, and thus concludes that the latter coals should be priced higher than the coals produced at his mine. After a review of the record, I find, as did the Examiner, that while the analysis submitted indicates that the petitioner's coal is inferior in moisture content, and heat value, in other analytical qualities his coal appears to be equal to or better than the Harris Mine coal, and, moreover, that recent analysis submitted for petitioner's coal cannot be considered as representative of that coal because samples were not taken in accordance with approved standards. The petitioner does not take exceptions to the Examiner's findings in this respect nor makes reference to any evidence in the record that would support a different finding.

The Examiner also found that while the production of all coal in Colorado has decreased in the past few years, the petitioner and intervener have steadily increased their production. The petitioner contends in substance that this is due to the fact that his mine, and other mines producing from the same seam level, have been in operation only a short time and must necessarily expand their markets, whereas the other mines of the district have had established markets, which have been affected by substitute fuels. The Examiner recognized that an increase in the production at the mines operated by petitioner and intervener was to be more or less expected, yet found there was no definite showing that the increase in production was below what could normally be expected, taking into consideration the investments, sales efforts, etc. A review of the record convinces me that the findings of the Examiner in this respect were proper.

Petitioner excepts to the statement of the Examiner that the testimony of witnesses for petitioner and intervener shows that their coals are comparable to the coals produced at the Hayden Valley Mutual and Babson Mines, and that these coals would be at a competitive disadvantage if the petitioner's request were granted. The petitioner states that he does not ask for relief individually but is satisfied and convinced that relief should also be extended to the coals of the other two mines. In answer to this exception, it is sufficient to note that neither of the petitions filed herein request that such relief be granted. In view of this fact, and since the operators of the Hayden Valley Mutual and the Babson Mines did not intervene or appear at the hearing, a revision in the prices established for their coals would not be proper in this proceeding. The undersigned points out, however, that the petitioner, or any other proper party, is not precluded from filing a subsequent petition requesting a revision in the prices established for the coals of the four mines which petitioner asserts are improperly priced, and states that any petition so filed will receive full consideration.

An exception is taken by the petitioner to the consideration by the Examiner of the testimony of Joseph F. Stremel in a previous hearing before the Division, regarding a reduction in the prices established for the coals of the Hayden Valley Mutual Mine, contending in effect that the petitioner's rights in this proceeding should not be decided on the basis of his testimony in a prior proceeding. While the petitioner's testimony in the prior proceeding is certainly not conclusive of his rights here, those prior statements can, if properly considered at the hearing, be used as a means of evaluating his testimony in the present proceeding. An examination of the Examiner's findings and the record shows that Stremel's prior testimony was only considered for this purpose.

The argument of the petitioner to the effect that the coordination of the coals in the district was established as a result of hearings held before his mine was in operation and since his coals were not considered in the coordination proceedings they are improperly priced, is without merit. The issue here is not a question of the basis upon which the prices for petitioner's coals were established, but whether or not those prices are proper and whether the fair competitive opportunities of other coals would be prejudiced by the granting of the relief sought.

The petitioner also excepts to the remarks of the Examiner pointing out that merely because the petitioner and intervener have received complaints from certain customers is not necessarily indicative of a price disadvantage, but that this may result from improper preparation of the coals at the mine, lack of sales organization, or from various other causes. A review of the record discloses that there was sufficient foundation for this statement.

The Examiner's findings regarding the amount of slack sold by the petitioner and the intervener to the railroad, in comparison to the amount sold by other producers, is adequately supported by the record, and the petitioner's exceptions thereto are not well taken. The undersigned has also examined the record in connection with petitioner's assertion that the Examiner overlooked the fact that purchasers of slack are not limited to railroads and that petitioner sells practically no slack at established prices to dealers. I find that the record evidence in this respect affords no justification for altering the conclusions reached by the Examiner.

Therefore, after a review of the record and upon the basis of the foregoing, I conclude that the Proposed Findings of Fact and Conclusions of Law of the Examiner are proper and should be adopted as the Findings of Fact and Conclusions of Law of the undersigned.

Now, therefore, it is ordered, That the Proposed Findings of Fact and Conclusions of Law of the Examiner be, and they hereby are, approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

It is further ordered, That the prayers of the original petitioner and intervener, the Sleepy Cat Coal Company, for a reduction in the minimum prices established for the coals produced at the Crow Bar and Sleepy Cat Mines be, and they hereby are, denied.

PETITION OF DISTRICT BOARD NO. 11 FOR THE ESTABLISHMENT OF AN ADDITIONAL RAIL LOADING POINT FOR THE COALS OF THE R. & G. MINE (MINE INDEX NO. 104) OF HENRY W. STRIETELMEIER, A CODE MEMBER IN DISTRICT NO. 11

ORDER POSTPONING HEARING

The original petitioner having moved that the hearing in the above-entitled matter, heretofore scheduled for February 11, 1942, be postponed until February 17, 1942, and having shown good cause why said motion should be granted;

Now, therefore, it is ordered, That the hearing in the above-entitled matter be and it hereby is postponed from 10 o'clock in the forenoon of February 11, 1942, until 10 o'clock in the forenoon of February 17, 1942, at the place and before W. A. Shipman, in place of the officer heretofore designated.

IN THE MATTER OF E. H. WASSON, REGISTERED DISTRIBUTOR, REGISTRATION NO. 9455, RESPONDENT

ORDER RESCHEDULING HEARING AND REDESIGNATING EXAMINER

The hearing in the above-entitled matter having been scheduled for January 9, 1942, at the Council Chambers, Muncie City Hall, Muncie, Indiana, by an Order of the Division dated November 22, 1941, and said hearing having been postponed by an Order of the Division dated January 2, 1942, to a date and place to be thereafter designated by an appropriate order; and

It appearing to the Acting Director that the place and date of said hearing should now be designated;

Now, therefore, it is ordered, That the hearing in the above-entitled matter be held on March 9, 1942, at 10 a. m. at the Muncie City Council Chambers, Muncie, Illinois.

It is further ordered, That Examiner Edward J. Hayes preside at said hearing vice Examiner W. A. Shipman; and

It is further ordered, That the Notice of and Order for Hearing dated November 22, 1941, as amended by Order of the Division herein, dated January 2, 1942, shall in all other respects remain in full force and effect.

Dated: February 5, 1942.

PETITION OF WILLIE DRAKE, A CODE MEMBER IN DISTRICT NO. 8, FOR REVISION OF THE EFFECTIVE MINIMUM PRICE FOR FORKED COAL PRODUCED FROM THE DRAKE MINE (MINE INDEX NO. 3307), FOR TRUCK SHIPMENT

ORDER TERMINATING PROCEEDING

Willie Drake filed an original petition in the above-entitled matter on September 25, 1941, praying for revision of the effective price classifications and minimum prices established for the coals of Drake Mine, Mine Index No. 3307, in District No. 8, for truck shipment.

Although the petitioner was notified by registered mail and by publication in the FEDERAL REGISTER that a hearing in the above-entitled matter was scheduled to be held at a hearing room of the Division on November 13, 1941, at 10 o'clock in the forenoon of that day at Washington, D. C., he failed to appear at the above-mentioned hearing. Moreover, the petitioner has not replied to the letter of December 19, 1941, from the Acting Director asking if he has any further interest in the above-entitled matter.

It appears, therefore, that the petitioner has no further interest in the above-entitled matter.

Now, therefore, it is ordered, That the original petition in the above-entitled matter be, and it hereby is, dismissed, and that this proceeding be terminated. Such dismissal shall, however, be without prejudice to the right of petitioner to file a petition in regard to the same matters pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: February 6, 1942.

PETITION OF NATIONAL COAL COMPANY, A CODE MEMBER IN DISTRICT NO. 12, REQUESTING MODIFICATION OF THE MINIMUM PRICES ESTABLISHED ON SHIPMENTS OF RAILROAD LOCOMOTIVE FUEL FROM PETITIONER'S NATIONAL MINE (MINE INDEX NO. 33) TO THE MINNEAPOLIS & ST. LOUIS RAILROAD AND TO THE CHICAGO GREAT WESTERN RAILROAD

ORDER DENYING RELIEF

An original petition having been filed with the Bituminous Coal Division on February 4, 1941, by National Coal Company, Inc., a code member in District 12, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting a reduction in the minimum f. o. b. mine prices established for the sale of railroad locomotive fuel produced at the National #1 Mine (Mine Index No. 33) to The Minneapolis & St. Louis Railroad Company and to the Chicago Great Western Railway Company;

District Boards 10 and 12 having filed petitions of intervention, opposing the requested relief;

Pursuant to Orders of the Director, a hearing and a rehearing in this matter having been held before duly designated Examiners of the Division at hearing rooms of the Division in Des Moines, Iowa, and Washington, D. C., respectively, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

The preparation and filing of a Report by the Examiner having been waived and the matter having been thereupon submitted to the undersigned;

Briefs having been filed by the petitioner and by District Board 12;

The undersigned having made Findings of Fact and Conclusions of Law and having rendered an Opinion in this matter, which are filed herewith; [1]

Now, therefore, it is ordered, That the prayer for relief contained in the original petition filed herein be, and it hereby is, denied.

Division of Public Contracts.

IN THE MATTER OF THE DETERMINATION OF THE PREVAILING MINIMUM WAGES IN THE STRUCTURAL STEEL FABRICATING INDUSTRY

NOTICE OF HEARING

All interested parties are hereby notified that a hearing will be held before the Public Contracts Board in Room 3229, Department of Labor Building, Washington, D. C., commencing at 10 a. m. on Thursday, February 26, 1942, to take testimony and receive evidence upon which findings of fact and recommendations will be made by the Board to assist the Secretary of Labor in determining the prevailing minimum wages in the Structural Steel Fabricating Industry pursuant to the provisions of section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Sup. III 35), otherwise known as the Walsh-Healey Public Contracts Act.

The Structural Steel Fabricating Industry is, for the purpose of this notice, that industry which fabricates according to plans and specifications steel or iron shapes, plates, and bars for use as the supporting, or self-supporting parts or members of buildings, bridges, electric transmission, radio, and other towers, and other shore structures, not including, however, the erecting of fabricated products in such structures or the fabricating of (a) concrete reinforcing bars, or (b) boilers, buoys, tanks, smokestacks, penstocks, or other products that are used for similar purposes.

At the hearing an opportunity to be heard, either in person or by duly appointed representatives, will be given to persons engaged in the above named industries, either as employers or as employees, to groups of such persons, and to others within the discretion of the Board. Briefs or telegraphic communications may be filed with the Administrator, Division of Public Contracts, Department of Labor, and they should be received on or before the hearing date. No form for the brief is prescribed, but an original and four copies must be submitted.

Wage data collected and compiled by a committee for the Structural Steel Fabricating Industry will be presented at the hearing. These data have been reproduced and will be sent on request made to the Administrator, Division of Public Contracts. Additional data will be presented by the International Association of Bridge, Structural and Ornamental Iron Workers. In order that the wage data presented at the hearing may be as representative of all sections of the industry as possible, other interested parties are invited to submit wage data or any other pertinent information.

The entire record will be considered by the Secretary of Labor before the wage determination is made.

NOTICE OF HEARING[1] ON THE MINIMUM WAGE RECOMMENDATION OF INDUSTRY COMMITTEE No. 40 FOR THE GLOVES AND MITTENS INDUSTRY, AND ON THE HOME WORK PROBLEM IN SUCH INDUSTRY

Whereas the Administrator of the Wage and Hour Division of the United States Department of Labor, acting pursuant to section 5 (b) of the Fair Labor Standards Act of 1938, on January 9, 1942, by Administrative Order No. 137, appointed Industry Committee No. 40 for the Gloves and Mittens Industry, composed of an equal number of representatives of the public, employers in the industry and employees in the industry, such representatives having been appointed with due regard to the geographical regions in which the industry is carried on; and

Whereas Industry Committee No. 40, on January 27, 1942, recommended a minimum wage rate for the Gloves and Mittens Industry and duly adopted a report containing such recommendation and reasons therefor and filed such report with the Administrator pursuant to section 8 (d) of the act and § 511.19 of the regulations issued under the act; and

Whereas, the administrator is required by section 8 (d) of the act, after due notice to interested persons and giving them an opportunity to be heard, to approve and carry into effect by order the minimum wage recommendation of Industry Committee No. 40 if he finds that the recommendation is made in accordance with law and is supported by evidence adduced at the hearing before him, and taking into consideration the same factors as are required to be considered by the Industry Committee, will carry out the purposes of section 8 of the act; and, if he finds otherwise, to disapprove such recommendation;

Now, therefore, notice is hereby given that:

I. The recommendation of Industry Committee No. 40 is as follows:

Wages at a rate of not less than forty cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the Gloves and Mittens Industry (as defined in Administrative Order No. 137) who is engaged in commerce or in the production of goods for commerce, and that no classifications be established in such industry.

II. The definition of the Gloves and Mittens Industry as set forth in Administrative Order No. 137, issued January 9, 1942, is as follows:

The production of gloves and mittens from any material or combination of materials, except athletic gloves and mittens: *Provided, however,* That the definition shall not include any product the manufacture of which is covered by an order of the Administrator defining an industry, and approving the recommendation of an industry committee or appointing an industry committee for such industry, issued prior to the signing of Administrative Order No. 137 appointing Industry Committee No. 40 for the Gloves and Mittens Industry, except the products included in the wage orders issued for the "Work Gloves and Mittens" and the "Gloves and Mittens Other Than Work Gloves and Mittens" Divisions of the Apparel Industry.

The definition of the gloves and mittens industry covers all occupations in the industry which are necessary to the production of the articles specified in the definition including clerical, maintenance, shipping, and selling occupations: *Provided, however,* That such clerical, maintenance, shipping, and selling occupations when carried on in a wholesaling or selling department physically segregated from other departments of a manufacturing establishment, the the greater part of the sales of which wholesaling or selling department are sales of articles which have been purchased for resale, shall not be deemed to be covered by this definition; and *Provided further,* That where an employee covered by this definition is employed during the same workweek at two or more different minimum rates of pay, he shall be paid the highest of such rates for such workweek unless records concerning his employment are kept by his employer in accordance with applicable regulations of the Wage and Hour Division.

[1] To be held March 2, 1942, at Washington, D. C.

IV. A public hearing will be held on March 2, 1942, before Major Robert N. Campbell as presiding officer, at 10:00 A. M. in Room 3229 of the United States Department of Labor Building at Washington, D. C., for the purpose of taking evidence on the following questions:

1. Whether the minimum wage recommendation of Industry Committee No. 40 shall be approved or disapproved; and
2. In the event an order is issued approving the recommendation, what, if any, prohibition, restriction, or regulation of homework in the Gloves and Mittens Industry is necessary to carry out the purposes of such order, to prevent the circumvention or evasion thereof, and to safeguard the minimum wage rate established therein.

V. Any interested person, supporting or opposing the recommendation of Industry Committee No. 40 may appear at the aforesaid hearing to offer evidence, either on his own behalf or on behalf of any other person; provided, that not later than February 24, 1942, any such person shall file with the Administrator at Washington, D. C. a notice of his intent to appear which shall contain the following information:

1. The name and address of the person appearing.
2. If such person is appearing in a representative capacity, the name and address of the person or persons whom he is representing.
3. Whether such person proposes to appear for or against the recommendation of Industry Committee No. 40.
4. The approximate length of time requested for his presentation.

Such notice may be mailed to the Administrator, Wage and Hour Division, United States Department of Labor, Washington, D. C., and shall be deemed filed upon receipt thereof.

VI. Any person interested in supporting or opposing the recommendation of Industry Committee No. 40 may secure further information concerning the aforesaid hearing by inquiry directed to the Administrator, Wage and Hour Division, United States Department of Labor, Washington, D. C., or by consulting with attorneys representing the Administrator who will be available for that purpose at the offices of the Wage and Hour Division in Washington, D. C.

VII. Copies of the following documents relating to the Gloves and Mittens Industry will be made available upon request for inspection by any interested person who intends to appear at the aforesaid hearing:

VIII. The hearing will be conducted in accordance with the following rules, subject, however, to such subsequent modifications by the Administrator or the presiding officer as are deemed appropriate:

1. The hearings shall be stenographically reported and a transcript made which will be available to any person at prescribed rates upon request addressed to the Administrator, Wage and Hour Division, Department of Labor, Washington, D. C.
2. In order to maintain orderly and expeditious procedure, each person filing a Notice to Appear shall be notified, if practicable, of the approximate day and the place at which he may offer evidence at the hearing. If such person does not appear at the time set in the notice he will not be permitted to offer evidence at any other time except by special permission of the presiding officer.
3. At the discretion of the presiding officer the hearing may be continued from day to day, or adjourned to a later date, or to a different place, by announcement thereof at the hearing by the presiding officer, or by other appropriate notice.
4. At any stage of the hearing, the presiding officer may call for further evidence upon any matter. After the presiding officer has closed the hearing before him, no further evidence shall be taken, except at the request of the Administrator, unless provision has been made at the hearing for the later receipt of such evidence. In the event that the Administrator shall cause the hearing to be reopened for the purpose of receiving further evidence, due and reasonable notice of the time and place fixed for such taking of testimony shall be given to all persons who have filed a notice of intention to appear at the hearing.
5. All evidence must be presented under oath or affirmation.
6. Written documents or exhibits, except as otherwise permitted by the presiding officer, must be offered in evidence by a person who is prepared to testify as to the authenticity and trustworthiness thereof, and who shall, at the time of offering the documentary exhibit, make a brief statement as to the contents and manner of preparation thereof.

7. Written documents and exhibits shall be tendered in duplicate and the persons preparing the same shall be prepared to supply additional copies if such are ordered by the presiding officer. When evidence is embraced in a document containing matter not intended to be put in evidence, such a document will not be received, but the person offering the same may present to the presiding officer the original document together with two copies of those portions of the document intended to be put in evidence. Upon presentation of such copies in proper form the copies will be received in evidence.

8. Subpoenas requiring the attendance of witnesses or the presentation of a document from any place in the United States at any designated place of hearing may be issued by the Administrator at his discretion, and any person appearing in the proceeding may apply in writing for the issuance by the Administrator of the subpoena. Such application shall be timely and shall identify exactly the witness or document and state fully the nature of the evidence proposed to be secured.

9. Witnesses summoned by the Administrator shall be paid the same fees and mileage as are paid witnesses in the courts of the United States. Witness fees and mileage shall be paid by the party at whose instance witnesses appear, and the Administrator before issuing subpoena may require a deposit of an amount adequate to cover the fees and mileage involved.

10. The rules of evidence prevailing in the courts of law or equity shall not be controlling.

11. The presiding officer, may, at his discretion, permit any person appearing in the proceeding to cross-examine any witness offered by another person in so far as is practicable, and to object to the admission or exclusion of evidence by the presiding officer. Requests for permission to cross-examine a witness offered by another person and objections to the admission or exclusion of evidence shall be stated briefly with the reasons for such request or the ground of objection relied on. Such requests or objections shall become a part of the record, but this record shall not include argument thereon except as ordered by the presiding officer. Objections to the approval of the Committee's recommendation and to the promulgation of a wage order based upon such approval must be made at the hearing before the presiding officer.

12. Before the close of the hearing, the presiding officer shall receive written requests from persons appearing in the proceeding for permission to make oral arguments before the Administrator upon the matter in issue. These requests will be forwarded to the Administrator by the presiding officer with the record of the proceedings. If the Administrator, in his discretion, allows the request, he shall give such notice thereof as he deems suitable to all persons appearing in the proceedings, and shall designate the time and place at which the oral arguments shall be heard. If such requests are allowed, all persons appearing at the hearing will be given opportunity to present oral argument.

13. Briefs (12 copies) may be submitted to the Administrator following the close of the hearing, by any persons appearing therein. Notice of the final dates for filing such briefs shall be given by the Administrator in such manner as shall be deemed suitable by him.

14. On the close of the hearing the presiding officer shall forthwith file a complete record of the proceedings with the Administrator. The presiding officer shall not file an intermediate report unless so directed by the Administrator. If a report is filed, it shall be advisory only and have no binding effect upon the Administrator.

15. No order issued as a result of the hearing will take effect until after due notice is given of the issuance thereof by publication in the FEDERAL REGISTER.

Signed at Washington, D. C. this 6 day of February 1942.

THOMAS W. HOLLAND,
Administrator.

[Docket Nos. G-223, G-224, G-225]

IN THE MATTERS OF NEW YORK STATE NATURAL GAS CORPORATION; NEW YORK STATE NATURAL GAS CORPORATION; AND KEUKA CONSTRUCTION CORPORATION

ORDER POSTPONING DATE AND CHANGING PLACE OF HEARING

FEBRUARY 4, 1942.

It appearing to the Commission that:

(a) By its orders of December 30, 1941, and January 15, 1942, the Commission directed that hearings in the above-entitled matters be held at Washington, D. C., commencing on February 18, 1942;

(b) On February 4, 1942, the New York State Natural Gas Corporation and the Keuka Construction Corporation filed petitions in each of these proceedings requesting a postponement of the date for such hearings and also requesting that the place of hearing be changed to Pittsburgh, Pennsylvania;

(c) Good cause has been shown for the postponement of such hearings and for the changing of the place for holding same to Pittsburgh, Pennsylvania;

The Commission orders that:

The hearings heretofore ordered to be held in these proceedings be and they are postponed to March 16, 1942, at 10:00 a. m. (E. S. T.) in Courtroom 2, Federal Building, in the City of Pittsburgh, Pennsylvania.

[Docket No. IT-5695]

IN THE MATTER OF MISSISSIPPI RIVER POWER COMPANY

ORDER TO SHOW CAUSE AND FIXING DATE OF HEARING

FEBRUARY 3, 1942.

It appearing to the Commission that:

(a) On June 19, 1941, there was served upon Mississippi River Power Company, hereinafter referred to as "Company," a joint report prepared by the Commission's staff and the staff of the Illinois Commerce Commission, entitled "Mississippi River Power Company, Keokuk, Iowa, Report on the Reclassification and Original Cost Studies of Electric Plant as at January 1, 1937";

(b) Concurrently with the service of the report described in paragraph (a) above upon the Company, there was served, also, an order, entered June 17, 1941, directing the Company to show cause, under oath, if any there be, on or before July 15, 1941, why the Commission should not determine by order that:

(i) Adjusting entries be made by the Company to bring its accounts in conformity with the recommendations made by the staffs of this Commission and the Illinois Commerce Commission in the joint report;

(ii) A plan be submitted by the Company for the disposition of $16,000,000 classified in Account 107, Electric Plant Adjustments;

(iii) Disposition be made of certain other amounts classified in Account 107, in the sum of $6,251,519.24, in accordance with the recommendations of the staffs of this Commission and the Illinois Commerce Commission as set forth in the joint report;

(c) On July 11, 1941, the Commission, upon petition of the Company, granted an extension of time until August 15, 1941, for compliance with the order to show cause, and by order of August 19, 1941, the time was further extended to October 15, 1941;

(d) On October 15, 1941, the Company filed with the Commission its response to the order to show cause;

The Commission finds that:

(1) Mississippi River Power Company's proposed reclassification and original cost studies, and the information submitted in its response to the order to show cause, do not justify or explain the Company's failure (i) to adjust its accounts in accordance with the adjustments recommended in the joint report described in paragraph (a) above, (ii) to submit a plan for the disposition of $16,000,000 classified in Account 107, Electric Plant Adjustments, and (iii) to dispose of certain other amounts classified in Account 107, in the sum of $6,251,519.24, in accordance with the recommendations of the staffs of this Commission and the Illinois Commerce Commission as set forth in the joint report;

(2) It is advisable, necessary, and proper in the public interest that a public hearing be held for the purpose of requiring Mississippi River Power Company to

show cause why this Commission should not order (i) adjustment of the Company's accounts in conformity with the recommendations made in the joint report described in paragraph (a) hereof, and (ii) disposition of the amount of $22,251,519.24 established in Account 107, Electric Plant Adjustments, in accordance with the evidence adduced at said public hearing:

The Commission orders that:

(A) A public hearing be held commencing on February 23, 1942, at 9:45 a. m., in Room 516 of the Courthouse and Customhouse, St. Louis, Missouri, and at said hearing Mississippi River Power Company show cause why the Commission should not by order determine that:

(i) Adjusting entries be made to bring the Company's accounts in conformity with the recommendations made by the staffs of this Commission and the Illinois Commerce Commission in the joint report described in paragraph (a) above;

(ii) Disposition be made of the amount of $22,251,519.24 established in Account 107, Electric Plant Adjustments, in accordance with the evidence adduced at said hearing;

(B) The Illinois Commerce Commission may participate in the hearing as provided in Part 39, § 39.4 of this Commission's Rules of Practice and Regulations prescribed pursuant to the provisions of the Federal Power Act.

IN THE MATTER OF ATLANTIC CITY ELECTRIC COMPANY, AMERICAN GAS AND ELECTRIC COMPANY

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 6th day of February, A. D. 1941.

A declaration or application (or both) pursuant to the Public Utility Holding Company Act of 1935 having been filed with this Commission by the above named parties, and notice having been given of the filing thereof by publication in the FEDERAL REGISTER and otherwise as provided by Rule U-23 under said Act; and

It appearing to the Commission that it is appropriate in the public interest and the interests of investors and consumers that a hearing be held with respect to said declaration or application and that said declaration shall not become effective or said application be granted except pursuant to the further order of the Commission:

It is ordered, That a hearing on such matter under the applicable provisions of said Act and the rules of the Commission thereunder be held on February 12, 1942 at 10:00 in the forenoon of that day at the Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing cause shall be shown why said declaration or application shall become effective or be granted:

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by the Commission for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under Section 18 (c) of said Act, and to a trial examiner under the Commission's Rules of Practice;

It is further ordered, That, without limiting the scope of issues presented by said declaration or application, particular attention will be directed at said hearing to the following matters and questions:

1. Whether the proposed issue and sale of Preferred Stock by Atlantic City Electric Company is solely for the purpose of financing the business of said company and has been expressly authorized by the State Commission of the State in which it is organized and doing business.

2. Whether it is necessary or appropriate in the public interest or for the protection of investors or consumers to impose any terms and conditions with respect to the issuance and sale of such Preferred Stock.

3. Whether the proposed acquisition of Preferred Stock of Atlantic City Electric Company by American Gas and Electric Company, in certain contingencies, is appropriate under the standards of Sections 10 and 12 of the Act, and whether it is necessary or appropriate to impose any terms and conditions with respect thereto.

IN THE MATTER OF H. L. RUPPERT & COMPANY, INC., 400 PINE STREET, ST. LOUIS, MISSOURI

FINDINGS AND ORDER REVOKING REGISTRATION AS BROKER AND DEALER, AND EXPELLING REGISTRANT FROM NATIONAL SECURITIES ASSOCIATION AND NATIONAL SECURITIES EXCHANGE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 5th day of February, A. D. 1942.

1. H. L. Ruppert & Company, Inc., is registered with this Commission as a broker and dealer under section 15 of the Securities Exchange Act of 1934, and is also a member of the National Association of Securities Dealers, Inc., a registered national securities association under section 15A of the Act, and of the St. Louis Stock Exchange, a registered national securities exchange under section 6 of the Act. We instituted this proceeding under sections 15 (b), 15A (l) (2), and 19 (a) (3) to determine whether registrant's registration as a broker and dealer should be suspended or revoked and whether registrant should be suspended or expelled from membership in the National Association of Securities Dealers, Inc., and the St. Louis Stock Exchange.

2. The registrant has admitted "for the purpose of this proceeding, and for that purpose only" that:

(a) On November 24, 1941, and prior thereto, registrant had no net capital employed in its business and, at the same time, in the ordinary course of its business as a broker, owed substantial sums to various customers and banks;

(b) During the period from February 24 to December 22, 1941, the date of our order instituting this proceeding, registrant directly and indirectly hypothecated securities carried for the account of customers under circumstances that permitted such securities to be commingled with securities carried for the account of persons other than *bona fide* customers of the registrant under liens for loans made to the registrant;

(c) During the same period, registrant directly and indirectly hypothecated certain securities carried for the account of certain customers, under circumstances that permitted the commingling of such securities with securities carried for the account of other customers without first obtaining the written consent of each of such customers to such hypothecation;

(d) During the same period, registrant directly and indirectly hypothecated certain securities carried for the account of certain customers under circumstances that permitted such securities to be hypothecated and subjected to liens and claims of the pledgees for a sum which exceeded the aggregate indebtedness of all customers in respect of securities carried for their accounts;

(e) During the period from October 31, 1940, to December 22, 1941, registrant failed to make and keep current a securities record or ledger reflecting separately for each security as of the clearance dates all "long" or "short" positions (including securities in safekeeping) carried by it for its account or for the account of its customers and showing the location of all securities long and the offsetting position to all securities short, and in all cases the name or designation of the account in which each position was carried.

Registrant has also consented to the entry of an order revoking its registration as an over-the-counter broker-dealer and expelling it from the National

Association of Securities Dealers, Inc., and the St. Louis Stock Exchange.

3. We find that the registrant has willfully violated sections 8 (b), 8 (c), and 17 (a) of the Securities Exchange Act of 1934, and Rules X-8C–1 and X-17A–3 of the Commission's rules thereunder, and that it is necessary and appropriate in the public interest and for the protection of investors to revoke the registrant's registration as an over-the-counter broker-dealer, and to expel registrant from membership in the National Association of Securities Dealers, Inc., and the St. Louis Stock Exchange.

Accordingly, *it is ordered*, Pursuant to Sections 15 (b), 15A (*l*) (2), and 19 (a) (3) of the Securities Exchange Act of 1934, that the registration of H. L. Ruppert & Company, Inc., as a broker and dealer be, and it hereby is, revoked, and that H. L. Ruppert & Company, Inc., be, and it hereby is, expelled from the National Association of Securities Dealers, Inc., a registered national securities association, and from the St. Louis Stock Exchange, a registered national securities exchange.

By the Commission (Chairman Purcell, Commissioners Healy, Pike and Burke), Commissioner O'Brien being absent and not participating.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

APPLICATION AND TITLE DETERMINATION FEES

Section 24.1 of Title 6, Code of Federal Regulations, is amended to read as follows:

§ 24.1 *Application and title determination fees (loans through associations, direct loans and Commissioner loans).* The following application and title determination fees are charged:

Appraisal fee to be submitted with the application on all applications of—

$5,000 or under	$5.00
$5,100 to $50,000 inclusive	10.00

Title determination fee deducted when loan is closed on all applications of—

$1,000 or under	$5.00
$1,100 to $3,000 inclusive	7.00
$3,100 to $50,000 inclusive	10.00

The bank will retain the whole amount of the application fee, unless the application is rejected without appraisal, in which case the fee sent with the application will be returned to the borrower through the appropriate association.

The title determination fees are in connection with twenty-five year short term abstracts prepared in accordance with instructions of the bank's legal department. In case the borrower submits a long term abstract, and elects not to pay the title reserve fee set out in § 24.3, he shall be charged for title determination the sum of $5.00 in addition to the charge set out above for title determination. exercised by the former owner), by foreclosure or purchase prior to December 17, 1941.*

*§§ 120.1 to 120.29, inclusive, issued under the authority contained in Third Supplemental National Defense Appropriation Act, 1942, December 17, 1941 (Public Law 355—77th Congress), and Order of the Secretary of Agriculture dated February 2, 1942.[1]

§ 120.2 *Purposes.* Loans will be made for purposes necessary to accomplish the rehabilitation of the damaged or destroyed orchards, including the removal of damaged fruit trees where new trees are to be planted on the ground occupied by the damaged trees, the purchase of trees for planting, the planting of trees, the preservation and care of the trees, including spraying, pruning, worming, irrigation, and fertilizing, for cultivation and production purposes, and for supplies incident and necessary thereto.*

§ 120.3 *Security.* Each loan shall be secured by a real estate mortgage on the entire farm containing the orchard acreage which is to be rehabilitated, superior in rank and priority to all other mortgages and/or liens against the property (with the exception of tax liens), ascertained to be in existence pursuant to procedure prescribed by the Governor, except that, where the applicant can show conclusively his inability to meet these requirements, such other security as may be approved by the Governor of the Farm Credit Administration may be accepted in lieu thereof. Liens taken hereunder may be subordinated, waived, released, or otherwise assigned by the Governor when the Governor finds that such action is not prejudicial to the interests of the United States and is necessary or desirable as an aid to rehabilitation of the orchard.*

§ 120.4 *Loan limitation.* The amount approved for a loan to any applicant will be determined by the Governor based on a careful estimate of the amount required to rehabilitate the orchard and bring it into bearing. In no case, however, may a loan be made in an amount greater than the estimated actual cash needs for the rehabilitation of the orchard nor in excess of the maximum allowances established by the Governor upon the advice of the Horticultural Divisions of the State Colleges of Agriculture of the States covered and/or the Division of Fruit and Vegetable Crops and Diseases, Bureau of Plant Industry, United States Department of Agriculture, for the various purposes for which funds may be disbursed.*

§ 120.5 *Installments.* Loans may be disbursed in such installments as the Governor may approve.*

§ 120.6 *Interest rate; payments.* Each loan will be evidenced by a note or notes payable to the United States of America (Governor of the Farm Credit Administration) bearing interest from date of disbursement until paid at the rate of 4 percent per annum, payable at such time as the Governor may approve. Payments on loans will be applied first to principal until the entire amount of the principal has been repaid; thereafter payments will be applied to interest.*

§ 120.7 *Applicants' agreements.* Each applicant must agree to undertake and carry out the rehabilitation of his orchard in accordance with approved horticultural practices in the district and the advice and supervision given by a horticultural adviser selected by the Governor.*

§ 120.8 *Acreage limitation.* No such loan will be made to any applicant for the purpose of replanting a greater acreage of fruit trees than that actually occupied by fruit trees damaged or destroyed by the extremely cold weather in November 1940; or whose total orchard acreage, including existing healthy trees and the acreage to be planted within the next three years, does not make a sound economic unit.*

§ 120.9 *Care and operation of orchard.* No such loan will be made to any applicant whose orchard, in the opinion of a horticultural adviser, will not receive proper care or will not be operated by an experienced fruit grower.*

§ 120.10 *Replanting.* No such loan will be made to any applicant for replanting unless, in the opinion of a horticultural adviser, the soil and location to be planted are well adapted to growing the types and varieties of fruit which the applicant plans to plant, and the rehabilitation will result in a satisfactory commercial orchard unit.*

§ 120.11 *Planting.* No such loan will be made to any applicant for the planting, care or preservation of varieties of orchard fruits which in the opinion of a horticultural adviser are unadapted to the soil or climate, or for which there is not now or is not likely to be a satisfactory market under normal conditions.*

§ 120.12 *Suitable stocks.* No such loan will be made to any applicant for the planting of fruit trees grafted or budded on unadapted, tender or otherwise unsuitable stocks.*

§ 120.13 *Availability of other credit.* No such loan will be made to any applicant whose credit situation is such that he can obtain satisfactory financing for

[1] 7 F.R. 732.

the rehabilitation of his orchard without the aid of this loan. The orchard rehabilitation appropriation shall be administered as a source of credit to supplement credit which may be available from other sources.*

§ 120.14 *Ineligible loan purposes.* No such loan will be made to any applicant for the purchase of machinery or livestock other than that needed for the care and preservation of the orchard, or for such items as the payment of rent, debts unrelated to the orchard rehabilitation, or interest thereon, because these are not within the purposes specified in § 120.2.*

§ 120.15 *Nondisturbance agreements and waivers.* No such loan will be made to any applicant who fails to submit nondisturbance agreements or waivers in the form prescribed by the Governor, duly executed by each of the lienholders listed in the application or otherwise ascertained: *Provided, however,* That the Governor may waive this requirement when, in his discretion, it appears advisable to do so.*

§ 120.16 *Foreclosure notices.* No such loan will be made to any applicant who has been served with a formal notice of foreclosure on real property or on such personal property as is necessary in rehabilitating the orchard unless a nondisturbance agreement or waiver in the form prescribed, duly executed by the party or parties having served such formal notice of foreclosure, is presented.*

§ 120.17 *Financial condition of applicant.* No such loan will be made to any applicant whose financial condition is such that, in the opinion of the Governor, there is little or no likelihood of his succeeding on the orchard to be rehabilitated unless a satisfactory composition of debts is effected.*

§ 120.18 *Minors, agents, representatives, etc.* No such loan will be made to minors, agents, or representatives or, without court order, to executors, guardians, or administrators unless a valid lien acceptable to the Governor or his representative can and will be given on the property on which the loan is sought.*

§ 120.19 *Married persons.* No such loan will be made to a married person unless the spouse of such person joins in the execution of the application, notes, and liens securing the same.*

§ 120.20 *Part owners.* No such loan will be made to any applicant who is a part owner of the orchard to be rehabilitated, unless all persons having a beneficial interest in such orchard join in the application, notes, and liens securing the same.*

§ 120.21 *Corporations.* No such loan will be made to any applicant which is a corporation, unless its principal business is farming, and unless stockholders representing at least a majority of the stock of such corporation endorse the note given for each installment.*

§ 120.22 *Misrepresentation.* No such loan will be made to any applicant who makes a material intentional misrepresentation for the purpose of obtaining such loan, or to an applicant who is believed to be an unsatisfactory moral risk.*

§ 120.23 *Furnishing information.* No such loan will be made to any applicant who fails, upon request of the Governor, to provide available or obtainable information relating to his land, orchard, crops, or other property or financial condition.*

§ 120.24 *Forms.* The amount approved for a loan to any applicant will be paid upon receipt and approval of the following documents:

(a) Loan application properly executed in the prescribed form.

(b) A promissory note or notes in the form prescribed, executed by the applicant for the total approved amount of the loan, or for the amount of each installment, payable to the United States of America (Governor of the Farm Credit Administration) bearing interest at the rate of 4 percent per annum until paid.

(c) Lien instruments meeting the requirements of § 120.3 properly executed and filed, registered or recorded in the proper office as required by State law. Such lien instruments shall be taken in an amount sufficient to cover all sums advanced or to be advanced from time to time as provided in § 120.4.

(d) Nondisturbance agreements in the form prescribed, duly executed by each lienholder, except such as may be exempted from this requirement as provided in § 120.15.

(e) A voucher for the amount of the first installment properly executed on the prescribed form. (Similar voucher must be filed when each subsequent installment becomes payable.)*

§ 120.25 *Fees.* Fees for recording, filing, registration, and examination of records (including certificates) shall be paid by the borrower.*

§ 120.26 *Designation of employees, agents, and representatives.* All functions, powers, authority, and duties which are vested in the Governor by Order of the Secretary of Agriculture dated February 2, 1942,[1] and by these regulations, including the findings provided for in § 120.3, may be exercised and performed, subject to the jurisdiction and control of the Governor, by the Director of the Emergency Crop and Feed Loan Section or such employees, agents, and representatives as the Director may designate from time to time.*

§ 120.27 *Horticultural adviser.* The term "horticultural adviser" as used herein shall mean such trained horticulturist or horticulturists as may be selected by the Governor.*

§ 120.28 *Office to make and disburse.* Loans will be made and disbursed by the Emergency Crop and Feed Loan Regional Office at Omaha, Nebraska.*

§ 120.29 *Changing regulations.* The right is reserved to revoke, alter, or amend the regulations in this part at any time and without notice.*

[SEAL] A. G. BLACK,
Governor.

TITLE 7—AGRICULTURE

CHAPTER VII—AGRICULTURAL ADJUSTMENT ADMINISTRATION

[ACP-1942-3]

PART 701—AGRICULTURAL CONSERVATION PROGRAM

SUBPART D—1942

Pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act (49 Stat. 1148, 16 U.S.C. 590g to 590q), as amended, the 1942 Agricultural Conservation Program,[1] as amended, is further amended as follows:

1. Section 701.301 (a) (9) (i) and (ii) are amended to read as follows:

§ 701.301 *Allotments, yields, grazing capacities, payments, and deductions.*

* * * * *

(a) *Corn.*

* * * * *

(9) *Deduction*—(i) *Corn-allotment farms.* Ten times the payment rate for each acre planted to corn in excess of the corn acreage allotment but not to exceed the maximum corn payment for the farm, except that ten times the payment rate for each acre planted to corn in excess of 130 percent of its corn allotment shall be deducted from any other payment computed for the farm.

(ii) *Non-corn-allotment farm.* Ten times the payment rate for each acre planted to corn in excess of the larger of (a) 15 acres or (b) 130 percent of its corn allotment.

2. Section 701.301 (c) (5) is amended to read as follows:

(c) *Peanuts.*

* * * * *

(5) *Payment.* $1.45 per ton of the normal yield of peanuts for the farm for each acre in its peanut allotment, or, if the acreage of peanuts grown on the farm is less than 80 percent of the farm's peanut allotment, for an acreage equal to 125 percent of the acreage of peanuts, unless the acreage of peanuts is less than 80 percent of such allotment because of flood or drought.

3. Section 701.301 (d) (6) is amended to read as follows:

(d) *Potatoes.*

* * * * *

(6) *Payment.* 2 cents per bushel of the normal yield of potatoes for the farm for each acre in its potato allotment, or, if the acreage of potatoes is less than 80 percent of the farm's potato allotment, for an acreage equal to 125 percent of the acreage of potatoes, unless the acreage of potatoes is less than 80 percent of such allotment because of flood or drought, except that no payment will be made with respect to any farm on which no potatoes were harvested in any of the three years 1939 to 1941 and the operator of which did not harvest any potatoes on any farm during such period.

[1] 6 F.R. 4111, 5520, 6472.

4. Section 701.301 (e) (6) is amended to read as follows:

(e) *Rice.*

* * * * *

(6) *Deduction.* Ten times the payment rate for each acre by which the acreage of rice planted is less than its rice allotment, but not to exceed the maximum rice payment computed for the farm.

5. Section 701.301 (g) (6) is amended by changing the period at the end to a colon and adding the following:

(g) *Wheat.*

* * * * *

(6) *Acreage planted to wheat. Provided,* That all or any part of any wheat acreage determined by the county committee to have been totally destroyed by any cause beyond the control of the operator may be considered as not having been planted to wheat if it cannot be reseeded and, with prior approval of the county committee, is later replaced by other acreage of seeded or volunteer wheat.

6. Section 701.301 (i) (1) (iii) is amended to read as follows:

(i) *Minimum soil-conserving and soil-building requirements.* * * *

(1) *Minimum conserving acreage.*

* * * * *

(iii) Sudan, millet, rye, or annual ryegrass, for pasture.

7. Section 701.302 (d), the second proviso clause is amended to read as follows:

§ 701.302 *Soil-building goals, payments, and practices:*

* * * * *

(d) *Soil-building allowance.* * * * *Provided further,* That, with prior approval of the State committee, a group of persons in any local area may, in the interest of the community welfare, combine by written agreement all of the soil-building allowances for designated farms in which they are interested as landlords, tenants, or sharecroppers, for the performance of erosion control, forest tree planting and management, or perennial weed control practices on any one or more of such farms. The soil-building allowance for any farm may be included in the combination only if all of the persons interested in the farm as landlord, tenant, or sharecropper execute the agreement. The soil-building practices to be performed and the farm or farms on which such practices are to be carried out shall be specified in the agreement. The soil-building payments earned under the agreement shall be divided among such persons on the basis of their respective contributions, as determined by the county committee, to the performance of such soil-building practices. Any payment so determined for a person shall be considered as a soil-building payment earned on the farm covered by the agreement in which such person has an interest as landlord, tenant, or sharecropper. Notwithstanding the foregoing provisions, if the State committee determines that a net deduction has been incurred on any farm included in the agreement and the persons on such farm have not offset the deduction by payments earned by contribution to the soil-building practices carried out under the agreement, the State committee shall exclude such farm from the agreement and the soil-building allowance for the farm will not be available under the agreement or on the individual farm.

8. Section 701.302 (f) (13) is amended to read as follows:

(f) *Soil-building practices.*

* * * * *

(13) Reseeding depleted pastures, range land, mountain meadow land, or restoration land, with good seed of adapted pasture or range grasses, perennial or biennial legumes, approved pasture mixtures or forage shrubs, or with good seed of annual legumes in range areas designated by the Agricultural Adjustment Administration—15 cents per pound.

9. Section 701.302 (f) (43) is amended to read as follows:

* * * * *

(43) Listing unprotected cropland in arid or semi-arid areas at right angles to the prevailing winds (no credit will be given for this practice when carried out on protected summer-fallowed acreage or as a part of a seeding operation)—15 cents per acre.

10. Section 701.308, the first paragraph is amended by adding at the end thereof the following sentence:

§ 701.308 *Conservation materials.* * * * In addition, farming materials to be used in planting on the farm crops, the expansion of production of which the Secretary finds necessary to encourage in the national defense, may be furnished by the Agricultural Adjustment Administration in lieu of payments in areas designated by the Agricultural Adjustment Administration as areas where such expansion of production may not be attained unless such materials are so furnished.

11. Section 701.309 (f) is amended by changing the heading, by adding the following subparagraph (1), and by renumbering the present paragraph to be subparagraph (2):

§ 701.309 *General provisions relating to payments.*

* * * * *

(f) *Deductions in case of an erroneous cropland acreage determination or an erroneous notice of acreage allotment.* (1) In any case where, through error in a county or State office, the producer was officially notified of a cropland acreage for a farm which is determined to be erroneous, and the county and State committees find that the producer, acting upon information contained in such official notification, has not met the requirement applicable to his farm set forth in § 701.301 (i), and the producer was not notified as to the correct cropland acreage in sufficient time to permit him to meet such requirement on the basis of the corrected cropland acreage, any deduction made pursuant to the provisions of § 701.301 (i) shall be made on the basis of the cropland acreage given in such erroneous notification or the correct cropland acreage, whichever is the smaller.

12. Section 701.310 (a) is amended to read as follows:

§ 701.310 *Application for payment—*(a) *Persons eligible to file applications.* An application for payment with respect to a farm may be made by any person for whom, under the provisions of § 701.303, a share in the payment with respect to the farm may be computed.

13. Section 701.313 (e) (2) and (4) are amended to read as follows:

§ 701.313 *Definitions.*

* * * * *

(e) *Miscellaneous.*

* * * * *

(2) "Landlord" or "owner" means a person who owns land.

* * * * *

(4) "Tenant" means a person other than a sharecropper who rents land from another person (whether or not he rents such land or part thereof to another person), including, in the case of rice, a person furnishing water for a share of the rice.

Done at Washington, D. C., this 10th day of February 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

TITLE 26—INTERNAL REVENUE

CHAPTER I—BUREAU OF INTERNAL REVENUE

[T. D. 32]

PART 151—REGULATIONS UNDER THE INTERNAL REVENUE CODE RELATING TO NARCOTICS

REGULATIONS NO. 5;[1] IMPORTATION, MANUFACTURE, PRODUCTION, COMPOUNDING, SALE, DEALING IN, DISPENSING AND GIVING AWAY OF OPIUM OR COCA LEAVES OR ANY COMPOUND, MANUFACTURE, SALT, DERIVATIVE, OR PREPARATION THEREOF—AMENDMENT TO JOINT NARCOTIC REGULATIONS MADE BY THE COMMISSIONER OF NARCOTICS AND THE COMMISSIONER OF INTERNAL REVENUE WITH THE APPROVAL OF THE SECRETARY OF THE TREASURY

Section 151.185 of Part 151—(Regulations Under Chapters 23 and 27 of the Internal Revenue Code) Article 185 of Bureau of Narcotics Regulations No. 5, dated June 1, 1938, is hereby amended to read as follows:

§ 151.185 *Records required.* Every manufacturer, producer, compounder, or vendor (including dispensing physicians), of exempt preparations shall record all sales, exchanges, gifts, or other dispositions, the entries to be made at the time of delivery. The requirement that such records be maintained as herein provided and as provided in the second proviso of Internal Revenue Code section 2551 (a) is absolute, independent, and not merely a condition precedent to securing the exemption granted by the last cited section to manufacturers, producers, compounders, or vendors (including dispensing physicians), of exempt preparations; failure to keep such records is in itself a violation of law and regulation and renders the manufacturer, producer, compounder, or vendor (including dispensing physicians), liable to the penalties set forth in Internal Revenue Code section 2557. Separate records shall be kept of dispositions to registrants and of dispositions to consumers. The record of dispositions to registrants shall show the name, address, and registry number of the registrant to whom disposed, the name and quantity of the preparation, and the date upon which delivery to the registrant, his agent or a carrier is made. The record of dispositions to consumers shall show the name of the recipient, his address, the name and quantity of the preparation, and the date of delivery.

Forms are not furnished for the keeping of these records, but the records shall be in the following form:

FORM OF RECORD OF DISPOSITIONS TO REGISTRANTS

Date	Registration No. of recipient	Name of recipient	Address	Name of preparation	Quantity

FORM OF RECORD OF DISPOSITIONS TO CONSUMERS

Date	Name of recipient	Address	Name of preparation	Quantity

In the case of manufacturers of or dealers in exempt preparations who are also registered as manufacturers of or dealers in taxable drugs in Class I or II, the foregoing requirement as to records of dispositions to registrants shall be deemed to be complied with, if all such dispositions are evidenced by vouchers or invoices containing all the required information and such vouchers or invoices are kept in a separate file arranged chronologically.

As to records required in the case of registrants supplying exempt preparations to consumers pursuant to prescriptions issued by registered physicians, the foregoing requirement as to records of dispositions to consumers shall be deemed to be complied with if each such prescription shows the name and address of the recipient, the name and quantity of the preparation, and the date of filling, and the prescriptions are kept on the narcotic prescription file.

[SEAL] H. J. ANSLINGER,
Commissioner of Narcotics.
NORMAN D. CANN,
Acting Commissioner of Internal Revenue.

Approved: February 6, 1942.

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 958—REPAIRS, MAINTENANCE, AND OPERATING SUPPLIES

Preference Rating Order No. P-100 as Amended February 10, 1942

Section 958.2 (*Preference Rating Order P-100*[1]) is hereby amended so as to read as follows:

§ 958.2 *General Preference Order P-100.* (a) For the purpose of facilitating the acquisition of Material for (1) the maintenance and repair of the property and equipment of producers as hereinafter defined, and (2) the continued operation of the property and equipment of such producers, a preference rating is hereby assigned to deliveries of such Material upon the terms hereinafter set forth. Such terms shall control until such time as the Director of Industry Operations (hereinafter referred to as the "Director") certifies specific quantities of such Material to which the preference rating herein assigned may be applied, or until he may specifically limit production by any type of producer or withdraw any type of Material from use by such producer, or until he may issue an order specifically relating to the maintenance, repair, and operation of the property and equipment of any type of producer.

(b) *Definitions.* (1) "Producer" means:

(i) Any governmental unit of the United States of America,

(ii) Any individual, partnership, association, corporation, or other form of enterprise located in the United States, its territories and possessions, engaged in one or more of the following capacities to the extent that it is so engaged or so acts:

(a) Manufacturing, processing, or fabricating,

[1] 6 F.R. 6548.

(b) Warehousing—maintaining warehouses for storage or distribution of any Material,

(c) Wholesaling—acting as a distributor of products sold to manufacturers, wholesalers, retailers, or other persons not consumers,

(d) Charitable institutions—any charitable or eleemosynary institution which is recognized as such for purposes of the Internal Revenue Laws of the United States,

(e) Carriers—urban, suburban and interurban common or contract carriers of passengers or freight by electric railway, electric coach, motortruck, or bus, including terminals of any of the foregoing; railroads, including terminals; shipping—commercial carriers of freight and passengers by ocean, lake, river, or canal, including terminals,

(f) Educational institutions (including vocational training),

(g) Printers and publishers,

(h) Radio—commercial broadcasting and communication,

(i) Telephone and telegraph communication, including wire services,

(j) Hospitals, clinics, and sanatoriums.

(k) Irrigation systems, whether publicly or privately owned; toll bridges and toll canals.

(iii) Any person located in the United States, its territories and possessions, using tools or equipment to repair or maintain agricultural machinery or the property of any Producer as defined in (b) (1) (i) and (ii).

(iv) Any person located in the Dominion of Canada, to whom and in whose name a copy of this Order is specifically issued.

(2) "Material" means any commodity, equipment, accessories, parts, assemblies, or products of any kind.

(3) Subject to subparagraph (6), "Maintenance" means the upkeep of a Producer's property and equipment in sound working condition.

(4) Subject to subparagraph (6), "Repair" means the restoration of a Producer's property and equipment to a sound working condition when such property or equipment has been rendered unsafe or unfit for service by wear and tear, damage, destruction of parts, or similar causes.

(5) Subject to subparagraph (6), "Operating Supplies" means any Material which is essential to the operation of the Producer's business and which is consumed in the course of such business including, but not limited to, lubricants, catalysts, small perishable tools, and ferrous material necessary for the fabrication of containers; provided, it shall not include:

(i) Any Material which is physically incorporated, in whole or in part, into any material which the producer manufactures, distributes, sells, stores, or transports, excepting Material used by a Producer to repair or maintain agricultural Machinery or the property of another Producer, or

(ii) Any Material that is to be used as fuel, or

(iii) Any non-ferrous Material to be used as packaging supplies.

(6) The terms "Maintenance," "Repairs," and "Operating Supplies" *do not* include the following:

(i) The replacement of an item carried on the Producer's books as a fixed asset,

(ii) Material which would not be carried on the Producer's books as Maintenance, Repairs, Operating Supplies, or the equivalent, in the Producer's established method of bookkeeping,

(iii) Material for the improvement of a Producer's property or equipment through the replacement of Material in the existing installation unless such equipment is beyond economic repair.

(iv) Material for additions to, or expansions of, such property or equipment.

(7) "Supplier" means any person with whom a purchase order or contract has been placed for delivery of Material to a Producer or another Supplier.

(c) *Assignment of preference rating.* Subject to the terms of this Order, Preference Rating A–10 is hereby assigned:

(1) To deliveries, to a producer, of Material required by him as Operating Supplies or for the maintenance or repair of his property or equipment;

(2) To deliveries to any Supplier, who has received purchase orders rated under this Order from a Producer or from another Supplier, of Material which will be delivered by him or by another Supplier to the Producer to fill such rated orders, or which will be physically incorporated into Material which will be so delivered; or which will be used within the limitations of paragraph (f) (2) hereof, to replace in such Supplier's inventory Material delivered to fill orders rated pursuant to this Order or pursuant to Preference Rating Order No. P–22, as heretofore amended.

Provided, That when any General Preference ("E" or "M") Order assigns a specific preference rating to deliveries of any particular Material to be used by a particular industry or for a specific purpose, such preference rating shall control and the A–10 rating hereby assigned may not be applied: *And provided further*, That the preference rating hereby assigned may not be applied to deliveries of any Material to be used for purposes prohibited by any Order or Regulation issued by the Director.

(d) *Persons entitled to apply preference rating.* The Preference Rating hereby assigned may be applied by:

(1) A Producer;

(2) Any Supplier provided deliveries to a Producer or another Supplier are to be made by him, which are of the kind specified in paragraph (c) of this section and have been rated pursuant to this Order.

(e) *Application of preference rating.* (1) A Producer or Supplier, in order to apply the preference rating to deliveries of Material to him, must endorse the following statement on the original and all copies of the purchase order or contract for such Material manually signed by a responsible official duly designated for such purpose by such Producer or Supplier:

Material for Maintenance, Repair, or Operating Supplies—Rating A–10 under Preference Rating Order P–100 with the terms of which I am familiar.

(Name of Producer or Supplier and Serial No. of Producer if located in Canada.)

(Signature of Designated Official)

Such endorsement shall constitute a representation to the Director that such Material is required for the purpose stated and that the application of the rating is authorized by this Order. Any such purchase order or contract for such Material shall be restricted to Material the delivery of which is rated in accordance herewith.

(2) The Producers and each Supplier placing or receiving any purchase order or contract rated hereunder shall each retain, for a period of two years, for inspection by representatives of the Director, endorsed copies of all purchase orders or contracts, whether accepted or rejected, segregated from all other purchase orders or contracts or filed in such manner that they can be readily segregated for such inspection.

(f) *Restrictions on use of rating*—(1) *Restrictions on producer and supplier.* No Producer or Supplier may apply the rating hereby assigned to obtain scarce Material, the use of which could be eliminated without serious loss of efficiency by substitution of less scarce Material or by change of design.

(2) *Restrictions on supplier.* (i) No Supplier may deliver Material pursuant to a rating applied to him by a Producer located in the Dominion of Canada, unless the endorsement on the purchase order placed with such Supplier includes a Serial number.

(ii) No Supplier may apply the rating to obtain Material in greater quantities or on earlier dates than required to enable him to make on schedule a delivery rated hereunder or, within the limitations of (iii) and (iv) below, to replace in his inventory Material so delivered. He shall not be deemed to require such Material if he can make his rated delivery and still retain a practicable working minimum inventory thereof; and if, in making such delivery, he reduces his inventory below such minimum, he may apply the rating only to the extent necessary to restore his inventory to such minimum.

(iii) A Supplier who supplies Material which he has in whole or in part manufactured, processed, assembled, or otherwise physically changed may not apply the rating to restore his inventory to a practicable working minimum unless he applies the rating before completing the rated delivery which reduces his inventory below such minimum.

(iv) A Supplier who supplies Material which he has not in whole or in part manufactured, processed, assembled, or otherwise physically changed may defer application of the rating hereunder to

purchase orders or contracts for such Material to be placed by him until he can place a purchase order or contract for the minimum quantity procurable on his customary terms: *Provided*, That he shall not defer the application of any rating for more than three months after he becomes entitled to apply it.

(g) *Restrictions on withdrawals and inventory.* (1) Except as provided in paragraph (g) (3) and (4) of this section, no Producer who has applied the ratings assigned hereby shall, at any time, accept deliveries (whether or not rated pursuant to this Order) of any Material to be used as Operating Supplies or for Maintenance or Repair until the Producer's inventory and stores of Material to be used for these purposes have been reduced to a practicable working minimum. Such practicable minimum shall in no event exceed one hundred ten percent (110%) of the maximum dollar volume of Material to be used as Operating Supplies and for Repairs and Maintenance in inventory and stores during the corresponding calendar quarter of 1940.

(2) Except as provided in paragraph (g) (3) and (4), no Producer who has applied the ratings assigned hereby shall, during any Calendar Quarterly Period, make withdrawals from stores or inventory of any Material to be used as Operating Supplies or for Maintenance or Repair the aggregate dollar volume of which shall exceed one hundred ten percent (110% of the aggregate dollar volume of the withdrawals of such Material during the corresponding quarter of 1940, or, at the Producer's option, twenty-seven and one-half percent (27½) of the aggregate dollar volume of the withdrawals of such Material during the calendar year 1940.

(3) From time to time, the Director may determine that certain Producers or classes of Producers are exempt, in whole or in part, from the restrictions contained in paragraph (g) (1) and (2).

(4) Restrictions contained in paragraph (g) (1) and (2) shall not apply to any Producer during any Calendar Quarterly Period in which (i) the total volume of his purchases of Material for Maintenance, Repairs, and Operating Supplies does not exceed five thousand dollars ($5,000); and (ii) the total volume of his withdrawals of Material for such purposes does not exceed five thousand dollars ($5,000).

(h) *Audits and reports.* (1) Each Producer or Supplier who applies the preference rating hereby assigned, and each person who accepts a purchase order or contract for Material to which the preference rating is applied, shall submit from time to time to an audit and inspection by duly authorized representatives of the Director.

(2) Each such Producer or Supplier shall execute and file with the Director such reports and questionnaires as said Office shall from time to time request. No such reports shall be filed until such time as the proper forms are prescribed by the Director.

(i) *Order not applicable.* This Order is not applicable to persons whose maintenance, repair, and operating supply requirements are specifically provided for by any other Order.

(j) *False statements and penalties.* Any person who applies the preference rating hereby assigned in willful violation of the terms and provisions of this Order, or willfully falsifies any records which he is required to keep by this Order, or who obtains a delivery of Material by means of a material and willful misstatement will be forbidden to further apply said rating. Such person may also be prohibited from obtaining further deliveries of Material under allocation and be deprived of any other priorities assistance. The Director may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(k) *Revocation or modification.* This Order may be revoked or amended by the Director at any time as to any Producer or Supplier. In the event of revocation, or upon expiration of this Order, deliveries already rated pursuant to this Order shall be completed in accordance with said rating, but no applications of this rating to any other deliveries shall thereafter be made by the Producer or Supplier affected by said revocation or expiration.

(l) *Effective date.* This Amendment shall take effect immediately. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. PART 963—SILK

Amendment to General Preference Order M–22 as Amended to Conserve the Supply and Direct the Distribution of Silk

Section 963.1 (*General Preference Order M–22*[1]) as amended October 16 and October 28, 1941 is hereby further amended as follows:

Paragraph (c) is amended to read as follows:

(c) *Restrictions on sales, deliveries and use*—(1) *Sales.* Regardless of any preference rating assigned thereto or of the provisions of paragraph (b) of General Preference Order M–22 as amended October 16, 1941, no person other than Defense Supplies Corporation shall hereafter sell or otherwise transfer title to any raw silk to any person other than Defense Supplies Corporation, and no person other than Defense Supplies Corporation shall hereafter purchase or otherwise acquire title to any raw silk except from Defense Supplies Corporation.

(2) *Deliveries prior to February 23, 1942.* Until February 23, 1942, no person other than Defense Supplies Corporation shall make any deliveries and no person other than Defense Supplies Corporation shall accept delivery of raw silk except (i) to or from Defense Supplies Corporation or (ii) to fill contracts heretofore made under the categories of orders specified in paragraph (b) of General Preference Order M–22 as amended October 16, 1941, unless specifically authorized by the Director of Industry Operations.

(3) *Deliveries after February 22, 1942.* Regardless of any preference rating assigned thereto or of the provisions of paragraph (b) of General Preference Order M–22 as amended October 16, 1941, after February 22, 1942, no person other than Defense Supplies Corporation shall make any deliveries of raw silk to any person except Defense Supplies Corporation and no person other than Defense Supplies Corporation shall accept deliveries of any raw silk except (i) from Defense Supplies Corporation or (ii) as provided in paragraph (b), (2) of General Preference Order M–22, as amended October 16, 1941.

(4) *Use after March 1, 1942.* After March 1, 1942, no person shall use any raw silk in fulfilling the contracts specified in paragraphs (b), (1), (i) and (ii) of General Preference Order M–22, as amended October 16, 1941, except raw silk of the types and grades approved for use in such contracts by the Director of Industry Operations.

2. This amendment shall take effect immediately. (P.D. Reg. 1 Amended, Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong. 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 10th day of February 1942.

PART 1074—VITAMIN A

Limitation Order L–40 To Conserve the Supply of Vitamin A

Whereas national defense requirements for Vitamin A have created a shortage thereof for defense for private account and for export, and it is necessary in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution thereof; and

Whereas reduction in the quantities of Vitamin A consumed in the manufacture of multivitamin preparations for human consumption and in the manufacture of poultry, cattle, fur-bearing or other animal feed in the manner and to the extent hereinafter provided, can be effected without impairing the effectiveness of such preparations or feeds.

Now, therefore, it is hereby ordered, That

§ 1074.1 *Limitation Order L–40—(a) Definitions.* For the purposes of this Order.

(1) "Vitamin A" shall include Vitamin A and its "pro-vitamins" such as carotenes and cryptoxanthin derived from plant, animal, fish or marine animal sources.

(2) "Multivitamin" shall mean represented to contain more than one vitamin.

(3) "Fish Liver oils" shall mean oils containing Vitamin A, derived, extracted or processed from livers of the cod, shark, halibut, or other fish.

(4) "Feed" shall mean natural or artificial feedstuffs or rations or other substances intended for poultry, cattle, fur-bearing or other animals, as a complete ration, or as a component of, or in reinforcement of, other diets.

(b) *General restrictions.* (1) Except as provided in paragraph (b) (3), or upon express authorization of the Director of Industry Operations, no person shall, on or after February 10, 1942, manufacture multivitamin capsules, tablets, or pills represented to contain more than 5,000 U. S. P. XI units of Vitamin A in each such capsule, tablet, or pill, or in such number of such capsules, tablets, or pills as is recommended by the label or accompanying instructions to constitute the largest daily dose.

(2) Except as provided in paragraph (b) (3), or upon express authorization of the Director of Industry Operations, no person shall, on or after February 10, 1942, manufacture multivitamin liquid preparations represented to contain more than 5,000 U. S. P. XI units of Vitamin A in the largest daily dosage recommended by the label or accompanying instructions.

(3) The restrictions of subparagraphs (1) and (2) above shall not apply to the manufacture of preparations containing no other vitamin than Vitamin A, or to preparations containing Vitamins A and D where the Vitamin A potency is 25,000 U. S. P. XI units or more in the recommended daily dosage; and the restrictions of subparagraph (2) above shall not apply to the manufacture of preparations recognized in the U. S. P. or N. F.

(4) Unless expressly authorized by the Director of Industry Operations, no person shall, on or after February 10, 1942, use, or dilute for use, in the manufacture or preparation of feed, fish liver oil which in undiluted form has a potency of more than 12,000 U. S. P. XI units of Vitamin A per gram.

(5) Unless expressly authorized by the Director of Industry Operations, no person shall, on or after April 10, 1942, manufacture or prepare feeds which in the form recommended to be consumed contain more than 1000 U. S. P. XI units of Vitamin A per pound, derived from fish or fish liver oils.

(c) *Applicability of General Preference Order M–71, as amended.* All sales, purchases and deliveries of Fish Liver Oils shall continue subject to the provisions and restrictions of General Preference Order M–71, as amended from time to time.

(d) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(e) *Violations.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(f) *Appeals.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in his community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work may appeal to the War Production Board by a letter setting forth the pertinent facts and the reasons why he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(g) *Communications to War Production Board.* All communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Health Supply Branch, Washington, D. C., Ref: L–40.

(h) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 10th day of February 1942.

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1304—IRON AND STEEL SCRAP

AMENDMENT NO. 14 TO PRICE SCHEDULE NO. 4—IRON AND STEEL SCRAP

Section 1304.8, § 1304.13 (a) footnotes 6 and 7, (c) (4), (c) (4) (iii), (d) and (e), § 1304.14, (c) (1), § 1304.15 (b) are amended to read as set forth below and § 1304.13 (c) (4) (iv) is added.

§ 1304.8 *Record-keeping and reporting requirements.* Every dealer in, and every maker, smelter, processor, broker, or consumer of, and every other person purchasing or selling iron and steel scrap shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of:

(a) As of the close of each month, the quantity in pounds and quality by grades of iron and steel scrap, (1) on hand and (2) on order;

(b) In the case of transactions for which maximum prices are established in this Schedule, each such purchase or sale, the date thereof, the name and address of the buyer or the seller, the shipping point price, the quantity in pounds and quality in grades, as defined in the applicable appendix, the mode or modes of transportation used from shipping point to point of delivery, the transportation charges involved, the bills of lading and other documents evidencing the movement from shipping point to point of delivery, the delivered price and the commission, if any, involved in the transaction. The record shall also contain such further requirements as are set forth in the applicable appendix (see especially § 1304.15 (b) (2) (iii)).

(c) In the case of transactions (including purchases or sales of used material which is to be made into iron and steel scrap, e. g. a box car, locomotive, graveyard automobile or the like) for which no maximum prices are established hereunder, each such purchase or sale, the date thereof, name and address of the buyer or seller, the type of material involved, the purchase or sales price, and the terms of such price (i. e. whether the material is purchased or sold *as is, where is,* or *delivered to the dealer's yard,* or otherwise).

(d) Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may from time to time require.

* * * * *

§ 1304.13 *Appendix A; maximum prices for iron and steel scrap other than railroad scrap—(a) Basing point[1] prices from which shipping point prices and consumers' delivered prices are to be computed.*

* * * * *

BASIC OPEN HEARTH GRADES[6]

* * * * *

ELECTRIC FURNACE, ACID OPEN HEARTH AND FOUNDRY GRADES[6][7]

(For electric furnace, acid open hearth & foundry use only)

* * * * *

[6] In no case may special preparation charges be added to the prices listed above. Inferior grades shall continue to be purchased at the differential below the corresponding listed grade price which the consumer paid during the period September 1, 1940 to January 31, 1941. Bundles with less than 50% tin-coated material shall be priced at $5.00 per gross ton under Basic Open Hearth Grades; bundles with more than 50% tin-coated material shall be priced at $8.00 below Basic Open Hearth Grades.

Except upon prior approval by the Office of Price Administration, no grade of scrap deemed by buyer or seller or both to be superior to any grade listed above shall be purchased at a premium above the corresponding listed grade with the following exceptions: (a) In the case of cast iron borings, containing no more than 0.5 percent oil content, for chemical use in the manufacture of explosives, the basing point price shall be $5.00 per gross ton over the price of Item 11. Where cast iron borings are purchased for chemical use other than in the manufacture of explosives, the price shall be $3.00 per gross ton over the price of Item 11. (b) In the case of ingot iron scrap and any alloyed ferrous scrap, except manganese scrap, purchased by an Electric Furnace or Acid Open Hearth for recovery of alloy content, such grades may be purchased at the differential above the corresponding listed grade which the consumer paid during the period September 1, 1940, to January 31, 1941.

Mixed shipments of Basic Open Hearth or Blast Furnace grades shall be deemed shipments of unprepared scrap and shall be priced in accordance with the provisions of paragraph (e) of this section, unless the consumer has authorized a mixed shipment in his purchase order.

[7] Except in cases in which the Office of Price Administration has given prior approval to Basic Open Hearth consumers to purchase Alloy Free Low Phos. and Sulphur Turnings at the prices listed above, no Basic Open Hearth or Blast Furnace consumer may purchase any of the above grades at a price in excess of the price listed herein for the corresponding Basic Open Hearth or Blast Furnace Grade. The prices of Items 12 and 22 shall not exceed the prices of Basic Open Hearth and Blast Furnace Grades respectively, unless delivered to the consumer direct from the industrial producer thereof.

* * * * *

(c) *Maximum shipping point prices.*

* * * * *

(4) *Exceptions to the formula for computing shipping point prices.*[1]

* * * * *

(iii) The maximum shipping point price within the Cincinnati basing point for Basic Open Hearth Grades and Items 18, 19 and 20 shall be the Cincinnati basing point price minus 80 cents per gross ton.

(iv) The maximum shipping point price for No. 1 heavy melting steel (with Sparrows Point differentials for the other grades) at all shipping points within the Boston, Mass., switching district shall be $15.05 per gross ton f. o. b. cars or f. a. s. vessel, or, where delivery to the consumer is solely by motor vehicle, loaded on such vehicle.

(d) *Maximum prices delivered to the plant of a consumer.* Scrap is at its point of delivery to the consumer when it has arrived for unloading at the plant of the consumer. In no case shall any charge or cost incurred in placing the scrap at the shipping point or any charge or cost incurred in unloading the scrap at the point of delivery, or in subsequent handling, be included in the maximum delivered price.

(1) *Where transportation from shipping point to point of delivery is wholly or partially by rail, or vessel, or combination of rail and vessel,* the maximum delivered price shall be the shipping point price as determined in paragraph (c) of this section, plus the established charge for transporting the scrap from the shipping point to the point of delivery by the mode of transportation employed.

Where transportation from shipping point to point of delivery includes water movement, if no established rate exists for such water movement, then the actual charge or cost incurred in such movement may be used in computing the maximum delivered price.

Where transportation to the point of delivery includes water movement, no established charges at the dock, or any charge or cost customarily incurred at the dock, may be included in the delivered price. In lieu thereof, 75 cents per gross ton may be included in the maximum delivered price: *Provided, however,* That this maximum allowance shall be 50 cents per gross ton at Memphis, Tenn., $1.00 per gross ton at Great Lakes ports, and $1.25 per gross ton at New England ports. Such allowances must be shown as a separate item on the invoice.

(2) *Where transportation from shipping point to point of delivery is solely by motor vehicle.* (i) Where transportation is by *public carrier,* the maximum delivered price shall be the shipping point price as determined in paragraph (c) of this section, plus the established public carrier charge for transporting the scrap by motor vehicle from the shipping point to the point of delivery.

(ii) Where transportation is by *other than public carrier,* the maximum delivered price shall be the shipping point price as determined in paragraph (c) of this section, plus the charge for transporting the scrap at the established rail carload rate for the lowest minimum weight from the rail siding nearest the shipping point to the rail siding nearest the point of delivery: *Provided, however,* That this charge need never fall below $1.00 per gross ton.

(3) *In no case, however, shall the delivered price exceed by more than one dollar the price listed in paragraph (a) for the basing point nearest, in terms of established transportation charges, to the consumer's plant, with the following exceptions:*

(Exceptions 1–8 follow.)

* * * * *

(e) *Unprepared scrap.* The maximum prices established hereinabove are maximum prices for prepared scrap. The term "unprepared scrap" shall have its customary trade meaning and shall not include such demolition projects as bridges, box cars or graveyard automobiles, which must be so priced that the prepared scrap will deliver to the consumer within the maximum delivered price established hereinabove.

For unprepared scrap, maximum prices shall be $2.50 less than the maximum prices for the corresponding grade or grades of prepared scrap. In no case, however, shall Electric Furnace and Foundry grades, listed in paragraph (a) above be used as the "corresponding grade or grades of prepared scrap."

Except as otherwise provided hereunder, where scrap is to undergo preparation prior to its arrival at the point of delivery, such scrap is not at its shipping point, as that phrase is defined in paragraph (c) of this section, until after such preparation has been completed. Where a consumer purchases unprepared *remote* scrap in rail carload lots, if no adequate facilities for preparation exist at or near the shipping point, the consumer may designate a dealer or dealers to prepare such scrap for its use at a maximum preparation fee of $2.50 per gross ton. In such cases the maximum delivered price shall be the shipping point price for unprepared scrap at the remote shipping point plus all-rail transportation charges to the point of delivery at the dealer's yard plus a $2.50 per gross ton preparation fee plus transportation charges from the dealer's yard to the point of delivery after the scrap has been loaded on the delivering carrier. Interim loading, unloading and similar charges may not be absorbed by the consumer. The maximum delivered price of such scrap shall not exceed by more than $5.00 the price at the basing point nearest the consumer's plant except upon prior approval of the Office of Price Administration as provided in Exception 3 in paragraph (d) of this section. Every purchase of scrap on this preparation fee basis shall likewise be subject to all the filing and other requirements in Exception 3 of paragraph (d) of this section.

At no time shall ownership of such scrap reside in the dealer to whom the preparation fee is paid.

* * * * *

§ 1304.14 *Appendix B; maximum prices for iron and steel scrap originating from railroads—*

* * * * *

(c) *Maximum prices for scrap which cannot be identified as to origin, scrap originating from mines, logging roads, and similar sources, and scrap originating from railroads who do not, within two weeks after the issuance of this schedule, file average price information with the Office of Price Administration.*

* * * * *

(1) In the case of scrap rails, scrap rails 3 feet and under, scrap rails 2 feet and under, scrap rails 18 inches and under, and rails for rerolling, the shipping point price shall be computed by application of the provisions of paragraphs (b) and (c) of Appendix A to the prices at the most favorable basing point in Appendix B. In no case need this shipping point price fall below $4.00 for scrap rails, $16.00 for scrap rails 3 feet and under, $16.25 for scrap rails 2 feet and under, $16.50 for scrap rails 18 inches and under, and $15.50 per gross ton for rails for rerolling. The maximum delivered price shall be the shipping point price thus obtained plus transportation charges from the shipping point to the point of delivery.

((2) follows.)

• • • • •

§ 1304.15 *Appendix C; maximum price for cast iron scrap other than railroad scrap.* (All the prices given below are per gross ton.)

• • • • •

(b) *Maximum price delivered to a consumer.* Scrap is at its point of delivery to a consumer when it has arrived for unloading at the plant of the consumer. In no case shall any charge or cost incurred in placing the scrap at the shipping point or any charge or cost incurred in unloading the scrap at the point of delivery, or in subsequent handling, be included in the maximum delivered price.

The maximum price at which any grade of cast iron scrap may be delivered to a consumer shall be:

(1) *Where transportation from shipping point to point of delivery is wholly or partially by rail or vessel, or combination of rail and vessel,* the maximum delivered price shall be the shipping point price listed in paragraph (a) of this section, plus the established charge for transporting the scrap from the shipping point to the point of delivery by the mode of transportation employed. Where transportation to the point of delivery includes water movement, and tariffs establishing charges at the dock are published, charges incurred at the dock, but not to exceed the published tariffs, may be included in the delivered price. Where no such tariffs are published, actual charges incurred at the dock but not to exceed 75 cents per gross ton, may be included in the delivered price. In either case such charges must be shown as a separate item on the invoice.

(2) *Where transportation from shipping point to point of delivery is solely by motor vehicle.* (i) Where transportation is by *public carrier,* the maximum delivered price shall be the shipping point price listed in paragraph (a) of this section, plus the established public carrier charge for transporting the scrap by motor vehicle from the shipping point to the point of delivery.

(ii) Where transportation is by *other than public carrier,* the maximum delivered price shall be the shipping point price listed in paragraph (a) of this section, plus the charge for transporting the scrap at the established rail carload rate for the lowest minimum weight, from the rail siding nearest the shipping point to the rail siding nearest the point of delivery, provided however that this charge need never fall below $1.00 per gross ton.

(iii) Where shipment of the scrap to the consumer is solely by motor vehicle, the delivered price shall not exceed the shipping point price unless the consumer shall receive a certificate made out to the Office of Price Administration, Washington, D. C., and signed by the person from whose yard or point of accumulation the scrap was placed at its shipping point and by the person by whom or on behalf of whom the scrap was transported from shipping point to point of delivery. Such certificate shall, among other things, specify the quantity and grade of the scrap, the shipping point, the point of delivery, and the transportation charges from shipping point to point of delivery. The consumer shall acknowledge receipt of the material on the face of the certificate. Certification must be executed on the Office of Price Administration's Form 104:15 (or a copy thereof). Such forms may be secured from the Office of Price Administration, Washington, D. C., or from any Regional Office.

The above mentioned certificate, shall be preserved by the consumer as part of the record-keeping requirements outlined in § 1304.8. A copy shall likewise be preserved by all persons signing the certificate.

PART 1335—CHEMICALS

PRICE SCHEDULE NO. 104—VITAMIN C

Progress during recent years in biochemical research has led to the isolation of vitamin C, also known as ascorbic acid. This vitamin is indispensable to the development of sound bony structure in humans. Although it is found in fresh fruits and raw vegetables, vitamin C which is used in therapy is mainly a synthetic product.

Wider use of vitamin therapy, coupled with the scarcity of fresh fruits and raw vegetables in some foreign countries, has stimulated a sharply increased domestic and foreign demand for vitamin C produced in this country. This pressure has led to speculation by resellers to such an extent that a number of transactions have been made at prices approximately double the prices quoted by producers. This speculation has taken place and threatens to lead to even higher prices in the resale market, in spite of a distinct downward trend in producers' prices.

After conferences with producers, resellers, and exporters of vitamin C, and representatives of other government agencies, the Office of Price Administration has found that no justifiable reasons exist for producers and primary jobbers charging prices in excess of $1.65 per ounce, or for resellers charging more than $2.15 per ounce, for sales of large quantities. Increases above those prices would, consequently, be inflationary in character.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1335.901 *Maximum prices for vitamin C.* On and after February 16, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, deliver, or transfer vitamin C in quantities of one ounce or more, and no person shall buy, offer to buy or accept delivery of vitamin C in quantities of one ounce or more at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1335.909.*

*§§ 1335.901 to 1335.909, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1335.902 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1335.903 *Evasion.* The price limitations set forth in this Schedule shall not be evaded by direct or indirect methods in connection with a purchase, sale, delivery, or transfer, of vitamin C or in connection with a purchase, sale, delivery or transfer, of any other material, or by way of any commission, service, transportation, discount, premium, or other charge or privilege, or by alteration of grades of vitamin C, or by tying-agreements or other trade understanding, or otherwise.*

§ 1335.904 *Records and reports.* Every person making purchases or sales of vitamin C in quantities of one pound or more after February 15, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer or the seller, the price paid or received, and the specifications and quantity, including the kind and size of the containers, of the vitamin C purchased or sold.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1335.905 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command including taking action to see (a) that the Congress and the public are fully informed thereof, (b) that the powers of the Government, both state and federal, are fully exerted in order to protect the public interest and interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule.

Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation or manipulation of prices of vitamin C, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1335.906 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided,* That no application under this section will be considered by the Office of Price Administration unless filed by persons complying with this Schedule.*

§ 1335.907 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity.

(b) "Vitamin C" means ascorbic acid, U. S. P.

(c) "Producer" means a person who manufactures vitamin C.

(d) "Primary jobber" means a person who buys vitamin C from producers for resale purposes.

(e) "Reseller" means a person who buys vitamin C from other than producers for resale.

(f) "Shipping point" means the point of distribution maintained by a seller from which actual shipment is made.*

§ 1335.908 *Effective date of the Schedule.* This Schedule shall become effective February 16, 1942.*

§ 1335.909 *Appendix A; maximum prices for vitamin C*—(a) *Sales by producers and primary jobbers.* (1) The maximum prices for sales of vitamin C by producers or primary jobbers are established as follows:

Quantity in ounces:	Price per ounce
1,000 or more	$1.65
500 up to 1,000	1.66
100 up to 500	1.67
50 up to 100	1.69
25 up to 50	1.72
5 up to 25	1.77
1 up to 5	1.85

(2) The above maximum prices are f. o. b. the producer's or primary jobber's shipping point, with freight equalized at the rate for a shipment of identical quantity over standard routes from the following points, viz.: Philadelphia, Pennsylvania; St. Louis, Missouri; Chicago, Illinois; Rahway and Nutley, New Jersey; and New York, New York. The maximum prices which a purchaser may pay for vitamin C delivered to him from a producer's or primary jobber's shipping point shall not exceed the maximum prices listed above plus the transportation charge on a shipment of identical quantity to destination over standard routes from that city named above from which the transportation rate to destination is least.

(b) *Sales by resellers.* The maximum prices for sales of vitamin C by resellers are established as follows, f. o. b. reseller's shipping point.

Quantity in ounces:	Price per ounce
1,000 or more	$2.15
500 to 1,000	2.16
100 to 500	2.17
50 to 100	2.20
25 to 50	2.24
5 to 25	2.30
1 to 5	2.41

(c) *Export sales and sales to persons in territories and possessions of the United States.* The following maximum prices are established for export sales of vitamin C to persons in foreign countries and for sales to persons in the territories or possessions of the United States, where the shipments pursuant to such sales originate in the continental United States exclusive of Alaska:

(1) *Exports and sales by producers and primary jobbers.* (i) The maximum prices, except for export sales to persons in Canada or Mexico, are the maximum prices listed in paragraph (a) of this Appendix, f. a. s. vessel at the port of shipment, plus 10 per cent of the applicable maximum price.

(ii) The maximum prices for export sales to persons in Canada or Mexico are the maximum prices listed in paragraph (a) of this Appendix, f. o. b. shipping point in case of overland shipments, or f. a. s. vessel at the port of shipment in case of shipment by vessel, plus 5 per cent of the applicable maximum price.

(2) *Exports and sales by resellers.* (i) The maximum prices, except for export sales to persons in Canada or Mexico, are the maximum prices listed in paragraph (a) of this Appendix, plus 40 per cent of the applicable maximum price, f. a. s. vessel at the port of shipment.

(ii) The maximum prices for export sales to persons in Canada or Mexico are the maximum prices listed in paragraph (b) of this Appendix, f. o. b. shipping point in case of overland shipments, or f. a. s. vessel at the port of shipment in case of shipment by vessel, plus 5 per cent of the applicable maximum price.

(3) *Expenses.* No expenses, commissions, or charges for services may be added to the maximum prices established in this paragraph (c), except (a) ocean or overland freight (b) marine and war risk insurance, and (c) foreign agents' commission, unless such foreign agents' commission or any part thereof is received by the exporter directly or indirectly for his own use.

(d) *Containers.* No charge for containers may be added to the maximum prices established by this Schedule.*

Issued this 9th day of February 1942.

PART 1335—CHEMICALS

PRICE SCHEDULE NO. 103—SALICYLIC ACID

Salicylic acid is chiefly used in the production of aspirin and other internal and external medicinals, in making chrome and khaki dyes, and in vulcanizing natural rubber. The acid is itself made from phenol, which is under allocation by the War Production Board on account of its importance in the production of plastics and explosives. As a result, present and future supplies of salicylic acid are distinctly limited by the amount of phenol which can be spared for its production.

At the same time, increased demand for aspirin and khaki dye, coupled with anticipated increased demand for the acid in rubber vulcanization, has led to speculation on the resale market at prices nearly triple the manufacturers' prices for comparable grades and quantities. These forces threaten further upward pressure on the price of salicylic acid.

After conferences with producers, resellers, and exporters of salicylic acid, and representatives of other government agencies, the Office of Price Administration has found that no justifiable reasons exist for producers and primary jobbers charging prices in excess of 35 cents per pound, or for resellers charging prices in excess of 46 cents per pound, for U. S. P. salicylic acid in 100 to 150 pound barrels. Increases above these prices would, consequently, be inflationary in character.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1335.951 *Maximum prices for salicylic acid.* On and after February 16, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, deliver, or transfer salicylic acid in quantities of one pound or more, and no person shall buy, offer to buy, or accept delivery of salicylic acid in quantities of one pound or more at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1335.959.*

*§§ 1335.951 to 1335.959, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1335.952 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid, or offered.*

§ 1335.953 *Evasion.* The price limitations set forth in this Schedule shall not be evaded by direct or indirect methods in connection with a purchase, sale, delivery, or transfer, of salicylic acid or in connection with a purchase, sale, delivery or transfer, of any other material, or by way of any commission, service, transportation, discount, premium, or other charge or privilege, or by alteration of grades of salicylic acid, or by tying-agreements or other trade understanding, or otherwise.*

§ 1335.954 *Records and reports.* Every person making purchases or sales of salicylic acid in quantities of one pound or more after February 15, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer or the seller, the price paid or received, and the specifications and quantity including the kind and size of the containers, of the salicylic acid purchased or sold.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1335.955 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limita-

tions or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule.

Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of salicylic acid, or of the hoarding or accumulation of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1335.956 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section shall be considered by the Office of Price Administration unless filed by persons complying with this Schedule.*

§ 1335.957 *Definitions.* When used in this Schedule, the term:

(a) "Person" means individual, partnership, association, corporation, or other business entity.

(b) "Salicylic acid" includes the grades of ortho-hydroxybenzoic acid referred to in Appendix A, incorporated herein as § 1335.959.

(c) "Producer" means every person who manufactures salicylic acid.

(d) "Primary jobber" means every person who buys salicylic acid from producers for resale purposes.

(e) "Reseller" means every person who buys salicylic acid from other than producers for resale.

(f) "Shipping point" means the point of distribution maintained by a seller from which actual shipment is made.*

§ 1335.958 *Effective date of the Schedule.* This schedule shall become effective February 16, 1942.*

§ 1335.959 *Appendix A; maximum prices for salicylic acid.* The following maximum prices are established for salicylic acid:

(a) *Sales by producers and primary jobbers.* (1) The maximum prices for sales of salicylic acid by producers or primary jobbers are established as follows:

Quantity	U. S. P., per pound	Technical, per pound
Carlot	$0.28	$0.26
100 pounds or more in barrels	.35	.33
50 pounds or more in 50-pound drums	.37	.35
100 pounds or more in 25-pound drums	.36	.34
50 to 100 pound in 25-pound drums	.37	.35
25 to 50 pounds in 25-pound drums	.38	.36
5 pounds or more in 5-pound drums	.44	.42
1 pound or more in 1-pound cartons	.46	.44

(2) The above maximum prices are f. o. b. the producer's or primary jobber's shipping point, with freight equalized at the rate for a shipment of identical quantity over standard routes from the following points, viz: New York City, New York; Philadelphia, Pennsylvania; Chicago, Illinois; and St. Louis, Missouri. The maximum prices which a purchaser may pay for salicylic acid delivered to him from a producer's or primary jobber's shipping point shall not exceed the maximum prices listed above plus the transportation charge on a shipment of identical quantity to destination from that city named above from which the transportation rate to destination is least.

(b) *Sales by resellers.* The maximum prices for sales of salicylic acid are established as follows, f. o. b. reseller's shipping point.

Quantity	U. S. P., per pound	Technical, per pound
Carlot	$0.36	$0.34
100 pounds or more in barrels	.46	.43
50 pounds or more in 50-pound drums	.48	.46
100 pounds or more in 25-pound drums	.47	.44
50 to 100 pounds in 25-pound drums	.48	.46
25 to 50 pounds in 25-pound drums	.49	.47
5 pounds or more in 5-pound cartons	.57	.55
1 pound or more in 1-pound cartons	.60	.57

(c) *Export sales and sales to persons in Territories and possessions of the United States.* The following maximum prices are established for export sales of salicylic acid to persons in foreign countries and for sales to persons in the territories or possessions of the United States, where the shipments pursuant to such sales originate in the continental United States exclusive of Alaska:

(1) *Exports and sales by producers and primary jobbers.* (i) The maximum prices, except for export sales to persons in Canada or Mexico, are the maximum prices listed in paragraph (a) of this Appendix, f. a. s. vessel at the port of shipment, plus 10 percent of the applicable maximum price.

(ii) The maximum prices for export sales to persons in Canada or Mexico are the maximum prices listed in paragraph (a) of this Appendix, f. o. b. shipping point in case of overland shipments, or f. a. s. vessel at the port of shipment in case of shipment by vessel, plus 5 percent.

(2) *Exports and sales by resellers.* (i) The maximum prices, except for export sales to persons in Canada or Mexico, are the maximum prices listed in paragraph (a) of this Appendix, f. a. s. vessel at the port of shipment, plus 40 percent of the applicable maximum price.

(ii) The maximum prices for export sales to persons in Canada or Mexico are the maximum prices listed in paragraph (b) of this Appendix, f. o. b. shipping point in case of overland shipments, or f. a. s. vessel at the port of shipment in case of shipment by vessel, plus 5 percent of the applicable maximum price.

(3) *Expenses.* No expenses, commissions, or charges for services may be added to the maximum prices established in this paragraph (c), except (i) ocean or overland freight, (ii) marine and war risk insurance, and (iii) foreign agents' commission, unless such foreign agents' commission or any part thereof is received by the exporter directly or indirectly for his own use.

(d) *Containers.* No charge for containers may be added to the maximum prices established by this Schedule.*

Issued this 9th day of February 1942.

PART 1340—FUEL

AMENDMENT NO. 3 TO PRICE SCHEDULE NO. 88—PETROLEUM AND PETROLEUM PRODUCTS

The preamble, § 1340.157 (b), § 1340.157, and § 1340.159 (c) are amended by the addition of the provisions set forth below.

Asphalt and asphalt products are sold principally on the basis of long-term contracts. In 1941 these contracts were agreed upon at low price levels, but by the end of 1941 it became apparent that contracts for 1942 were being negotiated at considerably higher prices. In order to prevent inflationary increases in the prices of asphalt and asphalt products, this amendment is being issued.

§ 1340.157 *Definitions.*

* * * * *

(b) "Petroleum products" means:

* * * * *

Paving and cut-back asphalts, asphalt emulsions, road oils, roofing asphalt and roofing flux

* * * * *

Asphalts and asphalt products not listed above are not for the time being included in the term "petroleum products" as defined above.

* * * * *

(k) "Roofing flux" means the basic grade of soft asphalt (85–100 penetration or softer) which is used in the roofing industry for blowing or oxidizing into other saturants and coatings or as a saturant without further processing.

(l) "Roofing asphalt" means those grades of asphalt which have been oxidized or blown to harder penetrations than roofing flux.

(m) "Paving asphalt" means asphalt specially processed for use as a binder with certain aggregates for the purpose of forming a hard surface by means of hot application.

(n) "Cut-back asphalt" means asphalt manufactured by blending light petroleum distillates with asphalt for the purpose of forming a hard surface.

(o) "Asphalt emulsions" means a suspension of liquid asphalt in water with an emulsifying agent, prepared for the purpose of forming a hard surface by cold application.

(p) "Road oils" means residual oils obtained from asphaltic petroleum by distilling off the more volatile constituents; they range in consistency from liquid petroleum in crude form to viscous asphalt.

(q) "Asphalt" means petroleum asphalt as distinguished from natural asphalt.

§ 1340.159 *Appendix A; maximum prices for petroleum and petroleum products.*

* * * * *

(c) *Specific prices.*

* * * * *

(5) *Paving and cut-back asphalts, asphalt emulsions, road oils, roofing asphalt and roofing flux.*

Maximum prices for roofing flux f. o. b. refinery

	Price per ton
For refineries within 100 miles of the Atlantic coastline	$12.25
For refineries in Chicago, Ill., and within a 50 mile radius of the corporate limits of Chicago, Ill.	10.00
For refineries in St. Louis, Mo., and within a radius of 50 miles of the corporate limits of St. Louis, Mo.	8.25
For refineries in Ohio and within 50 miles south of the southern boundary of Ohio	11.75
For refineries in Kansas City, Mo., and within a radius of 50 miles of the corporate limits of Kansas City, Mo.	10.00
For refineries within 150 miles of the coastline of the Gulf of Mexico	11.10
For refineries in California, Washington, Oregon, Nevada, and Idaho on shipments to destinations in those States	7.25

For delivery to destinations other than in California, Washington, Oregon, Nevada and Idaho the maximum price for each refinery not located in the areas described above shall be not in excess of 75 cents per ton above the highest f. o. b. refinery price applicable to deliveries from such refinery to the given destination during January 1941 on contracts effective during that month.

Roofing asphalt. The maximum prices for each seller of roofing asphalt shall be at no greater differential over the maximum prices determined above for roofing flux than the differentials which were in effect on January 1, 1941.

Paving asphalt, cut-back asphalt, asphalt emulsions and road oils. Maximum prices for paving asphalt, cut-back asphalt, asphalt emulsions and road oils for shipment to a given destination shall be no higher than the weighted average of the prices provided in the three contracts of sale (or sales if not preceded or accompanied by contracts of sale), governing the largest volume made between July 1, 1941, and October 15, 1941, for a product of like specifications and quality shipped to the same destination.

Should there have been only two such contracts of sale or sales of paving asphalt, cut-back asphalt, asphalt emulsions and road oils for shipment to a given destination during this period, the maximum price for any such subject shall be the average of the two sales of such product to the given destination. Should there have been only one sale of a given product for shipment to a given destination, the price on such sale shall be the maximum price for shipment of a given product to the given destination.

Where a person wishes to make a sale to a particular destination and the maximum price cannot be determined upon the basis of the preceding two paragraphs, the maximum price shall be the price of the last contract made prior to October 15, 1941, but not before July 1, 1941, pursuant to open or public bidding, for shipment to that destination of a product of substantially the same quality.

When a person wishes to make a sale to a particular destination and the maximum price cannot be determined upon the basis of the preceding three paragraphs, the maximum price shall be computed upon the basis of the preceding three paragraphs, as if the sale were made for delivery to the destination nearest to the particular destination involved (nearest in terms of freight cost to the seller) and appropriate adjustments to reflect difference in freight costs to the seller shall be made.

(E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483)

This Amendment No. 3 shall become effective as of February 10, 1942. Issued this 9th day of February 1942.

Administrator.

PART 1346—BUILDING MATERIALS

AMENDMENT NO. 2 TO PRICE SCHEDULE NO. 45 [1]—ASPHALT OR TARRED ROOFING PRODUCTS

A new paragraph (c) is added to § 1346.60 as set forth below:

§ 1346.60 *Appendix B; maximum prices for asphalt and tarred roofing products.*

* * * * *

(c) *Exception.* In sales where the destination of the shipment is Hawaii or Alaska, the seller may quote and charge an f. a. s. price, although his only sales on July 2, 1941, were or would have been on a c. i. f. basis: *Provided*, That such f. a. s. price shall not be higher than the seller's f. a. s. price would have been on July 2, 1941 in the case of sales to Hawaii, or on August 1, 1941 in the case of sales to Alaska. (E.O. 8734, 8875, 6 F.R. 1917, 4483)

This amendment No. 2 shall become effective February 10, 1942. Issued this 7th day of February 1942.

PART 1362—CERAMIC PRODUCTS

AMENDMENT NO. 1 TO PRICE SCHEDULE NO. 75—DEAD-BURNED GRAIN MAGNESITE

A new paragraph (d) is added to section 1362.1 as set forth below:

§ 1362.1 *Maximum prices for maintenance grades of dead-burned magnesite.*

* * * * *

(d) The following exception to the maximum price set forth above has been granted: In sales by the Westvaco Chlorine Products Corporation from its Patterson plant to its regular customers located in California, the maximum price shall be $32.00 a ton f. o. b. Chewelah, Washington. Additions for delivered prices and sales in bags or sacks shall be the same as set forth above. This exception is subject to the terms and conditions contained in a letter from the Office of Price Administration to said company, dated February 9, 1942. (E.O. 8734, 8875, 6 F.R. 1917, 4483)

This amendment No. 1 shall become effective February 9, 1942. Issued this 9th day of February 1942.

PART 1401—SYNTHETIC TEXTILE PRODUCTS

AMENDMENT NO. 1 TO PRICE SCHEDULE NO. 95—NYLON HOSE

Section 1401.1, § 1401.3 and paragraph (c) of § 1401.8 are hereby amended; and § 1401.10 is hereby added to read as follows:

§ 1401.1 *Maximum prices for nylon hose.* (a) On or after February 10, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer nylon hose and no person shall buy, offer to buy, or accept delivery of nylon hose, at prices higher than the maximum prices set forth in Appendix A: *Provided*, That contracts entered into prior to February 10, 1942, at prices in compliance with this Schedule (§§ 1401.1 to 1401.9, inclusive) may be carried out at the contract price.

(b) The provisions of this Schedule (§§ 1401.1 to 1401.10, inclusive) are not applicable to sales at retail.

§ 1401.3 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of nylon hose, alone or in conjunction with any other material or commodity, or by way of any premium, commission, service, transportation, or other charge, or by tying-agreement or other trade understanding or practice involving a related sale or allotment of other types of hosiery or any other commodity, or by making the discounts given or other terms or conditions of sale more onerous to the purchaser than those available or in effect on October 15, 1941, or by any other means.

§ 1401.8 *Definitions.*

• • • • •

(c) "Nylon hose" means women's hosiery of the types, styles and constructions set forth in Table I of Appendix A.

§ 1401.10 *Appendix A, maximum prices for nylon hose.* (a) The prices set forth in Table I are maximum prices applicable to sales of nylon hose by manufacturers. Maximum prices applicable to sales of nylon hose by wholesalers or jobbers shall be the prices set forth in Table I increased by ten percent. They are prices f. o. b. the seller's point of shipment and are gross prices, before discounts of any nature are deducted, and include all commissions.

TABLE I

Style	Construction		Type	
	Gauge	Denier	All nylon	Nylon leg
			Dollars per dozen	*Dollars per dozen*
Full Fashioned [1]	48 and lower	20 or 40	13.00	12.00
	51	30 or 40	14.00	13.00
	51 and 54	15 or 20	16.50	15.50
	Needles			
Circular Knit [2]	Under 360	30 or 40	11.50	10.50
	360 and higher	30 or 40	12.50	11.50
	400 only	15 or 20	13.50	12.50

[1] For irregulars the above maximum prices shall be discounted by not less than 10 percent. For seconds, the above maximum prices shall be discounted by not less than 25 percent.
[2] In addition to the above maximum prices, a premium of $2.00 per dozen may be charged for full fashioned mesh, lace or non-run hose.
[3] In addition to the above maximum prices, a premium of $1.00 per dozen may be charged for circular knit mesh, lace, or non-run hose.

(E.O. 8734, 8875, 6 F.R. 1917, 4483)

This amendment shall become effective February 10, 1942. Issued this 9th day of February 1942.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

AMENDMENT NO. 1 TO RATIONING ORDER NO. 2—NEW PASSENGER AUTOMOBILES

Section 1360.105 is amended by adding a new paragraph (b):

§ 1360.105 *Reports.*

• • • • •

(b) Every person engaged in the business of selling, distributing, manufacturing, or financing new passenger automobiles must report to the Office of Price Administration, Automobile Inventory Unit, New York City, N. Y., with respect to all new passenger automobiles in his physical possession or custody. Such persons shall report all 1942 model passenger automobiles, irrespective of number of miles driven, and all other passenger automobiles which have been driven less than one thousand miles. Reports shall be made on OPA forms, completely filled out as therein required, as follows:

(1) Dealers, distributors, and finance companies shall file OPA Form R-204 with respect to all such automobiles in their physical possession or custody as of close of business, February 11, 1942, which were shipped to dealers or distributors prior to January 16, 1942. Form R-204 is to be filed on or after February 12, 1942 and before any vehicles then in physical possession or custody are released for sale or transferred, and in any case not later than February 19, 1942.

(2) Manufacturers shall file OPA Form R-205 with respect to all such automobiles in their physical possession or custody as of close of business, February 11, 1942 (excepting those automobiles to be reported on OPA Form R-207, referred to below). Form R-205 is to be filed on or after February 12, 1942 and before any vehicles in physical possession or custody are released to dealers or distributors, and in any case not later than February 19, 1942.

(3) Dealers, distributors and finance companies shall file OPA Form R-206 with respect to all such automobiles in their physical possession or custody as of close of business, February 28, 1942, which were shipped to them on or after January 16, 1942 (known as vehicles with pool stickers affixed). Form R-206 is to be filed on or after March 1, 1942, and before any vehicles then in physical possession or custody are released for sale or transfer and in any case not later than March 8, 1942.

(4) Manufacturers shall file OPA Form R-207 with respect to all automobiles in their physical possession or custody or which are in transit to dealers or distributors as of close of business, February 28, 1942, and which had not been shipped to dealers prior to January 16, 1942 (known as vehicles with pool stickers affixed). Form R-207 is to be filed on or after March 1, 1942 and before any vehicles in physical possession or custody are released for sale or shipment and in any case not later than March 8, 1942. (E.O. Bituminous Coal Division.

[Docket No. A-1251]

PETITION OF DISTRICT BOARD NO. 11 FOR A CHANGE IN SHIPPING POINTS OF THE GOLDEN GLOW MINE (MINE INDEX NO. 895) OF THE BI-COUNTY COAL COMPANY, INC., A CODE MEMBER IN DISTRICT NO. 11, PURSUANT TO SECTION 4 II (d) OF THE BITUMINOUS COAL ACT OF 1937

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, has been duly filed with this Division by the above-named party, alleging that price classifications and minimum prices have been established for the coals of the Golden Glow Mine (Mine Index No. 895) of Bi-County Coal Company, Inc., a code member in District No. 11, for rail shipments on the Illinois Central Railroad from Dugger, Indiana, and that Freight Origin Group No. 62 has been assigned to this mine for such shipments; and that conditions beyond the producer's control have made it necessary to discontinue rail shipments from Dugger, Indiana. Petitioner requests that the price classifications and minimum prices established for the coals produced at the Golden Glow Mine be made applicable to rail shipments from Latta, Indiana, on the Chicago, Milwaukee, St. Paul & Pacific Railroad.

It appears that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention have been filed with the Division in the above-entitled matter; and

The following action is deemed necessary in order to effectuate the purposes of the Act;

It is, therefore, ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, the price classifications and minimum prices established for the coals of the Golden Glow Mine (Mine Index No. 895) of the Bi-County Coal Company, Inc., for rail shipments shall be applicable only for shipments from the shipping point and with the Freight Origin Group number appearing in the schedule marked "Supplement," annexed hereto and hereby made a part hereof, and shall no longer be applicable for shipments on the Illinois Central Railroad from Dugger, Indiana.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: January 26, 1942.

PETITIONS OF L. F. GORDLEY, DISTRICT BOARD NO. 6, AND GUY S. MARTIN (DE SOTO COAL COMPANY)

ORDER DISMISSING PETITIONS

Petitions seeking relief under section 4 II (d) of the Bituminous Coal Act of 1937 were filed with the Division by the above-named parties.

On November 5, 1941, an Order was entered in said dockets requiring the petitioners therein to show cause at a hearing on December 5, 1941, in Washington, D. C., why the several proceedings should not be dismissed, and due notice thereof was given to each petitioner.

No petitioner appeared or offered to show cause at such hearing why such proceedings should not be dismissed, and it appears that no petitioner has any further interest in any of the above-entitled proceedings.

Now, therefore, it is ordered that the above-entitled proceedings, and each of them, be, and they hereby are, dismissed without prejudice, and the proceedings in the said dockets closed.

Dated: February 7, 1942.

UNITED STATES DEPARTMENT OF AGRICULTURE

AGRICULTURAL ADJUSTMENT ADMINISTRATION

(Post a copy of this notice at one or more public places within each community at least 10 days in advance of the date of the referendum.

NOTICE

WHEAT MARKETING QUOTA REFERENDUM

In view of the fact that the Secretary of Agriculture of the United States on July 24, 1941, determined and proclaimed, pursuant to the provisions of section 335 of the Act of Congress known as the Agricultural Adjustment Act of 1938, as amended, that the total supply of wheat as of the beginning of the marketing year commencing July 1, 1942, will exceed by more than 35 percent a normal year's domestic consumption and exports, a referendum, by secret ballot, of farmers who would be subject to wheat marketing quotas for the 1942 crop year will be held on May 2, 1942, pursuant to section 336 of said Act and in accordance with the referendum regulations (MQ-600) prescribed on October 31, 1941, by the Secretary of Agriculture, to determine whether they favor or oppose marketing quotas on the 1942 crop of wheat. Such quotas will be in effect unless more than one-third of the farmers voting in the referendum oppose them.

PLACE FOR BALLOTING

The place for voting in the referendum in the ---------- community will be ----------

TIME

The polls, in accordance with said regulations for holding the referendum, shall be opened promptly at --------- o'clock a. m. and closed promptly at --------- o'clock p. m. on Saturday, May 2, 1942, local time.

ELIGIBILITY TO VOTE

1. Each farmer engaged in the production of wheat for harvest in 1942 on a farm on which the normal production of the acreage planted to wheat of the current crop is 200 bushels or more, and on which the acreage planted to wheat is in excess of fifteen acres, who is entitled to share in the proceeds of the 1942 wheat crop as owner, landlord (other than a landlord of a standing-rent or fixed-rent tenant), tenant, or sharecropper, shall be eligible to vote.

2. No wheat farmer (whether an individual, partnership, corporation, association, or other legal entity) shall be entitled to more than one vote in the referendum, even though he may be engaged in the production of wheat for harvest in 1942 on two or more farms, or in two or more communities, counties, or States.

3. Where a group of several persons, such as husband, wife, and children, are participating in the production of wheat for harvest in 1942 under a lease or cropping agreement, only the person or persons who signed or entered into the lease or cropping agreement shall be eligible to vote.

4. In the event two or more persons are producing wheat for harvest in 1942 not as members of a partnership but as joint tenants, tenants in common, or owners of community property, each such person shall be entitled to one vote.

5. There shall be no voting by proxy or agent, or in any manner except the eligible voter personally depositing his ballot marked by him in the ballot box, but a duly authorized officer of a corporation, firm, association, or other legal entity or a duly authorized member of a partnership may cast the vote. There shall be no voting by mail except that any eligible farmer who will not be present in the county in which he is engaged in the production of wheat for harvest in 1942 on the day of the referendum may obtain a ballot in the county in which he is then present and cast his ballot by marking it to show clearly how he votes, signing his name, and entering his address thereon, and mailing it (in a sealed envelop, postage paid, marked "Absentee Ballot") to the office of the county committee for the county in which he is eligible to vote in time to reach that office before the polls are closed.

NOTICE OF CHANGE OF TIME AND PLACE [1] OF FURTHER HEARING ON THE HOME WORK PROBLEM IN THE WOMEN'S APPAREL INDUSTRY

Whereas in accordance with notice duly published in the FEDERAL REGISTER, a public hearing was scheduled to be held on February 17, 1942, before Major Robert N. Campbell as Presiding Officer in Washington, D. C., for the purpose of taking further evidence on the following question:

What, if any prohibition, restriction or regulation of home work in the women's apparel industry is necessary to carry out the purposes of the wage order effective September 29, 1941, to prevent the circumvention or evasion of such order, and to safeguard the 40-cent minimum wage rate established therein; and

Whereas it is deemed advisable to postpone such hearing and to transfer the place of the hearing to New York City; Now, therefore, notice is hereby given that:

1. The hearing on the home-work problem in the women's apparel industry is postponed to March 5, 1942, at 10 a. m., at the Administrator's office, Wage and Hour Division, 1560 Broadway, New York City.

2. The hearing will be conducted in accordance with the rules and procedure issued for the original hearing in a Notice of Hearing published in the FEDERAL REGISTER on July 1, 1941, and incorporated by reference in the Notice of Further Hearing published in the FEDERAL REGISTER on November 18, 1941.

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 6209]

IN RE APPLICATION OF DURHAM RADIO CORPORATION (WDNC), DURHAM, NORTH CAROLINA, FOR CONSTRUCTION PERMIT

ORDER GRANTING LEAVE TO INTERVENE, ETC.

The Commission having under consideration the petition of S. E. Adcock, d/b as Stuart Broadcasting Company, licensee of Station WROL, Knoxville, Tennessee, for leave to intervene and for enlargement of the issues in the hearing on the above-entitled application;

It is ordered, This 6th day of February 1942, that the petition for leave to intervene be, and the same is hereby, granted; and

It is further ordered, That the hearing issues as now designated, be, and the same are hereby, amended to read as follows:

1. To determine the areas and populations which would gain primary service from the operation of Station WDNC as proposed, and what other broadcast services are available to these areas and populations.

2. To determine the extent of any interference which would result from the simultaneous operation of Station WDNC as proposed and the operation of Station WROL as proposed in application B3-P-3407, Station WSJS as proposed in application B3-MP-1258, and Station WAGE as proposed in application B1-P-3323, as well as the areas and populations affected thereby, and what other broadcast service is available to these areas and populations.

3. To determine the extent of any interference which would result from the simultaneous operation of Station WDNC as proposed herein and Station WROL.

4. To determine the areas and populations which would be deprived of primary service as the result of the operation of Station WDNC as proposed herein, and what other broadcast service is available to these areas and populations.

5. To determine whether the granting of this application would be consistent with the Standards of Good Engineering Practice, particularly in view of the expected nighttime interference limitation to the service of Station WDNC as proposed.

6. To determine whether the authorization requested herein is the best available assignment.

7. To determine whether the granting of this application and the operation of Station WDNC as proposed on the frequency 620 kc, would serve public interest, convenience, or necessity better than the operation of Station WRAL on the same frequency as proposed in application B3-P-3189.

8. To determine whether the granting of this application would tend toward a fair, efficient, and equitable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934, as amended.

9. To determine whether, in view of the facts adduced under the foregoing issues and the issues relating to the application of Capitol Broadcasting Company, Inc., Docket 6210, public interest, convenience, and necessity will be served by the granting of this application and the application of Capitol Broadcasting Company, Inc., or either of them.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 10th day of February, A. D. 1942.

Notice is hereby given that a declaration or application (or both), has been

filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above-named party; and

Notice is further given that any interested person may, not later than February 24, 1942, at 4:45 p. m., E. S. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Central Ohio Light & Power Company, a subsidiary of Crescent Public Service Company, a registered holding company, proposes to declare and pay out of earned surplus dividends in the aggregate amount of $40,000 to the holders of its Common Stock during the year 1942. The application was filed by Central Ohio Light & Power Company pursuant to section 12 (c) of said Act and the Commission's Order, dated February 19, 1941 (Holding Company Act Release No. 2570), which provides, in part, that so long as any of the First Mortgage 3½% Bonds, Series D, due March 1, 1966, of Central Ohio Light & Power Company shall be unredeemed and outstanding or until further Order of the Commission, no further dividends shall be declared or paid on said Common Stock except upon application to and approval by order of the Commission.

IN THE MATTER OF THE NORTH AMERICAN COMPANY

ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 7th day of February, A. D. 1942.

Notice heretofore was given on January 26, 1942, that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The North American Company, in respect of transactions summarized as follows:

The North American Company, a registered holding company under the Public Utility Holding Company Act of 1935, proposes to sell to certain investment dealers for distribution to the public up to and not exceeding 2,695,000 shares of the Common Stock, without par value, of its subsidiary company, Union Electric Company of Missouri, such maximum number of shares being the entire interest owned by the parent company in the subsidiary company and being all of the issued and outstanding common stock of the subsidiary company. Union Electric Company of Missouri has outstanding $80,000,000 of First Mortgage and Collateral Trust Bonds, 3¾% Series due 1971, and 130,000 shares of $5 Preferred Stock, and 150,000 shares of Preferred Stock, $4.50 Series.

The declaration states that Union Electric Company of Missouri will file in the near future a Registration Statement under the Securities Act of 1933 with respect to the proposed sale of its Common Stock and that there will be no commitment to The North American Company to purchase all or any specified portion of the shares of Common Stock, the obligation of the investment dealers to purchase such shares being limited to shares sold by them. The agreement to be entered into by and between The North American Company and the investment dealers will provide, among other things, that a Selling Group will be formed, the Selling Group will be managed by Dillon, Read & Co. and may include any or all of the investment dealers; that the period during which the agreement is to be operative may be terminated at any time or suspended from time to time by The North American Company in its sole discretion; and that The North American Company will have the right from time to time in its discretion to change the public offering price.

The initial public offering price of the Common Stock to be sold and the period during which the agreement above referred to will be operative have not been supplied and such information, among other things, will be supplied by amendment to the declaration.

The net proceeds from the sale of the Common Stock will be applied by The North American Company, from time to time, to the retirement of its presently outstanding Debentures in the following amounts and order: (1) $4,813,000 principal amount of 4% Series due 1959, at 103.25, the present redemption price; (2) $24,813,000 of 3¾% Series due 1954 at 102.25; and (3) $19,850,000 of 3½% Series due 1949 at 102.25. Any net proceeds received after the above-mentioned debentures have been retired will be held or used by The North American Company for its general corporate purposes. Such use of the net proceeds from the proposed sale of the Common Stock, it is stated, is in furtherance of a retirement program already adopted by The North American Company.

The North American Company requests that the Commission, by order, permit the declaration to become effective prior to February 16, 1942 and that the Commission find that the proposed sale of the Common Stock is exempt from the Competitive bidding requirement of Rule U-50 under said Act.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to said matters, that said declaration shall not become effective nor said application be granted except pursuant to further order of this Commission;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and rules of the Commission thereunder be held on February 12, 1942, at 10:00 o'clock, A. M., at the offices of the Securities and Exchange Commission, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing room clerk in Room 1102 will advise as to the room where such hearing will be held. At such hearing, cause shall be shown why such declaration or application (or both) shall become effective or shall be granted. Notice is hereby given of said hearing to the above-named declarants and applicants and to all interested persons, said notice to be given to said declarants and applicants by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That James G. Ewell or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

Notice of such hearing is hereby given to The North American Company and to any other person whose participation in such proceeding may be in the public interest and for the protection of investors and consumers.

By the Commission.

CHILD HEALTH DAY—1942

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the Congress by joint resolution of May 18, 1928 (45 Stat. 617), has authorized and requested the President of the United States to issue annually a proclamation setting apart May 1 as Child Health Day:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, in recognition of the vital importance of the health of children to the strength of the Nation, do hereby designate the first day of May of this year as Child Health Day.

And I call upon the people in each of our communities to contribute to the conservation of child health and the reduction of illness among children by exerting every effort to the end that before May Day, Child Health Day, children over nine months of age be immunized against diphtheria and smallpox, the two diseases for which we have the surest means of prevention.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the United States of America to be affixed.

CHAPTER IX—TRANSPORT

PART 94—PRIORITIES FOR AIR TRANSPORTATION [3]

§ 94.1 *Priority classifications.* Priority classes are established as follows:

[1] Modifies list posted stockyards 9 CFR 204.1.

[2] Acting pursuant to authority delegated by the Secretary of Agriculture under the Act of April 4, 1940 (54 Stat. 81; 6 F.R. 5192).

[3] § 94.1 (7 F.R. 573) is superseded. The regulations contained in § 94.1 to 94.8 are also contained in Directive No. 3, Priorities for Air Transportation, Headquarters, Army Air Forces, W.D., February 5, 1942, which supersedes and cancels Directives No. 1 and No. 2, dated January 15 and 23, 1942, respectively.

(a) *Class 1.* Personnel of the White House upon personal request and identification.

(b) *Class 2.* Army, Navy and Marine Corps airplane pilots of their respective Ferrying Commands traveling under Military orders, upon presentation of such identifying orders. (Not an air transportation request, but Military Special Orders for travel by air.)

(c) *Class 3.* Military personnel (War, Navy, Marine Corps, Coast Guard, and Allied Military Personnel) who present special orders *directing* travel by air (not on air transportation request or "authorization").

(d) *Class 4.* Army and Navy equipment, ammunition, supplies, and materials essential to the war effort ordered for air movement by the War Department (Assistant Chief of Staff, G–4). Requests for such movements will be made by the Government Department or Agency concerned with the Air Transport Priority and Assignment Section (Office of the Assistant Chief of Staff, G–4, Department of Commerce Building, Room 5317, Telephone EXecutive 2460, Extension 1240).

(e) *Class 5.* (1) Personnel of all Government Departments and Agencies and other civilians whose activities are essential to the war effort, who are traveling on urgent missions *"requiring travel by air,"* and who possess and present a certificate certifying that the transportation involved is necessary to the successful prosecution of the war effort; such certificate, to be signed by an approved executive of the Government department or agency concerned, or by other competent authority, specifically designated by the Supply Division G–4, War Department, General Staff.

(2) This classification includes members of the Congress of the United States who may execute certificates for their own travel when engaged in activities essential to the war effort.*

*§§ 94.1 to 94.3 issued under authority contained in Sec. 1, 39 Stat. 645; 10 U.S.C. 1361, and E.O. No. 8974 (6 F.R. 6441).

§ 94.2 *General information*—(a) *Establishment of priorities.* The Supply Division (G–4) War Department General Staff, is charged with the establishment of priorities for travel by commercial air lines.

(b) *Definition of priority transportation on scheduled air carriers.* (1) A priority for air travel is a demand upon an air carrier for a space reservation between points in accordance with the priority classifications issued to facilitate the prompt execution of a mission essential to the war effort.

(2) A priority does not direct transportation on a specific airline or flight unless only one airline or flight will permit the completion of the mission in the time required. It does not direct a specific type of accommodation on a flight, such as a sleeper accommodation.

(c) *Directives*—(1) *Issuance.* Directives governing priority will be issued by the office of the Military Director of Civil Aviation, as the necessity becomes apparent, governing the transportation of persons and cargo by air necessary to the successful prosecution of the War Effort.

(2) *Obligation of Air Carriers.* Compliance with directives is mandatory upon the Air Carriers to whom they are issued.

(d) *Origin of request for priority.* (1) If the passenger follows specific procedures outlined in this Directive, and future Directives, and proper credentials are presented to the Air Carrier, the request for priority will be automatically granted.

(2) If a particular case is not clearly covered by a Directive the passenger or shipper must request the priority through the Government Department or Agency for which the transportation is necessary to the successful prosecution of the war effort. To establish the priority an authorized person in the department or agency must obtain the approval of the office of the Assistant Chief of Staff (G–4) in Washington, Executive 2460, Extension 1240. If priority is established the Air Carrier(s) will be notified.

(3) Persons or shippers not employed by the Government may obtain priority transportation only through the Government Agency or Department or other authority specifically designated by G–4, in whose interests the travel is performed.

(4) The office of the Assistant Chief of Staff and the office of the Military Director of Civil Aviation will not receive calls from individual travelers or shippers, and will not act as a reservation office, but will function only in the establishment of priorities.

(e) *Policy for administering priorities*—(1) *General.* (i) It is the policy to administer priority transportation to cause the least inconvenience to regular passengers and shippers consistent with the prosecution of the war effort. There will be times when transportation for regular passengers and cargo will be deferred to clear space for priority transportation, but it is felt that this inconvenience will be limited and will not be serious enough to discourage regular passengers and shippers from taking full advantage of the use of Scheduled Air Transportation.

(ii) In considering transportation by air it will be borne in mind that there are many flights each day between main air terminals. This frequently makes it possible to use any one of many flights to complete a mission.

(2) *Order of consideration of priorities.* (i) Priority classes shall take precedence in the order listed.

(ii) Passengers and cargo with the same priority classification will be accepted in the order that reservations are requested if all priority requests with the same classifications cannot be accommodated on a flight.

(3) *Displacement of priority passengers or cargo.* Priority reservations will not be displaced on a flight by another priority request of the same classification. A priority reservation will be displaced by a priority request of a higher classification. When it becomes necessary to displace priority passengers or cargo in order to accommodate priorities of a higher classification, the local priority man on duty will designate the priority to be removed, based on instructions from G–4. He will expedite the removed priority to destination on first possible flight.

(f) *Responsibility of Government departments and agencies.* Government departments and agencies are requested to exercise care to assure that travel orders and certificates which specifically *order* priority travel by air—as distinguished from orders which merely *authorize* travel by air for the convenience of the individual—are limited to those cases where such travel is necessary to the successful proseeution of the war effort. It is believed that this can be best accomplished by each department or agency appointing an official who will have the authority to determine which individuals require priority travel by air and to contact the office of the Military Director of Civil Aviation (Executive 2460, Extension 1240) in cases of question or application. Cooperation is requested in order that the issuance of more drastic measures to restrict priority air travel may be avoided.

(g) *Orders authorizing travel by air.* Personnel traveling on orders which merely *authorize* travel by air as distinguished from orders *directing* travel by air, and not having a certificate which certifies that air travel is necessary to the successful prosecution of the war effort, will be assigned space in accordance with the usual practices of the scheduled air carriers.*

§ 94.3 *Special instructions*—(a) *For passengers.* (1) Air travel having been determined as necessary, notify the air carrier concerned without delay, of the priority reservations required, the origin of the flight, the destination, the latest time of arrival at destination which will accomplish the mission, and of the fact that you will present an order directing travel by air or a certificate for priority.

(2) Secure and present a copy of the travel order or a copy of the certificate requesting the priority air travel to the air carrier as soon as possible. The right to priority transportation will be established only after the credentials are presented to the air carrier.

(3) Check to see if ticket is properly stamped to indicate priority classification.

(b) *Air carriers.* (1) Request a copy of the passenger's order directing the air travel or a copy of the certificate requesting priority and determine the priority classification of the passenger in accordance with the Priority Classification shown in § 94.1.

(2) The air carrier will stamp the tickets showing "Priority Class ——."

(3) Identification of priority classifications:

(i) *Class 1.* Personnel of the White House who are not known to airline personnel may be requested to present some form of positive identification.

(ii) *Classes 2 and 3.* Military personnel (War, Navy, Marine Corps, Coast Guard and Allied Military Personnel) will be identified by presentation of a special order which will *direct* travel by air as distinguished from special orders which merely *authorize* travel by air.

(iii) *Class 4—Cargo.* When air cargo is to be shipped on a priority basis a request for priority either in writing or by telephone (later confirmed in writing) will be made by the interested Government Department or Agency to the Air Transport Priority and Assignment Section (Office of the Assistant Chief of Staff, G–4), Department of Commerce Building, Room 5317, telephone Executive 2460, extension 1240, who will inform the air carriers of the priority to be assigned and arrange the details of the shipment through the ATA Liaison Office in the Office of the Military Director of Civil Aviation. This request will contain the following information:

Origin of flight, destination, latest time of arrival at destination which will accomplish the purpose of the shipment, number and dimensions and weights of items in shipment, consignee, consignor, and the reason for shipment by air.

(iv) *Class 5.* Passengers in this classification will present certificate, in the form given below, from and signed by an authorized executive of their respective Government Department or Agency or the Government Department or Agency with which they are doing business.

(c) *Certificate*—(1) *Form of certificate.* This certificate must be worded exactly as shown below and properly signed by an executive of a department or agency of the Government, by a Senator or Congressman, or other person specifically designated by G–4.

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

Priorities Regulation No. 6

§ 944.26 *Priorities Regulation No. 6*—(a) *Abolition of Priorities Critical List.* On and after the effective date of this Regulation, the Priorities Critical List of the Army and Navy Munitions Board is hereby abolished as a limitation upon the application of the preference rating assigned by any General Preference Order, Preference Rating Order, Limited Preference Rating Order or any other Order heretofore issued by the Director of Priorities of the Office of Production Management or by the Director of Industry Operations of the War Production Board. Nothing herein contained shall nullify or otherwise affect the provision of any Order restricting the application of preference ratings to deliveries of Materials included on any other list specified or referred to in such Order. The Defense Housing Critical List shall not be affected hereby.

(b) *Effective date.* This Regulation shall take effect immediately. (P.D. Reg. 1 amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 11th day of February 1942.

PART 1010—SUSPENSION ORDERS

Suspension Order No. S–8—National Pressure Cooker Co.

National Pressure Cooker Company, Eau Claire, Wisconsin, is a manufacturer of aluminum kitchen utensils and in connection with such manufacture maintains a foundry for melting and otherwise processing aluminum and aluminum scrap. During the months of July through November of the year 1941 the Company accepted deliveries of 740,856 pounds of aluminum scrap for the purpose of melting and otherwise processing the same despite the fact that no preference ratings had been assigned to such deliveries nor other authorization by the Director of Priorities obtained therefor. Such acceptances constituted wilful violations of Supplementary Order M–1–c.[1]

Because of the scarcity and critical importance of aluminum, National Pressure Cooker Company's misuse of a preference rating and its wilful violation of Supplementary Order M–1–c have resulted in the diversion of aluminum from primary defense needs into non-essential uses. In view of the foregoing facts, *It is hereby ordered:*

§ 1010.8 *Suspension Order S–8.* (a) During the period in which this Order shall be in effect, National Pressure Cooker Company of Eau Claire, Wisconsin, its successors and assigns, shall accept no deliveries from any source of primary aluminum, secondary aluminum, aluminum scrap or alloys of which aluminum constitutes the major part, except as specifically authorized by the Director of Industry Operations.

[1] 6 F.R. 2854.

(b) Beginning ten days after the effective date of this Order and during the remainder of the period in which this Order shall be in effect, National Pressure Cooker Company of Eau Claire, Wisconsin, its successors and assigns, shall not process any primary aluminum, secondary aluminum, aluminum scrap or alloys of which aluminum constitutes the major part except as specifically authorized by the Director of Industry Operations.

(c) During the period in which this Order shall be in effect, National Pressure Cooker Company of Eau Claire, Wisconsin, its successors and assigns, shall make no deliveries of primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes a major part or aluminum products except as specifically authorized by the Director of Industry Operations.

(d) During the period in which this Order shall be in effect, National Pressure Cooker Company of Eau Claire, Wisconsin, its successors and assigns, shall accept no purchase orders and enter into no contracts or commitments for delivery by it of primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes the major part, or aluminum products except as specifically authorized by the Director of Industry Operations.

(e) During the period in which this Order shall be in effect, no person shall deliver to nor receive from National Pressure Cooker Company of Eau Claire, Wisconsin, its successors and assigns, any primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes the major part, or aluminum products, the delivery or receipt of which is prohibited by this Order, except as specifically authorized by the Director of Industry Operations.

(f) This Order shall take effect immediately, and, unless terminated by the Director of Industry Operations, shall expire at midnight on the 10 day of April 1942. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 10th day of February 1942.

PART 1010—SUSPENSION ORDERS

Suspension Order No. S-9—New England Metals Co.

New England Metals Company of Providence, Rhode Island, is a dealer in non-ferrous scrap metals. Between August 1, 1941, and November 30, 1941, this company delivered to the National Pressure Cooker Company of Eau Claire, Wisconsin, approximately 555,000 pounds of aluminum scrap to be melted and processed into pressure cookers. These deliveries constituted violations of Supplementary Order M-1-c,[1] issued by the Director of Priorities on June 10, 1941, in that preference ratings of A-10 or higher had not been assigned to these deliveries, nor had they been specifically authorized by the Director of Priorities. At the time these deliveries were made, New England Metals Company and its officials were familiar with the provisions of Supplementary Order M-1-c and knew that the deliveries of aluminum scrap to National Pressure Cooker Company, set forth above, constituted violations of this Order.

Because of the scarcity and critical importance of aluminum scrap, these wilful violations of Supplementary Order M-1-c have resulted in diverting aluminum scrap from primary defense needs into uses not authorized for such scrap by the Director of Priorities. In view of the foregoing facts, *It is hereby ordered:*

§ 1010.9 *Suspension Order S-9.* (a) During the period in which this Order shall be in effect, New England Metals Company of Providence, Rhode Island, its successors and assigns, shall accept no deliveries from any source of primary aluminum, secondary aluminum, aluminum scrap, aluminum products, or alloys of which aluminum constitutes the major part.

(b) During the period in which this Order shall be in effect, New England Metals Company of Providence, Rhode Island, its successors and assigns, shall accept no purchase orders, and enter into no contracts or commitments, for delivery by it of primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes the major part, or aluminum products, except as specifically directed by the Director of Industry Operations.

(c) During the period in which this Order shall be in effect, New England Metals Company of Providence, Rhode Island, its successors and assigns, shall make no deliveries of primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes the major part, or aluminum products, except as specifically directed by the Director of Industry Operations.

(d) During the period in which this Order shall be in effect, no person shall deliver any primary aluminum, secondary aluminum, aluminum scrap, aluminum products, or alloys of which aluminum constitutes the major part to New England Metals Company of Providence, Rhode Island, in any case in which the acceptance of such delivery by the company would be in violation of this Order; nor shall any person accept delivery of any such material or any aluminum product from New England Metals Company of Providence, Rhode Island, in any case in which the delivery of such material or product by the company would be in violation of this Order.

(e) This Order shall take effect immediately and, unless sooner terminated by further order of the Director of Industry Operations, shall expire on the 10 day of April 1942. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 10th day of February 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1010—SUSPENSION ORDERS

Suspension Order No. S-12—A. B. C. Pattern & Foundry Co.

A. B. C. Pattern & Foundry Company of Chicago, Illinois, is a manufacturer of Wood and Metal Patterns, Match Plates, and Brass, Bronze, and Aluminum Castings. It is engaged in all operations necessary to such manufacturing, including the melting and casting of aluminum prior to the fabrication of the finished product, and is subject to the provisions of Supplementary Order M-1-c,[1] During the period of July 24 and November 1, 1941, the Company accepted the delivery of 17,510 pounds of aluminum scrap for melting and other processing. No preference ratings had been assigned to these deliveries nor had they been specifically authorized by the Director of Priorities. The Company also made a misrepresentation to the Office of Production Management concerning these deliveries.

These violations of Supplementary Order M-1-c have resulted in the diversion of aluminum scrap to uses unauthorized by the Director of Priorities. In view of the foregoing facts, *It is hereby ordered:*

§ 1010.12 *Suspension Order S-12.* (a) During the period in which this Order shall be in effect, A. B. C. Pattern & Foundry Company of Chicago, Illinois, its successors and assigns, shall accept no deliveries from any source of primary aluminum, secondary aluminum, aluminum scrap or alloys of which aluminum constitutes the major part, except as specifically authorized by the Director of Industry Operations.

(b) Beginning ten days after the effective date of this Order and during the remainder of the period in which this Order shall be in effect, A. B. C. Pattern & Foundry Company of Chicago, Illinois, its successors and assigns, shall not process any primary aluminum, secondary aluminum, aluminum scrap or alloys of which aluminum constitutes the major part except as specifically authorized by the Director of Industry Operations.

(c) During the period in which this Order shall be in effect, A. B. C. Pattern & Foundry Company, of Chicago, Illinois, its successors and assigns, shall make no deliveries of primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes a major part or aluminum products except as specifically authorized by the Director of Industry Operations.

(d) During the period in which this Order shall be in effect, A. B. C. Pattern & Foundry Company of Chicago, Illinois, its successors and assigns, shall accept no purchase orders and enter into no contracts or commitments for delivery by it of primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes the major part, or aluminum products except as specifically authorized by the Director of Industry Operations.

(e) During the period in which this Order shall be in effect, no person shall deliver to nor receive from A. B. C. Pattern & Foundry Company of Chicago, Illinois, its successors and assigns, any primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes the major part, or aluminum products, the delivery or receipt of which is prohibited by this Order, except as specifically authorized by the Director of Industry Operations.

(f) This Order shall take effect immediately, and, unless sooner terminated by the Director of Industry Operations, shall expire at midnight on the 10 day of April 1942. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong. 1st Sess.)

Issued this 10th day of February 1942.

PART 1068—TINPLATE AND TERNEPLATE

Conservation Order M-81 To Conserve the Supply and Direct the Distribution of Tinplate and Terneplate

Whereas it appears that the fulfillment of requirements for the defense of the United States will result in a shortage of tinplate and terneplate for defense, private account, and for export, and it being necessary in the public interest and to promote the national defense to conserve the supply and direct the distribution of tinplate and terneplate in the manner and to the extent hereinafter in this Order provided:

Now, therefore, it is hereby ordered:

§ 1068.1 *Conservation Order M-81—(a) Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, (Part 944) as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Tinplate" means blackplate coated on one or both sides with tin.

(3) "Terneplate" means blackplate coated on one or both sides with a lead-tin alloy.

(4) "Blackplate" means any sheet steel plate suitable for manufacture into a container, and, for the purpose of this Order, shall also include any waste tinplate, terneplate, or scrap produced in the ordinary course of manufacturing cans out of tinplate or terneplate.

(5) "Can" means any container which is intended for packing, packaging or putting up products of any kind and which is made, in whole or in part, of tinplate, terneplate, or blackplate, or any combination thereof, and includes closures, crowns and caps, but does not include any closure, crown or cap to be used on, or as a part of, a non-metal container.

(6) "A Primary Products Can" means a can used to pack any product listed on Table I, annexed hereto, such products being foodstuffs of primary importance.

(7) "A Secondary Products Can" means a can used to pack any product listed on Table II, annexed hereto, such products being foodstuffs of secondary importance.

(8) "A Special Products Can" means a can used to pack any product listed on Table III, annexed hereto, being mainly important medical, industrial, pharmaceutical, chemical, dental, and miscellaneous supplies.

(9) "A Non-Essential Can" means any can made of tinplate or terneplate other than those defined in subparagraphs (6), (7) and (8) above.

(10) "A Canner" means any person engaged in the business of packing, packaging or putting up in cans any food or other products of any kind for sale to others, whether such person buys some or all of his cans from third parties or whether he manufactures some or all of his cans himself.

(11) "A Can Manufacturer" means any person engaged in the business of producing cans for sale to others or for his own use in packing food or other products of any kind.

(12) "Base Period" means the corresponding period of 1940.

(13) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the Inventory of others where such inventory is under the control of or under common control with or available for the use of such person.

(c) *Restrictions upon the manufacture, sale and delivery of cans and upon the use of cans for packing*—(1) *Use of blackplate in the manufacture of cans.* Until further order by the Director of Industry Operations, there shall be no restriction upon the use of blackplate in the manufacture of cans or upon the sale or delivery of cans made wholly of blackplate or partly of blackplate and partly of some material other than tinplate or terneplate.

(2) *Primary products cans and special products cans.* Until further order by the Director of Industry Operations, there shall be no restriction upon the manufacture, sale or delivery of Primary Products Cans or Special Products Cans except (a) the restrictions imposed by paragraph (d) of this Order and (b) the restrictions imposed by Tables I and III (in respect of the particular products there listed) relating to permitted can sizes, can material, and extent of production. No can manufacturer shall manufacture, sell or deliver during the period from the date of issuance of this Order to December 31, 1942 any primary products or special products cans except under contracts or orders validated by delivery to such can manufacturer of a canner's certificate as set out in subparagraph (5) of this paragraph (c).

(3) *Secondary products cans.* No canner shall buy, accept delivery of, manufacture, or use for packing during the period from the date of issuance of this Order to December 31, 1942, secondary products cans requiring more than 100% of the tin and/or tinplate and/or termeplate required for secondary products cans which he bought, accepted delivery of, manufactured, or used for packing during the base period.

No can manufacturer shall manufacture, sell or deliver during the period from the date of issuance of this Order to December 31, 1942 any secondary products cans except under contracts or orders validated by delivery to such can manufacturer of a canner's certificate as set out in subparagraph (5) of this paragraph (c).

In addition to the restrictions on secondary products cans imposed by this subparagraph (3) of paragraph (c), all can manufacturers and canners shall observe the restrictions imposed by Table II (in respect to the particular products there listed) relating to permitted can sizes, can material, and extent of production.

(4) *Non-essential cans.* No canner shall buy, accept delivery of, manufacture or use for packing during the period from the date of issuance of this Order to March 1, 1942, non-essential cans requiring more than 50% of the tin and/or tinplate and/or terneplate required for non-essential cans which he bought, accepted delivery of, manufactured, or used for packing during the base period; and after March 1, 1942, no canner shall buy, accept delivery of, manufacture, or use for packing any non-essential cans except to the extent permitted by paragraph (e) and paragraph (g) (1) of this Order.

No can manufacturer shall manufacture, sell or deliver during the period from the date of issuance of this Order to March 1, 1942 and non-essential cans except under contracts or orders validated by delivery to such can manufacturer of a canner's certificate as set out in subparagraph (5) of this paragraph (c); and after March 1, 1942 no can manufacturer shall manufacture, sell or deliver any non-essential cans except to the extent permitted by paragraph (e) and paragraph (g) (1) of this Order.

(5) *Certificates and reports relating to all the kinds of cans covered by this order*—(i) *Certificates.* Each canner who purchases any cans pursuant to this paragraph (c)—whether such purchase is by contract or on open-account-order—shall furnish to the can manufacturer from whom he buys a certificate,

[1] 6 F.R. 2854.

manually signed by an authorized official, in substantially the form attached hereto as "Exhibit A", which shall constitute a certification to the War Production Board that such canner is familiar with the terms of this Order (in its present form or as it may be amended from time to time) and that, during the life of this Order, he will not use any cans purchased from such can manufacturer in violation of its terms. Only one such certificate covering all present and future purchases from a given can manufacturer, need be furnished by a canner to that can manufacturer, but no can manufacturer shall be entitled to rely on any such certificate if he knows, or has reason to believe, it to be false.

(ii) *Reports.* Each can manufacturer and each canner shall file such reports as the War Production Board may prescribe for the purpose of effective administration of this Order.

(6) *Transfers.* No product which has been packed in a can made of tinplate or terneplate shall be repacked by the same or a different canner in the same or different form, with or without other products, in another can made of tinplate or terneplate, except to the extent specifically permitted by Tables I, II, or III.

(d) *Further conservation of tinplate and terneplate.* (1) All manufacturers of all the kinds of cans covered by this Order shall cooperate with the tinplate mills in effectuating as rapidly and as completely as possible a program of reducing the thickness of the tinplate coating on such cans—both by hot dip coating and by electrolytic coating—to the minimum thickness which will be sufficient for satisfactory packing of the particular product packed. After the date of issuance of this Order, no can manufacturer or canner shall order from a tinplate mill and no tinplate mill shall manufacture, sell or deliver any tinplate with a coating of a pot-yield thickness greater than 1.25 lbs. per base box (i. e. 31,360 square inches), and no can manufacturer or canner shall manufacture, sell or deliver any tinplate cans with a coating of greater than such thickness: *Provided*, That neither this prohibition nor the prohibition of Supplementary Order M-21-e (§ 962.6) shall apply (a) to tinplate or to cans made of tinplate already manufactured at the date of issuance of this Order or (b), notwithstanding the provisions of said Supplementary Order M-21-e, to cans used to pack any product which is listed on "Exhibit B" annexed hereto, and for which a tinplate coating of a pot-yield thickness of 1.5 lbs. per base box is hereby authorized.

(2) All manufacturers of all kinds of cans covered by this Order and all canners packing products in such cans are ordered (a) to concentrate to the greatest extent practicable upon the larger-size cans and to manufacture and to use for canning respectively, as high a proportion of larger-size cans—as compared with smaller-size cans—as may be feasible and practicable; (b) to substitute, for cans made of tinplate or terneplate, containers made of other material to the extent that such substitution may be feasible and practicable; and (c) to use a minimum amount of solder having the minimum tin content necessary for manufacture and use of the tinplate and terneplate cans permitted to be manufactured and used under this Order.

(3) No person who in 1941 packed a portion of his products in any container made of material other than tinplate or terneplate shall increase the proportion of such products hereafter packed in tinplate or terneplate.

(e) *Limitations on inventory.* (1) After the date of issuance of this Order, no can manufacturer or canner shall order from the steel mills any tinplate or terneplate to be used for the manufacture of non-essential cans in excess of the amounts necessary and allowed by this Order—taking into account existing inventory—for the manufacture of non-essential cans during the period from the date when this Order is issued to March 1, 1942. All can manufacturers and canners shall immediately cancel any existing orders for tinplate or terneplate in excess of such amounts.

(2) After March 1, 1942, no can manufacturer or canner shall manufacture, and no can manufacturer shall sell to a canner, any non-essential cans made from tinplate or terneplate held in the inventory of such manufacturer or canner on March 1, 1942, except to the extent permitted by the War Production Board on the basis of an application showing that any other use of such tinplate or terneplate or cans made from such tinplate or terneplate will be unduly or unnecessarily wasteful or wholly impracticable.

(3) After March 1, 1942, no can manufacturer shall sell to a canner, and no canner shall use for packing, any non-essential cans manufactured prior to March 1, 1942, except to the extent permitted by the War Production Board on the basis of an application showing that any other use of such cans will be unduly or unnecessarily wasteful or wholly impracticable.

(f) *Tables I, II, and III.* If any general provision or restriction of this Order conflicts, or appears to conflict, with any specific provision or restriction of Tables I, II or III, then such specific provision or restriction shall control.

(g) *Miscellaneous provisions.*—(1) *Applicability of Order.* The provisions and restrictions of this Order shall apply to tinplate, terneplate and cans made of tinplate or terneplate which have already been manufactured as of the date of issuance of this Order or which may hereafter be manufactured—irrespective of whether such tinplate, terneplate, and cans were, or will be, manufactured pursuant to a contract made prior or subsequent to the date of such issuance: *Provided, however*, That this Order shall not apply to tinplate, terneplate, or cans made of tinplate or terneplate manufactured or to be manufactured pursuant to a Defense Order supported by a Preference Rating of higher than A-2.

(2) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of tinplate and terneplate conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense work to defense work, may appeal to the War Production Board on form PD-269, Ref: M-81, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(3) *Violation.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(4) *Sales of tinplate and terneplate.* No person shall hereafter sell or deliver tinplate or terneplate to any can manufacturer or canner if he knows, or has reason to believe, that such tinplate or terneplate is to be used in violation of the terms of this Order.

(5) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref: M-81.

(6) *Effective date.* This Order shall take effect immediately, and shall continue in force until amended or terminated by the Director of Industry Operations. The telegraphic order, dated January 27, 1942, to can manufacturers is hereby revoked. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 11th day of February 1942.

CANNER'S CERTIFICATE

Certificate required by Paragraph (c), subparagraph (5) (i) of Conservation Order M-81. One copy of this certificate is to be delivered to each can manufacturer from whom the canner purchases cans and is to cover all purchases present and future, so long as such Conservation Order, in its present form or as it may be amended from time to time, remains in effect.

(Applicant's Address) (Date)

In accordance with Paragraph (c), subparagraph (5) (i) of Conservation Order M-81 of the War Production Board designed to conserve the supply and direct the distribution of tinplate and terneplate, the undersigned hereby certifies—and this shall constitute a certification to the War Production Board—that the undersigned applicant is familiar with the terms of said Conservation Order M-81, and any and all amendments thereto, and that said applicant will not use any cans purchased from

Table I—Primary Products Cans

All the individual restrictions appearing on this Table, relating to can sizes, repacking, or specific limitations on the form in which a product may be packed, shall take effect as of March 1, 1942 unless otherwise indicated.

Fruits

1. *Fruit Cocktail and Fruits for Salad*, including any combination of Fruits otherwise included on Table I and Table II, but containing at least 50% fruits on Table I, and only in No. 1 Tall, No. 2, No. 2½, or No. 10 cans. Said Fruit Cocktail and Fruits for Salad are not to be packed from contents of other tinplate cans except to the extent of 10% by weight of said Fruit Cocktail or Fruits for Salad and in no case except where such 10% by weight consists of Pineapple or Maraschino Type Cherries which have come from No. 10 or larger cans.

2. *Peaches, Clingstone*, and *Pears*. Halves, Segments, Slices, only in No. 2, No. 2½, or No. 10 cans. Whole Peaches and Whole Pears not to be packed.

3. *Pectin, Dry and Liquid*, only in 5 gal. or larger cans.

4. *Grapefruit, Lemon, Lime, Orange Concentrates*, including, but not limited to dry, powdered, dehydrated juices from the same fruits, with or without drying promoters, but only in No. 1 Picnic or larger cans.

5. *Peaches, Freestone*, only in No. 2, No. 2½, or No. 10 cans, except in California for which see Table II.

Vegetables

1. *Asparagus*, only in No. 2, No. 2½, No. 10, No. 1 Square, or No. 2½ Square cans.

2. *Beans*, packed fresh, including but not limited to Green, Wax, Fresh Shelled, Lima, and Green Soybeans, and only in No. 2, No. 2½, or No. 10 cans. Dried beans and peas are not to be packed.

3. *Corn*, only sweet, cut, and only in No. 2 or No. 10 cans; or in No. 2 Vacuum cans, dry pack only. Corn on cob not to be packed.

4. *Peas*, only fresh green, and only in No. 2 or No. 10 cans.

5. *Tomatoes*, only in No. 2, No. 2½, or No. 10 cans.

6. *Tomato Paste, Sauce, Catsup, Chili Sauce*, only in No. 10 or larger cans. See Table II.

7. *Tomato Pulp or Puree* in No. 1 Picnic, No. 2, No. 2½, No. 10, or 5-gal. cans. The foregoing Tomato products packed in 5-gal. or larger cans may be repacked in other tinplate cans either unchanged or in combination with other products.

8. *Baby-Foods-Vegetable Purees*, and *Chopped Foods (for Human Consumption* only), but only if packed for these purposes in 1941; and only in No. 202 B. F. (202 x 214), No. 211 B. F. (211 x 210), No. 2, or No. 10 cans.

In respect to the following products above-listed on this Table I, under the heading of "Vegetables", being respectively Green and Wax Beans, Corn, Peas, and Tomatoes (Item 5), a canner who lacks adequate machinery, equipment or plant facilities for packing his entire 1942 pack of such products in No. 2, No. 2½, or No. 10 cans may, upon application to the War Production Board, pack the excess of his 1942 pack of such products in No. 303 cans, if said canner is currently equipped to pack such products in No. 303 cans and did so in 1941.

Juices

1. *Tomato Juice* (which may contain up to 30% other vegetable juices), only in No. 2, No. 2 Cyl., No. 3 Cyl., or No. 10 cans.

In respect of Tomato Juice, a canner who lacks adequate machinery, equipment or plant facilities for packing his entire 1942 pack of such product in No. 2, No. 3 Cyl., or No. 10 cans may, upon application to the War Production Board, pack the excess of his 1942 pack of such product in No. 211 Cyl. or No. 300 cans, if said canner is currently equipped to pack such product in No. 211 Cyl. or No. 300 cans, respectively, and did so in 1941.

In respect of each product above-listed on this Table I under the headings of "Fruits, Vegetables, and Juices", a canner who lacks adequate equipment, machinery, or plant facilities for efficient packing of such product in any can size or sizes specifically designated therefor on this Table I may pack such product in a larger can (other than a No. 12 can) if (a) said canner is currently equipped to pack such product in such larger can and did so in 1941, and (b) such larger can is recommended for such product by the National Bureau of Standards Recommendation RI 55-40; and he may pack such product in a No. 12 can in any event.

Fish and Shellfish

1. *Salmon.*
2. *Sardines.*
3. *Tuna and Tuna-like Fishes.*
4. *Mackerel.*
5. *Alewives*, including Alewife Roe.
6. *Fish Flakes.* Dried Fish Flakes not to be packed.
7. *Crab.*

Miscellaneous Foods

1. *Cold Pack Foods*, including, but not limited to Blueberries, Strawberries, Apples, Cherries, Peaches, Asparagus, Lima Beans, Peas, but only if packed in 30-lb. or larger cans.
2. *Baby Formulas.*
3. *Evaporated Milk*, only in 14½-oz. or larger cans. See Table II.
4. *Dry Milks*, including only Dry or Powdered Whole Milk, in 1-lb., 2½-lb., 5-lb., 10-lb., or 25-lb. cans.
5. *Special Dietary Products*, including, but not limited to, Baby Foods.
6. *Honey*, but only in "5-lb." or larger cans.
7. *Dehydrated Vegetables*, only in No. 10 or larger cans.

Table II—Secondary Products Cans

All the individual restrictions appearing on this Table, relating to can sizes, re-packing, or specific limitations on the form in which a product may be packed, shall take effect as of March 1, 1942, unless otherwise indicated. All quantity limitations, however, relating to size of pack refer to the entire calendar year commencing January 1, 1942, except in the case of citrus fruits, for which see the seasonal basis provided in Item 8 of "Fruits" and Items 3, 4, and 5 of "Juices" below. Such quantity limitations, moreover, refer to the amount of tinplate used in packing rather than to the amount of product packed. The quantity limits imposed by this Table relate only to the pack permitted for civilian consumption. To the extent of additional requirements by the Army, Navy, Lend-Lease or other U. S. Governmental Agency, such pack may be increased.

Fruits

1. *Apples and Crabapples*, only in No. 10 or larger cans. Whole Apples, Apple Butter not to be packed. 75% of 1940 pack.
2. *Apple Sauce*, including sauce from Crabapples, only in No. 2 or No. 10 cans.

4. *Berries*, including but not limited to Blackberries, Blueberries, Huckleberries, Loganberries, Raspberries, Strawberries, only when packed as berries, and only in No. 2, No. 2½ or No. 10 cans.
5. *Cherries*, including but not limited to Red-Sour-Pitted and Sweet, only when packed as cherries, and only in No. 1 Tall, No. 2, No. 2½, or No. 10 cans.

6. *Cocoanuts*, only shredded with milk, and only in No. 10 cans.

7. *Cranberries*, including Cranberry Sauce, only in No. 300, No. 2, or No. 10 cans.

8. *Grapefruit* and *combination of Oranges and Grapefruit*, including only Segments, Sections, and Slices and only in No. 2, No. 2½, or No. 5 cans but 100% of 1941 pack.

9. *Olives*, only Ripe, and only in No. 1 Tall, No. 2, No. 2½, or No. 10 cans and only 50% of 1941 pack.

10. *Peaches, Freestone*, 75% of 1940 pack in California, only in No. 2, No. 2½, or No. 10 cans.

11. *Pineapple*, including only Sliced, Crushed, Tidbits, and only in No. 2, No. 2½, No. 3 Cyl., or No. 10 cans. Spears not to be packed.

12. *Plums* and *Fresh Prunes*, only in No. 2½ or No. 10 cans. 50% of 1940 pack.

Vegetables

1. *Beets*, only in No. 2, No. 2½, or No. 10 cans. 75% of 1940 pack.

2. *Carrots*, only in No. 2, No. 2½, or No. 10 cans. Whole Carrots not to be packed. 75% of 1940 pack.

3. *Carrots and Peas*, only in No. 2, No. 2½, or No. 10 cans. 75% of 1940 pack.

4. *Pimentos* and *Peppers*, only in No. 2, No. 2½, or No. 10 cans. 50% of 1940 pack.

5. *Pumpkin* and *Squash*, only in No. 2½ or No. 10 cans. 50% of 1940 pack.

6. *Rhubarb*, only in No. 10 cans. 50% of 1940 pack.

7. *Sauerkraut*, 50% of the present bulk kraut holding, and only in No. 2, No. 2½, or No. 10 cans.

8. *Spinach*, and other Green Leafy Vegetables, only in No. 2, No. 2½, or No. 10 cans.

9. *Okra*, only in No. 2, No. 2½, or No. 10 cans.

10. *Tomato Products* (See Table I)
Paste, only in 6Z cans.
Sauce, only in 8Z Short cans.
Above tomato products may be packed in whole or part from contents of other tinplate cans of 5-gal. or larger size.

11. *Vegetables, Mixed*, including 90% of any combination of vegetables included on Table I and Table II, but no potatoes to be included; only in No. 2, No. 2½, or No. 10 cans. 75% of 1940 pack.

12. *Succotash*, only when made from fresh or frozen vegetables, and only in No. 2 or No. 10 cans. 100% of 1941 pack.

Juices

1. *Lemon Juice* and *Lime Juice*, only in 8Z Tall, No. 2, or No. 10 cans. 50% of 1940 pack.

2. *Pineapple Juice*, only in No. 2, No. 3 Cyl., or No. 10 cans.

3. *Grapefruit Juice*, only in No. 2, No. 3 Cyl., or No. 10 cans. 125% of 1940–1941 pack.

4. *Orange Juice*, only in No. 2, No. 3 Cyl., or No. 10 cans. 125% of 1940–1941 pack.

5. *Combination of Grapefruit and Orange Juice*, only in No. 2, No. 3 Cyl., or No. 10 cans. 125% of 1940–1941 pack.

6. *Fruit Nectars*, only in 211 Cyl., No. 2, No. 3 Cyl., or No. 10 cans.

In respect of each product above-listed on this Table II under the heading of "Fruits, Vegetables, and Juices", a canner who lacks adequate equipment, machinery, or plant facilities for efficient packing of such product in any can size or sizes specifically designated therefor on this Table II may pack such product in a larger can (other than a No. 12 can) if (a) said canner is currently equipped to pack such product in such larger can and did so in 1941, and (b) such larger can is recommended for such product by the National Bureau of Standards Recommendation R155–40; and he may pack such product in a No. 12 can in any event.

Miscellaneous Foods

1. *Canned Condensed Soups*, meaning soups packed in condensed form so that, when prepared for serving at the table, at least a can of water or other liquid is added to a can of soup to make a soup representative of its class. Such canned condensed soups to be packed only in No. 1 Picnic or larger cans; and to be only soups that are produced from products included on Tables I or II. 100% of 1941 pack.

2. *Canned Soups, Broths, Chowders*, other than canned Condensed Soups. 25% of 1940 pack. Not to be packed after June 30, 1942.

3. *Condensed Milk, Goats' Milk*, only in 14-oz. or 15-oz. cans.

4. *Malted Milks*, only in 1-lb., 5-lb., 10-lb., or 25-lb. cans; Modifications of Milk, except Filled Milks.

5. *Eggs, frozen*, only in 10-lb. and larger cans.

6. *Liquid Oils*, Vegetable, Marine, and Animal, or edible blends of such oils, only in 1-qt. or larger cans.

7. *Hardened Edible Oils* and *Unhardened or Hardened Lard*, and *Rendered Pork fat*, and *Edible Tallow*, and animal, vegetable, and marine blends thereof only in 3-lb. or larger cans, and only at rate of 100% of 1940 rate for first half year and only 60% of 1940 rate after June 30, 1942.

8. *Sweet Syrups*, including only Cane, Maple, Molasses, Corn, and Sorghum Syrup, and only in 5-lb. cans or larger cans.

9. *Evaporated Milk*, only in 6-oz. cans. See Table I.

10. *Frozen and Storage Cream*, only in re-use cans and only in nested style 45–50 lb. cans.

Meats

1. *Beef, Veal, Mutton* (corned, roast, or boiled; only for human consumption).

2. *Brains*, only in 10½-oz. or larger cans. 75% of 1940 pack.

3. *Chili Con Carne* when not packed with beans, only in 1-lb. cans.

4. *Meat Loaf* containing at least 90% meat and no added water. 75% of 1940 pack.

5. *Meat Spreads*. 50% of 1940 pack.

2. *Fish Fillets*, only in 20-lb. or larger cans. 100% of 1941 pack.

Table III—Special Products Cans

In respect of a can used as a container for a product listed below, tinplate may be used to manufacture all or any part of such can (part meaning "top, bottom, or body") if, but only, if, specific authority is given by this table to use tinplate for such purpose. The use of terneplate is similarly restricted, and both may be used only to the extent to which either or both were used in 1940 (i. e., 100% of 1940) unless otherwise stated.

In respect of any can or part thereof where specific authority to use tinplate or terneplate is not given, blackplate or other material must be used.

Where it is necessary to solder a fitting or trimming to a can top and neither tinplate nor terneplate is specified in the table for such top, then such top (together with the fitting, trimming or screw cap) may be made of tinplate or terneplate respectively if the body is made of tinplate or terneplate respectively.

The word "Throughout," as used in this table, means all the parts of a can and includes fittings, trimmings, and screw caps.

1. *Alcohol* (other than for anti-freeze), alcohol mixtures (for paint) and pharmaceutical and industrial grain alcohol, only in 5-gallon and larger cans: tinplate throughout. Where chemically pure alcohol is not required, terneplate throughout.

2. *Cements*, only in 1-qt. or larger cans.

Rubber, Solvent Type. Bodies and tops: terneplate.

Rubber, Latex Type. Tinplate throughout.

Linoleum. Bodies: terneplate.

Radiator. Bodies: terneplate.

3. *Chemicals*, Liquid, only in 1-qt. or larger cans.

Fly Spray. Bodies: terneplate. Fly Spray (Pyrethrum and Rotenone base). Bodies: tinplate.

Lighter Fluids. Bodies: terneplate.

Acetone and Amyl Acetate. Terneplate throughout, except when chemically pure, in which case tinplate throughout may be used.

Carbon Bisulfide and Triethanolamine. Terneplate throughout, except when chemically pure, in which case tinplate throughout may be used.

Oleic Acid. Bodies: tinplate.

Sodium Silicate. Only in 5-gallon or larger cans: terneplate throughout.

Dry Cleaners. Only in 1-qt., 1-gal., or larger cans. Bodies: terneplate.

Phenols, including Carbolic Acid and Lysol: tinplate throughout.

Benzol, including, but not limited to, naphtha. Bodies: terneplate.

4. *Dyes*, only in 1-qt. or larger cans.

Pastes or *Liquids.* Terneplate throughout, except for certified colors, in which case tinplate may be used throughout.

5. *Fire Extinguisher Fluid.* Terneplate throughout.

6. *Graphite.* Terneplate only where water is present.

7. *Oil, Mineral for Medicinal use.* Only in 1-gal. or larger cans: tinplate throughout.

8. *Nicotine Sulphate.* Tinplate throughout and only in 1-qt. or larger cans.

9. *Soap, liquid.* Pack only 50% of 1940 pack and only in 1-qt. or larger cans: tinplate throughout.

10. *Turpentine.* For industrial use, only in 1-gal. or larger cans: terneplate throughout. When packed as chemically pure, tinplate throughout, but only in 1-qt. or larger cans.

11. *Liquid glues, Pastes, Adhesives.* In cans of 1-qt. to 1-gal., pack 50% of 1940 pack; in larger size cans, 100% of 1940 pack. Terneplate throughout.

12. *Glycerine (C. P. and U. S. P.).* Tinplate throughout. In cans of 1-qt. to 1-gal., pack only 50% of 1940 pack. In 1-gal. or larger cans, 100% of 1940 pack.

13. *Glycerine (other than C. P. and U. S. P.).* Terneplate throughout. In cans of 1-qt. to 1-gal., pack only 50% of 1940 pack. In 1-gal. or larger cans, 100% of 1940 pack.

14. *Polish.* Terneplate throughout. Only 50% of 1940 pack.

15. *Waxes.*

Paste: Bodies: terneplate. Only 25% of 1940 pack.

Emulsions: Terneplate throughout. Only 25% of 1940 pack.

16. *Dairy ware*, including dairy pails, milk strainer pails, hooded milking pails, milk kettles, milk strainers, setter or cream cans. Tinplate throughout. 110% of 1940 pack.

17. *Disinfectants*, including, but not limited to, crystals, in 1-qt. or larger cans. Tinplate throughout. Only 50% of 1940 pack.

18. *Health Supplies*, as defined by Order No. P–29: tinplate throughout.

19. *Paints and Accessories*, including, but not limited to, shellac, varnish, lacquer, enamel, and paint thinners. Only in 1-qt., 1-gal., or larger sizes after March 1, 1942: terneplate throughout. In cans of less than 1-gal. capacity, only 50% of 1940 pack allowed.

PART 1076—PLUMBING AND HEATING SIMPLIFICATION

Limitation Order No. L–42

Whereas the national defense requirements have created a shortage of iron, steel, brass, bronze and other critical materials for defense, for private account, and for export, and it is necessary, in the public interest and to promote the defense of the United States, to conserve the supply thereof and effectively utilize the productive facilities therefor; and these purposes will be advanced by simplification of lines and elimination of non-essential types, sizes, forms, and specifications;

Now, therefore, it is hereby ordered, That:

§ 1076.1 *Limitation Order L–42*—(a) *Issuance of schedules of simplification of lines.* The Director of Industry Operations may from time to time issue Schedules establishing simplified practices with respect to the types, sizes, forms, specifications or other qualifications for any plumbing or heating products, or other similar products which may be used in any other line. From and after the effective date of any such Schedule, no such products shall be produced, fabricated, delivered or accepted except those that conform to the issued Schedule, and except as specifically permitted by such Schedule.

(b) *Appeals.* Any person affected by this Order or any Schedule issued pursuant thereto who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order or such Schedule would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(c) *Applicibality of Priorities Regulation No. 1.* This Order (and any Schedule issued pursuant thereto) and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order (or such Schedule) shall govern.

(d) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C., Ref: L–42.

(e) *Violations.* Any Person who wilfully violates any provision of this Order or any Schedule issued pursuant thereto, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order (or such Schedule), may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(f) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 11th day of February 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1076—PLUMBING AND HEATING SIMPLIFICATION

Schedule I to Limitation Order No. L–42—Metal Valves; Iron Body and Brass or Bronze Valves—Simplification

§ 1076.2 *Schedule I to Limitation Order No. L–42*—(a) *Definition.* For the purposes of this Schedule "Producer" means any person who manufactures, processes or fabricates valves.

(b) *Simplified practices.* Pursuant to Limitation Order L–42 the following pressure ratings are hereby established for iron, brass and bronze valves of the sizes shown below:

(1) *Bronze or brass valves.* (Steam rated gate, globe, angle and check valves).

Sizes, inches:	*Working saturated steam pressure (pounds per sq. inch)*
⅛ to 3, inclusive	100 125 150 200 300

These valves are designated as steam rated in order to identify their working pressure. This designation does not limit their use to steam service.

(2) *Iron body valves.* (Steam rated gate, globe, angle, and check valves).

Sizes, inches:	*Working saturated steam pressure (pounds per sq. inch)*
2 to 12, inclusive	125
3 and smaller	150
2 to 12, inclusive	250

These valves are designated as steam rated in order to identify their working pressure. This designation does not limit their use to steam service.

(c) *Effective date of simplified practice; exceptions.* On and after March 1, 1942, no iron body or brass or bronze

valves within the range of the steam pressure ratings specified in paragraph (b) hereof which do not conform to the standards established by said paragraph shall be produced or delivered by any producer or accepted by any person from any such producer, except with the express permission of the Director of Industry Operations: *Provided, however,* That the foregoing shall not prohibit the delivery by any producer of such valves as are in his stock in finished form on March 1, 1942, or which had, on said date, been cast, machined or otherwise processed in such manner that their manufacture in conformity with the foregoing schedule would be impractical, nor the receipt of such valves from such producer.

(d) *Records covering excepted valves.* Each producer shall retain in his files records showing his inventory of excepted valves (by types and sizes) as of March 1, 1942, and such records shall be kept readily available and open to audit and inspection by duly authorized representatives of the War Production Board. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public No. 671, 76th Cong., 3rd Session, as amended by Public No. 89, 77th Cong., 1st Sess.)

Issued this 11th day of February 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1085—MAINTENANCE AND EXPANSION OF PLANTS CANNING FRUITS AND VEGETABLES

Preference Rating Order No. P-115

§ 1085.1 *Preference Rating Order P-115.* For the purpose of facilitating the acquisition of Materials, in the public interest and to promote the national defense, for (1) the maintenance in good repair of plants and equipment used by Producers canning fruits and vegetables, and (2) the necessary expansion of the productive capacity of such existing plants and equipment, preference ratings are hereby assigned to deliveries of such Materials upon the following terms:

(a) *Definitions.* For the purposes of this order:

(1) "Producer" means any person located in the United States, its territories and possessions, engaged in the business of canning fruits or vegetables, or any person, located in the Dominion of Canada, to whom and in whose name a copy of this Order is specifically issued.

(2) "Canning" means the preparation of fruits and vegetables for market by packing such fruits and vegetables (either alone or in combination with other commodities) in hermetically sealed containers and sterilizing by the use of heat and includes all operations required for or usually incidental to such preparation.

(3) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind.

(4) "Maintenance" means minimum upkeep necessary to enable the Producer's existing plant and equipment to be used at its maximum rate of operation permissible under General Preference Order M-81 (To Conserve the Supply and Direct the Distribution of Tin Plate and Terne Plate) and other like Orders.

(5) "Repair" means restoration of a Producer's machinery, plant or equipment to sound working condition after physical depreciation, wear and tear, damage, destruction of parts or the like have impaired its fitness for service but not to an extent involving major reconstruction.

(6) "Material required for Operation" means operating supplies not to be physically incorporated in the finished product, nor used as packaging or fuel.

(7) "Replacement" means substitution of new machinery, plant or equipment for existing machinery, plant or equipment, when not constituting repair.

(8) "Addition and Expansion" means introduction of additional plant or equipment, other than replacements, to increase the productive capacity of a Producer's existing plant or equipment, without enlarging existing building space.

(9) "Supplier" means any person with whom a contract or purchase order has been placed for delivery of Material to a Producer or to another Supplier.

(b) *Assignment of Preference Ratings.* Preference ratings are hereby assigned, subject to the restrictions and conditions of paragraphs (d) and (e) hereof:

(1) A-1-a to deliveries, to a Producer, of Material directly required for emergency Maintenance or Repair, to avert spoilage of fruit or vegetables because of an actual breakdown or suspension of a Producer's operations.

(2) A-3 to deliveries, to a Producer, of Material required for Repair, Maintenance, or Operation, or which will be physically incorporated into Material which will be delivered for such use.

(3) A-3 to deliveries to a Producer of Material required for Replacement, Addition or Expansion, or which will be physically incorporated into Material which will be delivered for such use, excluding, however, any deliveries

(i) For the construction of new buildings, or the establishment of new plants,

(ii) For the establishment of new production lines, except for the canning of peas and tomatoes, or

(iii) For any other purpose that, in the opinion of the Director of Industry Operations at the time application is made, as provided in paragraph (e) (1) (iii) below, is not in the public interest, does not promote the national defense, or is in conflict with the policy of General Preference Order M-81 (To Conserve the Supply and Direct the Distribution of Tin Plate and Terne Plate) or other like Orders.

(4) For the purposes set forth in paragraphs (1), (2) and (3) herein, the ratings therein assigned are also assigned to deliveries to any Supplier of Material which will be delivered by him or another Supplier to the Producer under the ratings assigned above, or which will be physically incorporated into Material which will be so delivered; and the ratings assigned in paragraphs (2) and (3) are also assigned to deliveries which will be used, within the limitations of paragraph (d) hereof, to replace in such Supplier's inventory Material which is delivered by him under the ratings assigned above: *Provided, however,* That no Supplier engaged in the business of manufacturing machinery may apply or extend a rating hereunder in order to obtain delivery of material to be used by him in the manufacture of machinery or parts whether or not to be physically incorporated in such machinery.

(c) *Persons entitled to apply preference ratings.* The preference ratings hereby assigned may, in the manner and to the extent hereby authorized, by

(1) a Producer, provided, however, that if the Material is for Replacement, Addition or Expansion the rating may be applied by the producer only after specific advance approval of the War Production Board pursuant to paragraph (e).

(2) any Supplier of Material to the delivery of which a preference rating has been applied as provided in paragraph (e), and subject to the limitations of paragraph (b) (4): *Provided,* That the preference ratings hereby assigned may not be applied to deliveries of any Material to be used for purposes prohibited by any order or Regulation issued by the Director of the Division of Industry Operations.

(d) *Restrictions on use of ratings—* (1) *Restrictions on producer.* (i) Every contract and purchase order for Material, to which a preference rating is to be applied hereunder, must specify the date or dates by which delivery is required, and the preference rating may be applied only to such Material, or portion thereof, which, under the contract or purchase order, is to be delivered to the Producer for his operations during the calendar year 1942. The Producer may apply the ratings only to those quantities and kinds of Material essential to enable him to maintain his canning schedules for the calendar year 1942.

(ii) The Producer shall not apply any preference rating assigned by (b) (1) above to deliveries of Material to replace other Material withdrawn from his inventory or stores for Maintenance, Repair or Operation.

(iii) The Producer shall not apply any preference rating assigned by (b) (2) above if, in view of the current rate of consumption of his inventory or stores for Repair and Maintenance or Operation, the delivery of the Material to be rated would increase such inventory or stores above the minimum permitted or provided in paragraph (f) below.

(iv) The Producer shall not apply any preference rating hereunder unless the Material to be delivered cannot be secured when required without such rating.

(2) *Restrictions on supplier.* (i) No Supplier may deliver Material pursuant to a rating applied to him by a Producer located in the Dominion of Canada, unless the endorsement on the purchase order placed with such Supplier includes a Serial Number.

(ii) No Supplier may apply the rating to obtain Material in greater quantities or on earlier dates than required to enable him to make on schedule a delivery rated hereunder or, within the limitations of (iii) and (iv) below, to replace in his inventory Material so delivered. He shall not be deemed to require such Material if he can make his rated delivery and still retain a practicable working minimum inventory thereof; and, if, in making such delivery, he reduces his inventory below such minimum, he may apply the rating only to the extent necessary to restore his inventory to such minimum.

(iii) A Supplier who supplies Material which he has in whole or in part manufactured, processed, assembled or otherwise physically changed may not apply the rating to restore his inventory to a practicable working minimum unless he applies the rating before completing the rated delivery which reduces his inventory below such minimum.

(iv) A Supplier who supplies Material which he has not in whole or in part manufactured, processed, assembled or otherwise physically changed, may, in restoring his inventory to a practicable working minimum, defer applications of the rating hereunder to purchase orders or contracts for such material to be placed by him until he can place a purchase order or contract for the minimum quantity procurable on his customary terms: *Provided,* That he shall not defer the application of any rating for more than three months after he becomes entitled to apply it.

(e) *Application of preference rating.* (1) A Producer or any Supplier, in order to apply the preference ratings assigned hereunder to deliveries to him, must

(i) endorse on each purchase order or contract which is covered by a rating assigned hereunder, a statement in the following form, manually signed by an official duly authorized for such purpose, specifying the rating assigned:

Preference Rating A-_____ is applied hereto under Preference Rating Order No. P-_____, with the terms of which Order the undersigned is familiar.

_____
(Name of Producer or Supplier and Serial Number, when required)

By _____
(Duly Authorized Official)

Such endorsement shall constitute a representation to the War Production Board and the Supplier with whom the purchase order or contract is placed that such purchase order or contract is duly rated in accordance herewith. Such Supplier shall be entitled to rely on such representation, unless he knows or has reason to believe it to be false. Any such purchase order or contract shall be restricted to Material the delivery of which is rated in accordance herewith.

(ii) If preference rating A-1-a is applied, the Producer must, immediately upon placing his order for such Material, telegraph to the War Production Board the following with respect to such order:

(*a*) The name and address of the Supplier

(*b*) The reasons why such order required assignment of preference rating as Emergency Maintenance or Repair.

(c) A specific description of the Material included in the order, and

(*d*) The invoice cost of each item of such Material.

(iii) If the Material is required for Replacement, Expansion or Addition, the Producer shall not apply preference rating A-3, unless he shall have communicated with the War Production Board, describing the Material needed and the nature of the proposed Replacement, Expansion or Addition, and shall have received from the Director of Industry Operations a specific authorization to apply such rating. Such application for authorization may be made by a written statement on Form PD 285 or, in any emergency, by telegram giving substantially the information called for by said Form PD 285.

(2) With respect to a purchase order or contract placed before the effective date of this Order, and subject to the restrictions in paragraphs (e) (1) (ii) and (iii) above, a preference rating may be applied by delivering to the Supplier a copy of such purchase order or contract endorsed as provided above.

(3) A Supplier who has received from two or more Producers or Suppliers endorsed purchase orders or contracts for Material to the delivery of which the same rating has been applied in accordance with this Order, may include in a single purchase order or contract, and (within the limitations of paragraphs (b) (4) and (d) hereof) may apply the rating to, any or all of the Material which he in turn requires to make such rated deliveries or to replace in his inventory Material so delivered.

(f) *Inventory provisions.* A Producer shall not accept deliveries (whether rated hereunder or not) of Material for Repair and Maintenance or Operation which will increase the inventory or stores available to the Producer for such purposes to an amount greater than the minimum necessary for Repair and Maintenance and to sustain the current level of operations of the Producer, and the ratio of such inventory and stores to current operations shall in no event exceed the ratio of average inventory to average operation for the years 1938, 1939, and 1940.

(g) *Records.* In addition to the records required to be kept under Priorities Regulation No. 1, a Producer, and each Supplier placing or receiving any purchase order or contract rated hereunder, shall each retain, for a period of two years, for inspection by representatives of the War Production Board, endorsed copies of all such purchase orders or contracts, whether accepted or rejected, segregated from all other purchase orders or contracts or filed in such manner that they can be readily segregated for such inspection.

(h) *Reports.* Each Producer and each Supplier who applies a preference rating hereunder shall file such reports as may be required from time to time by the War Production Board; and until further notice any Producer or Supplier who applies a preference rating hereunder for emergency Maintenance or Repair, or for Repair, Maintenance, or Operation, shall file Form PD-81A on or before the 10th day of each month.

(i) *Communications to War Production Board:* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref: P-115.

(j) *Violations.* Any Person who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (a) of the Criminal Code (18 U. S. C. 80).

(k) *Revocation or amendment.* This Order may be revoked or amended at any time as to any Producer or any Supplier. In the event of revocation, deliveries already rated pursuant to this Order shall be completed in accordance with said rating, unless the rating has been specifically revoked with respect thereto. No additional applications of the rating to any other deliveries shall thereafter be made by the Producer or Supplier affected by such revocation.

(l) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, (Part 944), as amended from time to time except to the extent that any provision hereof may be inconsistent therewith, in which case, the provisions of this Order shall govern.

(m) *Effective date.* This Order shall take effect immediately and shall continue in effect through December 31, 1942, unless revoked, amended or modified prior thereto. (P.D. Reg. 1 Amended, Dec. 23, 1941, 6 F.R. 6680; W.P.B. PART 1348—MERCURY

AMENDMENT NO. 1 TO PRICE SCHEDULE NO. 93—MERCURY

Section 1348.9, paragraph (b) is hereby amended to read as follows:

§ 1348.9 *Appendix A; maximum prices for prime virgin mercury.*[2]

* * * * *

(b) *Sales by Dealers.* (1) A dealer, regularly engaged in the business of buying and selling prime virgin mercury on his own behalf, may sell such mercury as he buys and to which he acquires title, at not more than a price equal to the applicable maximum base price set forth above, *plus* a premium of 2% thereof, *plus* the actual transportation charges paid or incurred by him: *Provided*, That, the applicable maximum base price, the premium, and the transportation charges are shown separately in invoicing and billing.

(2) From February 4, 1942 until March 2, 1942, any such dealer, who had mercury on hand, or in transit, on February 4, 1942, in order to meet a contract of sale made prior to February 4, 1942, may deliver such mercury in accordance with the terms of such contract: *Provided*, That within 10 days after such delivery, the dealer shall submit to the Office of Price Administration, Washington, D. C., a verified statement, setting forth: (i) the name and address of the purchaser; (ii) the date on which the contract of sale was made; (iii) the form of the contract, i. e. oral, exchange of letters, order form, signed agreement, etc.; (iv) the quantity of mercury which the dealer had on hand, or in transit, on February 4, 1942; (v) the quantity of mercury delivered under the contract of sale after February 4, 1942, and the date or dates of such delivery; and (vi) the selling price. PART 1406—MECHANICAL POWER-TRANSMISSION EQUIPMENT

PRICE SCHEDULE NO. 105—GEARS, PINIONS, SPROCKETS, AND SPEED REDUCERS

Gears, pinions, sprockets, and speed reducers are used in the transmission of power. They are an important and integral part of most industrial mechanical equipment. Large quantities are used in the necessary machinery of modern warfare.

During the past year, as the expenditures of the War Program have expanded, the demand for these vital products has grown with great rapidity. The need for them in machines for industry and for war has become acute. Under this pressure, output has been more than doubled and schedules calling for continuous production have been introduced in many plants manufacturing this type of equipment. In spite of this there exists an increasing unsatisfied demand for these products creating a condition favorable to inflationary price changes.

During the year 1941, the prices of these articles moved sharply upward. In the absence of price control there is imminent danger that prices will increase even further. To avoid this consequence and the inflation which price increases occasion under the conditions described it has been decided, as a result of a study of pertinent facts and of conferences with representative members of the industry, that controls should be established over the prices of gears, pinions, sprockets, and speed reducers.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1406.1 *Maximum prices for gears, pinions, sprockets, and speed reducers.* (a) On and after February 18, 1942, regardless of the terms of any contract of sale or purchase, except as provided in paragraph (b) of this section, no manufacturer shall sell, offer to sell, deliver or transfer, and no person shall buy, offer to buy or accept delivery from a manufacturer of any gear, pinion, sprocket, or speed reducer at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1406.9.

(b) The provisions of this Schedule shall not apply to deliveries under contracts entered into by the Army, Navy, Defense Plant Corporation, Maritime Commission, Panama Canal, Procurement Division of the Treasury or any other agency of the United States prior to the effective date of this Schedule.

(c) Nothing in this Schedule shall prevent the inclusion in any contract for the sale of gears, pinions, sprockets, or speed reducers of a provision for price adjustment to be applied only to those deliveries called for and made more than nine months after the date on which the contract is entered into: *Provided*, That the contract also contains a provision that the final prices, after all adjustments, will in no case exceed the maximum prices established by the Office of Price Administration at the dates of delivery. Any other form of price adjustment provision, whether contractual or otherwise, shall be deemed to be in violation of the Schedule.

(d) The provisions of this Schedule shall apply both to domestic sales and sales for export, but nothing in this Schedule shall prevent the inclusion in the price of gears, pinions, sprockets, or speed reducers sold for export of the amount of expenses actually incurred in packing for export and in shipment, and the amount of any other expenses not ordinarily incurred in connection with domestic sales, provided that the amount of all such expenses is stated separately on the invoice.*

*§§ 1406.1 to 1406.9 inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1406.2 *Lower prices.* Lower prices, rents or charges than those provided for in § 1406.1 above may be charged, demanded, paid or offered.*

§ 1406.3 *Evasion.* The price limitation set forth in § 1406.1 shall not be evaded in connection with the purchase, sale, delivery, or transfer of any gears, pinions, sprockets, or speed reducers, alone or in conjunction with any other material, whether by direct or indirect methods, by way of barter or exchange, or by way of any service, transportation or other such charge, or by way of any change in discount, premium or other

[1] 7 F.R. 728.

privilege, or by tying agreement or other trade understanding, or otherwise, as a result of which the net price received by the manufacturer will exceed the net price which would have been received by him if the sale had been made on October 15, 1941.*

§ 1406.4 *Records and reports.* (a) Every manufacturer making any sale of gears, pinions, sprockets, or speed reducers after February 18, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year complete and accurate records of each such sale showing the date thereof, the name and address of the buyer, the list price, if any, on the date of sale, the net price received after adjustment for all extra charges, discounts, and allowances, and the quantity and description of each type of gear, pinion, sprocket, or speed reducer sold, and in addition, in the case of "special" gears, pinions, sprockets, or speed reducers, as defined in § 1406.7; the actual cost incurred in the production of the gear, pinion, sprocket, or speed reducer sold, and a summary of the calculations made in the computation of the price charged.

(b) On on before March 1, 1942, every manufacturer of gears, pinions, sprockets, or speed reducers, shall file with the Office of Price Administration the following: published or confidential price lists and discount sheets setting forth prices and all extra charges, discounts, and allowances in effect on October 15, 1941, applicable to gears, pinions, sprockets, or speed reducers; and a statement of the standard method of estimating net selling prices in use October 15, 1941, for special gears, pinions, sprockets and speed reducers, together with an illustrative computation.

(c) On or before April 10, 1942, and on or before the tenth day of every month thereafter, every manufacturer of gears, pinions, sprockets, and speed reducers shall file with the Office of Price Administration a report of sales during the preceding month of all "recurring special" gears, pinions, sprockets, and speed reducers, as to which no such report has previously been filed. The first such report shall cover the period February 18 to March 31, 1942.

(1) For each "recurring special" gear, pinion, sprocket, or speed reducer sold during the preceding month, of which a sale was made during the year ending February 18, 1942, the report shall be filed on Form 205:1 and shall contain the following information: (i) A description of the item; (ii) the date of the last sale of the item prior to February 18, 1942, the quantity sold and the net price charged at that time; (iii) the net price which would have been charged for this quantity on October 15, 1941, if such price had been calculated on the basis of labor rates and material prices existing on that date by the use of procedures and standards employed in estimating costs and determining prices on that date and making use of the manufacturer's experience as to actual machine hours and materials required; (iv) the date of the sale being reported, the quantity sold and the net price charged.

(2) For each "recurring special" gear, pinion, sprocket, or speed reducer sold during the preceding month, of which no sale was made during the year ending February 18, 1942, the report shall be filed on Form 205:2 and shall contain the following information: (i) A description of the item; (ii) the date of the first sale of the item after February 18, 1942, the quantity sold, and the net price charged; (iii) the date of the sale being reported, by force of which the item became a "recurring special," the quantity sold and the net price charged.

If reports have been filed in previous months as to all the "recurring special" gears, pinions, sprockets, or speed reducers sold during any single month, or if no sales of "recurring special" gears, pinions, sprockets, or speed reducers have been made during any single month, a report shall none the less be filed, containing a statement of the relevant fact, signed by an authorized person. Copies of Forms 205:1 and 205:2 can be obtained from the Office of Price Administration, or Forms 205:1 and 205:2 can be reproduced by the manufacturer providing no change is made in style or content of the forms.

(d) Persons affected by this Schedule shall submit such other reports, including periodic profit and loss statements and balance sheets, to the Office of Price Administration, as it may from time to time require.*

§ 1406.5 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record requirements, or other provisions of this Schedule or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both State and Federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of State, county, and local governments by calling to the attention of the proper authorities failures to comply with this Schedule which may be regarded as ground for the revocation of licenses and permits; (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule; and (e) that the War Production Board is requested to direct the withholding of priority ratings and the allocation of materials to any person failing to comply with this Schedule: Persons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or attempt to evade the provisions hereof, or of speculation, or manipulation of prices of gears, pinions, sprockets, or speed reducers, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1406.6 *Modification of the Schedule.* Persons claiming hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof, or exception therefrom: *Provided*, That such application will not be considered unless filed by persons complying with this Schedule.*

§ 1406.7 *Definitions.* When used in this Schedule the term:

(a) "Person" means any individual, partnership, association, corporation or other business entity.

(b) "Manufacturer" means any person engaged in one or more operations in the manufacture of gears, pinions, sprockets, or speed reducers resulting in the production of finished gears, pinions, sprockets, or speed reducers.

(c) "Gear" means a toothed wheel or cog wheel used in the transmission of mechanical power, and includes, among others, the following types of gears: spur gears, bevel gears, mitre gears, spiral gears, worm gears, herringbone gears, helical gears, pinions, and worms.

(d) "Pinion" means a type of gear.

(e) "Sprocket" means a toothed wheel or cog wheel used in the transmission of power by means of silent chain, link chain, roller or block chain, or other types of chain used in the transmission of power.

(f) "Speed reducer" means an enclosed gear drive for use in the transmission of power at increased or decreased speed, either horizontally, vertically, or angularly.

(g) "Standard gear, pinion, sprocket or speed reducer" means any gear, pinion sprocket or speed reducer listed or described in the manufacturer's price lists, whether published or confidential, in effect on October 15, 1941.

(h) "Recurring special gear, pinion, sprocket, or speed reducer" means any gear, pinion, sprocket, or speed reducer other than those above defined as "standard", for which at least two orders have been or may be received subsequent to February 18, 1941, and of which the manufacturer's sales since that date amount to either $1,000 or more, or 500 units or more.

(i) "Special gear, pinion, sprocket, or speed reducer" means any gear, pinion, sprocket or speed reducer not included in the above definitions of "standard" and "recurring special" gears, pinions, sprockets, and speed reducers.

(j) "Net price" means the manufacturer's price after adjustment for all applicable extra charges, discounts, including quantity discounts, and other allowances.*

§ 1406.8 *Effective Date of the Schedule.* This Schedule shall become effective February 18, 1942.*

§ 1406.9 *Appendix A; maximum prices for gears, pinions, sprockets, and speed reducers.* (a) The maximum price for "standard" gears, pinions, sprockets, or speed reducers, as defined in § 1406.7, shall be the net price in effect on October 15, 1941.

(b) (1) Upon the first sale on or after February 18, 1942, of any "recurring special" gear, pinion, sprocket, or speed reducer, as defined in § 1406.7, of which a sale had been made in the year ending February 18, 1942, the maximum price shall be the price which would have been charged on October 15, 1941, if such price had been calculated on the basis of labor rates and material prices existing on that date by the use of procedures and standards employed by the manufacturer in estimating or determining prices on that date, making use of the manufacturer's experience as to actual machine hours and materials required. Upon any subsequent sale of the same "recurring special" gear, pinion, sprocket, or speed reducer, the maximum price shall be the price charged upon such first sale after February 18, 1942, and filed in column 11 of Form 205:1, as required in § 1406.4, adjusted to reflect differences in cost consequent upon substantial differences, if any, in the quantity sold.

(2) Upon the sale after February 18, 1942, of any gear, pinion, sprocket, or speed reducer, of which no sales had been made in the year ending February 18, 1942, which is not a "standard" item and which becomes a "recurring special" by force of such sale, the maximum price shall be the price which would have been charged on October 15, 1941, if such price had been calculated on the basis of labor rates and material prices existing on that date by the use of procedures and standards employed by the manufacturer in estimating or determining prices on that date, making use of the manufacturer's experience as to actual machine hours and materials required. Upon any subsequent sale of this new "recurring special" gear, pinion, sprocket, or speed reducer, the maximum price shall be the price charged upon such sale, by force of which the item became a "recurring special," and filed in column 10 of Form 205:2, as required in § 1406.4, adjusted to reflect differences in costs consequent upon substantial differences, if any, in the quantity sold.

(c) The maximum price for any "special" gear, pinion, sprocket, or speed reducer shall be the price which would have been charged on October 15, 1941, if such price had been calculated upon labor and material costs existing on that date by the use of procedures and standards employed by the manufacturer in estimating costs and determining prices on that date.*

Issued this 10th day of February 1942.

Administrator.

TITLE 44—PUBLIC PROPERTY AND WORKS

CHAPTER I—THE NATIONAL ARCHIVES

PART 2—AUTHENTICATION AND ATTESTATION OF COPIES OF ARCHIVES IN CUSTODY OF THE ARCHIVIST OF THE UNITED STATES

Section 2.1[1] is amended to read as follows:

§ 2.1 *Designation of persons authorized.* Whereas Public, No. 756, 74th Congress, approved June 22, 1936, entitled "An Act to amend section 8 of the Act entitled 'An Act to establish a National Archives of the United States Government, and for other purposes', approved June 19, 1934" (48 Stat. 1123; U.S.C., title 40, sec. 238), authorizes the Archivist of the United States to make or reproduce and furnish authenticated or unauthenticated copies of any of the documentary, photographic, or other archives or records in his custody that are not exempt from examination as confidential or protected by subsisting copyright, and provides further:

> When any such copy or reproduction furnished under the terms hereof is authenticated by the official seal of The National Archives and certified by the Archivist of the United States, or in his name attested by the head of any office or the chief of any division of The National Archives designated by the Archivist with such authority, it shall be admitted in evidence equally with the original from which it was made.

And, Whereas, Thad Page, as Administrative Secretary of The National Archives, is the head of an office within the meaning of the language of said amendment,

And, Whereas, Philip M. Hamer, as Director of Reference Service, is the head of an office within the meaning of the language of said amendment,

Now, Therefore, I, Solon J. Buck, as Archivist of the United States, do hereby empower the said Thad Page, as Administrative Secretary of The National Archives, for me and in my name to authenticate and attest copies or reproductions of archives or records in my official custody furnished under the terms of said amendment. And I do, further, expressly empower the said Philip M. Hamer, as Director of Reference Service, in the absence or inability of the said Administrative Secretary, to authenticate and attest any such copies or reproductions in the manner aforesaid. DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. D-14]

IN THE MATTER OF THE APPLICATION OF THE MILWAUKEE FUEL AND DOCK COMPANY FOR PERMISSION TO RECEIVE DISTRIBUTORS' DISCOUNTS ON COAL PURCHASED FOR RESALE AND RESOLD TO CERTAIN RETAIL YARDS IN WHICH IT IS FINANCIALLY OR OTHERWISE INTERESTED

NOTICE OF AND ORDER FOR HEARING

The Milwaukee Fuel and Dock Company, a corporation organized under the laws of Wisconsin with its principal offices in Milwaukee, Wisconsin, and registered with the Division as a Distributor, No. 6467, filed its petition praying:

1. For a determination that its "ownership" or "control" over the three retail yards, listed below, is bona fide, is not established to secure an indirect price reduction, and is not within the prohibition of Paragraphs 11 and 12 of section 4, Part II (i) of the Bituminous Coal Act.

2. That it be given permission to accept and retain distributors' discounts on all coal, heretofore and hereafter, purchased for resale and resold to each of the following retailers:

Name and address

Wauwatosa Fuel & Supply Company, Wauwatosa, Wisconsin.

Taylor-Button Company, Milwaukee, Wisconsin.

Gross Coal-Gross Oil Company, Milwaukee, Wisconsin.

It is therefore ordered, That a hearing on such matter be held on March 18, 1942, at 10 a. m. in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 15th Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Charles O. Fowler or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearings, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to such petitioner and to any other person who may have an interest in such proceeding. Any person desiring to be heard at such hearing shall file a notice to that effect with the Bituminous Coal Division on or before March 13, 1942, setting forth therein the nature of his interest and a concise statement of the matter or matters which he intends to present.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners, or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

Dated: February 9, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[Docket No. C-6]

IN THE MATTER OF THE APPLICATION OF EMERALD COAL AND COKE COMPANY FOR APPROVAL OF A CONTRACT FOR THE SALE OF COAL, PURSUANT TO RULE 5 OF SECTION VI OF THE MARKETING RULES AND REGULATIONS

NOTICE OF AND ORDER FOR HEARING

Emerald Coal and Coke Company, a code member in District No. 2, has filed an application for approval of a contract between it and the Pittsburgh Coke and Iron Company, dated January 10, 1942, providing for the sale and delivery of coal over a period in excess of twelve (12) months, pursuant to the provisions of Rule 5, section VI of the Marketing Rules and Regulations. The Lowber Gas Coal Company, an alleged code member in District No. 2, has filed with the Division a petition objecting to the approval of said application of the Emerald Coal and Coke Company. Both the Emerald Coal and Coke Company and the Lowber Gas Coal Company have filed affidavits in support of their application for approval and petition of protest, respectively.

The Acting Director is of the opinion that a public hearing should be held and evidence received thereat concerning whether that long term contract between Emerald Coal and Coke Company and Pittsburgh Coke and Iron Company is necessary to meet the long term competition of oil, gas, or other forms of fuel and energy or for such other reasons as may be appropriate in order to further the effectual administration of the Act.

Now, therefore, it is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on March 10, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day, the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Charles O. Fowler or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said applicant and to any other persons who may have an interest in this proceeding. Applicant, Emerald Coal and Coke Company, shall file with the Division, on or before February 20, 1942, a verified formal application with a copy of the contract between it and Pittsburgh Coke and Iron Company, dated January 10, 1942, attached thereto, and shall serve such application on the Bituminous Coal Consumers' Counsel, Bituminous Coal Producers Board for District No. 2 and Lowber Gas Coal Company on or before February 20, 1942. Copies of said application shall be made available upon request to any other person who may become a party to this proceeding. Any person desiring to be heard at such hearing shall file a verified statement to that effect with the Bituminous Coal Division on or before March 5, 1942, setting forth therein the nature of his interest, and a concise statement of the matter or matters which he intends to present.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the application, petitions of intervenors, or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to a twenty (20) year contract, dated January 10, 1942, for the sale by Emerald Coal and Coke Company to Pittsburgh Coke and Iron Company of 80 per cent of the buyer's high volatile coal requirements, for the operation of its byproduct coke plant located on Neville Island, Allegheny County, Pennsylvania, estimated at approximately 600,000 net tons annually.

Dated: February 9, 1942.

[Docket No. B-165]

IN THE MATTER OF EARL HENRY AND D. HENRY, INDIVIDUALLY AND AS COPARTNERS, DOING BUSINESS UNDER THE NAME AND STYLE OF HENRY COAL COMPANY [EARL HENRY AND D. HENRY (HENRY COAL COMPANY)], CODE MEMBER, DEFENDANTS

NOTICE OF AND ORDER FOR HEARING

A complaint dated November 27, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, having been duly filed on November 28, 1941, by Bituminous Coal Producers Board for District No. 8, a district board, complainant, with the Bituminous Coal Division alleging willful violation by the defendants of the Bituminous Coal Code or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on March 18, 1942, at 10 a. m., at a hearing room of the Bituminous Coal Division at the United States Post Office, Federal Building, Huntington, West Virginia.

It is further ordered, That Travis Williams or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said defendants and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answers to the complaint must be filed with the Bituminous Coal Division at its Washington office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the defendants; and that any defendant failing to file an answer within such period, unless otherwise ordered, shall be deemed to have admitted the allegations of the complaint herein and

to have consented to the entry of an appropriate order on the basis of the facts alleged.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging wilful violation by the above named defendants of the Bituminous Coal Code or rules and regulations thereunder as follows:

The defendants, Earl Henry and D. Henry, individually and as co-partners, doing business under the name and style of Henry Coal Company, Clifton, West Virginia, code member in District No. 8, operating the Henry Coal Company Mine, Mine Index No. 1440, located in Mason County, West Virginia, wilfully violated the provisions of the Bituminous Coal Act, the Code and the effective minimum prices and regulations established thereunder by selling, delivering, and offering to sell bituminous coal produced from the defendants' said mine, on the dates, to the purchasers, in the sizes and quantities, and at the prices per net ton f. o. b. the defendants' mine, as set out below, which sales prices were below the prices established for such coals in the Schedule of Effective Minimum Prices for District No. 8 for Truck Shipments:

[Docket No. A-289]

PETITION OF THE CITY OF CINCINNATI AND THE BOARD OF EDUCATION OF THE CITY SCHOOL DISTRICT OF THE CITY OF CINCINNATI FOR AN ORDER ESTABLISHING F. A. S. PRICES

MEMORANDUM OPINION AND ORDER REOPENING THE HEARING

This proceeding[1] was instituted upon an original petition filed by the City of Cincinnati and The Board of Education of the City School District of Cincinnati, consumer, with the Bituminous Coal Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting that an Order be entered permitting them to purchase coals produced by code members in District 8 at free alongside ("f. a. s.") prices when transported via river to Cincinnati, Ohio.

Intervening petitions were filed by District Boards Nos. 7 and 8 in opposition to the relief prayed for in the original petition.

Pursuant to Orders of the Director and after due notice to all interested persons a hearing in the consolidated matter was held before Floyd McGown, a duly designated Examiner of the Division on January 10, 11, and 23, 1941. Thereafter, in the consolidated dockets, the Examiner submitted Proposed Findings of Fact and Proposed Conclusions of Law and Recommendations dated June 16, 1941.

On September 20, 1941, the Director issued his Memorandum Opinion and Order approving and adopting the Proposed Findings of Fact and Conclusions of Law and granting permanent relief. In said Memorandum Opinion there was contained, among others, the following paragraph:

Because at the hearing there arose some doubts concerning the conditions under which f. a. s. prices apply, it is believed that a clarification thereof may be helpful. It has always been recognized that f. a. s. prices apply only where shipments are made and deliveries received by the purchaser in barges. The weights that govern are the railroad weights at the mine. Furthermore, in accordance with Price Instruction 9, consumers purchasing coal on an f. a. s. basis must assume all intervening costs subsequent to and including unloading from the barge. And, of course, f. a. s. prices apply only when the coal delivered to the consumer is the same coal which was loaded at the river loading facilities.

On October 20, 1941, The City of Cincinnati and the Board of Education of the City School District of the City of Cincinnati, petitioners in Docket No. A-289, filed a petition seeking, as to themselves, to amend the Order entered in the consolidated dockets by striking therefrom the quoted provision and inserting in lieu thereof a paragraph of different import.

On December 13, 1941, the Acting Director issued a Memorandum Opinion and Order denying the petition of October 20, 1941, for a modification of the Order dated September 20, 1941, but stating that the petitioners might request that the hearing be reopened for the purpose of receiving evidence concerning the effect of the aforesaid paragraph on their methods of purchasing coal or concerning the appropriateness of its inclusion.

On January 17, 1942, the petitioners in Docket No. A-289, filed a motion to reopen the hearing to permit them to prove that the clarification clause quoted above should be stricken from the Order dated September 20, 1941.

Upon consideration of the record I find and conclude that the motion to reopen the hearing should be granted in so far as relates to the petitioners in Docket No. A-289[2] and, for that purpose,

[1] By orders of the Director this proceeding was consolidated with Dockets Nos. A-89, A-337, A-352, A-352A, A-530, and A-540.

[2] The reopened hearing will be deferred until March 16, 1942, for the reason that petitioners have intervened in Docket No. A-1239, where attention may be directed, so far as pertinent to Docket No. A-1239, to the matter posed by the motion here. In such event, petitioners may find it unnecessary to pursue their contention in this proceeding and, if so, petitioners should file an appropriate application.

Docket No. A-289 should henceforth be severed from the consolidated proceeding of which it was a part. However, the reopened hearing should be limited to the hearing of evidence relating to the effect of the aforementioned statement contained in the Memorandum Opinion of the Director, dated September 20, 1941, on the petitioner's methods of purchasing coals, and, generally, with respect to its propriety, as to these petitioners, as well as any clarification, modification, revision, or deletion of such statement.

It is, therefore, ordered, That henceforth Docket No. A-289 be and the same hereby is severed from the aforesaid consolidated proceeding.

It is further ordered, That the motion of City of Cincinnati and The Board of Education of the City School District of the City of Cincinnati to reopen the hearing be and the same hereby is sustained and that the hearing, as to the matters in Docket A-289, only, be and the same hereby is reopened for the limited purposes, however, of receiving evidence with respect to the propriety of clarifying, modifying, revising or deleting the provision contained in the Order dated September 20, 1941, as follows:

Because at the hearing there arose some doubts concerning the conditions under which f. a. s. prices apply, it is believed that a clarification thereof may be helpful. It has always been recognized that f. a. s. prices apply only where shipments are made and deliveries received by the purchaser in barges. The weights that govern are the railroad weights at the mine. Furthermore, in accordance with Price Instruction 9, consumers purchasing coal on an f. a. s. basis must assume all intervening costs subsequent to and including unloading from the barge. And, of course, f. a. s. prices apply only when the coal delivered to the consumer is the same coal which was loaded at the river loading facilities.

and, evidence concerning the effect of said provision on the petitioner's method of purchasing coals.

It is further ordered, That nothing contained in this Order shall, in any manner, affect the rights, privileges, duties, and obligations of any of the parties in the consolidated proceedings under the Order dated September 20, 1941.

It is further ordered, That the reopened hearing in Docket No. A-289 under the applicable provisions of the Act and the Rules of the Division be held on March 16, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Floyd McGown or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit to the Director proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person who has not heretofore filed a petition of intervention in this matter and who desires to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before February 16, 1942.

The matter concerned herewith is in regard to propriety of clarifying, modifying or revising the aforesaid statement contained in the Order dated September 20, 1941, entered in the consolidated dockets (Docket No. A-289 and others) in so far, only, as such statement affects the petitioners in Docket No. A-289.

Dated: February 9, 1942.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70–497]

IN THE MATTER OF CONSOLIDATED ELECTRIC AND GAS COMPANY AND SAFETY ENGINEERING AND MANAGEMENT COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 10th day of February, A. D. 1942.

Notice is hereby given that a declaration or application (or both), has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above-named parties; and

Notice is further given that any interested person may, not later than Feb-

ruary 25, 1942 at 4:45 p. m., E. S. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Safety Engineering and Management Company, a subsidiary of Consolidated Electric and Gas Company, a registered holding company, proposes to liquidate and dissolve. All of the outstanding securities of Safety Engineering and Management Company are presently pledged with the Continental Illinois National Bank and Trust Company of Chicago, as Trustee under the Collateral Trust Indenture of Consolidated Electric and Gas Company, dated as of August 1, 1932. Pursuant to a total liquidating dividend Safety Engineering and Management Company will transfer to Consolidated Electric and Gas Company all of its assets, and Consolidated Electric and Gas Company, in turn, will deposit these acquired assets under the lien of the said Indenture. Safety Engineering and Management Company will then take appropriate action to effect its voluntary dissolution.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

ESTABLISHING BOSTON MARITIME CONTROL AREA AND PRESCRIBING REGULATIONS FOR THE CONTROL THEREOF

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the United States is now at war, and the establishment of the maritime control area hereinafter described is necessary in the interests of national defense:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, by virtue of the authority vested in me as President of the United States, and as Commander-in-Chief of the Army and Navy of the United States, and in accordance with the principle of self-defense of the Law of Nations, do hereby establish and proclaim the following-described area as the Boston Maritime Control Area, and prescribe the following regulations for the control thereof:

BOSTON MARITIME CONTROL AREA

All waters within the area enclosed by lines running as follows:

Beginning at the intersection of the western shore of Halibut Bay, Cape Ann, Massachusetts, and the parallel of Latitude 42°-40' North, in approximate Longitude 70°-37-30" West;

Thence along that parallel to Longitude 70°-15'-00" West;

Thence along approximate true bearing [illegible] West, and

ditions prevail, and then only after specific permission has been obtained. Advance arrangements for entry into or navigation through or within the said Area must be made, preferably by application at a United States Naval District Headquarters in advance of sailing, or by radio or visual communication on approaching the seaward limits of the Area. If radio telegraphy is used, the call "NQO" shall be made on a frequency of 500 kcs, and permission to enter the port requested. The name of the vessel, purpose of entry, and name of master must be given in the request. If visual communications are used, the procedure shall be essentially the same.

2. Even though permission has been obtained, it is incumbent upon a vessel entering the said Area to obey any further instructions received from the United States Navy, or other United States authority.

3. A vessel may expect supervision of its movements within the said Area, either through surface craft or aircraft. Such controlling surface craft and aircraft shall be identified by a prominent display of the Union Jack.

4. These regulations may be supplemented by regulations of the local United States naval authority as necessary to meet local circumstances and conditions.

5. Should any vessel or person within the said Area disregard these regulations, or regulations issued pursuant hereto, or fail to obey an order of the United States naval authority, or perhaps any [illegible] or other defenses, or take any action

EXECUTIVE ORDER

AMENDING REGULATIONS CONCERNING FOREIGN SERVICE PAY ADJUSTMENT

By virtue of the authority vested in me by the act of March 26, 1934, 48 Stat. 466 (U.S.C., title 5, sec. 118c), the list of basic rates of exchange established by section 4 of Executive Order No. 7972[2] of September 15, 1938, as amended, prescribing regulation for the payment of losses sustained by officers, enlisted men, and employees of the United States in foreign countries on account of the appreciation of foreign currencies in their relation to the American dollar, is hereby amended, effective as of December 1, 1941, by deleting therefrom the designation of the countries appearing under the heading "Netherlands (Possessions)" and the monetary units and basic rates relating thereto, and substituting therefor the following:

Netherlands Indies	Florin	40.19
Netherlands West Indies	Florin	40.19
Surinam	Florin	40.19

This order supersedes Executive Order No. 8800 dated June 22, 1941.

TITLE 6—AGRICULTURAL CREDIT

CHAPTER I—FARM CREDIT ADMINISTRATION

PART 32—THE FEDERAL LAND BANK OF SPOKANE

LOAN FEES

Section 32.1 of Title 6, Code of Federal Regulations, is amended to read as follows:

§ 32.1 *Loan fees*—(a) *Loan application fees; payable with application.* On each loan application a fee is charged as follows:

Amount of application:	*Appraisal fee*
$100 to $5,000	$10.00
$5,100 to $9,900	15.00
$10,000 to $14,900	20.00
$15,000 to $19,900	25.00
$20,000 to $24,900	30.00
$25,000 to $29,900	35.00
$30,000 to $34,900	40.00
$35,000 to $39,900	45.00
$40,000 to $50,000	50.00

If the application is cancelled or rejected before appraisal, the entire fee is refunded. If the application is cancelled or rejected after appraisal, the entire fee is retained by the bank.

If the applicant does not reside in the twelfth farm credit district, an additional fee of $7.50 will be charged to cover the cost of securing an appraisal report from the district of his residence.

If a reappraisal is required because of delay of the applicant, or is made at the applicant's request, another appraisal fee, fixed in accordance with the above schedule, will be charged.

(b) *Loan closing fees; payable when loan is closed.* A loan fee is charged on each single land bank loan, on each single Land Bank Commissioner loan, and on the aggregate amount of land bank and Land Bank Commissioner loans closed jointly, as follows: $15.00 on the first $1,000.00, or any fractional part thereof, and 25 cents for each additional $100.00, or any fractional part thereof. The application fee collected by the bank is applied on the loan fee in determining the net fee to be charged. The loan fee is the total charge made by the bank for appraisal and determination of title. The loan fee on any additional loan closed shall be determined as above provided on the amount of the additional loan granted.

(c) *Local correspondent's fees; payable when loan is closed.* On direct land bank loans a local correspondent's fee equal to ¾ of 1 percent of the amount of the loan is charged (exclusive of $1.00 local correspondent's fee).

(d) *Building inspection fee.* An inspection fee is charged a borrower when the proceeds of a loan is disbursed for buildings on the property mortgaged and where the value established by the bank is predicated on such new buildings to be constructed. The fee of $7.50 is charged for the inspection made by the appraiser after the loan has been closed and the buildings erected, but before the loan is completed.

(e) *Other expenses.* Each applicant will also be required to pay actual cash outlays for abstract expenses, title insurance fees, notarial fees, recording fees, or other disbursements necessary for completion of the loan. (Sec. 13 "Ninth", 39 Stat. 372, sec. 26, 48 Stat. 44, sec. 32, 48 Stat. 48, as amended; 12 U.S.C. 781 "Ninth", 723 (c), 1016 (c) and Sup.; 6 CFR 19.4019-19.4022)) [Res. Bd. Dir., January 22, 1942]

In the Matter of J. L. Ramsay, and G. P. Masters, Individually, and Trading as Rogers Silverware Exchange and as Rogers Redemption Bureau

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 9th day of February, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondent J. L. Ramsay, in which answer said respondent admits all the material allegations of fact set forth in said complaint, and states that he waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, J. L. Ramsay, individually and trading as Rogers Silverware Exchange and as Rogers Redemption Bureau or trading under any other name or names, his representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of silverware or sales promotional plans, including premium certificates, gift cards or coupons redeemable in silverware or other articles of merchandise, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, through use of the word "Rogers", either alone or in connection with any other word or words, in a corporate or trade name, or through statements in advertising, or in any other manner, that respondent has an interest in, forms a part of, or has any connection with Oneida, Ltd., manufacturer of Wm. A. Rogers Silverware;

2. Representing that certificates, gift cards, or other similar device can be redeemed in silverware or other merchandise unless and until all of the terms and conditions of such offer are clearly and unequivocally stated in equal conspicuousness and in immediate connection or conjunction with such offer and there is no deception as to the services or other actions to be performed or the price to be paid in connection with obtaining such silverware or other articles of merchandise;

3. Representing that the purchase price for said certificates or gift cards will be refunded to the dealer purchasers thereof or that the respondent will supply to such dealer purchasers without charge display sets of silverware, to become the property of such dealers, unless and until such are the facts and unless all of the terms and conditions of such offer are clearly and unequivocally stated in equal conspicuousness and in immediate connection or conjunction with such offer or offers and there is no deception as to the services or other actions to be performed by the dealer purchasers in connection with obtaining such refund and display set of silverware;

4. Representing that the sales-stimulation plan offered by respondent is authorized by Oneida Limited, or that sales literature will be distributed by the respondent on behalf of purchasers of said sales-promotion plan, or that said purchasers will be assisted by the respondent in any other manner;

5. Representing that a complete set of silverware or any specific item of silverware can be acquired through the redemption of such certificates, gift cards or similar devices unless and until such is the fact;

6. Using any representations with respect to the number of certificates or gift cards required to be redeemed in order to obtain any specific merchandise, which representations do not clearly and accurately disclose the number of such certificates or gift cards actually required to obtain such merchandise.

It is further ordered, That said respondent shall, within sixty days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

It is further ordered, That this proceeding be, and the same hereby is, closed as to the respondent G. P. Masters, individually, without prejudice to the right of the Commission, should the facts so warrant, to reopen the same and resume trial thereof as to said respondent, in accordance with its regular procedure.

By the Commission.

(Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Queen Ann Manufacturing Company, Docket 4652, February 9, 1942]

In the Matter of Clifford S. Donnell, an Individual, Trading as Queen Ann Manufacturing Company

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 9th day of February, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of the respondent, in which answer the respondent admits all the material allegations of fact set forth in said complaint and states that he waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Clifford S. Donnell, an individual, trading as Queen Ann Manufacturing Company, or trading under any other name or names, his representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of this hair dye cosmetic variously advertised as Queen Ann Hair Dye, Queen Ann Hair Coloring and as Queen Ann Liquid Hair Coloring, or any other hair dye cosmetic or product of substantially similar composition or possessing substantially similar properties, whether sold under the same names or under any other name, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement (a) by means of the United States mails, or (b) by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or by implication, that said preparation will stop hair from growing gray or give gray hair a permanent coloring; that it will preserve the natural beauty of the hair or make it smooth or silky; that it is an amazing new hair dye; that it can be applied in half the time required to apply other hair dyes; that it is quicker drying or causes the hair to hold its color longer than all other hair dyes; that it is used exclusively by better beauty shops; or that it is endorsed by the State Beauty Commission of New Jersey; or which advertisement contains the word "Manufacturing" or any other word of similar import as a part of respondent's trade name or otherwise represents that respondent owns or operates a manufacturing plant or manufactures the product sold by him;

2. Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said preparation, which advertisement contains any of the representations prohibited in paragraph 1 hereof.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

TITLE 32—NATIONAL DEFENSE

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 940—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

Supplementary Order No. M-15-b-1 To Restrict the Use of Rubber

It is hereby ordered, That:

§ 940.5 *Supplementary Order No. M-15-b-1*—(a) *Applicability of Supplementary Order No. M-15-b* (§ 940.3[1]). This Order is issued pursuant to paragraph (d) of Supplementary Order No. M-15-b (§ 940.3) issued by the Office of Production Management. All definitions and all other provisions of Supplementary Order No. M-15-b shall apply to this Order as fully as though set forth herein. Nothing in this Order shall be construed to permit the use of Rubber or Latex in the manufacture of any products except as permitted by Supplementary Order No. M-15-b or by special directions issued by the Director of Industry Operations.

(b) *Specifications for certain rubber products.* No Person shall use Rubber, Latex or reclaimed rubber in the manufacture of any product included in the Lists enumerated below and attached hereto except in accordance with the specifications therein prescribed; such specifications to be effective as to any product or class of products as of the effective date of this Order except where otherwise specified in the appropriate list (Provided that such restrictions shall not apply to the manufacture of products to fill War Orders or other purchase orders placed by or for the account of any other department or agency of the government of the United States, unless otherwise provided as to any product or class of products in the appropriate list):

(1) Hose and tubing of the kinds listed. List 1.
(2) Conveyor, elevator and flat transmission belts and belting of the kinds listed. List 2.
(3) Occupational protective clothing (other than footwear and gloves) and rubberized fabric for firemen's and policemen's clothing. List 3.
(4) Jar rings. List 4.
(5) Plain oxfords and laced-to-toe gym bals.
(6) Waterproof boots, pacs, arctics, gaiters and overshoes. List 6.
(7) Tires, tire casings, tire tubes and capping stock and compounds therefor. List 7.
(8) Bicycle tires. List 8.
(9) Tires, tire casings and tire tubes to fill War Orders. List 9.
(10) Fire hose and mill hose. List 10.

(c) *Effective date.* This Order shall be effective as of the date of its issuance. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329, E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public No. 671, 76th Congress, Third Session, as amended by Public No. 89, 77th Congress, First Session)

Issued this 11th day of February 1942.

J. S. KNOWLSON,
Director of Industry Operations.

List 1—Specifications for the manufacture of certain types of hose and tubing. The following products may be manufactured only in accordance with these specifications and shall contain no rubber or latex:

SPECIFICATIONS WHERE RECLAIMED RUBBER IS USED

Description of product	Minimum inside diameter	Maximum outside diameter	Color	Pressure test
(1) Low pressure spray hose	¾"	11/16"	Black	250 pound per square inch 10 minute hold on 3 ft. sample.
(2) Curb line and garage air hose	1/4"	7/16"	Black	
(3) Curb line and garage air hose	⅜"	9/16"	Black	
(4) Fire extinguisher tubing	⅜"	¾"	Black	250 pound per square inch 10 minute hold on 16 inch sample.
(5) Garden hose, 1-ply (the manufacture of 1-ply only is permitted)	¾"	1"	Black	300 pound per square inch burst.
(6) Car heater hose, 1-ply (the manufacture of 1-ply only is permitted)	⅝"	31/32"	Black	200 pound per square inch burst.
(7) Automotive radiator hose shall be Black only with a maximum wall gauge of 2/16".				

List 2—Specifications for the manufacture of certain types of conveyor, elevator and flat transmission belts and belting. (1) Conveyor belts and belting and elevator belts and belting shall be manufactured in two grades only, as follows:

(a) Grade A, having a 2500–3000 pound cover tensile and a 16–19 pound friction,

(b) Grade B, having an 800–1000 pound cover tensile, a 12–15 pound friction and no skim coats.

and shall have black covers only.

(2) All belts and belting designed for conveying food and grain shall be manufactured in Grade B only.

(3) All belts and belting designed for conveying food may have a cover other than black in color.

(4) Flat transmission belts and belting shall be manufactured in two grades only, as follows:

(a) Grade A, having a 20–24 pound friction,

(b) Grade B, having a 12–15 pound friction and no skim coats.

(5) All belts and belting designed to transmit power to any Farm Machinery and Equipment (as defined in Preference Rating Order No. P–95) shall be of a Grade B quality, except those designed to transmit power to hammermills.

(6) Where flat transmission belts and belting are manufactured in a color other than black, no more Rubber shall be consumed than would be consumed in black belts and belting of an equivalent grade.

List 3—Specifications for the manufacture of occupational protective clothing (other than footwear and gloves) and rubberized fabric for firemen's and policemen's clothing. (1) Compounds used in the manufacture of the above products shall not contain more than 16% Rubber by weight.

(2) Single texture rubber-surfaced and friction-lined material for firemen's coats shall not contain more than 13 ounces of such compounds per square yard.

(3) Single texture rubber-surfaced materials for policemen's coats and occupational jackets, pants, hats, aprons and coats shall not contain more than 13

[1] 7 F.R. 511.

ounces of such compounds per square yard.

(4) Double texture rubber-surfaced material for occupational protective clothing shall contain not more than 12 ounces of such compounds per square yard.

(5) Single texture rubber-surfaced material for occupational double-coated aprons shall contain not more than 20 ounces of such compounds per square yard.

List 4—Specifications for the manufacture of jar rings.—(1) Compounds used in the manufacture of jar rings shall contain not more than 10% Rubber by weight and shall be such as to produce not less than 11,000 gross of rings from each long ton (2,240 pounds) of Rubber.

(2) Rings shall be cut 12 to the inch.

(3) Rings may have a single lip.

(4) With respect to internal diameter, width of flange, tensile strength and ultimate elongation, rings shall meet minimum requirements of dimensions, strength and elongation as set forth in Federal Specification ZZ–R–351.

List 5—Specifications for the manufacture of plain oxfords and laced-to-toe gum bals. (1) These products shall have tops of fabric only and Rubber shall be used only for outsoles, boxings, toe caps, toe guards, bonderizers, compounds for inside bottom work.

(2) The average amount of Rubber per pair used in the manufacture of these products shall not exceed the indicated weights in the case of each of the following types:

Type:	Maximum average weight of rubber (in pounds)
Men's	.25
Boy's	.20
Youth's	.15
Women's	.20
Misses'	.15
Child's	.10

List 6—Specifications for the manufacture of water-proof boots, pacs, arctics, gaiters and overshoes. (1) All such products shall be manufactured in a black color only.

(2) No rubber shall be used for label plasters.

(3) Production shall be confined to the following types, and the average amount of rubber per pair used in the manufacture of each type shall not be greater than the indicated maximum weight:

	Average weight of rubber (in pounds), maximum
Boots:	
Men's Short	1.25
Women's Short	.75
Men's Storm King	2.00
Men's Hip	2.30
Pacs:	
Men's 12" Toplace Pac	1.05
Men's Lumber Overs, Half Heel	.80
Arctics:	
Men's 5 Buckle Rubber Midweight Bal	1.15
Men's 4 Buckle Rubber Midweight Bal	1.05
Men's 4 Buckle Cloth Farmweight Blucher	.90
Men's 4 Buckle Height Lightweight Bal-Rubber	.75
Boy's 3 Buckle Height Lightweight Bal-Rubber	0.62
Youth's 3 Buckle Height Lightweight Bal-Rubber	.53
Women's 4 Buckle Height Lightweight Bal-Rubber	.54
Men's 4 Buckle Height Lightweight Bal-Cloth	.65
Gaiters:	
Women's 2 Snap Rubber	.30
Misses' 2 Snap Rubber	.30
Child's 2 Snap Rubber	.27
Rubbers:	
Men's Storms and/or Semi-Storms	.60
Boy's Storms and/or Semi-Storms	.50

(3) Truck friction compounds	A	88.5	0
	B	77.0	9.3
	C+	68.4	21.7
	C	59.8	34.2

Variations from the above specifications are permitted as follows:

Rubber	plus 0 minus 2.
Whole tire reclaimed rubber	plus 2 minus (not limited).

In the event that no friction compound or tread compound in use by any Person on January 26, 1942, contains as large a percentage of Rubber as specified above, such Person shall not use or adopt the grade A friction compound or the grade A tread compound without the prior approval of the Director of Industry Operations.

The specifications set forth in this subdivision (a) shall become effective not later than February 16, 1942.

(b) *Tire casings and solid tires.* The friction and the tread, respectively, of each of the classes of tire casings and solid tires listed below shall be made from one of the grades of compounds listed in subdivision (a) of this list, the appropriate grade of compound to be used for each such respective friction or tread being that hereinbelow specified therefor opposite the description or designation of such class (provided that in no event shall any such tire herein required to be made of both grades F friction compound and grade F tread compound contain more than one pound Rubber):

(4) Truck tires, 17"–24" rims, size 7.00 to 7.50 inclusive, more than 8-ply, and 7.50–20 8-ply—premium grade	A	A
(5) Truck tires, 17"–24" rims, size 8.25 and larger—standard grade	A	C
(6) Truck tires, 17"–24" rims, size 8.25 and larger—premium grade	A	A
(7) Truck tires, 13"–16" rims 8-ply and less	C	C
(8) Truck tires, 13"–16" rims, more than 8-ply	A	C
(9) Off-highway equipment heavy service tires, 8-ply and less	B	C
(10) Off-highway equipment heavy service tires, more than 8-ply	A	A
(11) Mileage tires, city busses	B	C
(12) Mileage tires, inter-city busses	A	A

The specifications set forth in this paragraph (b) shall become effective not later than February 16, 1942.

(c) *Capping stock.* Capping stock of each of the classes listed below shall be made from one of the grades of compounds listed in subdivision (a) (1) of this list, the appropriate grade of compound to be used for each such class being that hereinbelow specified therefor opposite the description or designation of such class:

Description of product	Tread compound to be used
(1) Capping Stock, 14/32 gauge and smaller	E.
(2) Capping Stock, 16/32 gauge and larger	A or C.
(3) Capping Stock, 12/32 and 14/32 gauge, Hawkinson die sizes only	A or C.

Capping stock may be manufactured only in gauges of 10/32, 12/32, 14/32, 16/32, 18/32, 20/32, 22/32, and larger.

The specifications set forth in this subdivision (c) shall become effective not later than February 2, 1942.

(d) *Maximum material volume of tire tubes.* No tire tube of any of the classes listed below shall be manufactured with a material volume in excess of the volume specified for such class as set forth below opposite the description or designation of such class:

Description of product: Type	Size	Maximum material volume (in cubic inches)
Passenger automobile tire tubes	5.50–16	51.2
	CD 16	57.8
	6.50–15	66.6

	13–30	440.0
	14–30	498.0
	15–30	565.0

Variations from the above maximum volumes shall be permitted to the extent of minus 3%.

Sizes not specifically set forth shall have maximum volumes proportional to the sizes listed.

In the event that the maximum volume herein permitted for a tube of a given type and size manufactured by any Person on the effective date of this Order is less than the maximum indicated above, such Person shall make no change in the maximum volume of such tube as then manufactured by him without the prior approval of the Director of Industry Operations.

The specifications set forth in this subdivision (d) shall become effective not later than March 2, 1942.

List 8—Specifications for the manufacture of bicycle tire casings and tire tubes. (1) No bicycle tire casing (designed for use with a separate tube) shall contain more than 1.5 ounces of Rubber.

(2) No bicycle tire tube shall contain more than 6 ounces of Rubber.

(3) No bicycle single tube casing (tire and tube in one piece) shall contain more than 7.5 ounces of Rubber.

(4) In those instances in which lightweight (26" x 1⅜") tire casings and tubes are manufactured to equip new bicycles, either the tire casing or tube may exceed the respective limits set forth in (1) and (2), provided the total weight of Rubber in a tire casing and tube combined does not exceed 7.5 ounces.

List 9—Specifications for the manufacture of tires, tire casings and tire tubes to fill war orders. (a) Compounds used in the manufacture of tires and tire casings to fill War Orders shall be prepared in accordance with the specifications set forth in subdivision (a) of List 7 attached to this Order.

(b) The friction and the tread, respectively, of each of the classes of tire casings and solid tires listed below shall be made from one of the grades of compounds listed in subdivision (a) of said List 7, the appropriate grade of compound to be used for each such respective friction or tread being that hereinbelow specified therefor opposite the description or designation of such class:

Description of product	Compound to be used: Passenger friction	Compound to be used: Tread
PASSENGER FRICTION		
(1) Passenger automobile tires—size 7.50 and larger	B	B
(2) Passenger automobile tires—size 7.00 and smaller	C	B
(3) Airplane tires, 4-ply and less	B	B
(4) Airplane tires, more than 4-ply	A	A
(5) Motorcycle tires, 18" and 19" rims	C	A
(6) Odd size tires, sizes 4.00–12 and 6.50–10	C	C
(7) Industrial pneumatic tires	D	C
(8) Industrial solid tires		A
TRUCK FRICTION		
(1) Truck tires, 17"–24" rims, size 6.50 and smaller	C+	B
(2) Truck tires, 17"–24" rims, size 7.00 to 7.50, inclusive, 8-ply and less, except 7.00–20 8-ply	B	B
(3) Truck tires, 17"–24" rims, size 7.00 to 7.50, inclusive, more than 8-ply	A	B
(4) Truck tires, 17"–24" rims, size 8.25 and larger, 8-ply and less	B	B
(5) Truck tires, 17"–24" rims, size 8.25 and larger, more than 8-ply	A	B
(6) Truck tires, 13"–16" rims, size 6.70 and smaller	C	B
(7) Truck tires, 13"–16" rims, size 7.00 and larger, 8-ply and less	B	B
(8) Truck tires, 13"–16" rims, size 7.00 and larger, more than 8-ply	A	B
(9) Run flat combat tires	A	A

(c) The skid depths of tires with mud and snow type treads shall be as follows:

Tire size:		Actual mold measurements in inches
8.25–10		.585
9.00–13		.62
6.00	15 and 16 inch rims	.50
6.50		.52
7.00		.535
7.50		.56
8.25		.585
9.00		.62
10.00		.645
11.00		.67
6.00	20, 22 and 24 inch rims	.50
6.50		.52
7.00		.535
7.50		.56
8.25		.585
9.00		.62
10.00		.645
11.00		.67
12.00		.70
13.00		.74
14.00		.80

Variations from the above measurements shall be permitted to the extent of .01 inch plus or minus throughout the mold.

(d) The outside diameters of tires with mud and snow type treads shall be as follows:

Tire dimension: Diameter	Section	Outside diameter in inches—Inflated tire: Minimum	Maximum
16" rims	6.00	28.60	28.80
	7.50	31.40	31.60
	9.00	35.40	35.60
	10.00	36.50	36.90
20" rims	7.00	35.60	35.90
	7.50	36.60	36.90
	8.25	38.10	38.40
	9.00	40.10	40.50
	10.00	41.40	41.50
	11.00	42.80	43.50
	12.00	44.20	44.70
	14.00	48.50	48.90
24" rims	14.00	52.50	52.90

(e) Standard tread radii shall be between 80% and 95% of the maximum

cross section width of the Tire and Rim Association's standard tire sections.

(f) None of the specifications contained in subsections (c), (d) and (e) above shall be construed to make any change in present dimensions of airplane tires.

(g) Maximum material volumes of tire tubes for passenger automobile tires and truck tires shall be subject to the limitations for those types of tubes as set forth in subdivision (d) of List 7 attached to this Order.

(h) No tire tube of any of the classes listed below shall be manufactured with a material volume in excess of the volume specified for such class as set forth below opposite the description or designation of such class:

Description of product		Maximum material volume (in cubic inches)
Type	Size	
Combat	6.00-16	65
	7.50-16	120
	9.00-16	190
	7.50-20	190
	8.25-20	190
	9.00-20	220
	10.00-20	250
	10.00-22	275
	11.00-20	318
	12.00-20	370
	14.00-20	525
Lend-Lease Regular	9.00-13	145
	10.50-16	250
	12.00-20	450
	13.50-20	570
Run Flat (Rubber-Bead-Lock)	7.00-18	95
	8.25-10	97
	9.00-16	165
	9.25-16	150
	10.50-16	210
	10.50-20	255
	12.00-20	335
	13.50-20	500

Variations from the above maximum volumes shall be permitted to the extent of minus 3%.

Sizes not specifically set forth shall have maximum volumes proportional to the sizes listed.

(i) *Effective date.* These specifications shall become effective as follows:

(1) With respect to subsections (a) and (b) with the effective date of this Order.

(2) With respect to subsections (c), (d) and (e), at the earliest possible date for each type and size of tire casing specified, depending on length of time required to obtain changed or new molds.

(3) With respect to subsections (g) and (h), not later than March 2, 1942.

List 10—Specifications for the manufacture of fire hose and mill hose. (1) The following specifications (which, with respect to the use of Rubber, are identical with Federal Emergency Alternate Specifications E-ZZ-H-451a) shall apply to the manufacture of fire hose and mill hose.

(2) Fire hose and mill hose shall be manufactured only in the following sizes and the maximum amount of Rubber per 100 feet for each size shall not be greater than the amount specified for each size as follows:

Normal size	Maximum amount of rubber permitted, per 100 feet
1½ inch	4 pounds
2½ inch	7 pounds
3 inch	8.5 pounds
3½ inch	10 pounds

(3) The rubber lining shall be made either from calendered sheets of not less than three plies lap-jointed and vulcanized into one solid body, or from a single ply extruded tube. The lap joints of calendered tubes shall be as small as is consistent with best manufacturing practice.

(4) The rubber lining shall be of a thickness not less than .04 of an inch at any point when measured on specimens buffed just to the point where the fabric impressions left by the jacket are removed.

(5) Each set of hose couplings shall be provided with three rubber gaskets of good quality. One gasket shall fit accurately the swivel of the couplings, and one (not less than ⅛ of an inch thick) shall be placed under the end of each expansion ring. When the coupling is made up snugly, as in service, the gasket in the swivel shall not be compressed to such an extent as to project beyond the inside surface of the coupling.

(6) The hose shall have an internal diameter as shown by a tapered plug gauge of not less than the nominal size of the hose, except that in the case of 2½-inch hose, the internal diameter so measured shall not be less than $2^{9}/_{16}$ inches.

(7) Unless otherwise specified, hose shall be furnished in lengths averaging not less than 50 feet, measured from back to back of couplings and under a pressure of 10 pounds per square inch. No length before sampling shall be less than 48 feet.

(8) The hose with coupings attached shall meet the following hydrostatic proof pressure test requirements without leakage in the hose or at the couplings or breaking any threads in the jacket.

	Numerical requirements for—				
	Single Jacket		Double Jacket		
	1½ in.	2½ in.	1½ in.	2½ in.	3 and 3½ in
Test pressure for initial requirements — pounds per square inch			10	10	10
Test pressure—pounds per square inch	300	300	400	400	400
Test pressure for kink test—pounds per square inch			350	350	350
Elongation at test pressure—maximum percent			8	8	8
Twist to right—maximum degrees per foot			20	12.5	12
Twist to left—maximum degrees per foot			0	0	0
Warp—maximum inches			20	20	20
Rise—maximum inches			0	0	0

The kink test may be required on only one sample per 100 lengths.

A twist to the right is indicated by a clockwise rotation of the coupling, looking from the hose toward the coupling. A twist to the left is indicated by a counter clockwise rotation. A maximum twist to the left of 2 degrees per foot will be permitted while pressure is being raised, but any final twist must be to the right.

Warp is defined as deviation from a straight line.

(9) A three foot sample, when subject to a burst test while lying straight, shall not burst below the pressure specified in the following table:

Kind of hose	Burst pressure (pounds per square inch)
Single jacket	450
Double jacket	600

(10) The hose shall meet the following tests with respect to the rubber lining:

(a) Tensile strength of at least 800 pounds per square inch when tested across the fold.

(b) Ultimate elongation of at least 300%.

(c) Tensile strength, as determined with test pieces ½ inch wide prepared from strips cut transversely across the fold which have been subjected to the action of dry heat of 158 degrees ±2 degrees Fahrenheit for 96 hours, shall be not less than 75% of the strength before heating.

(11) The adhesion of the rubber lining to the jacket shall be such that a weight of 8 pounds suspended from a strip 1½ inches wide will cause separation at a rate not greater than 1 inch per minute. This requirement does not prohibit that construction wherein there is no adhesion between the jacket and lining along the fold, provided the surface over which there is no adhesion is not greater than 35% of the total surface.

PART 976—MOTOR TRUCKS, TRUCK TRAILERS AND PASSENGER CARRIERS

Amendment No. 1 to General Limitation Order No. L-3 To Restrict the Production of Light Motor Trucks

Section 976.3[1] (*General Limitation Order L-3*) issued September 13, 1941, paragraph (a) (1) (defining "Light Motor Truck") is hereby amended to read as follows:

(a) *Definitions.* • • •

(1) "Light motor truck" means a complete motor truck or truck tractor with a maximum gross vehicle weight rating of less than 9,000 pounds (as certified to the War Production Board by the Producer's Engineering Department and as specified in a published rating in effect prior to August 1, 1941) or the chassis therefor.

• • • • •

This amendment shall take effect immediately. (P.D. Reg. 1, amended December 23, 1941 6 F.R. 6680; W.P.B. CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1300—PROCEDURE

PROCEDURAL REGULATION NO. 1—PROCEDURE FOR THE ISSUANCE, PROTEST, AND AMENDMENT OF MAXIMUM PRICE REGULATIONS

Sec.

1300.1 Definitions.

ISSUANCE OF MAXIMUM PRICE REGULATIONS

1300.2 Investigation prior to issuance.
1300.3 Price hearing prior to issuance.
1300.4 Notice of pre-issuance hearing.
1300.5 Conduct of pre-issuance hearing.
1300.6 Statement of considerations.
1300.7 Notice of provisions of a maximum price regulation.
1300.8 Effective date.

PROTESTS

1300.9 Right to protest.
1300.10 Action by representative.
1300.11 Time and place for filing protests.
1300.12 Form of protest.
1300.13 Assignment of docket number.
1300.14 Contents of protest.
1300.15 Affidavits or other written evidence in support of protest.
1300.16 Submission of brief by protestant.
1300.17 Amendment of protest and presentation of supplemental evidence.
1300.18 Protest and evidential material not conforming to the foregoing rules.
1300.19 Action by the administrator on protest.
1300.20 Statements in support of maximum price regulation.
1300.21 Inclusion of material in the record by the Administrator.
1300.22 Consolidation of protests.

ORAL HEARINGS ON PROTESTS

1300.23 Nature of oral hearing.
1300.24 Conference prior to oral hearing.
1300.25 Continuance or adjournment of oral hearing.
1300.26 Conduct of the oral hearing.

1300.51 Service of Papers.
1300.52 Secretary; office hours.
1300.53 Photostatic copies of material in the administrative record.
1300.54 Former employee not to be representative.
1300.55 Amendment of this regulation.

EFFECTIVE DATES

1300.56 Effective date of Procedural Regulation No. 1.

Pursuant to the authority of sections 201 (d) and 203 (a) of the Emergency Price Control Act of 1942 (Public No. 421, 77th Cong., 2d Sess., Jan. 30, 1942), the following Rules are hereby prescribed for the issuance, protest and amendment of maximum price regulations, price schedules, and temporary maximum price regulations, and for adjustment or exception pursuant thereto and interpretation thereof:

§ 1300.1 *Definitions.* As used in this Regulation (§§ 1300.1 to 1300.56 inclusive) unless the context otherwise requires, the terms:

(a) "Act" means the Emergency Price Control Act of 1942.

(b) "Administrator" means the Price Administrator of the Office of Price Administration or such person as he may appoint or designate to carry out any of the duties delegated to him by the Act.

(c) "FEDERAL REGISTER" means the publication provided for by the Act of July 26, 1935 (49 Stat. 500), as amended.

(d) "Maximum price regulation" means any regulation or order establishing a maximum price or prices as defined in section 302 (i) of the Act, except that the term shall not include a "price schedule" or "temporary maximum price regulation" as defined below.

(e) "Price schedule" means any price schedule establishing a maximum price or prices issued by the Administrator of the Office of Price Administration or the Administrator of the Office of Price Administration and Civilian Supply, prior to February 11, 1942, the date upon which the Administrator took office under the Act.

(f) "Temporary maximum price regulation" means any temporary regulation or order, issued pursuant to section 2 (a) of the Act, establishing as a maximum price or prices the price or prices prevailing with respect to any commodity or commodities within five days prior to the date of issuance of such temporary regulation or order.

(g) "Date of issuance", with respect to a maximum price regulation, means the date on which such maximum price regulation is filed with the Division of the Federal Register.

(h) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(i) "Protestant" means a person subject to any provision of a maximum price regulation or price schedule who files a protest against such provision in accordance with section 203 (a) of the Act.

(j) "Price hearing" means any formal or informal opportunity to present evidence which may be ordered by the Administrator in connection with any action or proceeding related to price control.*

*1300.1 to 1300.56, inclusive, issued pursuant to Pub. No. 421, 77th Cong., 2nd Sess.

ISSUANCE OF MAXIMUM PRICE REGULATIONS

§ 1300.2 *Investigation prior to issuance.* A maximum price regulation may be issued by the Administrator after such studies and investigations as he deems necessary or proper. Before issuing a maximum price regulation the Administrator shall, so far as practicable, advise and consult with representative members of the industry which will be affected by such regulation.*

§ 1300.3 *Price hearing prior to issuance.* Whenever the Administrator deems it necessary or proper that a price hearing be held prior to the issuance of a maximum price regulation, he may provide for such hearing in accordance with §§ 1300.1 and 1300.5 of this Regulation (§§ 1300.1 to 1300.56, incl.).*

§ 1300.4 *Notice of pre-issuance hearing.* Notice of any price hearing ordered prior to the issuance of a maximum price regulation shall be given by publication of such notice in the FEDERAL REGISTER, and may be supplemented by notice given in any other appropriate manner. The notice shall state the time and place of the price hearing and shall contain an appropriate indication of the purposes of such hearing.*

§ 1300.5 *Conduct of pre-issuance hearing.* A price hearing held prior to the issuance of a maximum price regulation shall be conducted in such manner, consistent with the need for expeditious action, as will permit the fullest possible presentation of evidence by such persons as are, in the judgment of the Administrator, best qualified to provide information with respect to matters considered at the hearing or most likely to be seriously affected by action which may be taken as a result of the hearing.*

§ 1300.6 *Statement of considerations.* Every maximum price regulation shall be accompanied by a statement of the considerations involved in its issuance. Such statement may include economic data and other facts of which the Administrator has taken official notice and facts found by the Administrator as a result of action taken under section 202 (a) of the Act.*

§ 1300.7 *Notice of provisions of a maximum price regulation.* Notice of the provisions of a maximum price regulation shall be given by filing such regulation with the Division of the Federal Register. As soon as possible after the filing of such regulation, the Administrator shall make copies thereof available to the press.*

§ 1300.8 *Effective date.* A maximum price regulation shall become effective five days after the date of its issuance, unless an earlier or later date is specified therein.*

PROTESTS

§ 1300.9 *Right to protest.* Any person subject to any provision of a maximum price regulation may file a protest against such provision in the manner set forth below. A person is, for the purposes of this Regulation, (§§ 1300.1 to 1300.56, incl.) subject to a provision of a maximum price regulation only if such provision prohibits or requires action by him. Any protest filed by a person not subject to the provision protested may be dismissed by the Administrator.*

§ 1300.10 *Action by representative.* Any action which by this Regulation (§§ 1300.1 to 1300.56, incl.) is required of, or permitted to be taken by, a protestant may, unless otherwise expressly stated, be taken on his behalf by any person whom the protestant has by written power of attorney authorized to represent him. Such power of attorney signed by the protestant, shall be filed with the protest.*

§ 1300.11 *Time and place for filing protests.* Any protest against a provision of a maximum price regulation shall be filed with the Secretary, Office of Price Administration, Washington, D. C., within a period of 60 days after the date of issuance of such regulation, regardless of the effective date prescribed therein: *Provided, however,* That any protest based solely upon grounds arising after the expiration of 60 days after the date of issuance of a maximum price regulation may be filed at any time after the grounds for such protest arise.*

§ 1300.12 *Form of protest.* Every protest shall contain, upon the first page thereof, the number and the date of issuance of the maximum price regulation against a provision of which the protest is made. One original and four copies of the protest and of all accompanying documents and briefs shall be filed. Each copy shall be printed, typewritten, mimeographed or prepared by a similar process, and shall be plainly legible. Copies shall be double spaced, except that quotations shall be single-spaced and indented.*

§ 1300.13 *Assignment of docket number.* Upon receipt of a protest it shall be assigned a docket number, of which the protestant shall be notified, and all further papers filed in the proceedings shall contain on the first page thereof the docket number so assigned and the number and date of issuance of the maximum price regulation protested.*

§ 1300.14 *Contents of protest.* Every protest shall set forth the following:

(a) The name and the post office address of the protestant, the nature of his business, and the manner in which the protestant is subject to the maximum price regulation protested.

(b) The name and post office address of the person filing the protest on behalf of the protestant and the name and post office address of the person to whom all communications from the Office of Price Administration relating to the protest shall be sent.

(c) A clear and concise statement of all objections raised by the protestant against the provision or provisions protested, each such objection to be separately stated and numbered.

(d) A clear and concise statement of all facts alleged in support of the objections.

(e) A statement of the relief requested by the protestant including, if the protestant requests modification of a provision of the maximum price regulation, the specific changes which he seeks to have made in the provision.

(f) In cases where the protest is filed on grounds arising after the expiration of 60 days after the issuance of the maximum price regulation, a clear and concise statement of facts showing the time when such grounds arose.

(g) A statement, signed and sworn to by the protestant personally, that the protest and the documents filed therewith are prepared in good faith and that the facts alleged are true to the best of his knowledge, information, and belief. The protestant shall specify which of the facts alleged are known to him to be true and which are alleged on information and belief.*

§ 1300.15 *Affidavits or other written evidence in support of protest.* Every protestant shall file in conjunction with his protest the following:

(a) Affidavits setting forth in full all the evidence, the presentation of which is subject to the control of the protestant, upon which the protestant relies in support of the facts alleged in the protest. Each such affidavit shall state the name, post office address, and occupation of the affiant; his business connection, if any, with the protestant; and whether the facts set forth in the affidavit are stated from personal knowledge or on information and belief. In every instance, the affiant shall state in detail the sources of his information.

(b) A statement by the protestant in affidavit form setting forth in detail the nature and sources of any further evidence, not subject to his control, upon which he believes he can rely in support of the facts alleged in his protest.

(c) If necessary, a further statement setting forth the nature and sources of any evidence which the protestant is unable to present solely because of the time limited for the filing of protests and supporting material. Such further statement may contain a request for an opportunity to present such further evidence, which request shall state specifically the amount of time needed for preparation of such evidence.*

§ 1300.16 *Submission of brief by protestant.* The protestant may file with his protest and accompanying evidential material a brief in support of the objections set forth in the protest. Such brief shall be submitted as a separate document, distinct from the protest and evidential material.*

§ 1300.17 *Amendment of protest and presentation of supplemental evidence.* (a) Within a period of 60 days after the issuance of the maximum price regulation against a provision of which his protest is filed or, in the case of a protest properly filed more than 60 days after the issuance of a maximum price regulation, within 15 days after such protest is filed, the protestant may amend his protest or the affidavits and briefs submitted therewith, or may add to such material.

(b) After the time prescribed in section (a) of this § 1300.17 a protestant may be granted permission to amend his protest or to present further evidence in connection therewith, when, in the judgment of the Administrator, such permission will not unduly delay the completion of proceedings on the protest.

(c) No amendment which adds a new ground of protest will be permitted.*

§ 1300.18 *Protest and evidential material not conforming to §§ 1300.12, 1300.14 and 1300.15.* In any case where a protest or accompanying evidential material does not conform, in a substantial respect, to §§ 1300.12, 1300.14 and 1300.15 of this Regulation (§§ 1300.1 to 1300.56, incl.), the Administrator may dismiss such protest.*

§ 1300.19 *Action by the Administrator on protest.* (a) Within a reasonable time after the filing of any protest in accordance with §§ 1300.12, 1300.14 and 1300.15, but in no event more than 30 days after such filing or 90 days after the issuance of the maximum price regulation against a provision of which the protest is filed, whichever occurs later, the Administrator shall:

(1) grant or deny such protest in whole or in part;

(2) notice such protest for oral hearing, to be held in accordance with the provisions of §§ 1300.23 to 1300.31, inclusive, of this Regulation (§§ 1300.1 to 1300.56, incl.); or

(3) provide an opportunity to present further evidence in connection with such protest. Within a reasonable time after the presentation of such further evidence, the Administrator may notice such protest for oral hearing in accordance with subparagraph (2) of this section.

(b) Notice of any such action taken by the Administrator shall promptly be served upon the protestant.

(c) Where the Administrator has ordered a hearing on a protest or has provided an opportunity for the presentation of further evidence in connection therewith, he shall, within a reasonable time after the completion of such hearing or the presentation of such evidence, grant or deny such protest in whole or in part.*

§ 1300.20 *Statements in support of maximum price regulation.* (a) Any person affected by the provisions of a maximum price regulation may at any time after the issuance of such regulation submit to the Administrator a statement in support of any such provision or provisions. Such statement shall include the name and post office address of such person, the nature of his business, and the manner in which such person is affected by the maximum price regulation in question, and may be accompanied by affidavits and other data. Each such supporting statement shall conform to the requirements of § 1300.12 of this Regulation (§§ 1300.1 to 1300.56, inclusive).

(b) In the event that a protest has been, or is subsequently, filed to a provision of a maximum price regulation in support of which a statement has been submitted, the Administrator may include such statement in the record of the proceedings taken in connection with such protest. If such supporting statement is incorporated into the record, and is not so incorporated at an oral hearing, copies of such supporting statement shall be served upon the protestant, and the protestant shall be given a reasonable opportunity to present evidence in rebuttal thereof.*

§ 1300.21 *Inclusion of material in the record by the Administrator.* The Administrator shall include in the record of the proceedings on the protest such evidence, in the form of affidavits or otherwise, as he deems appropriate in support of the provision against which the protest is filed. When such evidence is incorporated into the record, and is not so incorporated at an oral hearing, copies thereof shall be served upon the protestant, and the protestant shall be given a reasonable opportunity to present evidence in rebuttal thereof.*

§ 1300.22 *Consolidation of protests.* Whenever necessary or appropriate for the full and expeditious determination of common questions raised by two or more protests the Administrator may consolidate such protests.*

ORAL HEARINGS ON PROTESTS

§ 1300.23 *Nature of oral hearing.* In the event that the Administrator orders an oral hearing in connection with a protest, notice shall be served on the protestant not less than five days prior to such hearing. The time and place of the hearing shall be stated in the notice.*

§ 1300.24 *Conference prior to oral hearing.* At any time prior to the commencement of the oral hearing, the Administrator may request the protestant to appear at a conference to consider: (a) the simplification of issues; (b) the possibility of obtaining stipulations of fact and of documents which will avoid unnecessary proof; and (c) such other

matters as may expedite the conduct of the oral hearing. No transcript of such conference shall be kept, but the Administrator shall incorporate in the record of the proceedings any written stipulations or agreements made at, or as a result of, the conference. If the circumstances are such that an oral conference is impracticable, the Administrator may direct that such negotiations be conducted by correspondence.*

§ 1300.25 *Continuance or adjournment of oral hearing.* The oral hearing shall be held at the time and place specified by the notice of hearing but may be continued or adjourned to a later day or to a different place. Notice of such adjournment or continuance may be by announcement at the oral hearing.*

§ 1300.26 *Conduct of the oral hearing.* (a) The oral hearing shall be conducted by the Administrator or such officer or employee of the Office of Price Administration (hereinafter referred to as the "presiding officer") as the Administrator may appoint or designate for that purpose. Any such appointment or designation may be made or revoked by the Administrator at any time.

(b) The oral hearing shall be conducted in such manner as will permit the protestant to present evidence and argument to the fullest extent compatible with expeditious decision of the issues raised by the protest. To this end:

(1) The rules of evidence prevailing in courts of law or equity shall not be controlling;

(2) The presiding officer, having due regard to the need for expeditious decision and for fair treatment to all protestants, may restrict oral argument and the examination and cross-examination of witnesses: *Provided, however,* That in no event shall this section be taken to limit the right of any protestant to submit affidavits or other written evidence or arguments.*

§ 1300.27 *Filing of briefs.* The presiding officer shall allow the protestant to file briefs or written arguments within such time as he shall designate.*

§ 1300.28 *Subpoenas.* (a) Applications for subpoenas, when made prior to the oral hearing, may be filed by the protestant with the Secretary. The Administrator may grant or deny the application or refer it to the presiding officer appointed or designated under § 1300.26, who may thereafter grant or deny the application. Applications for subpoenas made during the oral hearing shall be submitted to the presiding officer, who may grant or deny such application.

(b) All applications for subpoenas shall specify the name of the witness and the nature of the facts to be proved by him and, if calling for the production of documents, shall specify them with such particularity as will enable them to be identified for purposes of production.

(c) Service of a subpoena upon a person named therein shall be made by delivering a copy thereof to such person and by tendering to him the fees and mileage specified in section 202 (f) of the Act. When the subpoena is issued at the instance of the Administrator fees and mileage need not be tendered.*

§ 1300.29 *Witnesses.* Witnesses summoned before the presiding officer at any protest hearing shall be paid the fees and mileage specified by section 202 (f) of the Act. Witness fees and mileage shall be paid by the person at whose instance the witness appears.*

§ 1300.30 *Contemptuous conduct.* Contemptuous conduct at any oral hearing shall be ground for exclusion from the hearing. The refusal of a witness to answer any question which has been ruled to be proper shall, in the discretion of the presiding officer, be ground for the striking out of all testimony previously given by such witness on related matters.*

§ 1300.31 *Stenographic report of oral hearing.* A Stenographic report of the oral hearing shall be made, a copy of which shall be available for inspection during business hours in the office of the Secretary, Office of Price Administration, Washington, D. C.*

OPINION AND TRANSCRIPT

§ 1300.32 *Opinion denying protest in whole or in part.* In the event that the Administrator denies any protest in whole or in part, he shall inform the protestant of the grounds upon which such decision is based, and of any economic data and other facts of which the Administrator has taken official notice.*

§ 1300.33 *Treatment of protest as petition for amendment or for adjustment or exception.* Any protest filed against a provision of a maximum price regulation may, in the discretion of the Administrator, be treated not only as a protest but also as a petition for amendment of the regulation protested, or as a petition for adjustment or exception pursuant thereto, when the facts produced in connection with the protest justify such treatment.*

§ 1300.34 *Transcript for judicial review.* The transcript for judicial review shall include: (a) the maximum price regulation against a provision of which the protest was filed; (b) the statement of considerations accompanying such regulation; (c) the protest; (d) a statement setting forth, as far as practicable, the economic data and other facts of which the Administrator has taken official notice; and (e) such other portions of the proceedings in connection with the protest as are material under the complaint.*

PETITION FOR AMENDMENT

§ 1300.35 *Right to file petition.* A petition for amendment may be filed: (a) by any person subject to any provision of a maximum price regulation who has failed to file a proper protest within the time specified in § 1300.11; (b) by any other person subject to any provision of a maximum price regulation who proposes an amendment thereof; or (c) by any person who desires modification in any provision of a maximum price regulation by which he is affected but to which he is not subject within § 1300.9 of this Regulation (§§ 1300.1 to 1300.56 inclusive).*

§ 1300.36 *Method of filing, form, and contents.* A petition for amendment shall be filed with the Secretary, Office of Price Administration, Washington, D. C., and shall conform in all respects to the requirements set forth in § 1300.12 of this Regulation. (§§ 1300.1 to 1300.56 inclusive) The petition shall state the name and post office address of the petitioner, shall specify the manner in which the petitioner is affected by the provision of the maximum price regulation involved, and shall include a specific statement of the particular amendment desired and the facts which make that amendment necessary or appropriate. The petition may be accompanied by affidavits setting forth the evidence upon which the petitioner relies in support of the facts alleged in his petition.*

§ 1300.37 *Action by the Administrator on petition.* In the consideration of any petition for amendment the Administrator may afford to the petitioner and to other persons likely to have information bearing upon such proposed amendment, or likely to be affected thereby, an opportunity to present evidence or argument in support of, or in opposition to, such proposed amendment.*

PETITION FOR ADJUSTMENT OR EXCEPTION

§ 1300.38 *Right to file petition.* A petition for adjustment or exception may be filed by any person subject to any provision of a maximum price regulation who requests such adjustment or exception pursuant to a provision of the maximum price regulation authorizing such action.*

§ 1300.39 *Method of filing, form, and contents.* A petition for adjustment or exception shall be filed with the Secretary, Office of Price Administration, Washington, D. C. and shall conform in all respects to the requirements set forth in § 1300.12 of this Regulation. The petition shall state the name and post office address of the petitioner, and shall specify the manner in which the petitioner is affected by the provision of the maximum price regulation involved and the facts which justify his special classification pursuant to that regulation. The petition shall be accompanied by affidavits setting forth the evidence upon which the petitioner relies in support of the fact alleged in his petition.*

§ 1300.40 *Action by the Administrator on petition.* In the consideration of any petition for adjustment or exception the Administrator may afford to the petitioner such opportunity to present evidence or argument in support of the petition as is consistent with expeditious determination of the issues raised thereby.*

§ 1300.41 *Protest of denial of petition.* Any person whose petition for adjustment or exception is denied by the Administrator may, within 60 days after issuance of the order denying such petition, file a protest against such order. Such protest shall be filed and determined in accordance with the provisions of §§ 1300.9 to 1300.34, inclusive, of this Regulation (§§ 1300.1 to 1300.56, inclusive).*

PRICE SCHEDULES

§ 1300.42 *Effective date of Price Schedule.* Every price schedule issued by the Administrator of the Office of Price Administration or the Office of Price Administration and Civilian Supply prior to February 11, 1942, shall from such date have the same effect as if issued as a maximum price regulation under section 2 of the Act until such price schedule is superseded or withdrawn.*

§ 1300.43 *Reprinting of Price Schedules.* Every price Schedule shall be reprinted in the FEDERAL REGISTER within 10 days after February 11, 1942: *Provided, however,* That such price schedule need not be accompanied by a statement of the considerations involved in its issuance.*

§ 1300.44 *Protest of Price Schedule.* (a) Any provision of a price schedule shall be subject to protest within a period of 60 days after February 11, 1942: *Provided, however,* That any protest based solely on grounds arising after the expiration of such 60 days may be filed at any time after the grounds for such protest arise.

(b) A protest to a provision of a price schedule shall be filed, considered, and determined in the same manner as is provided for the protest of maximum price regulations by §§ 1300.9 to 1300.34 inclusive, of this Regulation (§§ 1300.1 to 1300.56, inclusive).*

§ 1300.45 *Amendment of Price Schedule and adjustment of exception pursuant thereto.* Sections 1300.35 to 1300.37, and 1300.38 to 1300.41, of this Regulation (§§ 1300.1 to 1300.56, inclusive), applicable to maximum price regulations, shall be applicable to petitions for amendment of, or adjustment or exception pursuant to, any price schedule.*

TEMPORARY MAXIMUM PRICE REGULATIONS

§ 1300.46 *Effective date of temporary maximum price regulation.* A temporary maximum price regulation shall be effective from the date of the filing of such regulation with the Division of the Federal Register, unless a different date is specified in such regulation.*

§ 1300.47 *Protest of temporary maximum price regulation.* A temporary maximum price regulation shall be subject to protest in the manner provided for the protest of maximum price regulations by §§ 1300.9 to 1300.34, inclusive, of this Regulation (§§ 1300.1 to 1300.56, incl.)*

§ 1300.48 *Amendment of temporary maximum price regulation and adjustment or exception pursuant thereto.* Sections 1300.35 to 1300.37, and 1300.38 to 1300.41, of this Regulation, (§§ 1300.1 to 1300.56, incl.) applicable to maximum price regulations, shall be applicable to petitions for amendment of, or adjustment or exception pursuant to, any temporary maximum price regulation.*

INTERPRETATIONS

§ 1300.49 *Interpretations not to be given orally.* No interpretation of a maximum price regulation, price schedule, or temporary maximum price regulation shall be given except in writing, signed by the Administrator or such person as he may appoint or designate to make such interpretations.*

§ 1300.50 *Requests for interpretation; form and contents.* Any person desiring an interpretation of a maximum price regulation, price schedule, or temporary maximum price regulation may make a request in writing for such interpretation. Such request shall set forth in full the factual situation out of which the interpretative question arises and shall state the names and post office addresses of all persons involved. No interpretation shall be given with respect to any hypothetical situation or in response to any hypothetical question.*

MISCELLANEOUS

§ 1300.51 *Service of papers.* Notices, orders and other process and papers may be served personally or by leaving a copy thereof at the principal office or place of business of the person to be served; or by registered mail, or by telegraph. When service is made personally or by leaving a copy at the principal office or place of business, the verified return of the person serving or leaving the copy shall be proof of service. When service is by registered mail or telegraph the return post office receipt or telegraph receipt shall be proof of service.*

§ 1300.52 *Secretary; office hours.* The office of the Secretary, Office of Price Administration, Washington, D. C., shall be open, on week days, from 9 A. M. until 5 P. M. and on Saturdays from 9 A. M. until 1 P. M. Any person desiring to file any papers, or to inspect any documents filed with the Secretary, at any time other than the regular office hours stated, may file a written application with the Secretary requesting permission therefor.*

§ 1300.53 *Photostatic copies of material in the administrative record.* Photostatic copies of any material included in the record of proceedings on any protest may be purchased by the protestant or other interested person at 10 cents per photostatic copy of each page.*

§ 1300.54 *Former employee not to be representative.* No former officer or employee of the Office of Price Administration shall, within two years after the termination of his employment, be permitted to act as agent, attorney, or representative of any person in connection with any protest, petition for amendment, petition for adjustment or exception, or other proceeding before the Office of Price Administration.*

§ 1300.55 *Amendment of this Regulation (§§ 1300.1 to 1300.56, incl.).* Any provision of this Regulation (§§ 1300.1 to 1300.56, incl.) may be amended or rescinded by the Administrator at any time. Such amendment or rescission shall be published in the FEDERAL REGISTER and shall take effect upon the date of its publication, unless otherwise specified therein.*

§ 1300.56 *Effective date of Procedural Regulation No. 1.* This Regulation (§§ 1300.1 to 1300.56, incl.) shall become effective February 12, 1942.*

Issued this 12th day of February 1942.

LEON HENDERSON,
Price Administrator.

PART 1307—RAW MATERIALS FOR COTTON TEXTILES

AMENDMENT NO. 7 TO PRICE SCHEDULE NO. 7—COMBED COTTON YARNS AND THE PROCESSING THEREOF

Corrections

The word "charged" should read "changed" in the second line of § 1307.3 (b) on page 708 of the issue for Wednesday, February 4, 1942.

Under "Cotton content" in § 1307.8 (g) on page 709, "25s to 30s, inclusive" should be followed by "$1^{5}/_{32}$"".

Footnote 10 under the table headed "Plied Twist" on page 711 has "pilied" instead of "plied" in the last line.

The first item of the second table in the third column on page 711 should read "20s and below".

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. B-196]

IN THE MATTER OF B. A. HOWARD, (DEER CREEK COAL COMPANY), CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

1. Under the provisions of the Bituminous Coal Act of 1937 (the "Act"), district boards are authorized in appropriate cases to file complaints of violations of the Act, the Bituminous Coal Code (the "Code") and the rules and regulations of the Bituminous Coal Division (the "Division").

2. The Division on July 30, 1941, referred to District Board No. 20 information in its possession bearing on whether or not violations of the Act, the Code and rules and regulations thereunder have been committed by B. A. Howard, the Code member above-named (hereinafter referred to as the "Code member") who operates the Deer Creek Mine, Mine Index No. 131, located in Emery County, Utah, Subdistrict 1 of District No. 20 in connection with:

(a) the allowance of discounts from applicable minimum prices to K. B. Cornia, a registered distributer, No. 2209, located at Salt Lake City, Utah, on approximately 101 tons of coal produced at said mine which the Code member sold in less than railroad carload lots during the period of October 1, 1940, to February 14, 1941, to said registered distributor for resale, resulting in a violation of Rule 1 of section III of the Marketing Rules and Regulations; and

(b) the extension of the due date of the invoices for the coal referred to in 2 (a) hereof beyond the 20th day of the month following the month in which shipment was made without charging the buyer, K. B. Cornia, interest thereon from and after the due date thereof at the rate of not less than 5 per cent per annum, resulting in violations of section

4 II (i) of the Act; Rule 1 (A) (I) and (M) of section VII; and Rules 6 and 7 of section XIII of the Marketing Rules and Regulations; and

(c) the failure to file with the Division's field office for District No. 20, copies of spot orders received from K. B. Cornia for the coal referred to in 2 (a) hereof, within 10 days from the date of acceptance, of such orders respectively, resulting in violations of Order 14, Paragraph 5, dated July 15, 1937, issued pursuant to section 4 Part II (a) of the Act by the National Bituminous Coal Commission and adopted by the Division on July 1, 1939;

3. By letter dated September 24, 1941, the Division notified said Board that unless it took action on this matter within fifteen (15) days from the date of said notification, the Division would take such action in lieu of the Board, if it deemed it to be appropriate.

4. District Board No. 20 has not taken any action on this matter.

5. Section 6 (a) of the Act provides in part that in the event that a district board shall fail for any reason to take action authorized or required by this Act, then the Division may take such action in lieu of the District Board.

6. District Board No. 20 having failed to take action as authorized or required by the Act on the matters hereinbefore described, the Division finds it necessary in the proper administration of the Act to take action thereon in lieu of the Board, as in this Notice of and Order for Hearing provided, pursuant to section 6 (a) and other pertinent provisions of the Act for the purpose of determining:

(a) whether or not the Code member has wilfully violated section 4 II (i) of the Act and Part II (i) of the Code; Rule 1, section III; Rule 1 (A), (I) and (M), section VII; and Rules 6 and 7, Section XIII, of the Marketing Rules and Regulations, and Order 14, Paragraph 5, dated July 15, 1937, issued pursuant to section 4, Part II (a) of the Act, by the National Bituminous Coal Commission and adopted by the Bituminous Coal Division on July 1, 1939; and

(b) whether or not in the event that the Code member is found to have so violated the Act, the Code, and rules and regulations thereunder, an order should be entered revoking the Code membership of B. A. Howard, or directing B. A. Howard to cease and desist from violating the Act, the Code, and the rules and regulations thereunder.

Now, therefore, it is hereby ordered, That a hearing pursuant to sections 4 II (j), 5 (b), and 6 (a), and other pertinent provisions of the Act to determine whether or not the aforementioned Code member has committed the violations in the respects heretofore described and whether or not the Code membership of said Code member should be revoked or an order should be entered directing the Code member to cease and desist from violating the Act and the Code and rules and regulations of the Division thereunder be held on March 14, 1942, at 10 a. m., at a hearing room of the Division at the Federal Court House, Price, Utah.

It is further ordered, That Scott A. Dahlquist or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, compel their attendance, take evidence, require the production of any books, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time and to such places as he may direct by announcement at said hearing or any adjourned hearing, or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions, and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to section 4 II (j) and 5 (b) of the Act may file a petition for intervention not later than five (5) days before the date set for hearing herein.

Notice is hereby given that answer setting forth the position of the Code member with reference to the matters hereinbefore described must be filed with the Division at its Washington Office or with one of the Statistical Bureaus of the Division within twenty (20) days after date of service of a copy hereof on the Code member; and that any failure to file an answer within such period, unless otherwise ordered shall be deemed to be an admission by the Code member of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: February 10, 1942.

PETITION OF DISTRICT BOARD NO. 23 FOR PERMISSION TO CODE MEMBERS TO GRANT MOISTURE ALLOWANCES FROM THE EFFECTIVE MINIMUM PRICES FOR CERTAIN WASHED OR WET SCREENED COALS, FOR SHIPMENT BY TRUCK, PRODUCED IN DISTRICT NO. 23

NOTICE OF AND ORDER FOR HEARING

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on March 6, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW, Washington, D. C. On such day the Chief of the Records Section in room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Floyd McGown or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before February 28, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petition of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 23 for permission to code members to grant moisture allowances not exceeding 3% of and from the effective minimum prices for the washed or wet screened coals with top sizes not exceeding 2" in Size Groups 12 through 18, and 21 through 25, for shipment by truck, produced in District No. 23, and for the amendment of the Schedule of Effective Minimum Prices for District No. 23 for All Shipments by inserting therein a price exception providing for the granting of such allowances.

Dated: February 10, 1942.

PETITION OF DISTRICT BOARD NO. 10 FOR THE REVOCATION OF RELIEF GRANTED IN DOCKET NO. A-450 WHICH ESTABLISHED PERMANENT PRICE CLASSIFICATIONS AND MINIMUM PRICES IN SIZE GROUPS 17 THROUGH 25 FOR THE COALS OF THE MINES IN PRICE GROUP NO. 20 IN DISTRICT NO. 10, FOR ALL SHIPMENTS EXCEPT TRUCK

NOTICE OF AND ORDER FOR HEARING

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on March 6, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW, Washington, D. C. On such day the Chief of the Records Section in room 502 will advise as to the room where such hearing will be held.

It is further ordered, That D. C. McCurtain or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before March 5, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petition of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 10 for the revocation of relief granted in Docket No. A-450 which established permanent price classifications and minimum prices in Size Groups 17 through 25 for the coals of the mines in Price Group No. 20 in District No. 10, for all shipments except truck.

IN THE MATTER OF HOWARD COAL & COKE COMPANY, INC., REGISTERED DISTRIBUTOR, REGISTRATION NO. 4541, RESPONDENT

NOTICE OF FILING APPLICATION FOR DISPOSITION OF PROCEEDING WITHOUT FORMAL HEARING

Notice is hereby given that the Howard Coal & Coke Company, Inc., Registered Distributor, Registration No. 4541, a corporation having its principal place of business at 6th Street and 2nd Avenue, Brooklyn, New York, being the respondent in the above-entitled matter, filed an application dated January 23, 1942, with the Bituminous Coal Division on January 27, 1942, pursuant to § 301.132 of the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division for the Disposition Without Formal Hearing of Compliance Proceedings.

In said application respondent admits that it purchased 1457.75 tons of 2" N/S from the Forks Coal Mining Company, a code member, which coal was produced at said code member's Hughes No. 11 Mine, Mine Index No. 219, District No. 1, and paid $1.85 per net ton to the said code member which price was below the effective minimum f. o. b. mine price of $2.10 per net ton for such coal.

The respondent further admits that the aforesaid coal was purchased in carload lots and resold in truckload lots after being physically handled by the respondent, such resale being made by respondent acting in the capacity of a retailer.

The respondent agrees to restore to code members or others entitled thereto the amounts unlawfully accepted by respondent as discounts or sales commissions on the transactions involving the aforesaid coal, and consents to the entry of an order revoking or suspending its registered distributor's Certificate No. 4541 in connection with the alleged violations of section 4 II (h) of the Act and paragraph (a) of the Distributor's Agreement, as set forth in the Notice of and Order for Hearing, as amended, in the above-entitled proceeding.

Interested parties may file within fifteen (15) days from the date of this Notice recommendations or requests for informal conferences with respect to the above-described application.

IN THE MATTER OF WALTER V. BEISSER, DOING BUSINESS AS TEN X COAL COMPANY, DEFENDANT

NOTICE OF FILING APPLICATION FOR DISPOSITION OF PROCEEDING WITHOUT FORMAL HEARING

Notice is hereby given that Walter V. Beisser, doing business as Ten X Coal Company, Code member, District 4, defendant in the above-entitled matter, on January 14, 1942 filed an application dated January 7, 1942, pursuant to § 301.132 of the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division for the Disposition Without Formal Hearing of Compliance Proceedings.

In said application, the defendant,

1. Admits selling and delivering during the months of January 1941 through June 1941, 166.7 tons of 4" lump coal to City Coal Co., Marion, Ohio, 68.9 tons of 2 x 4" egg coal to Ideal Electric Company, Mansfield, Ohio, 116.8 tons of 4" lump coal to Mansfield Transfer Company, Mansfield, Ohio, 17.1 tons of 4" lump coal to Marion Metal Products Company, Marion, Ohio, 71.1 tons of ¼" x 2" nut coal, 52.1 tons of 2 x 4" egg coal, 362.7 tons of 1¼" x 4" egg coal and 322.8 tons of run of mine coal, to Pittsburgh Plate Glass Company, Fultonham, Ohio, in violation of section 4 II (g) of the Bituminous Coal Act of 1937 (the "Act"), the Bituminous Coal Code (the "Code"), the Schedule of Effective Minimum Prices for District No. 4, for Truck Shipments (the "Schedule") and Price Instruction No. 6 (the "Price Instruction") contained in said Schedule; and

2. Consents to the entry of an Order revoking his membership in the Code, and to the imposition of a tax of $1,052.74 for the admitted violations of the Act, the price provisions of the Act and Code, the Schedule and Price Instruction, and agrees to pay such tax as a condition to the restoration of membership in the Code.

Interested parties desiring to do so may within fifteen (15) days from the date of this Notice file recommendations or requests for informal conferences in respect to the above-described application.

DEPARTMENT OF LABOR.

Division of Public Contracts.

AMENDMENT TO DETERMINATION OF PREVAILING MINIMUM WAGES IN WOOL TROUSERS BRANCH OF UNIFORM AND CLOTHING INDUSTRY

NOTICE OF HEARING

All interested parties are hereby notified that a hearing will be held before the Public Contracts Board in Room 3135, Department of Labor Building, Washington, D. C., commencing at 10 a. m. on Thursday, February 19, 1942 on the petition of the Amalgamated Clothing Workers of America that the Secretary of Labor amend the determination of January 25, 1941 made under the provisions of section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Sup. III 35), otherwise known as the Walsh-Healey Public Contracts Act, for the wool trousers branch of the uniform and clothing industry by finding that the prevailing minimum wage is 60 cents an hour with a 20 percent tolerance for auxiliary workers at a minimum wage of 40 cents an hour.

Auxiliary workers are understood to be workers engaged in the following or similar occupations:

Bundle boys and floor boys (or girls).
Pairers and matchers.
Fitters' helpers and thread markers.
Examiners' helpers and brushers.
Finishers.
Bushelwomen.
Cleaning and basting pullers.
Boxers, stampers, and labelers.

Interested parties may file briefs for or against the adoption of the proposal or may recommend the substitution of such rate as they consider now prevails in the industry, up to the time of the hearing and will be given opportunity to be heard at the hearing either in person or by duly appointed representatives.

For the convenience of interested parties a digest of wage information furnished by the Amalgamated Clothing Workers of America in support of its proposal and showing the distribution of wages in the manufacture of uniform clothing and in the manufacture of wool trousers as of the years 1940-1941 respectively has been made by the Research Section of the Division of Public Contracts and is attached.

Attention is called to the fact that on January 25, 1941 the Secretary of Labor determined the minimum wage for the coat and suit branch of the uniform and clothing industry to be 60 cents an hour, and that on the same date the Secretary determined the minimum wage for the wool trousers branch of the uniform and clothing industry to be 40 cents an hour.

The minimum wage determined will apply only to contracts for wool or part wool uniform trousers or breeches awarded by agencies of the United States Government subject to the provisions of the Public Contracts Act.

Briefs or telegraphic communications may be filed with the Administrator, Division of Public Contracts, Department of Labor, and they should be received on or before the hearing date. No form for the brief is prescribed but an original and four copies must be submitted.

The entire record will be considered by the Secretary of Labor before the wage determination is made.

[SEAL] L. METCALFE WALLING,
Administrator.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C. on the 11th day of February, A. D. 1942.

Notice is hereby given that declarations have been filed by The General Finance Corporation and Metropolitan Investing Company, and an amendment to its application and declaration, previously filed, by NY PA NJ Utilities Company.

All interested persons are referred to said declarations and the amendment to the application-declaration, which are on

file in the office of the Commission, for a statement of the transactions therein proposed, which are summarized below:

The General Finance Corporation, a subsidiary of Shinn & Company, which in turn is a subsidiary of Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation, a registered holding company, proposes to merge Metropolitan Investing Company, its subsidiary, into itself, and thereby acquire all the assets of such company and assume all its liabilities. After the merger, The General Finance Corporation proposes to sell the following securities to NY PA NJ Utilities Company, a registered holding company, and a subsidiary of said Trustees of Associated Gas and Electric Corporation:

(a) 53,850 shares of $6 Cumulative Preferred Stock of Metropolitan Edison Company at 105 or for $5,654,250;

(b) $4,308,500 principal amount of National Public Service Corporation Secured Gold Debentures, 5% Series, due 1978 at 25% of face value or for $1,077,125;

(c) $10,927,000 principal amount of Certificates of Deposit for National Public Service Corporation Secured Gold Debentures, 5% Series, due 1978 at 25% of face value or for $2,731,750;

(d) $213,500 principal amount of The Metropolitan Edison Corporation Secured Consolidated Refunding Gold Bonds, 6% Series, due 1961 at 96% of face value or for $204,960;

(e) $396,600 principal amount of The Mohawk Valley Company 6% Consolidated Refunding Gold Bonds, due 1991; at 103% of face value or for $408,498.

At the same time, NY PA NJ Utilities Company will acquire such securities in consideration of the assumption by it of certain liabilities of The General Finance Corporation, and the liquidation and satisfaction by NY PA NJ Utilities Company of indebtedness payable by The General Finance Corporation to NY PA NJ Utilities Company, in an amount equal to the excess of the purchase price over the liabilities assumed. The liabilities to be assumed by NY PA NJ Utilities Company include a 3% promissory demand note, dated October 1, 1938, in the face amount of $1,024,338.26, payable to Associated Utilities Corporation, a registered holding company, and a subsidiary of said Trustees of Associated Gas and Electric Corporation, on which $500,000 is presently owed.

Notice is further given that any interested person may, not later than February 25, 1942, at 4:45 P. M., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declarations and amendment to the application and declaration, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C.

By the Commission.

IN THE MATTER OF COMMUNITY POWER AND LIGHT COMPANY, GENERAL PUBLIC UTILITIES, INC., SOUTHWESTERN PUBLIC SERVICE COMPANY, TEXAS-NEW MEXICO UTILITIES COMPANY, AND GULF PUBLIC SERVICE COMPANY

ORDER RECONVENING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 11th day of February, A. D. 1942.

The above-named parties having filed in the form of an amendment an application pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 for approval of a plan for the simplification of the corporate structure of the holding-company system of Community Power and Light Company, which plan embraces, *inter alia*, the following proposed transactions:

Community Power and Light Company and General Public Utilities, Inc. are to be merged into Southwestern Public Service Company and common stock of Southwestern Public Service Company will be issued to the holders of the common stock of Community Power and Light Company and to the public holders of the common stock of General Public Utilities, Inc.

The $5 Preferred Stock of General Public Utilities, Inc. will be redeemed at $100 per share, with accrued and unpaid dividends to the date fixed for redemption.

As a result of the merger, Southwestern Public Service Company will acquire:

(1) All of the assets of Community Power and Light Company, including all of the Common Stock and certain other securities of Texas-New Mexico Utilities Company and all of the outstanding Common Stock and other securities of Arkansas Utilities Company; and

(2) All of the assets of General Public Utilities, Inc., including utility assets located in the State of Texas, all of the Common Stock and other securities (except $1,305,000 principal amount of First Mortgage Bonds presently outstanding) of Gulf Public Service Company, and all of the outstanding Common Stock and other securities of Royal Palm Ice Company which will acquire from General Public Utilities, Inc. its ice properties located in the State of Florida.

Southwestern Public Service Company will assume all of the liabilities, including funded debt, of Community Power and Light Company and General Public Utilities, Inc. The funded debt and bank loans of these companies will be retired.

Texas-New Mexico Utilities Company will be liquidated; its assets and properties will be transferred to Southwestern Public Service Company; and its funded debt, together with its 7% Preferred Stock and $4 Second Preferred Stock, will be retired.

The $1,305,000 principal amount of First Mortgage Bonds of Gulf Public Service Company will be purchased by Southwestern Public Service Company. Thereupon, Southwestern Public Service Company, as owner of all of the outstanding securities of Gulf Public Service Company, will cause the said company to be recapitalized, and will acquire all of the new securities issued in such recapitalization. The assets of Gulf Public Service Company located in the State of Texas will be transferred to Southwestern Public Service Company.

Southwestern Public Service Company will purchase for the sum of $7,250,000 (plus adjustment for current position) from Continental Gas & Electric Company all of the outstanding securities of Panhandle Power and Light Company, Cimarron Utilities Company and Guymon Gas Company These companies will be liquidated and their assets transferred to Southwestern Public Service Company.

Southwestern Public Service Company will issue and sell $18,000,000 principal amount of First Mortgage and Collateral Trust Bonds, $5,500,000 principal amount of unsecured Serial Notes, and 85,000 shares of Cumulative Preferred Stock, $100 par value, the proceeds from which sale will be used to make the purchases and retirements above described and for the payment of expenses incidental to the plan.

The hearing in the above-entitled matter having been continued on October 27, 1941, subject to the call of the examiner; and

It further appearing that the trial examiner heretofore designated to preside is engaged on another matter and is unable so to preside;

Now, therefore, it is ordered, That the hearing in the above-entitled matter be reconvened at the office of the Securities and Exchange Commission, 1778 Pennsylvania Avenue NW., Washington, D. C., at such room as may be designated on such date by the hearing room clerk in Room 1102 at 10:00 o'clock A. M., on the 26th day of February, 1942, at which hearing the parties above-named will be given an opportunity to be heard as to whether or not the plan for simplification of the corporate structure of the public-utility holding-company system of Community Power and Light Company, as submitted or as modified, is necessary to effectuate the provisions of subsection (b) of section 11 of the Public Utility Holding Company Act of 1935 as well as being fair and equitable to the persons affected by such plan and whether the Commission should enter an order approving such plan.

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all the powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice; and

It is further ordered, That the Secretary of the Commission shall serve notice of the reconvened hearing aforesaid by mailing a copy of this order, by registered mail, to Community Power and Light Company, General Public Utilities, Inc., Southwestern Public Service Company, Texas-New Mexico Utilities Company and Gulf Public Service Company; and that notice of said hearing shall be and hereby is given to all security-holders of Community Power and Light Company, General Public Utilities, Inc., Southwestern Public Service Company, Texas-New Mexico Utilities Company and Gulf Public Service Company and their subsidiaries, to all consumers of said companies, to all states, municipalities or political subdivisions thereof in which are located any of the utility assets of any of the said companies or under the laws of which any of the said companies are incorporated, to all state commissions, state securities commissions and all agencies, authorities or instrumentalities of one or more states, municipalities, or other bodies politic or subdivisions thereof having jurisdiction over Community Power and Light Company, General Public Utilities, Inc., Southwestern Public Service Company, Texas-New Mexico Utilities Company and Gulf Public Service Company, or any subsidiaries thereof, or over any of the business affairs of any of them, and to all other persons, such notice to be given by a general release of the Commission, distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication of this order in the FEDERAL REGISTER:

It is further ordered, That any person desiring to be heard in conection with these proceedings shall file with the Secretary of the Commission on or before the 24th day of February 1942 a written statement relative thereto; any person proposing to intervene shall file with the Secretary of the Commission on or before such date his application therefor, as provided in Rule X-II of the Commission's Rules of Practice.

By the Commission.

IN THE MATTER OF CUPPLES STATION LIGHT, HEAT AND POWER COMPANY

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 11th day of February, A. D. 1942.

Cupples Station Light, Heat and Power Company, a wholly owned subsidiary company of Union Electric Company of Missouri which is a registered holding company, having filed a declaration and amendments thereto pursuant to the Public Utility Holding Company Act of 1935, particularly section 12 (c) thereunder, regarding the following proposed transaction: Cupples Station Light, Heat and Power Company proposes, after the completion of the sale of its distribution system to Union Electric Company of Missouri and the reduction in par value of its 10,000 shares of capital stock from $100 per share to 50¢ per share, to declare a partial liquidating dividend to Union Electric Company of Missouri in the amount of $565,599.07; and

Said declaration having been filed on January 9, 1942 and amendments thereto having been filed on January 29, 1942 and February 4, 1942, notice of said filing having been duly given in the form and manner prescribed in Rule U-23 under said Act, and the Commission not having received a request for a hearing with respect thereto within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

Cupples Station Light, Heat and Power Company having requested that the effective date of said declaration, as amended, be advanced; and

The Commission deeming it appropriate in the public interest and in the interest of investors and consumers to permit said declaration, as amended, pursuant to section 12 (c) of said Act to become effective, and finding with respect thereto that no adverse findings are necessary under said section; and

The Commission being satisfied that the date permitting said declaration, as amended, to become effective should be advanced;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said Act, and subject to the terms and conditions prescribed in Rule U-24 thereunder, that the aforesaid declaration, as amended, be and the same hereby is permitted to become effective forthwith.

By the Commission.

[Amendments 04–3, 04–4, 04–5, 04–6, 04–7, 04–8, 04–9, 04–10, 04–11, 04–12, 04–13, Civil Air Regulations]

PART 04—AIRPLANE AIRWORTHINESS

CERTIFICATION OF TRANSPORT CATEGORY AIRPLANES

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 6th day of February 1942.

Acting pursuant to sections 205 (a), 601 and 603 of the Civil Aeronautics Act of 1938, as amended, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective July 1, 1942, Part 04 of the Civil Air Regulations is amended as follows:

1. By inserting a new § 04.01 immediately following § 04.00 to read as follows:

§ 04.01 *Airplane categories.* At the election of the applicant, an airplane may be certificated under the requirements for a particular category according to the intended use of the airplane. Sections of this Part which affect only one particular category are designated by a suffix added to the appropriate section numbers, as follows:

Normal Category	Suffix "N"
Transport Category	Suffix "T"
Acrobatic Category	Suffix "A"

All sections not designated by a suffix are applicable to all categories, except as otherwise specified.

2. By striking § 04.103 and marking the same "Unassigned".

3. By inserting a new § 04.434–T immediately following § 04.434, to read as follows:

§ 04.434–T *Flap controls.* For transport category airplanes, the flap control shall provide means for bringing the flaps from any position within the operating range to any one of three positions, designated hereinafter as landing, approach, and take-off positions, or to the fully retracted position, by placing the primary flap control in a single setting marked as corresponding to each such flap position, the flaps thereupon moving directly to the desired position without requiring further attention. If any extension of the flaps beyond the landing position is possible, the flap control shall be clearly marked to identify such range of extension.

The landing position, approach position, and take-off position, or any of them, may be made variable with altitude or weight by means of a secondary flap control provided for that purpose. Such a secondary control, if provided, shall operate independently of the primary control and in such manner that when it has been adjusted (for the effect of weight or altitude), the necessary flap position can thereafter be obtained by placing the primary flap control in the desired position. The secondary control shall be so designed and marked as to be readily operable by the crew.

The rate of flap retraction shall be such as to permit compliance with § 04.7540–T.

4. By inserting a new § 04.439–T immediately following § 04.438, to read as follows:

§ 04.439–T *Trim controls.* For transport category airplanes, the trimming devices shall be capable of continued normal operation in spite of the failure of any one connecting or transmitting element in the primary control system. Trim controls shall operate in the plane and with the sense of the motion of the airplane which their operation is intended to produce.

5. By inserting a new § 04.445 immediately following § 04.4441, to read as follows:

§ 04.445 *Brakes.* Transport category airplanes shall be equipped with brakes certificated in accordance with the provisions of Part 15 for the maximum certificated landing weight at sea level and the power-off stalling speed, V_{s_0}, as defined in § 04.7511–T. The brake system for such airplanes shall be so designed and constructed that in the event of a single failure in any connecting or transmitting element in the brake system, or the loss of any single source of hydraulic or other brake operating energy supply, it shall be possible, as shown by suitable test or other data, to bring the airplane to rest under the conditions specified in § 04.7533–T with a mean negative acceleration during the landing roll of at least 50 per cent of that obtained in determining the landing distance under that section.

6. By inserting a new § 04.707–T immediately following § 04.707, to read as follows:

§ 04.707–T *Flutter and vibration.* All parts of transport category airplanes shall be free from flutter or excessive vibration under all speed and power conditions appropriate to the operation of the airplane during take-off, climb, level flight, and landing, and during glide at speeds up to the maximum indicated air speed attained during official flight tests (see § 04.722). There shall be no appreciable buffeting for any flap position at any speed in excess of 10 miles per hour above stalling speed for such position nor shall buffeting at lower speeds be so violent as to interfere with the pilot's control of the airplane or cause discomfort to its occupants.

7. By striking §§ 04.71 through 04.714, inclusive, and inserting in lieu thereof the following:

§ 04.71 (Unassigned).

8. By amending § 04.73 by striking therefrom the reference to § 04.71.

9. By striking § 04.741 and marking the same "(Unassigned)."

10. By striking §§ 04.75 through 04.761, inclusive, including all the footnotes thereto, and inserting in lieu thereof the following:

§ 04.75–T *Performance requirements for transport category airplanes.* The following requirements shall apply in place of §§ 04.700 to 04.7061, inclusive:

§ 04.750–T *Minimum requirements for certification.* An airplane may be certificated under the provisions of § 04.75–T, upon there having been established, in accordance with the terms of that section:

(a) A maximum take-off weight at sea level;

(b) a maximum landing weight at sea level;

(c) a maximum one-engine-inoperative operating altitude (as defined in § 04.7513–T), which shall be at least 5,000 feet at a weight equal to the maximum sea level take-off weight;

(d) take-off characteristics at maximum sea level take-off weight, and landing characteristics at maximum sea level landing weight, in accordance with the provisions of §§ 04.7532–T and 04.7533–T; and

(e) compliance with the requirements of all other applicable parts of the Regulations:

If a certificate is issued under these conditions, it may be amended from time to time to include landing and take-off weights over an increased range of altitudes, and other pertinent performance data, including additional landing and take-off characteristics obtained in accordance with the provisions of §§ 04.7532–T and 04.7533–T.

§ 04.751–T *Definitions.*

§ 04.7511 *Stalling speeds.* In the following sub-sections of § 04.75–T:

V_{s_0} denotes the true indicated stalling speed of the airplane in miles per hour with engines idling, throttles closed, propellers in low pitch, landing-gear extended, flaps in the "landing position", as defined in § 04.7512–T, cowl flaps closed, center of gravity in the most unfavorable position within the allowable landing range, and the weight of the airplane equal to the weight in connection with which V_{s_0} is being used as a factor to determine a required performance.

V_{s_1} denotes the true indicated stalling speed in miles per hour with engines idling, throttles closed, propellers in low pitch, and with the airplane in all other respects (flaps, landing gear, etc.) in the condition existing in the particular test in connection with which V_{s_1} is being used.

§ 04.7512–T *Flap positions.* The flap positions denoted respectively as the landing position, approach position, and take-off position are those provided for in § 04.434–T, and may be made variable with weight and altitude in accordance with that section.

§ 04.7513–T *Maximum one-engine-inoperative operating altitude.* Maximum one-engine-inoperative operating altitude (to be determined in complying with § 04.723) shall be the altitude in standard air at which the steady rate of climb in feet per minute is $0.02\ V_{s_1}^3$ with the critical engine inoperative, its propeller stopped, all other engines operating at the maximum-except-take-off power available at such altitude, the landing gear retracted, and the flaps in the most favorable position.

§ 04.752–T *Weights.* The maximum take-off weight and maximum landing weight shall be established by the applicant and may be made variable with altitude. The maximum take-off weight for any altitude shall not exceed the maximum design weight used in the structural loading conditions for flight loads (§ 04.21), and shall not exceed the design weight used in the structural loading conditions for ground or water loads (§§ 04.24 and 04.25, respectively) by a ratio of more than 1.15. The maximum landing weight for any altitude shall not exceed the design weight used in the structural loading conditions for ground or water loads.

§ 04.7520–T *Fuel dumping provisions.* If the maximum take-off weight for any altitude exceeds the maximum landing weight for the same altitude, adequate provision shall be made, in accordance with § 04.6, for the rapid and safe dumping during flight of a quantity of fuel sufficient to reduce the weight of the airplane from such maximum take-off weight to such maximum landing weight. Compliance with this requirement shall be shown by dumping suitable colored fluids and fuel in flight tests in the following conditions:

(a) Level flight at a speed of 2.0 V_{s_1},

(b) climb at a speed of 1.4 V_{s_1} with 75 percent of maximum-except-take-off power,

(c) glide with power off at a speed of 1.4 V_{s_1}.

In conditions (a) and (b), the time required to dump the necessary amount of fuel shall not exceed 10 minutes. During such tests, the dumped fluid shall not come in contact with any portion of the aircraft or adversely affect its control, nor shall any fumes from such fluid enter any portion of the aircraft.

§ 04.753–T *Required performance and performance determinations.* Performance data shall be corrected to standard atmosphere and still air where such corrections are applicable. Performance data may be determined by calculation from basic flight tests if the results of such calculation are substantially equal in accuracy to the results of direct tests.

§ 04.7530–T *Stalling speed requirements.* (a) V_{s_0} at maximum landing weight shall not exceed 80 miles per hour.

(b) V_1, at maximum landing weight, flaps in the approach position, landing gear extended, and center of gravity in the most unfavorable position permitted for landing, shall not exceed 85 miles per hour.

§ 04.7531–T *Climb requirements.* In the climb tests required by this section, the engine cowl flaps, or other means of controlling the engine cooling air supply, shall be in a position which will provide adequate cooling with maximum-except-take-off power at best climbing speed under standard atmospheric conditions.

(a) *Flaps in landing position.* The steady rate of climb in feet per minute, at any altitude within the range for which landing weight is to be specified in the certificate, with the weight equal to maximum landing weight for that altitude, all engines operating at the take-off power available at such altitude, landing gear extended, center of gravity in the most unfavorable position permitted for landing, and flaps in the landing position, shall be at least 0.07 V_1^2.

(b) *Flaps in approach position.* The steady rate of climb in feet per minute, at any altitude within the range for which landing weight is to be specified in the certificate, with the weight equal to maximum landing weight for that altitude, the critical engine inoperative, its propeller stopped, all other engines operating at the take-off power available at such altitude, the landing gear retracted, center of gravity in the most unfavorable position permitted for landing, and the flaps in the approach position, shall be at least V_1^2.

(c) *Flaps in take-off position.* The steady rate of climb in feet per minute, at any altitude within the range for which take-off weight is to be specified in the certificate, with the weight equal to maximum take-off weight for that altitude, the speed equal to the minimum take-off climb speed permitted in 04.75320–T (b), the critical engine inoperative, its propeller windmilling with the propeller control in a position which would allow the engine (if operating normally and within approved limits) to develop at least 50 per cent of maximum-except-take-off engine speed, all other engines operating at the take-off power available at such altitude, the landing gear retracted, center of gravity in the most unfavorable position permitted for take-off, and the flaps in the take-off position, shall be at least 0.035 V_1^2.

§ 04.7532–T *Take-off determination.* The following take-off data shall be determined over such range of weights and altitudes as the applicant may desire, with a constant take-off flap position for a particular weight and altitude, and with the operating engines at not more than the take-off power available at the particular altitude. These data shall be based on a level take-off surface with zero wind.

§ 04.75320–T *Speeds*—(a) *Critical-engine-failure speed*, denoted by V_1, is a true indicated airspeed, chosen by the applicant but in any case not less than the minimum speed at which the controllability is adequate to proceed safely with the take-off, using normal piloting skill, when the critical engine is suddenly made inoperative.

(b) *Minimum take-off climb speed*, denoted by V_2, is a true indicated airspeed chosen by the applicant, which shall permit the rate of climb required in § 04.7531–T (c) but which shall not be less than 1.20 V_1, for two-engined airplanes, or 1.15 V_1 for airplanes having more than two engines, or less than 1.10 times the minimum speed at which the airplane is fully controllable in flight using normal piloting skill when the critical engine is suddenly made inoperative.

§ 04.75321–T *Take-off path.* The lengths and slopes of segments of the take-off path, and the location of critical points on the complete path shall be determined in accordance with the following conditions and assumptions. The location of the points defined below shall be expressed in terms of the horizontal and vertical distances from the starting point.

(a) *Starting point.* The point from which a standing start is made with all engines operating.

(b) Critical-engine-failure point. The point at which the airplane attains speed V_1 (critical engine failure speed) when accelerated from point (a) with all engines operating.

(c) *Accelerate-and-stop point.* The point on the take-off surface at which the airplane can be brought safely to a stop if all engines are cut at point (b).

(d) *Start-of-climb point.* The point on or just clear of the take-off surface at which the airplane attains speed V_2 (take-off-climb speed) when the critical engine is made inoperative with its propeller windmilling in low pitch at point (b).

The take-off acceleration segment, (a) to (d), shall be determined by making a continuous run up to speed V_2 with the critical engine cut at point (b).

(e) *Retraction-completion point.* The point at which landing gear retraction is completed when retraction is initiated not earlier than point (d).

The initial climb segment, (d) to (e), shall be assumed to correspond to the rate of climb at speed V_2 with landing gear extended and windmilling propeller in low pitch.

The second climb segment, beginning at point (e), shall be assumed to correspond to the rate of climb at speed V_2 with landing gear retracted and windmilling propeller in high pitch, as defined in § 04.7531–T (c). This segment may continue indefinitely or may end at point (g) in accordance with paragraph (g) following.

(f) *50-foot height point.* The point at which the airplane attains a height of 50 feet (above the take-off surface) along the take-off flight path defined herein.

(g) *Feathering-completion point.* The point where feathering or stopping of the inoperative propeller is completed, if the applicant desires to include this step in the take-off determination. It shall be assumed that the decision to feather or stop is made not earlier than the instant of attaining point (f).

In the event that it is desired to include propeller feathering or stopping in the take-off path, the final climb segment, beginning at point (g), shall be assumed to correspond to the rate of climb at speed V_2 with landing gear retracted and the propeller of the inoperative engine feathered or stopped.

§ 04.7533–T *Landing determination.* The horizontal distance required to land and come to a complete stop from a point at a height of 50 feet above the landing surface shall be determined for such range of weights and altitudes as the applicant may desire. In making this determination:

(a) Immediately prior to reaching the 50-foot altitude, a steady gliding approach shall have been maintained, with a true indicated airspeed of at least 1.3 V_1.

(b) The nose of the airplane shall not be depressed, nor the power increased, after reaching the 50-foot altitude. At all times during and immediately prior to the landing, the flaps shall be in the landing position, except that after the airplane is on the landing surface and the true indicated airspeed has been reduced to not more than 0.9 V_1, the flap position may be changed.

(c) The operating pressures on the braking system shall not be in excess of those approved by the manufacturer of the brakes.

(d) The brakes shall not be used in such manner as to produce excessive wear of brakes or tires.

(e) The landing shall be made in such manner that there is no excessive vertical acceleration, no tendency to bounce, nose over, porpoise, ground loop, or water loop, and in such manner that its reproduction shall not require any exceptional degree of skill on the part of the pilot, or exceptionally favorable conditions. If this last condition (with respect to exceptional skill or favorable conditions) is not met, the distance to be determined shall be that considered to correspond to a piloting technique normally usable.

§ 04.754–T *Flight characteristics.* There shall be no flight characteristic which makes the airplane unairworthy. The airplane shall also meet the following requirements under all critical loading conditions within the range of center of gravity, and, except as provided in § 04.7541 (d), at the maximum weight for which certification is sought.

§ 04.7540–T *Controllability and maneuverability.* The airplane shall be controllable and maneuverable during take-off, climb, level flight, glide, and landing, and it shall be possible to make a smooth transition from one flight condition to another, without requiring an exceptional degree of skill, alertness, or strength on the part of the pilot, under all conditions of operation probable for the type, including those conditions normally encountered in the event of sudden failure of any engine. It shall be possible, with power off, with flaps either retracted or in the landing position, with the center of gravity in the most unfavorable location within the certificated range, and with the airplane trimmed for a speed of 1.4 V_1, to change the flap position to the opposite extreme, to make a sudden application of take-off power on all engines, or to change the speed to any value between 1.10 V_1 and 1.70 V_1, without requiring a change in the trim control or the exertion of more control force than can readily be applied with one hand for a short period. It shall not be necessary to use exceptional piloting skill in order to prevent loss of altitude when flap retraction from any position is initiated during steady horizontal flight at 1.1 V_1, with simultaneous application of not more than maximum-except-take-off power.

§ 04.7541–T *Trim.* The means used for trimming the airplane shall be such that after being trimmed and without further pressure upon or movement of either the primary control or its corresponding trim control by the pilot or the automatic pilot, the airplane will maintain:

(a) Lateral and directional trim under all conditions of operation consistent with the intended use of the airplane, including operation at any speed from best rate of climb speed to high speed and operation in which there is greatest lateral variation in the distribution of the useful load;

(b) Longitudinal trim, under the following conditions:

(1) During climb at the best rate of climb speed with maximum-except-take-off power.

(2) During a glide with power off at a speed not in excess of 1.4 V_1, and

(3) During level flight at any speed from 90 percent of high speed to the sum of V_1 and 20 percent of the difference between high speed and V_1;

(c) Rectilinear climbing flight with the critical engine inoperative, each other engine operating at maximum-except-take-off power and the best rate of climb speed under such conditions;

(d) Rectilinear flight with any two engines inoperative and each other engine operating at maximum-except-take-off power under the following conditions:

(1) With the weight of the airplane not more than that at which there is a speed range in level flight of not less than 10 miles per hour;

(2) With the speed of the airplane not more than the high speed obtained under the conditions specified in (1) less 10 miles per hour.

§ 04.7542–T *Stability.* The airplane shall be longitudinally, directionally, and laterally stable in accordance with the following provisions. Suitable stability and control "feel" may be required in other conditions normally encountered in service if flight tests show such stability to be necessary for safe operation.

§ 04.75420–T *Static longitudinal stability.* In the flight conditions described in the following sub-section 04.754200–T:

(a) At any speed which can be obtained without excessive control force and which is more than 10 miles per hour above or below the specified trim speed, but not greater than the appropriate maximum permissible speed or less than the minimum speed in steady unstalled flight, the characteristics of the elevator control forces and friction shall be such that:

(1) A pull is required to maintain speeds below the specified trim speed and a push to maintain speeds above the specified trim speed.

(2) The control will, when unrestrained by the pilot, move continuously toward its original trim position.

(b) Where a stable slope of the stick force versus speed curve is specified, any decrease in speed below trim speed shall require an increase in the steady pull on the elevator control and any increase in speed above trim speed shall require an increase in the steady push on the control. Such slope shall be between such limits that any substantial change in speed is clearly perceptible to the pilot through a resulting change in stick force, and that the stick force required to produce necessary changes in speed does not reach excessive values.

§ 04.754200–T *Specific stability conditions*—(a) *Landing.* With flaps in the sea level landing position, the landing gear extended, maximum sea level landing weight, the airplane trimmed at 1.4 V_1, and throttles closed, the stick force curve shall have a stable slope at all speed between 1.1 V_1, and 1.8 V_1.

(b) *Approach.* With flaps in sea level approach position, landing gear retracted, maximum sea level landing weight, the airplane trimmed at 1.4 V_1, and with power sufficient to maintain level flight at this speed, the stick force curve shall have a stable slope at all speeds between 1.1 V_1, and 1.8 V_1.

(c) *Climb.* With flaps retracted, landing gear retracted, maximum sea level take-off weight, 75 per cent of maximum-except-take-off power, and with the airplane trimmed at 1.4 V_1, the stick force curve shall have a stable slope at all speeds between 1.2 V_1, and 1.6 V_1.

(d) *Cruising.* With flaps retracted, maximum sea level take-off weight, 75 per cent of maximum-except-take-off power, and with the airplane trimmed for level flight, the stick force curve shall have a stable slope at all speeds obtainable with reasonable stick forces between:

(1) 1.2 V_1, and the maximum permissible speed, when the landing gear is retracted;

(2) 1.2 V_1, and the level flight speed, when the landing gear is extended.

§ 04.75421–T *Dynamic longitudinal stability.* The airplane shall not be dynamically unstable longitudinally, as shown by the damping of the normal long period oscillation, under any flight condition that is likely to be maintained for more than 10 minutes in ordinary service. Compliance with this requirement shall be demonstrated under at least the following conditions:

(a) During level flight with 75 percent of maximum-except-take-off power.

(b) During a climb with 75 percent of maximum-except-take-off power at a speed equal to 75 percent of that obtained in item (a) above.

Any short period oscillation occurring between stalling speed and maximum permissible speed shall be heavily damped with the primary controls in a fixed position.

§ 04.75422–T *Directional and lateral static stability.* The static directional stability, as shown by the tendency to recover from a skid with rudder free, shall be positive for all flap positions and symmetrical power conditions, and for all speeds from 1.2 V_1, up to the maximum permissible speed. The static lateral stability, as shown by the tendency to raise the low wing in a sideslip, shall be positive within the same limits.

§ 04.7543–T *Stalling.* With power off, and with that power necessary to maintain level flight with flaps in approach position at a speed of 1.6 V_1, maximum landing weight, flaps and landing gear in any position, and center of gravity in the least favorable position for recovery, it shall be possible to produce and to correct roll and yaw by unreversed use of the aileron and rudder controls up to the time when the airplane pitches in the maneuver described below. During the pitching and recovery portions of the maneuver it shall be possible to prevent appreciable rolling or yawing by normal use of the controls.

In demonstrating this quality, the order of events shall be:

(a) With trim controls adjusted for straight flight at a speed of 1.4 V_1, reduce speed by means of the elevator control until the speed is steady at slightly above stalling speed; then

(b) Pull elevator control back at a normal rate until a stall is produced as evidenced by an uncontrollable downward pitching motion of the airplane, or until the control reaches the stop. Normal use of the elevator control for recovery may be made after such pitching motion is unmistakably developed.

In any case, the airplane shall not pitch excessively before recovery is completed.

The airplane shall be recoverable without difficulty or the use of power from the inoperative engine when it is stalled with the critical engine inoperative and the remaining engines operating at 75 per cent of maximum-except-take-off power.

§ 04.755–T *Airplane operating manual.* There shall be furnished with each airplane a copy of a manual which shall contain such information regarding the operation of the airplane as the Administrator may require, including, but not limited to, the following:

(a) All performance data secured under §§ 04.7513–T to 04.7533–T, inclusive, together with any pertinent descriptions

of the conditions, airspeeds, etc., under which such data were determined:

(b) Adequate instructions for the use and adjustment of the flap controls under § 04.434–T.

(c) The indicated airspeeds corresponding to those determined in § 04.75320–T, together with pertinent discussion of procedures to be followed if the critical engine becomes inoperative on take-off.

(d) A discussion of any significant or unusual flying or ground-handling characteristics, knowledge of which would be useful to a pilot not previously having flown the airplane.

PART 20—PILOT CERTIFICATES

CITIZENSHIP REQUIREMENTS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 6th day of February 1942.

Acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 602 of said Act, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under, said Act, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective February 6, 1942, Part 20 of the Civil Air Regulations is amended as follows:

1. By amending § 20.102 to read as follows:

§ 20.102 *Citizenship.* Applicant shall be:

(a) A citizen of and of unquestionable loyalty to the United States, or

(b) A person who is in sympathy with the objectives of the United States and who is a trustworthy citizen of a friendly foreign government not under the domination of or associated with any government with which the United States is at war.

2. By striking § 20.142 and inserting in lieu thereof the following:

§ 20.142 *Citizenship.* Applicant shall be:

(a) A citizen of and of unquestionable loyalty to the United States, or

(b) A person who is in sympathy with the objectives of the United States and who is a trustworthy citizen of a friendly foreign government not under the domination of or associated with any government with which the United States is at war and which government grants reciprocal commercial pilot privileges to citizens of the United States on equal terms and conditions with citizens of such foreign government.

3. By amending § 20.152 to read as follows:

§ 20.152 *Citizenship.* Same as § 20.102.

PART 21—AIRLINE TRANSPORT PILOT RATING

CITIZENSHIP REQUIREMENTS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 6th day of February 1942.

Acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 602 of said Act, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under, said Act, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective February 6, 1942, Part 21 of the Civil Air Regulations is amended as follows:

By striking §§ 21.12 through 21.122, inclusive, and inserting in lieu thereof the following:

§ 21.12 *Citizenship.* Applicant shall be:

(a) A citizen of and of unquestionable loyalty to the United States, or

(b) A person who is in sympathy with the objectives of the United States and who is a trustworthy citizen of a friendly foreign government not under the domination of or associated with any government with which the United States is at war and which government grants reciprocal commercial pilot privileges to citizens of the United States on equal terms and conditions with citizens of such foreign government.

PART 22—LIGHTER-THAN-AIR PILOT CERTIFICATES

CITIZENSHIP REQUIREMENTS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 6th day of February 1942.

Acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 602 of said Act, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under, said Act, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective February 6, 1942, Part 22 of the Civil Air Regulations is amended as follows:

1. By amending § 22.102 to read as follows:

§ 22.102 *Citizenship.* Applicant shall be:

(a) A citizen of and of unquestionable loyalty to the United States, or

(b) A person who is in sympathy with the objectives of the United States and who is a trustworthy citizen of a friendly foreign government not under the domination of or associated with any government with which the United States is at war.

2. By striking § 22.122 and inserting in lieu thereof the following:

§ 22.122 *Citizenship.* Applicant shall be:

(a) A citizen of and of unquestionable loyalty to the United States, or

(b) A person who is in sympathy with the objectives of the United States and who is a trustworthy citizen of a friendly foreign government not under the domination of or associated with any government with which the United States is at war and which government grants reciprocal commercial pilot privileges to citizens of the United States on equal terms and conditions with citizens of such foreign government.

3. By amending § 22.132 to read as follows:

§ 22.132 *Citizenship.* Same as § 22.102.

PART 27—AIRCRAFT DISPATCHER CERTIFICATES

CITIZENSHIP REQUIREMENTS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 6th day of February, 1942.

Acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 602 of said Act, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under, said Act, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective February 6, 1942, Part 27 of the Civil Air Regulations is amended as follows:

By striking § 27.12 and inserting in lieu thereof the following:

§ 27.12 *Citizenship.* Applicant shall be:

(a) A citizen of and of unquestionable loyalty to the United States, or

(b) A person who is in sympathy with the objectives of the United States and who is a trustworthy citizen of a friendly foreign government not under the domination of or associated with any government with which the United States is at war and which government grants reciprocal commercial airman privileges to citizens of the United States on equal terms and conditions with citizens of such foreign government.

PART 40—AIR CARRIER OPERATING CERTIFICATION

REQUIREMENT OF TRANSPORT CATEGORY AIRPLANES

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 6th day of February, 1942.

Acting pursuant to sections 205 (a), 601 and 604 of the Civil Aeronautics Act of 1938, as amended, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective July 1, 1942, Part 40 of the Civil Air Regulations is amended as follows:

1. By striking § 40.12 and inserting in lieu thereof the following:

§ 40.12 *Aircraft.* Applicant shall show aircraft certificated as provided in Part 04 of a model and number deemed by the Administrator to be necessary for safe operation as related to the service offered, the route traversed, and the operating and maintenance procedure and techniques proposed.

2. By striking the first paragraph of § 40.2 and insertng in lieu thereof the following:

§ 40.2 *Passenger minimum requirements.* To be eligible for an air carrier operating certificate for the carriage of persons in interstate air transportation within the continental limits of the United States, an applicant, in addition to meeting the minimum requirements provided for in § 40.1, shall meet and comply with the following minimum requirements prescribed for the particular kind of operation proposed. Airplanes proposed for use for the carriage of passengers shall be subject to the following requirements:

(a) No airplane certificated as a basic type after June 30, 1942, shall be deemed adequate for use in scheduled air transportation unless it has been certificated in accordance with the transport category requirements of Part 04;

(b) No airplane which has been certificated as a basic type in accordance with the transport category requirements of Part 04 shall be deemed adequate for use in scheduled air transportation unless it can meet the requirements of § 61.712 over each route to be flown;

(c) On or after December 31, 1944, no individual airplane shall be deemed adequate for use in scheduled air transportation unless it has been certificated in accordance with the transport category requirements of Part 04, and can meet the requirements of § 61.712 over each route to be flown, or unless such airplane has been used in scheduled air transportation with the approval of the Administrator prior to that date;

(d) No airplane shall be deemed adequate for use in scheduled air transportation after December 31, 1947, unless it has been certificated in accordance with the transport category requirements of Part 04, and can meet the requirements of § 61.712 over each route to be flown.

PART 51—GROUND INSTRUCTOR RATING

CITIZENSHIP REQUIREMENTS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 6th day of February 1942.

Acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 602 of said Act, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under, said Act, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective February 6, 1942, Part 51 of the Civil Air Regulations is amended as follows:

By amending § 51.1 (c) to read as follows:

§ 51.1 (c) *Citizenship.* Applicant shall be:

(a) A citizen of and of unquestionable loyalty to the United States, or

(2) A person who is in sympathy with the objectives of the United States and who is a trustworthy citizen of a friendly foreign government not under the domination of or associated with any government with which the United States is at war.

[Amendment 61-20, Civil Air Regulations]

PART 61—SCHEDULED AIR CARRIER RULES

OPERATION OF TRANSPORT CATEGORY AIRPLANES

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 6th day of February 1942.

Acting pursuant to sections 205 (a) and 601 of the Civil Aeronautics Act of 1938, as amended, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective July 1, 1942, Part 61 of the Civil Air Regulations is amended by adding a new § 61.712, to be inserted immediately after § 61.7114, as follows:

§ 61.712 *Operating limitations upon airplanes certificated under transport category requirements.* In operating in scheduled passenger transportation, any airplane certificated in accordance with the provisions of § 04.75–T, the restrictions of §§ 61.7121 to 61.7125, inclusive,

shall be observed unless deviations therefrom are specifically authorized by the Administrator on the ground that a peculiarity of the particular circumstances of a particular case makes a literal observation of the restrictions unnecessary for safety in that case.

In determining compliance with these provisions, the data obtained in testing the airplane for type certification may be applied, by interpolation or by computation of the effects of changes in specific variables, to conditions differing from those for which specific tests are made, where such interpolations or computations will give results substantially equalling in accuracy the results of a direct test.

§ 61.7121 *General limitations.* (a) The airplane shall not be operated from any field at an altitude outside of the altitude range for which maximum take-off weights have been determined and set forth in the airplane operating manual; and shall not be dispatched to a field of intended destination, or have any field specified as an alternate, which is at an altitude outside the range for which maximum landing weights have been determined, and set forth in the airplane operating manual.

(b) The weight of the airplane at take-off shall not exceed the certificated maximum take-off weight for the altitude of the field from which the take-off is to be made.

(c) The gross weight at take-off shall be such that, allowing for the consumption of the amount of fuel which would normally be consumed in flight to the intended destination, the weight on arrival at the destination will not exceed the certificated maximum landing weight for the altitude of the field of intended destination.

§ 61.7122 *Take-off limitations to provide for engine failure.* Take-offs shall be made only from such fields in such directions and under such gross weight limitations that the following conditions are fulfilled as shown by the performance data determined under § 04.7532–T and set forth in the airplane operating manual.

(a) From any point on the take-off up to the time of attaining the critical-engine-failure speed set forth in the airplane operating manual, it shall be possible to bring the airplane to a safe stop within the landing area, as shown by the accelerate-and-stop distance data.

(b) If the critical engine should fail at any instant after the airplane attains the critical engine failure speed, it shall be possible to proceed with the take-off, and attain a height of 50 feet, as indicated by the take-off path data, before passing over the end of the take-off area. Thereafter it shall be possible to clear all obstacles either by at least 50 feet vertically, as shown by the take-off path data, or by at least 200 feet horizontally within the airport boundaries and 300 feet horizontally after passing beyond such boundaries. In determining the allowable deviation of the flight path in order to avoid obstacles, it shall be assumed that the airplane is not banked before reaching a height of 50 feet, as shown by the take-off path data, and that the maximum bank thereafter does not exceed 15°.

(c) In applying requirements (a) and (b), correction shall be made for any appreciable gradient of the take-off surface. Take-off data based on still air may be corrected to allow for the effect of a favorable wind which is equal to not more than 50 percent of the component along the take-off runway due to the reported wind condition.

§ 61.7123 *Landing distance limitations.* (a) Aircraft shall be dispatched only under such conditions that it would be possible, as shown by the still air landing data obtained in § 04.7533–T and set forth in the airplane operating manual, at a weight corresponding to the maximum weight expected to exist at the time of arrival at the field of intended destination, and under standard air conditions for the altitude of such field, to bring the airplane to rest, from a point 50 feet directly above the intersection of the obstruction clearance line (as defined in § 61.7124) and the landing surface, within a total distance not in excess of 70 per cent of the effective length (as defined in § 61.7124) of the landing area most suitable for landing in still air.

(b) For every possible condition of wind velocity and direction and the corresponding landing direction required at the field of intended destination by the ground handling characteristics of the airplane type involved, the ratio of landing distance to effective length of landing area shall not be greater than that as specified in (a), after allowing for the effect on the landing path and roll of not more than 50 per cent of the favorable wind component due to a particular wind condition.

(c) If requirement (a) can be met, but requirement (b) cannot be fully met, at a field of intended destination, a flight to such field may be dispatched under the following or more conservative conditions:

(1) At least one suitable alternate field shall be designated in the flight plan, at which requirements (a) and (b) of this section, as modified by § 61.71230, and the requirements of § 61.71091 to 61.71096, inclusive, are met.

(2) If requirement (b) cannot be met for the wind conditions existing at the time of arrival, the airplane shall proceed to the alternate.

§ 61.71230 *Landing distance at alternate fields.* The conditions of § 61.7123 shall apply with respect to alternate fields specified in the flight plan, except that in the case of alternate fields the landing distance as defined in that section shall not exceed 70 per cent of the effective length of the landing area.

§ 61.7124 *Definition of effective length of landing area.* The effective length of the landing area shall be the distance from the point where the obstruction clearance line, as defined below, intersects the landing surface to the far end of the landing area.

The obstruction clearance line is a line drawn tangent to or clearing all obstructions showing in a profile of the approach area, as defined below. The obstruction clearance line is further limited by having a slope to the horizontal of 1/20, as it approaches the landing area.

The approach area, as used in this section, shall be an area symmetrical about a center line coinciding with and prolonging the center line of the runway, except that where there are a multiplicity of parallel runways, or a large area continuously available for landing, the center line of the approach area shall coincide with the most probable landing path for instrument approaches. The approach area shall be considered as extending longitudinally from the landing area out to the most remote obstacle touched by the obstruction clearance line, assuming the center line of the approach area in plan view to be straight for at least 1,500 feet from the intersection of the obstruction clearance line with the landing surface, and thereafter continuing in a path consistent with the instrument approach procedures for the field in question, or where such procedures are not specified, consistent with turns of at least 4,000 feet radius; and as extending laterally to a distance of 200 feet on either side of its center line at the point of intersection of the obstruction clearance line with the landing surface, with this distance increasing uniformly to 500 feet on either side of the center line of the area at a longitudinal distance of 1,500 feet from the intersection of the obstruction clearance line line with the landing surface, and maintaining a distance of 500 feet from the center line thereafter.

§ 61.7125 *Enroute limitations.* Aircraft shall be dispatched only under such conditions that in progressing along the intended route, with the weight of the airplane progressively reduced by the anticipated consumption of fuel and oil, the maximum one-engine-inoperative operative altitude, as defined in § 04.7513–T and as set forth in the airplane operating manual, shall at all times exceed by at least 1,000 feet the altitude of the highest ground or obstruction within 10 miles on either side of the intended route. Where special air navigation facilities provide for close and specific identification of an obstruction, or of high ground extending for less than 20 miles along the route, the maximum lateral distance from the intended route up to which such obstructions or high ground must be taken into account may be reduced to five miles.

By the Civil Aeronautics Board.

Secretary.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

AMENDMENT TO RULE RELATING TO REPORTS OF CERTAIN STABILIZING ACTIVITIES REQUIRED TO BE FILED UNDER THE ACT

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly sections 17 (a) and 23 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary for the execution of the functions vested in it by the said Act, hereby takes the following action:

Section 240.17a–2 [Rule X-17A–2] is amended to read as follows:

§ 240.17a–2 *Reports of certain stabilizing activities.* (a) Every member of a national securities exchange, and every broker or dealer who transacts a business in securities through the medium of any such member, and every broker or dealer registered pursuant to Section 15 of the Securities Exchange Act of 1934, as amended (Sec. 15, 48 Stat. 895; sec. 3, 49 Stat. 1377; 15 U.S.C., 78o), who effects any purchase for the purpose of pegging, fixing, or stabilizing (hereinafter referred to as stabilizing) the price of any security to facilitate an offering in respect of which a registration statement is filed under the Securities Act of 1933 (48 Stat. 74, et seq.; 15 U.S.C. 77a–aa), as amended, shall send to the Commission a report on Form X-17A–1—

(1) On the first business day following each day on which any purchase or sale of the offered security or the security being stabilized is effected by the manager of the stabilizing syndicate, as such, or if there is no such syndicate, by such member, broker or dealer, for any account;

(2) On the first business day following each day on which such member, broker or dealer effects, otherwise than through the manager of the stabilizing syndicate, any purchase or sale of the offered security or the security being stabilized, for any account; and

(3) Within three business days following the date on which the stabilizing is commenced, for each day in the twenty days preceding such date on which such member, broker, or dealer effected, for his own account, any purchase or sale of the offered security or the security being stabilized.

(b) Notwithstanding the provisions of paragraph (a) of this section, in the case of an offering made at a fixed public offering price, no report need be filed for any day solely because of a retail sale of the offered security at such public offering price. In such cases, there shall be disclosed in Column G of Schedule II of the next report required to be filed pursuant to paragraph (a) of this section, the total of all such retail sales by the reporting person which were not previously reported.

(c) Promptly upon the termination of the stabilizing, written notice of such termination shall be given to the Commission. The reports required by paragraph (a) (1) and (2) of this section shall be filed until the stabilizing is terminated and the Commission is so notified, except that if any stabilizer then has a short position in any such security, he shall send to the Commission a report on Form X-17A–1 on the first business day following each day on which the manager of the stabilizing syndicate, as such, effects any purchase to cover such short position, and a report on that form on the first business day following each day on which such stabilizer effects a purchase, otherwise than through such manager, to cover such short position. Separate reports shall be filed as to each such security and may be filed by one or more of the stabilizers on behalf of any of the stabilizers. For the purpose of this rule and the forms prescribed hereby, the term "offered security" includes any security of the same class. Reports filed pursuant to this rule will be available for public inspection after the stabilizers have filed all the reports required hereby.

(d) Promptly upon the termination of the stabilizing, if any stabilizer then has a long position in the offered security, he shall promptly notify the Commission in writing of the amount of such long position, unless he is filing, pursuant to paragraph (a) of this section, a report for the date of termination.

Effective February 13, 1942.

By the Commission.

Secretary.

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

ADOPTION OF NEW FORM FOR FILING REPORTS OF CERTAIN STABILIZING ACTIVITIES

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly sections 17 (a) and 23 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary for the execution of the functions vested in it by the said Act hereby takes the following action:

Form X-17A–1, bearing the printed legend "Adopted February 13, 1942" is adopted and Form X-17A–1 adopted on July 24, 1941, is rescinded.

Effective February 13, 1942.

By the Commission.

TITLE 20—EMPLOYEES' BENEFITS

CHAPTER II—RAILROAD RETIREMENT BOARD

PART 299—PRIOR SERVICE RECORDS

REGULATIONS UNDER THE JOINT RESOLUTION PROVIDING FOR THE ACQUISITION BY THE RAILROAD RETIREMENT BOARD OF DATA NEEDED IN CARRYING OUT THE PROVISIONS OF THE RAILROAD RETIREMENT ACTS

Pursuant to the general authority contained in section 5, Public Resolution No. 102, 76th Congress, approved October 9, 1940 (54 Stat. 1088–1090), the Regulations of the Railroad Retirement Board under such Act (5 F.R. 4332) are amended, effective January 29, 1942 (Board Order 42–62 dated January 29, 1942), by the adoption of new §§ 299.53 and 299.59 and the amendment of existing §§ 299.52, 299.54, 299.56, 299.58, and 299.60, as follows:

§ 299.52 *Establishment of record.* The division of retirement claims will assemble and process the reports and other data received from employers and other companies so as to establish, as nearly as practicable, complete records by individuals, showing for each individual all creditable service rendered prior to January 1, 1937, and all creditable compensation necessary to establish the average monthly compensation for such service, or the fact that the individual rendered no creditable service. (Secs. 4, 5, 54 Stat. 1089, 1090)

§ 299.53 *Notice that certain claimed service is not creditable.* When it is found that service included by an individual in his statement of service rendered prior to January 1, 1937 is service to an employing unit which has been held by the general counsel or the Board not to be an employer or carrier-predecessor of an employer under the Act, or service which has been held by the general counsel or the Board not to be creditable as service to an employer or carrier-predecessor of an employer under the Act, and the record has not yet been established as provided for in § 299.52, the director of retirement claims may notify such individual by mail that this service will not be included in establishing his record if in his judgment the interests of the individual would be served by such notification. (Secs. 4, 5, 54 Stat. 1089, 1090)

§ 299.54 *Notice of record.*—(a) *Notice to employees for whom a record has been established.* As soon as practicable after the establishment of the record, as provided for in § 299.52, with respect to each individual, the division of retirement claims will give notice to such individual of the establishment of such record and the amount, if any, of creditable service and compensation so established.

(b) *Manner of notice.* Notice under paragraph (a) of this section shall be given to each individual, if his address is on file with the Board, by mail, or, if his address is not on file with the Board, (1) by transmission to employers for delivery, (2) by public advertisement, or (3) by such other means as the Board may determine.

(c) *General notice to employees and other individuals.* After notice has been given with respect to each individual for whom a record has been established, the Board will take steps to notify generally by public advertisement, by posters to be placed in offices of employers and labor organizations, or otherwise, each interested individual that all records of creditable service rendered prior to January 1, 1937, and creditable compensation necessary to establish the average monthly compensation for such service have been established and that if such individual believes he rendered such service and received such compensation and has not received notice thereof from the Board, he should request the establishment of a record thereof. (Secs. 4, 5, 54 Stat. 1089, 1090)

§ 299.56 *Finding that reasonable notice has been given.* The Board will find, from time to time, with respect to described individuals that reasonable notice has been given to such individuals and shall enter such finding in its records. After a general notice as provided for in paragraph (c) of § 299.54 has been given, the Board will find, and will enter such finding in its records, that reasonable notice has been given to all individuals with respect to whom no such finding previously has been made. (Secs. 4, 5, 54 Stat. 1089, 1090)

§ 299.58 *Contest of record*—(a) *By individuals for whom a record has been established.* Upon receipt of notice of establishment of his record, each individual who believes his creditable service prior to January 1, 1937, or compensation therefor to be other than as indicated in such notice may contest such record by forwarding immediately to the Railroad Retirement Board, Washington, D. C., attention of the director of retirement claims, a statement setting forth the nature and extent of his protest.

(b) *By individuals not in receipt of any individual notice.* After the general advertisement or other advice that all notices of establishment of record have been sent out, any individual who has received no individual notice of establishment of such a record for him and who believes that he rendered creditable service prior to January 1, 1937, may contest such failure to establish a record by forwarding immediately to the Railroad Retirement Board, Washington, D. C., attention of the director of retirement claims, a request for the establishment of a record of his service and compensation, with a statement setting forth the details of his service.

(c) *No such contest on action described in § 299.53.* No contest under paragraphs (a) or (b) of this section shall be based upon action of the director of retirement claims pursuant to § 299.53, but such action may be contested by appeal to the Board as provided in paragraph (c) of § 299.59.

(d) *Time limit for contest of record.* An individual who wishes, pursuant to paragraphs (a) or (b) of this section, to contest the record as established, or the failure to establish such record, shall file with the director of retirement claims the statement as provided for in paragraphs (a) or (b) of this section, within two years from the date that the Board entered upon its records a finding that reasonable notice had been given with respect to such individual, as provided in § 299.56.

(e) *Decisions upon contest.* Each contest of the record as established, or of the failure to establish such record, shall be determined initially by the director of retirement claims. In his determination of the contest, the director of retirement claims shall affirm the record previously established if it is found to be correct; shall establish a new record in place of the previously established record if it is found to have been erroneous; or, if no record was previously established, shall establish a record showing the service and compensation established or that there is no creditable service prior to January 1, 1937, as the case may be. (Secs. 4, 5, 54 Stat. 1089, 1090)

§ 299.59 *Appeals*—(a) *Appeal from an initial determination of the director of retirement claims.* (1) Every individual who has contested his record as established, or the failure to establish such record, shall have the right to appeal to the appeals council from the initial determination of such contest, unless the sole issue determined is appealable directly to the Board pursuant to paragraph (c) of this section.

(2) Appeal from an initial determination of such contest by the director of retirement claims shall be made by the execution and filing of the appeal form prescribed by the Board. Such form must be filed with the appeals council before the later of the following dates: (i) One year after the date notice of the initial determination of the contest by the director of retirement claims is mailed to the individual; (ii) Two years after the date upon which the finding that reasonable notice had been given to the individual was entered by the Board on its records, as provided in § 299.56.

(3) The individual shall have no right to further review of an initial determination of the director of retirement claims unless formal appeal is filed in the manner and within the time prescribed herein.

(4) The appellant, or his representative, shall be afforded full opportunity to present further evidence upon any controversial question of fact, orally or in writing or by means of exhibits; to examine and cross-examine witnesses; and to present argument in support of the appeal. If, in the judgment of the appeals council, evidence not offered by the appellant is available and relevant and is material to the merits of the case, the appeals council shall obtain such evidence upon its own initiative. The appeals council shall protect the record against scandal, impertinence and irrelevancies, but the technical rules of evidence shall not apply.

(5) In the development of appeals, the appeals council shall have power to hold hearings, require and compel the attendance of witnesses, administer oaths, take testimony, and make all necessary investigations.

(6) All oral evidence presented at any hearing shall be reduced to writing. All evidence presented by the appellant and all evidence developed by the appeals council shall be preserved. Such evidence, together with a record of the arguments, oral or written, and the file previously made in the establishment of the record and in the decision upon the contest shall constitute the record of the case for the decision of the appeal. After an appeal form is filed, the compilation of the record of the case shall be initiated by the inclusion therein of the file made in the establishment of the record of service and compensation and the decision upon the contest; the compilation of the record of the case shall be kept up to date by the prompt addition thereto of all parts of the record subsequently developed. The entire record at any time during the pendency of an appeal shall be available for examination by the appellant or his representative.

(7) Upon completion of the record, the appeals council shall render decision thereon as soon as practicable, and, within thirty days after the making thereof, such decision shall be communicated to the appellant in writing. Decision shall be taken by unanimous vote of the members of the appeals council, and such decision shall be either a decision upon the merits of the appeal, or a decision to certify the entire record as an automatic appeal to the Board. If the decision is upon the merits of the appeal, the appeals council may establish a new record in place of one previously established.

(b) *Final appeal from a decision of the appeals council.* (1) Every appellant shall have a right to a final appeal to the Railroad Retirement Board from any decision of the appeals council by which he claims to be aggrieved.

(2) Final appeal from a decision of the appeals council shall be made by the execution and filing of the final appeal form prescribed by the Board, except as provided in subparagraph (7) of paragraph (a) of this section, and must be filed with the Board within four months from the date upon which notice of the decision by the appeals council is mailed to the appellant at the address furnished by him. As used herein, a month shall be considered to have elapsed between any date and the date corresponding thereto in the next succeeding month.

(3) The individual shall have no right to further review of a decision of the appeals council unless formal final appeal is filed in the manner and within the time prescribed herein.

(4) Upon final appeal to the Board, the appellant shall not have the right to submit additional evidence: *Provided, however,* That, if upon final appeal to the Board, the Board finds that new or better evidence is available, the Board may obtain such evidence, in which event the appellant shall be advised with respect to such evidence and given an opportunity to submit rebuttal evidence and argument: *And provided further,* That in the event that pursuant to the preceding proviso material evidence is developed which tends to show facts contrary to those found by the appeals council, or, in the event that the appellant shows that he is ready to present further material evidence, which for good reason he was not able to present to the appeals council, the claim may be referred back to the appeals council. Thereupon the appeals council shall receive such new evidence as may be offered, develop new or better evidence if available, affording the appellant appropriate opportunity to submit rebuttal evidence and argument, include a transcript of all evidence in the record, and transmit the entire record to the Board together with its recommendation to the Board for final decision.

(5) The decision of the Board shall be made upon the record of evidence and argument which has been made in the handling of the case before final appeal to the Board, with such additions as may be made pursuant to this section. Further argument will not be permitted except upon a showing by the appellant that he has arguments to present which for valid reasons he was unable to present at an earlier stage, and in cases in which the Board requests further elaboration of the appellant's arguments. In such cases, the further argument shall be submitted orally or in writing, as the Board may indicate in each case, and shall be subject to such restrictions as to form, subject matter, length and time as the Board may indicate to the appellant.

(6) In its decision, the Board may establish a new record in place of one previously established.

(c) *Direct appeal to the Board from findings that service is of such character as not to be creditable.* (1) Any individual who receives a notice described in § 299.53 that certain claimed service is not creditable and any individual whose contest of record is determined by the division of retirement claims solely upon the ground that service claimed is service to an employing unit which has been held by the general counsel or the Board not to be an employer or carrier-predecessor of an employer under the Act or service which has been held by the general counsel or the Board not to be creditable as service to an employer or carrier-predecessor of an employer under the Act shall have a right to appeal such issue directly to the Board. Such appeal shall be made by the execution and filing of the appeal form prescribed by the Board. Such form must be filed with the secretary of the Board before the later of the following dates: (i) One year after the date notice of the initial determination of the contest by the director of retirement claims is mailed to the individual; (ii) Two years after the date upon which the finding that reasonable notice had been given to the individual was entered by the Board on its records, as provided in § 299.56. The individual shall have no right to review of such issue unless formal appeal is filed in the manner and within the time prescribed herein.

(2) After the appeal form is filed, the compilation of the record of the case shall be initiated by the inclusion therein of the file made in the previous determination that the service in question is not creditable under the Act. The appellant shall be afforded an opportunity to submit in writing any evidence and argument which is pertinent to the issue to be determined, and, if in the judgment of the Board a full and fair presentation of evidence or argument would be facilitated through the presentation of oral evidence or argument, such opportunity shall be provided either before the Board or before an examiner appointed by the Board to hear such evidence and argument and to report thereon to the Board. All oral evidence and argument shall be reduced to writing and, together with any report of an examiner, shall become part of the record on the appeal.

(3) Upon the filing of an appeal pursuant to this subsection, the Board may consolidate therewith any other appeal presenting the same questions of fact and law and by individual notice or by publication may give notice to all persons whose record of creditable service and compensation rendered prior to January 1, 1937 will be affected by the determination of the issue presented on the appeal and may thereby make all such persons parties to the proceeding. The decision on the appeal in such case shall constitute the final determination of the issue with respect to all persons, whether individually named or described as a class, who have been made parties to the proceeding pursuant to this paragraph.

(4) Upon completion of the record, the Board shall make final decision of the issue presented.

§ 299.60 *Finality of record*—(a) *For an individual for whom a record is established pursuant to § 299.52.* Any record established pursuant to § 299.52 and which is not contested pursuant to § 299.58 or appealed pursuant to paragraph (c) of § 299.59 shall be presumed to include all service rendered and compensation earned prior to January 1, 1937 by the individual to whom such record relates, and, unless shown by new and manifestly convincing evidence to be clearly erroneous, shall be conclusive: *Provided, however,* That such records shall in no wise restrict the authority of the Board to determine upon the filing of an application for an annuity that some or all of the service or compensation so recorded is not service or compensation as said terms are defined in the Railroad Retirement Acts or that under the provisions of the applicable Railroad Retirement Act some or all of the service or compensation so recorded is not to be used in the computation of an annuity.

(b) *For an individual for whom no record is established pursuant to § 299.52.* With respect to each individual for whom no record is established pursuant to § 299.52 and who does not, pursuant to paragraphs (b) and (d) of § 299.58, contest such failure to establish a record, the fact that no such record is established shall be presumed to show that such individual, prior to January 1, 1937, rendered no service and earned no compensation as said terms are defined in the applicable Railroad Retirement Act, and such presumption shall be rebuttable only by new and manifestly convincing evidence showing it to be clearly erroneous.

(c) *For an individual for whom a record is established upon contest or appeal.* Any decision made pursuant to paragraph (e) of § 299.58 upon a contest of a record or of the failure to establish a record, if not appealed in accordance with § 299.59 and every final decision made upon the appeal pursuant to § 299.59, shall constitute the final determination of the issue presented. Such determination shall, without reexamination or further review, govern the annuity rights of the individual and shall be applied by all officers and employees of the Board in any future action dependent upon the matter of fact or law so determined. (Secs. 4, 5, 54 Stat. 1089, 1090)

TITLE 29—LABOR

CHAPTER V—WAGE AND HOUR DIVISION

PART 616—MINIMUM WAGE RATE IN THE PROPERTY MOTOR CARRIER INDUSTRY

WAGE ORDER IN THE MATTER OF THE RECOMMENDATION OF INDUSTRY COMMITTEE NO. 34 FOR A MINIMUM WAGE RATE IN THE PROPERTY MOTOR CARRIER INDUSTRY

Whereas on July 8, 1941, pursuant to section 5 (b) of the Fair Labor Standards Act of 1938, herein referred to as the Act, the Administrator of the Wage and Hour Division of the United States Department of Labor, by Administrative Order No. 118, appointed Industry Committee No. 34 for the Property Motor Carrier Industry, herein called the Committee, and directed the Committee to recommend a minimum wage rate for the Property Motor Carrier Industry in accordance with section 8 of the Act; and

Whereas the Committee included six disinterested persons representing the public, a like number of persons representing employers in the Property Motor Carrier Industry, and a like number of persons representing employees in the Industry, and each group was appointed with due regard to the geographical regions in which the Property Motor Carrier Industry is carried on; and

Whereas on September 12, 1941, the Committee, after investigating economic and competitive conditions in the Industry, filed with the Administrator a report containing its recommendation for a 40 cent minimum hourly wage rate in the Property Motor Carrier Industry; and

Whereas after notice published in the FEDERAL REGISTER on October 22, 1941, Major Robert N. Campbell, the Presiding Officer designated by the Administrator, held a public hearing upon the Committee's recommendation at Washington, D. C., on December 1, 2, 3, 4 and 5, 1941, at which all interested persons were given an opportunity to be heard; and

Whereas the complete record of the proceeding before the Presiding Officer has been transmitted to the Administrator; and

Whereas all persons who appeared at the hearing were given leave to file briefs on or before January 26, 1942; and

Whereas oral argument was held on January 30, 1942 before the Administrator; and

Whereas the Administrator, upon reviewing all the evidence adduced in this proceeding and giving consideration to the provisions of the Act with special reference to sections 5 and 8, concludes that the Industry Committee's recommendation for the Property Motor Carrier Industry, as defined by Administrative Order No. 118, is made in accordance with law, is supported by the evidence adduced at the hearing, and taking into consideration the same factors as are required to be considered by the Industry Committee, will carry out the purposes of the Act; and

Whereas the Administrator has set forth his decision in an opinion entitled "Findings and Opinion of the Administrator in the Matter of the Recommendation of Industry Committee No. 34 for a Minimum Wage Rate in the Property Motor Carrier Industry," dated this day, a copy of which may be had upon request addressed to the Wage and Hour Division, United States Department of Labor, 1560 Broadway, New York, New York:

Now therefore, it is ordered, That:

§ 616.1 *Approval of recommendation of Industry Committee.* The Committee's recommendation is hereby approved.*

§ 616.2 *Wage rate.* Wages at a rate of not less than 40 cents per hour shall be paid under section 6 of the Act by every employer to each of his employees in the Property Motor Carrier Industry who is engaged in commerce or in the production of goods for commerce.*

§ 616.3 *Posting of notices.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the Property Motor Carrier Industry shall post and keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this Order as shall be prescribed from time to time by the Wage and Hour Division of the United States Department of Labor.*

§ 616.4 *Definition of the Property Motor Carrier Industry.* The Property Motor Carrier Industry to which this Wage Order shall apply, is defined as follows: The industry carried on by any person who holds himself out to the general public to engage in, or under individual contracts or agreements engages in, the transportation by motor vehicle of property in interstate commerce, or in the transportation by motor vehicle of property necessary to the production of goods for interstate commerce over regular or irregular routes. The term includes the industry carried on by any person who as agent or under contractual arrangement with any rail, water, or motor carrier or any express company engages in the performance within terminal areas of transfer, collection, or delivery services. The term does not include that part of the industry carried on by any carrier by rail or water or by any express or other company which is subject to Administrative Order No. 34 defining the Railroad Carrier Industry.*

§ 616.5 *Scope of the definition.* The definition of the property motor carrier industry covers all occupations in the industry including clerical, maintenance, shipping and selling occupations: *Provided, however,* That where an employee covered by this definition is employed during the same workweek at two or more different minimum rates of pay, he shall be paid the highest of such rates for such workweek unless records concerning his employment are kept by his employer in accordance with applicable regulations of the Wage and Hour Division.*

§ 616.6 *Effective date.* This Wage Order shall become effective March 16, 1942.*

Signed at Washington, D. C., this 13th day of February, 1942.

THOMAS W. HOLLAND,
Administrator.

TITLE 30—MINERAL RESOURCES

CHAPTER III—BITUMINOUS COAL DIVISION

[Docket No. A-1057, Part II]

PART 321—MINIMUM PRICE SCHEDULE, DISTRICT NO. 1

ORDER GRANTING PERMANENT RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE MIXING OF THE COALS OF MINE INDEX NOS. 890 AND 891, FOR THE ESTABLISHMENT OF AN ADDITIONAL RAIL LOADING POINT FOR THE COALS OF MINE INDEX NO 1471 AND FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF MINE INDEX NOS. 2312, 635, 774 AND 894 IN DISTRICT NO. 1 FOR ALL SHIPMENTS EXCEPT TRUCK

A petition having been filed with the Bituminous Coal Division on September 12, 1941, by District Board 1, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment of price classifications and minimum prices for certain coals in District 1, for all shipments except truck;

Temporary relief having been granted by Order of the Director dated October 20, 1941, 6 F. R. 6050;

A hearing having been held in this matter pursuant to an Order of the Director, on November 17, 1941, before a duly designated Examiner of the Bituminous Coal Division at a hearing room thereof, in Washington, D. C., at which all interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard;

The preparation and filing of a report by the Examiner having been waived and the matter having thereupon been submitted to the undersigned;

The undersigned having made Findings of Fact and Conclusions of Law and having rendered an Opinion in this matter which are filed herewith;

Now, therefore, it is ordered, That, commencing fifteen (15) days from the date hereof § 321.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 321.24 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof, and the said "Supplement R" shall be in lieu of all shipping points previously designated for the mines specified therein.

It is further ordered, That the prayers contained in the original petition are granted to the extent set forth above and in all other respects are denied.

Dated: January 24, 1942.

DAN H. WHEELER,
Acting Director.

PART 321—MINIMUM PRICE SCHEDULE, DISTRICT NO. 1

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 1

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 1; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act:

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, the price classifications and minimum prices effective for the coals of Cherry Run #5 Mine, Mine Index No. 1453, of Cherry Run Coal Mining Company (A. A. Groe) for rail shipments, shall be applicable only for shipments on the Pennsylvania Railroad from Snow Shoe, Pennsylvania, and shall no longer be applicable for shipments on the Pennsylvania Railroad at Moshannon, Pennsylvania. All allowances or adjustments required or permitted mines in Freight Origin Group No. 49 shall be applicable to all shipments of the coals of the Cherry Run #5 Mine, Mine Index No. 1453, of Cherry Run Coal Mining Company (A. A. Groe) from Snow Shoe, Pennsylvania.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: January 29, 1942.

PART 324—MINIMUM PRICE SCHEDULE, DISTRICT NO. 4

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 4 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 4

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices and changes in the shipping points for the coals of certain mines in District No. 4; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act:

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 324.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R-I, § 324.8 (*Numerical list of mines*) is amended by adding thereto Supplement R-II, § 324.2 (*Seasonal discounts*) is amended by adding thereto Supplement R-III, § 324.9 (*Recapitulation of price classifications*) is amended by adding thereto Supplement R-IV, § 324.11 (*Special prices*—(a) *Railroad fuel prices for all movements exclusive of lake cargo railroad fuel*) is amended by adding thereto Supplement R-V, § 324.24 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

And it is further ordered, That the price classifications and minimum prices effective for the coals of the Stalder Mine, Mine Index No. 748, of Little Valley Coal Co. for rail shipments from Nelsonville, Ohio, on Chesapeake & Ohio Railroad shall be applicable only for rail shipments from Floodwood (Kimberly), Ohio, on the said railroad, and shall no longer be applicable for such shipments from Nelsonville, Ohio. All adjustments required or permitted mines in Freight Origin Group No. 22 shall be applicable for such shipments from Floodwood (Kimberly), Ohio.

No relief is granted herein as to the coals of Mine Index Nos. 2155, 2954, 1244, 2968, 2969, 267, 827, 1270, 1271, and 1314, in District No. 4, for the reasons set forth in an Order entered today designating that portion of Docket No. A-1230 which relates to them as Docket No. A-1230 Part II and granting temporary relief therein.

No relief is granted herein as to the coals of Mine Index No. 601 since it appears that price classifications and minimum prices were established therefor by an Order Granting Temporary Relief and Conditionally Providing For Final Relief dated May 21, 1941, 6 F.R. 2823, in Docket No. A-824.

The petition proposed Bidwell, Ohio, as the rail shipping point for the coals of the Gallia Mine, Mine Index No. 2943, of Gallia Sand Company. It appears from the code membership acceptance that this producer contemplates making rail shipments of the coals of the said mine from Evergreen, Ohio, on Chesapeake & Ohio Railroad. Since the petition does not allege any facts in support of the proposal as to Bidwell, Ohio, the price classifications and minimum prices established herein for the coals of the said mine are effective for rail shipments from Evergreen, Ohio, on the said railroad.

The petition proposed that price classifications and minimum prices be established for the coals of Mine Index No. 2943 in Size Group Nos. 1 to 9, inclusive, and 12 for all shipments except truck. It appears that price classifications and minimum prices have customarily been established for comparable and analogous coals in Size Groups 1 to 10, inclusive, and 12, and that Price Classification "Q" has been established for such comparable and analogous coals in Size Group No. 10 for all shipments except truck. Accordingly, Price Classification "Q" is established herein for the coals of Mine Index No. 2943 for all shipments except truck in Size Group No. 10, as well as in Size Groups 1 to 9, inclusive, and 12 for such shipments.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: January 27, 1942.

Acting Director.

PART 326—MINIMUM PRICE SCHEDULE. DISTRICT NO. 6

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 6 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 6

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 6; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act:

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 326.5 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, § 326.6 (*Numerical list of mines*) is amended by adding thereto Supplement R–II, and § 326.23 (*General prices: for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: January 23, 1942.

PART 327—MINIMUM PRICE SCHEDULE, DISTRICT NO. 7

ORDER GRANTING RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 7 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR A MIXTURE OF THE COALS PRODUCED AT MINES NOS. 2, 3, AND 6 OF C. H. MEAD COAL CO., A CODE MEMBER IN DISTRICT NO. 7

A petition having been filed with the Bituminous Coal Division on September 18, 1941, by District Board 7, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment of price classifications and minimum prices for a mixture of coals produced at the No. 2 & 3 Mine (Mine Index No. 117) and at the No. 6 Mine of C. H. Mead Coal Company, a code member in District 7;

Pursuant to an Order of the Director, a hearing in this matter having been held before a duly designated Examiner of the Division at a hearing room thereof in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard:

The preparation and filing of a report by the Examiner having been waived and the record in the proceeding having thereupon been submitted to the undersigned;

The undersigned having made Findings of Fact and Conclusions of Law and having rendered an Opinion in this matter, which are filed herewith;

Now, therefore, it is ordered, That § 327.11 (*Low volatile coals: Alphabetical list of code members*) in the Schedule of Effective Minimum Prices for District No. 7 for All Shipments Except Truck and § 327.34 (*General prices in cents per net ton for shipment into any market area*) in the Schedule of Effective Minimum Prices for District No. 7 for Truck Shipments be and they hereby are amended by establishing for the coals produced at the No. 6 Mine (Mine Index No. 240) of the C. H. Mead Coal Company, the classifications and effective minimum prices set forth in Supplements R and T annexed hereto and made a part hereof.

It is further ordered, That the prayers for relief contained in the petition filed herein are granted to the extent set forth above and in all other respects denied.

Dated: January 24, 1942.

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 8, FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 8

An original petition, as amended, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 8; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 328.11 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, § 328.21 (*Alphabetical list of code members*) is amended by adding thereto Sup-

plement R–II. § 328.34 (*General prices for high volatile coals in cents per net ton for Shipment into all market areas*) is amended by adding thereto Supplement T–I, and § 328.42 (*General prices for low volatile coals*) is amended by adding thereto Supplement T–II, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: January 24, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

TEMPORARY AND CONDITIONALLY FINAL EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 8

NOTE: The material contained in these supplements is to be read in the light of the classifications, prices, instructions, exceptions and other provisions contained in Part 328, Minimum Price Schedule for District No. 8 and supplements thereto.

PART 330—MINIMUM PRICE SCHEDULE, DISTRICT NO. 10

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 10 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 10, FOR TRUCK SHIPMENTS

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 10, for truck shipments; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 330.25 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: January 23, 1942.

TITLE 32—NATIONAL DEFENSE

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 958—MAINTENANCE, REPAIRS AND OPERATING SUPPLIES

Interpretation No. 1 of Preference Rating Order No. P-100

The following official interpretation is hereby issued by the Director of Industry Operations with respect to § 958.2, (*Preference Rating Order P-100*)[1] as amended from time to time.

Paragraph (f) (1) of Preference Rating Order P-100 forbids application of the rating to obtain scarce material, the use of which could be eliminated without serious loss of efficiency by substitution of less scarce material or by change of design. Therefore, Governmental Units and other Producers engaged in repairing, maintaining or operating roads and highways may not apply the rating to obtain such items as metal culverts, metal road signs, metal rope or cable, metal guard rails, or metal reinforcing bars, since terra cotta, cement or wooden substitutes can be used for all these purposes, or their use can be entirely eliminated. The preference rating assigned by Preference Rating Order No. P-100 can in no circumstances be applied to deliveries of burlap or rubber for use in highway maintenance, repair or operation. P.D. General Inventory Order No. M-97 To Permit Accumulations of Inventories of Coal and Coke

It is hereby ordered, That:

§ 1103.1 *General Inventory Order M-97*—(a) *Revocation of inventory restrictions as to coal and coke.* Notwithstanding the provisions of any Regulation or Order heretofore issued by the Director of Priorities of the Office of Production Management or by the Director of Industry Operations of the War Production Board, any person may make deliveries of anthracite or bituminous coal or coke, and any person may accept deliveries thereof, although the inventory of coal or coke in the hands of the person accepting such delivery is, or will by virtue of such acceptance become, in excess of a practicable working minimum.

(b) *Applicability of Priorities Regulation No. 1.* Except to the extent that the provisions of paragraph (a) are inconsistent therewith, all transactions involving coal and coke shall be subject to the provisions of Priorities Regulation No. 1 as amended from time to time.

(c) *Effective date.* This Order shall take effect at once and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, January 26, 1942, 7 F.R. 561, E.O. 9024, January 16, 1942, 7 F.R. 329; E.O. 9040, January 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 13th day of February 1942.

NOTICE OF HEARING WITH REFERENCE TO PROPOSED AMENDMENT OF REGULATIONS NO. 5, RELATING TO LABELING AND ADVERTISING OF DISTILLED SPIRITS

FEBRUARY 12, 1942.

Pursuant to the provisions of Section 5 of the Federal Alcohol Administration Act as amended:

Notice is hereby given of a public hearing to be held on Tuesday, February 24, 1942, at 10:00 A. M., in Room 3601 of the Internal Revenue Building, 10th and Pennsylvania Avenue, Washington, D. C., for the purpose of taking evidence with reference to the following proposed amendment to Regulations No. 5 (27 CFR, Part 5), Relating to Labeling and Advertising of Distilled Spirits:

To amend section 21, Class 1, of said regulations (27 CFR 5.21 (a)) in such manner as to modify the standard of identity for "neutral spirits" so as to include certain spirits distilled at less than 190° proof. In view of the potential shortage of neutral spirits for beverage use during the existing emergency, it is the Bureau's purpose to consider whether whiskey, brandy or other spirits now in storage, which were distilled at relatively high proof, as well as spirits hereafter distilled at less than 190° proof, can, by treatment with activated carbon or by other methods, be made sufficiently neutral to be classed as "neutral spirits" for beverage use, and if so, the desirability of such an amendment.

2¼ PERCENT TREASURY BONDS OF 1952-55—DATED AND BEARING INTEREST FROM FEBRUARY 25, 1942; DUE JUNE 15, 1955; REDEEMABLE AT THE OPTION OF THE UNITED STATES AT PAR AND ACCRUED INTEREST ON AND AFTER JUNE 15, 1952; INTEREST PAYABLE JUNE 15 AND DECEMBER 15

FEBRUARY 13, 1942.

I. OFFERING OF BONDS

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par and accrued interest, from the people of the United States for 2¼ percent bonds of the United States, designated Treasury Bonds of 1952-55. The amount of the offering is $1,500,000,000. or thereabouts.

II. DESCRIPTION OF BONDS

1. The bonds will be dated February 25, 1942, and will bear interest from that date at the rate of 2¼ percent per annum, payable on a semiannual basis on June 15 and December 15 in each year until the principal amount becomes payable. They will mature June 15, 1955, but may be redeemed at the option of the United States on and after June 15, 1952, in whole or in part, at par and accrued interest, on any interest day or days, on 4 months' notice of redemption given in such manner as the Secretary of the Treasury shall prescribe. In case of partial redemption the bonds to be redeemed will be determined by such method as may be prescribed by the Secretary of the Treasury. From the date of redemption designated in any such notice, interest on the bonds called for redemption shall cease.

2. The income derived from the bonds shall be subject to all Federal taxes, now or hereafter imposed. The bonds shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The bonds will be acceptable to secure deposits of public moneys, but will not bear the circulation privilege and will not be entitled to any privilege of conversion.

4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of $50, $100, $500, $1,000, $5,000, $10,000 and $100,000. Provisions will be made for the interchange of bonds of different denominations and of coupons and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury

5. The bonds will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States bonds.

III. SUBSCRIPTION AND ALLOTMENT

1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Subscribers must agree not to sell or otherwise dispose of their subscriptions, or of the securities which may be allotted thereon, prior to the closing of the subscription books. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Others than banking institutions will not be permitted to enter subscriptions except for their own account. Subscriptions from banks and trust companies for their own account will be received without deposit. Subscriptions from all others must be accompanied by payment of 10 percent of the amount of bonds applied for. Subscriptions will be entertained from the various classes of subscribers on the following bases:

(1) Banks and trust companies for their own account—not to exceed 50 percent of capital and surplus.

(2) Mutual savings and cooperative banks, Federal Savings and Loan Associations, trust accounts and investment corporations, pension funds, insurance companies, and similar institutions and funds—not to exceed ten percent of total resources.

(3) Corporations organized for profit, and dealers and brokers—not to exceed 50 percent of net worth.

(4) Individuals—not to exceed 50 percent of net worth or 100 percent of cash deposited with subscription. (Note: No preferred allotment will be made on such full-paid subscriptions.)

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of bonds applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subscriptions for amounts up to and including $5,000 where the subscribers specify that delivery be made in registered bonds 90 days after the issue date will be given preferred allotment. In each such case a subscriber may not enter any other subscription, and payment must be made as provided in Section IV of this circular. Allotment notices will be sent out promptly upon allotment, and the basis of the allotment will be publicly announced.

IV. PAYMENT

1. Payment at par and accrued interest, if any, for bonds allotted hereunder must be made or completed on or before February 25, 1942, or on later allotment. In every case where payment is not so completed, the payment with application up to 10 percent of the amount of bonds applied for shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. Any qualified depositary will be permitted to make payment by credit for bonds allotted to it for itself and its customers up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its district.

V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective districts, to issue allotment notices, to receive payment for bonds allotted, to make delivery of bonds on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive bonds.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

Bituminous Coal Division.

[Docket No. B-195]

IN THE MATTER OF FRANK GERARD AND HESTON RUMPLE, INDIVIDUALLY AND AS CO-PARTNERS DOING BUSINESS UNDER THE NAME AND STYLE OF GERARD AND RUMPLE, CODE MEMBER, DEFENDANT

NOTICE OF AND ORDER FOR HEARING

A complaint dated January 29, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, having been duly filed on February 2, 1942, by Bituminous Coal Producers Board for District No. 11, a district board, complainant, with the Bituminous Coal Division alleging willful violation by the defendants of the Bituminous Coal Code or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on March 27, 1942, at 10 a. m., at a hearing room of the Bituminous Coal Division at the Post Office Building, Terre Haute, Indiana.

It is further ordered, That Joseph D. Dermody or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said defendants and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given, that answer to the complaint must be filed with the Bituminous Coal Division at its Washington office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the defendants; and that any defendant failing to file an answer within such period, unless otherwise ordered, shall be deemed to have admitted the allegations of the complaint herein and to have consented to the entry of an appropriate order on the basis of the facts alleged.

All persons are hereby notified, that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging willful violation by the above-named defendant of the Bituminous Coal Code or rules and regulations thereunder as follows:

That said defendants, whose addresses are R. F. D. No. 2, Dana, Indiana, and whose code membership became effective as of December 20, 1939, during the period October 7, 1940, to February 28, 1941, both dates inclusive, sold (a) approximately 167.65 net tons of mine run coal at $2.00 per net ton f. o. b. the mine (b) approximately 54.45 net tons of 1¼" x 0 screenings at $1.00 per net ton f. o. b. the mine, and (c) approximately 2.10 net tons of 1¼" x 7/16" coal at $1.25 per net ton f. o. b. the mine, all of which coal was produced by defendants at their Gerard Mine, Mine Index No. 904, located in Vermillion County, Indiana, in District No. 11, whereas said coal is classified and priced in the Schedule of Effective Minimum Prices for District No. 11, For Truck Shipments, as follows: (a) mine run coal classified as Size Group No. 7 and priced at $2.15 per net ton f. o. b. said mine; (b) 1¼" x 0 screenings classified as Size Group No. 14 and priced at $1.45 per net ton f. o. b. said mine; and (c) 1¼" x 7/16" coal classified as Size Group No. 10 and priced at $1.85 per net ton f. o. b. said mine.

Notice is also given, That upon determination that the defendants have committed any one or more of the violations as alleged in the complaint, an order may be entered either revoking the code membership of the defendants, or directing the defendants to cease and desist from violating the Code and regulations made thereunder.

Dated: February 12, 1942.

CHAPTER VIII—SUGAR DIVISION OF THE AGRICULTURAL ADJUSTMENT ADMINISTRATION

PART 802—SUGAR DETERMINATIONS

DETERMINATION OF FAIR AND REASONABLE WAGE RATES FOR PERSONS EMPLOYED IN THE PRODUCTION AND CULTIVATION OF SUGARCANE IN THE MAINLAND CANE SUGAR AREA DURING THE CALENDAR YEAR 1942

Whereas section 301 (b) of the Sugar Act of 1937, as amended, provides the following as one of the conditions for payment to producers of sugar beets and sugarcane:

(b) That all persons employed on the farm in the production, cultivation, or harvesting of sugar beets or sugarcane with respect to which an application for payment is made shall have been paid in full for all such work, and shall have been paid wages therefor at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing; and in making such determinations the Secretary shall take into consideration the standards therefor formerly established by him under the Agricultural Adjustment Act, as amended, and the differences in conditions among various producing areas; *Provided, however,* That a payment which would be payable except for the foregoing provisions of this subsection may be made, as the Secretary may determine, in such manner that the laborer will receive an amount, insofar as such payment will suffice, equal to the amount of the accrued unpaid wages for such work, and that the producer will receive the remainder, if any, of such payment.

And whereas the Secretary of Agriculture has held a number of public hearings in the mainland cane sugar area for the purpose of receiving evidence likely to be of assistance to him in determining fair and reasonable wage rates for persons employed in the production and cultivation of sugarcane during the period from January 1, 1942 to December 31, 1942.

Now, therefore, I, Grover B. Hill, Assistant Secretary of Agriculture, after investigation and due consideration of the evidence obtained at the aforesaid hearings and all other information before me, do hereby determine that:

§ 802.24i *Fair and reasonable wage rates for persons employed in the production and cultivation of sugarcane in the mainland cane sugar area during the calendar year 1942.* The requirements of section 301 (b) of the Sugar Act of 1937, as amended, shall be deemed to have been met with respect to the production and cultivation of sugarcane in the mainland cane sugar area during the period from January 1, 1942 to December 31, 1942, if all persons employed on the farm during that period in the production and cultivation of sugarcane shall have been paid in full for all such work and shall have been paid wages in cash therefor at rates not less than the following:

(a) *Louisiana.* (1) Tractor drivers: Not less than $1.90 per 9-hour day or 21.5 cents per hour.

(2) Teamsters: Not less than $1.50 per 9-hour day or 17 cents per hour.

(3) All other adults engaged in the production and cultivation of sugarcane (excluding harvesting): Adult male workers, not less than $1.50 per 9-hour day or 17 cents per hour; adult female workers not less than $1.25 per 9-hour day or 14 cents per hour.

(4) Children between the ages of 14 and 16 years: Not less than $1.15 per day of 8 hours (maximum hours per day for such children). For a working day shorter than 8 hours, the rate shall be not less than 14.5 cents per hour.

(b) *Florida.* (1) Tractor drivers: Not less than $2.25 per 9-hour day or 25 cents per hour.

(2) All other adults engaged in the production and cultivation of sugarcane (excluding harvesting): Adult male workers not less than $2.00 per 9-hour day or 22.5 cents per hour; adult female workers not less than $1.65 per 9-hour day or 18.5 cents per hour.

(3) Children between the ages of 14 and 16 years: Not less than $1.50 per day of 8 hours (maximum hours per day for such children). For a working day shorter than 8 hours, the rate shall be not less than 19 cents per hour.

(c) *Provisos.* Provided, however, (1) That if work is performed on any piece rate basis the earnings per hour or per day shall not be less than the applicable rates per hour or per day specified above for adult male workers or adult female workers, or children between the ages of 14 and 16 years;

(2) That for a working day longer or shorter than 9 hours, the applicable time rate for a particular operation shall be the hourly rate specified above for such operation;

(3) That the producer shall furnish to the laborer, without charge, the customary perquisites, such as, a habitable house, a suitable garden plot with facilities for its cultivation, pasturage for livestock, medical attention, and similar incidentals;

(4) That the producer shall not, through any subterfuge or device whatsoever, reduce the wage rates to laborers below those determined above; and

(5) That nothing in this determination shall be construed to mean that a producer may qualify for a payment under the act who has not paid in full the amount agreed upon between the producer and laborers. (Sec. 301, 50 Stat. 909; 7 U.S.C. 1131)

Done at Washington, D. C., this 16th day of February 1942. Witness my hand and seal of the Department of Agriculture.

TITLE 10—ARMY: WAR DEPARTMENT

CHAPTER VII—PERSONNEL

PART 73—APPOINTMENT OF COMMISSIONED OFFICERS, WARRANT OFFICERS, AND CHAPLAINS[1]

OFFICERS APPOINTED IN THE ARMY OF THE UNITED STATES UNDER THE PROVISIONS OF THE ACT OF SEPTEMBER 22, 1941

§ 73.207 *Qualifications for initial appointments.*

* * * * *

(c) (1) Authority is granted to Corps Area commanders to waive the provisions of § 61.69 (d) of this chapter, for the appointment as second lieutenant, Army of the United States (Medical Administrative Corps), of physically qualified male citizens of the United States above the age of eighteen years who are bona fide accepted matriculants at approved medical schools within the United States. Officers so appointed will not be ordered to active duty until eligible for appointment as first lieutenant, Army of the United States (Medical Corps).

(2) (i) Appointment will be made without reference to an examining board as prescribed in § 61.5 (c) of this chapter, and without reference to procurement objectives.

(ii) Applications and accompanying papers as prescribed in AR 605–10,[2] as amended, and §§ 73.200 to 73.218, will be forwarded by the Dean of the medical school to the Commanding General of the Corps Area in which the school is located, together with a certified statement that the applicant is a bona fide accepted matriculant in medicine at the institution.

(iii) Officers appointed under the provisions of this paragraph will be discharged for the convenience of the Government, under the following circumstances:

(*a*) Discontinuance of medical education.

(*b*) Matriculation at an unapproved school of medicine.

(*c*) Failure to complete successfully the prescribed four-year course of medical instruction.

(*d*) Failure to secure appointment in the Army of the United States (Medical Corps) within one year after completion of the prescribed four-year course of medical instruction.

(3) Students at approved schools of medicine, dentistry, or veterinary medicine who already hold Reserve commissions in other arms or services will not be ordered to active duty until they:

(i) Come within the provisions of subparagraph (2) (iii) (*a*), (*b*), (*c*), or (*d*) of this paragraph, or

(ii) Successfully complete the prescribed four-year course of medical instruction, in which latter event they may be transferred to the Medical Corps Reserve in the grade of first lieutenant.

CHAPTER VIII—PROCUREMENT AND DISPOSAL OF EQUIPMENT AND SUPPLIES

PART 81—PROCUREMENT OF MILITARY SUPPLIES AND ANIMALS[1]

§ 81.15 *Forms of agreement.* All transactions which involve the expenditure of funds for the procurement of supplies, as defined in AR 5–100[2] and in § 81.1 to 81.9 of this title, must be evidenced by a written record as prescribed in paragraphs (a) and (b) of this section.

(a) *Formal contracts.* (1) Transactions will be evidenced by formal contracts: (i) When the amount involved is more than $500,000.

(ii) When the amount involved is more than $500 and the delivery or performance time is more than 60 days.

(iii) When otherwise required by law.

(2) Transactions payable from funds appropriated for national defense or war purposes need not be evidenced by formal contracts when the amount involved exceeds $500, does not exceed $500,000, and delivery or performance time does not exceed 180 days.

(b) *Informal contracts*—(1) *Written bid and acceptance.* Transactions falling in the categories below need not be evidenced by a formal contract, but a complete written agreement, comprising a bid, or, if authorized by AR 5–240[2] and §§ 81.32 and 81.33 of this title, a written informal quotation signed by the contractor and an acceptance signed by the contracting officer, is required:

(i) When the amount involved exceeds $500, does not exceed $500,000, and delivery or performance time does not exceed 60 days.

(ii) When the amount involved does not exceed $500 and more than one payment is involved.

(2) *Oral or written quotation and written acceptance.* Open-market purchases authorized and made in accordance with AR 5–240, which do not exceed $500, which are based on an oral quotation, and which involve only one payment, do not require a written agreement, but a written acceptance signed by the purchasing officer is required. Where such purchases are based on a written quotation, the form of the agreement will be as prescribed in subparagraph (1) of this paragraph; that is, the agreement will consist of the written quotation and the written acceptance. (See MS. Comp. Gen. A–14836, A–28906, April 28, 1938.)

(3) *Informal quotation and signed acceptance.* Transactions payable from funds appropriated for national defense or war purposes need not be evidenced by a bid signed by the contractor when the amount involved exceeds $500, does not exceed $500,000, and delivery or performance time does not exceed 180 days. In such cases, a written informal quotation signed by the contractor and an acceptance signed by the contracting officer will suffice. PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF MCK. EDWARDS

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly—Results:* § 3.6 (y) *Advertising falsely or misleadingly—Safety:* § 3.71 (e) *Neglecting, unfairly or deceptively, to make material disclosure—Safety.* In connection with offer, etc., of respondent's "McK. Edwards Eczema Remedy", or any other similar product, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, purchase in commerce, etc., of said preparation, which advertisements (1) represent, directly or through inference, that said preparation (a) is a cure or remedy for all types of eczema, or for any type of eczema except such as may be due to fungus infection, or has any therapeutic value in the treatment of eczema (except that due to fungus infection in excess of affording relief in some cases from the symptom of itching; and (b) is a cure or remedy for poison ivy or poison oak, or is a competent or effective treatment for, or has any therapeutic value in, the treatment of such conditions in excess of affording temporary relief from the symptom of itching; or which advertisements (2) fail to reveal that the use of said preparation may in some cases produce an excoriating effect upon the skin of the user; or may produce an acute and painful rash upon the skin of the user; or may, if used on certain types and conditions of eczema, seriously aggravate the eczematous condition; prohibited, subject to the provision, however, as respects said last prohibition, that such advertisements need contain only the statement, "Caution, use only as directed" if and when the directions for use wherever they appear on the label, in the labeling, or both, contain warnings to the above effect. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, McK. Edwards, Docket 4317, February 9, 1942]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 9th day of February A. D. 1942.

This proceeding having been heard by the Federal Trade Commission on the complaint of the Commission, the answer of respondent, testimony and other evidence in support of and in opposition to the allegations of the complaint taken before an examiner of the Commission theretofore duly designated by it, report of the trial examiner and exceptions thereto, and brief in support of the allegations of the complaint, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That respondent McK. Edwards, an individual, his representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of "McK. Edwards Eczema Remedy,", or any other product of substantially similar composition or possessing substantially similar properties, whether sold under the same name or any other name, do forthwith cease and desist from directly or indirectly:

(1) Disseminating or causing to be disseminated, by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement

(A) Which represents, directly or through inference, that said preparation

(a) Is a cure or remedy for all types of eczema, or for any type of eczema except such as may be due to fungus infection, or has any therapeutic value in the treatment of eczema (except that due to fungus infection) in excess of affording relief in some cases from the symptom of itching;

(b) Is a cure or remedy for poison ivy or poison oak, or is a competent or effective treatment for, or has any therapeutic value in, the treatment of such conditions in excess of affording temporary relief from the symptom of itching;

(B) Which fails to reveal that the use of said preparation may in some cases produce an excoriating effect upon the skin of the user; or may produce an acute and painful rash upon the skin of the user; or may, if used on certain types and conditions of eczema, seriously aggravate the eczematous condition: *Provided, however*, That such advertisement need contain only the statement, "Caution, use only as directed" if and when the directions for use wherever they appear on the label, in the labeling, or both, contain warnings to the above effect.

(2) Disseminating or causing to be disseminated, by any means, any advertisement for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase of said preparation in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any of the representations prohibited in paragraph (1) hereof, or which advertisement fails to reveal the dangerous consequences which may result from the use of said preparation as required in said paragraph (1) hereof.

It is further ordered, That the respondent shall, within sixty (60) days after the service upon him of this order,

file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

CHAPTER I—FEDERAL POWER COMMISSION

[Order No. 90]

PART 260—NATURAL GAS ACT STATEMENTS AND REPORTS

FEBRUARY 7, 1942.

§ 260.3 *Annual report; Form 133–M.* The Federal Power Commission, acting pursuant to authority granted by the Natural Gas Act, particularly sections 10 (a) and 15 thereof, and finding such action necessary and appropriate for carrying out the provisions of said Act:

(a) Hereby adopts, promulgates and prescribes for the use of natural-gas companies as defined in the Natural Gas Act (52 Stat. 821) which are included in Classes C and D as defined in the Commission's Uniform System of Accounts Prescribed for Natural Gas Companies subject to the provisions of the Natural Gas Act, for the year 1941, and annually thereafter, the accompanying form of Annual Report designated as FPC Form No. 123–M.[1]

(b) Hereby *orders* that each natural-gas company as defined in the Natural Gas Act (52 Stat. 821) which is included in Classes C and D as defined in the Commission's Uniform System of Accounts Prescribed for Natural Gas Companies subject to the provisions of the Natural Gas Act, shall file with the Commission an original and two conformed copies, duly executed, of such Annual Report on the aforesaid FPC Form No. 133–M, for the year 1941, and annually thereafter, said Annual Report to be filed on or before the last day of the third month following the close of the calendar year or other established fiscal year.

(c) The Secretary of the Commission shall cause prompt publication of this order to be made in the FEDERAL REGISTER. (Secs. 10 (a), 16, 52 Stat. 826, 830; 15 U.S.C. 717i, 717o)

PART 15—PROTESTS AND REAPPRAISEMENTS

CUSTOMS REGULATIONS AMENDED—PROTESTS

Section 15.2 (a) [Article 849 (a) of the Customs Regulations of 1937] is amended by substituting "not be considered" for "be rejected" in the second sentence, and by adding at the end thereof a new sentence reading:

§ 15.2 *Form of protest.* (a) • • • A protest signed by an agent or attorney not named in a power of attorney required by this article shall be received by the collector and forwarded to the United States Customs Court for a decision as to the authority of the agent or attorney to file the protest; but the collector shall not review the protest or otherwise proceed under section 515 of the Tariff Act of 1930 unless the court shall have first ruled affirmatively on the authority of the agent or attorney. When forwarding the protest to the court, the collector shall attach thereto an explanation that he has not complied with section 515 because the authority of the agent or attorney to file the protest has not been established. TITLE 30—MINERAL RESOURCES

CHAPTER III—BITUMINOUS COAL DIVISION

[Docket Nos. A-1271, A-1275, and A-1278]

PART 323—MINIMUM PRICE SCHEDULE, DISTRICT NO. 3

ORDER OF CONSOLIDATION AND ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITIONS OF BITUMINOUS COAL PRODUCERS BOARD FOR DISTRICT NO. 3 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 3; OF E-Z FUEL COMPANY, FOR CHANGE IN SHIPPING POINT FOR ITS E-Z NO. 2 MINE, MINE INDEX NO. 192, IN DISTRICT NO. 3; AND OF L. E. SNELL (SNELL BROS. COAL CO.) FOR CHANGE IN SHIPPING POINT FOR HIS GRAFTON MINE, MINE INDEX NO. 1228, IN DISTRICT NO. 3

Original petitions having been duly filed with this Division by the above-named parties, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 3; and

It appearing that the above-entitled matters raise similar and related issues; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with this Division in the above-entitled matters; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That the above-entitled matters be, and the same hereby are, consolidated.

It is further ordered, That pending final disposition of the above-entitled matters, temporary relief be, and the same hereby is, granted as follows: Commencing forthwith, § 323.6 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, § 323.8 (*Special prices*—(b) *Railroad fuel prices for all movements except via lakes*) is amended by adding thereto Supplement R–II, § 323.8 (*Special prices*—(c) *Railroad fuel prices for movement via all lakes—all ports*) is amended by adding thereto Supplement R–III, § 323.3 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof, and, commencing forthwith, the shipping points and freight origin group numbers appearing in the aforesaid "Supplement R" for Mine Index No. 192 and Mine Index No. 1228, are effective in place of the shipping points and freight origin group numbers heretofore established for these mines.

It is further ordered, That pleadings in opposition to the original petitions in the above-entitled matters, and applications to stay, terminate, or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless otherwise ordered.

Dated: January 29, 1942.

[Docket No. A-1154]

PART 330—MINIMUM PRICE SCHEDULE, DISTRICT NO. 10

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 10 FOR A CHANGE IN THE PRICE EXCEPTION APPLICABLE TO THE COALS OF MINE INDEX NO. 125 FOR RAILROAD LOCOMOTIVE FUEL AND FOR A CHANGE IN PRICE EXCEPTION NO. 23 FOR RAILROAD LOCOMOTIVE FUEL IN THE SCHEDULE OF EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 10, FOR ALL SHIPMENTS EXCEPT TRUCK

This proceding was instituted upon an original petition dated November 5, 1941, filed with the Bituminous Coal Division on November 7, 1941, by District Board 10 pursuant to Section 4 II (d) of the Bituminous Coal Act of 1937.

The petition requests that the coals of the Osage Mine (Mine Index No. 125) of the Osage Coal Company, now classified in Freight Origin Group No. 114 and Price Group No. 30 be given railroad locomotive fuel price under the provisions of Exception No. 1–J in the Schedule of Effective Minimum Prices for District No. 10 For All Shipments Except Truck rather than Price Exception No. 1–H; and further requests that Price Exception 23 for railroad locomotive fuel in said schedule be amended to read as follows: "The producer may absorb the actual switching charge but not to exceed 18 cents per ton on railroad locomotive fuel for the Illinois Terminal Railroad."

By Order of the Director dated November 19, 1941, 6 F.R. 5968, temporary relief was granted as requested by the petitioner;

Pursuant to the Order of the Director referred to above and after notice to interested persons, a hearing in this matter was held on January 6, 1942, before Charles O. Fowler, a duly designated Examiner of the Bituminous Coal Division, at a hearing room thereof in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. The original petitioner appeared. The preparation and filing of a report by the Examiner was waived and the matter was thereupon submitted to the undersigned.

The petition of District Board 10 requests that the coals of the Osage Mine (Mine Index No. 125) of the Osage Coal Company, for sale as locomotive fuel be classified under Price Exception 1–J instead of in Price Exception No. 1–H, which was established to insure a delivered price to the railroads listed in that exception of $3.40 per net ton for mine run coal. This mine was given Price Exception 1–H on the basis of the freight rate of $1.20 per ton when, as a matter of fact, the freight rate from the Osage Mine to the railroads listed in Price Exception 1 is $1.30 per ton. The record indicates that the prices for the Osage Mine should therefore be reduced 10 cents per ton which could be effected by classifying it under Price Exception 1–J which provides for a mine run price of $2.10 and a modified mine run price of $2.15 per ton.

Price Exception 23 in the Schedule of Effective Minimum Prices for District No. 10 for All Shipments Except Truck at present reads: "The producer may absorb the actual switching charge but not to exceed 16 cents per ton on railroad locomotive fuel for the Illinois Terminal Railroad." It appears from the record that when Price Exception No. 23 was included in the Schedule of Effective Minimum Prices for All Shipments Except Truck, the actual switching charge was in fact 16 cents. However, the Tariff in which the present rate of 18 cents is contained was dated October 3, 1940, two days after the effective date of minimum prices.

There was no opposition to the requested relief. Testifying in support of the petition, Mr. J. R. Henderson, Chairman of District Board 10, explained that the coals of the Osage Mine for railroad locomotive fuel price were improperly classified in General Docket No. 15 and that the relief requested, if granted, will result in properly classifying such coal and will not prejudice the interests of other producers in the district. In view of the tariff change since October 1, 1940, the need for revising Exception No. 23 as requested seems clear. The Order of November 19, 1941, granting temporary relief should, I find, be made permanent in order to comply with the applicable standards of the Act and to effectuate the purposes thereof.

Now, therefore, it is ordered, That effective fifteen (15) days from the date hereof, § 330.10 (*Special prices*—(a) *Railroad locomotive fuel prices*—(3) *Exceptions*) in the Schedule of Effective Minimum Prices for District No. 10 for All Shipments Except Truck be and it hereby is amended as follows:

1. Price Exception 23 to the Railroad Locomotive Fuel Prices to read: "The producer may absorb the actual switching charge but not to exceed 18 cents per ton on railroad locomotive fuel for the Illinois Terminal Railroad."

2. The Osage Mine (Mine Index No. 125) of the Osage Coal Company be listed in Exception No. 1–J in the Exceptions to the Railroad Locomotive Fuel Prices instead of in Exception No. 1–H.

Dated: February 12, 1942.

TITLE 31—MONEY AND FINANCE: TREASURY

CHAPTER I—MONETARY OFFICES

PART 141—REGULATIONS RELATING TO PROPERTY VESTED IN THE SECRETARY OF THE TREASURY PURSUANT TO SECTION 5 (b) OF THE TRADING WITH THE ENEMY ACT, AS AMENDED

FEBRUARY 16, 1942.

§ 141.1 *Authority for regulations.* The regulations in this part are prescribed and issued by virtue of the authority vested in the Secretary of the Treasury by the President pursuant to section 5 (b) of the Trading with the enemy Act, as amended by section 301 of the First War Powers Act, 1941.*

*§§ 141.1 and 141.2 issued under the authority contained in sec. 5 (b), 40 Stat. 415, 966; sec. 2, 48 Stat. 1; 54 Stat. 179; Pub. Law 354, 77th Cong.

§ 141.2 *Receipt and disposition of claims.* The following procedure is hereby established for the receipt and disposition of claims to property vested in the Secretary of the Treasury pursuant to section 5 (b) of the Trading with the Enemy Act, as amended by section 301 of the First War Powers Act, 1941:

(a) Claims to property vested in the Secretary of the Treasury pursuant to section 5 (b) of the Trading with the enemy Act, as amended, shall be filed with the Secretary of the Treasury on Form TFVP–1 in sextuplicate. Such claims shall be filed within such time, after the vesting in the Secretary of the Treasury of the property to which they relate, as the Secretary shall prescribe. Form TFVP–1 may be obtained from the Secretary of the Treasury, Washington, D. C. The original of each claim shall be executed under oath before an officer authorized to administer oaths, or if executed outside of the United States, before a diplomatic or consular officer of the United States.

(b) There shall be a committee to be known as the Vested Property Claims Committee, to be composed of three members designated by the Secretary of the Treasury. The members of the Committee shall designate one of their number to be Chairman. The Committee is empowered to hear claims respecting property vested in the Secretary of the Treasury pursuant to section 5 (b) of the Trading with the enemy Act, as amended, in accordance with rules and procedures to be formulated by the Committee. The Committee shall have all powers necessary to carry out its functions, including the power to call witnesses and to compel the production of books of accounts, records, contracts, memoranda, and other papers.

(c) The Secretary of the Treasury shall transmit to the Committee claims relating to property vested in the Secretary of the Treasury pursuant to section 5 (b) of the Trading with the enemy Act, as amended.

(d) Appropriate notice of hearing shall be given by the Committee at least 10 days before the time set for the hearing. This requirement of notice may be waived by any claimant.

(e) Claimants and the Secretary of the Treasury shall be entitled to representation by counsel, or otherwise, before the Committee.

(f) The Committee shall have a seal which shall be affixed to all exemplifications of the records and such other documents, orders, or notices as the Committee may determine.

(g) A complete record, including a transcript of the testimony, shall be made of any hearing before the Committee. The Committee shall transmit the record, including its findings and recommendations, to the Secretary of the Treasury.

(h) The Secretary of the Treasury, after the examination of the record, will issue a decision and will give appropriate notice of the decision rendered. The Secretary of the Treasury will take appropriate action to effectuate any decision so rendered.*

By direction of the President.

TITLE 32—NATIONAL DEFENSE

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 923—TUNGSTEN

Conservation Order No. M–29–b Curtailing the Use of Tungsten in Certain Items

Whereas, national defense requirements have created a shortage of tungsten for the combined needs of defense, private account, and export; and the supply now is and will be insufficient for defense and essential civilian requirements unless its use in the manufacture of many products where such use is not absolutely necessary for the defense or essential civilian requirements is curtailed or prohibited as hereinafter provided;

Now, therefore, it is hereby ordered that:

§ 923.4 *Conservation Order M–29–b*—(a) *Prohibition on use of tungsten in articles appearing on List A.* (1) Between February 1 and April 30, 1942, inclusive, no person shall use in the manufacture of any item on List A more tungsten than 17½% of the tungsten used by him for such item during the 12-months period ending June 30, 1941.

(2) Effective May 1, 1942, no tungsten shall be used in the manufacture of any item on List A.

(b) *Limitation on all other uses of tungsten.* (1) Between February 1 and March 31, 1942, inclusive, no person shall use in the manufacture of any article not covered by paragraphs (a) or (c) of this section more tungsten than 12% of the tungsten used by him for such article during the 12-months period ending June 30, 1941.

(2) Beginning April 1, 1942, no person shall use during any calendar quarter in the manufacture of any article not covered by paragraphs (a) or (c) of this section more tungsten than 17½% of the tungsten used by him for such article in the 12-months period ending June 30, 1941.

(c) *General exceptions.* Where and to the extent the use of any less scarce material is impracticable, the prohibitions, limitations and restrictions contained in paragraphs (a) and (b) shall not apply to the use of tungsten in the manufacture of any item on or for any of the uses set forth on List B attached, nor in the manufacture of any item which is being produced:

(1) for delivery under a specific contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development or for any foreign country pursuant to the Act of March 11, 1941 entitled "An Act to Promote the Defense of the United States," (Lend-Lease Act) if in any such case the use of tungsten to the extent employed is required by the specifications of the prime contract, or

(2) to comply with Safety Regulations issued under government authority, provided the pertinent provisions of such regulations were in effect both on December 1, 1941, and on the date of such use, and specifically and exclusively require the use of tungsten to the extent employed, or

(3) with the assistance of a preference rating of A–1–j or higher.

(d) *Prohibitions against sales or deliveries.* No person shall hereafter sell or deliver tungsten to any person if he knows, or has reason to believe, such material is to be used in violation of the terms of this section.

(e) *Limitation of inventories.* No manufacturer shall receive delivery of tungsten, (including scrap) or products thereof, in the form of raw materials, semi-processed materials, finished parts or sub-assemblies, nor shall he put into process any raw material, in quantities which in either case shall result in an inventory of such raw, semi-processed or finished material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the production of tungsten products by this section.

(f) *Miscellaneous provisions*—(1) *Applicability of Priorities Regulation No. 1.* This section and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this section shall govern.

(2) *Appeal.* Any person affected by this section who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of tungsten conserved, or that

compliance with this section would disrupt or impair a program of conversion from non-defense work to defense work, may appeal to the War Production Board, Reference: M–29–b, on such forms as may be prescribed by said Board, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(3) *Applicability of section.* The prohibitions and restrictions contained in this section shall apply to the use of material in all articles hereafter manufactured irrespective of whether such articles are manufactured pursuant to a contract made prior or subsequent to the effective date hereof, or pursuant to a contract supported by a preference rating. Insofar as any other order issued by the Director of Priorities or the Director of Industry Operations may have the effect of limiting or curtailing to a greater extent than herein provided the use of tungsten in the production of any article, the limitations of such other order shall be observed. In the absence of a specific direction by the Director of Industry Operations to the contrary, insofar as this section may have the effect of limiting or curtailing to a greater extent than is provided in General Preference Order M–29 [1] or any other order of the Director of Priorities or of the Director of Industry Operations, or any preference rating certificate, the use of tungsten in the production of any article, the limitations imposed by this section shall be observed.

(4) *Violations or false statements.* Any person who wilfully violates any provision of this section, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this section, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(5) *Definitions.* For the purposes of this section:

(i) "Tungsten" means and includes:

(a) Ores and concentrates, including beneficiated or treated forms, containing tungsten (commercially recognized).

(b) The element tungsten in pure form, ferrotungsten, tungsten in the form of metal powder, and other combinations with other elements in semi-manufactured or manufactured form, prepared for consumption in the manufacture of steel, or for other purposes.

(c) All chemical compounds having tungsten as an essential and recognizable component.

(d) All scrap or secondary material containing commercially recoverable tungsten as defined in (a), (b), and (c) above, excluding tungsten-bearing iron and steel scrap.

(ii) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control of or under common control with or available for the use of such person.

(iii) "Manufacture" means to fabricate, assemble or process in any way, but does not include installation of a finished product for the ultimate consumer.

(iv) "Item" means any article or any component part thereof.

(v) "Use" means both (a) the act of putting tungsten into process in the manufacture of any item and (b) the act of completing the manufacture of any such item. (Where a person is limited to a percentage of the material used in a base period, this limitation applies respectively to (1) the amount of material put into process during the base period and (2) the total amount of material contained in a completed item or article multiplied by the number of such items or articles completed during the base period. Each restriction must be applied separately.)

(vi) "Put into process" means the first change by a manufacturer in the form of material from that form in which it is received by him.

(6) *Effective date.* This section shall take effect upon the date of issuance and shall continue in effect until revoked by the Director of Priorities. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Issued this 14th day of February 1942.

J. S. KNOWLSON,
Director of Industry Operations.

List A of Conservation Order M–29–b

The use of tungsten in the items listed below and in all component parts thereof is prohibited except to the extent permitted by the foregoing Conservation Order.

Grinding Wheels.
Gauges.
Coloring material for rubber, linoleum or other similar materials.
Coloring or coating materials for paper of any and all descriptions, including wall paper.

List B of Conservation Order M–29–b

The uses, and the items listed below and parts thereof are excepted from the prohibitions and restrictions contained in paragraphs (a) and (b) of the foregoing Conservation Order, but only to the extent indicated below and only to the extent that the use of any less scarce material is impractical.

Corrosion-resisting material.
Tungsten-bearing alloy steel in all forms.
Hard-facing materials.
Hard-cutting alloys (cemented carbides), tools and tool tips.
Atomic hydrogen welding rods.
Laboratory reagents and pharmaceuticals.
Laboratory and research equipment.
Electrical equipment, including ignition systems.
Radio equipment.
X-Ray and physical therapy equipment.
Electronic relays.
Electric lighting—filament and fluorescent.

PART 976—MOTOR TRUCKS, TRUCK TRAILERS AND PASSENGER CARRIERS

Supplementary General Limitation Order L–1–d

Requiring certain reports to be filed by dealers, distributors and finance companies, dealing with Motor Trucks, Truck Trailers and all manufacturers of such vehicles.

It is hereby ordered, That:

§ 976.14 *Supplementary General Limitation Order L–1–d—*(a) *Inventories to be taken as of February 11 and February 28, 1942.* In order that the War Production Board may obtain a full and complete inventory of all light, medium and heavy motor trucks, and truck trailers as of the close of business February 11, 1942 and February 28, 1942, every person engaged in the business of manufacturing, selling, distributing or financing light, medium and heavy motor trucks and truck trailers, as defined in Amendment No. 1 Limitation Order L–3, § 976.3 (light motor trucks), and Amendment No. 3 Limitation Order L–1–a, § 976.1 (a) (1) (Medium and heavy motor trucks and truck trailers), shall fill out the forms designated Office of Price Administration forms R–204, R–205, R–206 and R–207, as therein required, when the same are received from the Office of Price Administration.

(b) *Forms to be used.* Office of Price Administration forms R–204 and R–206 are to be used by dealers, distributors and finance companies; forms R–205 and R–207 are to be used by manufacturers.

(c) *Where to mail forms.* When completely filled out the originals and copies of forms R–204, R–205, R–206 and R–207 should be mailed according to directions appearing on the face of each form; the original to be mailed to the Office of Price Administration, Automobile Inventory Unit, Channin Building, 122 East 42nd Street, New York.

(d) *Effective date.* This section shall become effective immediately. (P.D Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. PART 1014—BURLAP AND BURLAP PRODUCTS

Amendment No. 3 to Conservation Order M–47 to Conserve the Supply and Direct the Distribution of Burlap and Burlap Products

Paragraph (i) of § 1014.1 (*Conservation Order M–47* [1]) is amended by adding thereto the following subparagraph (4) immediately after subparagraph (3):

"(i) *Quotas for users of agricultural bags.*

* * * * *

(4) The provisions of subparagraphs (1), (2) and (3) of this paragraph (i) shall not apply to purchases, sales, deliveries, or other dispositions of Agricultural Bags for the purpose of sacking and shipping of wool, as it is sheared, or for the purpose of sacking and shipping of seed potatoes or peanut seed, to any Person who requires such Agricultural Bags for actual use within the next thirty days after receipt thereof, for any such purpose. No Bag Manufacturer shall sell, deliver, or in any other manner dispose of Agricultural Bags to any such Person, unless and until such Bag Manufacturer shall have received from such Person a certificate, manually signed by such Person, or by an individual authorized to sign for such Person, substantially in the following form:

The undersigned hereby certifies to his vendor and to the War Production Board that the Agricultural Bags covered by the annexed purchase order are needed for sacking and shipping of (here insert wool, seed potatoes, or peanut seed, as the case may be), and they are needed by him for such use by him or for distribution to others for such use by them; that to the best of the undersigned's knowledge and belief, such Bags will be so used within the next thirty days after (here insert date when receipt of bags is required). The undersigned further certifies that the amount of Agricultural Bags covered by the annexed purchase order, together with all such Bags, new and/or second hand, now held by the undersigned, or now scheduled to be received by the undersigned on or before the delivery date specified in the annexed purchase order, will not be in excess of the amount required by him for use in the said thirty-day period.

The undersigned further certifies that all reasonable efforts have been made by the undersigned to obtain and use some other form of packaging but have not been successful.

No purchaser shall resell or deliver any unused bags so purchased to any other Person, unless and until such purchaser shall have first received from such other Person a certificate in the above form.

Every Bag Manufacturer must sell at regularly established prices and terms of sale and deliver any supply of Agricultural Bags held by him at any time after the effective date of this Amendment, whether theretofore or thereafter manufactured, for the purposes specified in this subparagraph (4), to Persons filing such certificates, and deliveries must be made to such Persons in the order of the commencement of the thirty-day periods specified in their said certificates. PART 1047—PETROLEUM

Supplementary Order No. M-68-1—General Exception Authorized by Paragraph (c) (10) of Conservation Order M-68, as Amended[2]

Whereas, immediate production of large quantities of Natural Gas in the States of New York, Pennsylvania, West Virginia, Ohio, and Kentucky is necessary for the continued effective operation of industries engaged in essential war production;

Now, therefore, it is hereby ordered that:

§ 1047.2 *Supplementary Order M-68-1*—(a) *Wells drilled to the Onandaga Limestone, Oriskany Sandstone or Devonian Shale Horizons.* The provisions of paragraph (b) of Conservation Order M-68, as amended, shall not apply to any case where Material is to be used by an Operator, engaged in the Production of natural gas in the States of New York, Pennsylvania, West Virginia, Ohio, or Kentucky, to drill, complete, or provide additions to any well drilled to the Onandaga Limestone, Oriskany Sandstone or Devonian Shale Horizons in any discovered or undiscovered natural gas field, other than a Condensate Field, located in the above-mentioned States, where such well conforms to a uniform spacing pattern of not more than one single well to each 160 surface acres: *Provided*, That no well be "spudded" by such Operator unless:

(1) Such well is to be drilled on a drilling unit of not less than 160 surface acres;

(2) The proposed drilling unit upon which such well is to be located consists entirely of acreage which is not attributable to any well other than such proposed well. The acreage attributable to wells offsetting the proposed drilling unit shall be determined by assigning to such wells an acreage equivalent to that in the existing well density or drilling pattern equivalent to such wells. No portion of a drilling unit shall fall within 330 feet of an existing well;

(3) All separate property interests of less than 160 surfaces acres or in tracts on which a well cannot be drilled in conformity with the terms of this Order, contained within the drilling unit on which any well is to be drilled, are first consolidated with each other, another, or other property interests to form a drilling unit of not less than 160 surface acres on which a well may be drilled under the terms of this Order;

(4) Before any well may be drilled, other than a well permitted to be drilled by paragraph (a) (3) of this Order, all separate property interests of less than 160 acres or in tracts in which a well cannot be drilled in conformity with the terms of this Order, adjoining or contiguous to a drilling unit on which a well can be drilled, are consolidated with each other, another, or other property interests to form a drilling unit of not less than 160 surface acres on which a well may be drilled in conformity with the terms of this Order;

(5) Such well is drilled at least 1980 feet from all wells "spudded" subsequent to December 23, 1941;

(6) Such well is drilled at least 990 feet from all wells "spudded" or completed on or before December 23, 1941;

(7) Such well is drilled at least 660 feet from any lease line, property line, or subdivision line which separates unconsolidated property interests.

(b) *Wells drilled to sands or horizons other than horizons specified in paragraph (a) of this section.* The provisions of paragraph (b) of Conservation Order M-68, as amended, shall not apply to any case where Material is to be used by an Operator, engaged in the Production of natural gas in the States of New York, Pennsylvania, West Virginia, Ohio, or Kentucky, to drill, complete, or provide additions to any well drilled to horizons other than those specified in paragraph (a) of this section in any discovered or undiscovered natural gas field, other than a Condensate Field, located in the above-mentioned States, where such well conforms to a uniform spacing pattern of not more than one single well to each 40 surface acres: *Provided*, That no well shall be "spudded" by such Operator unless:

(1) Such well is to be drilled on a drilling unit of not less than 40 surface acres;

(2) The proposed drilling unit upon which such well is to be located consists entirely of acreage which is not attributable to any well other than such proposed well. The acreage attributable to wells offsetting the proposed drilling unit shall be determined by assigning to such wells an acreage equivalent to that in the existing well density or drilling pattern equivalent to such wells. No portion of a drilling unit shall fall within 330 feet of an existing well;

(3) All separate property interests of less than 40 surface acres or in tracts on which a well cannot be drilled in conformity with the terms of this Order, contained within the drilling unit on which any well is to be drilled, are first consolidated with each other, another, or other property interests to form a drilling unit of not less than 40 surface acres on which a well may be drilled under the terms of this Order;

(4) Before any well may be drilled, other than a well permitted to be drilled by paragraph (b) (3) of this Order, all separate property interests of less than 40 surface acres or in tracts in which a well cannot be drilled in conformity with the terms of this Order, adjoining or contiguous to a drilling unit on which a well can be drilled, are consolidated with each other, another, or other property interests to form a drilling unit of not less than 40 surface acres on which a well may be drilled in conformity with the terms of this Order;

(5) Such well is drilled at least 990 feet from all wells "spudded" subsequent to December 23, 1941;

(6) Such well is drilled at least 660 feet from all wells "spudded" or completed on or before December 23, 1941;

(7) Such well is drilled at least 330 feet from any lease line, property line, or subdivision line which separates unconsolidated property interests.

(c) This Order shall take effect immediately. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. PART 1097—SHEARLINGS

General Conservation Order M-94 To Conserve the Supply and Direct the Distribution of Shearlings

Whereas the uncertainty of future shipments of shearlings and the fulfillment of requirements for the defense of the United States have resulted in a shortage in the supply of shearlings for defense, for private account, and for export, and it is necessary in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution of shearlings and to allocate the supply thereof in the manner hereinafter in this Order provided;

Now, therefore, it is hereby ordered, that:

§ 1097.1 *General Conservation Order M-94*—(a) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions and definitions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Additional definitions.* For the purposes of this Order:

(1) "Shearling" shall mean the skin of a sheep that has been shorn, a so-called California lamb skin, or other native lamb skin, whether raw, semi-processed, or finished, having a wool growth of 2" or less and a Bradford wool count of 50 and up.

(2) "Mouton" shall mean a shearling which has been fur dressed, made water repellent, and is of the type normally used in the manufacture of women's fur coats.

(3) "Process" shall mean tanning, dressing, dyeing or finishing.

(c) *Restrictions on processing.* No person shall hereafter process any shearling or cause it to be processed, except to the extent necessary to fill Defense Orders.

(d) *Restrictions on pulled wool.* No person shall hereafter pull or cause to be pulled any wool from any freshly flayed or salted sheep skin or lamb skin when the wool is of such a length and type as to constitute a wool growth of 2" or less having a Bradford wool count of 48 and up.

(e) *Restrictions on processed shearlings.* Any person owning or possessing processed or semi-processed shearlings not needed to fill his then existing Defense Orders, except shearlings, (1) of a natural black or mottled with black color, or (2) having a wool pile which will finish with less than a ¼" wool pile, or (3) which were processed prior to December 12, 1941 and are held in stock in a color other than beige, cream, white or logwood, must not finish such shearlings or cause them to be finished in a color not acceptable under specifications respecting processed shearlings in any Military or Naval contract which is unfilled on the date of this order or in any future Military or Naval contract and may use such shearlings only for filling such contracts.

(f) *Release of moutons and imperfect shearlings.* Any person having, owning or possessing

(1) Moutons which had been processed on or before December 12, 1941,

(2) Processed shearlings which cannot be used to fill Defense Orders because of imperfections in the wool or leather of the same,

may apply to have such released from the terms and provisions of this Order by making written application to the Director of Industry Operations, manually signed on behalf of the person requesting such release by a person duly authorized thereto, containing a statement of the reasons why such moutons and/or shearlings should be released and having at the end thereof the following statement:

The undersigned hereby represents to the Director of Industry Operations that the statements contained herein are true and correct with full knowledge that he may be prosecuted under Section 35 (A) of the Criminal Code (18 U.S.C. 80) for any false representations contained herein.

(g) *Repeal of telegraphic order.* This Order shall and hereby does repeal and revoke the telegraphic order sent by the Director of Priorities to shearling tanners on December 12, 1941.

(h) *Appeal.* Any person affected by this Order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of shearlings and moutons conserved, or that compliance with this Order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the War Production Board by letter or telegram, or upon such forms as may hereafter be prescribed, Reference M-94, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Communications to the War Production Board.* All communications concerning this Order shall, unless otherwise directed, be addressed to: "War Production Board, Washington, D. C. Ref: M-94.

(j) *Violations.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under Section 35 (A) of the Criminal Code (18 U.S.C. 80).

(k) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1 Amended, Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong. 3d Sess., as amended by Pub. No. 89, 77th Cong. 1st Sess.)

Issued this 16th day of February 1942.

PART 1105—SUGAR

General Preference Order No. M-98 to Conserve the Supply and Direct the Distribution of Raw Sugar

Whereas it appears that the fulfillment of requirements for the defense of the United States will result in a shortage in the supply of raw sugar for the combined needs of defense, private account and export, and it is necessary in the public interest and to promote the defense of the United States to conserve the supply and direct the distribution of raw sugar:

Now, therefore, it is hereby ordered, That:

§ 1105.1 *General Preference Order, M-98*—(a) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Definitions for the purposes of this order.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Raw Sugar" means any grade or type of saccharine product derived from sugarcane which is in crystalline form and which polarizes 98.5° or less, and any saccharine product of sugarcane in liquid form which is produced outside the continental United States and which contains non-sugar solids (excluding any foreign substance which may have been added) equal to 6 percentum or less of the total soluble solids.

(3) "Refiner" means any person in the continental United States who was engaged in the refining of Raw Sugar during the calendar year 1941.

(4) "Manufacturer" means any person in the continental United States who in 1941 bought or accepted Delivery from any source of Raw Sugar to use it in the manufacture of any product for human consumption, other than Direct-Consumption Sugar.

(5) "Delivery" means as follows:

(i) For Raw Sugar from foreign countries, arrival at a port of entry in the continental United States under customs' control.

(ii) For Raw Sugar for insular domestic areas, receipt at a port of entry in the continental United States.

(iii) For Raw Sugar produced in the continental United States, delivery as defined in the administration of the Sugar Act of 1937.

(c) *Restrictions on refiners and manufacturers.* Unless specifically authorized by the Director of Industry Operations, (1) no person other than a Refiner or a Manufacturer, or the agent of a Refiner or a Manufacturer, shall purchase, import, or accept delivery of Raw Sugar during the calendar year 1942.

(2) No Refiner shall purchase, import, or accept delivery of Raw Sugar during the calendar year 1942, in excess of any allotment which may be established from time to time for such Refiner by the Director of Industry Operations nor in violation of any order or regulation which may from time to time be prescribed by the Director of Industry Operations.

(3) No Manufacturer shall import or accept Delivery of Raw Sugar except in accordance with the provisions of General Preference Order No. M-55 as amended.

(d) *Records.* Each person participating in any transaction to which this Order applies shall keep and preserve for a period of not less than two years accurate and complete records of his in-

ventories of the Material or Materials to which such Order relates and of the details of all transactions in such Materials. Such records shall include the dates of all contracts or purchase orders accepted, the delivery dates specified in such contracts or purchase orders, and in any preference rating certificates accompanying them, the dates of actual deliveries thereunder, description of the Material covered by such contracts or purchase orders, description of deliveries by classes, types, quantities, weights and values, the parties involved in each transaction, the preference ratings, if any, assigned to deliveries under such contracts or purchase orders, details of Defense Orders and all other rated orders either accepted or offered and rejected, and other pertinent information.

(e) *Reports.* (1) Each Person participating in any transaction to which this Order applies shall execute and file with the War Production Board such reports and questionnaires as the War Production Board shall from time to time prescribe.

(2) Each Refiner accepting Delivery of Raw Sugar during the calendar year 1942 shall report to the War Production Board the information on the forms now required in the administration of the quota provisions of the Sugar Act of 1937 by filing such forms with the Sugar Division of the Department of Agriculture as agent of the War Production Board.

(f) *Appeal.* Any Person affected by this Order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him, may apply for relief to the War Production Board by telegram or letter, setting forth the pertinent facts and the reason such person considers that he is entitled to relief.

(g) *Violations.* Any person who willfully violates any provisions of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35A of the Criminal Code (18 U.S.C. 80).

(h) *Communications.* Appeals and other communications concerning this Order, with the exception of the reports referred to in paragraph C–4 hereof, should be addressed to: War Production Board, Washington, D. C. Ref: M–98.

(i) *Effective date and termination.* This Order will be effective until December 31, 1942 unless revoked, amended or modified prior thereto. (P.D. Reg. 1 Amended, Dec. 23, 1941, 6 F.R. 6660; W.P.B. CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 940—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

AMENDMENT NO. 7 TO SUPPLEMENTARY ORDER NO. M–15–c[1] TO RESTRICT TRANSACTIONS IN NEW RUBBER TIRES, CASINGS AND TUBES

Section 940.4 (c) (2) is amended to read as follows:

§ 940.4 *Supplementary Order M–15–c.*

* * * * * *

(c) *Prohibition on deliveries of new rubber tires, casings and tubes except to persons possessing certificates.*

* * * * * *

(2) The prohibition set forth in subparagraph (1) of this paragraph (c) which include prohibitions against both transfer of any legal or equitable right or interest in or to, or physical transfer of, any new rubber tire, casing or tube including the placing of such tire, casing or tube upon a wheel or rim shall not apply in the following cases:

(i) Any person who on December 11, 1941 was not a retailer, distributor, wholesaler or manufacturer, may transfer any new rubber tire, casing or tube which was owned and physically possessed by him prior to December 11, 1941, including the placing of such tire, casing or tube upon the wheel or rim of any vehicle owned or operated by him, provided no change in ownership, possession or control occurs.

(ii) Any person may deliver, ship, or transfer new tires or tubes to a public warehouse for storage, provided there is no change in ownership, use, or control involved in this delivery, shipment, or transfer.

Any person operating a public warehouse may deliver any new tire, casing or tube stored in such public warehouse after December 11, 1941, to the person who delivered such tire or tube for storage provided no such delivery may be made without first obtaining authorization for such delivery from the Office of Price Administration, Washington, D. C.

But such prohibitions shall apply to prevent any person who on December 11, 1941, or at any time thereafter was a retailer, distributor, wholesaler, or manufacturer, from mounting any new rubber tire, casing or tube upon any vehicle owned by him or otherwise subject to his control unless he holds a certificate issued by the Office of Price Administration, except a manufacturer may mount new tires, casings or tubes on a vehicle owned by him or otherwise subject to his control and used exclusively for testing purposes and not in connection with any other use. No provision of this paragraph (c) shall impose any liability upon any common carrier for the transportation in the regular course of its business of any new rubber tire, casing or tube not owned by such common carrier and shall not excuse any common carrier from its obligation to accept any goods for transportation. (§ 940.4 (a), 6 F.R. 6792)

This Amendment No. 7 shall become effective February 16, 1942. Issued February 16, 1942.

LEON HENDERSON,
Administrator.

Definitions

§ 1315.151 *Definitions.* For the purpose of these regulations—

(a) "Board" means a Local Rationing Board.

(b) "Camelback" means the uncured rubber compound applied to the worn tire to make the new tread in the process of recapping or retreading.

(c) "Commercial account" means a person who operates five or more vehicles using tires.

(d) "Consumer" of a tire or tube means any person who purchases or accepts delivery of a new tire or tube or retreaded or recapped tire for use and not for resale, or brings a tire to a retreader or recapper to be retreaded or recapped, the tire to be returned to such person but not for resale.

(e) "Delivery" means sale, lease, loan, trade, delivery, or shipment or any transaction involving a change in the right or title to, or interest in a commodity, but does not include changes in physical location not involving any such change in right, title, or interest.

(f) "Distributor" means a person selling new rubber tires, casings, or tubes both to consumers, including commercial accounts, and to persons who buy for purposes of resale.

(g) "List A" means the list of eligible vehicles set forth in § 1315.405.

(h) "List B" means the list of eligible vehicles set forth in § 1315.504.

(i) "Local defense council" means any person or body established pursuant to a State statute or State executive order to organize, administer, and direct State

defense efforts within any part of a State or within any political subdivision thereof.

(j) "Mail-order house" means any business establishment which prior to the issuance of these regulations, (§§ 1315.151 to 1315.1199, incl.) conducted a substantial part of its business by soliciting and filling mail orders based on a catalogue issued at regular intervals.

(k) "Manufacturer" means a person who manufactures new rubber tires, casings or tubes.

(l) "New" as applied to tires and tubes means a tire or tube that has been used less than 1,000 miles.

(m) "Passenger automobile" means any motor vehicle designed to carry fewer than ten passengers on the highway.

(n) "Passenger type tire" means a tire primarily designed for use on a passenger automobile.

(o) "Person" means any individual, partnership, corporation, association, Government, Government agency or subdivision, or other form of enterprise.

(p) "Purchase" means purchase, lease, trade, borrow, or accept delivery, shipment, or transfer by gift or otherwise.

(q) "Purchaser" means a person making a purchase as defined herein.

(r) "Recapped or retreaded tire" means any tire which has been retreaded or recapped and used less than 1,000 miles thereafter, and includes a retreaded or recapped tire, the carcass of which is supplied to the retreader or recapper by another person for retreading or recapping on behalf of such person.

(s) "Recapper or retreader" means any person who possesses retreading or recapping equipment and who, prior to or subsequent to, the date of these regulations (§§ 1315.151 to 1315.1199, incl.) engaged or is engaged in retreading or recapping for another person.

(t) "Recapping" means the process of tread renewal where the worn tread of the tire is buffed off the top surface of the tire and rubber is applied to the tread surface only, or the process of tread renewal where in addition to buffing off the worn tread the shoulders of the tire also are buffed below the shoulder design and rubber is applied to both the tread surface and tire shoulders.

(u) "Retailer" means a person selling new rubber tires, casings or tubes exclusively to consumers, including commercial accounts.

(v) "Retreading" means the process of reconditioning a tire by removing all the original tread rubber from the worn tire down to the fabric and applying rubber to the tread surface and sidewalls.

(w) "Rubber" means all forms and types of rubber including reclaimed rubber.

(x) "State" means any State, Territory or possession of the United States and the District of Columbia.

(y) "State defense council" means any person or body established pursuant to a State statute or State executive order to organize, administer, and direct State defense efforts over a State-wide area.

(z) "Tire" means any solid or pneumatic rubber tire or casing capable of being used on any passenger automobile, truck, bus, motorcycle, or farm implement.

(aa) "Transfer" means sale, lease, loan, trade, shipment, delivery or transfer or any transaction involving a change in right or title to, or interest in any commodity, including any changes in use or physical location, and including the placing of a tire or tube upon a wheel or rim.

(bb) "Truck" means any vehicle other than a passenger automobile or station wagon, designed for use on the highways to carry freight, including raw materials, semi-finished goods and finished products, farm products and foods, or designed for use for road-grading, earth-moving, or other similar off-the-road purposes.

(cc) "Tube" means any rubber tube capable of being used within a tire casing on any automobile, truck, bus, motorcycle, or farm implement.

(dd) "Wholesaler" means a person selling new rubber tires, casings, or tubes exclusively to persons buying for purposes of resale and to commercial accounts.*

*§§ 1315.151 to 1315.1199, inclusive, issued pursuant to Pub. Law 421, 77th Cong. 2d Sess., Jan. 30, 1942, OPM Supp. Order No. M–15 c, WPB Directive No. 1, Supp. Directive No. 1B, 6 F.R. 6792; 7 F.R. 562, 925.

Organization

§ 1315.201 *Personnel.* The tire-rationing program established in these regulations (§§ 1315.151 to 1315.1199, incl.) by the Office of Price Administration, pursuant to the delegation of power from the Office of Production Management in Supplementary Order No. M–15–c and pursuant to the further delegation of power from the War Production Board in Directive No. 1 and Supplementary Directive No. 1B, will be administered by Local Rationing Boards, consisting of three members, Local Rationing Administrators, and State Rationing Administrators, all of whom shall be federal employees, serving without compensation, subject to the supervision and control of the Office of Price Administration.*

§ 1315.202 *Eligibility.* Members of Boards, Local Rationing Administrators, and State Rationing Administrators must be eligible to serve as federal employees, without compensation, under state and federal laws.*

§ 1315.203 *Appointment.* Members of Boards and Local Rationing Administrators shall be selected by the Local Defense Councils in the areas in which they are to serve and shall be appointed by the Office of Price Administration. State Rationing Administrators shall be selected by the State Defense Councils in the states in which they are to serve and shall be appointed by the Office of Price Administration. Any appointment subject to provisions of these regulations (§§ 1315.151 to 1315.1199, incl.) may be terminated at any time by the Office of Price Administration.*

§ 1315.204 *Duties.* The persons appointed to administer the tire-rationing program shall have such duties and responsibilities as the Office of Price Administration may from time to time direct.*

§ 1315.205 *Jurisdiction of Boards.* Each Board shall have jurisdiction over all vehicles garaged or normally stationed in the area which it has been designated to serve: *Provided, however,* That in certain instances it may act with respect to vehicles normally located outside its jurisdiction subject to the provisions of paragraph (b) of § 1315.604 of these regulations (§§ 1315.151 to 1315.1199, incl.).*

Tire and Tube Quota

§ 1315.301 *Prohibition.* (a) The Office of Price Administration shall fix quotas stating the maximum number of new tires and tubes and retreaded or recapped tires for the purchase of which certificates may be issued by Boards during a single calendar month. No Board shall issue a certificate for the purchase of a new tire or tube or a retreaded or recapped tire in excess of its quota.

(b) Boards may issue certificates for the purchase of new passenger tires of an obsolete type as defined in paragraph (d) of § 1315.503 of these regulations (§§ 1315.151 to 1315.1199, incl.), without regard to their quotas.*

§ 1315.302 *Monthly quotas to be set by the Office of Price Administration.* (a) The Office of Price Administration will set monthly quotas for appropriate classes of eligible vehicles in terms of new tires, new tubes, and retreaded or recapped tires.

(b) The quotas will be specified for each county in a State upon the basis of the registration of motor vehicles, with appropriate adjustments for such other factors as the Office of Price Administration shall deem necessary.

(c) The Office of Price Administration will withhold a portion of each quota as a national reserve to be administered by it for the making of such adjustments as it may deem necessary, as provided in § 1315.308 of these regulations (§§ 1315.151 to 1315.1199, incl.). The Office of Price Administration will also withhold a portion of each quota as a State reserve to be administered by the State Rationing Administrator of such State for the purpose of making necessary adjustments of quotas for counties within the State, as provided in paragraph (c) of § 1315.307 of these regulations (§§ 1315.151 to 1315.1199, incl.).*

§ 1315.303 *Quotas expire at end of month.* (a) The quotas announced by the Office of Price Administration shall be valid only for the month for which they are set. An unused portion of a monthly quota shall not be carried over into the succeeding month.*

§ 1315.304 *Allotment of quotas to Boards.* (a) The Office of Price Administration will forward to each State Rationing Administrator the monthly quotas for each county within his State.

(b) The State Rationing Administrator shall then forward to each Board its monthly quotas, in accordance with the quotas for each county as announced by the Office of Price Administration. If there are two or more boards established within a single county, the State Rationing Administrator shall forward to the Local Rationing Administrator, if one has been appointed, the county quotas to allot among the different Boards within the county. If no Local Rationing Administrator has been appointed, the State Rationing Administrator shall himself allot the quotas among the different Boards within the county.*

§ 1315.305 *Boards to remain within quotas.* (a) No Board shall issue a certificate for the purchase of a new tire or a new tube or a retreaded or recapped tire in excess of its quota as provided in paragraph (b) of § 1315.304, or in paragraph (b) of this section.

(b) No Board shall issue a certificate for the purchase of a new tire or a new tube or a retreaded or recapped tire in excess of the following limitations:

(1) 25 percent of its monthly quota by the end of the seventh day of the month;

(2) An additional 25 percent (cumulatively 50 percent) by the end of the fourteenth day of the month;

(3) An additional 25 percent (cumulatively 75 percent) by the end of the twenty-first day of the month; and

(4) An additional 25 percent (cumulatively 100 percent) by the end of the last day of the month.*

§ 1315.306 *Adjustment of quotas to cover special situations.* (a) When a Board having secured proper authorization pursuant to the provisions of paragraph (b) of § 1315.604 of these regulations (§§ 1315.151 to 1315.1199, incl.) issues a certificate for the purchase of a new tire or tube or a retreaded or recapped tire for a vehicle normally located outside its jurisdiction, it shall immediately notify its State Rationing Administrator and the Board normally having jurisdiction over the vehicle.

(b) The State Rationing Administrator shall immediately augment the Board's quota to the extent of the number of new tires and tubes or retreaded or recapped tires which the Board authorized the applicant to purchase. If the Board normally having jurisdiction over the vehicle is situated within another State, he shall notify the State Rationing Administrator of that State of these facts.

(c) Upon receiving notice pursuant to paragraph (a) of this section, the Board normally having jurisdiction over the vehicle shall immediately deduct from its quota the number of new tires and tubes or retreaded or recapped tires which the applicant was authorized to purchase and shall notify its State Rationing Administrator of its action.

(d) The State Rationing Administrator or Administrators shall then make appropriate adjustments of their records.*

§ 1315.307 *Adjustment of county quotas by State Rationing Administrator.* (a) Where, in the opinion of the State Rationing Administrator, and upon verification by the Boards affected, the quotas assigned to any county appear to be excessive or inadequate, he may make such adjustment among counties as he may deem necessary. Full facts of the case must be reported immediately to the Office of Price Administration.

(b) Where a Board believes that because of sudden and immediate emergency the public interest requires that it issue a certificate for the purchase of a new tire or a tube or a retreaded or recapped tire in excess of its partial quota as provided in paragraph (b) of § 1315.305, but within its over-all monthly quota, the Board may make immediate application to the State Rationing Administrator for permission to issue the certificate, setting forth the full facts of the case. The State Rationing Administrator may designate the specific number of new tires or tubes or retreaded or recapped tires for which such certificate may be issued, but in no case shall any blanket authority to exceed such partial quota be granted. This designation shall not increase the monthly quota of the Board.

(c) Where a Board believes that the public interest requires that it issue a certificate for the purchase of a new tire or tube or a retreaded or recapped tire in excess of its over-all monthly quota, the Board may make application to the State Rationing Administrator for authority to issue such certificate, setting forth the full facts of the case. The State Rationing Administrator at his discretion may draw upon the State reserve provided for by paragraph (c) of § 1315.302 to augment the quota of such Board for the month involved to the extent necessary to the granting of such certificate. In no case shall the State Rationing Administrator grant blanket authority to exceed a monthly quota, and in no event shall he authorize the granting of a certificate for the purchase of new tires or tubes or retreaded or recapped tires in excess of the quota held in the State reserve under his control.

(d) The State Rationing Administrator shall in no case issue certificates himself but shall assign a specific number of tires or tubes from the State reserve to a Board which will issue the certificates therefor.*

§ 1315.308 *Adjustment of State quotas by the Office of Price Administration.* (a) The Office of Price Administration may draw upon the national reserve provided for in paragraph (c) of § 1315.302 to adjust the quotas within the different States as it may determine. Each State Rationing Administrator may apply for an allotment from the national reserve held by the Office of Price Administration to replenish the State reserve held under his control. Each such application shall be accompanied by a statement setting forth in full the facts giving rise to such application.*

§ 1315.309 *Records and reports.* The State Rationing Administrators, the Local Rationing Administrators and the Boards shall maintain such records and file such reports in such form as may be required by the Office of Price Administration with respect to the allotment and disposition of quotas.*

Tires and Tubes for Vehicles Eligible Under List "A"

§ 1315.401 *Permitted and prohibited transfers and deliveries to consumers—*(a) *Prohibitions.* Except as provided in paragraphs (b) and (c) of this section, and in §§ 1315.801 to 1315.805, incl., of these regulations, (§§ 1315.151 to 1315.1199, incl.), no person shall make any transfer of new tires or tubes, or delivery of retreaded or recapped tires, to a consumer; and no consumer shall accept any such transfer or delivery.

(1) The prohibition in paragraph (a) of this section applies to sales and deliveries and physical transfers involving a change either in use or location as set forth in § 1315.801. Except as provided in paragraphs (b) and (c) of this section and in §§ 1315.801 to 1315.805, incl., it is unlawful to deliver new tires or tubes, or retreaded or recapped tires, to a consumer, even though such consumer has completed and paid for the purchase or agreement for transfer of such tires or tubes from the person of whom delivery is requested.

(2) The prohibition in paragraph (a) of this section applies to new tires or tubes whether such tires or tubes are at the date of the issuance of these regulations already manufactured or whether such tires or tubes are manufactured in the future, and applies to retreaded or recapped tires whether such tires are retreaded or recapped at the date of the issuance of these regulations (§§ 1315.151 to 1315.1199, incl.), or whether such tires are retreaded or recapped in the future.

(3) Until February 19, the effective date of these regulations (§§ 1315.151 to 1315.1199, incl.), any consumer may obtain any retreaded or recapped tire from any person, including tires which he left to be retreaded or recapped on his behalf. After February 19 no consumer may accept delivery of a retreaded or recapped tire except in exchange for a certificate issued pursuant to these regulations (§§ 1315.151 to 1315.1199, incl.), whether or not he provided the tire carcass to be retreaded or recapped, but he may accept redelivery of such tire carcass if it has not been retreaded or recapped.

(b) *Transfers of new tires or tubes to consumers.* (1) Any retailer or distributor may transfer a new tire or tube to any consumer in exchange for a certificate authorizing such purchase issued by a Board.

(2) Any wholesaler may transfer any new tire or tube to a consumer in exchange for a certificate authorizing such purchase issued by a Board: *Provided,* That such consumer purchased, leased, or otherwise acquired new rubber tires or tubes direct from such wholesaler's warehouse during the calendar year 1941.

(i) The restriction set forth in paragraph (b) (2) shall apply only when the wholesaler sells such tires directly from his wholesale warehouse. It shall not apply when the wholesaler makes such sale to a consumer from the separate premises of its company-owned retail outlet.

(3) Any manufacturer may transfer any new tires or tubes to a consumer in exchange for a certificate authorizing such purchase issued by a Board: *Provided,* That such consumer purchased or leased new rubber tires or tubes direct

from such manufacturer's factory or warehouse during the calendar year 1941.

(i) The restriction set forth in paragraph (b) (3) shall apply only when the manufacturer sells such tire or tube directly from his factory or warehouse. It shall not apply when the manufacturer makes such sale to a consumer from the separate premises of its company-owned retail outlet.

(c) *Transfers of retreaded or recapped tires to consumers.* Any person may deliver a retreaded or recapped tire to a consumer in exchange for a certificate authorizing such delivery issued by a Board; and any retreader or recapper may retread a tire carcass for a consumer who presents such a certificate."

§ 1315.402 *Eligibility of List A passenger automobiles for new tires or tubes and retreaded or recapped tires.* (a) The Board may issue a certificate authorizing the holder to accept delivery of a new tire or tube for a passenger automobile to an applicant who meets the requirements of paragraphs (b) and (c) of this section. If, but only if, the applicable quota for new tires is exhausted, the Board may offer to issue to an applicant who meets the requirements of paragraphs (b) and (c) of this section a certificate, within the limits of the quota for retreaded or recapped tires, authorizing him to accept delivery of a retreaded or recapped tire or to have a tire carcass owned by him retreaded or recapped and redelivered to him. The eligibility requirements for new obsolete type passenger tires, as defined in § 1315.503 (d), are set forth in § 1315.503.

(b) An applicant must establish that the tires for which application is made are to be mounted on a passenger automobile included in paragraphs (a) to (d) of § 1315.405 (List A).

(c) An applicant must establish:

(1) That the passenger automobile upon which the tire or tube is to be mounted cannot be replaced by a passenger automobile owned or operated by, or subject to the control of the applicant, which is equipped with serviceable tires or tubes and which is capable of being, but is not, fully employed for one or more of the purposes specified in paragraphs (a) to (d) of § 1315.405.

(i) If the applicant owns, operates, or controls passenger automobiles equipped with serviceable tires or tubes, other than the passenger automobile for which new tires or tubes are requested, he must show that all such vehicles capable of being employed for the purposes for which tires are sought are fully employed for one or more of the purposes specified in paragraphs (a) to (d) of § 1315.405. If an applicant fails to establish that fact, he fails to establish that he needs tires or tubes for the purposes listed in these paragraphs, and he must be denied a certificate.

(2) That the tire or tube for which application is made is to replace a tire or tube used by the applicant and that such tire is not serviceable or must be recapped or retreaded without delay, or that such tube cannot be repaired: *Provided,* That the applicant need not show that the tire for which application is made is for replacement purposes when application is made for one spare of a given size as original equipment for a vehicle included in paragraphs (a) to (d) of § 1315.405.

(i) Except where the applicant applies for a spare tire, certificates may be granted only for replacement purposes and not to provide original equipment for any new vehicle.

(ii) If the applicant has tires or tubes in his possession at the time of his application, and the tires are still serviceable and do not require immediate retreading or recapping, or the tubes can be repaired, he fails to establish that he needs tires or tubes at the time he makes application, and he must be denied a certificate. If the applicant has tires which are capable of being retreaded or recapped, he may, nevertheless, be granted only a certificate for a new tire, so long as a new tire is available within the quota, but he must trade in or sell the tire replaced as provided in subparagraph (5) of this paragraph (c).

(3) That the tire or tube for which application is made, when added to all other tires or tubes of suitable sizes in the applicant's possession, whatever their condition, and whether unmounted or mounted on a vehicle, will not add up to more than one spare tire of a given size for each vehicle eligible under paragraphs (a) to (h) of § 1315.405: *Provided,* That if the applicant is regularly engaged in dealing in tires, the requirements of this paragraph can be satisfied by showing that all his tires or tubes already in use are, if of suitable size, in use on vehicles included in paragraphs (a) to (h) of § 1315.405 and no such vehicle is equipped with more than one spare of a given size.

(i) If the applicant is not in the tire business, he cannot be granted a certificate if granting such a certificate would result in his having more tires or tubes than are necessary for the operation of vehicles included in paragraphs (a) to (h) of § 1315.405. Therefore, if the applicant already has enough serviceable tires or tubes of a size suitable to equip each of the vehicles he owns or controls eligible under those paragraphs, he must use such tires or tubes on such vehicles, even if that means taking the tires or tubes off vehicles not included in those paragraphs. If the applicant has unusable tires or tubes, he must dispose of them, so that they will be available as rubber scrap. Unless and until the applicant takes all these steps, no certificate can be issued to him.

(ii) If the applicant is regularly engaged in the tire business, since his inventories of tires cannot be used by him without a certificate, he may satisfy the requirements of this paragraph (c) (3) by showing that all of his tires already in use are, if of a size suitable for use on the vehicle to be equipped, in use on vehicles included in paragraphs (a) to (h) of § 1315.405.

(4) If the applicant desires authority to purchase a passenger type new tire of over four-ply construction, that the vehicle upon which the new tire is to be mounted cannot be satisfactorily operated in the use to which it is to be put with a tire of four-ply construction.

(5) That the applicant agrees to trade in any tire or tube in his possession replaced by the tire or tube purchased with any certificate granted him, or, if the applicant purchases a tire or tube from a mail-order house, that the applicant will, within 5 days from receipt of such tire or tube, sell the replaced tire or tube to a person dealing in tires.

(i) Tires or tubes replaced must be turned in to the person from whom new tires or tubes or retreaded or recapped tires are purchased or, in the case of purchase from a mail-order house, to any person dealing in tires.

(ii) This paragraph (c) (5) does not apply when the applicant can establish to the satisfaction of the Board that he has no tires to turn in because the tires which are to be replaced have been stolen or if the applicant is a government agency forbidden by law to make such disposition of Government property, or for any similar reason, or if the applicant purchases a spare for a new vehicle which was acquired by him without a spare as a part of its original equipment."

§ 1315.403 *Eligibility of List A trucks and other vehicles except passenger automobiles for new tires or tubes.* (a) The Board may issue a certificate authorizing the holder to accept delivery of a new tire or tube for a truck or other vehicle not a passenger automobile to an applicant who meets the requirements of paragraphs (b) and (c) of this section.

(b) The applicant must establish that the tires for which application is made are to be mounted on a vehicle, other than a passenger car, included in paragraphs (c) to (h) of § 1315.405.

(c) The applicant must establish:

(1) That the vehicle upon which the tire is to be mounted cannot be replaced by a vehicle other than a passenger automobile owned or operated by, or subject to the control of the applicant, which is equipped with serviceable tires or tubes and which is capable of being, but is not, fully employed for one or more of the purposes specified in paragraphs (c) to (h) of § 1315.405.

(i) If the applicant owns, operates, or controls vehicles other than passenger automobiles equipped with serviceable tires or tubes in addition to the vehicle for which new tires or tubes are requested, he must show that all such vehicles capable of being employed for the purposes for which tires are sought are fully employed for one or more of the purposes listed in paragraphs (c) to (h) of § 1315.405. If an applicant fails to establish this fact, he fails to establish that he needs tires or tubes for purposes listed in those paragraphs, and he must be denied a certificate.

(2) That the tire or tube for which application is made is to replace a tire which cannot be retreaded or recapped or a tube which cannot be repaired, for safe use at the speeds at which the applicant may reasonably be expected to operate: *Provided,* That the applicant need not show that the tire for which application is made is for replacement use when application is made for one spare of a given size as original equipment for a vehicle included in paragraphs (c) to (h) of § 1315.405.

(i) Except where the applicant applies for a spare tire or tube, certificates may be granted only for replacement purposes and not to provide original equipment for any vehicle.

(ii) If the applicant can get his existing tires retreaded or recapped or his tubes repaired for safe use at the speed at which the applicant may reasonably be expected to operate, he must do so. If he fails to establish that his old tire cannot be made serviceable by retreading or recapping or that his old tube cannot be repaired, he fails to establish his need for new tires or tubes and must be denied a certificate. Applicants in this situation should apply for a retreaded or recapped tire pursuant to § 1315.404.

(3) That the applicant has no more tires or tubes than are permitted by § 1315.402 (c) (3).

(4) That the applicant agrees to trade in replaced tires or tubes in accordance with the provisions of § 1315.402 (c) (5)."

§ 1315.404 *Eligibility of List A, trucks and other vehicles, except passenger automobiles, for retreaded or recapped tires.* (a) The Board may issue a certificate authorizing the holder to accept delivery of a retreaded or recapped tire, for a vehicle other than a passenger automobile, or to have a carcass owned by him retreaded or recapped for use on such a vehicle, to any applicant who meets the requirements of paragraphs (b) and (c) of this section.

(b) The applicant must establish that the tires for which application is made are to be mounted on a vehicle, other than a passenger car, included in paragraphs (c) to (h) of § 1315.405.

(c) The applicant must establish:

(1) That the vehicle upon which the tire is to be mounted cannot be replaced by a vehicle other than a passenger automobile owned or operated by, or subject to the control of the applicant, which is equipped with serviceable tires and which is capable of being, but is not, fully employed for one or more of the purposes specified in paragraphs (c) to (h) of § 1315.405.

(i) If the applicant owns, operates, or controls vehicles other than passenger automobiles equipped with serviceable tires, in addition to the vehicle for which retreaded or recapped tires are requested, he must show that all such vehicles capable of being employed for the purposes for which application is made are fully employed for purposes specified in paragraphs (c) to (h) of § 1315.405. If an applicant fails to establish this fact, he fails to establish that he needs tires to perform services listed in those paragraphs, and he must be denied a certificate.

(2) That the application is for retreading or recapping services on tires in the applicant's possession or for retreaded or recapped tires to replace tires no longer serviceable or tires which require immediate retreading or recapping.

(i) Except when an applicant applies for a spare tire, certificates may be granted only for replacement purposes and not to provide original equipment for any vehicle.

(ii) If the applicant has tires in his possession at the time of his application, and such tires are still serviceable and do not require immediate retreading or recapping, he fails to establish that he needs tires at the time he makes application, and he must be denied a certificate.

(3) That the retreaded or recapped tire, or the tire to be retreaded or recapped, for which application is made, when added to all other tires of a suitable size in the applicant's possession, will not add up to more tires than are permitted by § 1315.402 (c) (3).

(4) That the applicant agrees to trade in replaced tires in accordance with the provisions of § 1315.402 (c) (5)."

§ 1315.405 *Eligibility classification: List A.* Certificates authorizing the purchase or acceptance of delivery of tires or tubes may be granted, but only to the extent provided in §§ 1315.401 to 1315.404 and otherwise provided in these regulations (§§ 1315.151 to 1315.1199, incl.), to equip the vehicles listed in this section, which contains List A of the eligibility classification:

(a) A vehicle which is operated by a physician, surgeon, visiting nurse, or a farm veterinary, and which is used principally for professional services.

(i) The Board shall issue certificates for vehicles in this class only to physicians, surgeons, and farm veterinaries (including for purposes of certificates only physicians, surgeons, and veterinaries, licensed as such by the appropriate governmental authority) whose professional practice is to make regular calls outside their offices and who need and use motor vehicles to make their professional calls.

(ii) For the purposes of paragraph (a) "visiting nurse" shall mean a nurse who is employed by a clinic, hospital, government agency, or similar organization, or by an industrial concern to make nursing or inspection calls for such agencies. The term "visiting nurse" does not include private nurses.

(iii) No certificate shall be issued unless the physician, surgeon, nurse, or farm veterinary applying shows that the particular vehicle on which the tire or tube is to be mounted is actually used for professional calls and is used principally for that purpose.

(b) A vehicle which is operated by a regularly practicing minister of any religious faith and which is used principally in, and is necessary to, the performance of his religious duties.

(i) The Board may issue certificates to ministers, priests, or rabbis, who, in the course of their religious calling, require their vehicles to meet the religious needs of the congregations which they serve.

(ii) No certificate shall be issued unless the applicant shows that the particular vehicle on which the tire or tube is to be mounted is actually used in the course of his religious duties, is used principally for that purpose, and is essential for the performance of such duties.

(c) An ambulance.

(i) A certificate may be issued for any vehicle used principally as an ambulance, even though such vehicle is used also, but not primarily, as a hearse or for other purposes.

(d) A vehicle used exclusively for one or more of the following purposes:

(1) To maintain fire-fighting services.

(i) A certificate may be issued for any fire-fighting apparatus, including such vehicles as ladder trucks, chemical trucks, and hose trucks.

(ii) A certificate may be issued for other kinds of cars and trucks actually used for fire fighting, including trucks without special fire-fighting equipment, and passenger cars, if the Board is satisfied that the vehicles in question will be used exclusively to fight fires or for the other purposes in paragraphs (a) to (d) of this section.

(iii) No vehicle equipped with tires or tubes for which a certificate has been granted shall be used by the officials in charge of fire-fighting services unless they are actually engaged in direct fire-fighting work.

(2) To maintain necessary public police services.

(i) In issuing certificates under paragraph (d) (2) of this section the Board shall be governed by the necessity of keeping the uniformed force and essential nonuniformed personnel of any Federal, State, or local police force in a position to render efficient service in the prevention and detection of crime.

(ii) Certificates shall not be issued for vehicles to perform police services, if such services can be performed without the use of motor vehicles. No police department shall use motor vehicles, equipped with tire or tubes for which a certificate has been issued, for licensing or inspection duties, when regular public transportation will serve.

(iii) No vehicle equipped with tires or tubes for which a certificate has been issued shall be used to convey police officials to or from their usual stations, except in case of emergency, nor shall such vehicles be used for official convenience, when public means of transportation will serve.

(3) To enforce such laws as relate specifically to the protection of public health and safety.

(i) Certificates shall be issued under this paragraph (d) (3) only for vehicles essential for the performance of the law-enforcement services specifically provided for by this paragraph. The inspection of buildings, of the establishments of sellers and producers of food, and the discharge of similar duties do not in most instances require the use of motor vehicles. Certificates shall under

no circumstances be issued except for vehicles used to perform services which cannot be performed satisfactorily by inspectors and other officers using means of transportation available to the general public.

(ii) This paragraph provides only for law-enforcement services which relate directly and specifically to the protection of the public from accident and injury to health. Tires or tubes are not to be made available for any law-enforcement functions other than those performed by the regular police force, as provided in the preceding paragraph (d) (2), and the protection of the public health and safety, provided for by this paragraph (d) (3).

(iii) For the purposes of this paragraph enforcement of laws relating directly to the public health and safety shall include inspection by employees of Federal, State, or local governments of food and similar commodities and establishments engaged in producing such commodities when the primary purpose of such inspection is the discovery of contamination or similar dangers to the public health, but the enforcement of laws relating to the public health and safety shall not include inspections the primary purpose of which is grading, standardization, the prevention of fraud or establishment of sound business practices, rather than protection from contamination or similar dangers.

(iv) No vehicle equipped with tires or tubes for which a certificate has been issued shall be used to convey public health and safety officials to and from their usual stations, except in case of emergency, nor shall such vehicles be used for official convenience when public means of transportation will serve.

(4) To maintain garbage disposal and other sanitation services.

(i) Certificates may be issued for any vehicle essential to dispose of refuse of various kinds, to operate sewage systems, and for similar purposes.

(ii) No certificate shall be issued for passenger cars to be used by administrative personnel concerned with garbage disposal or sanitation services, except to the extent provided in paragraph (d) (3) of this section. Certificates for tires or tubes shall be issued only for vehicles actually used to transport garbage and other refuse, to clean and repair sewers, and for similar purposes.

(5) To maintain mail services.

(i) The Boards may issue certificates for vehicles to be used for the transportation of mail by or on behalf of the United States.

(e) A vehicle with the capacity of 10 or more passengers operated exclusively for one or more of the following purposes:

(1) Transportation of passengers as part of the services rendered to the public by a regular transportation system.

(i) Certificates may be issued under this paragraph (e) (1) only for vehicles performing necessary transportation service along regular routes or with regular schedules, from which the general public may obtain service upon payment of a standard fare.

(ii) No certificate shall be issued under this paragraph (e) (1) for vehicles used for sightseeing trips or similar excursions.

(iii) No certificate shall be issued under this paragraph (e) (1) for a vehicle on which the general public cannot obtain transportation, except as provided in paragraphs (e) (2) and (e) (3).

(2) Transportation of students and teachers to or from school.

(i) Certificates shall be issued under this paragraph (e) (2) only for school busses. A school bus will not lose its character as such because it is used to transport other employees of the school as well as teachers.

(ii) No vehicle equipped with tires or tubes for which certificates have been granted shall be used for excursions of any character. Transportation shall be provided only from the homes of students and teachers or from regular school-bus stops to the regular places of instruction.

(3) Transportation of employees to or from any industrial or extractive establishment, power generation or transmission facilities, transportation or communication facilities, construction project, or farm, except when public transportation facilities are readily available.

(i) Certificates shall be issued under this paragraph (e) (3) only for busses used to transport workers to places of employment (including farms, factories, canneries, mines, lumber camps, oil wells, etc.) which cannot practicably be reached by means of transportation available to the public. No certificate shall be issued where the workers can practicably reach the place of employment, or go from place to place while on the job, by using public transportation facilities.

(ii) The Boards may issue certificates under this paragraph (e) (3) where, although public transportation facilities exist, such facilities are unreliable or use of such facilities consumes an inordinate amount of time essential to uninterrupted production.

(f) A truck operated exclusively for one or more of the purposes stated in the preceding paragraphs or for one or more of the following purposes:

(1) Transportation of ice and fuel.

(i) In issuing certificates under this paragraph (f) (1), the Board shall be governed by the necessity for preserving public health and maintaining industrial production.

(2) Transportation of materials and equipment for construction or for mechanical, structural, or highway maintenance or repair.

(i) Certificates may be issued under this paragraph (f) (2) for trucks used to carry material and equipment for any construction project, including the construction of factories, houses, roads, dams, and other facilities, or for mechanical or structural maintenance and repair, including electrical, plumbing, or heating repairs to the structure of such buildings or facilities, or maintenance and repair of machines in them, or of other machines and farm equipment, including road service to vehicles used on the highways, and including the transportation of materials and equipment by traveling blacksmiths. Certificates may also be issued for equipment used for construction purposes such as earth movers and road graders where rubber tires and tubes are essential for the operation of such equipment.

(ii) Certificates shall not be issued under this paragraph (f) (2) for incidental maintenance work, including the cleaning of office buildings or similar activities, not involving mechanical or structural maintenance or repair.

(3) Transportation by any common carrier.

(i) For the purpose of this paragraph (f) (3), the term "common carrier" shall include any carrier of freight by rail, motor, air, or water (using trucks to render a part of its services), required by law to furnish services to the general public at standard rates, fixed in advance.

(ii) For the purpose of this paragraph (f) (3), the term "common carrier" shall not include any carrier which renders services only to persons whom it chooses as its customers or on terms separately arranged for each customer and for each service it renders.

(iii) A certificate may be issued for any truck used by a common carrier to render freight services.

(4) Transportation of waste and scrap materials.

(i) Certificates may be issued under this paragraph (f) (4) for trucks which are to be used for transporting waste and scrap materials, including waste paper, scrap iron, scrap rubber, and similar commodities which may be reused in production.

(5) Transportation of raw materials, semimanufactured goods, and finished products, including farm products and foods, provided that no certificate shall be issued under this paragraph for a tire or tube to be mounted on a truck used for transportation of commodities to the ultimate consumer for personal, family, or household use.

(i) Certificates may be issued for trucks used to transport raw materials, semimanufactured goods, and finished products, including farm products and foods, but no certificates may be issued for trucks used to transport commodities to the ultimate consumer for personal, family, or household use.

(ii) No truck equipped with tires or tubes for which a certificate has been issued under this paragraph shall be used to deliver foods to a consumer for personal, family or household use, or to make such deliveries of other commodities from a department store, grocery store, or similar retail sales outlet.

(g) Farm tractors or other farm implements, other than automobiles or trucks, for the operation of which rubber tires or tubes are essential.

(i) Certificates may be granted for farm tractors or other farm implements for the operation of which rubber tires or tubes are essential.

(ii) Nothing in this paragraph (g) shall be construed to permit the issuance of a certificate for rubber tires or tubes when the tractor or other implement can operate or can be adapted to operate without such tires or tubes.

(h) Industrial, mining, and construction equipment, other than automobiles or trucks, for the operation of which rubber tires or tubes are essential.

(1) This paragraph applies to equipment other than automobiles or trucks. It should be noted, however, the word "truck" is very broadly defined so as to include most types of motor vehicles used for construction equipment. Certificates may be issued for any type of equipment using tires or tubes capable of being used on any passenger automobile, truck, bus, motorcycle or farm implement. If the industrial, mining or construction equipment does not require for its operation tires or tubes capable of being so used, certificates shall not be issued in such cases and the tires may be purchased without regard to the restrictions set forth in these regulations. In particular solid tires molded upon industrial equipment are not covered by these regulations (§§ 1315.151 to 1315.1199, incl.) and may be purchased without regard to the restrictions contained herein.

(2) Nothing in this paragraph (h) shall be construed to permit the issuance of a certificate when the equipment can operate or can be adapted to operate without such tires or tubes.*

Retreaded and Recapped Tires and New Passenger Tires of an Obsolete Type for Vehicles Eligible Under List B

§ 1315.501 *Eligibility of List B passenger automobiles for retreaded or recapped tires.* (a) The Board may issue a certificate authorizing the holder to accept delivery of retreaded or recapped tires for a passenger automobile or to obtain retreading or recapping services for a tire for a passenger automobile to an applicant who meets the requirements of paragraphs (b), (c), and (d) of this section.

(b) Any person applying for a certificate under this section must establish that the tires for which application is made are to be mounted on a passenger automobile used principally for one or more of the purposes included in paragraph (a) of § 1315.504 (List B).

(c) An applicant must establish:

(1) That without the passenger automobile to be equipped, transportation service is not available to the applicant.

(i) The Board may not issue certificates under this section if the applicant can secure transportation by any method without using the vehicle for which tires are sought. The applicant may show that the transportation services for which he uses his vehicle are not otherwise available to him by showing (*a*) that no public transportation system reaches the areas to which he must go to carry on his business or occupations; or (*b*) that public transportation services do not function at the times when it is necessary for the applicant to travel; or (*c*) that public transportation will not enable him to do his work because of the necessity of carrying material and equipment; or (*d*) that the public transportation facilities are already too heavily loaded to afford the applicant transportation service. The applicant should also be required to show that he regularly transports other persons to work with him or that he has exhausted the possibilities of doubling up with persons employed at the same place or with persons who travel the same route. If the applicant fails to show these and such other facts as will establish to the satisfaction of the Board that he would be unable to secure transportation if he did not get the tires for which he applies, he must be denied a certificate.

(ii) As applied to taxis, jitneys, and similar vehicles, this paragraph can be satisfied by showing (*a*) that other public transportation facilities are inadequate to serve the community because of a shortage of streetcars, busses, or similar vehicles capable of transporting large numbers of people at once, or (*b*) that other public transportation facilities do not reach important areas of the community where taxi service has been normally a necessary part of the mass transportation system rather than a luxury service.

(2) That the transportation service rendered by such passenger automobile is essential to the applicant for the efficient execution of one or more of the purposes included in paragraph (a) of § 1315.504.

(i) Unless the applicant satisfies the Board that it will be impossible for him otherwise to perform services listed in paragraph (a) of § 1315.504, he must not be granted a tire. The proof which the applicant must present to satisfy the Board will vary with the nature of the applicant's business or occupation. To the extent that public transportation facilities will enable the applicant to carry on his affairs, or to the extent that the applicant's business or occupation can be carried on by correspondence or by telephone, transportation service rendered by a passenger automobile is not essential, and a certificate for tires for such an automobile should not be granted.

(3) That such passenger automobile will, when equipped with the tires for which application is made, render services sufficiently valuable to the community and the Nation to justify the use of rubber in its operation, in view of the critical shortage in the total rubber supply and the size of the quota from which allotments of tires must be made to all other applicants qualified under this section.

(i) Before the Board may issue a certificate under this section, it must be satisfied that the applicant is rendering a service essential to the community and the Nation, whether or not the applicant himself needs his car for business or for other reasons. Unless the applicant can prove that the services which his automobile enables him to render are indispensable to the community and the war effort, no certificate shall be granted to him, regardless of whether the Board has exhausted its quota.

(ii) Certificates must be granted by the Board with a view to the very large number of persons who may apply and the very small quota which can be made available in any month for such persons. The Board should, whenever possible, apportion its quota so that it will have certificates to insure continued transportation for employees of plants vital to the war-production effort.

(iii) In deciding among applicants for the limited quota, the Board shall be guided not only by the nature of the services which the applicant renders but also by the extent to which others who do not require tires can render such services, and the extent to which the automobile to be equipped will be confined to use for services specified in paragraph (a) of § 1315.504 and will provide transportation for more than one person performing services included in that paragraph.

(iv) To determine whether an applicant employed at a plant essential to the war effort should be granted a certificate under this section, the Board may make such inquiry as it deems necessary at the applicant's place of employment. Inquiry may be made, when desirable, with respect to the possibility that such plant can establish a comprehensive transportation plan for its workers which would increase the amount of "doubling-up," or the possibility that the plant can provide for the transportation of employees in busses or similar vehicles from central points to the place of employment.

(d) Any person applying for a certificate under this section must establish:

(1) That the passenger automobile upon which the tire is to be mounted cannot be replaced by a passenger automobile owned or operated by, or subject to the control of, the applicant which is equipped with serviceable tires and which is capable of being, but is not, fully employed for one or more of the purposes specified in paragraphs (a) to (d) of § 1315.405 (List A) or paragraph (a) of § 1315.504 (List B).

(i) If the applicant owns, operates, or controls passenger automobiles equipped with serviceable tires, other than that for which retreaded or recapped tires are requested, he must show that all such passenger automobiles capable of being used for the purposes for which tires are requested are fully employed for purposes specified in paragraphs (a) to (d) of § 1315.405 or paragraph (a) of § 1315.504. If an applicant fails to establish this fact, he fails to establish that he needs tires to perform services listed in those paragraphs and he must be denied a certificate.

(2) That the application is for retreading or recapping services on tires in the applicant's possession or for retreaded or recapped tires to replace tires in his possession, and that the tires in his possession are no longer serviceable or require immediate retreading or recapping.

(i) Except when the applicant applies for a spare tire, certificates may be

granted only for replacement purposes and not to provide original equipment for any vehicle.

(ii) If the applicant has tires in his possession at the time of his application and such tires are still serviceable or do not require immediate retreading or recapping, he fails to establish that he needs tires at the time he makes application, and he must be denied a certificate.

(3) That the retreaded or recapped tire, or the tire to be retreaded or recapped, for which application is made, when added to all other tires of suitable size in the applicant's possession, whatever their condition, whether mounted or unmounted on a vehicle, will not add up to more than one spare tire of a given size for each vehicle used for one or more of the purposes specified in paragraphs (a) to (h) of § 1315.405, or paragraph (a) of § 1315.504: *Provided*, That if the applicant is regularly engaged in dealing in tires, the requirements of this paragraph (c) (3) can be satisfied by showing that all of his tires already in use are, if of suitable size, in use on vehicles included in paragraphs (a) to (h) of § 1315.405 or paragraph (a) of § 1315.504, and that no such vehicle is equipped with more than one spare tire of a given size.

(i) If the applicant is not engaged in the tire business, he is not entitled, under this § 1315.405, to more tires than are necessary for the operation of vehicles included in paragraphs (a) to (h) of § 1315.405 or paragraph (a) of § 1315.504. Therefore, if the applicant already has enough tires for all the vehicles he owns which are eligible under those paragraphs, he must use such of those tires as are of a suitable size on passenger automobiles eligible under this section, even if that means taking tires off vehicles not included under paragraphs (a) to (h) of § 1315.405, or paragraph (a) of § 1315.504.

(ii) If the applicant is engaged in the tire business, since his inventories of tires cannot be used by him without a certificate, he may satisfy the requirements of this paragraph (d) (3) by showing that all of his tires already in use are, if of suitable size, in use on vehicles eligible under paragraphs (a) to (h) of § 1315.405 or paragraph (a) of § 1315.504.

(4) That the applicant agrees to trade in any tires replaced in accordance with the provisions of § 1315.402 (c) (5).*

§ 1315.502 *Eligibility of List B trucks for retreaded or recapped tires.* (a) Within the limits prescribed by paragraphs (c) of § 1315.603 and paragraph (d) of § 1315.610 with respect to the filing of applications and the granting of certificates, the Board may issue a certificate, authorizing the holder to accept delivery of a retreaded or recapped tire or to have a tire owned by him retreaded or recapped, to an applicant who meets the requirements of paragraphs (b) and (c) of this section.

(b) Any person applying for a certificate under this section must establish that the truck to be equipped with the tires for which he applies is a truck included in paragraph (b) of § 1315.504.

(i) Unless the applicant can establish that the truck to be equipped is a truck used for an important purpose (although not included in paragraphs (c) to (h) of § 1315.405) the applicant cannot satisfy the requirements of this paragraph. In deciding whether a truck is important for the purpose of granting a certificate, the Board must consider the relative importance of the transportation needs in the community which must be served, including needs for transportation service in war industries not elsewhere provided for. The uses for which certificates may be issued will depend on the nature of the needs of the particular community, to be determined, for example, by the distances over which essential retail milk and other food deliveries must be made, the extent to which some purposes can be served by horse-drawn wagons, and similar factors. Before granting a certificate under this section, the Board must consider not only whether the applicant should be preferred to other eligible applicants in distributing the limited number of certificates available within the quota, but also whether the vehicle is sufficiently important to the Nation and the community to justify the use of rubber to keep it in operation.

(c) Any person applying for a certificate under this section must establish:

(1) That the truck upon which the tire is to be mounted cannot be replaced by a truck owned or operated by or subject to the control of the applicant which is equipped with serviceable tires and which is capable of being, but is not, fully employed, for one or more of the purposes specified in paragraphs (c) to (h) of § 1315.405 or paragraph (b) of § 1315.504.

(i) If the applicant owns, operates, or controls trucks equipped with serviceable tires, other than the truck for which retreaded or recapped tires are requested, he must show that all such trucks capable of being used for the purposes for which tires are sought are fully employed for purposes specified in paragraphs (a) to (h) of § 1315.405 or paragraph (b) of § 1315.504. This will require a showing that all of the applicant's trucks are fully employed and that each one which is capable of performing the service for which tires are sought is performing a service important to the community and the Nation. If an applicant fails to establish this fact, he fails to establish that he needs tires to perform services listed on those paragraphs and he must be denied a certificate.

(2) That the application is for retreading or recapping services on tires in the applicant's possession or for retreaded or recapped tires to replace tires in his possession, and that such tires are either no longer serviceable or require immediate retreading or recapping.

(i) Except when the applicant applies for a spare tire, certificates may be granted only for replacement purposes and not to provide original equipment for any vehicle.

(ii) If the applicant has tires in his possession at the time of his application and such tires are still serviceable or do not require immediate retreading or recapping, he fails to establish that he needs tires at the time he makes application, and he must be denied a certificate.

(3) That the retreaded or recapped tire, or the tire to be retreaded or recapped, for which application is made, when added to all other tires of suitable sizes in the applicant's possession, whatever their condition, whether unmounted or mounted on a vehicle, will not add up to more than one spare tire of a given size for each vehicle eligible under paragraphs (a) to (h) of § 1315.405 or paragraphs (a) and (b) of § 1315.504: *Provided*, That if the applicant is regularly engaged in dealing in tires this paragraph (c) (3) can be satisfied by showing that all of his tires already in use are, if of suitable size, in use on vehicles eligible under paragraphs (a) to (h) of § 1315.405 or paragraphs (a) and (b) of § 1315.504, and that no such vehicle is equipped with more than one spare of a given size.

(i) If the applicant is not in the tire business, he is not entitled to more tires than are necessary for the operation of vehicles included in paragraphs (a) to (h) of § 1315.405 or paragraphs (a) and (b) of § 1315.504. Therefore, if the applicant already has enough tires of a suitable size for each of the vehicles he owns eligible under paragraphs (a) to (h) of § 1315.405 or paragraphs (a) and (b) of § 1315.504, he must use such tires on such vehicles, even if that means taking tires off vehicles not included in those paragraphs. If the applicant has unusuable tires, he must dispose of them so that they will be available as rubber scrap. Unless and until the applicant takes all these steps, no certificate can be issued to him.

(ii) If the applicant is engaged in the tire business, since his inventories of tires cannot be used by him without a certificate he can satisfy the requirements of this paragraph (c) (3) by showing that all of his tires in use are, if of a suitable size, in use on vehicles eligible under paragraphs (a) to (h) of § 3115.405 or paragraphs (a) and (b) of § 1315.504, and that none of such vehicles is equipped with more than one spare of a given size.

(4) That the applicant agrees to trade in any tires replaced in accordance with the provisions of § 1315.402 (c) (5).*

§ 1315.503 *Eligibility of List A and List B passenger automobiles for new passenger tires of an obsolete type.* (a) The Board may issue a certificate authorizing the holder to accept delivery of new passenger tires of an obsolete type, as defined in paragraph (d) of this section, to an applicant who establishes that he satisfies the requirements of paragraphs (b) and (c) of this section.

(b) The applicant must establish that the vehicle to be equipped is a passenger automobile included in paragraphs (a) to (d) of § 1315.405 or paragraph (a) of § 1315.504.

(c) The applicant must establish:

(1) That the passenger automobile upon which the tire is to be mounted cannot be replaced by a passenger automobile owned or operated by, or subject to the control of the applicant, which is

equipped with serviceable tires and which is capable of being used for the purposes for which application is made but is not fully employed for a purpose specified in paragraphs (a) to (d) of § 1315.405 or paragraph (a) of § 1315.504.

(i) If the applicant owns, operates, or controls vehicles equipped with serviceable tires, other than the automobile for which the obsolete-type tires are requested, he must show that all such automobiles capable of being used for the purposes for which tires are sought are fully employed for the purposes specified in paragraph (a) to (d) of § 1315.405 or paragraph (a) of § 1315.504. If an applicant fails to establish this fact, he fails to establish that he needs tires to perform the services listed in those subsections, and he must be denied a certificate.

(2) That the tire for which application is made is to replace a tire no longer serviceable at the speeds at which the applicant may reasonably be expected to operate.

(i) It is not necessary, under paragraph (c) (2), of this section, to show that the tire to be replaced cannot be retreaded or recapped, since these regulations (§§ 1315.151 to 1315.1199, incl.) contain no provision authorizing the retreading or recapping of passenger tires of an obsolete type.

(3) That the tire for which application is made, when added to all other tires of suitable sizes in the applicant's possession, will not add up to more tires than are permitted by the provisions of § 1315.501 (d) (3).

(4) That the applicant agrees to trade in any tires replaced in accordance with the provisions of § 1315.402 (c) (5).

(d) As applied to tires, the words "obsolete type" applies to passenger type tires of the following sizes, and no others:

§ 1315.504 *Eligibility Classification: List B.* Certificates authorizing the purchase or acceptance of delivery of tires may be granted, but only to the extent provided in §§ 1315.501 to 1315.503 and otherwise provided in these regulations (§§ 1315.151 to 1315.1199, incl.), to equip vehicles listed in this section, which contains List B of the Eligibility Classification:

(a) On a passenger car used principally to provide one or more of the following transportation services:

(1) Licensed jitney, taxi, or similar transportation service to the general public.

(i) Certificates may be issued under this paragraph (a) (1) for passenger automobiles, used principally to provide jitney, taxi, or similar services, licensed by an appropriate governmental authority to transport the general public, but only for such vehicles operating in areas where streetcars, busses, and similar large transportation units are inadequate to meet the needs of the public. Such facilities may be inadequate because of a shortage of suitable equipment or because they do not extend to outlying areas which use taxi service as a normal means of mass transportation and not as a luxury service.

(ii) Certificates may not be granted under this paragraph (a) (1) for passenger automobiles which are rented, with or without chauffeurs, for the exclusive use of individuals rather than for taxi, jitney, or similar service to the general public.

(2) Transportation of persons to enable them to render construction or mechanical, structural, or highway maintenance and repair services.

(i) Certificates may be granted under this paragraph to persons who require automobiles to transport them between places where construction or mechanical, structural, or highway maintenance and repair services are needed.

(ii) Certificates may not be issued to applicants under this paragraph unless they are performing services of the character for which truck tires may be obtained under § 1315.405 (f) (2), including such services as plumbing and heating repair and maintenance, industrial construction, maintenance and repair of farm equipment, and the other maintenance and repair services listed in § 1315.405 (f) (2).

(iii) No certificate may be issued under this paragraph (a) (2) in order to provide the applicant with transportation from his residence to his principal place of business or employment. Certificates may be issued for this purpose only to persons who qualify under the provisions of paragraph (a) (3) of this section. Certificates may be issued under this paragraph only to provide transportation between jobs.

(3) Transportation of executives, engineers, technicians, and workers, to and from, or within, such of the following as are essential to the war effort: Power generation or transmission facilities, transportation or communication facilities, or agricultural, extractive, industrial, military, or naval establishments.

(i) Certificates may be granted under this paragraph (a) (3) to workers, including supervisory employees, who require passenger automobiles for transportation from their residences to factories, power plants, transportation or communication facilities, farms, lumber camps, mines, military or naval establishments, or similar places of employment when the work done at such places of employment is essential, directly or indirectly, to the prosecution of the war. Such certificates may be issued only when such plants or facilities cannot be reached by other means of transportation and only when the applicant shows that the vehicle to be equipped will be used economically, that he regularly carries other passengers to work with him, or that he has made reasonable efforts to "double up" with others working at the same or nearby places.

(ii) Certificates may be issued under this section to provide transportation not only to places of employment which are engaged in production directly for the Army or Navy but also to plants engaged in the production of nonmilitary materials essential to the war effort, including farms and canning establishments preparing basic foods for domestic consumption or for export, lumber camps, and mines producing essential materials for construction and for the manufacture of commodities essential for civilian as well as military needs. Whether particular nonmilitary plants or establishments within the general categories indicated are essential to the war effort is a matter which the Board must determine in the light of its knowledge of local conditions, and the Board may issue certificates only for transportation to such establishments as it determines are essential to the war effort.

(4) Transportation on official business of Federal, State, or local Government employees engaged in the performance of Government functions essential to the public health, safety, or the war effort.

(i) Certificates may be granted under this paragraph (a) (4) to enable Government employees to perform essential Government functions essential to the public health, safety, or the war effort, including such officials as fire wardens, ordnance inspectors, mine inspectors, food and crop inspectors, and similar persons.

(ii) Certificates may be granted under this paragraph only to Government employees who use their cars principally for their official functions and only when such functions cannot, because of the absence of other transportation facilities, be performed without the use of such cars. Certificates may not be granted under this paragraph (a) (4) to make possible the transportation of Government employees from their residences to their principal places of employment.

(iii) In addition to the foregoing limitations certificates may not be granted except to make possible official travel in passenger automobiles when Government automobiles are used or when travel in private automobiles entitles the applicant to compensation by the governmental unit employing him for the use of his automobile on a mileage or similar basis.

(5) Transportation of produce and supplies to and from the farm if an applicant operating such farm does not own or possess a truck or other practicable means of transportation.

(i) Certificates may not be issued under this paragraph when the transportation services involved can be provided

by the applicant with horse-drawn vehicles.

(6) Transportation of traveling salesmen who are engaged in the sale of farm, extractive, or industrial equipment, foods or medical supplies, the distribution of which is essential to the war effort.

(i) Certificates may be granted under this section only to provide transportation for such traveling salesmen as are engaged in the sale of machinery, or similar equipment, for farms, factories, mines, oil wells, lumber camps, and similar productive establishments, and of foods and medical supplies, and only when the distribution of such commodities by such salesmen is essential to the war effort.

(ii) Certificates may be granted under this paragraph only to salesmen of the commodities specified and only in cases where the sale of such commodities cannot be made by other means, including mail and telephone, where failure to equip the cars of salesmen would hamper the war effort by depriving the community of necessary commodities, and where the salesmen cannot make such sales by using other means of transportation.

(7) Transportation of mail by private persons under an appointment by or a contract with the United States.

(i) Certificates may be granted under this paragraph for tires for passenger automobiles used principally, but not exclusively, to transport mail in rural areas.

(8) Transportation of newspapers for wholesale delivery: *Provided*, That a passenger automobile, to be eligible under this paragraph, must be used exclusively for one or more of the purposes in this paragraph (a).

(i) Certificates may be granted under this paragraph to passenger cars used exclusively to transport newspapers for wholesale delivery (or for any other purpose included in this paragraph (a), but not for retail delivery of newspapers to individuals) when such deliveries have been customarily made in passenger automobiles the structure of which has been specially altered for the purpose.

(b) Trucks used for any important purpose not included in paragraphs (a) to (h) of § 1315.405.

(1) Certificates may be granted under this paragraph for hearses, for milk trucks, and trucks delivering other essential foods in areas where, and to the extent that, such deliveries are essential to the community, and for other trucks providing essential services for which provision has not been made in paragraphs (a) to (h) of § 1315.405.

(2) No certificates shall be granted under this paragraph when the transportation services needed can be obtained by using horse-drawn vehicles."

Applications for Certificates

§ 1315.601 *Application for authority to purchase new tires (not of an obsolete type) and new tubes.* (a) Any person who believes that his passenger automobile comes within one of the classifications set forth in paragraphs (a) to (d) inclusive, of § 1315.405 (List A) may file with the Board an application for authority to purchase new tires (not of an obsolete type) or new tubes. Such application shall be filed on O.P.A. Form No. R–1 and O.P.A. Form No. R–1A. Separate applications must be filed for each vehicle requiring new tires and tubes.

(b) Any person who believes that his vehicle (other than a passenger automobile) comes within one of the classifications set forth in paragraphs (c) to (h) inclusive, of § 1315.405 (List A) may file with the Board an application for authority to purchase new tires (not of an obsolete type) and new tubes. If he has tires which can be retreaded or recapped for safe use on such vehicle at speeds at which the applicant may reasonably be expected to operate, he may apply only for retreaded or recapped tires pursuant to paragraph (a) of § 1315.404. Separate applications must be filed for each vehicle requiring new tires and tubes on O.P.A. Form No. R–1 and O.P.A. Form No. R–1A."

§ 1315.602 *Application for authority to purchase new passenger tires of an obsolete type.* (a) Any person who operates a passenger automobile using passenger tires of an obsolete type as defined in paragraph (d) of § 1315.503, and who believes that his passenger automobile comes within one of the classifications set forth in paragraphs (a) to (d) of § 1315.405 (List A) or paragraph (a) of § 1315.504 (List B) may file with the Board an application for authority to purchase new passenger tires of an obsolete type.

Separate application for each vehicle requiring new passenger tires of an obsolete type must be made on O.P.A. Form No. R–1 and O.P.A. Form No. R–1A."

§ 1315.603 *Application for authority to purchase retreaded or recapped tires or retreading or recapping services.* (a) Any person who believes that his vehicle other than a passenger automobile comes within one of the classifications set forth in paragraphs (c) to (h) inclusive, of § 1315.405 (List A) may file with the Board an application for authority to purchase retreaded or recapped tires, or to purchase retreading or recapping services for tires in his possession. A separate application for each vehicle requiring retreaded or recapped tires or retreading or recapping services must be made on O.P.A. Form R–1 and O.P.A. Form No. R–1A.

(b) Any person who believes that his passenger automobile comes within paragraph (a) of § 1315.504 (List B) may file with the Board an application for authority to purchase retreaded or recapped tires or retreading or recapping services. A separate application for each passenger automobile requiring retreaded or recapped tires or retreading or recapping services must be made on O.P.A. Form R–1 and O.P.A. Form R–1A. Before the Board will act favorably upon his application he must make a full and complete showing of necessity.

(c) Any person who believes that his truck comes within paragraph (b) of § 1315.504 (List B) may file with the Board between the 1st day and the 20th day of any month an application for authority to purchase retreaded or recapped tires, or retreading or recapping services. A separate application for each vehicle requiring retreaded or recapped tires or retreading or recapping services must be made on O.P.A. Form R–1 and O.P.A. Form R–1A.

(d) Prior to March 2, 1942, no Board shall grant any applicant a certificate of permission to purchase retreaded or recapped tires, or to purchase retreading or recapping services for tires for any passenger automobile or any truck included in § 1315.504 (List B)."

§ 1315.604 *Jurisdiction of Boards* (a) Each Board shall have jurisdiction over all vehicles garaged or normally stationed in the area which it has been designated to serve.

(b) No person shall file an application for authority to purchase new tires or tubes, retreaded or recapped tires, or retreading or recapping service for a vehicle with a Board which does not have jurisdiction over the vehicle as provided in paragraph (a) of this section except in the event (1) that it should become necessary to obtain a new tire or tube or a retreaded or recapped tires for the safe operation of the vehicle, and (2) that an application cannot practically be made to the Board normally having jurisdiction over the vehicle. In such event an application may be filed with the Board having jurisdiction over the area in which the vehicle is temporarily located. This Board shall consider the application only if it is authorized to do so by the Board normally having jurisdiction over the vehicle. The procedure applicable in the event that such an application is granted is set forth in § 1315.306. In the event the application is rejected, the Board normally having jurisdiction over the vehicle should be notified of this fact at once."

§ 1315.605 *Preparation of application.* (a) Copies of O.P.A. Form No. R–1 and O.P.A. Form No. R–1A will be distributed and can be obtained from Local Rationing Boards, tire dealers, police stations, and post offices. O.P.A. Form No. R–1 and O.P.A. Form No. R–1A may be reproduced by any person provided that no change is made in the size, style, and content thereof.

(b) (1) *Name of applicant.* (i) An individual shall state his given name, middle name, and surname. In all cases where an individual regularly doing business under a trade name makes an application, he shall state, in addition to his name, the trade name under which he is doing business; for example, John James Doe, doing business as Doe Trucking Co.

(ii) A partnership shall state the trade name regularly used by such partnership and the fact that it is a partnership; for example, Doe & Roe Transportation Co., a partnership.

(iii) A corporation shall give its full name as it appears on its corporate charter; for example, Doe Transportation Co., Inc.

(iv) A State or any political subdivision thereof shall state its name; for example, the State of Wisconsin; Village of Winnetka, Ill.

(v) A Federal department or agency shall state its name; for example, United States Department of Labor. If a branch thereof, the name of the branch shall be given; for example, Chicago Regional Office of the United States Department of Labor.

(2) *Addresses and telephone numbers of applicant.* (i) An individual shall state his business or office address and telephone number thereof.

(ii) A partnership shall state the address and telephone number of its principal office and the address and telephone number of at least one place of business of the partnership within the area administered by the Board.

(iii) A corporation shall state the address and telephone number of its principal office and the address and telephone number of at least one place of business of the corporation within the area administered by the Board.

(iv) A State or any political subdivision thereof shall state the address and telephone number of at least one of its offices within the area administered by the Board.

(v) A Federal department or agency shall state the address and telephone number of the office within the area administered by the Board.

(vi) If there is no place of business or office within the area administered by the Board, although the vehicle is garaged or stationed within that area, the applicant shall state the address of the place of business or office nearest the place where the vehicle is garaged or stationed.

(3) *Certification by applicant.* The applicant shall certify the facts stated in the application, in the manner and form provided for such certification. In executing the certification:

(i) An individual shall sign his full name. In cases where an individual does business under a trade name, he shall set forth such trade name following his signature; for example, "John Doe doing business as Doe Transportation Co."

(ii) A partnership shall set forth the name of the partnership followed by the legend, "a partnership," following which a partner, or a duly authorized agent of the partnership shall sign his name, giving his position, preceded by the word "by"; for example, "Doe Transportation Co., a partnership, by John James Doe, a partner"; or, "Doe Transportation Co., a partnership, by Richard Roe, store manager, its duly authorized agent."

(iii) A corporation shall set forth the full name of the corporation as it appears on its charter, followed by the legend, "a corporation," following which an officer of the corporation, or a duly authorized agent thereof, shall sign his name, giving his position, preceded by the word "by"; for example, "Doe Transportation Co., Inc., a corporation, by John James Doe, president"; or "Doe Transportation Co., Inc., a corporation, by Richard Roe, truck superintendent, its duly authorized agent."

(iv) A State or political subdivision thereof shall set forth its name, followed by the signature of an officer or duly authorized representative, giving his position, preceded by the word "by"; for example, "State of ----------, by John James Doe, Superintendent of Highways."

(v) A Federal department or agency or branch thereof shall set forth its name followed by the signature of an officer authorized by law to make purchases, who shall also state his position."

§ 1315.606 *Inspection.* No application for authority to purchase a new tire or tube or a retreaded or recapped tire shall be filed until an inspection of the tires or tubes already on the vehicle shall have been made by an inspector duly authorized by a Board to make such inspections. Inspection of tubes on such vehicle may be limited to the tube or tubes which the applicant seeks authority to replace by purchase of a new tube or tubes. The inspector shall fill in all the information and facts required in the "Certification By Inspector" which is a part of O. P. A. Form R–1 and shall certify the information and facts provided in the certification by signing his name thereto. The applicant shall not pay any compensation to the inspector for such inspection: *Provided*, That a sum not to exceed fifty cents ($0.50) may be paid the inspector, or any other person, for the service of removing and replacing a tire if same is required for purposes of inspection, although not for the service of inspecting the tire."

§ 1315.607 *Action by the Board upon applications.* Before granting an application for a certificate of permission to purchase new tires or tubes, retreaded or recapped tires, retreading or recapping services, or new passenger tires of an obsolete type, the Board shall satisfy itself that the applicant has properly executed his application, including all the agreements therein contained, that all the facts stated in the application are true, and that the applicant has satisfied all the applicable requirements and conditions specified by the applicable sections of these regulations (§§ 1315.151 to 1315.1199 incl.)."

§ 1315.608 *Allotment by the Board upon application for new tires (not of an obsolete type) and new tubes.* (a) An applicant for new tires (not of an obsolete type) and new tubes to be mounted on passenger automobiles eligible under paragraph (a) to (d), inclusive, of § 1315.405 (List A) who satisfies the applicable requirements of § 1315.402, shall be granted a certificate for new tires and a certificate for new tubes, but in no event shall the Board authorize the purchase of a new tire or new tube in excess of its quota as provided in § 1315.305 of these regulations (§§ 1315.151 to 1315.1199 incl.). If the applicant cannot be granted a certificate for new passenger automobile tires because the Board's quota for the entire month for such tires has been exhausted, he shall be offered a certificate for retreaded or recapped tires, or retreading or recapping services for tires in his possession, if it may be issued within the Board's quota for retreaded or recapped passenger automobile tires.

(b) An applicant who applies for permission to purchase new tires and new tubes to be mounted on vehicles (other than passenger automobiles) listed in paragraphs (c) to (h), inclusive, of § 1315.405 (List A) and who satisfies the requirements of § 1315.403, shall be granted a certificate for the purchase of new tubes. He shall be granted a certificate for permission to purchase new truck-type tires only if there are no passenger-type tires of the same size on sale. If passenger-type tires of the same size as those for which he is applying are on sale, he shall be granted a certificate for permission to purchase such tires. For the purpose of determining whether there are passenger-type tires of the same size on sale, the Board shall refer to any standard manufacturer's price list for passenger-type tires.

He shall also be granted a certificate for the purchase of new tires only if he has no worn tires in his possession which can be retreaded or recapped for safe use at speeds at which he may reasonably be expected to operate. If he has worn tires in his possession which may be retreaded or recapped for safe use at speeds at which he may reasonably be expected to operate, he shall be granted a certificate only for the purchase of retreaded or recapped tires or retreading or recapping service. In no event shall any certificate be granted in excess of the Board's applicable quota for the month."

§ 1315.609 *Allotment by the Board upon applications for new passenger tires of an obsolete type.* (a) The Board shall grant a certificate for permission to purchase new passenger tires of an obsolete type to an applicant applying for such tires for a vehicle eligible under paragraphs (a) to (d), inclusive, of § 1315.405 (List A) or paragraph (a) of § 1315.504 (List B) and who satisfies the requirements of § 1315.503. The allotment of new passenger tires of an obsolete type is not limited by a quota and the Board may allot such tires to all applicants who otherwise satisfy the requirements of these regulations (§§ 1315.151 to 1315.-1199, incl.)."

§ 1315.610 *Allotment by the Board upon applications for retreaded or recapped tires or retreading or recapping services.* (a) The Board shall grant, but not in excess of its applicable quota for the entire month, certificates authorizing the purchase of retreaded or recapped tires or retreading or recapping services for tires to be mounted upon a passenger automobile eligible under paragraphs (a) to (d), inclusive, of § 1315.405 (List A) when the applicant has satisfied the requirements of § 1315.402 of these regulations, only if the Board has exhausted its entire month's quota of new tires for such vehicles.

(b) The Board shall grant certificates, not in excess of its applicable quota for

the entire month, authorizing the purchase of retreaded or recapped tires or retreading or recapping services for tires to be mounted upon trucks or other vehicles eligible under paragraphs (c) to (h) inclusive of § 1315.405 (List A) when the applicant has satisfied the requirements of § 1315.404 of these regulations (§§ 1315.151 to 1315.1199, incl.).

(c) The Board shall grant certificates, not in excess of its applicable quota for the entire month, authorizing the purchase of retreaded or recapped tires or retreading or recapping services for tires to be mounted on passenger automobiles eligible under paragraph (a) of § 1315.504 (List B) when the applicant has satisfied the requirements of § 1315.501 of these regulations (§§ 1315.151 to 1315.1199, incl.).

(d) The Board shall consider applications and issue certificates authorizing the purchase of retreaded or recapped tires, or retreading or recapping services for tires, to be mounted on trucks eligible under paragraph (b) of § 1315.504 (List B) when the applicant has satisfied the requirements of § 1315.502 of these regulations, (§§ 1315.151 to 1315.1199, incl.), only between the 25th day and the last day of a month. During that period the Board shall grant certificates authorizing the purchase of retreaded or recapped tires or retreading or recapping services for tires for such trucks only if the issuance of the certificate would not exceed the quota applicable to such tires: *Provided*, That no such certificate shall be issued if there is any application for a vehicle other than a passenger automobile eligible under § 1315.405 (List A) which has not been satisfied.*

§ 1315.611 *Basis for Board consideration.* (a) If the Board has before it applications for new tires (not of an obsolete type) or new tubes which in its judgment satisfy all the requirements of these regulations but which together call for the allotment of new tires (not of an obsolete type) or new tubes in excess of the applicable quota of the Board, the Board shall be governed, in determining which of the competing needs are to be satisfied, by the relative importance from the standpoint of locally known circumstances, to the war program, public safety, health, and morale, of the operation of a vehicle in one use as compared with the importance of the operation of a vehicle in another use.

The determination as to whether or not all such facts and conditions exist shall be made upon the basis of the application and all other information which comes to the knowledge of the Board. In acting upon applications, the Board shall observe all regulations herein contained and all additional regulations from time to time hereafter issued by the Office of Price Administration. The Board shall at all times serve the objectives sought to be accomplished by the tire rationing program and allocate new tires and tubes to the most vital civilian uses and to uses essential to the war effort. The Board may, in its discretion request the applicant or his authorized representative to appear in person at a designated time at the office of the Board to answer pertinent questions.

(b) If the Board has before it applications for retreaded or recapped tires, or for retreading or recapping services, which in its judgment satisfy all the requirements of these regulations but which together call for an allotment in excess of the Board's quota for retreaded or recapped passenger tires, or retreaded or recapped tires for other vehicles, the Board shall be governed in determining which of the competing needs are to be satisfied, by considerations such as the following: (1) Is the applicant justified in using his automobile in preference to some other mode of transportation; (2) what is the relationship of the applicant to the war effort; and (3) what is the relative importance from the standpoint of locally known circumstances, of the operation of a vehicle in one use as compared with the operation of a vehicle in another use?

The Board need not limit itself to an examination of these considerations alone, but should also attempt to govern its allotments by such variable factors as the amount of its quota in each month, and the nature of the community itself, as, for example, whether there are defense plants in the vicinity which can be reached only by automobiles. As a further example, the eligibility of taxis under paragraph (a) of § 1315.504 (List B) may depend on such facts peculiarly within the knowledge of the Board, as a sudden increase in population overburdening public transportation systems in the community. In other communities the Board will be aware that taxis are a luxury means of transportation and therefore not essential. The Board must keep in mind and must impress upon applicants that the supply of rubber for retreading or recapping tires is extremely limited and that it is not sufficient for the applicant to show only that he comes within one of the eligibility classifications in order for him to receive a certificate. Whenever the Board is not fully convinced by the applicant's case it should refuse to grant a certificate for permission to retread or recap tires, even though in that month the Board's quota may not be exhausted.*

§ 1315.612 *Notation of reasons for action.* When the Board determines that an application shall be granted, the reasons therefor shall be noted upon the application, together with the number and type of tires or tubes allotted to the applicant.

In all cases where an application is refused, the reasons for such refusal shall be noted upon the application.*

Tire and Tube Certificates

§ 1315.701 *Notification.* After acting upon an application the Board shall notify the applicant of its decision. In cases where the Board authorizes an applicant to purchase new tires, including passenger tires of an obsolete type, or tubes, the Board shall immediately issue to such applicant a nontransferable certificate for the purchase of new tires or tubes (O.P.A. Form No. R–2). A certificate should only authorize the purchase of new tires or new tubes. No one certificate shall be issued authorizing the purchase of both tires and tubes.

In cases where the Board authorizes an applicant to purchase retreaded or recapped tires, or retreading or recapping services, the Board shall immediately issue to such applicant a nontransferable certificate for the purchase of retreaded or recapped tires, or retreading or recapping services (O.P.A. Form No. R–8).

No certificate shall be issued authorizing the purchase of more new tires, new tubes, or retreaded or recapped tires than have been allotted for one vehicle by the Board.*

§ 1315.702 *Form of certificates.* O.P.A. Form No. R–2, the nontransferable certificate for the purchase of new tires or tubes, and O.P.A. Form No. R–8, the nontransferable certificate for the purchase of retreaded or recapped tires, or retreading or recapping services, shall each be serially numbered and shall be divided into four parts, each bearing the same serial number;

(a) a part to be retained by the dealer as a record which shall be designated as part A;

(b) a part to be used by the dealer as the basis for replenishing his stocks, which shall be designated as part B;

(c) a part to be forwarded by the dealer to the Board which has issued the certificate which shall be designated as part C; and

(d) a part to be given by the dealer to the purchaser, which shall be designated as part D.*

§ 1315.703 *Execution by issuing Board.* It shall be the responsibility of the Board, prior to issuing either certificate, to fill in parts A and B of the certificate setting forth the information required. It shall also be the responsibility of the Board to indicate on parts C and D of the certificate issued, the number of the Board and its address. No certificate will be valid unless part A is signed by two members of the issuing Board. Prior to delivering the certificate to the applicant, the Board shall require the applicant or his agent to sign the certificate in the presence of a member or the clerk of the Board. When all of the foregoing steps have been taken by the issuing Board, the Board shall deliver the certificate to the applicant or his agent.*

§ 1315.704 *Action by purchaser.* (a) Upon receiving the certificate so executed, the applicant may, within 30 days from the date of issue, purchase the new tires, new tubes, retreaded or recapped tires, or retreading or recapping services for the tires specified upon the certificate from any authorized seller at a price not in excess of the maximum price established by the Office of Price Administration.

(b) If the applicant is authorized to purchase new tires or tubes, he must present to the authorized seller all parts of the certificate, O.P.A. Form No. R–2, in the form in which it was given to him by the issuing Board.

If the purchase is made from an authorized seller other than a mail-order house, the applicant must at the time of presenting the certificate, deliver in trade to the authorized seller the tires or tubes which are to be replaced by the new tires or tubes which he is purchasing. If the purchase is made by mail from a mail-order house, the applicant, within five (5) days after receiving the new tires or tubes, must sell the replaced tires or tubes to a dealer in tires and file O.P.A. Form R–3, with the Local Rationing Board which issued the certificate.

The requirements of this paragraph (b) with respect to the trading in of tires and tubes, do not apply if the applicant can establish to the satisfaction of the Board that he has no tires or tubes to turn in because they have been stolen, or if the applicant is a Government Agency forbidden by law to make such disposition of Government property, or for similar reasons, or if the applicant purchases a spare for a new vehicle which was acquired by him without a spare as a part of its original equipment.

(c) If the applicant is authorized to purchase retreaded or recapped tires or retreading or recapping services, he must present to the dealer all parts of the certificate, O.P.A. Form No. R–8, in the form in which it was given to him by the issuing Board. The applicant must trade in the tires which are to be replaced by the retreaded or recapped tires which he is purchasing in accordance with the applicable provisions of paragraph (b) of this section. If the applicant is purchasing only retreading or recapping services for tires already in his possession, he need not deliver to the authorized seller any other tires than those which he desires to have retreaded or recapped.

(d) If the purchaser is unable to buy from one authorized seller all of the new tires, new tubes, retreaded or recapped tires, or retreading or recapping services which he has been authorized to purchase by the certificate, he may return the certificate to the issuing Board, and the Board shall thereupon issue as many certificates as are necessary to permit his purchases to be made among several authorized sellers.*

§ 1315.705 *Action by authorized seller other than mail-order house.* Prior to delivering a new tire, new tube, or retreaded or recapped tire pursuant to a certificate surrendered to him, an authorized seller other than a mail-order house shall require the purchaser or the purchaser's agent to sign his name in the space provided for this purpose on part C of the certificate. If the signature on part C does not appear to be the signature of the person who signed part A, the authorized seller shall refuse to sell or deliver any new tires, new tubes, or retreaded or recapped tires to the person presenting the certificate and shall report the facts to the issuing Board.

If the signatures appear to be executed by the same person, an authorized seller or his authorized agent shall, in the presence of the purchaser, or the purchaser's agent, fill in the items in part A, part C, and part D which have not been completed by the issuing Board. The authorized seller shall retain part A of the certificate as his permanent record in accordance with the record keeping provisions of the regulations. The authorized seller shall retain part B of the certificate, which he may use as the basis for replenishing his stock. The authorized seller shall complete and return part C to the issuing Board within three (3) days from the date of delivery of the tires or tubes. Part D shall be given by the authorized seller to the purchaser, who shall retain it as a permanent record in accordance with the record-keeping provisions of these regulations (§§ 1315.151 to 1315.1199, incl.).

No authorized seller shall deliver a new tire, new tube, or retreaded or recapped tire, except where the purchaser supplied the carcass to be retreaded or recapped or is otherwise excused, as provided in paragraphs (b) and (c) of § 1315.704, to a person holding a certificate except upon receiving the used tire or tube replaced by the purchase, and no such delivery shall be made at a price in excess of the maximum price established by the Office of Price Administration.*

§ 1315.706 *Action by mail-order house.* In the case of a purchase by mail from a mail-order house the purchaser is not required to sign part C of the certificate. At the time of shipping the new tires, new tubes, or retreaded or recapped tires an authorized agent of the mail-order houses shall fill in the items in part A, part C, and part D which have not been completed by the issuing Board and sign the certification upon part C. The mail-order house is authorized to ship the new tires, new tubes, or retreaded or recapped tires only to the name and address appearing in items (4) and (5) (the authorized purchaser) upon the certificate. Mail-order houses are required to exercise great care to comply with this requirement.

The mail-order house shall retain part A of the certificate as its permanent record in accordance with the record-keeping provisions of these regulations. The mail-order house shall keep part B of the certificate which may be used as a basis for replenishing its stock. The mail-order house shall return part C to the issuing Board within three (3) days from the date it shipped the new tires, new tubes, or retreaded or recapped tires to the purchaser. Part D shall be returned by the mail-order house to the purchaser who shall retain it as a permanent record. No mail-order house shall deliver a new tire, new tube, or retreaded or recapped tire at a price in excess of the maximum price established by the Office of Price Administration.*

Transfers and Deliveries of New Tires and Tubes, Retreaded or Recapped Tires and Camelback

§ 1315.801 *Permitted and prohibited transfers of new tires and tubes*—(a) *Prohibitions.* Except as provided in §§ 1315.401, 1315.804, and paragraphs (c), (d), (e), and (f) of this section of these regulations (§§ 1315.151 to 1315.1199, incl.) no person shall transfer a new tire or tube, and no person shall accept any such transfer of a new tire or tube.

(1) The word "transfer" is very broadly defined. It includes not only transfers by a sale, lease, or trade of a new tire or tube, but also by gift from one person to another and includes the transfer of any legal or equitable right or interest in any tire or tube. Again, it applies to any transfer from one person to another even though no change in "title" is involved. For example, unless expressly authorized by these regulations, transfers may not be made of new tires or tubes to a person by a dealer even though the person had previously bought and paid for the tires or tubes. Similarly, tires or tubes imported into this country and held in customs at a point of entry may not be released to the claimant unless he is authorized by these regulations to accept them.

(2) Unless specifically exempted, all physical transfers involving a change in the location or use of tires or tubes are included. Thus, if a dealer in tires or tubes removes a tire from his stock and mounts it on a vehicle owned by him, a transfer has occurred within the meaning of these regulations. Furthermore, a change in physical location involving a movement of a tire from one establishment to another is a transfer, although routine shifts in stock within a single building are not transfers within these regulations. It should be noted, however, that freedom to move tires and tubes is expressly permitted by paragraph (c) of this section in a wide number of cases.

(3) The prohibition in this paragraph (a) applies to all new tires and tubes whether such new tires and tubes are at the date of this order already manufactured or whether such new tires and tubes are manufactured in the future.

(b) *Restriction on transfers from stocks to vehicles.* (1) Except as provided in subparagraph (2) of this paragraph (b) no person who on December 11, 1941, or at any time thereafter was a retailer, distributor, wholesaler, or manufacturer of new tires or tubes may mount any new tire or tube on any vehicle owned, operated, or controlled by him or otherwise transfer such tire or tube to his own use unless such person possesses a certificate issued to him by a Board authorizing him to purchase or otherwise acquire such tire or tube for the vehicle upon which it is to be mounted. The instructions set forth in §§ 1315.705 and 1315.706 in regard to the certificate should be followed.

(2) A manufacturer of new tires or tubes may mount new tires and tubes on a vehicle owned by him or otherwise subject to his control which is used exclusively for testing such tires and tubes and not in connection with any other use.

(c) *Permitted transfers by certain persons.* (1) Except as provided in paragraph (b) of this section, any person who on December 11, 1941 was not a retailer, distributor, wholesaler, or manu-

facturer may transfer any new tire or tube which was owned and physically possessed by him prior to December 11, 1941, including the placing of such tire or tube upon the wheel or rim of any vehicle owned or operated by him, provided no change in ownership, possession, or control occurs.

(2) Any person who on December 11, 1941, was not a retailer, distributor, wholesaler, or manufacturer may transfer new tires or tubes to any retailer, distributor, wholesaler, or manufacturer.

(d) *Transfers to replenish stocks*—(1) *By a distributor.* Subject to the provisions of subparagraphs (4) and (5) of this paragraph (d) relating to certificates and records, any distributor may transfer new tires or tubes to any retailer or distributor.

(i) A person may in separate premises perform simultaneously the functions of either a retailer, distributor, wholesaler, or manufacturer. The transfers of new tires or tubes which such person will be permitted to make or receive in any particular premise are controlled by the provisions of these regulations applicable to the function performed on those premises.

(2) *By a wholesaler.* Subject to the provisions of subparagraphs (4) and (5) of this paragraph (d) relating to certificates and records, any wholesaler may transfer new tires or tubes to any retailer, distributor, or wholesaler.

(3) *By a manufacturer.* Subject to the provisions of subparagraphs (4) and (5) of this paragraph (d) relating to certificates and records, any manufacturer may transfer new tires or tubes to any retailer, distributor, wholesaler, or manufacturer: *Provided*, That no manufacturer shall after February 19, 1942, during any month of any calendar year transfer to retailers and distributors owned, operated, or controlled by such manufacturer new tires and tubes of a wholesale dollar value amounting to a larger percentage of his total wholesale dollar value of new tires and tubes transferred for such month than the percentage of his total wholesale dollar value of new tires and tubes transferred to retailers and distributors owned, operated, or controlled by him during the year 1941.

(i) *Example.* During the year 1941, X, a manufacturer of new tires and tubes, sold or otherwise transferred a total wholesale dollar value of new tires and tubes amounting to $1,000,000. He sold or otherwise transferred to retailers and distributors owned, operated, or controlled by him a wholesale dollar value of new tires and tubes amounting to $250,000, or 25 percent. If during February of 1942 his total wholesale dollar value of new tires and tubes sold or otherwise transferred amounted to $80,000, he may in that month sell or transfer to retailers and distributors owned, operated, or controlled by him a wholesale dollar value of new tires and tubes amounting to not more than 25 percent of $80,000, or $20,000. He can make no sales or transfers to such retailers and distributors except in exchange for the replenishment portion of a certificate or receipt, but even in exchange for such portion of a certificate or receipt he cannot sell or transfer new tires or tubes in excess of the limitation described above.

(4) No transfer provided in subparagraphs (1), (2), and (3) of this paragraph (d) may be made except in exchange for the replenishment portion of a certificate (pt. B) for new tires or tubes issued pursuant to § 1315.701 of these regulations (§§ 1315.151 to 1315.1199, inclusive) or the replenishment portion of a receipt (pt. B) for new tires or tubes issued pursuant to § 1315.804 of these regulations (§§ 1315.151 to 1315.1199, inclusive).

(i) Any retailer, distributor, wholesaler, or manufacturer using the certificate or receipt to replenish his stock may purchase the number of new tires or tubes specified thereon and is not required to purchase new tires or tubes of the same size or of the same type.

(ii) Any retailer, distributor, wholesaler or manufacturer who is authorized to sell or otherwise transfer a new tire or tube to a consumer may forward, with the consumer's permission, when he does not have such tire or tube in stock, the replenishment portion (pt. B) of the certificate for new tires or tubes or the replenishment portion (pt. B) of a receipt for new tires or tubes to a supplier and obtain the number of new tires and tubes specified thereon for delivery to the consumer.

(5) Any distributor, wholesaler, or manufacturer making a transfer pursuant to subparagraphs (1), (2), and (3) of this paragraph (d) shall keep records showing the name of the person acquiring a new tire or tube, the number, size, and type of the tire and tube acquired, the sales price, the date of the shipment or delivery, and the serial number of the certificate.

(e) *Transfers to liquidate stock*—(1) *By a retailer.* Any retailer may (without certificate) transfer any new tire or tube to any retailer, distributor, wholesaler, or manufacturer.

(2) *By a distributor.* Any distributor, may (without certificate) transfer any new tire or tube to any wholesaler or manufacturer.

(3) *By a wholesaler.* Any wholesaler may (without certificate) transfer any new tire or tube to any manufacturer.

(4) *Records.* Any person making a transfer pursuant to subparagraphs (1), (2), and (3) of this paragraph (e) shall keep records showing the name of the person acquiring a new tire or tube, the number, size, and type of the tire and tube acquired, the sales price, and the date of shipment or delivery.

(f) *Other transfers*—(1) *By a retailer or distributor without changing ownership or control.* Any retailer or distributor may deliver, ship, or transfer new tires or tubes to any warehouse or premise owned, operated, or controlled by such person, provided there is no change in ownership or control involved in this delivery, shipment, or transfer. Records of such delivery, shipment, or transfer shall be kept and reports in connection therewith shall be made as may be required by the Office of Price Administration.

(2) *By wholesaler or manufacturer without changing ownership or control.* Any wholesaler or manufacturer may deliver, ship, or transfer new tires or tubes to any warehouse or premise owned, operated, or controlled by such person and not used in performing the functions of a distributor or retailer, provided there is no change in ownership or control involved in this delivery, shipment, or transfer. Records of such delivery, shipment, or transfer shall be kept and reports in connection therewith shall be made as may be required by the Office of Price Administration.

(3) *By a common carrier.* Any common carrier which on December 11, 1941, was in possession of shipments of new tires or tubes consigned to a consignee may (without certificates) deliver such tires and tubes to such consignee. No provision of these regulations shall impose any liability upon any common carrier for the transportation in the regular course of business of any new tire or tube not owned by such common carrier.

(4) *Original equipment.* Any person may deliver new tires and tubes, excluding spares, as a part of the original equipment of a new vehicle provided that (i) such tires and tubes are affixed to such vehicle at the time of their sale, and (ii) such sale is not prohibited by the terms of any order of the War Production Board: *Provided further, however*, That spares may also be included as a part of the original equipment of a new vehicle upon the written consent of the Director of Priorities or the Chairman of the War Production Board.

(5) *Transfers to and from public warehouses.* Any person may deliver, ship or transfer new tires or tubes to a public warehouse for storage, provided there is no change in ownership, use, or control involved in this delivery, shipment, or transfer. Any public warehouse may deliver, ship, or transfer new rubber tires or tubes stored in such warehouse after December 11, 1941, to the person who delivered such tires or tubes for storage, provided no such delivery may be made without first obtaining authorization in writing from the Office of Price Administration, Washington, D. C. Any person making a delivery, shipment, or transfer pursuant to this subparagraph (5) of paragraph (f) shall keep such records and make such reports in connection therewith as may from time to time be required by the Office of Price Administration. Nothing in this paragraph shall be construed to allow any person to pledge, hypothecate, or use as security in any transaction a warehouse receipt for new tires or tubes.*

§ 1315.802 *Permitted and prohibited deliveries of retreaded or recapped tires*—(a) *Prohibitions.* Except as provided in §§ 1315.401, 1315.804, and in paragraphs (c) and (d) of this section, no person shall deliver a retreaded or recapped tire to any other person and no person shall accept any such delivery of a retreaded or recapped tire.

(1) The word "delivery" in paragraph (a) includes a delivery of any legal or equitable right or interest in or to, or physical delivery of, any retreaded or recapped tire.

(2) Paragraph (a) prohibits sales or other deliveries to another person; it does not prevent any person owning or possessing retreaded or recapped tires from physically transferring such tires among his premises or vehicles as long as there is no change of ownership or control.

(3) The prohibition in this paragraph (a) applies both to sales and deliveries. Except as provided by §§ 1315.401, 1315.804, and by paragraphs (c) and (d) of this section, it is unlawful to deliver retreaded or recapped tires to a person even though such person has previously bought and paid for the retreaded or recapped tires, or even though such person supplied the carcass which was recapped or retreaded.

(4) The prohibition in this paragraph (a) applies to retreaded or recapped tires whether such tires have been retreaded or recapped at the date of the issuance of this order or whether such tires are retreaded or recapped in the future.

(b) *Restriction on transfer from stocks to vehicles.* (1) No person who on February 19, 1942, or at any time thereafter, was engaged in retreading or recapping for others, or was otherwise dealing in retreaded or recapped tires, may mount a retreaded or recapped tire on any vehicle owned, operated, or controlled by him unless such person possesses a certificate issued to him by a Local Rationing Board authorizing him to purchase or otherwise acquire such tire for the vehicle upon which it is to be mounted. The instructions set forth in §§ 1315.705 and 1315.706 in regard to the certificate for retreaded or recapped tires should be followed.

(c) *Deliveries to replenish stock*—(1) *By a retreader or recapper.* Subject to the provisions of subparagraphs (2) and (3) of this paragraph (c) relating to certificates and records any retreader or recapper of tires may deliver retreaded or recapped tires to any person who deals in but does not retread or recap tires or to any retreader or recapper.

(2) No delivery provided in subparagraph (1) of this paragraph (c) may be made except in exchange for the replenishment portion (pt. B) of a certificate for retreaded or recapped tires issued pursuant to § 1315.701 of these regulations, or the replenishment portion (pt. B) of a receipt for retreaded or recapped tires issued pursuant to § 1315.804 of these regulations (§§ 1315.151 to 1315.1199, incl.).

(i) No retreader or recapper may deliver any retreaded or recapped tire to any person other than a consumer (and then only in exchange for a complete certificate) except in exchange for the replenishment portion (pt. B) of a certificate or receipt for retreaded or recapped tires. This is true even though the person who is to receive the tire delivered the carcass to the retreader or recapper for retreading or recapping.

(ii) Any person authorized to use the replenishment portion of a certificate or receipt to obtain retreaded or recapped tires may purchase or acquire the number of retreaded or recapped tires specified thereon and is not required to purchase tires of the same size or of the same type.

(iii) Any person authorized to sell or otherwise deliver a retreaded or recapped tire to a consumer may forward, with the consumer's permission, when he does not have such tire in stock, the replenishment portion (pt. B) of the retreaded or recapped tire certificate or the replenishment portion (pt. B) of a retreaded or recapped tire receipt to any retreader or recapper and obtain the number of tires specified thereon for delivery to the consumer.

(3) Any retreader or recapper making a delivery pursuant to subparagraph (1) of this paragraph (c) shall keep records showing the name of the person acquiring retreaded or recapped tires, the number, size, and type of tires acquired, the sale price, the date of the delivery or shipment, and the serial number of the retreaded or recapped tire certificate.

(d) *Other deliveries*—(1) *By a person not in tire trade.* Any person who does not deal in new or retreaded or recapped tires may (without certificates) deliver retreaded or recapped tires to any person who deals in new or retreaded or recapped tires or any retreader or recapper of tires.

(2) *By a person in tire trade.* Any person who deals in new or retreaded or recapped tires but is not a retreader or recapper of tires may (without certificates) deliver retreaded or recapped tires to any person who deals in new or retreaded or recapped tires or to any retreader or recapper of tires.

(3) *Records.* Any person making a delivery pursuant to subparagraphs (1) and (2) of this paragraph (d) shall keep records showing the name of the person acquiring the retreaded or recapped tires, the number and type of such tires acquired, the sales price, and the date of the delivery or shipment.

(4) *Delivery to and from public warehouses.* Any person may ship or deliver retreaded or recapped tires to a public warehouse for storage, provided there is no change in ownership, use, or control involved in this shipment or delivery. Any public warehouse may ship or deliver retreaded or recapped tires stored in such warehouse after February 18, 1942, to the person who delivered such tires for storage: *Provided*, No such delivery may be made without first obtaining authorization in writing from the Office of Price Administration, Washington, D. C. Any person making a shipment or delivery pursuant to this subparagraph (4) of this paragraph (d) shall keep such records and make such reports in connection therewith as may from time to time be required by the Office of Price Administration. Nothing in this subparagraph shall be construed to allow any person to pledge, hypothecate, or use as security in any transaction a warehouse receipt for retreaded or recapped tires.

(5) *Original equipment.* Any person may deliver retreaded or recapped tires, excluding spares, as part of the original equipment of a new vehicle provided (i) such tires are affixed to such vehicle at the time of their sale, and (ii) such sale has not been prohibited by the terms of any order of the War Production Board: *Provided further, however*, That spares may also be included as a part of the original equipment of a new vehicle upon the written approval of the Director of Priorities or the Chairman of the War Production Board.

(6) *Common carrier.* No provision of these regulations shall impose any liability upon any common carrier for the transportation in the regular course of business of any retreaded or recapped tire not owned by such common carrier.*

§ 1315.803 *Permitted and prohibited deliveries of camelback*—(a) *Prohibition.* Except as provided in §§ 1315.804, 1315.805, and in paragraphs (c) and (d) of this § 1315.803 or in regulations hereafter issued by the Office of Price Administration, no person shall deliver camelback to any other person, and no person shall accept any such delivery of camelback.

(1) The prohibition against any delivery to another person set forth in paragraph (a) includes prohibitions against delivery of any legal or equitable right or interest in or to, or physical delivery of, any camelback.

(2) The prohibition in this paragraph (a) applies only to sales, or other deliveries of camelback to another person. Any person who owns or possesses camelback may transfer such camelback among his warehouses and premises as long as there is no change in the ownership or control of such camelback.

(3) The prohibitions in this paragraph (a) apply to both sales and physical deliveries. Except as provided by § 1315.804, 1315.805 and by paragraphs (c) and (d) of this section it is unlawful to deliver camelback to any person even though such person has previously bought and paid for the camelback.

(4) The prohibition in paragraph (a) applies to camelback whether such camelback was at the date of the issuance of this order already manufactured or whether such camelback is manufactured in the future.

(b) *Restriction on consumption.* (1) On and after February 16, 1942, no maker of camelback shall during any single month consume any camelback, regardless of its source, in his own retreading or recapping equipment or in retreading or recapping equipment operated by establishments owned, operated, or controlled by him amounting to a larger percentage by weight of his total camelback production for such month than the percentage of his total camelback production consumed during the year 1941 in his own retreading or recapping equipment and in retreading or recapping equipment operated by establishments owned, operated, or controlled by him.

(i) *Example.* During the year 1941, X, a maker of camelback, produced 10,000 pounds of camelback. He consumed 5,000 pounds, or 50 percent, in his own retreading or recapping equipment and in retreading or recapping equipment

operated by establishments owned, operated, or controlled by him. If during March of 1942 his total production of camelback is 1,000 pounds, he may in that month consume an amount equal to 50 percent of his month's production, or 500 pounds of camelback, regardless of its source, in his own retreading or recapping equipment and in retreading or recapping equipment operated by establishments owned, operated, or controlled by him.

(2) On and after February 19, 1942, and until midnight March 1, 1942, no maker of camelback or retreader or recapper shall use or consume any camelback to retread or recap any passenger-type tire.

(3) On and after February 19, 1942, no person shall consume or use truck-type camelback, as now and hereafter defined by the War Production Board, in recapping or retreading passenger-type tires.

(c) *Transfers to replenish stock*—(1) *By persons dealing in or making camelback.* Subject to the provisions of subparagraphs (2) and (3) of this paragraph (c) relating to certificates and records, any person who deals in or makes camelback may deliver camelback to any other person.

(2) No delivery provided in subparagraph (1) of this paragraph (c) may be made except in exchange for the replenishment portion (pt. B) of a retreaded or recapped tire certificate issued pursuant to § 1315.701 of these regulations, or the replenishment portion (pt. B) of a receipt for either retreaded or recapped tires or camelback issued pursuant to § 1315.804 of these regulations, or the replenishment portion (pt. A) of the certificate authorizing the purchase of an initial allotment of camelback issued pursuant to § 1315.805 of these regulations (§§ 1315.151 to 1315.1199, incl.).

(i) Any person may purchase camelback, from a person dealing in or making camelback, upon presenting the appropriate part of a certificate or receipt. He may present the replenishment portion (pt. B) of the retreaded or recapped tire certificate, the replenishment portion (pt. A) of the initial allotment of camelback certificate, or the replenishment portion (pt. B) of a receipt for either retreaded or recapped tires or camelback. When using the replenishment portion of a receipt for camelback, he may purchase the number of pounds of camelback stated thereon without regard to size or gauge. If he uses the replenishment portion of the initial allotment of camelback certificate he may purchase the number of pounds of truck camelback specified thereon. Truck camelback means truck camelback defined by specifications established from time to time by the War Production Board. If he uses the replenishment portion of a retreaded or recapped tire certificate or the replenishment portion of a receipt for retreaded or recapped tires, he may purchase the number of pounds of camelback specified in the following table:

TABLE FOR CAMELBACK REPLENISHMENT

Type or size of tire specified on certificate or receipt	Number of pounds of camelback which may be purchased for each such tire
Passenger-car type tire	5½
30 x 5 to and including 7.00 x 20/32 x 6	12
6.50–18 to and including 8.25–24	16
9.00–20 to and including 11.00–24	22
12.00–20 and up	32
Farm tractors (rear tires only), road graders, earth mover, and other similar equipment used primarily in off-the-road work	55

(ii) Any person who possesses retreading or recapping equipment and who is authorized to retread or recap tires for a consumer may forward, with the consumer's permission, when he does not have the necessary camelback in stock, the replenishment portion (pt. B) of the retreaded or recapped tire certificate or receipt to his supplier and in exchange receive the number of pounds of camelback set forth above.

(3) Any person who deals in or makes camelback making a delivery pursuant to subparagraph (1) of this paragraph (c) shall keep records showing the name of the person acquiring camelback, the amount, size, type, and gauge of camelback acquired, the sales price, the date of shipment or delivery, and, if purchased pursuant to a certificate, the serial number of the certificate.

(d) *Other transfers*—(1) *By any person who neither deals in or makes camelback.* Any person who neither deals in nor makes camelback may (without certificate) deliver camelback to any person who manufactures or deals in camelback, or to any person who is a retreader or recapper.

(2) *Records.* Any person making a delivery pursuant to subparagraph (1) of this paragraph (d) shall keep records showing the name of the person acquiring the camelback, the amount, size, type, and gauge of such camelback acquired, the sales price, and the date of delivery or shipment.

(3) *Transfers to and from public warehouses.* Any person may ship or deliver camelback to a public warehouse for storage provided there is no change in ownership, use, or control involved in this shipment or delivery. Any public warehouse may deliver camelback stored in such warehouse after February 18, 1942, to the person who delivered such camelback for storage: *Provided*, That no such delivery may be made without first obtaining authorization in writing from the Office of Price Administration, Washington, D. C. After February 18, 1942, no warehouse receipt for camelback may be pledged, hypothecated, or used as security in any transaction. Any person making a shipment or delivery pursuant to this subparagraph (3) shall keep such records and make such reports in connection therewith as may from time to time be required by the Office of Price Administration.

(4) *Common carrier.* No provision of these regulations shall impose any liability upon any common carrier for the transportation in the regular course of business of any retreaded or recapped tire not owned by such common carrier.*

§ 1315.804 *Transfer of new tires or tubes, retreaded or recapped tires or camelback to certain governmental agencies, to manufacturers of new vehicles, and for export*—(a) *Transfer to certain governmental agencies or for export.* Subject to the provision of paragraphs (c) and (d) of this section any person may transfer new tires or tubes, retreaded or recapped tires or camelback:

(1) To or for the account of the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, or the Office of Scientific Research and Development, but not to or for the account of any officer, member, or employee of any of the foregoing for use on a privately owned vehicle, regardless of the extent to which such vehicle is used on official business, nor to or for the account of any post exchange, ship's store, commissary, or similar agency or organization, except for use on vehicles operated by it;

(2) To or for the account of the government of any foreign country, including those in the Western Hemisphere, pursuant to a contract or order placed by any agency of the United States Government under the act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), but subject in each case to such quotas, allocations, or other restrictions as may be prescribed by the War Production Board;

(3) For export to and consumption in any foreign country, for government or private account, otherwise than as provided in subparagraph (2) of this paragraph, but only as may be expressly permitted by the War Production Board.

(b) *Transfer to manufacturers of new vehicles.* Subject to the provisions of paragraphs (c) and (d) of this section, any person may sell, lease, trade, loan, deliver, ship, or transfer new tires or tubes or retreaded or recapped tires, with the written approval of the Chairman of the War Production Board, to any manufacturer of new vehicles for use as part of the original equipment of such vehicles

(c) *Receipt.* Any person making any transfer whether by sale, lease, or otherwise, pursuant to paragraph (a) or (b) of this section shall obtain from the purchaser a receipt upon O.P.A. Form No. R–12. The purchaser shall complete and execute the form in accordance with the instructions thereon.

(1) O.P.A. Form No. R–12 may be obtained from any Local Rationing Board and will also be distributed through appropriate governmental agencies. The form shall consist of four parts. Part A shall be mailed to the O.P.A. regional office servicing the area in which the seller is located within 3 days from the delivery or shipment of the tires, tubes, or camelback. Part B shall be used as a basis for replenishing stocks in accordance with the transfer provisions of paragraph (d) of § 1315.801; paragraph (c) of § 1315.802 or paragraph (c) of § 1315.803, whichever is appropriate. Part C shall be retained by the seller as his record of the transaction in accordance with the record keeping requirements of these regulations. Part D shall be retained by the purchaser as his record.

(2) Any person making a sale delivery or other transfer pursuant to the provisions of paragraph (g) of Supplementary Order M–15–c which were effective on the date of such sale or delivery may replenish in exchange for a receipt obtained in accordance with the provisions of subdivisions (c) (3) (ii) and (c) (3) (iii) of § 1315.401 of the Tire Rationing Regulations issued December 30, 1941, his stock of new tires or tubes in accordance with the provisions of paragraph (d) of § 1315.801, provided the delivery of such new tires or tubes was made prior to February 19, 1942.

(d) *Records.* Any person making a sale, delivery, or transfer pursuant to paragraphs (a) and (b) of this section, and any person making such purchase or accepting such delivery or transfer shall keep such records and make such reports in connection therewith as may from time to time be required by the Office of Price Administration.*

§ 1315.805 *Certificate for initial allotment of camelback for retreaders or recappers*—(a) *Application for authority to purchase initial allotment of camelback.* Any person engaged in retreading or recapping tires who is not a maker of camelback may apply on or before March 1, 1942, to the Board which services the area in which his principal office is located for authority to purchase an initial allotment of camelback. No other Board shall have jurisdiction and only one application may be filed. Each person engaged in retreading or recapping tires who is not a maker of camelback may be authorized to purchase sufficient camelback to enable him to have as of February 19, 1942, an initial inventory of camelback equivalent to 750 pounds of camelback for each mold or curing table capable of retreading tires 7.50–20 or larger which he owns or operates.

(b) *Form of application.* Applications for authority to purchase an initial allotment of camelback must be made on OPA Form No. R–9. This form may be obtained from any Board. The applicant must state the number and location of all molds or curing tables owned, operated, or controlled by him capable of retreading or recapping only tires smaller than 7.50–20 and also the number and location of all molds or curing tables owned, operated, or controlled by him which are capable of retreading a tire 7.50–20 or larger. He must state the total number or pounds of camelback which he has in his inventory as of midnight February 18, 1942, irrespective of where located. If this inventory does not equal or exceed 750 pounds for each mold or curing table capable of retreading or recapping tires 7.50–20 or larger, he will be authorized to purchase an amount of camelback equal to the difference between his inventory and an amount equal to 750 pounds for each mold or curing table capable of retreading a tire 7.50–20 or larger. He may purchase only truck camelback. Truck camelback means truck camelback as defined by specifications established from time to time by the War Production Board.

The applicant shall certify the facts stated in the application in the manner and form provided for such certification. In making the application and executing the certification he shall conform to the requirements of § 1315.605 of these regulations (§§ 1315.151 to 1315.1199, incl.).

(c) *Action by the Board.* Upon receiving an application by a retreader or recapper who is not a maker of camelback for authorization to purchase an initial allotment of camelback, the Board shall satisfy itself that the applicant has properly executed his application including all the agreements therein contained and that all the facts stated in the application are true.

If the Board is satisfied that the applicant did not have in his inventory as of midnight February 18, 1942, 750 pounds of camelback for each mold or curing table owned, operated, or controlled by him which is capable of retreading a tire 7.50–20 or larger, it shall issue the applicant a certificate authorizing him to purchase the difference between all the camelback in his possession as of midnight February 18, 1942, and an amount equal to 750 pounds of camelback for each mold or curing table owned, operated, or controlled by him which is capable of retreading a tire 7.50–20 or larger. If the Board determines that an application should be granted either wholly or in part, it shall note upon such application the amount of camelback which the applicant was authorized to purchase and the serial number of the certificate issued. After acting upon the application the Board shall notify the applicant of its decision. In cases where the Board authorizes an applicant to purchase an initial allotment of camelback, the Board shall immediately issue to such applicant a certificate.

(d) *Form of certificate.* The certificate for the purchase of an initial allotment of camelback is O.P.A. Form No. R–10. The certificate shall be serially numbered and shall be divided into two parts designated as part A and part B bearing the same serial number. If the person supplying the retreader or recapper is a maker of camelback he shall retain part A as a record of the transaction. If the person supplying the retreader or recapper is not a maker of camelback he may use part A as the basis for replenishing his stock. Part B of the certificate is to be forwarded by the supplier of camelback to the Rationing Board which issued the certificate.

(e) *Execution by issuing Board.* It shall be the responsibility of the Board prior to issuing a certificate to fill in part A of the certificate setting forth the date issued, the number and address of the Board issuing the certificate, the number of pounds of camelback which the certificate holder is authorized to purchase and the name and address of the purchaser. It shall also be the responsibility of the Board to indicate on part B of the certificate the number and address of the Board issuing the certificate. No certificate for the purchase of camelback will be valid until part A is signed by two members of the issuing Board. The Board shall then deliver the entire certificate to the applicant or his agent.

(f) *Action by purchaser.* Upon receiving the completed certificate the applicant may at any time prior to May 1, 1942, purchase the number of pounds and type of camelback indicated upon such certificate from any supplier of camelback. No delivery pursuant to this certificate may be made after April 30, 1942. To purchase camelback the applicant must present the entire certificate to his supplier. If the purchaser is unable to buy from one supplier all the camelback which he has been authorized to purchase, he may return the certificate to the issuing Board and the Board shall thereupon issue as many certificates as are necessary to permit his purchases to be made among several suppliers.

(g) *Action by supplier.* Prior to delivering or shipping any camelback pursuant to a certificate surrendered to him, the supplier must complete part B of the certificate. Part B must then be detached and returned to the issuing Board within 5 days after shipment of the camelback to the purchaser. If the supplier is a maker of camelback, part A must be retained as his record of the transaction. If the supplier is not a maker of camelback, he may use part A as the basis for replenishing his stock of camelback pursuant to paragraph (c) of § 1315.803 of these regulations. This purchase and delivery of camelback must be completed prior to midnight of April 30, 1942 (§§ 1315.151 to 1315.1191, incl.).*

Appeals

§ 1315.901 *Grounds for appeal to the State Rationing Administrator.* Any applicant for a new tire or tube or for a retreaded or recapped tire whose application has been denied by the Board and who believes that such action is in conflict with the Tire Rationing Regulations issued December 30, 1941, or these regulations (§§ 1315.151 to 1315.1199, incl.) may file an appeal from such action with the State Rationing Administrator.*

§ 1315.902 *Filing of appeals.* (a) An appeal from an action taken by a Board may be filed only within 30 days after such action has been taken.

(b) The appellant shall file a statement in writing and under oath setting forth the specific section of the Tire Regulations issued December 30, 1941, or these regulations (§§ 1315.151 to 1315.1199, incl.) which he believes to be inconsistent with the action taken by the Board and stating in full the facts on which he grounds his appeal.*

§ 1315.903 *Action on appeals.* The State Rationing Administrator may require the Board or the appellant to fur-

nish pertinent information, which may be in addition to that furnished before the Board, with respect to any appeal pending before him. The State Rationing Administrator may affirm the decision of the Board, or may reverse or modify such decision and remand the matter to the Board for consistent action. The State Rationing Administrator's ruling shall be in writing and shall be communicated to the appellant and to the Board. If he reverses or modifies the decision, he shall send a copy of his ruling to the Office of Price Administration. He shall act on the appeal within 30 days of its filing.*

§ 1315.904 *Review by the Office of Price Administration.* An appellant, if he feels aggrieved by the ruling of the State Rationing Administrator, may, within 30 days thereafter, file a written petition for review with the Office of Price Administration, Washington, D. C. If the Office of Price Administration, in its discretion, elects to review the matter, it may require the furnishing of additional pertinent information. The Office of Price Administration may affirm the ruling of the State Rationing Administrator, or may reverse or modify such ruling and remand the matter to the Board for consistent action. The Office of Price Administration's ruling shall be in writing and shall be communicated to the appellant, to the Board, and the State Rationing Administrator.*

Records and Reports

§ 1315.1001 *Records to be kept by Board; posting.* All applications for new tires or tubes, retreaded or recapped tires and camelback received by the Board shall be filed. Records shall be kept by the Board of such other pertinent and material data as may be required by the Office of Price Administration. At intervals of not more than one week, a list of all certificates issued and names of recipients shall be posted at the office of the Board and shall be released to the press.*

§ 1315.1002 *Records to be kept by applicants.* Every applicant to whom a certificate is issued, who operates five or more vehicles in carrying on a commercial enterprise, shall: (a) On the 15th day of each month take a separate inventory of all new, retreaded, or recapped, and used tires and all new and used tubes in his possession or control and keep a separate record thereof; (b) keep a record of all applications made to Boards, which have not been acted upon; (c) keep a record of all certificates which have been issued to him and which have not yet been used; and (d) maintain a file containing the purchaser's portions of used certificates.*

§ 1315.1003 *Records to be kept by dealers.* Every person selling new tires or tubes or retreaded or recapped tires shall: (a) On February 28, 1942, and at the close of business on the last day of every month thereafter take an inventory of all new tires and tubes and retreaded or recapped tires in his possession or control, and keep a record thereof; (b) maintain a file containing all certificates which have been presented by applicants to whom sales of new tires and tubes or retreaded or recapped tires have been made; (c) prepare reports requested by the Board in his area and by the Office of Price Administration.*

§ 1315.1004 *Records and reports by manufacturers.* Each person who manufactures new tires or tubes shall on March 1, 1942, and on the 1st day of each month thereafter take an inventory of all new tires and tubes in its possession or control and keep a record of its total production of new tires and tubes during the preceding month. This inventory and record shall be kept by the manufacturer and filed with the Office of Price Administration from time to time as requested.*

§ 1315.1005 *Records and reports by recappers and retreaders.* Each person who recaps or retreads tires shall on March 1, 1942, and on the first day of each month thereafter take an inventory of all retreaded or recapped tires in his possession or control and keep a record of his total production of retreaded or recapped tires during the preceding month. Each retreader or recapper shall also take an inventory of all camelback in his possession or control on March 1, 1942, and on the first day of each month thereafter and keep a record of the amount of camelback used in retreading or recapping during the preceding month. These inventories and records shall be kept by the retreader or recapper and filed with the Office of Price Administration from time to time as requested.*

§ 1315.1006 *Records and reports by manufacturers of camelback.* Every person who manufactures camelback shall on March 1, 1942, and on the first day of each month thereafter take an inventory of camelback and keep a record of its total production of camelback for the preceding month. This inventory and record shall be kept by the manufacturer of camelback and filed with the Office of Price Administration from time to time as requested.*

§ 1315.1007 *Preservation of records.* All persons shall keep records in accordance with the requirements elsewhere provided in these regulations for the keeping of records. In addition, all persons affected by these regulations shall keep and preserve, for not less than 2 years, accurate and complete records concerning inventories, production, and sales of new tires and tubes, retreaded or recapped tires and camelback, and shall make them available at all times for inspection by the Office of Price Administration.*

§ 1315.1008 *Filing of reports.* All persons shall file reports to the extent required elsewhere in these regulations. In addition, all persons affected by these regulations shall make such reports as may from time to time be required by the Office of Price Administration and the War Production Board.*

Enforcement

§ 1315.1101 *Criminal prosecutions.* Any person who violates any provision of these regulations, (§§ 1315.151 to 1315.1199, incl.), or who by any act or omission, knowingly falsifies an application, certificate, or any record which he is required to keep by the terms of these regulations, (§§ 1315.151 to 1315.1199, incl.), or who otherwise knowingly furnishes false information to a Board, State Rationing Administrator, or to the Office of Price Administration, or who conspires with another person to perform any of the foregoing acts, shall be subject to the penalties therefor, including a recommendation to the Attorney General for prosecution pursuant to section 35A of the Criminal Code (title 18, U.S.C. sec. 80) and other applicable statutes.*

§ 1315.1102 *Denial of materials.* Any person who violates these regulations, (§§ 1315.151 to 1315.1199, incl.), will also be denied the right to receive any new tires or tubes, retreaded or recapped tires, camelback, and any other materials which are now or in the future may be under allocation by the Office of Price Administration, and the Office of Price Administration will recommend to the War Production Board that he be denied the right to receive any other materials which are now or in the future may be under allocation by that Board.*

§ 1315.1103 *Publicity.* In the event of a refusal or failure to abide by the provisions of these regulations (§§ 1315.151 to 1315.1199, incl.) or in the event of any evasion or attempt to evade the provisions of these regulations (§§ 1315.151 to 1315.1199, incl.), the Office of Price Administration, in addition to the foregoing penalties, will make every effort to ensure that complete information is given the public and to appropriate officials of the local, State, and Federal Governments.*

§ 1315.1104 *Other methods of enforcement.* The Office of Price Administration may also take such other action for the enforcement of the provisions of these regulations (§§ 1315.151 to 1315.1199, incl.) as may be necessary, including application to courts and to appropriate agencies of local, State, and Federal Governments in order to invoke such powers as may be available and appropriate in connection therewith.*

§ 1315.1105 *Complaints of violations.* Any person may report a violation of these regulations (§§ 1315.151 to 1315.1199, incl.) to a Board, Local Rationing Administrator, State Rationing Administrator, regional or field office of the Office of Price Administration, or to the Office of Price Administration at Washington, D. C. An official or employee of the office to which the report is made shall fill out a complaint, OPA Form R–4, secure the signature of the complainant if possible, and transmit the complaint for investigation and action in accordance with the instructions of the Office of Price Administration.*

Effective Dates

§ 1315.1199 *Effective dates of Tire Rationing Regulations.* (a) The Tire Rationing Regulations (§§ 1315.151 to 1315.904, inclusive) shall become effective this 30th day of December, 1941.

(b) These Revised Tire Rationing Regulations (§§ 1315.151 to 1315.1199, inclusive) shall become effective February 19, 1942, except that the provisions of § 1315.803 (b) shall become effective February 16, 1942.

(c) These Revised Tire Rationing Regulations (§§ 1315.151 to 1315.1199, inclusive) supersede the provisions of Sup. Order No. M–15–c, 6 F.R. 6792, December 30, 1941, as amended (7 F.R. 121, 350, 434, 474, January 6, 17, 21, 23, 1942) and the Tire Rationing Regulations, 7 F.R. 72, December 30, 1941, as amended (7 F.R. 257, January 14, 1942) insofar as they may be inconsistent therewith: *Provided, however,* That any violations occurring prior to the effective dates of these Revised Tire Rationing Regulations shall nevertheless be governed by the Sup. Order and Regulations, or amendments thereto, in effect at the time of said violations.*

Issued this 11th day of February 1942.

LEON HENDERSON,
Administrator.

TITLE 45—PUBLIC WELFARE

CHAPTER IV—NATIONAL YOUTH ADMINISTRATION

[Administrative Order No. 16]

PART 402—OUT-OF-SCHOOL WORK PROGRAM

AMENDMENT OF ADMINISTRATIVE ORDER NO. 15

By virtue of and pursuant to the authority vested in the National Youth Administrator by the Labor-Federal Security Appropriation Act, 1942, approved July 1, 1941, the following amendments to Administrative Order No. 15,[1] dated September 27, 1941, are prescribed:

Section 402.9 is hereby amended to read as follows:

§ 402.9 *Earnings of project supervisory employees.* Rates of pay for project supervisory employees shall be established by the state youth administrator. Such employees shall be compensated for their services on a per diem, monthly, or annual salary basis, subject to the following conditions:

(a) Project supervisory employees, who are regularly required to work for periods of less than 80 hours per pay roll month shall be compensated for their services upon a per diem basis of payment. Project supervisory employees who are compensated for their services upon a per diem basis of payment shall be paid for their actual days, or fractions of days, of service.

(b) Project supervisory employees who are regularly required to work for periods of not less than 80 hours per pay roll month and who are required to be available for service whenever scheduled to work, may be compensated for their services upon a monthly salary basis. For project supervisory employees who are compensated for their services upon a monthly salary basis, deductions for voluntary absence from duty shall be made in the amount of one-thirtieth of the monthly salary for each day of voluntary absence. However, no deduction shall be made for any day or days upon which the employee is not required to work. The minimum deduction for voluntary absence from duty during any fraction of a day shall be one-fourth the deduction made for absence during a full day, and all deductions for voluntary absence during various portions of a day shall be made in multiples of one-fourth.

(c) Project supervisory employees who are regularly required to work not less than 39 hours per week may be compensated for their services on an annual salary basis and, if appointed and compensated on this basis, shall be subject to the leave regulations prescribed for civil employees of the Federal government. This provision, however, shall not be construed to preclude the appointment and compensation of project supervisory employees on an annual salary basis for part-time services, provided such part-time annual-salary employees are not accorded leave benefits.

Section 402.10 is hereby amended to read as follows:

§ 402.10 *Earnings of area supervisory employees.* Area supervisory employees shall be compensated on a per diem or annual salary basis, in accordance with rates established by the state youth administrator, subject to the following conditions:

(a) Area supervisory employees, who are regularly required to work for periods of less than 80 hours per pay roll month shall be compensated for their services upon a per diem basis of payment. Area supervisory employees who are compensated for their services upon a per diem basis of payment shall be paid for their actual days, or fractions of day, of service.

(b) Area supervisory employees who are regularly required to work not less than 39 hours per week shall be compensated for their services on an annual salary basis and, if appointed and compensated on this basis, shall be subject to the leave regulations prescribed for civil employees of the Federal Government. This provision, however, shall not be construed to preclude the appointment and compensation of area supervisory employees on an annual salary basis for part-time services, provided such part-time annual-salaried employees are not accorded leave benefits.

(Public No. 146, 77th Cong., 1st sess., approved July 1, 1941)

These amendments shall become effective at the beginning of pay roll periods on and after March 1, 1942.

AUBREY WILLIAMS,
National Youth Administrator.

Approved: February 12, 1942.

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. B-198]

IN THE MATTER OF BOOTH, INC., REGISTERED DISTRIBUTOR, REGISTRATION NO. 0928

NOTICE OF AND ORDER FOR HEARING

The Bituminous Coal Division (the "Division") finds it necessary in the proper administration of the Bituminous Coal Act of 1937 (the "Act") and the Bituminous Coal Code (the "Code") promulgated thereunder to determine

A. Whether or not Booth, Inc., Registered Distributor, Registration No. 0928 (hereinafter sometimes referred to as the "Registered Distributor") whose address is Kenova, W. Va., has violated any provisions of the Act, the Code, and orders and regulations of the Division, including the Marketing Rules and Regulations, Rules and Regulations for the Registration of Distributors, and the Distributor's Agreement (the "Agreement") dated October 19, 1940, and filed by Booth, Inc., pursuant to Order of the Division dated June 19, 1940, in General Docket No. 12, and more particularly whether or not subsequent to September 30, 1940, said registered distributor:

1. During the period May 27, 1941, to June 7, 1941, both dates inclusive, acting as sales agent for the code member producers hereinafter named, made the following substitutions and sales:

(a) substitution of 419.05 tons of 2" x 5" egg coal produced at the Sellards No. 1 mine (Mine Index No. 2431) of Left Fork Fuel Company, Inc., a code member in District No. 8, on railway fuel orders obtained from the Ann Arbor Railway Company, specifying 6" resultant mine run coal, and sale of said coal to said railway company at the price of $1.85 per net ton f. o. b. said mine, the applicable mine price for such egg coal being $2.30 per net ton f. o. b. the mine;

(b) substitution of 418.5 tons of 2" x 5" egg coal produced at the Camp Creek Coal Company Mine (Mine Index No. 2420) of A. J. Fry, a code member in District No. 8, on railway fuel orders obtained from the Ann Arbor Railway Company specifying 6" resultant mine run coal, and sale of said coal to said railway company at the price of $1.85 per net ton f. o. b. said mine, the applicable mine price for such egg coal being $2.30 per net ton f. o. b. the mine;

(c) Substitution of 200 tons of 2" x 5" egg coal produced at the Hall Brothers Mine (Mine Index No. 2421) of J. C. Fry and Andrew J. Fry, co-partners, doing business under the name and style of J. C. Fry and A. J. Fry, a code member in District No. 8, on railway fuel orders obtained from the Ann Arbor Railway Company specifying 6" resultant mine run coal, and sale of said coal to said railway company at the price of $1.85 per net ton f. o. b. said mine, the applicable mine price for such egg coal being $2.30 per net ton f. o. b. the mine; and

(d) substitution of 152.2 tons of 2" x 5" egg coal produced at the Fry Mine (Mine Index No. 2703) of J. C. Fry and Andrew J. Fry, copartners, doing business under the name and style of J. C. Fry and A. J. Fry, a code member in District No. 8, on railway fuel orders obtained from the Ann Arbor Railway Company specifying 6" resultant mine run coal, and sale of said coal to said railway company at the price of $1.85 per net ton f. o. b. said mine, the applicable mine price for such egg coal being $2.30 per net ton f. o. b. the mine;

which substitutions were: (a) either an express or implied condition of a spot order or a contract; (b) not necessary as a temporary and emergency measure in order to continue the operation of the mine at which the coal was produced; (c) made without the authorization of the purchaser and with the purpose or effect of conferring an advantage on the purchaser or of securing a preference or advantage over the competitors of the code member or the registered distributor; or (d) not of coal about to be produced or which had been already produced and loaded into transportation facilities and in either event could have been sold, probably by the usual sales effort; resulting in violations of Rule 1 (f) of section XI of the Marketing Rules and Regulations and therefore of paragraphs (b) and (e) of the Distributor's Agreement.

2. Accepted and retained commissions as sales agent for A. J. Fry, an individual, code member in District No. 8, and J. C. Fry and A. J. Fry, co-partners, doing business under the name and style of J. C. Fry and A. J. Fry, a code member in District No. 8, upon the sales of coal described in paragraph A-1 hereof, although certified copies of agreements between the registered distributor, as sales agent, and the said code members as principals, were not on file with the statistical bureau of District No. 8, resulting in the violation of Rule 9 of Section II of the Marketing Rules and Regulations, and therefore of paragraph (e) of the Distributor's Agreement.

3. Accepted and retained commissions as sales agent for the Left Fork Fuel Company, Inc., code member in District No. 8, upon coals sold and delivered to the Ann Arbor Railway Company as described in paragraph A-1 (a) hereof pursuant to a contract of agency between said parties entered into subsequent to August 8, 1941, which commissions were in excess of the maximum discounts said Booth, Inc., could have received if it had purchased coal as a distributor under the Schedule of Due and Reasonable Maximum Discounts for Distributors established pursuant to section 4 II (h) of the Act resulting in a violation of Rule 13 (a) of Section II of the Marketing Rules and Regulations and therefore of paragraph (e) of the Distributor's Agreement.

B. Whether or not the registration of said Booth, Inc., should be revoked or suspended or other appropriate penalties should be imposed.

It is therefore ordered, That a hearing pursuant to § 304.14 of the Rules and Regulations for the Registration of Distributors, to determine whether or not the aforementioned Booth, Inc., has committed violations in the respects heretofore described and whether or not the registration of said distributor should be revoked or suspended, or other appropriate penalties be imposed, be held on March 11, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Federal Building, Catlettsburg, Kentucky.

It is further ordered, That Joseph A. Huston or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Booth, Inc., and to all persons and entities having an interest in such proceeding.

Notice is hereby given that answer setting forth the position of the aforementioned Booth, Inc., with reference to the matters hereinbefore described, must be filed with the Bituminous Coal Division at its Washington Office or with any one of the field offices of the Division, within twenty (20) days after date of service hereof on the Booth, Inc., and that failure to file an answer herein within such period, unless the presiding officer shall otherwise order, shall be deemed to be an admission by Booth, Inc., of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: February 13, 1942.

IN THE MATTER OF CHARLES JANEWAY, DEFENDANT

ORDER GRANTING APPLICATION FOR RESTORATION OF CODE MEMBERSHIP

A written complaint having been filed on February 5, 1941, by the Bituminous Coal Producers Board for District No. 8, as complainant, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), alleging wilful violation by the defendant Charles Janeway, trading as Burch and Janeway Coal Company, a code member, of the Act, the Bituminous Coal Code (the "Code") and the effective minimum prices established thereunder; and

A hearing having been held thereon on March 20, 1941 at Knoxville, Tennessee; and

An order having been made on July 24, 1941, cancelling and revoking the code membership of the defendant, Charles Janeway, trading as Burch and Janeway Coal Company; and

Said order of cancellation and revocation having been duly served on August 5, 1941, upon Charles Janeway, trading as Burch and Janeway Coal Company; and

Charles Janeway, trading as Burch and Janeway Coal Company, having filed with the Division his application dated September 22, 1941, for restoration of his code membership; and

It appearing from said application that said Charles Janeway, trading as Burch and Janeway Coal Company, paid to the Collector of Internal Revenue at Parkersburg, West Virginia on August 13, 1941, the sum of $41.93, representing 39% penalty tax as a condition precedent to restoration of his membership in the Bituminous Coal Code.

Now, therefore, it is ordered, That said application of Charles Janeway, trading as Burch and Janeway Coal Company, dated September 22, 1941, for restoration of his code membership be and the same hereby is granted and the membership of Charles Janeway, trading as Burch and Janeway Coal Company in the Code is restored as of August 13, 1941.

IN THE MATTER OF A. I. DAVEY, SR., REGISTERED DISTRIBUTOR, REGISTRATION NO. 2158, RESPONDENT

ORDER ADOPTING THE PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW, AND RECOMMENDATIONS OF THE EXAMINER AND REVOKING REGISTRATION

This proceeding having been instituted by the Bituminous Coal Division pursuant to section 4 II (h) of the Bituminous Coal Act of 1937 and § 304.14 of the Rules and Regulations for the Registration of Distributors in order to investigate and determine whether A. I. Davey, Sr., a registered distributor (Registration No. 2158), Hudson, Ohio, has violated certain provisions of the Act, the Marketing Rules and Regulations Incidental to the Sale and Distribution of Coal, the Rules and Regulations for the Registration of Distributors, and the Agreement by Registered Distributor;

A Notice of and Order for Hearing having been issued and the respondent having filed an answer;

Pursuant to the Notice of and Order for Hearing, a hearing in this matter having been held before W. A. Cuff, a duly designated Examiner of the Division, at a hearing room thereof in Cleveland, Ohio, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard, and at which the respondent appeared;

The Examiner having filed his Report, Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations in this matter on December 18, 1941, in which it was recommended that the registration of the respondent as a registered distributor be revoked, without prejudice, however, to the right of the respondent after six months from the date of said revocation, to petition the Division for reinstatement as a registered distributor, subject to certain conditions;

The respondent having filed exceptions thereto on January 5, 1942, and requested an oral argument thereon;

The undersigned having made Findings of Fact herein and having rendered an Opinion which are filed herewith;

Now, therefore, it is ordered, That the request for oral argument herein be, and it hereby is, denied.

It is further ordered, That the exceptions of A. I. Davey, Sr., to the Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations of the Examiner be, and they hereby are severally overruled.

It is further ordered, That the Proposed Findings of Fact and Proposed Conclusions of the Examiner be and they hereby are approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

It is further ordered, That the registration of A. I. Davey, Sr., as a registered distributor (Registration No. 2158), be, and it hereby is, revoked: *Provided, however,* That the respondent may, after six months from the date of this Order, petition the Division for reinstatement as a registered distributor: *And, provided further,* That as conditions to a consideration of a petition for reinstatement, should the respondent file one, the respondent shall submit to the Division, together with his petition for reinstatement, an affidavit verifying that during the period his registration as a registered distributor was revoked, the respondent neither directly nor indirectly transacted business as a registered distributor, nor received nor was promised any discount which distributors are entitled to receive by virtue of registration, and that the respondent shall have returned to the Hanna Coal Company of Ohio all discounts collected by him on coals shipped to the W. H. Davey Steel Company and a statement by the respondent that such refunds have been made shall be included in the affidavit.

[Docket No. A-1135, Part II]

PETITION OF DISTRICT BOARD NO. 1, FOR THE ESTABLISHMENT OF ADDITIONAL SHIPPING POINTS FOR MINE INDEX NOS. 863, 864, AND 501 IN DISTRICT NO. 1, FOR ALL SHIPMENTS EXCEPT TRUCK

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION, AND ORDER

This proceeding was instituted upon a petition filed with the Bituminous Coal Division on October 28, 1941, by District Board 1, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requests the establishment of additional shipping points for Mine Index Nos. 863, 864, and 501, in District No. 1, For All Shipments Except Truck.[1]

Pursuant to Order of the Acting Director dated December 4, 1941, and after due notice to all interested persons, a hearing in this matter was held on January 6, 1942, before W. A. Shipman, a duly designated Examiner of the Division, at Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. The petitioner appeared. The preparation and filing of a report by the Examiner was waived and the matter was thereupon submitted to the undersigned who has considered the record of this proceeding.

The petition of the District Board herein proposes that the price classifications and minimum prices heretofore established for the coals of Mine Index Nos. 863, 864 and 501, located in District No. 1, be made effective for additional rail shipping points. The evidence regarding the request for shipping points for each mine was to the following effect:

Brown and Lawrence, code members, operators of Mine Index Nos. 863 and 864 requested, and the District Board proposed that the price classifications and minimum prices established for their coals for shipment by rail from Barnum, West Virginia, on the Western Maryland Railroad, be made applicable also for rail shipments from Westernport, Maryland, on the Cumberland and Pennsylvania Railroad.

L. L. Romesburg, a code member, operator of the Saylor Mine, (Mine Index No. 501), also requested, and the District Board proposed, that the price classifications and minimum prices established for his coals for rail shipment from Rockwood, Pennsylvania, on the Baltimore & Ohio Railroad, be made applicable also for rail shipments from Rockwood, on the Western Maryland Railroad.

It appears from the uncontroverted testimony given by J. N. Geyer, technical advisor of District Board No. 1, that the request for additional rail shipping points for the coals produced at Mine Index Nos. 863, 864, and 501 should be denied. Geyer testified that the producers failed upon request to furnish the District Board with sufficient information as to the necessity for the two shipping points, or as to which point would be preferable. For these reasons, the witness of the District Board was of the opinion that the request for the additional rail shipping points should not be granted, and accordingly entered a motion that the request be denied without prejudice to the code members.

It does not appear clear from the record whether the District Board seeks to have the request for additional rail shipping points dismissed or denied. However, it should be noted that a denial will in no way prejudice the code members from seeking further action in this case pursuant to section 4 II (d) of the Act.

Upon the basis of the evidence, I find and conclude:

(1) That the request for additional rail shipping points for Mine Index Nos. 863, 864, and 501, proposed by District Board No. 1, should be denied.

(2) Such denial of the requested additional shipping points is necessary in order to effectuate the purposes of sections 4 II (a) and 4 II (b) of the Act and to comply with all the standards thereof.

Now, therefore, it is ordered, That the prayers in the petition herein be, and they hereby are, denied.

[1] This was a part of the original petition filed with the Division in Docket No. A-1135 requesting the establishment of price classifications and minimum prices for the coals of certain mines in District No. 1. Pursuant to Order of the Acting Director, dated December 4, 1941, the above portion of Docket No. A-1135 relating to the coals of Mine Index Nos. 863, 864, and 501 was severed from the remainder of Docket No. A-1135 and designated as Docket No. A-1135, Part II.

[Docket No. A-1238]

PETITION OF THE BITUMINOUS COAL CONSUMERS' COUNSEL FOR AN ORDER ESTABLISHING PRICES FOR THE SALE OF 30,000 TONS OF COAL SHIPPED BY RIVER FROM THE MINES OF SUBDISTRICT 4 OF DISTRICT 13 TO THE WILSON DAM STEAM PLANT OF THE TENNESSEE VALLEY AUTHORITY, AND FOR TEMPORARY RELIEF

MEMORANDUM OPINION AND ORDER CORRECTING ORDER OF JANUARY 24, 1942

This proceeding was instituted upon a petition filed with the Bituminous Coal Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, on December 24, 1941, by the Bituminous Coal Consumers' Counsel ("Consumers' Counsel"). Speaking generally, the petition proposed and sought the establishment of effective minimum prices for coal moving from Subdistrict 4 of District No. 13 (Tennessee-Georgia truck mines) via the Tennessee River to the Wilson Dam of the Tennessee Valley Authority in Market Area 117. In the past the steam plant of Wilson Dam had received its coal supply from producers in Subdistrict 1 of District 13 (Alabama rail-connected mines).

An informal conference, upon notice to interested parties, was held on January 8, 1942, pursuant to the Rules and Regulations Governing Practice and Procedure in section 4 II (d) proceedings, for the purpose of affording interested parties the opportunity of expressing their views concerning the temporary relief prayed for.

Represented at the conference in support of the requested relief were Consumers' Counsel; Blaine Buchanan, appearing for certain producers in Subdistrict 4 of District 13; and the Tennessee Valley Authority. Parties at the conference opposing the requested relief were: District Board 7; District Board 13; W. H. Saddler, appearing on behalf of certain companies in District 13; H. McDermott, appearing for the Stith Coal Company; B. G. Jordan, appearing for the A B C Coal and Coke Company; James C. Stephenson, appearing for the Cane Creek Mining Company and the National Coal and Coke Company; J. M. Chapman, appearing for the Chapman Coal Sales Company; A. W. Vogtle, appearing for the DeBardeleben Coal Corporation; and J. H. Moore, appearing for the Brookside-Pratt Mining Company, all code members in Subdistrict 1 of District 13 or their sales agents.

Thereafter, on January 24, 1942, the Acting Director, upon the basis of information disclosed at the informal conference, issued a Memorandum Opinion and Order in which the facts disclosed at the informal conference were set forth and the conclusion reached that pending final disposition, code member producers in Subdistrict 4 of District 13 whose mines are located within 30 miles of the river loading facilities at South Pittsburg, Tennessee, should temporarily be authorized to ship by truck run-of-

mine (Size Group No. 7) coal from such mines to river loading facilities at South Pittsburg for shipment by river to Market Area 117 at a minimum price of not less than $3.25 per net ton loaded into barges. This price was based upon a base transportation cost or charge (from mine to river loading facilities) of 60 cents per ton. An order in accordance with this conclusion was entered. On February 9, 1942, Consumers' Counsel filed a "Motion for Modification of Temporary Relief" in which modification of the Order of January 24 was requested and an f. o. b. barge price between $2.60 and $2.95 per ton requested. In this motion it was pointed out that the effect of the January 24 Order was to establish a price for the Subdistrict 4 coals which enabled them to deliver in Market Area 117 at the going delivered price of the all-rail Alabama coal (from Subdistrict 1) rather than at the effective minimum price for such coals.

The effective minimum f. o. b. mine price for washed run-of-mine coals from the central Alabama field is $2.35 per ton.[1] The freight rate from the central Alabama fields to Market Area 117 ranges from $1.15 to $1.50. However, a 25 cents per ton maximum absorption from the high freight rate is allowed and the majority of the coal from the central Alabama fields moves to Market Area 117 on the $1.25 freight rate. Consequently the delivered price of central Alabama rail coal (washed run-of-mine) is $3.60 per ton.[2] The charges incident to the moving of coal from the Subdistrict 4 mines to Market Area 117 includes the cost of transporting the coal from the mine to the loading facilities at South Pittsburg; the cost of loading the coal into the barges, said to be 10 cents per ton; the cost of river transportation from South Pittsburg to Sheffield said to be 60 cents per ton; and the cost of lifting said to be 15 cents per ton. In order to equalize the price of all mines in Subdistrict 4, which are located within 30 miles of South Pittsburg, for sale to TVA in Market Area 117, it seems desirable to fix the minimum price f. o. b. delivered into the barge, just as was done in the Order of January 24. If this price is established at $2.85, subject to the base trucking charge of 60 cents per ton, it will permit the delivery of such coal to the Wilson Dam at $3.60 per ton which is the price at which washed run-of-mine coal is delivered from the central Alabama fields.

Under the circumstances, it appears that the Order of January 24 should be modified accordingly, but in all other respects the order should remain unchanged.

Now, therefore, it is ordered, That the Order of January 24, 1942, granting temporary relief in this matter is hereby revoked and cancelled; and

It is further ordered, That temporary relief pending final disposition of this proceeding is hereby granted by adding to the Schedule of Effective Minimum Prices for District No. 13 for Truck Shipments (at p. 24 thereof; Subdistricts 3 and 4 Subsections) the following Price Exception:

Any code member producer whose mine is located in Subdistrict 4 and which mine is located within a radius of 30 miles of river loading facilities at South Pittsburg, Tennessee, may ship by truck run-of-mine (Size Group No. 7) coal from such mine to river loading facilities at South Pittsburg, Tennessee, for shipment by river to Market Area 117 at a minimum price of not less than $2.85 per net ton loaded into barges;

Provided, however, That when such producers sell or transport such coal for transportation to the South Pittsburg loading facilities by an independent trucker, they may if the actual transportation costs exceed 60 cents per net ton reduce the effective minimum price of $2.85 by an amount no greater than the excess of such costs over said 60 cents; and they shall, if the actual transportation costs are less than 60 cents per net ton for such shipment, add to the effective minimum f. o. b. price of $2.85, an amount not less than the difference between said 60 cents and their actual costs;

Provided further, That the relief herein granted shall apply only to coal shipped subsequent to the date hereof; and

Provided further, That the effectiveness of this price exception will expire on June 30, 1942, unless otherwise ordered.

And it is further ordered, That jurisdiction is reserved to enter such further order or orders as is found necessary in the premises.

Notice is hereby given that applications to stay, terminate, or modify the temporary relief herein granted may be filed pursuant to the applicable rules and regulations.

Nothing contained herein shall be deemed to constitute a ruling or expression of the Acting Director's views concerning the final disposition of this proceeding or the nature of the relief which may hereafter be granted.

Dated: February 11, 1942.

Surplus Marketing Administration.

[Docket No. AO 86-A 3]

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO THE TENTATIVELY APPROVED MARKETING AGREEMENT, AS AMENDED, AND ORDER NO. 35, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE OMAHA-COUNCIL BLUFFS MARKETING AREA

Notice is hereby given of a hearing to be held in the United States Post Office Building, Omaha, Nebraska, beginning at 10:00 a. m., central war time (9:00 a. m., c. s. t.), February 25, 1942, with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and Order No. 35, as amended, regulating the handling of milk in the Omaha-Council Bluffs marketing area.

This notice is given pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 et seq.), and in accordance with the General Regulations of the Surplus Marketing Administration, United States Department of Agriculture (7 CFR 900.4).

This public hearing is for the purpose of receiving evidence with respect to the amendments which are hereinafter set forth in detail. These amendments have not received the approval of the Secretary of Agriculture, and at the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the provisions to which such amendments relate. The amendments which have been proposed are as follows:

A. Amendments Proposed by the Nebraska-Iowa Non-Stock Cooperative Milk Association:

1. Delete subparagraph (1) of § 935.4 (a) and substitute therefor the following:

(1) Class I milk—$2.90 per hundredweight: *Provided*, That with respect to Class I milk disposed of by a handler under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, the price shall be $2.43 per hundredweight.

2. Delete subparagraph (2) of § 935.4 (a) and substitute therefor the following:

(2) Class II milk—$2.25 per hundredweight: *Provided*, That in no event shall the Class II price be less than the Class III price, before the proviso, plus 20 cents.

3. Delete subparagraph (3) of § 935.4 (a) and substitute therefor the following:

(3) Class III milk—The price per hundredweight for Class III milk during each delivery period shall be the result of the following computation by the market administrator: Multiply by 3.8 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture, for the delivery period during which such milk is received, plus or minus 0.95 cent per hundredweight for each one cent that such average price of butter is above or below 20 cents, add 21 cents, and add a figure determined as follows: add 3 cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption, delivered at Chicago, is above 7 cents per pound: *Provided*, That for a quantity of Class III milk, not to exceed 10 percent of the Class I milk and Class II milk disposed of by such handler during the delivery period, the price will be as determined by this paragraph, minus 25 cents. For purposes of determining the above computation the price per pound of dry skim to be used shall be the average of the carlot prices for dry skim for human consumption delivered at Chicago, as published by the United States Department of Agriculture during the delivery period, including in such average the quotations published for any fractional part of the preceding delivery period which were not published and available for the price determination of such dry skim milk for the previous delivery period.

B. Amendments Proposed by the Dairy Division:

1. Delete § 935.6 and substitute therefor the following:

§ 935.6 *Application of provisions*—(a) *Handlers who are also producers.* (1) In the case of a handler who is also a producer and who purchases or receives no milk from other producers, the market administrator shall exclude from the computations made pursuant to § 935.7 the quantity of milk disposed of by such handler.

(2) In the case of a handler who is also a producer and who purchases or receives milk from other producers, the market administrator shall, before making the computations pursuant to § 935.7, (i) exclude from the Class I milk, Class II milk, and Class III milk the milk purchased or received by such handler in the respective classes from other handlers, and (ii) exclude prorata from the remaining Class I milk, Class II milk, and Class III milk, the milk received from such handler's own production.

(b) *Purchases of milk from a handler who is also a producer.* In the case of a handler who purchases or receives milk in bulk from a handler who is also a producer, the market administrator, in making the computations pursuant to § 935.7 for such purchasing handler, shall add an amount equal to the difference between the value of such milk (i) at the price for the class in which such milk was classified and (ii) at the price for Class III milk.

(c) *Payments for excess butterfat.* (1) In the case of a handler who disposes of butterfat in excess of the butterfat which, on the basis of his reports, has been received, the market administrator, in making the computations pursuant to § 935.7, shall add an amount equal to the value of such butterfat in accordance with its classification.

2. Delete paragraph (a) of § 935.7 and substitute therefor the following:

(a) *Computation of the amount to be paid producers by each handler.* For each delivery period the market administrator shall compute, subject to the provisions of § 935.6, the amount to be paid producers by each handler for milk received from them including the milk of producers which a cooperative association caused to be delivered to a plant from which no milk is disposed of in the marketing area by (i) multiplying the hundredweight of such milk in each class by the price applicable pursuant to § 935.4, (ii) adding together the resulting values of each class, and (iii) adding any amounts pursuant to § 935.6 (b) and § 935.6 (c).

3. Delete paragraph (b) of § 935.7.

4. Delete in line 2 of subparagraph (1) of § 935.7 (c) the phrase "paragraphs (a) and (b)" and substitute therefor the following: "paragraph (a)."

5. Redesignate paragraph "(c)" of § 935.7 as paragraph "(b)."

6. Delete in line 9 of paragraph (a) of § 935.8 the phrase "§ 935.7 (c)" and substitute therefor the following: "§ 935.7 (b)."

7. Reconsider § 935.3 and other provisions in view of the above suggested amendments.

Additional copies of this notice of hearing and copies of Order No. 35, as amended, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Room 0312, South Building, Washington, D. C., or may be there inspected.

[1] No prices have been established for raw run-of-mine coals for the central Alabama rail mines here involved.

[2] In the past Tennessee Valley Authority has purchased only a small amount of run-of-mine from the central Alabama producers. For the most part is purchases from these producers have consisted of 1½" x 0 washed screenings, the f. o. b. price of which is $2.20 per ton. However, since it appears that TVA desires to purchase run-of-mine coal from the Subdistrict 4 producers it seems appropriate to compare the relative run-of-mine prices.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70–242]

IN THE MATTER OF CITIES SERVICE COMPANY

NOTICE OF AND ORDER FOR HEARING AND ORDER TEMPORARILY EXTENDING TIME WITHIN WHICH ADDITIONAL INVESTMENTS MAY BE MADE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 13th day of February, A. D. 1942.

The Commission having heretofore, on February 15, 1941, issued an order pursuant to the Public Utility Holding Company Act of 1935, particularly section 10 and Rule U-12B-1 promulgated under said Act, permitting a declaration to become effective and granting an application with respect to the increase by Cities Service Company of the aggregate amount of its investments in securities of and advances to the following companies: Empire Gas and Fuel Company, Cities Service Oil Company (Delaware), Cities Service Oil Company, Limited, Indian Territory Illuminating Oil Company, Empire Pipeline Company, Cities Service Oil Company (Pennsylvania), Arkansas Fuel Oil Company, Richfield Oil Corporation, Natural Gas Pipeline Company of America, Cities Service Gas Company, Penn-York Natural Gas Corporation, Sixty Wall Tower, Inc., Sixty Wall Street, and Chesebrough Building Company; such increase to be made during the year next ensuing from the date of such Order and to be in an amount not to exceed $12,000,000 and to be made as it appears desirable to Cities Service Company that such increase should be made; and

Cities Service Company having filed a supplemental application reciting that during the effective date of such order Cities Service Company had made advances to certain of such companies pursuant to such order in the aggregate amount of $1,380,069.25 and requesting that the time within which Cities Service Company may in its discretion increase the aggregate amount of its investments in securities of and advances to such companies named in such order in an amount not exceeding the unexpended balance, namely, $10,619,930.75, for a further period of one year, beginning February 15, 1942; and

Cities Service Company having requested an order granting such extension of time on or before February 15, 1942; and

It appearing to the Commission in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters and that said extension shall not be granted except upon further order of this Commission;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and rules of the Commission thereunder be held on March 4, 1942 at 10:00 o'clock, A. M., at the offices of the Securities and Exchange Commission, 1778 Pennsylvania Avenue, NW., Washington, D. C. On such day the hearing room clerk in Room 1102 will advise as to the room where such hearing will be held. At such hearing, cause shall be shown why such application shall be granted. Notice is hereby given of said hearing to the above named applicant and to all interested persons, said notice to be given to said applicant by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That James G. Ewell or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

Notice of such hearing is hereby given, To Cities Service Company, and to any other person whose participation in such proceeding may be in the public interest and for the protection of investors and consumers.

It is further ordered, That the time within which the applicant may increase the aggregate amount of its investments in securities of and advances to the companies named in the order of February 15, 1941, shall be temporarily extended pending a final determination of the request for extension of such order of February 15, 1941.

IN THE MATTER OF RUTLAND RAILROAD COMPANY 7% CUMULATIVE PREFERRED STOCK, $100 PAR VALUE

ORDER SETTING HEARING ON APPLICATION TO STRIKE FROM LISTING AND REGISTRATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 13th day of February, A. D. 1942.

The New York Stock Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934, as amended, and Rule X-12D2-1 (b) promulgated thereunder, having made application to strike from listing and registration the 7% Cumulative Preferred Stock, $100 Par Value, of Rutland Railroad Company; and

The Commission deeming it necessary for the protection of investors that a hearing be held in this matter at which all interested persons be given an opportunity to be heard;

It is ordered, That the matter be set down for hearing at 10 a. m. on Tuesday, March 10, 1942, at the office of the Securities & Exchange Commission, 120 Broadway, New York, New York, and continue thereafter at such times and places as the Commission or its officer herein designated shall determine, and that general notice thereof be given; and

It is further ordered, That Adrian C. Humphries, an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

The Commission, having in an Order, dated August 23, 1941, exempted, pursuant to sections 9 (c) (3) and 12 (c) of the Public Utility Holding Company Act of 1935 and Rule U-100, promulgated thereunder, the initial delivery to New England Gas and Electric Association of $55,000, in cash, and 4,147 shares of its $5.50 Preferred Stock, in accordance with a Settlement Agreement entered between it, the Trustees of Associated Gas and Electric Company and of Associated Gas and Electric Corporation, and certain other parties and Howard C. Hopson, et al.; and

New England Gas and Electric Association having filed an application for exemption of certain transactions supplementary to the transactions exempted by the Commission in its Order dated August 23, 1941, in which application it is represented that said Association has paid said sum of $55,000 in cash into an escrow account for the benefit of itself and its subsidiaries, and in which it is proposed that said Association acquire, free and clear of all claims of its subsidiaries, said 4,147 shares of $5.50 Preferred Stock for a sum of $58,058, which sum is proposed to be paid into said escrow account; and

Said New England Gas and Electric Association having requested that the Commission exempt, as transactions supplementary to the transaction heretofore exempted by this Commission in its Order of August 23, 1941:

(1) The aforesaid acquisition by New England Gas and Electric Association of said 4,147 shares of $5.50 Preferred Stock and the payment therefor of said amount of $58,058 to be placed in said escrow account; and

(2) The distribution by New England Gas and Electric Association of the funds in said escrow account, including said sum of $58,058 proposed to be paid as aforesaid (all of said amounts aggregating $113,058) first to the payment of expenses in connection with said settlement and thereafter to itself and to each of its subsidiaries, in the same proportions as the gross payments made by it and each of its subsidiaries to Howard C. Hopson and to various corporations, partnerships, and individuals referred to in said previous applications as the "Hopson Service Companies," bear to the total of such payments by said Association and its subsidiaries.

It appearing to the Commission that the proposed transactions may appropriately be exempted from the applicable provisions of the Act and the rules thereunder;

It is hereby ordered, Pursuant to Rule U-100 (a) and the applicable provisions of the Act, and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid application for exemption be and the same is hereby granted.

By the Commission.

IN THE MATTER OF ALLEGHANY CORPORATION

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 13th day of February, A. D. 1942.

Alleghany Corporation, a registered closed-end, management investment company, having filed an application pursuant to the provisions of section 23 (c) (3) of the Investment Company Act of 1940 for an order permitting it within a period of six months from the date of any order to be issued hereunder to apply not more than an agregate of $1,750,000 to the purchase of any of its outstanding bonds:

It is ordered, That a hearing on the matter of the application of the above named applicant under and pursuant to section 23 (c) (3) of the Investment Company Act of 1940 be held on February 26, 1942, at 10:00 o'clock in the forenoon of that day in Room 1102 of the Securities and Exchange Building, 1778 Pennsylvania Avenue, Northwest, Washington, D. C.

It is further ordered, That Willis E. Monty, Esq., or any officer or officers of the Commission designated by it for that purpose shall preside at such hearing on such application. The officer so designated to preside at any such hearing is hereby authorized to exercise all the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to trial examiners under the Commission's Rules of Practice.

Notice of such hearing is hereby given to the above named applicant and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors.

By the Commission.

IN THE MATTER OF WESTERN NEW YORK FUND, INCORPORATED

NOTICE OF AND ORDER FOR RESUMPTION OF HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 13th day of February, A. D. 1942.

Hearing on an application of the above named applicant to permit it to repurchase 12,500 shares of its common stock from Goodbody and Co., having been continued to permit filing of a supplemental application for the repurchase of 15,000 shares of applicant's common stock instead of 12,500 shares from Goodbody and Co., and said supplemental application having been filed for an order pursuant to the provisions of section 23 (c) (3) of the Investment Company Act of 1940, exempting applicant from the provisions of Rule N-23C-1 promulgated thereunder insofar as such rule limits the amount of repurchases of its outstanding stock to one percent a month;

It is ordered, That hearing on the above application be resumed on February 21, 1942 at 10:15 o'clock in the forenoon of that day in the Securities and Exchange Commission Building, 1778 Pennsylvania Avenue, Northwest, Washington, D. C. On such date the hearing room clerk in Room 1102 will advise interested parties where such hearing will be held.

It is further ordered, That Willis E. Monty, Esquire, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing for such matter. The officer so designated to preside at such hearing is hereby authorized to exercise any powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940, and to Trial Examiners under the Commission's Rules of Practice.

Notice of such hearing is hereby given to the above named applicant and to any other persons whose participation in such proceeding may be in the public interest or for the protection of public investors.

IN THE MATTER OF SOUTHERN-HENKE ICE AND STORAGE COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 16th day of February, A. D. 1942.

Notice is hereby given that a declaration or application (or both), has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above named party; and

Notice is further given that any interested person may, not later than March 4, 1942, at 4:30 P. M., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary Securities and Exchange Commission, Washington, D. C.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Southern-Henke Ice and Storage Company, an indirect subsidiary of The Middle West Corporation, a registered holding company, proposes to issue an unsecured one year promissory note in the principal amount of $125,000 to City National Bank and Trust Company of Chicago to refund or renew the outstanding promissory note of the company in the principal amount of $195,000, dated February 8, 1941, to February 8, 1942, bearing interest from the date thereof at the rate of 5% per annum prior to maturity (and at the rate of 6% per annum after maturity) and on which the unpaid principal balance is $125,000, now held by said bank; the proposed note to be dated February 9, 1942, payable February 9, 1943 and bearing interest at the rate of 4% per annum prior to maturity and at the rate of 6% per annum after such maturity.

IN THE MATTER OF THE NORTH AMERICAN COMPANY

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 16th day of February, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The North American Company. All interested persons are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

The Declarant, The North American Company, a registered holding company, proposes to pay on April 1, 1942, a dividend to its holders of Common Stock of record on March 5, 1942. Such dividend will be payable in the Capital Stock of The Detroit Edison Company, owned by Declarant, at the rate of one share of Capital Stock of The Detroit Edison Company on each 50 shares of Common Stock of the Declarant outstanding. No certificates will be issued for fractions of shares of stock of The Detroit Edison Company, but, in lieu thereof, cash will be paid at the rate of 36 cents for each ½ of a share of stock of The Detroit Edison Company. The Declarant estimates that to pay the above mentioned dividend it will have to distribute not more than 155,000 shares of the 760,707 shares of Capital Stock of The Detroit Edison Company owned by it; that the amount of cash to be distributed in lieu of fractional shares of such Capital Stock will not exceed $375,000; and that the payment of this dividend will result in a charge to earned surplus of approximately $4,100,000.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to said matters, that said declaration shall not become effective nor said application be granted except pursuant to further order of this Commission;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and rules of the Commission thereunder be held on February 26, 1942 at 10:00 o'clock, A. M., at the offices of the Securities and Exchange Commission, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing room clerk in Room 1102 will advise as to the room where such hearing will be held. At such hearing, cause shall be shown why such declaration or application (or both) shall become effective or shall be granted. Notice is hereby given of said hearing to the above-named declarants and applicants and to all interested persons, said notice to be given to said declarants and applicants by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

By the Commision.

IN THE MATTER OF WEST TEXAS UTILITIES COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 16th day of February, A. D. 1942.

Notice is hereby given that a supplemental declaration and/or application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above named party; and

Notice is further given that any interested person may, not later than March 4, 1942, at 4:30 P. M., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such supplemental declaration and/or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commision, Washington, D. C.

All interested persons are referred to said supplemental declaration and or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed which are summarized below:

Pursuant to an agreement dated February 10, 1942 with the holders of its $2,930,000 principal amount of outstanding unsecured 3⅛% Serial Notes due June 13, 1942 to December 13, 1947, West Texas Utilities Company proposes to reduce from 3⅛% to 2¾% the interest rate payable on $2,404,000 principal amount of said Serial Notes due June 13, 1942 to December 13, 1946. The consideration for such reduction in interest rate will be the payment on or before February 28, 1942 of the $526,000 principal amount of said Serial Notes which mature on June 13, 1947 and December 13, 1947. The reduction in interest rate will be effective on a date to be designated by the company in accordance with the provisions of the agreement. Assuming this to be as of March 13, 1942, the company estimates the reduction will effect an aggregate saving in interest charges of approximately $23,103.

The Serial Notes are held by The Chase National Bank of the City of New York, Continental Illinois National Bank and Trust Company of Chicago, The Fort Worth National Bank, and Republic National Bank of Dallas, to whom said Notes were issued in 1939 in the original amount of $4,000,000.

West Texas Utilities Company is a direct subsidiary of American Public Service Company, a registered holding company, and an indirect subsidiary of Central and South West Utilities Company and The Middle West Corporation, both registered holding companies.

By the Commission.

IN THE MATTER OF NY PA NJ UTILITIES COMPANY AND ASSOCIATED ELECTRIC COMPANY

ORDER PERMITTING DECLARATIONS TO BECOME EFFECTIVE AND GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C. on the 13th day of February, A. D. 1942.

Associated Electric Company, a registered holding company, having filed a declaration, as amended, pursuant to sections 12 (c) and 12 (f) of the Public Utility Holding Company Act of 1935

and Rules U-42 and U-43 thereunder, and NY PA NJ Utilities Company, a registered holding company, having filed an amendment to its application and declaration, which amendment was, in turn, later amended, pursuant to sections 9 (a), 10, 12 (c), and 12 (f) of the Act, and Rules U-42 and U-43 thereunder, regarding the following complementary transactions:

As part of a plan for the acquisition by NY PA NJ Utilities Company of a large amount of its bonds and debentures and certain securities of some of the subsidiaries, to facilitate such further steps as may be necessary for it to take to simplify its subholding system, to provide for its funded and other indebtedness, and to reduce the number and amount of cross-holdings of securities among companies in both the NY PA NJ Utilities Company system and that of Associated Gas and Electric Corporation, of which NY PA NJ and Associated Electric Company are subsidiaries, NY PA NJ Utilities Company proposes at the present time, in this transaction designated by it as "Transaction K", to transfer and deliver $3,015,000 principal amount of Associated Electric Company 4½% Gold Bonds, Refunding Series, due 1956, now owned by it, to Associated Electric Company, which in turn will acquire them in exchange for the transfer and delivery to NY PA NJ Utilities Company by Associated Electric Company of $1,356,700 principal amount of The Mohawk Valley Company 6% Collateral Refunding Gold Bonds, due 1981, together with $50 in cash, representing an adjustment to the next lowest issuable denomination of said bonds, and with a cash adjustment with respect to the accrued interest on the respective securities credited to the respective transferers, to the date of closing.

Such declaration, as amended, and amendment to application and declaration, together with the amendment thereto, having been filed on January 24, 1942, and notice of said filings having been duly given in the form and manner prescribed under Rule U-23, promulgated pursuant to the Act; and

The Commission, not having received a request for hearing with respect to said declaration, as amended, and to said amendment to said application and declaration, as amended, within the period specified in said notice, or otherwise ordered a hearing thereon; and

The Commission finding with respect to said declaration, as amended, and said amendment, as amended, that the requirements of sections 12 (c) and 12 (f) and Rules U-42 and U-43 have been satisfied and with respect to said amendment to the application, as amended, that no adverse findings are necessary under section 10 (b) and 10 (c) (1) of the Act and that the transaction involved has the tendency required by section 10 (c) (2) of the Act;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said Act and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid declaration, as amended, of Associated Electric Company be and hereby is permitted to become effective and that the amendment, as amended, to the declaration and application of NY PA NJ Utilities Company (Transaction K) be and hereby is permitted to become effective and be and hereby is granted.

By the Commission (Commissioner Healy dissenting for the reasons set forth in his memorandum of April 1, 1940).

IN THE MATTER OF ATLANTIC CITY ELECTRIC COMPANY AND AMERICAN GAS AND ELECTRIC COMPANY

INTERIM ORDER AND NOTICE OF SUPPLEMENTAL HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 14th day of February, A. D. 1942.

The above named companies having filed a joint application and declaration and an amendment thereto pursuant to sections 6 (b), 10, 12 (b), 12 (c), 12 (d), and 12 (f) of the Public Utility Holding Company Act of 1935 and Rules U-42, U-43, U-45, and U-50 thereunder, with respect to the following transactions:

Atlantic City Electric Company ("Atlantic City"), a subsidiary of American Gas and Electric Company ("American Gas"), a registered holding company, proposes to issue and sell or exchange 62,000 shares of its Cumulative Preferred Stock of the par value of $100 a share, at a price which shall be not less than $100 a share and which shall result in an annual cost of money on a stock yield basis of not more than 4½ percent, the exact price and yield to be determined by competitive bidding.

Atlantic City proposes to invite competitive bids on 49,000 shares of the new Cumulative Preferred Stock, which represents the entire issue less 13,000 shares, the minimum number of shares which the company estimates will be taken by public holders of 26,283 shares of its presently outstanding $6 Preferred Stock under the terms of an exchange offer; the invitation for competitive bids to provide that, if the holders of the old $6 Preferred Stock should take more than 13,000 shares of the Cumulative Preferred, then the number of shares to be sold to the successful bidder will be reduced by such excess; and that, if less than 13,000 shares should be taken by the public holders of the old $6 Preferred, the successful bidders shall have the option to purchase the additional shares represented by this deficiency at the same price per share as they have bid for the other shares; and that, in the event such option is not exercised, Atlantic City will sell to American Gas, for investment and not for distribution, the shares of Cumulative Preferred covered by such option at the same price as the successful bidders have bid for the other shares.

For each share of the 26,283 shares of old $6 Preferred Stock outstanding in the hands of the public, Atlantic City will offer one share of new Cumulative Preferred, plus an amount in cash per share equal to the excess of the redemption price of $120 per share of the old $6 Preferred, plus accrued dividends to the date of redemption, over the initial public offering price per share of the Cumulative Preferred (or, in case the successful bidders do not intend to make a public offering, over the price to be received by Atlantic City for said stock).

The proceeds of the sale of the new securities described above, together with a capital contribution as below noted, will be applied to the following:

(a) Redemption and cancelation of the 26,283 shares of old $6 Preferred of Atlantic City now in the hands of the public at the redemption price of $120 per share; subject to the exchange privilege above noted;

(b) Purchase for cancelation of 30,702 shares of old $6 Preferred of Atlantic City from American Gas for $3,059,200, being American Gas's cost of such shares;

(c) Payment of $2,500,000 due American Gas by Atlantic City on open account advances.

The balance of such funds, if any, will be available for the general corporate purposes of Atlantic City. Accrued dividends and interest will be paid by Atlantic City out of general funds.

Prior to, or concurrently with, the issue and sale or exchange by Atlantic City of the new securities referred to above, American Gas will make a capital contribution to Atlantic City of $2,500,000 in cash; upon receipt of which, Atlantic City will credit same to Capital Surplus (Account No. 270) and immediately thereafter transfer the same amount from that account to a reserve account to be entitled "Reserve for Possible Amortization of Acquisition Adjustment Account."

In connection with the redemption or purchase and cancelation of Atlantic City's old $6 Preferred, Atlantic City may obtain temporary loan of not to exceed $6,200,000; the note representing which temporary loan, if made, will be both issued and discharged on the same day on which the new Cumulative Preferred is issued.

A preliminary hearing having been held with respect to said matters, and the Commission having made and entered its findings herein;

It is ordered, That said joint application as amended be and the same hereby is granted, and that said joint declaration as amended be and the same hereby is permitted to become effective forthwith for the purpose of permitting the applicant Atlantic City Electric Company to proceed with its program of inviting, receiving, and considering bids for the proposed securities; subject, however, to the terms and conditions prescribed in Rule U-24;

It is further ordered, That not later than 10:00 o'clock A. M., Eastern War Time, on Wednesday, February 25, 1942, the applicant Atlantic City Electric Company shall file an amendment setting forth the action taken to comply with Rule U-50 (b), a copy of each proposal received, and a statement of the action which it proposes to take with reference to the issuance and sale of the securities; and

It is further ordered, That a supplemental hearing be held herein on Wednesday, February 25, 1942 at 10:00 o'clock A. M., Eastern War Time, in the Commission's hearing room, 1778 Pennsylvania Avenue NW., Washington, D. C., with respect to the price, underwriters' spread and allocation thereof, or any other matter relevant to the action proposed to be taken by the applicants and declarants herein; and notice is hereby given that any interested person may, not later than February 21, 1942 at 1:15 P. M., Eastern War Time, request the Commission in writing for opportunity to be heard at said supplemental hearing, stating the reasons for such request and the nature of his interest.

By order of the Commission.

CHAPTER III—SOCIAL SECURITY BOARD

[Regulations No. 3, further amended]

PART 403—FEDERAL OLD-AGE AND SURVIVORS INSURANCE [1]

CERTIFICATION OF RECORDS IN EVIDENCE OF AGE, DEATH AND MARRIAGE

This regulation amends Regulations No. 3 [2] (Part 403,[3] Title 20, Code of Federal Regulations, 1940 Sup.) by amending paragraphs (b), (c), and (d) of § 403.702 of Regulations No. 3 as follows:

§ 403.702 *Supporting evidence as to right to receive benefits and lump sums.*

• • • • •

(b) *Evidence as to age.* An applicant for benefits shall file supporting evidence showing the date and place of his birth, if his age is a condition of entitlement. Such evidence may also be required by the Board as to the age of any other individual when such other individual's age is relevant to the determination of the applicant's entitlement. Evidence of age shall be of the following character:

(1) A copy of the public record of birth or a statement as to the date of birth shown by such record, duly certified by the custodian of such record or by an individual designated by the Board; or

(2) A copy of a church record of infant baptism or a statement as to the date of birth shown by such record, duly certified by the custodian of such record or by an individual designated by the Board; or

(3) A written notification from the Bureau of the Census or other public agency that a described record of birth has been established at a public registry of vital statistics.

If none of the evidence described in subparagraphs (1), (2), or (3) of this paragraph is readily obtainable, the reason therefor should be stated and the Board may in its discretion accept:

(4) A statement of the physician or midwife who attended at the time of the birth of such applicant or other individual; or

(5) A certification, upon the approved form, that there exists a Bible or other family record showing the age of the applicant or of such other individual, as stated on such form; or

(6) Other evidence of probative value.

If the applicant for benefits is residing in the United States, but was born in another country, and none of the evidence described in subparagraphs (1) and (2) of this paragraph is available in the United States, the applicant may submit an immigration or naturalization record, or other evidence of probative value, which shows the date and place of his birth.

(c) *Evidence as to death.* An applicant for benefits or a lump sum based upon the wages of a deceased individual shall file supporting evidence as to the death of such individual, and as to the time and place of such death. Such evidence may also be required by the Board as to the death of any other individual when such other individual's death is relevant to the determination of the applicant's entitlement. Such evidence shall be of the following character:

(1) A certified copy of the public record of death, coroner's report of death, or verdict of the coroner's jury of the State or community where death occurred, or a certificate by the custodian of the public record of death or a statement of the contents of the record of death certified by an individual designated by the Board; or

(2) A statement of the funeral director, attending physician, or of the superintendent, physician, or interne of the institution where the death occurred.

If none of the evidence described in subparagraphs (1) and (2) of this paragraph is obtainable, the reason therefor should be stated and the applicant may submit:

(3) The verified statements of two or more persons, having personal knowledge of the death, setting forth the facts and circumstances as to the place, date, and cause of death; or

(4) Other evidence of probative value.

If death occurs outside the United States there must be furnished a report of the death by a United States consul, or other agent of the State Department, bearing the signature and official seal of such consul or agent, or a certified copy of the public record of death authenticated by the United States consul or other agent of the State Department, or other evidence of probative value.

Whenever it is necessary to determine the death of an individual other than the wage earner, in order to determine the right of another to a benefit under section 202 (f) or a lump sum under section 202 (g) of the Act, and such individual has been unexplainedly absent from his residence and unheard of for a period of 7 years, the Board, upon satisfactory establishment of such facts, will presume that such individual has died, in the absence of any substantial evidence to the contrary.

(d) *Evidence as to marriage.* A wife or widow who applies for benefits (see paragraph (j) of this section as to applications for lump sums) upon the basis of the wages of her husband or deceased husband shall file supporting evidence as to her marriage to such individual, and as to the time and place of marriage. Evidence of marriage may also be required by the Board as to the marriage of any other individual when such a marriage is relevant to the determination of an applicant's entitlement.

(1) *Ceremonial marriage.* Evidence as to a ceremonial marriage shall be of the following character:

(i) A copy of the public record of marriage or a statement as to the marriage, duly certified by the custodian of such record or by an individual designated by the Board; or

(ii) A copy of the church record of marriage or a statement as to such marriage, duly certified by the custodian of such record or an individual designated by the Board; or

(iii) The original certificate of marriage.

If none of the evidence described in subdivisions (i), (ii), and (iii) of this subparagraph is obtainable, the reason therefor should be stated and the applicant may submit:

(iv) The verified statement of the clergyman or official who performed the marriage ceremony; or

(v) Other evidence of probative value. (Sec. 205 (a), 53 Stat. 1368, sec. 1102, 49 Stat. 647; 42 U.S.C., Sup., 405 (a) 1302)

• • • • •

In pursuance of sections 205 (a) and 1102 of the Social Security Act, as amended, the foregoing regulation adopted by the Board is hereby prescribed this 9th day of February 1942.

[SEAL] SOCIAL SECURITY BOARD.
A. J. ALTMEYER,

CHAPTER VI—SELECTIVE SERVICE SYSTEM

ORDER WAIVING LOCAL BOARD PHYSICAL EXAMINATION OF LOCAL BOARDS IN THE AREAS IN THE STATE OF NEVADA WHICH HAVE BEEN DESIGNATED AS THE "GERLACH AREA" AND THE "AUSTIN AREA"

By virtue of the provisions of the Selective Training and Service Act of 1940 (54 Stat. 885), as amended, and the authority vested in me by the rules and regulations prescribed thereunder, and more particularly the provisions of § 623.35 of the Selective Service Regulations, and with respect to those registrants who are now being classified or who may hereafter be classified, and who reside in areas in the State of Nevada which have been designated by the State Director of Selective Service of Nevada as the "Gerlach area" and the "Austin area," I hereby waive the requirement that such registrants be physically examined by an examining physician in the manner provided in Part 623, Selective Service Regulations, and I hereby direct that the classification of such registrants be completed in the manner provided in § 623.51 (f), Selective Service Regulations, without such physical examination by a local board examining physician.

[Order No. 25]

WEEPING WATER CAMP PROJECT, NEBRASKA

I, Lewis B. Hershey, Director of Selective Service, in accordance with the provisions of section 5 (g) of the Selective Training and Service Act of 1940 (54 Stat. 885) and pursuant to authorization and direction contained in Executive Order No. 8675 dated February 6, 1941, hereby designate the Weeping Water Camp project to be work of national importance, to be known as Civilian Public Service Camp No. 25. Said camp, located at Weeping Water, Cass County, Nebraska, will be the base of operations for soil conservation work in the State of Nebraska, and registrants under the Selective Training and Service Act of 1940, who have been classified by their local boards as conscientious objectors to both combatant and non-combatant military service and have been placed in Class IV–E, may be assigned to said camp in lieu of their induction for military service.

The work to be undertaken by the men assigned to said Weeping Water Camp will consist of the establishment of a program tending to develop sound land use practices which will prevent the spread of erosion, and shall be under the technical direction of the Soil Conservation Service of the United States Department of Agriculture insofar as concerns the planning and direction of the work program. The camp, insofar as camp management is concerned, will be under the direction of approved representatives of the National Service Board for Religious Objectors. Men shall be assigned to and retained in camp in accordance with the provisions of the Selective Training and Service Act of 1940 and regulations and orders promulgated thereunder. Administrative and directive control shall be under the Selective Service System through the Camp Operations Division of National Selective Service Headquarters.

LEWIS B. HERSHEY,
Director.

ORDER PRESCRIBING FORMS

By virtue of the Selective Training and Service Act of 1940 (54 Stat. 885) and the authority vested in me by the rules and regulations prescribed by the President thereunder, and more particularly the provisions of Paragraph 163 and Appendix A to Volume One of the Selective Service Regulations, I hereby prescribe the following change in DSS forms:

Revision of DSS Form 250, formerly entitled "Certificate of Employment of Office Assistants," and its reissuance under the title "Report of Employment, Separation, or Status Change for Local Board Employee," effective immediately upon the filing hereof with the Division of the Federal Register.[1] Upon receipt of the revised DSS Form 250, the use of the original DSS Form 250 will be discontinued and all unused copies thereof will be destroyed.

The foregoing revision and discontinuance shall, effective immediately upon the filing hereof with the Division of the Federal Register, become a part of Appendix A to Volume One, Selective Service Regulations.

ORDER PRESCRIBING FORMS

By virtue of the Selective Training and Service Act of 1940 (54 Stat. 885) and the authority vested in me by the rules and regulations prescribed by the President thereunder and more particularly the provisions of section 605.51 of the Selective Service Regulations, I hereby prescribe the following change in DSS forms:

Addition of a new form designated as DSS Form 3A, entitled "Duplicate List of Registrants," effective immediately

[1] Filed as part of the original document.

upon the filing hereof with the Division of the Federal Register.[1]

The foregoing addition shall, effective immediately upon the filing hereof with the Division of the Federal Register, become a part of the Selective Service Regulations.

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

Priorities Regulation No. 7

§ 944.27 *Priorities Regulation No. 7; signature of endorsements evidencing preference ratings.* (a) Whenever any Order or Regulation heretofore or hereafter issued requires the placing upon any purchase order or contract (or upon any document referring to such purchase order or contract) of an endorsement evidencing the application or extension of a duly assigned preference rating, such endorsement shall be signed by the party placing the purchase order or contract or by a responsible individual duly authorized to sign on behalf of such party. Such signature must be either manual or in the form of a facsimile, provided that:

(1) Each use of such facsimile signature with respect to each such purchase order or contract must be approved by the individual whose facsimile signature is used or by another responsible individual duly authorized by him.

(2) Such approval must be evidenced in the case of each such purchase order or contract by a written record manually signed or initialled by the individual approving use of the facsimile. Such a record may refer to several purchase orders or contracts as to which use of the facsimile signature has been approved at the same time, but each such purchase order or contract must be separately indicated thereon. Such record need not accompany the purchase order or contract (or document referring thereto) on which the facsimile signature is used, but must be preserved for not less than two years for inspection by representatives of the Director of Industry Operations.

(b) Each such endorsement shall be deemed to constitute a representation to the Director of Industry Operations by (1) the party placing the purchase order or contract, (2) the individual whose signature is used, and (3) the individual approving the use of the same, that the statements contained in the endorsement are true.

(c) The provisions of this Regulation shall supersede any inconsistent provision contained in any Regulation or Order heretofore issued concerning the manner in which signatures must or may be made on any such endorsement. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 17th day of February 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-1403; Filed, February 17, 1942; 11:52 a. m.]

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

§ 944.28 *Interpretation of limitation and conservation orders with respect to the assignability of quotas.* In general, where any order limits the amount of material which may be used or the number of units which may be produced by any person, whether by reference to a specified percentage of his use or production during a previous base period or otherwise, such limitations remain in effect regardless of the extent to which a producer's business may have been increased by assignment from other producers. If a producer's business is sold as a going concern and continues, in the hands of the purchaser, to make substantially the same product at the same plant and with substantially the same personnel (other than executive officers), the identity of the producer will be deemed unchanged for the purpose of such limitations. Any other arrangement whereby one producer purports to assign to another producer his quota for use of a specific material or for production of a particular product is prohibited and invalid unless specifically authorized by the Director of Industry Operations.

In appropriate cases, the Director of Industry Operations may permit the assignment of quotas when it is deemed to be desirable for the prosecution of the war or for the essential civilian economy. In cases where such permission is granted the Director may specify the same limitations under which the predecessor operated or such other limitations as he may deem appropriate in the particular case. Applications for such permission will be regarded as appeals from the applicable orders. They should be made in writing addressed to the War Production Board and referring specifically to the limitation or conservation orders involved. Such appeals may be made jointly by the parties to a proposed transfer. In every case the effect of the existing restrictions on the producer or producers in question should be precisely stated, together with the essential terms of the proposed transaction and the amount of any consideration to be paid. Where a cash consideration is to be paid, it is not expected that the Director will approve a transfer involving merely the assignment of a quota as such, without assignment of the business as a going concern, "farming out" for the account of the assignor, licensing or some similar arrangement. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 17th day of February 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 962—STEEL

Supplementary Order M-21-f—Shot and Bullet Core Steel

Whereas the fulfillment of requirements for the defense of the United States and the prosecution of the present war will result in a shortage of facilities for the production of steel for shot and bullet core and a consequent shortage in the supply of such material for defense, for private account and for export, and it is necessary to utilize effectively all available facilities for the production of such material;

Now, therefore, it is hereby ordered, That:

§ 962.7 *Supplementary Order M-21-f*—(a) *Definition.* For the purposes of this Order, "Shot and Bullet Core Steel" means steel, whether hot rolled or cold finished, to be used in the manufacture of those products listed in Schedule A hereto attached.

(b) *Allocation program adopted.* Beginning March 1, 1942, no producer of shot and bullet core steel shall make delivery of such material and no person shall accept delivery thereof from a producer except pursuant to an allocation order issued on Form PD-201 specifically directing such delivery.

(c) *Reports.* Until further notice, reports shall be filed with the War Production Board and with the Army and Navy Munitions Board, weekly on Form PD-307 by producers of shot and bullet core steel, and monthly on Form PD-308 by purchases of such material.

(d) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a) Pub. No. 671, 76th Cong., 3d sess.; as amended by Pub. No. 89, 77th Cong., 1st sess.)

Issued this 17th day of February 1942.

PART 989—DOMESTIC MECHANICAL REFRIGERATORS

Supplementary General Limitation Order L-5-b To Restrict the Sale and Delivery of Domestic Mechanical Refrigerators

In accordance with the provisions of §§ 989.1 and 989.2[1] (General Limitation Orders L-5 and L-5-a), which the following Order supplements,

It is hereby ordered, That:

§ 989.3 *Supplementary General Limitation Order L-5-b*—(a) *Prohibition of transactions in domestic mechanical refrigerators from the effective date of this Order.* From the effective date of this Order, no Person shall sell, lease, trade, deliver, ship or transfer any New Domestic Mechanical Refrigerator (whether produced before or after the effective date of this Order) to any other Person, except:

(1) Pursuant to sales at retail (or the financing of sales at retail), not more than the greater of the following two limits:

(i) 100 New Domestic Mechanical Refrigerators, or

(ii) 1/12 of the number of New Domestic Mechanical Refrigerators sold by him at retail during the year 1941;

(2) Any New Domestic Mechanical Refrigerators actually in transit at the time this Order takes effect may be delivered to their immediate destination; or

(3) Pursuant to specific order of the Director of Industry Operations.

[1] 6 F.R. 5008, 5256; 7 F.R. 116.

(b) *Definitions.* (1) "New domestic mechanical refrigerator" means any Domestic Mechanical Refrigerator which has never been used by an ultimate consumer.

(2) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(c) *Records and reports.* (1) Every Person who has any New Domestic Mechanical Refrigerators on the effective date of this Order shall keep and preserve for not less than two years accurate and complete records of all such New Domestic Mechanical Refrigerators and of all sales and shipments made by him pursuant to this Order. Such records shall be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(2) On or before March 1, 1942, every manufacturer of Domestic Mechanical Refrigerators and every other person holding New Domestic Mechanical Refrigerators which he cannot ship or sell under the provisions of subparagraph (a) (1) shall file with the War Production Board a statement of the number and location of completed New Domestic Mechanical Refrigerators in stock on February 14, 1942, by size and type, together with the number of such Refrigerators which he can ship and sell under the provisions of subparagraph (a) (1).

(d) *Communications.* All reports and other communications concerning this Order shall be addressed to: War Production Board, Washington, D. C. Ref. 1-5-b.

(e) *Effective date.* This Order is to take effect immediately after being signed by the Director of Industry Operations. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F. R. 527; sec. 2 (a), Pub. No. 671, 76th Cong. 3rd Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

PART 989—DOMESTIC MECHANICAL REFRIGERATORS

Interpretation No. 1 of Supplementary General Limitation Order L-5-b To Restrict the Sale of Domestic Mechanical Refrigerators

The following interpretation is hereby issued by the Director of Industry Operations with respect to § 989.3, Supplementary General Limitation Order L-5-b, dated February 14, 1942.

No person is authorized to sell, lease, trade, deliver, ship or transfer any new Domestic Mechanical Refrigerators pursuant to a retail sale under the provisions of subparagraph (a) (1) of General Limitation Order L-5-b which were received by him after 10:00 A. M., Eastern War Time, February 14, 1942, except such new Refrigerators as were actually in transit to him at that time. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public No. 671, 76th Congress, Third Session, as amended by Public No. 89, 77th Congress, First Session)

PART 1010—SUSPENSION ORDERS

Amendment No. 1 To Suspension Order S-11—Hurley Machine Division of Electric Household Utilities Corporation.

Paragraph (c) of Suspension Order S-11,[1] issued by the Director of Industry Operations on February 6, 1942, is hereby amended to read as follows:

§ 1010.11 *Suspension Order S-11.*

* * * * * * *

(c) During the period in which this Order shall be in effect, Hurley Machine Division of Electric Household Utilities Corporation, its successors and assigns, shall not transfer or deliver electric washing machines, electric ironing machines, parts for electric washing machines, or parts for electric ironing machines, except as specifically authorized by the Director of Industry Operations: *Provided, however,* That Hurley Machine Division of Electric Household Utilities Corporation may deliver or transfer such machines, or the parts thereof, for the purpose of storing the same for its own account, and may deliver or transfer electric washing machine parts or electric ironer parts for repair purposes. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public No. 671, 76th Cong., 3d Sess., as amended by Public No. 89, 77th Cong., 1st Sess.)

This Amendment shall take effect immediately. Issued this 16th day of February 1942.

PART 1038—MADAGASCAR FLAKE GRAPHITE

Conservation Order No. M–61 Curtailing the Use of Madagascar Flake Graphite

Whereas Madagascar Flake Graphite must be imported from Madagascar and the present supply thereof which can be used for the manufacture of crucibles is insufficient for the combined needs of defense, private account and export; and it is necessary in the public interest and to promote the defense of the United States to conserve the supply of Madagascar Flake Graphite which can be used for the manufacture of crucibles,

Now, therefore, it is hereby ordered, That:

§ 1038.1 *Conservation Order No. M–61*—(a) *Definition.* For the purposes of this Order:

"Put into process" means the first change by a Person in the form of material from that form in which it is received by him.

(b) *Restrictions on use of Madagascar Flake Graphite.* On and after the effective date of this Order, no Person shall put into process for any purpose other than the manufacture of crucibles any Madagascar Flake Graphite which is of a grade that can be used for the manufacture of crucibles, except pursuant to the specific authorization of the Director of Industry Operations, and on and after February 23, 1942, no Person shall put into process for the manufacture of crucibles any Madagascar Flake Graphite, except pursuant to the specific authorization of the Director of Industry Operations.

(c) *Restrictions on delivery of crucibles and other articles containing Madagascar Flake Graphite.* On and after the effective date of this Order, no Person shall deliver or accept delivery of any crucible containing Madagascar Flake Graphite, except pursuant to the specific authorization of the Director of Industry Operations; nor shall any Person deliver or accept delivery of any article, other than a crucible, containing Madagascar Flake Graphite of a grade which could have been used for the manufacture of crucibles, except pursuant to the specific authorization of the Director of Industry Operations, unless such Madagascar Flake Graphite was put into process prior to the effective date of this Order.

(d) *Restrictions on delivery of Madagascar Flake Graphite.* On and after the effective date of this Order, no Person shall deliver and no Person other than the Metals Reserve Company shall accept delivery of any Madagascar Flake Graphite of a grade which can be used for the manufacture of crucibles, except pursuant to the specific authorization of the Director of Industry Operations.

(e) *General exception.* Where and to the extent the use of any less scarce material is impracticable, the prohibitions, limitations and restrictions contained in paragraph (b) hereof shall not apply to the putting into process of Madagascar Flake Graphite of a grade which can be used for the manufacture of crucibles when such Graphite is to be physically incorporated into any Item which is being produced for delivery under a contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development or for any foreign country pursuant to the Act of March 11, 1941 entitled "An Act to Promote the Defense of the United States," (Lend-Lease Act), if in any such case the use of Madagascar Flake Graphite of a grade which can be used for the manufacture of crucibles to the extent employed is required by the specifications of the prime contract; and the prohibitions and restrictions contained in paragraph (c) hereof shall not apply to the delivery or acceptance of delivery, pursuant to such a contract or subcontract, of any Item if its manufacture was exempted under the provisions of this paragraph.

(f) *Forms.* Any Person seeking specific authorization from the Director of Industry Operations to accept delivery of any article, including crucibles, containing any Madagascar Flake Graphite of a grade which can be used for the manufacture of crucibles shall apply on Form PD I–A to the Director of Industry Operations for permission to do so, and also for specific authorization to a manufacturer to put into process such Madagascar Flake Graphite where the article is not a crucible, and to deliver the article to the applicant whether or not it is a crucible. Any Person seeking specific authorization from the Director of Industry Operations to accept delivery of any Madagascar Flake Graphite of a grade which can be used for the manufacture of crucibles and to put any Madagascar Flake Graphite, whenever acquired, into process for the manufacture of crucibles, shall apply monthly on Forms PD–303A and PD–303B to the Director of Industry Operations for permission to do so, and also for specific authorization to a Person to make the deliveries of such Graphite which the applicant is authorized to receive.

(g) *Miscellaneous provisions*—(1) *Appeals.* Any Person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of Madagascar Flake Graphite of a grade which can be used for the manufacture of crucibles conserved, or that compliance with this Order would disrupt or impair defense work may appeal to the War Production Board, Washington, D. C., Reference: N–61 setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(2) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(3) *Applicability of Order.* The prohibitions and restrictions contained in this Order shall apply to the putting into process of material in all articles hereafter manufactured and to deliveries of articles or material hereafter made irrespective of whether such articles are manufactured or such deliveries are made pursuant to a contract made prior or subsequent to the effective date hereof. Insofar as any other Order of the Director of Priorities or of the Director of Industry Operations may have the effect of limiting or curtailing to a greater extent than herein provided the delivery or putting into process of Madagascar Flake Graphite of a grade which can be used for the manufacture of crucibles or the delivery of any products made therewith, the limitations of such other Order shall be observed.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref: M–61

(5) *Violations or false statements.* Any Person who violates this Order, or who wilfully falsifies any records which he is required to keep by the terms of this Order, or by the Director of Industry Operations, or who otherwise wilfully furnishes false information to the Director of Industry Operations or to the War Production Board or its chairman may be deprived of priorities assistance or may be prohibited by the Director of Industry Operations from obtaining any further deliveries of materials subject to allocation. The Director of Industry Operations may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(6) *Effective date.* This order shall take effect upon the date of issuance and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong. 1st Sess.)

Issued this 17th day of February 1942.

Director of Industry Operations.

PART 1056—NATURAL GAS

Limitation Order L–31 To Curtail Consumption of Natural Gas

Whereas because of increased gas requirements for war production and civilian uses, and because of scarcity of materials for the construction of pipe lines and other facilities, shortages of natural gas have occurred in certain areas of the United States and are threatened in others; and

Whereas during periods of adverse weather conditions, the demand for natural gas in many areas will increase beyond the capacity of existing facilities to meet such demand; and

Whereas the limitations upon deliveries of natural gas and the integration of gas system operations hereinafter ordered are necessary in order to maintain gas deliveries to war industries and essential civilian services;

Now, therefore, it is ordered, That:

§ 1056.1 *General limitation Order*—(a) *Definitions.* For the purposes of this section:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) "Utility" means any person in the United States supplying natural gas or mixed natural and manufactured gas, directly or indirectly, for general use by the public.

(3) "Consumer" means an ultimate user of gas purchased or otherwise received from any Utility.

(4) "Standby facilities" means equipment in serviceable operating condition designed to use oil, electricity, coal or other fuel to replace natural gas, and for the operation of which a supply of such fuel is available.

(b) *Integration of gas system operation.* Each Utility shall so operate its gas manufacturing, transmission, storage, distribution, and other facilities, and shall so interchange gas with other Utilities as to achieve as far as practicable maximum output in the area or areas in which a shortage exists or is imminent, and each Utility shall make such pooling arrangements as may be necessary to effectuate such purpose. Where necessary for such purpose, the Director of Industry Operations will, from time to time, issue specific directions as to the operation of gas manufacturing, transmission, storage, distribution, and other facilities, and as to deliveries of gas.

(c) *Limitation on deliveries of natural or mixed natural and manufactured gas.* (1) In the event that the supply of natural or mixed natural and manufactured gas available in an area served by any Utility is insufficient to meet the demand therefor, and reduction in deliveries to Consumers becomes necessary, the Utility supplying such area shall reduce deliveries to its Consumers in the following manner and in accordance with such other specific directions as the Director of Industry Operations may from time to time issue:

(i) First, the Utility shall, within the limits of its contractual rights, reduce deliveries to all dump or surplus Consumers not engaged in war production, and deliveries to Consumers who have Standby Facilities, the operation of which can directly or indirectly reduce the total demand for natural or mixed natural and manufactured gas in the area.

(ii) Second, the Utility shall, to the extent necessary, operate all of its available gas manufacturing equipment so as to effect directly or indirectly the maximum increase in the supply of gas in the area.

(iii) Third, the Utility shall, without regard to its contractual rights or those of any Consumer, reduce deliveries to all other Consumers who have Standby Facilities to the extent that the operation of such facilities can directly or indirectly alleviate the shortage of natural or mixed natural and manufactured gas in the area, and no such Consumer, after notification of the reduction in deliveries required shall accept deliveries of gas unless his Standby Facilities are being operated so as to effect the required reduction in his purchases of gas.

(iv) Fourth, the Utility shall, without regard to its contractual rights or those of any Consumer, reduce as far as practicable deliveries to Consumers in such manner as will cause the least interference with war production, and each Consumer who receives notification of the reduction in deliveries required shall reduce his acceptance of deliveries accordingly.

(2) Whenever any Utility finds it necessary to make any reduction in deliveries of gas to any Consumer in accordance with paragraphs (c) (1) (iii) and (c) (1) (iv) of this section, it shall promptly notify the Consumer and at the same time give telegraphic notice thereof, to the Power Branch, War Production Board.

(3) Following each such shortage period, each affected Utility shall submit a detailed report of the quantities of gas conserved by the operation of Standby Facilities and the duration of curtailment and the extent to which each industrial Consumer was curtailed. Such report shall be filed on Form PD–283.

(4) Any Consumer who considers that any reduction in deliveries to him interferes materially with war production shall have the right to apply by telegram for relief to the Director of Industry Operations, who may grant such specific exemptions or take such other action as may be consistent with the purposes of this section. Such application shall state the nature of the war materials being manufactured, the extent to which production has been curtailed because of reduced delivery of gas, and the increase in delivery of gas required for restoration of full production.

(5) No consumer shall be relieved of the requirements of § 944.2 or any other section of Priorities Regulation No. 1 Amended, by reason of the provisions of this paragraph (c).

(d) *Restrictions upon increased deliveries to non-residential consumers.* No Utility shall, after ten days following the effective date of this section, deliver natural or mixed natural and manufactured gas to any new non-residential Consumer in the areas specified in Exhibit "A" annexed hereto, as the same may be amended from time to time, or increase deliveries of such gas to any existing non-residential Consumer in such areas for the operation of any new gas equipment, unless:

(1) Such new or existing non-residential Consumer shall have installed, prior to the date of the increase in deliveries, Standby Facilities of sufficient capacity to replace the new or increased deliveries of such gas during periods of shutoff, or

(2) Such new or existing non-residential Consumer cannot reasonably use any fuel other than gas, natural, or mixed natural and manufactured, because of technical utilization factors or process requirements.

(3) Such new delivery or increase in deliveries shall have been specifically approved in advance by the Director of Industry Operations. Any Consumer or Utility who considers that such deliveries are necessary for war production may apply for such approval to the Director of Industry Operations, who may grant such specific exemptions or take such other action as may be consistent with the purposes of this section.

(e) *Prohibition against delivery to new space heating installations.* (1) No Utility shall deliver and no Consumer shall accept delivery of natural gas or mixed natural and manufactured gas in the areas specified in Exhibit "A" annexed hereto, as the same may be amended or modified from time to time by the Director of Industry Operations, for either of the following purposes:

(i) For the operation of central space heating equipment (or heating equipment supplying the major portion of the heating requirements of the premises), unless such equipment was installed prior to March 1, 1942, or unless, in the case of new construction, the equipment was specified in the construction contract, and the foundation under the main part of the structure in which the equipment is to be installed was completed prior to March 1, 1942; or

(ii) For the operation of central space heating equipment (or heating equipment supplying the major portion of the heat requirements of the premises), which has been converted from other fuel to natural or mixed natural and manufactured gas unless such conversion has been completed prior to ten days after the effective date of this section.

(2) Any Utility affected by the provisions of this paragraph (e) or any governmental agency which considers that

supply of gas available on any particular system or portion thereof is adequate to take care of all existing and estimated future requirements of war industry, and unrestricted civilian use for the period ending April 1, 1944, may apply for exemption of the system or any portion thereof from the provisions of this paragraph to the Director of Industry Operations, who may grant such specific exemptions or take such other action as may be consistent with the purposes of this section.

(f) *Appeal.* Any person affected by this section who considers that compliance therewith would work an exceptional and unreasonable hardship on him may appeal for relief to the Director of Industry Operations who may grant such specific exemptions or take such other action as may be consistent with the purposes of this section.

(g) *Reports and information.* (1) Each Utility shall keep and preserve for not less than two years accurate and complete records concerning deliveries of natural gas to Consumers. Such records shall be subject to inspection by duly authorized representatives of the War Production Board.

(2) All persons affected by this section shall execute and file with the War Production Board such reports and questionnaires as said Board shall, from time to time, request.

(h) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this section, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: L-31.

(i) *Violations.* Any person who wilfully violates any provisions of this section, or any other order, direction or regulation, issued pursuant hereto, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this section, may be prohibited from delivering or receiving gas, or any other material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(j) *Effective date.* This section shall take effect immediately and, unless sooner terminated, shall continue in full force and effect until April 1, 1943. (P.D. Reg. 1 Amended, Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. PART 1070—MUSICAL INSTRUMENTS

General Limitation Order No. L-37 To Restrict the Production of Musical Instruments

Whereas, the demands of national defense have created a shortage of materials used in the manufacture of musical instruments; action has already been taken to conserve the supply and direct the distribution of such materials to insure deliveries for defense and essential civilian requirements; and the present supply of these materials will be insufficient for defense and essential civilian requirements unless the manufacture of musical instruments is curtailed and the use of critical materials for such manufacture thereby reduced;

Now, therefore, it is hereby ordered, That:

§ 1070.1 *General Limitation Order L-37*—(a) *Definitions.* For the purposes of this Order:

(1) "Musical Instrument" means any manufactured instrument or other product designed primarily to produce music, except radios, phonographs, radio-phonographs, and articles designed primarily as toys.

(2) "Accessories" means bows, picks, music stands, piano stools and benches, instrument cases and other articles designed primarily for use in conjunction with musical instruments in order to facilitate the production of music, or protect or cover such instruments.

(3) "Producer" means any person engaged in the fabrication, assembling or any other operation or process connected with the manufacture of musical instruments or accessories.

(4) "Critical materials" means iron, steel, magnesium, aluminum, nickel, chromium, rubber, copper and copper-base alloys, tin, lead, zinc, phenol formaldehyde plastics, neoprene and cork.

(5) "Critical materials used" means the aggregate weight of critical materials when first put into production by any producer, whether in the form of raw materials or contained in fabricated parts.

(b) *General restrictions.* (1) During the period of three months beginning with the first day of the first calendar month following the date of issuance of this Order no producer shall use in his aggregate production of musical instruments, accessories or parts thereof, more critical materials in the aggregate than the sum of the following:

(i) 18¾% of the critical materials used by him in the year 1940 in the manufacture of (*a*) all musical instruments containing less than 10% of critical materials by weight, (*b*) all accessories containing less than 10% of critical materials by weight, and (*c*) replacement parts for all musical instruments; plus

(ii) 16¼% of the critical materials used by him in the year 1940 in the manufacture of (*a*) all musical instruments containing 10% or more but less than 25% of critical materials by weight, and (*b*) all accessories containing 10% or more but less than 25% of critical materials by weight; plus

(iii) 12½% of the critical materials used by him in the year 1940 in the manufacture of (*a*) all musical instruments containing 25% or more of critical materials by weight, and (*b*) accessories containing 25% or more of critical materials by weight.

(c) *Avoidance of excessive inventories.* No manufacturer of musical instruments shall accumulate for use in the manufacture of such musical instruments inventories of raw materials, semi-processed materials, or finished parts in quantities in excess of the minimum amount necessary to maintain production of musical instruments at the rates permitted by this Order.

(d) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* Each manufacturer to whom this Order applies shall file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(g) *Violations.* Any person who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Applicability of other orders.* Insofar as any other Order heretofore or hereafter issued by the Director of Priorities or the Director of Industry Operations limits the use of any material in the production of musical instruments to a greater extent than the limits imposed by this Order, the restrictions in such order shall govern unless otherwise specified therein.

(j) *Application of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Communications.* All reports to be filed, appeals and other communications concerning this Order should be addressed to the War Production Board, Washington, D. C., Ref: L-37.

(l) *Effective date.* This Order shall take effect on the date of its issuance.

(P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public No. 671, 76th Cong., 3rd Sess., as amended by Public No. 89, 77th Cong., First Sess.)

PART 1087—LIGHT AIRCRAFT

Limitation Order No. L-48 To Restrict the Production and Sale of Light Aircraft

Whereas the manufacture of light aircraft requires the utilization of large quantities of critical materials, especially aluminum; the National Defense requirements have created a shortage of these materials for the combined needs of defense, private account and export; action has already been taken to conserve the supply and direct the distribution of such materials to insure deliveries for defense and for essential civilian requirements; and the present supply of these materials will be insufficient for defense and essential civilian requirements unless the manufacture and sale of light aircraft is curtailed and the use of critical materials for such manufacture is reduced;

Now therefore, it is hereby ordered, That:

§ 1087.1 *General Limitation Order L-48*—(a) *Definitions.* For the purposes of this Order:

(1) "Light aircraft" means any aircraft using an engine or engines of less than 500 horsepower in the aggregate.

(2) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(3) "New" as applied to light aircraft, means any light aircraft completed on or after October 1, 1941, which has been flown less than 100 hours.

(b) *Prohibition of sales of light aircraft.* (1) Except as hereinafter provided no person shall after the effective date of this Order sell, lease, trade, lend, deliver, ship, or otherwise transfer any new light aircraft; and no person shall accept any such sale, lease, trade, loan, delivery, shipment or transfer of any new light aircraft.

(2) Nothing in this Order shall prevent any person from making a sale, lease, trade, loan, delivery, shipment or transfer of a new light aircraft to or for the account of the following:

(i) The Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development.

(ii) The government of any of the following countries: The United Kingdom, Canada and other Dominions, Crown Colonies and Protectorates of the British Empire, Belgium, China, Greece, the Kingdom of the Netherlands, Norway, Poland, Russia and Yugoslavia.

(iii) Any agency of the United States Government, where such light aircraft is to be delivered to, or for the account of, the government of any country listed above, or any other country, including those of the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(iv) Any person specified as the purchaser of such light aircraft in any delivery schedule which has been approved by the Joint Aircraft Committee.

(v) Any member of the Civil Air Patrol, any Civilian Pilot Training Program operator or any State Guard Unit organized under the provisions of Army Regulations 850-250 (April 21, 1941), provided such member, operator or Unit endorses on the purchase order, bill of sale, contract or other instrument pursuant to which such transfer is made, a statement in the following form, specifying the status of the person acquiring such aircraft and manually signed by such person:

The undersigned hereby certifies to the War Production Board, pursuant to Limitation Order No. L-48, that the undersigned is

---

(Specify whether member of CAP, CPTP operator, or State Guard Unit)

and that the light aircraft described in this instrument is purchased solely for use in connection with such activity; and the undersigned agrees to retain said aircraft until not less than 300 hours of use in connection with such activity have been certified in its logbook.

Name of Person Acquiring Light Aircraft

By ---

Duly Authorized Official

Such endorsement shall constitute a representation to the War Production Board and the transferor of such light aircraft of the facts therein set forth, and the transferor shall be entitled to rely on such representation unless he knows or has reason to believe it to be false.

(vi) Any other person who obtains from the War Production Board and files with the transferor of such light aircraft a certificate executed by the Director of Industry Operations, War Production Board, that he approves of such transfer.

(3) Nothing in this Order shall prevent:

(i) the transfer of title to a light aircraft pursuant to the terms of a conditional sale contract, chattel mortgage, bailment lease or similar instrument duly executed prior to midnight, Eastern War Time on the effective date of this Order;

(ii) the retaking, repossession or redelivery of any light aircraft upon default, breach or other contingency under the terms of a conditional sale contract, chattel mortgage, bailment lease or similar instrument executed prior to midnight, Eastern War Time on the effective date of this Order.

(c) *Restrictions on production of light aircraft.* (1) Except as hereinafter provided no person shall, after the effective date of this Order, commence to manufacture any light aircraft which has aluminum ribs and which contains in its airframe any quantity of aluminum in excess of 18% of the weight of such airframe; or any light aircraft which has ribs of any other material and which contains in its airframe any quantity of aluminum in excess of 12% of the weight of such airframe.

(2) On and after September 1, 1942, no person shall continue to manufacture any light aircraft which contains in its

airframe any quantity of aluminum in excess of 12% of the weight of such airframe, irrespective of whether or not such aircraft has aluminum ribs.

(3) The restrictions specified in subparagraphs (1) and (2) shall not apply to light aircraft manufactured pursuant to any contract or purchase order therefor placed by or for the account of any of the persons specified in paragraphs (b) (2) (i), (ii), (iii), and (iv) hereof.

(d) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and transfers.

(e) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* All persons affected by this Order shall execute and file with the War Production Board such reports and questionnaires as requested by said Board from time to time. No reports or questionnaires are to be filed by any person until forms therefor have been prescribed by the War Production Board.

(g) *Violations.* Any person who willfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board by a letter setting forth the pertinent facts and the reasons why he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Communications to War Production Board.* All appeals and all other communications concerning this Order shall, unless otherwise directed, be addressed to: War Production Board, Washington D. C. Ref: L-48.

(j) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Effective date.* This Order shall take effect upon the date of the issuance thereof, and shall continue in effect until revoked by the Director of Industry Operations, subject to such amendments or supplements thereto as may be from time to time issued by the Director of Industry Operations. CHAPTER XIII—OFFICE OF PETROLEUM COORDINATOR FOR NATIONAL DEFENSE

[Recommendation No. 24, Amendment]

PART 1500—ADMINISTRATIVE; GENERAL

PETROLEUM INDUSTRY WAR COUNCIL

Pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for National Defense, §§ 1500.8 to 1500.12, inclusive, (Recommendation No. 24,[1] dated December 11, 1941) are hereby amended by deleting therefrom the words "Petroleum Industry Council for National Defense", and "Petroleum Industry Council" and by substituting in lieu thereof the words "Petroleum Industry War Council".

R. K. DAVIES,
Deputy Petroleum Coordinator for National Defense.

[Recommendation No. 35]

PART 1505—TRANSPORTATION

COST EQUALIZATION, DISTRICT FIVE

To the Transportation Committee of District Five, to all suppliers of petroleum and petroleum products, and to all other persons, natural or artificial, engaged in the petroleum industry, who are or may be affected by an increase in the cost of transporting petroleum and petroleum products in, to or from said district.

In order to alleviate the serious adverse effect on the progress of the war effort, and on the public generally, of a scarcity of petroleum and petroleum products in the Pacific Northwest caused by the shortage of tanker capacity resulting from the exigencies of warfare, it is necessary that other and more costly additional means of transportation be employed. All available alternative means of transportation must be employed immediately to a maximum and the increased costs of such transportation should be shared equitably among all affected.

Therefore, pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for National Defense, I do hereby recommend that immediately and until further notice:

§ 1505.48 *Plans for equalizing transportation costs.* The Transportation Committee for District Five shall obtain and analyze all pertinent and available facts, figures, and other data and prepare therefrom a plan, for submission to the Chief Counsel of the Office of Petroleum Coordinator for National Defense, for the equitable distribution, among all persons affected, of the excess costs of transportation of petroleum and petroleum products in, to or from the Pacific Coast area by railroad tank cars or other alternative means of transportation, or any combinations thereof, over transportation by tanker under the Maritime Commission charter rate ceilings.*

*§§ 1505.48 to 1505.50, inclusive, issued under the authority contained in the President's letter of May 28, 1941 to the Secretary of the Interior (6 F.R. 2760).

§ 1505.49 *Effectuating plans.* Upon the approval by the Chief Counsel of the Office of Petroleum Coordinator for National Defense of a plan prepared pursuant to § 1505.48, and pursuant to the direction of the Petroleum Coordinator for National Defense or the Deputy Petroleum Coordinator, the Transportation Committee of District Five, all suppliers of petroleum or petroleum products and all other persons, natural or artificial, engaged in the petroleum industry, who are or may be affected by an increase in the cost of transporting petroleum and petroleum products in, to or from said district, shall carry into effect said plan according to its terms, conditions and intent.*

§ 1505.50 *Meetings.* Meetings of the Transportation Committee of District Five and of representatives of the aforesaid suppliers and other affected persons shall be held from time to time for the purpose of obtaining the foregoing facts, figures and other data and for the purpose of preparing the aforesaid plan and, after its approval by the Chief Counsel of the Office of Petroleum Coordinator for National Defense, of carrying into effect such plan in accordance with the foregoing provisions of this Recommendation.*

R. K. DAVIES,
Deputy Petroleum Coordinator for National Defense.

[Recommendation No. 33]

PART 1508—MARKETING

SUBCOMMITTEE OF SUPPLIES AND DISTRIBUTION, DISTRICT ONE

To the General Committee for District One, to all other committees for District One, and to all marketers and suppliers of petroleum or petroleum products in said District:

The Congress of the United States has declared the existence of a state of war between the Government and the people of the United States and the Imperial Japanese Government, the Government of Germany, and the Government of Italy.

The diversion for war and other essential purposes of a part of the American tanker fleet normally in Atlantic Coast service has resulted in a shortage of tanker tonnage available for the transportation of petroleum and petroleum products on the Atlantic Coast. Because of the exigencies of warfare, the efficiency of operation of the tankers remaining in this service will be reduced and the regularity of sailing schedules impaired. These factors threaten, unless abated, to result in intermittent periods of scarcity of petroleum and petroleum products, in areas of the Atlantic Coast States dependent chiefly on tanker transportation for petroleum.

It is essential in the national interest that all possible steps be taken to avert or alleviate the serious adverse effects on the progress of the war effort and the public generally which such periods of scarcity of petroleum and petroleum products in the Atlantic States would occasion.

Therefore, pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for National Defense, I do hereby recommend that immediately and until further notice:

§ 1508.17 *Designation of special subcommittee; statistical information.* A special subcommittee consisting of 16 members to be known as the Subcommittee of Supplies and Distribution, be designated by the General Committee for District One, the membership of which shall be subject to the approval of the Petroleum Coordinator for National Defense or of the Deputy Petroleum Coordinator. Said Subcommittee shall obtain, analyze and keep current all pertinent and available facts, figures, and other data with respect to stock inventories and demand for petroleum and petroleum products in District One.*

*§§ 1508.17 to 1508.24, inclusive, issued under the authority contained in the President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

§ 1508.18 *Sale, exchange, and loan of petroleum products.* The Subcommittee of Supplies and Distribution shall coordinate, arrange for, and, after approval by the Chief Counsel of the Office of Petroleum Coordinator for National Defense and subject to the direction of the Petroleum Coordinator for National Defense or the Deputy Petroleum Coordinator, carry into effect the sale, exchange, or loan of petroleum and petroleum products among the various marketers and suppliers in District One wherever and to whatever extent may be necessary to facilitate and assure the distribution of the available supply of petroleum and petroleum products in District One to meet in such District and in the order of statement, the needs of (1) the military forces of the United States, (2) the war industries, (3) the essential civilian requirements, and (4) other reasonable civilian requirements.*

§ 1508.19 *Distribution and division of available petroleum.* In cases of an emergency character, where the District Director of Marketing for District One of the Office of Petroleum Coordinator for National Defense finds that immediate measures are essential to accomplish the objectives of this Recommendation and that, because of the need for speed, the procedure provided in § 1508.18 is inadequate, the said Subcommittee or the Executive Secretary of such Subcommittee shall, subject to the direction of the said Director, make temporary arrangements for the distribution and division of incoming supplies and existing inventories of petroleum and petroleum products among the several marketers and suppliers in such manner, at such times, and in such amounts, as will result in the most efficient method of assuring a continuous supply of petroleum and petroleum products to meet war, defense, and essential civilian demands as they arise, while, at the same time and so far as is not inconsistent therewith, providing equal treatment for all marketers and suppliers affected thereby. The marketers and suppliers affected thereby shall comply with such arrangements and shall carry into effect such sales, exchanges, or loans of petroleum and petroleum products. The said District Director of Marketing shall promptly submit to the Chief Counsel of the Office of Petroleum Coordinator for National Defense a full report on any action taken under the provisions of this section.*

§ 1508.20 *Plans.* The Subcommittee of Supplies and Distribution shall, in the event the Director of Marketing for District One finds that the methods provided in § 1508.18 are inadequate to assure the efficient and equitable distribution of petroleum and petroleum products to meet essential demands in the affected areas, devise and present to the Chief Counsel of the Office of Petroleum Coordinator for National Defense, plans to accomplish the objectives of this Recommendation. Without limitation as to other necessary or appropriate provisions, such plans may provide for the exchange, loan, sale, lease, or pooling of petroleum and petroleum products, and of production, transportation, refining and storage facilities wherever and to whatever extent may be necessary for the purpose of this Recommendation.*

§ 1508.21 *Meetings.* Meetings of the said Subcommittee, representatives of the several marketers and suppliers, and other persons who may be affected may be held from time to time for the purpose of effectuating the provisions of § 1508.18 and of preparing the plans provided for in § 1508.20. The said Subcommittee, representatives, and persons may, upon the approval of any of the aforesaid plans by the Chief Counsel of the Office of Petroleum Coordinator for National Defense meet from time to time for the purpose of doing all things necessary to carry into effect any such plan in accordance with the purposes of this Recommendation.*

§ 1508.22 *Effectuating plans.* The said Subcommittee and all persons affected by any proposal or plan formulated in accordance with § 1508.20 shall, upon the approval of any such proposal or plan by the Chief Counsel of the Office of Petroleum Coordinator for National Defense and pursuant to the direction of the Petroleum Coordinator for National Defense or the Deputy Petroleum Coordinator, carry into effect such proposal or plan according to its terms, conditions, and intent.*

§ 1508.23 *Administration.* In carrying out the duties, responsibilities, and functions under this Recommendation, the Subcommittee of Supplies and Distribution shall consult with the other committees and subcommittees in District One and with the committees in the other Districts to the extent that proposals or activities hereunder may affect such other Districts, and to this end all such committees and subcommittees shall supply the Subcommittee of Supplies and Distribution with such information, material, and assistance as may be necessary and desirable to carry into effect the purposes and intent of this Recommendation. The Subcommittee of Supplies and Distribution shall maintain such staff and appoint such persons as it finds necessary to carry out its duties, responsibilities and functions under this Recommendation. The General Committee or the said Subcommittee from time to time may propose to the Petroleum Coordinator for National Defense or to the Deputy Petroleum Coordinator changes in the membership of the said Subcommittee and may submit nominations for new members.*

§ 1508.24 *Conflicting provisions.* This Recommendation shall supersede and cancel Recommendation No. 5[1] to the extent that there is any conflict therewith.*

R. K. DAVIES,
Deputy Petroleum Coordinator for National Defense.

TITLE 46—SHIPPING

CHAPTER I—BUREAU OF MARINE INSPECTION AND NAVIGATION

SUBCHAPTER N—EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES, AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

[Order No. 212]

PART 146[1]—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES, AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

Order Amending Dangerous Cargo Regulations by Incorporating Applicable Provisions of Amendments Promulgated by the Interstate Commerce Commission in Its Docket No. 3666 of November 8, 1941

Pursuant to the authority vested in the Secretary of Commerce by section 4472 of the Revised Statutes, as amended, the regulations for the safe carriage of explosives or other dangerous articles or substances, and combustible liquids, as promulgated January 7, 1941, including subsequent amendments thereto, are hereby further amended effective immediately, under the emergency provision contained in subsection (9) of R.S. 4472, as amended, as follows:

§ 146.04–5 *List of explosives and other dangerous articles and combustible liquids.*

Following the article "Arsenic, white solid" add: "Arsenical compounds or mixtures, "Pols. B." "Poison" N. O. S., liquid"

Delete: "Charcoal, animal." "Inf. S."

Delete: "Charcoal, bone." "Inf. S."

Following the article "Ethyl chloride" add: "Ethyl formate" "Inf. L." "Red"

Following the article "Guanyl nitrosamino guanyl tetrazene" add: "Guanidine nitrate" "Inf. S." "Yellow"

Following the article "Monochloroacetone" add: "Monochlorodifluoromethane" "Noninf. G." "Green" "Monochlorotetrafluoroethane" "Noninf. G." "Green"

Following the article "Nitro-carbo nitrate" add: "nitrocellulose colloided, granular or flake-wet with an inflammable liquid" "Inf. L." "Red"

Following the article "Potassium nitrate (see: "Nitrates")" add: "Potassium nitrite" "Oxy. M." "Yellow"

Following the article "Waxes, liquid" add: "Wet nitrocellulose (30% inflammable liquid) (see: "Nitrocellulose, wet with an inflammable liquid")" "Wet nitrocellulose (20% water) (see: "Nitrocellulose, wet with water")"

§ 146.20–50 *Stowage and storage chart of explosives and other dangerous articles.*

In both the horizontal and vertical columns following the description "Ammunition for cannon with explosive projectiles, gas projectiles, smoke projectiles or incendiary projectiles, ammunition for small arms with explosive bullets" add: "(4)".

In the same columns following the description "Explosive projectiles, bombs, torpedoes, or mines, rifle or hand grenades (explosive)" add: "(4)".

To the footnote add: "4 Projectiles, bombs, grenades, or other forms of ammunition containing incendiary charges, either with or without bursting charges, must not be stowed with any dangerous explosives, Class A, or less dangerous explosives, Class B".

§ 146.20–100 *Table B—Class B: Less dangerous explosives.*

Article: "Fireworks (Railway torpedoes—track torpedoes)" In columns 4, 5, 6 and 7 under "Outside containers" and following "Wooden boxes" add: "Fiberboard boxes, WIC (ICC–12B) not over 65 lbs. gr. wt".

Article: "Smokeless powder for cannon". In column 4 under "Outside containers" and following "Metal kegs" add: "Wooden boxes, (ICC–15A) Lined (ICC–2L)".

§ 146.21–14 *Limited quantity shipments.* Amend paragraph (a) to read:

(a) Inflammable liquids, except carbon bisulfide (disulfide), ethyl chloride, ethylene oxide, nickel carbonyl, spirits of nitroglycerin in excess of 1% by weight, and zinc ethyl, when packed in inside glass or earthenware containers not over 1 pint or 16 ounces by weight each, or inside metal containers not over 1 quart capacity each, packed in strong outside containers, except as otherwise provided, are exempt from specification packaging, marking other than name of contents, and labeling requirements.

§ 146.21–15 *Limited quantity shipments of paint products.* Amend paragraph (a) to read:

(a) Paint, enamel, lacquer, stain, shellac, varnish, aluminum, bronze, gold, wood filler, liquid, and lacquer base liquid, and thinning, reducing and removing compounds therefor, and driers, liquid, therefor, when packed in inside glass or earthenware containers of not over 1 quart capacity each, or metal containers not over 5 gallons capacity each, and packed in strong outside containers are exempt from specification packaging, marking other than name of contents, and labeling requirements.

Add a new section as follows:

§ 146.21–16 *Limited quantity shipments of polishes.* (a) Polishes, metal, stove, furniture and wood, liquid, when packed in inside glass or earthenware containers of not over 1 quart capacity each, or metal containers not over 5 gallons capacity each, and packed in strong outside containers are exempt from specification packaging, marking other than name of contents, and labeling requirements.

(b) Such shipments may be accepted on board all vessels subject to these regulations, provided the bill of lading or other shipping paper correctly describes the article in accordance with the true name as shown in the commodity list. Stowage shall be "on deck under cover" or "Tween decks" in a compartment not subject to artificial heat.

§ 146.21–100 *Table D—Classification: Inflammable liquids.*

Following the article "Ethyl chloride", in column 1 add: "Ethyl formate".

In column 2 add:

Colorless, inflammable liquid, soluble in water. Flash point about 10° F. Vapors when mixed with air are explosive over a range of 3.5 to 16.5%. Vapors are about 2½ times heavier than air. Boiling point 130° F. Keep cool.

In column 3 add: "Red".

In column 4 add:

"Stowage: On deck protected. On deck under cover. 'Tween decks readily accessible.

"Outside containers: Steel barrels or drums: (ICC–5, 5A, 5B, 5C, 5G) not over 110 gal. cap. (ICC–17C) STC, not over 55 gal. cap. (ICC–17E) not over 5 gal. cap.

"Aluminum barrels or drums: (ICC–42B, 42C) not over 110 gal cap.

"Wooden barrels or kegs: (ICC–10A) not over 50 gal. cap. (ICC–11A, 11B) WIC not over 16 gal. cap.

"Wooden boxes WIC (ICC–15A, 15B, 15C, 16A, 19A) not over 16 gal. cap.

"Fiberboard boxes, WIC (ICC–12B) not over 65 lbs. gr. wt.

"Fiber drums, (ICC–21A) with single inside container not over 1 gal. cap.

"Cylinders as prescribed for any compressed gas, except acetylene".

In columns 5, 6 and 7 add: "Not permitted".

§ 146.21–100 *Table D—Classification: Inflammable liquids.*

To the article "Nitrocellulose, wet with an inflammable liquid", in column 1 between the second and third paragraph add: "Nitrocellulose colloided, granular or flake—wet with 20% alcohol or solvent".

§ 146.22–8 *Limited quantity shipments.* Amend paragraph (a) to read:

(a) Inflammable solids and oxidizing materials when packed in inside containers of not over 1 pound net weight each, and packed in outside containers not exceeding 25 pounds net weight each, are exempt from specification packaging, marking other than name of contents, and labeling requirements, unless otherwise provided by the regulations in this part.

Amend paragraph (b) to read:

(b) Inflammable solids and oxidizing materials total weight not over 16 ounces in any outside package, unless otherwise provided by the regulations in this part, are exempt from specification packaging, marking other than name of contents, and labeling requirements.

§ 146.22–100 *Table E.—Classification: Inflammable solids and oxidizing materials.*

Article: "Charcoal, animal", "Charcoal, bone".

[1] 6 F R. 254, 303, 371, 424, 462, 490.

In column 1 delete: "Charcoal, animal". "Charcoal, bone".

In column 2 delete: "*These charcoals are the products of animal blood or animal bone*".

In column 3 delete: "No label required".

Article: "Matches, book", "Matches card", "Matches, strike-on-box".

In columns 4, 5, 6 and 7, amend text to read: "Matches, strike-on-box, book and card, in outside fiberboard or wooden boxes, or matches strike-on-box, book and card when packed with noninflammable articles provided they are included in a tightly closed cardboard or fiberboard container, or are securely wrapped and packed so as to prevent accidental ignition, before being placed in the outside containers, are exempt from specification packaging, marking other than name of contents, and labeling requirements".

Article: "Motion-picture film (cellulose acetate base)".

In column 2 add: "Outside containers shall be marked with the descriptive name of contents".

Article: "Motion-picture film, old and worn out (cellulose acetate base)".

In column 1 add: "Motion-picture film, scrap (cellulose acetate base)".

In column 2 delete: "(*not scrap*)" and add in lieu thereof "(*including scrap*)".

In column 2 add: "Outside containers shall be marked with descriptive name of contents".

Article: "Motion-picture film, toy".

In column 2 add: "Outside containers shall be marked with descriptive name of contents".

Article: "Motion-picture film, toy, standard width".

In column 1 amend to read: "Motion-picture film, toy, standard with (*nitrocellulose base*). "Each reel shall be in a tightly closed metal can".

Article: "*Nitrates*".

In column 2 opposite "*Nitrates*" add: "All outside containers of nitrates shall be marked with the appropriate descriptive name of the nitrate packed within the container".

Article: "*Nitrates*".

In column 1 following "Calcium nitrate" add: "Guanidine nitrate".

In column 2 add: "*Colorless crystals or fine granular powder. Moderately soluble in water.* Stow separate from all combustible materials, explosives or acids (white label)".

In column 3 add: "No label required".

Following the article "Zinc nitrate" in column 1 add: "*Nitrites*": "Potassium nitrite".

In column 2 add: "*White or slightly yellow granules or rods. Decomposed in contact with acids evolving brown fumes of nitrous anhydride. Involved in a fire will intensify the burning of all combustible materials.* Stow separate from all combustible materials, explosives, inflammable liquids or acids (white label). Carefully clean and remove all residue of nitrite remaining in a compartment used for the stowage of this substance."

In column 3 add: "Yellow".

In columns 4 and 5 add: "Stowage: On deck protected. On deck under cover. Tween decks. Under deck".

In column 6 add: "Ferry stowage (AA)".

In column 7 add: "Ferry stowage (BB)".

In columns 4, 5, 6 and 7 add: "Outside containers: Steel barrels or drums (ICC–6A) not over 55 gal. cap. (ICC–6B, 6C) not over 110 gal. cap. (ICC–17E, 37D, 37E, 37F) STC, not over 55 gal. cap.

"Wooden barrels or kegs (ICC–10A, 10B, 10C) not over 50 gal. cap. (ICC–11A, 11B) WIC, not over 400 lbs. gr. wt.

"Wooden boxes, WIC (ICC–15A, 15B, 15C, 16A, 19A) not over 250 lbs. gr. wt.

"Fiberboard boxes (ICC–12B) WIC, not over 65 lbs. gr. wt.

"Fiber drums (ICC–21A) not over 150 lbs. gr. wt.

"Plywood drums (ICC–22A) (ICC–22B) WIC, not over 150 lbs. gr. wt".

§ 146.23–11 *Limited quantity shipments.* Amend paragraph (a) to read:

(a) Acids and other corrosive liquids in quantity not exceeding 1 pound in bottles, each enclosed in a metal can, and packed in outside containers, are exempt from specification packaging, marking other than name of contents, and labeling requirements unless otherwise provided by the regulations in this part.

Amend § 146.23–12 *Nonspecification export carboys authorized* to read:

§ 146.23–12 *Specification export carboy.* (a) Corrosive liquids for which the specification (ICC–1A) boxed glass carboy is authorized by the provisions of the table in § 146.23–100 may also be offered and accepted for export shipments only, when packed in specification (ICC–1X) boxed glass carboy.

(b) Such export shipments may be accepted for transportation provided the bill of lading or other shipping paper correctly describes the article in accordance with the true name as shown in the commodity list. Stowage shall be as prescribed by the provisions of the table in § 146.23–100 for the particular substance laden within the carboy and applicable for the particular character of vessel upon which its acceptance is permitted.

§ 146.23–100 *Table F—Classification: Corrosive liquids.*

Article: "Batteries, electric storage, wet".

In column 1 amend note to read:

"NOTE: Electric storage batteries, containing electrolyte or corrosive battery fluid of the nonspillable type, protected against short circuits and completely and securely boxed, are exempt from specification packaging, marking other than name of contents, and labeling requirements".

In column 2 add:

"NOTE: Shall be completely protected so that short circuits will be prevented".

"NOTE: Shall not be packed with other articles except electrolyte or corrosive battery fluid, or portable searchlights properly cushioned".

"NOTE: Observe instructions regarding 'This side up' stowage".

In column 3 amend to read:

"White, unless exempt from labeling requirements".

In columns 4, 5, 6 and 7 delete:

"NOTE: Shall be completely protected so that short circuits will be prevented".

"NOTE: Shall not be packed with other articles except electrolyte or corrosive battery fluid, or portable searchlights properly cushioned".

"NOTE: Observe instructions regarding 'This side up' stowage".

In columns 6 and 7 amend provisions governing carload or truckload shipments of electric storage batteries to read: "Carloads or truckload shipments of electric storage batteries containing electrolyte or battery fluid, loaded or braced to prevent damage in transit and short circuits, are exempt from specification packaging, marking other than name of contents, and labeling requirements".

In columns 4 and 5 under "Outside containers" add:

"Wooden boxes (Non-specification) completely closed, having cleated ends, and two skids of at least 3" x 3" size attached to the bottom of the box".

"Wooden or metal trays (Non-specification). Carload or truckload shipments of electric storage batteries permitted by regulations to be shipped without being packed in an outside container, shall when stowed on board a vessel be packed in wooden or metal trays so constructed as to protect the batteries from damage, short circuit or from the weight of imposed stowage resting upon the batteries".

§ 146.24–100 *Table G—Classification: Compressed gases.*

Following the article "Methyl chloride" in column 1 add: "Monochlorodifluoromethane". "Monochlorotetrafluoroethane".

In column 2 add: "*Non-inflammable gas. Non-poisonous, but excessive quantities in an enclosed space may cause suffocation. Odorless. Very much heavier than air. Decomposes when passed through flames, evolving hydrochloric and hydrofluoric acid fumes*".

In column 3 add: "Green gas".

In column 4 add: "Stowage: On deck protected. On deck under cover. Tween decks readily accessible. Under deck away from heat".

"Containers: Cylinders: (With valve protection cap.) (With dished heads.) (Boxed.) Tank cars (ICC–106A–500). Tanks (ICC–106A–500)".

In column 5 add:

"Stowage: On deck protected. On deck under cover. Tween decks readily accessible. Cargo hatch trunkway".

"Containers: Cylinders: (With valve protection cap.) (With dished heads.) (Boxed.) Tanks (ICC–106A–500)".

In column 6 add: "Ferry stowage (AA)".

"Containers: Cylinders: (With valve protection cap.) (With dished heads.) (Boxed.) Tanks (ICC–106A–500)".

In column 7 add: "Ferry stowage (BB)".

"Containers: Cylinders: Tank cars (ICC–106A–500). Tanks (ICC–106A–500)".

§ 146.25–10 *Limited quantity shipments.* Amend the first paragraph of paragraph (a) to read:

(a) Poisonous liquids, Class B, as defined herein, except hydrocyanic acid solutions, methyl bromide, motor fuel antiknock compound, phenyldichlorarsine and tetraethyl lead in tightly closed inside containers securely cushioned when necessary to prevent breakage and packed as follows are exempt from specification packaging, marking other than name of contents, and labeling requirements.

Amend the first paragraph of paragraph (b) to read:

(b) Poisonous solids, Class B, except cyanides, as described in (c), in tightly closed inside containers, securely cushioned when necessary to prevent breakage and packed as follows, are exempt from specification packaging, marking other than name of contents, and labeling requirements.

Amend subparagraph (b) (2) to read:

(2) In inside chipboard, pasteboard or fiber cartons, cans, or boxes, of not over 5 pounds capacity each, packed in outside fiberboard or wooden boxes. No more than 5 of these cartons shall be packed in any outside container.

Amend the first paragraph of paragraph (c) to read:

(c) Cyanides, when packed and described as follows, are exempt from specification packaging, marking other than name of contents, and labeling requirements.

§ 146.25–100 *Table H—Class B: Less dangerous poisons.*

Article: "Arsenical compounds or mixtures, N. O. S., solid".

In columns 4, 5, 6 and 7 under "Outside containers" amend "Triplex bags" to read: "Triplex bags (ICC–36A, 36B). Authorized only for arsenical insecticides and fungicides containing 10.0 per cent or less of arsenic trioxide (As_2O_3)".

Following the article "Arsenous and mercuric iodide solution, liquid", in column 1 add: "Arsenical compounds or mixtures, N. O. S., liquid".

In column 2 add: "*These substances are in the form of liquids or liquid pastes. Poisonous if taken internally. Will contaminate foodstuffs.* Stow away from living quarters and foodstuffs. Do not stow with acids (white label)".

In column 3 add: "Poison".

Article: "Cyanides, dry". "Cyanide mixtures, dry".

In columns 4, 5, 6 and 7 add: "Bags (cloth and paper, lined) (ICC–45B) for sodium cyanides of globular or pellet form. Not over 100 lbs. net wt."

In column 4 only, add: "Bulk. In airtight railroad cars". "Bulk. In airtight metal-body covered motor vehicles".

§ 146.25–100 *Table N—Class C: Tear gas or irritating substances.*

Article: "Monochloracetone, stabilized".

In column 4 under "Outside containers" add: "Wooden boxes (ICC–15A, 15B, 15C, 16A) WIC. Not over 24 lbs. net wt. of liquid".

Article: "Police grenades, tear gas".

In columns 4, 5, 6 and 7 under "Outside containers" add: "Metal drums (ICC–37D) not more than 24 grenades and not over 75 lbs. gr. wt."

Add two sections to Part 146 of the regulations as follows:

Temporary Amendments to Regulations

§ 146.28–1 *Scope.* The regulations contained in the sections under the heading "Temporary Amendments to Regulations" are supplementary and amendatory to the regulations in Part 146 and are effective for the duration of the present war, except as hereafter modified or rescinded.

§ 146.28–2. *Reused single-trip containers.* Notwithstanding the provisions of § 146.05–10 (h), single-trip containers may for the duration of the present war be reused if retested and approved for service in accordance with the regulations of the Interstate Commerce Commission in effect at the time of shipment. IN THE MATTER OF THE UNITED LIGHT AND POWER COMPANY, THE UNITED LIGHT AND RAILWAYS COMPANY, AMERICAN LIGHT & TRACTION COMPANY, CONTINENTAL GAS & ELECTRIC CORPORATION, AND IOWA-NEBRASKA LIGHT AND POWER COMPANY, RESPONDENTS; THE UNITED LIGHT AND POWER COMPANY AND ITS SUBSIDIARY COMPANIES, RESPONDENTS; AND THE UNITED LIGHT AND POWER COMPANY, APPLICANT

NOTICE OF FILING OF RESPONDENTS' APPLICATION NO. 9 AND ORDER RECONVENING HEARING FOR PURPOSE OF CONSIDERING SAID APPLICATION NO. 9

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 17th day of February 1942.

The Commission having previously, by order entered in these proceedings on March 20, 1941, ordered among other things the dissolution of The United Light and Power Company; and the Commission having also by order entered in these proceedings on August 5, 1941 ordered among other things the disposition of various properties and assets pursuant to section 11 (b) (1) of the Public Utility Holding Company Act of 1935, and said order having provided that the respondents should make application to the Commission for the entry of such further orders as were necessary or appropriate for that purpose, and the Commission having reserved jurisdiction to enter such further orders as might be necessary or appropriate with respect to other matters in this proceeding;

Notice is hereby given that Continental Gas & Electric Corporation, (Continental) a registered holding company and a subsidiary of The United Light and Power Company, and Eastern Kansas Utilities, Inc., a newly organized Kansas corporation (Eastern Kansas), have filed, on February 12, 1942, an application designated as "Application No. 9" pursuant to sections 6, 7, 9, 10, 11, and 12 of the Act and Rule U-50 and any other applicable sections of the Act or Rules thereunder with respect to various proposed transactions hereinafter summarized as follows:

Continental has entered into a written agreement with The Kansas Utilities Company, a subsidiary of Community Power and Light Company, a registered holding company, whereby Continental agreed to purchase, subject to the approval of the State Corporation Commission of Kansas and of this Commission the property and assets of The Kansas Utilities Company, for the consideration of $2,300,000 subject to adjustments of the purchase price for the net current assets less cash, of the seller. Continental does not propose to acquire such utility assets and other property directly, but proposes that Eastern Kansas, which was organized by Continental, acquire such utility assets and other property and that Eastern Kansas secure the necessary funds for such acquisition through the subscription and purchase by Continental of not to exceed $1,500,000 of the common stock of Eastern Kansas and the issuance and private sale of $1,000,000 principal amount of first mortgage bonds by Eastern Kansas in order to raise the balance of said purchase price.

The detailed transactions are more particularly summarized and set forth as follows:

(1) Eastern Kansas, which now has a capitalization of 15,000 shares of authorized but unissued common stock, par value $100 per share, proposes to issue and Continental proposes to acquire for cash such 15,000 shares of common stock. In connection therewith Continental proposes to assign to Eastern Kansas all of its rights in, and Eastern Kansas proposes to assume all of Continental's obligations under, the existing agreement between Continental and The Kansas Utilities Company covering the sale of the latter company's property and assets. The $1,500,000 received by Eastern Kansas for its stock will be used to pay in part for the property and assets of The Kansas Utilities Company to be acquired under the contract assigned to it by Continental.

(2) Eastern Kansas proposes to acquire all of the property and assets, except cash, of The Kansas Utilities Company, consisting principally of facilities for the generation, transmission, and distribution of electric energy in the counties of Allen, Anderson, Bourbon, Coffey, Linn, Miami, Neosho, and Woodson in southeastern Kansas. The acquisition will also include certain nonutility properties, consisting of an ice making plant in Chanute, Kansas, a refrigerating storage plant in Burlington, Kansas, and a steam heating system in Fort Scott, Kansas. The consideration for such acquisition is $2,300,000 in cash plus such further sum as shall represent the net current assets of The Kansas Utilities Company.

(3) In order to provide the additional funds necessary to purchase the property and assets of The Kansas Utilities Company and to provide working capital, Eastern Kansas proposes to issue and sell privately to The Northwestern Mutual Life Insurance Company, at a price of 101 plus accrued interest to date of purchase, $1,000,000 principal amount of First Mortgage 3½% Bonds, to be dated March 1, 1942, maturing March 1, 1967, secured by a First Mortgage on all of the fixed property to be acquired from The Kansas Utilities Company, and all other fixed property then or thereafter acquired by it, excluding certain classes of nonutility properties.

Eastern Kansas has further requested that the Commission's order approve the issuance and sale of the aforementioned bonds exempt from the competitive bidding requirements of Rule U-50; and

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that the hearings herein be reconvened for the purpose of considering said Application No. 9;

It is ordered, That the hearing in this proceeding shall be reconvened at the office of the Securities and Exchange Commission, 1778 Pennsylvania Avenue NW., Washington, D. C., in such room as may be designated on such date by the Hearing Room Clerk in Room 1102, at 10:00 A. M. on the 10th day of March 1942. All persons desiring to be heard or otherwise wishing to participate in the proceedings should notify the Commission in the manner provided by our Rules of Practice, Rule XVII, on or before March 7, 1942. At said reconvened hearing on that day the issues will be limited to a consideration of the matters presented by said Application No. 9 with respect to all of the various transactions previously summarized above.

All interested persons are referred to said Application No. 9 which is on file in the office of said Commission for a full statement of the transactions therein proposed.

It is further ordered, That James G. Ewell or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matters. The officer so designated to preside at such hearing is hereby authorized to assert all powers granted to the Commission under section 18 (c) of the Act and to the trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of issues presented by said application, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the consideration, including all fees, commissions and other remuneration, to whomsoever paid for the acquisition of securities or utility assets is not reasonable or does not bear a fair relation to the sums invested in or the earning capacity of the utility assets to be acquired or the utility assets underlying the securities to be acquired;

(2) Whether such transfers or acquisitions of securities will unduly complicate the capital structure of the

holding company system or will be detrimental to the public interest or the interest of investors or consumers or the proper functioning of such holding company system;

(3) Whether the utility properties to be acquired constitute an integrated electric system or systems, or will, when acquired, constitute part of an integrated public utilities system already directly or indirectly owned and operated by Continental;

(4) Whether the ice making plant, the refrigerating storage plant and the steam heating plant proposed to be acquired are reasonably incidental or necessary or appropriate to the operation of Eastern Kansas or such other integrated public utility system of which it may be deemed to be a part, and not detrimental to the utility properties to be operated by Eastern Kansas or such integrated public utility system of which it may be deemed to be a part;

(5) Whether the proposed security structure of Eastern Kansas complies with the applicable sections of the Act;

(6) Whether the terms and conditions of the acquisition of the securities of Eastern Kansas by Continental are consistent with and meet the applicable standards of the Act;

(7) Whether the issue and sale of bonds by Eastern Kansas are consistent with and meet the applicable standards of the Act;

(8) Whether the proposed transactions as outlined in Application No. 9 meet the standards of the section 11 (b) (1) and Section 11 (b) (2) proceedings instituted by the Commission;

(9) Whether compliance with Paragraphs (b) and (c) of Rule U-50 with respect to the issuance and sale of the First Mortgage Bonds of Eastern Kansas is not appropriate to aid the Commission (in carrying out the provisions of Section 7 of the Act) to determine whether the fees, commissions, or other remuneration to be paid directly or indirectly in connection with the issue, sale or distribution of such securities are reasonable, or whether any term or condition of such issue or sale is detrimental to the public interest or the interests of investors or consumers.

(10) In the event the Commission finds the proposed transactions appropriate, what terms and conditions, if any, seem necessary and desirable to be imposed on such transactions.

(11) Whether any particular aspect of the remaining transactions enumerated in Application No. 9 are not in compliance with the applicable provisions of said Act or consistent with the requirements of the orders of March 20, 1941, and August 5, 1941.

Notice of such hearing is hereby given to such declarants or applicants and to any other person whose participation in such proceeding may be in the public interest and for the protection of investors and consumers.

Notice is further given that Eastern Kansas Utilities, Inc. has requested that it be made a party to this proceeding to the extent necessary to entitle it to join in this application and to secure authority of the Commission in this proceeding to consummate the afore-described transactions in which they have an interest.

It is further ordered, That the Secretary of this Commission serve notice of the entry of this order by mailing a copy thereof by registered mail to the respondents and applicants and that notice shall be given to all other persons by publication thereof in the FEDERAL REGISTER.

By the Commission.

EXECUTIVE ORDER

AUTHORIZING THE CIVIL SERVICE COMMISSION TO ADOPT SPECIAL PROCEDURES RELATING TO RECRUITMENT, PLACEMENT, AND CHANGES IN STATUS OF PERSONNEL FOR THE FEDERAL SERVICE

WHEREAS millions of the citizens of this country are engaged in war industries or have been or expect to be called to duty with the armed forces of the United States, which militates against their competing for employment in the Federal service, and greatly diminishes the number of persons available for competitive positions in the Federal service; and

WHEREAS it is essential that there be no delay during the present emergency in filling positions in the Federal service with qualified persons:

NOW, THEREFORE, by virtue of the authority vested in me by section 2 of the Civil Service Act (22 Stat. 404), it is hereby ordered as follows:

1. The United States Civil Service Commission is authorized to adopt and prescribe such special procedures and regulations as it may determine to be necessary in connection with the recruitment, placement, and changes in status of personnel for all departments, independent establishments, and other Federal agencies, except positions in the field service of the postal establishment. The procedures and regulations thus adopted and prescribed shall be binding with respect to all positions affected thereby which are subject to the provisions of the Civil Service Act and Rules.

2. Persons appointed solely by reason of any special procedures adopted under authority of this order to positions subject to the provisions of the Civil Service Act and Rules shall not thereby acquire a classified (competitive) civil-service status, but, in the discretion of the Civil Service Commission, may be retained for the duration of the war and for six months thereafter.

Rules, Regulations, Orders

TITLE 6—AGRICULTURAL CREDIT

CHAPTER I—FARM CREDIT ADMINISTRATION

PART 19—FEES

ADDITIONAL-LOAN FEES

Section 19.4009 of Title 6, Code of Federal Regulations, is amended to read as follows:

§ 19.4009 *Additional-loan fees.* For the purposes of this section, the term "additional loan" shall be construed (a) to apply to any transaction which may, or does, result in additional funds being loaned wholly or partially on property that is security for a loan on which the applicant, at the time his application is filed, is the borrower from the Federal land bank, the Land Bank Commissioner, or both; and (b) to include any new funds, plus any delinquent principal, interest, and other items due and unpaid under the outstanding land bank loan, Land Bank Commissioner loan, or both, which, under the procedure of the bank, are included in the face amount of the new note or notes. This construction shall be applicable whether the transaction is completed by way of a supplemental loan or a rewriting of the outstanding land bank loan, Land Bank Commissioner loan, or both, and whether the outstanding land bank loan was closed through the association accepting the application or not. Whenever an additional loan is applied for, the provisions of §§ 19.4005–19.4007, and the last sentence of § 19.4008, shall apply, except that, in such cases, the maximum association application fee which may be collected in accordance with § 19.4005 shall be based on the amount of the additional loan applied for, and the maximum additional association application fee which may be collected in accordance with § 19.4007 shall be based upon the amount of the additional loan tentatively approved by the bank. When an additional loan is closed by the bank, the association may collect a maximum closed loan fee in an amount which, when added to the association application fees already collected, will not exceed 1 percent of the amount of the additional loan closed. (Sec. 11 "Third", 39 Stat. 369, as amended, sec. 17 (d), 39 Stat. 375; 12 U.S.C. 761 "Third", 831 (d))

Section 19.4022 of Title 6, Code of Federal Regulations, is amended to read as follows:

§ 19.4022 *Additional-loan fees.* The definition of an "additional loan" set forth in § 19.4009 shall apply to the term as used in this section. The application fee in connection with an additional loan shall not exceed an amount computed in accordance with approved schedules on the amount of the additional loan applied for. The balance of the bank's appraisal and title determination fees and the bank's direct-loan closed loan fees in such cases shall not exceed an amount computed in accordance with approved schedules on the amount of the additional loan closed. On Land Bank Commissioner additional loans made by way of a supplemental loan or by rewriting of the old loan the bank should charge the borrowers fees computed on the same basis as that adopted by the bank for computing fees in connection with additional land bank loans. (Secs. 13 "Ninth", 17 (d), 39 Stat. 372, 375, sec. 26, 48 Stat. 44, sec. 32, 48 Stat. 48, as amended; 12 U.S.C. 781 "Ninth", 831 (d), 723 (c), 1016 (e) and Supp.

TITLE 14—CIVIL AVIATION

CHAPTER I—CIVIL AERONAUTICS BOARD

[Amendments 60-55, 60-56, Civil Air Regulations]

PART 60—AIR TRAFFIC RULES

FLIGHT IN RANGE APPROACH CHANNELS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 10th day of February, 1942.

Acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 601 of said Act, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under, said Act, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective February 10, 1942, Part 60 of the Civil Air Regulations is amended as follows:

1. By amending § 60.115 to read as follows:

§ 60.115 *Range approach channel.* A range approach channel is the airspace above the ground or water below 17,000 feet above sea level located within 2 miles of either side of the center of the on course signal of any leg or legs designated by the Administrator of a radio range station serving a control airport, and extending along such leg or legs from such radio range station for a distance of 15 miles: *Provided,* That such range approach channels may be modified or extended by the Administrator when he deems it necessary in the interests of safety.

2. By adding immediately following § 60.38 a new § 60.39 to read as follows:

§ 60.39 *Flight in range approach channel.* Unless on an approved flight plan, no person shall fly an aircraft within the limits of a range approach channel above 1,500 feet over the surface of the earth except to enter such channel on the right side as determined by the proposed direction of flight along such channel and then to continue along the right side of such channel in normal cruising flight. No person shall fly an aircraft below 1,500 feet above the surface of the earth in such channel except to cross such channel at an angle of not less than 45° in normal cruising attitude: *Provided,* That a pilot taking off from or landing at a designated landing area located within a range approach channel may perform such maneuvers below 1,500 feet as are necessary to effect a normal take-off therefrom or a normal approach and landing thereon, as the case may be.

§ 60.391 *Flight within local flying areas adjacent to a control airport.* The Administrator may designate flight zones for specific purposes within the local flying area, as defined in § 60.95, adjacent to any control airport. Thereafter, within such local flying area, no person shall make a flight of a type for which a zone has been set apart, except within such zone.

PART 60—AIR TRAFFIC RULES

AIRCRAFT TO CONFORM TO AIRPORT TRAFFIC PATTERN

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 10th day of February, 1942.

Acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 601 of said Act, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under, said Act, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective February 10, 1942, Part 60 of the Civil Air Regulations is amended as follows:

By amending § 60.3303 to read as follows:

§ 60.3303 Aircraft in contact flight within three miles horizontally of the center of an airport or other landing area shall conform to the circle rule provided in § 60.3301 unless flying at an altitude in excess of 1,500 feet above such airport or other landing area.

PART 202[1]—ACCOUNTS, RECORDS AND REPORTS

AMENDMENT OF ECONOMIC REGULATIONS—PRESERVATION OF ACCOUNTS, RECORDS AND MEMORANDA OF AIR CARRIERS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 12th day of February, 1942.

The Civil Aeronautics Board, acting pursuant to the Civil Aeronautics Act of 1938, particularly sections 205 (a) and 407 (d) thereof, and deeming its action necessary to carry out the provisions of said Act and to exercise its powers and perform its duties thereunder, hereby makes and promulgates the following Regulation:

§ 202.3 *Preservation of accounts, records, and memoranda of air carriers.* (a) All air carriers shall preserve the acounts, records, and memoranda designated in the Schedule Governing Preservation of Acounts, Records, and Memoranda of Air Carriers issued by the Civil Aeronautics Board, dated March 1, 1942, and such amendments thereto as may be hereafter prescribed by the Board (hereinafter referred to as the "Schedule"), for the length of time prescribed in such Schedule: *Provided,* That voluminous detailed records, such as material requisitions and issues, and time and labor distribution cards, may be photographed and the films kept in lieu of the original documents for the respective periods prescribed therefor. This proviso shall not apply to cash and journal vouchers and similar important documents, although it shall apply to the details in suport thereof. The provisions of this section shall apply to all accounts, records and memoranda which come into the possession of an air carrier in connection with the acquisition of property by consolidation, merger, or otherwise. The preservation of duplicate accounts, records, and memoranda shall be optional with each air carrier.

(b) All accounts, records, and memoranda required to be preserved for a specified period of time prescribed in the Schedule may, unless hereafter otherwise ordered by the Board, be destroyed upon the termination of such period in the manner elected by each air carrier. All other accounts, records, and memoranda may, unless hereafter otherwise ordered by the Board, be destroyed at any time at the option of each air carrier. Supervision over the destruction of accounts, records, and memoranda of each air carrier shall be vested in an officer of such carrier who shall keep a permanent record, by classes and gen-

eral description as specified in the Schedule of all accounts, records, and memoranda destroyed, together with the respective dates of destruction.

(c) If any accounts, records, and memoranda specified in the Schedule are destroyed accidentally by fire, flood or other casualty, the air carrier shall prepare and file as soon as possible with the Civil Aeronautics Board a statement identifying the accounts, records, and memoranda so destroyed, classified in accordance with the provisions of such Schedule, and describing the circumstances of destruction.

(d) This section shall not be construed as excusing compliance with any other lawful requirements for the preservation of accounts, records, or memoranda for longer periods than those herein prescribed.

(e) This section shall become effective March 1, 1942. (Sec. 205 (a), 52 Stat. 984, sec. 407d, 52 Stat. 1000; 49 U.S.C. 425a, 487d)

TITLE 21—HOUSING CREDIT

CHAPTER IV—HOME OWNERS' LOAN CORPORATION

[Administrative Order No. 3-321]

PART 402—LOAN SERVICE DIVISION

INSURANCE

Section 402.25-13 [1] is amended to read as follows:

§ 402.25-13 *Expired insurance policies.* All expired insurance policies held by the Insurance Section for account of home owners shall be destroyed, or otherwise disposed of, after 4 months following expiration, except where expired policies are delivered to the home owners, the signing local insurance agent, or the insurance company, upon request made by any of the aforesaid parties prior to the expiration of the 4 months' period. Such policies shall be destroyed in the presence of a representative of the Corporation who shall certify as to their destruction, or, if they are to be otherwise disposed of, the Regional Manager shall cause them to be mutilated so as to prevent their use in the making of expiration lists or the procuring of other pertinent data by unauthorized persons.

(Effective March 1, 1942)

(Above procedure promulgated by the General Manager and General Counsel pursuant to authority vested in them by the Federal Home Loan Bank Board acting pursuant to Secs. 4 (a) and 4 (k) of Home Owners' Loan Act of 1933, 48 Stat. 129, 132, as amended by sections 1 and 13 of the Act of April 27, 1934, 48 Stat. 643 and 647; 12 U.S.C. 1463 (a), (k).)

[SEC. 3540. TAX ON USE OF MOTOR VEHICLES AND BOATS.]

(b) *Definitions.* For the purposes of this section—

(1) The term "year" means the year beginning July 1.

(2) The term "motor vehicle" means all motor vehicles of the kind chiefly used for highway transportation.

(3) The term "boat" means all boats propelled by machinery, sail, or both, measuring sixteen feet or more in over-all length, owned by a citizen or resident of the United States. Such term does not include boats used chiefly for trade, or commercial fishing, or boats used without profit by any benevolent, charitable, or religious organization exclusively for furnishing aid, comfort, or relief to seamen, or boats used by the sea scouts department of the Boy Scouts of America chiefly for training scouts in seamanship.

(4) The term "use" in the case of the use of a motor vehicle means use on the public highways.

SEC. 3797. DEFINITIONS.

(a) When used in this title, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof—

(1) *Person.* The term "person" shall be construed to mean and include an individual, a trust, estate, partnership, company, or corporation.

(2) *Partnership and partner.* The term "partnership" includes a syndicate, group, pool, joint venture, or other unincorporated organization, through or by means of which any business, financial operation, or venture is carried on, and which is not, within the meaning of this title, a trust or estate or a corporation; and the term "partner" includes a member in such a syndicate, group, pool, joint venture, or organization.

(3) *Corporation.* The term "corporation" includes associations, joint-stock companies, and insurance companies.

* * * * *

(9) *United States.* The term "United States" when used in a geographical sense includes only the States, the Territories of Alaska and Hawaii, and the District of Columbia.

(10) *State.* The word "State" shall be construed to include the Territories and the District of Columbia, where such construction is necessary to carry out provisions of this title.

(11) *Secretary.* The term "Secretary" means the Secretary of the Treasury.

(12) *Commissioner.* The term "Commissioner" means the Commissioner of Internal Revenue.

(13) *Collector.* The term "collector" means collector of internal revenue.

(14) *Taxpayer.* The term "taxpayer" means any person subject to a tax imposed by this title.

* * * * *

(b) *Includes and including.* The term "includes" and "including" when used in a definition contained in this title shall not be deemed to exclude other things otherwise within the meaning of the term defined.

§ 322.1 *Meaning of terms.* As used in the regulations in this part the terms defined in the applicable provisions of law shall have the meanings so assigned to them.*

Subpart C General Provisions

TAX ON THE USE OF MOTOR VEHICLES AND BOATS

SEC. 3540. TAX ON USE OF MOTOR VEHICLES AND BOATS.

(a) *Imposition of tax.* There shall be imposed upon the use of motor vehicles and boats a tax, with respect to each year in which such use occurs, at the following rates:

(1) Motor vehicles—$5.

(2) Boats—

Over-all length 16 feet or over but not over 28 feet, $5.

Over-all length over 28 feet but not over 50 feet, $10.

Over-all length over 50 feet but not over 100 feet, $40.

Over-all length over 100 feet but not over 150 feet, $100.

Over-all length over 150 feet but not over 200 feet, $150.

Over-all length over 200 feet, $200.

Such tax, in the case of a motor vehicle, shall be paid by the person in whose name the motor vehicle is, or is required to be, registered under the law of the State, Territory, or the District of Columbia in which such motor vehicle is, or is required to be, registered. Such tax, in the case of a boat, shall be paid by the owner of the boat. The tax imposed by this section shall not apply to any use before February 1, 1942, and use before such date shall not be considered to be use within the meaning of this section.

* * * * *

(c) *Proration of tax.* If in any year the first use of the motor vehicle or boat is after July 31 the tax shall be reckoned proportionately from the first day of the month in which such use occurs to and including the 30th day of June following.

(d) *One payment per year.* If the tax imposed by this section is paid with respect to any motor vehicle or boat for any year no further tax shall be imposed for such year with respect to such motor vehicle or boat.

* * * * *

(j) *Exempt uses.* The tax imposed by this section shall not apply to the use of a motor vehicle or boat by the United States, a State, Territory, the District of Columbia, or a political subdivision of any of the foregoing.

§ 322.10 *Effective date of tax.* The tax on the use of motor vehicles and boats imposed by section 3540 of the Internal Revenue Code as added by section 557 of the Revenue Act of 1941, is effective on and after February 1, 1942.*

§ 322.11 *Person liable for tax.* In the case of a motor vehicle liability for the tax is imposed on the person in whose name the motor vehicle is, or is required to be, registered under the law of the State, Territory, or the District of Columbia in which such motor vehicle is, or is required to be, registered.

In the case of a boat liability for the tax is imposed on the owner of the boat.*

§ 322.12 *Motor vehicles and boats subject to tax.* Subject to the exceptions set forth in § 322.14, the tax is imposed upon the use of any motor vehicle (for example, passenger car, bus, truck, motor cycle) of the kind used chiefly for highway transportation, and any boat propelled by machinery, sail, or both, measuring 16 feet or more in over-all length, owned by a citizen or resident of the United States.*

§ 322.13 *Rate and computation of tax.* The rates of tax for each year are as follows:

(a) *Motor vehicles*—$5.

(b) *Boats*—

Over-all length 16 feet or over but not over 28 feet, $5.

Over-all length over 28 feet but not over 50 feet, $10.

Over-all length over 50 feet but not over 100 feet, $40.

Over-all length over 100 feet but not over 150 feet, $100.

Over-all length over 150 feet but not over 200 feet, $150.

Over-all length over 200 feet, $200.

In determining "over-all length" the extreme length of the boat should be used; *i. e.*, from the forward side of the stem outside the planking or plating to the aftermost side of the stern planking or plating, whether above or below the water line. The measurement should be to the outside of any planking or plating extending above the deck, constituting bulwarks, and to the outside of any forecastle deck, quarter-deck, or poop deck extending beyond the main deck. The length should be taken in a straight line excluding any sheer there may be to the deck.

The tax year begins July 1 and ends June 30. The rates given above are for one year's use of a motor vehicle or boat, as the case may be. When the first use of a motor vehicle or boat during the taxable year July 1, 1942 through June 30, 1943 (both dates inclusive), or during any taxable year thereafter, occurs in July of such year, the tax must be paid for the entire taxable year. When the first use

occurs in a month subsequent to July, a proportionate part of the annual tax must be paid. Since the month is not divisible for tax purposes, tax liability is reckoned from the first day of the month in which the use first occurred.

Since the tax becomes effective February 1, 1942, a person incurring liability on the use of a motor vehicle or boat within that month is required to pay with respect to each such motor vehicle or boat 5/12ths of the annual rate.

When the tax has been paid for a particular year with respect to a motor vehicle or boat no further tax is due for such year, even though a change of ownership occurs subsequent to the payment of tax. After the tax has been paid no refund will be made notwithstanding the fact that during some subsequent period of the taxable year the motor vehicle or boat may not be in use. Likewise no refund will be made where the motor vehicle or boat with respect to which the tax was paid is sold or otherwise disposed of before the close of the fiscal year.*

§ 322.14 *Motor vehicles and boats not subject to tax*—(a) *Motor vehicles.* The tax does not apply to:

(1) Motor vehicles not actually used on the public highways. No tax is payable unless the motor vehicle is actually used on the public highway during the taxable year. For example, no tax is payable with respect to motor vehicles in "dead storage". However, at the time such motor vehicles are taken out of storage and used on a public highway tax liability is incurred for the balance of the taxable year, that is, from the first day of the month in which such use occurs to June 30 next following. (See § 322.13)

(2) Motor vehicles not of the kind used chiefly for highway transportation. For example, farm tractors, or motor driven machines designed for use in pulling vehicles or hauling articles around the premises of factories and railway stations. Similarly, trailers or other vehicles having no means of mechanical self-propulsion are not within the scope of the tax.

(3) Motor vehicles used by the United States, a State, Territory, the District of Columbia, or a political subdivision of any of the foregoing.

(b) *Boats.* The tax does not apply to:

(1) Boats not propelled by machinery or sails.

(2) Boats measuring less than sixteen feet in length.

(3) Boats not used during the taxable year.

(4) Boats used chiefly for trade, including boats used chiefly in connection with an activity which constitutes a person's business, occupation, profession or means of livelihood.

(5) Boats used chiefly for commercial fishing.

(6) Boats used without profit by any benevolent, charitable, or religious organization exclusively for furnishing aid, comfort, or relief to seamen.

(7) Boats used by the sea scouts department of the Boy Scouts of America chiefly for training scouts in seamanship.

(8) Boats owned by non-resident aliens.

(9) Boats used by the United States, a State, Territory, the District of Columbia, or a political subdivision of any of the foregoing.*

Subpart D—Administrative and Other General Provisions

[SEC. 3540. TAX ON USE OF MOTOR VEHICLES AND BOATS.]

(e) *Evidence of tax payment.* The payment of the tax imposed by this section shall be evidenced by such suitable stamp, sticker, or tag of such form, which shall be affixed to the motor vehicle or boat in such manner, as the Commissioner, with the approval of the Secretary, may by regulations prescribe.

(f) *Manner of collection.* The place, time, and manner of making payment of the tax, and of furnishing such stamp, sticker, or tag shall be such as may be provided in regulations prescribed by the Commissioner with the approval of the Secretary.

(g) *Cooperation of Post Office Department.* The Commissioner shall furnish to the Postmaster General without prepayment a suitable quantity of stamps, stickers, or tags to be distributed to and kept on sale by postmasters in the United States. The Postmaster General may require each such postmaster to give additional or increased bond as postmaster for the value of the stamps, stickers, or tags furnished to him, and each such postmaster shall deposit the receipts from the sale of such stamps, stickers, or tags to the credit of and render accounts to the Postmaster General at such times and in such form as he may by regulations prescribe. The Postmaster General shall at least once monthly transfer all collections from this source to the Treasury as internal-revenue collections. The Postmaster General is authorized to cooperate to the fullest extent possible with the Commissioner in the sale of such stamps, stickers, or tags and in forwarding to the Commissioner or to the collector of internal revenue such blanks or forms as the Commissioner may determine necessary to the collection of the tax. There are authorized to be appropriated such sums as may be necessary to enable the Secretary of the Treasury to advance from time to time to the Postmaster General such sums as the Postmaster General may show shall be required for the expenses of the Post Office Department in performing in the District of Columbia and elsewhere all services required by this section.

(h) *Sale of stamps by private persons.* If the Commissioner provides for the sale of stamps, stickers, or tags by persons not officers or employees of the United States he may require bond, with sufficient sureties, in a sum to be fixed by the Commissioner, conditioned for the faithful return, whenever required, of all quantities or amounts undisposed of, and for the payment for, all quantities or amounts sold or not remaining on hand. The Commissioner, with the approval of the Secretary, may from time to time make such regulations as he may find necessary to insure the safekeeping or prevention of illegal use of all such stamps, stickers, or tags.

* * * * *

SEC. 3300. ESTABLISHMENT AND ALTERATION.

(a) *Authorization.* The Commissioner, with the approval of the Secretary, may establish and, from time to time, alter or change the form, style, character, material, and device of any stamp, mark, or label used under any provision of the laws relating to internal revenue.

(b) *Application of penalty and forfeiture provisions.* All pains, penalties, fines, and forfeitures provided by law relating to internal revenue stamps shall apply to and have full force and effect in relation to any and all stamps so established by the Commissioner.

* * * * *

§ 322.20 *Tax payment evidenced by stamps.* Payment of tax with respect to the use of a motor vehicle or a boat shall be evidenced by a stamp. Tax shall be paid prior to the use of the motor vehicle or boat.*

§ 322.21 *Purchase of stamps*—(a) *Motor vehicle stamps.* Stamps evidencing the payment of the tax on the use of motor vehicles may be purchased at any post office of the United States or at the office of any collector of internal revenue. At the time the stamp is purchased the taxpayer will be furnished a post card form, Form MV–1. The taxpayer shall fill out this card in accordance with the instructions thereon and shall either mail or deliver it to the collector of internal revenue for the district in which he resides. Care must be taken to see that this card reaches the hands of the collector, as it will serve as the collector's record of tax payment. A separate card, Form MV–1, should be executed with respect to each motor vehicle for which the stamp is purchased.

(b) *Boats.* Every owner of a boat shall, prior to the use thereof, file with the collector of internal revenue for the district in which such person resides, an application on Form 732 (Revised 1941) together with remittance of the correct amount of tax due. A separate application shall be filed with respect to each boat.*

§ 322.22 *Tax stamps to be posted*—(a) *Motor vehicles.* The tax stamp issued to the taxpayer shall be posted on the vehicle for which it was issued in such a manner as to be readily visible for inspection. Where permitted by local law or regulation, the tax stamp shall be posted at such place on the windshield of the vehicle as is designated by local motor vehicle authorities. Where the vehicle has no windshield the tax stamp shall be posted in some appropriate place on the vehicle.

(b) *Boats.* A stamp issued for a boat shall be kept on board the boat during the entire tax year for which it was issued and must be available for inspection at reasonable hours by any internal revenue officer on demand.*

SEC. 3640. ASSESSMENT AUTHORITY.

The Commissioner is authorized and required to make the inquiries, determinations, and assessments of all taxes and penalties imposed by this title, or accruing under any former internal revenue law, where such taxes have not been duly paid by stamp at the time and in the manner provided by law.

§ 322.23 *Assessment of taxes not paid by stamp.* In any case where the taxpayer refuses or fails to make payment, the tax will be assessed. No stamp will be issued for an expired period; the tax in such case will be assessed.*

SEC. 3655. NOTICE AND DEMAND FOR TAX.

(a) *Delivery.* Where it is not otherwise provided, the collector shall in person or by deputy, within ten days after receiving any list of taxes from the Commissioner, give notice to each person liable to pay any taxes stated therein, to be left at his dwelling or usual place of business, or to be sent by mail, stating the amount of such taxes and demanding payment thereof.

(b) *Addition to tax for nonpayment.* If such person does not pay the taxes, within ten days after the service or the sending by mail of such notice, it shall be the duty of the collector or his deputy to collect the said taxes with a penalty of 5 per centum additional upon the amount of taxes, and interest at the rate of 6 per centum per annum from the date of such notice to the date of payment; except that in the case of income, estate or gift taxes, such penalties shall not apply and the interest for nonpayment of tax shall be such as is specifically provided by law with respect to such taxes.

§ 322.24 *Notice and demand for tax; penalty and interest.* Where assessment is made, and payment is not made within 10 days after the issuance of the first notice and demand (Form 17), there will accrue under section 3655, a 5 percent penalty and interest at the rate of 6 percent per annum computed upon the entire assessment from the date of issuance of Form 17 until date of payment.

If a claim for abatement is filed with the collector within 10 days after the date of the issuance of the first notice and demand, the 5 percent penalty does not attach. If the assessment is not paid within 10 days after receipt of notice of rejection of the claim, the 5 percent penalty applies. The filing of the claim does not stay the collection of interest, which continues to run for the full period that intervenes between the date of the first notice and demand and the date of payment.*

SEC. 3660. JEOPARDY ASSESSMENT.

(a) If the Commissioner believes that the collection of any tax (other than income tax, estate tax, and gift tax) under any provision of the internal-revenue laws will be jeopardized by delay, he shall, whether or not the time otherwise prescribed by law for making return and paying such tax has expired, immediately assess such tax (together with all interest and penalties the assessment, of which is provided for by law). Such tax, penalties, and interest shall thereupon become immediately due and payable, and immediate notice and demand shall be made by the collector for the payment thereof. Upon failure or refusal to pay such tax, penalty, and interest, collection thereof by distraint shall be lawful without regard to the period prescribed in section 3690.

(b) The collection of the whole or any part of the amount of such assessment may be stayed by filing with the collector a bond in such amount, not exceeding double the amount as to which the stay is desired, and with such sureties, as the collector deems necessary, conditioned upon the payment of the amount collection of which is stayed, at the time at which, but for this section, such amount would be due.

§ 322.25 *Jeopardy assessment.* Whenever, in the opinion of the collector, it becomes necessary to protect the interests of the Government by effecting immediate collection of tax, the matter shall be promptly reported to the Commissioner by telegram or letter showing the reason therefor. The communication shall state the full name and address of the person involved, the kind and amount of tax due, and the period involved, so that the Commissioner can immediately assess the tax, together with all penalties and interest due. Such tax, penalties, and interest will, upon assessment, become immediately due and payable, and the collector shall without delay, issue a notice and demand for payment thereof in full.

The collection of the whole or any part of the amount of such assessment may be stayed by filing with the collector a bond in such amount, not exceeding double the amount with respect to which the stay is desired, and with such sureties as the collector deems necessary, conditioned upon the payment of the amount, collection of which is stayed, at the time at which such amount would normally be due.

Upon refusal to pay, or failure to pay or give bond, the collector shall proceed immediately to collect the tax, penalty, and interest, by distraint, without regard to the 10-day period after notice and demand prescribed in section 3690.*

SEC. 3304. REDEMPTION OF STAMPS.

(a) *Authorization.* The Commissioner, subject to regulations prescribed by the Secretary, may, upon receipt of satisfactory evidence of the facts, make allowance for or redeem such of the stamps, issued under authority of law, to denote the payment of any internal revenue tax, as may have been spoiled, destroyed, or rendered useless or unfit for the purpose intended, or for which the owner may have no use, or which through mistake may have been improperly or unnecessarily used, or where the rates or duties represented thereby have been excessive in amount, paid in error, or in any manner wrongfully collected.

(b) *Method and conditions of allowance.* Such allowance or redemption may be made, either by giving other stamps in lieu of the stamps so allowed for or redeemed, or by refunding the amount or value to the owner thereof, deducting therefrom, in case of repayment, the percentage, if any, allowed to the purchaser thereof; but no allowance or redemption shall be made in any case until the stamps so spoiled or rendered useless shall have been returned to the Commissioner, or until satisfactory proof has been made showing the reason why the same can not be returned; or, if so required by the said Commissioner, when the person presenting the same can not satisfactorily trace the history of said stamps from their issuance to the presentation of his claim as aforesaid.

(c) *Time for filing claims.* No claim for the redemption of or allowance for stamps shall be allowed unless presented within four years after the purchase of such stamps from the Government.

* * * * *

SEC. 3770 (as amended by section 508 (b), Second Revenue Act of 1940).

AUTHORITY TO MAKE ABATEMENTS, CREDITS, AND REFUNDS

(a) To Taxpayers.

(1) *Assessments and collections generally.* * * * the Commissioner, subject to regulations prescribed by the Secretary, is authorized to remit, refund, and pay back all taxes erroneously or illegally assessed or collected, all penalties collected without authority, and all taxes that appear to be unjustly assessed or excessive in amount, or in any manner wrongfully collected.

* * * * *

SEC. 3313. PERIOD OF LIMITATION UPON REFUNDS AND CREDITS.

All claims for the refunding or crediting of any internal revenue tax alleged to have been erroneously or illegally assessed or collected, or of any penalty alleged to have been collected without authority, or of any sum alleged to have been excessive or in any manner wrongfully collected must * * * be presented to the Commissioner within four years next after the payment of such tax, penalty, or sum. The amount of the refund * * * shall not exceed the portion of the tax, penalty, or sum paid during the four years immediately preceding the filing of the claim, or if no claim was filed, then during the four years immediately preceding the allowance of the refund.

§ 322.26 *Claims.* A claim for the redemption of a stamp issued as evidence of payment of the tax on the use of a motor vehicle or boat must be presented to the collector on Form 843 within four years after the purchase of said stamp from the Government.

Where the tax was paid pursuant to an assessment and not by the issuance of a stamp, a claim for the refund of the amount so paid must be presented within four years next after payment of such tax.

Each claim for redemption or refund shall set forth in detail and under oath each ground upon which the claim is made, and facts sufficient to apprise the Commissioner of the exact basis thereof.*

PENALTIES

[SEC. 3540. TAX ON USE OF MOTOR VEHICLES AND BOATS.]

(i) *Penalties for unlawful use.* Any person liable for the tax under this section who uses or permits the use of the motor vehicle or boat before tax has been paid shall be guilty of a misdemeanor and upon conviction thereof shall be fined not more than $25 or imprisoned for not more than thirty days, or both. Any person who uses or operates a motor vehicle or boat at a time when the stamp, sticker, or tag does not appear on the motor vehicle or boat in the manner provided in the regulations prescribed under subsection (e) or (f) shall be guilty of a misdemeanor and upon conviction thereof shall be fined not more than $25.

SEC. 3733. PENALTIES AND FORFEITURES.

* * * * *

(b) *Fraudulent returns, affidavits, and claims.*

(1) *Assistance in preparation or presentation.* Any person who willfully aids or assists in, or procures, counsels, or advises the preparation or presentation under, or in connection with any matter arising under, the internal revenue laws, of a false or fraudulent return, affidavit, claim, or document, shall (whether or not such falsity or fraud is with the knowledge or consent of the person authorized or required to present such return, affidavit, claim, or document) be guilty of a felony, and, upon conviction thereof, be fined not more than $10,000, or imprisoned for not more than five years, or both, together with the costs of prosecution.

(2) *Person defined.* The term "person" as used in this subsection includes an officer or employee of a corporation or a member or employee of a partnership, who as such officer, employee, or member is under a duty to perform the act in respect of which the violation occurs.

* * * * *

SECTION 35, CRIMINAL CODE OF THE UNITED STATES, AS AMENDED BY THE ACT APPROVED APRIL 4, 1938 (52 STAT., 197).

CHAPTER I—BUREAU OF INTERNAL REVENUE

[T.D 5116]

PART 5—LABELING AND ADVERTISING OF DISTILLED SPIRITS

MODIFICATION OF STANDARD OF IDENTITY FOR NEUTRAL SPIRITS UNDER THE FEDERAL ALCOHOL ADMINISTRATION ACT

1. By virtue of and pursuant to section 5 (e) of the Federal Alcohol Administration Act, as amended (U.S.C. Sup., Title 27), section 3170 of the Internal Revenue Code (53 Stat., part 1), and section 161 of the Revised Statutes (U.S.C., Title 5, sec. 22), section 21, Class 1 of Regulations No. 5, Relating to Labeling and Advertising of Distilled Spirits (27 CFR 5.21 (a)), is amended to read as follows:

§ 5.21 *The standards of identity*—(a) *Class 1: Neutral spirits or alcohol.* "Neutral spirits" or "alcohol" are distilled spirits distilled from any material at or above 190° proof, whether or not such proof is subsequently reduced. The term "neutral spirits" shall also include all distilled spirits distilled during the period of the unlimited national emergency proclaimed by the President on May 27, 1941, which are distilled at 160° proof, or more, from a fermented mash of grain, are unaged, and are so treated in the process of original and continuous distillation as to lack the taste, aroma and other characteristics generally attributed to whiskey.

PART 1047—PETROLEUM

Amendment No. 3 of Conservation Order M-68[1]

Section 1047.1 Conservation Order No. M-63 is hereby amended by inserting after paragraph (c) thereof a new paragraph (d) as follows, and relettering the ensuing paragraphs accordingly:

(d) *Determination of uniform well-spacing pattern.* (1) Subject to the provisions of subparagraph (2) below, each well "spudded" subsequent to December 23, 1941, in any oil or gas field, other than a Condensate Field, on any proposed drilling unit consisting of not less than forty surface acres in the case of any oil field or of not less than 640 surface acres in the case of any gas field, shall be deemed to conform to a "uniform well-spacing pattern" for the purposes of paragraph (c) (7) and (8) of this section, where such well is drilled in accordance with the following terms:

(i) Each well shall bear the same geographical relationship with respect to the square drilling unit upon which it is to be located as all other wells drilled subsequent to December 23, 1941 bear to the respective square drilling units upon which such wells have been or are to be located: *Provided*, That subject to the provisions of (2) below, any well which is to be drilled shall be considered as conforming to a uniform well-spacing pattern where such well is to be located within 100 feet of the point at which absolute geographic identity would be attained or where such well is to be located within 150 feet of the geographic center of a square drilling unit; or

(ii) Where property interests (including leasehold or other property interests) in irregularly shaped tracts necessitate departures from square drilling units, a well may be located on any drilling unit consisting of not less than the prescribed number of surface acres (40 surface acres in the case of an oil field; 640 surface acres in the case of a gas field); *Provided*, That such well is drilled in conformity with the provisions of subparagraph (2) below.

(2) No well "spudded" subsequent to December 23, 1941 shall be considered as drilled in conformity with a uniform well-spacing pattern unless:

(i) The proposed drilling unit upon which such well is to be located consists entirely of acreage which is not attributable to any well other than such proposed well. The acreage attributable to wells offsetting the proposed drilling unit shall be determined by assigning to such wells an acreage equivalent to that in the existing well density or drilling pattern contiguous to such wells. In the case of an oil field no portion of a drilling unit shall fall within 330 feet of an existing well; in the case of a gas field no portion of a drilling unit shall fall within 1320 feet of an existing well; and

(ii) The direct linear distance between any two points which are farthest removed from each other on the drilling unit upon which a well is to be drilled does not exceed the length of the diagonal of a rectangle whose length is twice its width and which is equivalent in surface acreage to such drilling unit; and

(iii) All separate property interests of less than 40 surface acres in the case of an oil field, 640 surface acres in the case of a gas field, or in tracts on which a well cannot otherwise be drilled by virtue of the provisions of this Order, surrounding the designated drilling location of any well, are first consolidated with each other, another, or other property interests to form a drilling unit (consisting of not less than 40 surface acres in the case of an oil field; 640 surface acres in the case of a gas field) on which a well may be drilled; and

(iv) Such well is drilled at least 990 feet in the case of an oil field or 3960 feet in the case of a gas field from any well "spudded" in such field subsequent to December 23, 1941; and

(v) Such well is drilled at least 660 feet in the case of an oil field or at least 2640 feet in the case of a gas field from any well "spudded" or completed in such field on or before December 23, 1941; and

(vi) Such well is drilled at least 330 feet in the case of an oil field or 1320 feet in the case of a gas field from any lease line, property line or subdivision line which separates unconsolidated property interests. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

PART 1047—PETROLEUM

Interpretation No. 2 of Conservation Order M-68,[1] *as Amended*

The following official interpretation is hereby issued by the Director of Industry Operations with respect to § 1047.1, Conservation Order M-68, dated December 23, 1941, as amended from time to time.

The term "lease equipment", as used in Conservation Order M-68, means the fixed or stationary equipment and Material installed on any property located within the productive boundaries of any field for direct or indirect use in the production of petroleum, including production office or camp facilities located adjacent to any field; but not including the well, well equipment, pumping or artificial lifting facilities, flow lines and gathering lines from the wells, cycling plants, pressure maintenance plants, and plants for the extraction of natural gasoline and associated hydrocarbons or for other treatment or processing of gas.

Issued this 18th day of February 1942.

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1315—RUBBER AND RUBBER PRODUCTS AND MATERIAL OF WHICH RUBBER IS A COMPONENT

Amendment No. 1 to Revised Tire Rationing Regulations[2]—Tires and Tubes, Retreaded and Recapped Tires, and Camelback. Section 1315.151 (e) and 1315.151 (aa) and Section 1315.401 (a) (1) are hereby amended to read as follows:

§ 1315.151 *Definitions.*

* * * * *

(e) "Delivery" means any transfer except a transfer involving only a change in physical location.

* * * * *

(aa) "Transfer" means sale, lease, loan, trade, shipment, delivery or transfer or any transaction involving a change in right or title to or interest in any commodity, or any change in use or physical location, including the placing of a tire or tube upon a wheel or rim.

* * * * *

§ 1315.401 *Permitted and prohibited transfers and deliveries to consumers—*(a) *Prohibitions.*

* * * * *

(1) The prohibition in this paragraph (a) applies to sales and deliveries and physical transfers involving a change either in use or location as set forth in § 1315.801. Except as provided in paragraphs (b) and (c) of this section and in §§ 1315.801 to 1315.805, it is unlawful to transfer new tires or tubes, or deliver retreaded or recapped tires, to a consumer, even though such consumer has completed and paid for the purchase or agreement for transfer of such tires or tubes from the person of whom delivery or transfer is requested.

PRICE SCHEDULE NO. 14—RAW SILK AND SILK WASTE

Order of Revocation

Price Schedule No. 14,[1] providing maximum prices for raw silk and silk waste, was issued on August 2, 1941, for the purpose of remedying inflationary market conditions brought about by speculative forces set in motion as the result of international developments in the Far East. Thereafter, certain provisions of the Schedule were amended, effective September 30, 1941.

Since issuance of Price Schedule No. 14 substantially all stocks of silk in the country have been acquired by the United States Government, through agencies thereof, or are presently in the hands of manufacturers fabricating materials in fulfillment of government contracts.

Accordingly, under the authority vested in me by the Emergency Price Control Act of 1942, it is hereby directed that:

Price Schedule No. 14, §§ 1338.1 to 1338.9 inclusive, is hereby revoked. (Pub. No. 421, 77th Cong., 2d Sess.)

This order of revocation is effective February 19, 1942. Issued this 18th day of February 1942.

LEON HENDERSON,
Price Administrator.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

CHAPTER II—CORPS OF ENGINEERS, WAR DEPARTMENT

PART 203—BRIDGE REGULATIONS[1]

TRENT RIVER, N. C.

Pursuant to the provisions of section 5 of the River and Harbor Act approved August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), the following regulations are prescribed to govern the operation of the Atlantic Coast Line Railroad Company bridge across Trent River at Pollocksville, North Carolina.

§ 203.354 *Trent River, N. C.; Atlantic Coast Line Railroad Company bridge at Pollocksville, N. C.* (a) The owner of, or agency controlling, the bridge will not be required to keep a draw tender in constant attendance at the above-named bridge.

(b) Whenever a vessel, unable to pass under the closed bridge, desires to pass through the draw, at least 24 hours' advance notice of the time the opening is required shall be given to the authorized representative of, or agency controlling the bridge.

(c) Upon receipt of such notice, the authorized representative of, or agency controlling, the bridge, in compliance therewith, shall arrange for the prompt opening of the draw at the time specified in the notice for the passage of the vessel.

(d) The owner of, or agency controlling the bridge shall keep conspicuously posted on both the upstream and downstream sides of the bridge, in such manner that it can easily be read at any time, a copy of these regulations together with a notice stating exactly how the representative specified in paragraph (b) of this section may be reached.

(e) The operating machinery of the draw shall be maintained in a serviceable condition, and the draw opened and closed frequently enough to make certain that the machinery is in proper order for satisfactory operation. (Sec. 5, 28 Stat. 362; 33 U.S.C. 499) [Regs. February 6, 1942 (E.D. 6371 (Atlantic Coast Line RR-Trent R.)—2/4)]

PETITION OF JOHN TAYLOR FOR A CHANGE IN MINIMUM PRICES FOR THE COALS OF THE JOHN AND EARL SCOTT MINE (MINE INDEX NO. 1262) OF JOHN TAYLOR, A PRODUCER IN DISTRICT 8, FOR TRUCK SHIPMENT

ORDER DISMISSING PETITION

A petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been filed by the above-named party, requesting a change in minimum prices for the coals produced at the John and Earl Scott Mine (Mine Index No. 1262) of John Taylor, in District 8, for truck shipment;

An Order having been entered herein on November 19, 1941, requiring the petitioner to appear and show cause why the petition should not be dismissed; the petitioner having failed to appear at the time and place designated therefor, and having wholly made default;

The Examiner, Charles O. Fowler, having on January 9, 1942, filed a recommendation that the petititon be dismissed and no exceptions to such recommendation having been filed;

It is ordered, That the petition filed herein be and the same hereby is dismissed, without prejudice, however, to the right of the petitioner to file a new petition with the Division in regard to the same matter, pursuant to the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to section 4 II (d) of the Act.

IN THE MATTER OF H. N. HARTWELL & SON, INC., REGISTERED DISTRIBUTOR, REGISTRATION NO. 4055, RESPONDENT

NOTICE OF FILING APPLICATION PURSUANT TO § 301.132 FOR DISPOSITION OF PROCEEDING WITHOUT FORMAL HEARING

Notice is hereby given that H. N. Hartwell & Son, Inc., Registered Distributor, Registration No. 4055, a corporation having its principal place of business at Park Square Building, Boston, Massachusetts, being the respondent in the above-entitled matter, filed with the Bituminous Coal Division an application dated December 30, 1941, pursuant to § 301.132 of the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division for the Disposition Without Formal Hearing of Compliance Proceedings.

The Notice of and Order for Hearing, as amended, in the above-entitled proceeding alleges that respondent violated section 4 II (h) of the Act and paragraph (a) of the Distributor's Agreement by accepting and retaining discounts from the sales price of 1792.21 net tons of coal purchased from the Forks Coal Mining Company, code member, which were in excess of the maximum allowable discounts prescribed by the Order of the Director dated June 19, 1940 in General Docket No. 12.

In said application the respondent admits the sale on behalf of the Forks Coal Mining Company, a code member, during the period from October 1, 1940, to March 28, 1941, inclusive, of 1,792.21 net tons of 2" N/S coal produced at the said code member's Hughes No. 11 Mine, Mine Index No. 219, District No. 1, as set forth in the Notiee of and Order for Hearing in the above-entitled proceeding, and in addition, the sale of 1,475.09 net tons of coal produced at the aforesaid mine, or a total of 3,267.30 net tons of such coal. The respondent agrees to the incorporation of the said additional tonnage in the Notice of and Order for Hearing, as amended, in the above-entitled proceeding.

The respondent admits receiving, accepting and retaining a compensation of 25 cents per net ton on sales of the aforesaid coal, but avers that it believed that it was acting for the aforesaid code member in the capacity of a sales agent and that the respondent had no intent to violate section 4 II (h) of the Act and paragraph (a) of the Distributor's Agreement.

The respondent agrees to refund to said code member Four Hundred Twenty-four Dollars and Seventy-five Cents ($424.75) which is the difference between the total discounts from the sales price of the aforesaid coal accepted and retained by the respondent and the maximum allowable discounts prescribed by Order of the Director dated June 19, 1940, in General Docket No. 12, which the respondent would have been entitled to receive had it acted as a registered distributor in said transactions.

The respondent consents to the entry of an order suspending its registered distributor's Certificate No. 4055 for the period of one (1) day in connection with the alleged violations of section 4 II (h) of the Act and paragraph (a) of the Distributor's Agreement set forth in the Notice of and Order for Hearing, as amended, in the above-entitled proceeding.

Interested parties may file within fifteen (15) days from the date of this Notice recommendations or requests for informal conferences with respect to the above-described application.

IN THE MATTER OF MATERIAL SERVICE CORPORATION, A CORPORATION, REGISTERED DISTRIBUTOR, REGISTRATION NO. 6031, AND CONSUMERS COMPANY OF ILLINOIS, A CORPORATION, REGISTERED DISTRIBUTOR, REGISTRATION NO. 1811, RESPONDENTS

ORDER RESETTING HEARING

A hearing having been held in the above entitled matter on January 27, 28, and 29, 1942, in the City of Chicago, Illinois, before W. A. Shipman, Trial Examiner of the Division; and

The respondents herein having represented to the Examiner that A. M. Fellows, one of the witnesses subpoenaed by the Division, was unavoidably absent from the city and therefore unable to oe present at the hearing; and having also represented that one C. J. O'Laughlin, a material witness for respondents, was at that time confined to his bed by illness; and

Said respondents having requested that the hearing be postponed to some future date for the purpose of taking the testimony of such witnesses; and

The Trial Examiner having thereupon, at the conclusion of the hearing on January 29, 1942, postponed the hearing for such purpose to such time and place as might thereafter be designated by an appropriate order of the Acting Director; and

The Acting Director deeming it advisable at this time to reschedule such hearing for such purpose.

Now, therefore, it is hereby ordered, That the hearing in the above-entitled matter be reset for February 26, 1942, at 10:00 a. m. at a hearing room of the Bituminous Coal Division at Room 705, U. S. Custom Court Building, 610 South Canal Street, Chicago, Illinois, before the officer or officers previously designated to preside at said hearing, for the purpose of taking testimony of said A. M. Fellows and C. J. O'Laughlin.

IN THE MATTER OF TONY CAPUTO, CODE MEMBER, DEFENDANT

ORDER RESCHEDULING HEARING AND REDESIGNATING EXAMINER

The above-entitled matter having been heretofore scheduled for hearing on December 3, 1941 at a hearing room of the Bituminous Coal Division at the Post Office Building, Clarksburg, West Virginia, by Order of the Director dated October 7, 1941, and subsequently postponed by Order of the Acting Director dated January 14, 1942, to a date and place to be thereafter designated by an appropriate order; and

It appearing to the Acting Director that the place and date of said hearing should now be designated;

Now, therefore, it is ordered, That a hearing in the above-entitled matter be held on March 9, 1942, at 10 a. m., at a hearing room of the Bituminous Coal Division at the Post Office Building, Clarksburg, West Virginia.

It is further ordered, That Joseph A. Huston or any other officer or officers duly designated for that purpose shall preside at such hearing vice Joseph D. Dermody; and

It is further ordered, That the Notice of and Order for Hearing dated October 7, 1941, entered in the above-entitled matter shall, in all other respects, remain in full force and effect.

IN THE MATTER OF BROOKWOOD SHAFT, INC., CODE MEMBER, DEFENDANT

NOTICE OF AND ORDER FOR HEARING

A complaint dated January 8, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, having been duly filed on January 24, 1942, by Bituminous Coal Producers Board for District No. 1, a District Board, complainant, with the Bituminous Coal Division alleging willful violation by the defendant of the Bituminous Coal Code or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on March 23, 1942, at 10 a. m., at a hearing room of the Bituminous Coal Division at Room 203, Post Office Building, Altoona, Pennsylvania.

It is further ordered, That Joseph A. Huston or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said defendant and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under Section 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to Sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, may file a petition for intervention not later than five (5) days before the date herein see for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Bituminous Coal Division at its Washington office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the defendant; and that any defendant failing to file an answer within such period, unless otherwise ordered, shall be deemed to have admitted the allegations of the complaint herein and to have consented to the entry of an appropriate order on the basis of the facts alleged.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging willful violation by the above-named defendant of the Bituminous Coal Code or rules and regulations thereunder as follows:

That the said defendant, whose address is 822 Hannah St., Houtzdale, Pennsylvania, and who operates the Brockwood Shaft Mine, Mine Index No. 67, located in Clearfield County, Pennsylvania, in Subdistrict 21 of District No. 1, wilfully violated Rules 4 (A) and 9 (a) of Section II of the Marketing Rules and Regulations by allowing, paying or obligating itself to allow or pay, directly or indirectly, commissions to the Seneca Coal and Iron Corporation, New York, N. Y., on sales of approximately 1,313 tons of coal of various sizes produced at said mine, during the months of October and November 1940. Said Seneca Coal and Iron Corporation purported to act as exclusive sales agent for said code member without either the agent or the principal filing with the Division, within 20 business days following the effective date of the Marketing Rules and Regulations, a copy of the contract of agency executed on May 1, 1940, and filed on December 18, 1940, with the Division. Therefore, the commissions paid pursuant to said sales agency agreement were allowed, paid, or said code member obligated itself to allow or pay directly or indirectly said commissions, contrary to the provisions of Rule 4 (A), Section II and in violation of Rule 9 (a) of Section II of the Marketing Rules and Regulations.

[Docket No. A-1137]

PETITION OF WAPENOH COAL COMPANY FOR CHANGE IN SHIPPING POINT OF ITS MCBRIDE MINE, MINE INDEX NO. 2152, IN DISTRICT NO. 2, FOR ALL SHIPMENTS EXCEPT TRUCK

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION, AND ORDER

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division on October 29, 1941, by Wapenoh Coal Company, a code member in District 2, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition as amended requests that the classifications and minimum prices heretofore established for the coals of the McBride Mine (Mine Index No. 2152) of the Wapenoh Coal Company be made effective for a changed shipping point.

Temporary relief was granted by Order dated December 1, 1941, 6 F.R. 6247.

Pursuant to an Order of the Acting Director dated December 1, 1941, and after due notice to all interested persons, a hearing in this matter was held on January 6, 1942, before Scott A. Dahlquist, a duly designated Examiner of the Division, in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. The petitioner appeared.[1] The preparation and filing of a report by the Examiner were waived and the matter thereupon was submitted to the undersigned.

The petitioner requests that the loading point for the McBride Mine (Mine Index No. 2152) at Midway (Pigear) Pennsylvania, on the Pennsylvania Railroad, Freight Origin Group No. 74, be changed to Boggs Siding, Pennsylvania, on the Montour Railroad, Freight Origin Group No. 72.

The uncontradicted testimony of M. F. Phillips, President of the Wapenoh Coal Company, shows that the petitioner is a code member producer in District No. 2 and operates the McBride Mine (Mine Index No. 2152), located near Clinton, on the boundary line of Robinson and Findley Townships, Washington and Allegheny Counties. The witness stated that Midway, the present permanent shipping point, is several miles farther from the mine than Boggs Siding. He further stated that the cost of hauling the coal by truck to Midway is $.40 per ton, whereas the cost per ton to Boggs Siding is only 25 cents. For these reasons, the witness was of the opinion that the shipping point should be established at Boggs Siding in order to insure the petitioner's fair competitive opportunities in the markets for rail-shipped coal.

It appears from the uncontroverted testimony given by Mr. Phillips that the shipping point should be changed from Midway to Begg's Siding. It is also shown that a change in shipping points will result in a shorter transportation haul and a consequent reduction in transportation charges, thereby increasing the petitioner's realization on the mine. The evidence further shows that the requested change in shipping points, if adopted, will in no manner disrupt the relative price relationship between the petitioner and other competitors, but on the contrary will preserve fair competitive opportunities for the petitioner, as well as other local producers.

[1] District Board 8 filed a petition to intervene on November 12, 1941, but failed to appear at the hearing.

Therefore, on the basis of the evidence, I find and conclude: (1) That in order to preserve fair competitive opportunities for the coals of the McBride Mine, (Mine Index No. 2152) provision should be made for shipment of those coals from Boggs Siding, Pennsylvania, over the Montour Railroad, at the prices heretofore established for said coals, and that the Schedule of Effective Minimum Prices for District 2 for All Shipments Except Truck should be amended accordingly; (2) That such amendment of the District 2 Price Schedule is required in order to effectuate the purpose of section 4 II (a) and 4 II (b) of the Act and to comply with standards thereof.

Now, therefore, it is ordered, That commencing forthwith the shipping point for the McBride Mine, Mine Index No. 2152, shall be Boggs Siding, Pennsylvania, on the Montour Railroad, Freight Origin Group 72 instead of from Midway (Pigear), Pennsylvania, on the Pennsylvania Railroad, Freight Origin Group No. 74, and the Schedule of Effective Minimum Prices for District No. 2 for All Shipments Except Truck, be, and it hereby is, amended accordingly.

Dated: February 13, 1942.

[Docket No. C-7]

IN THE MATTER OF THE APPLICATION OF FORD MOTOR COMPANY REGARDING COAL PRODUCED AT MINE INDEX NOS. 183, 325, AND 449, IN DISTRICT NO. 8

ORDER PERMITTING THE FILING OF MOTIONS RELATING TO THE REQUEST OF FORD MOTOR COMPANY FOR INTERIM EXEMPTION

Ford Motor Company has filed an application, pursuant to the second paragraph of section 4-A of the Bituminous Coal Act of 1937, for a determination of the status of the coal produced at Mine Index Nos. 183, 325, and 449, in District No. 8, and consumed by the said company.

The second paragraph of section 4-A of the Act states, among other matters, that any producer believing that any commerce in coal is not subject to the provisions of section 4 or the first paragraph of section 4-A, may file an application for exemption, that the filing of such application in good faith shall exempt the applicant from any obligation, duty, or liability imposed by section 4 in respect to the commerce covered by the applicant until such time as action shall be taken upon the application. By Order of the Director dated October 17, 1939, in General Docket No. 17, the following rule was established:

All applications seeking exemption, pursuant to the second paragraph of Section 4-A, should be filed within the following periods of time:

(1) If the commerce covered by the application exists upon the effective date of this rule, not more than thirty (30) days after such date. * * *

Any application which is filed after the periods herein specified will be presumed not to have been filed in good faith.

As to the good faith requirements in the second paragraph of section 4-A of the Act and the said Order of the Director, the said application alleges in substance that applicant has engaged in the commerce for which exemption is sought since 1937; that in September 1937 it caused its contractor, Eastern Coal Corporation, to file with the National Bituminous Coal Commission (predecessor of the Bituminous Coal Division) a statement showing the contractual arrangements in respect to transactions in the coal produced at the said mines; that such transactions have since been conducted in accordance with such arrangements; that it believed that such transactions were conducted pursuant to section 4 II (1) of the Act and therefore were exempt from the provisions of Section 4 without the necessity of filing an application for determination of its status in conducting such transactions; and that its application is filed in good faith. The said application prays, among other matters, that the application be presumed to have been filed in good faith, and that, pursuant to the second paragraph of Section 4-A of the Act, as to such transactions, the applicant be granted an interim exemption, pending a determination of the status of the coal produced as aforesaid.

In support of this request, applicant has filed an affidavit of H. L. Moekle. The affiant represents in substance that he is Assistant Secretary of Ford Motor Company and as such has knowledge of the above-mentioned transactions in coal; that the applicant was advised by competent counsel that such transactions were conducted pursuant to section 4 II (1) of the Act, and that the said Order of the Director was inapplicable to transactions conducted pursuant to section 4 II (1) of the Act; that the applications provided for in the second paragraph of section 4-A of the Act related only to transactions in coal other than those conducted pursuant to section 4 II (1) of the Act; that the first information which the applicant had of the advisability of filing an application for exemption for the coals here involved was the holding of the Director *In The Matter of The Application of The Receivers of The Seaboard Airline Railway Company for Exemption*, Docket No. 49-FD, that an independent contractor involved therein was a producer of coal, within the meaning of the Act; that applicant was advised by counsel that the decision of the Director in the above-mentioned proceeding was not applicable to the applicant's transactions in coal produced as aforesaid; and that the advice of its counsel that an independent contractor is not a producer of coal, within the meaning of the Act, was confirmed by the reversal of the said holding of the Director upon review thereof by the United States Circuit Court of Appeals (*Gray* v. *Powell*, 114 F. (2d) 752) and by the Supreme Court of the United States by an evenly divided court. (312 U. S. 666)

The affiant further represents that applicant was not again informed of the advisability of filing an application for exemption until the decision of the Supreme Court of the United States in *Gray* v. *Powell*, 62 S. Ct. 326, 86 L. Ed. 285, affirming the holding of the Director in the said Docket No. 49-FD; and that thereafter applicant filed the application herein.

The said application of Ford Motor Company and affidavit of H. L. Moekle, are available for public inspection in Room 502 of the offices of the Division, 734 Fifteenth Street NW., Washington, D. C.

It appears desirable that an opportunity be afforded for interested persons and entities to support or to oppose the said application;

Now, therefore, it is ordered, That all persons and entities, entitled to participate in this proceeding, may file, on or before thirty (30) days from the date of this Order, motions in support of or in opposition to the request of the applicant that it be granted an interim exemption as provided for by the second paragraph of Section 4-A of the Act, pending determination of the above-entitled application. Such motions shall be supported by affidavits, disclosing the interest of the persons or entities so filing them and stating, with reasonable particularity, the facts relief upon in support of or opposition to such motions.

Thereafter such further orders will be issued or such further proceedings will be instituted as may be appropriate in the premises.

[Docket Nos. A-1267 and A-1267 Part II]

PETITION OF DISTRICT BOARD NO. 15 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 15 AND PETITION OF DISTRICT BOARD NO. 15 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE GRAY MINE (MINE INDEX NO. 1570), THE HANLIN & LEE MINE (MINE INDEX NO. 1571) AND THE FLOYD MINE (MINE INDEX NO. 1567) IN DISTRICT NO. 15

MEMORANDUM OPINION AND ORDER SEVERING DOCKET NO. A-1267 PART II FROM DOCKET NO. A-1267 AND GRANTING TEMPORARY RELIEF IN DOCKET NO. A-1267 PART II

The original petition in the above-entitled matter filed with this Division on

January 12, 1942, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, prays for the establishment of temporary and permanent price classifications and minimum prices for the coals of certain mines in District No. 15.

As indicated in a separate order entered in Docket No. A–1267, a reasonable showing of necessity has been made for the granting of the relief prayed for by the petitioner, except with respect to the establishment of permanent price classifications and minimum prices for the coals of the Gray Mine (Mine Index No. 1570), the Hanlin & Lee Mine (Mine Index No. 1571) and the Floyd Mine (Mine Index No. 1567). It appears from the petition that the coals of the Hanlin & Lee Mine and of the Floyd Mine in Adair County, Missouri, possess marketing factors similar to those of the other coals heretofore classified and priced and presently produced in that county, and that the same minimum prices should be applicable for all such coals, in their respective size groups, for shipment by truck into the same respective consuming areas. The previously priced coals in Adair County are presently subject to the minimum prices set forth in the Order entered October 29, 1940, 5 F.R. 4324, granting temporary relief in Docket No. A–58. An analogous situation prevails as between the coals of the Gray Mine in Putnam County, Missouri, and the previously priced coals of the other mines in that county, which latter coals are presently subject to the temporary minimum prices set forth in the Order entered December 7, 1940, 5 F.R. 4872, in Docket No. A–179.

Pending final determination of the issues in Docket Nos. A–58 and A–179 a petition was filed in Docket No. A–492 wherein it was requested that the minimum prices made effective temporarily in Docket No. A–179 for the Putnam County coals be made permanent. Docket Nos. A–58, A–179 and A–492 were thereafter consolidated, but, in accordance with a request and stipulation filed therein by all of the parties thereto, there has been no change in the above-mentioned Orders granting temporary relief, and no permanent order on the subject has been entered.

In view of the foregoing, it is deemed advisable at this time to establish only temporarily the proposed price classifications and minimum prices for the coals of the Hanlin & Lee Mine, the Floyd Mine and the Gray Mine, and that their permanent classification and pricing should await final determination of the related issues raised in Docket Nos. A–58, A–179 and A–492.

Now, therefore, it is ordered, That the portion of Docket No. A–1267 relating to the coals of the Gray Mine (Mine Index No. 1570), the Hanlin & Lee Mine (Mine Index No. 1571) and the Floyd Mine (Mine Index No. 1567), be, and it hereby is, severed from the remainder of that docket and designated as Docket No. A–1267 Part II.

It is further ordered, That pending final disposition of Docket No. A–1267 Part II, temporary relief is granted as follows:

Commencing forthwith the Schedule of Effective Minimum Prices for District No. 15 for Truck Shipments is supplemented to include the following price classifications and minimum prices in cents per net ton f. o. b. the transportation facilities at the mines, for shipment by truck into all market areas:

Code member index—name	Mine index No.	Mine	Production group No.	County

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Bituminous Coal Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Nothing herein contained shall be deemed to constitute an expression of the Division in regard to the final determination of the issues raised by the original petition in this matter.

Surplus Marketing Administration.

NOTICE OF REPORT AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO A TENTATIVELY APPROVED MARKETING AGREEMENT, AS AMENDED, AND A MARKETING ORDER, AS AMENDED REGULATING THE HANDLING OF MILK IN THE GREATER KANSAS CITY MARKETING AREA

Pursuant to § 900.12 (a)[1] of the General Regulations of the Surplus Marketing Administration, United States Department of Agriculture, governing proceedings to formulate marketing agreements and marketing orders, notice is hereby given of the filing with the hearing clerk of this report of the Administrator of the Surplus Marketing Administration, with respect to proposed amendments to a tentatively approved marketing agreement, as amended, and to a marketing order, as amended, regulating the handling of milk in the Greater Kansas City marketing area. Interested parties may file exceptions to this report with the hearing clerk, Room 0312, South Building, Department of Agriculture, Washington, D. C., not later than the close of business on the 10th day after publication of this notice in the FEDERAL REGISTER.

PRELIMINARY STATEMENT

The proceedings were initiated by the Surplus Marketing Administration upon receipt on November 26, 1941, of a petition from the Pure Milk Producers Association of Greater Kansas City and the Bates County Milk Producers Association for a public hearing on proposals to revise upward the class prices for milk and to revise the method of making deductions from producers for location differentials. Following this request, the Dairy Division, Surplus Marketing Administration, devised proposals for amendment in the interest of facilitating administration of the regulatory program in the area. After consideration of the proposals, notice of a hearing was issued on January 7, 1942, and the hearing convened on January 14, 1942.

The major issue developed at the hearing revolved around the level at which the method by which minimum class prices to producers should be fixed.

It was concluded from the record that it is necessary to fix prices, under section 8c (18) of the act, which will reflect the economic conditions which affect market supply of and demand for milk and its products in the marketing area to which the contemplated amendment relates, maintain an adequate supply of milk produced under conditions assuring its pure and wholesome character, and be in the public interest.

The proposed amendments are recommended as the detailed means by which these conclusions may be carried out.

This report filed at Washington, D. C., the 17th day of February 1942.

[SEAL] E. W. GAUMNITZ,
Acting Administrator, Surplus Marketing Administration.

PROPOSED AMENDMENTS TO THE MARKETING ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE GREATER KANSAS CITY MARKETING AREA

These proposed amendments are prepared by the Administrator pursuant to § 900.12 (a) of the General Regulations, Surplus Marketing Administration, and have not received the approval of the Secretary of Agriculture.

It is found, upon the evidence introduced at the public hearing held in Kansas City, Missouri, on January 14, 1942, such findings being in addition to the findings made upon the evidence introduced at prior public hearings on the order (which findings are hereby ratified and affirmed save only as such findings are in conflict with the findings hereinafter set forth):

Findings

1. That the prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to section 2 and section 8 (e) (50 Stat. 246; 7 U.S.C., 1940 ed. 602, 608e), are not reasonable in view of the price of feeds, the available supplies of feeds, and other economic conditions which affect market supply of and demand for such milk, and that the minimum prices set forth in this order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest.

2. That the order regulates the handling of milk in the same manner as and is applicable only to handlers defined in a marketing agreement, as amended, upon which a hearing has been held; and

3. That the issuance of these amendments to the order, as amended, and all its terms and conditions, as so amended, tends to effectuate the declared policy of the act.

Provisions

1. Delete subparagraph (2) of § 913.3 (c) and substitute therefor the following:

(2) All cream sold or disposed of by a handler who purchases or receives milk from producers, to another handler or to a person who distributes milk or manufactures milk products, shall be classified as Class II milk: *Provided*, That if such cream, except for cream disposed of by such handler to another handler who purchases or receives no milk from producers, is reported as having been utilized as Class III milk by the person who received it or by the disposing handler, such cream shall be classified accordingly, subject to verification by the market administrator.

2. Add as subparagraph (3) to § 913.3 (c) the following:

(3) All milk or cream purchased or received in bulk from a handler who purchases or receives no milk from producers by a handler who purchases or receives milk from producers shall be classified as Class III milk. If such receiving handler sells or disposes of such milk or cream for other than Class III purposes, the market administrator shall add to the total value computed pursuant to § 913.7 the difference between (a) the value according to its actual usage and (b) the value of such milk or cream at the Class III price.

3. Delete § 913.4 and substitute therefor the following:

§ 913.4 *Minimum prices*—(a) *Class prices.* Each handler shall pay producers, at the time and in the manner set forth in § 913.9, for milk purchased or received from them not less than the following prices:

(1) *Class I milk.* The price per hundredweight of Class I milk during each delivery period shall be the price determined pursuant to subparagraph (4) of this section, plus 70 cents: *Provided*, That with respect to Class I milk disposed of under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, the price shall be the price determined pursuant to subparagraph (4) of this section, plus 25 cents.

[1] 6 F.R. 6573.

(2) *Class II milk.* The price per hundredweight of Class II milk during each delivery period shall be the price determined pursuant to subparagraph (4) of this section, plus 45 cents.

(3) *Class III milk.* The price per hundredweight of Class III milk during each delivery period shall be the highest price ascertained by the market administrator to have been quoted for ungraded milk of 3.8 percent butterfat content received during such delivery period by any one of the three following plants: The Meyer Sanitary Milk Company at its plant at Valley Falls, Kansas, the Franklin Ice Cream Company at its plant at Tonganoxie, Kansas, and the Milk Producers' Marketing Company at its plant at Kansas City, Kansas.

(4) *Determination of foundation price for Class I and Class II milk.* The market administrator shall compute and announce on or before the 5th day of the delivery period the arithmetic average of the prices per hundredweight reported to the United States Department of Agriculture as being paid all farmers for milk of 3.5 percent butterfat content delivered f. o. b. plant during the immediately preceding delivery period at the following plants and places:

Borden Company, Mt. Pleasant, Mich.
Carnation Company, Sparta, Mich.
Pet Milk Company, Hudson, Mich.
Pet Milk Company, Wayland, Mich.
Pet Milk Company, Coopersville, Mich.
Borden Company, Greenville, Wis.
Borden Company, Black Creek, Wis.
Borden Company, Orfordville, Wis.
Carnation Company, Chilton, Wis.
Carnation Company, Berlin, Wis.
Carnation Company, Richland Center, Wis.
Carnation Company, Oconomowoc, Wis.
Carnation Company, Jefferson, Wis.
Pet Milk Company, New Glarus, Wis.
Pet Milk Company, Belleville, Wis.
Borden Company, New London, Wis.
White House Milk Company, Manitowoc, Wis.
White House Milk Company, West Bend, Wis.

4. Delete paragraph (a) of § 913.6 and substitute therefor the following:

(a) The provisions of §§ 913.4, 913.7, 913.8, 913.9, 913.10, and 913.11 shall not apply to a handler who purchases or receives no milk from producers.

5. Delete paragraph (d) of § 913.6 and substitute therefor the following:

(d) With respect to each handler who receives milk of his own production and also purchases or receives milk from producers, the market administrator, before making the computations in accordance with § 913.7, shall exclude the milk purchased or received by him in each class from other handlers. If the remaining Class III milk is less than 10 percent of the sum of the remaining Class I, Class II, and Class III milk, exclude the milk received from his own production pro rata from the remaining Class I, Class II, and Class III milk, or if the remaining Class III milk is more than 10 percent of the sum of the remaining Class I, Class II, and Class III milk, exclude 90 percent of the milk received from his own production pro rata from the remaining Class I and Class II milk and exclude the balance of the milk received from his own production from the remaining Class III milk.

6. Delete subparagraph (3) of § 913.7 (b) and substitute therefor the following:

(3) Whenever the market administrator determines the total daily average deliveries of milk to be less than 105 percent of the total daily average Class I milk and Class II milk received from producers by handlers during the next preceding delivery period, the uniform price for all milk received from producers shall be computed pursuant to subparagraph (1) of this paragraph, and the market administrator, upon such determination, shall mail notice of such change in the method of computation of the uniform price to all producers.

If such determination is made on or before the 15th day of a delivery period, the uniform price for all milk received from producers shall be so computed for the current delivery period; if made subsequent to the 15th day of a delivery period, the uniform price shall be so computed for the next succeeding delivery period.

7. Insert in the fourth line of paragraph (a) of § 913.7 preceding the words "§ 913.6" the words "§913.3 and."

8. Delete paragraph (a) of § 913.9 and substitute therefor the following:

(a) *Time and method of payment.* On or before the 12th day after the end of each delivery period, each handler shall make payment, after deducting the amount of the payment made pursuant to paragraph (b) of this section, for not less than the total value of milk of producers received by such handler during such delivery periods, computed according to § 913.7 and subject to the differentials set forth in paragraph (c) and (d), respectively, of this section as follows:

(1) To producers, subject to subparagraph (2) of this paragraph, at the uniform price per hundredweight computed pursuant to § 913.7 (b) (2), for that quantity of milk received from producers, not in excess of their respective bases; and to producers at the Class III price for that quantity of milk received from such producers in excess of their respective bases.

(2) To producers at the uniform price per hundredweight computed pursuant to § 913.7 (b) (1), for the total quantity of milk received from such producers, whenever the determination of the market administrator is effective in accordance with the provision of § 913.7 (b) (3).

9. Delete paragraph (d) of § 913.9 and substitute therefor the following:

(d) *Location differentials.* For milk received from producers at plants approved by any applicable health authority for the receiving of milk to be sold or disposed of as milk or cream in the marketing area and located outside the marketing area but more than 30 miles by the shortest highway route from such handler's plant approved by an applicable health authority for the receiving of milk to be sold or disposed of as milk or cream in the marketing area and located within the marketing area, each handler, in making payments pursuant to paragraph (a) (1) of this section, shall deduct, with respect to all base milk received from such producers, and in making payments pursuant to paragraph (a) (2) of this section, shall deduct, with respect to all milk received from such producers, the amount per hundredweight specified for the distance of such plant located outside the marketing area from such handler's plant located within the marketing area as follows: not more than 45 miles, 17 cents per hundredweight; for each additional 10 miles or fraction thereof up to 75 miles, an additional 1½ cents per hundredweight; and for each additional 10 miles or fraction thereof beyond 75 miles, an additional ½ cent per hundredweight: *Provided*, That if the shortest highway distance between such handler's plant located outside the marketing area and his plant located in the marketing area is lessened through a relocation of highways to less than 30 miles, the location differential which applies on the effective date of this order, as amended, shall continue to apply.

PROPOSED MARKETING AGREEMENT REGULATING THE HANDLING OF MILK IN THE GREATER KANSAS CITY-MISSOURI MILK MARKETING AREA PREPARED BY THE ADMINISTRATOR OF THE SURPLUS MARKETING ADMINISTRATION, UNITED STATES DEPARTMENT OF AGRICULTURE

This proposed marketing agreement is prepared by the Administrator pursuant to § 900.12 (a) of the General Regulations, Surplus Marketing Administration, and has not received the approval of the Secretary of Agriculture.

Whereas the parties hereto, in order to effectuate the declared policy of the said act, desire to enter into this marketing agreement, as amended.

Now, therefore, the parties hereto agree as follows:

1. The terms and provisions of § 913.1 through §913.12 of Order No. 13, as Amended, Regulating the Handling of Milk in the Greater Kansas City Marketing Area, issued, effective October 2, 1941, and as amended by Amendment No. 3 to said order, as amended, issued effective ---- --, 1942, shall be the terms and provisions of this marketing agreement, as amended, with the exception that wherever the word "order" is used the words "marketing agreement" shall be substituted therefor; and

2. The following sections shall also be a part of the marketing agreement, as amended, in addition to § 913.1 through § 913.12 of said order, as amended:

§ 913.13 *Liability*—(a) *Liability of handlers.* The liability of handlers hereunder is several and not joint and no handler shall be liable for the default of any other handler.

§ 913.14 *Counterparts and additional parties*—(a) *Counterparts of marketing agreement, as amended.* This agreement, as amended, may be executed in multiple counterparts, and when one counterpart is signed by the Secretary, all such counterparts shall constitute when taken together, one and the same instrument, as if all such signatures were obtained in one original.

(b) *Additional parties to the marketing agreement, as amended.* After this agreement, as amended, first takes effect, any handler may become a party to this agreement, as amended, if a counterpart hereof is executed by him and delivered to the Secretary. This agreement, as amended, shall take effect as to such new contracting parties at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement, as amended, shall then be effective as to such new contracting party.

§ 913.15 *Authorization to correct typographical errors and record of milk handled during the month of May 1941*—(a) *Authorization to correct typographical errors.* The undersigned hereby authorizes O. M. Reed, Chief, Dairy Division, Surplus Marketing Administration, to correct any typographical errors which may have been made in this marketing agreement, as amended.

(b) *Record of milk handled during the month of May 1941.* The undersigned certifies that he handled during the month of May 1941 ---------- hundredweight of milk covered by this agreement, as amended, and disposed of within the marketing area.

§ 913.16 *Signature of parties.* In witness whereof, the contracting handlers, acting under the provisions of the act, for the purposes and subject to the limitations herein contained, and not otherwise, have hereunto set their respective hands and seals.

NOTICE OF ORAL ARGUMENT BEFORE THE ADMINISTRATOR AND OPPORTUNITY TO SUBMIT WRITTEN BRIEFS IN THE MATTER OF THE RECOMMENDATION OF INDUSTRY COMMITTEE NO. 38 FOR A MINIMUM WAGE RATE IN THE TOBACCO INDUSTRY

Whereas a hearing was held on January 19, 20, and 21, 1942, before Major Robert N. Campbell, as Presiding Officer, at which all persons interested in the report and recommendation of Industry Committee No. 38 for the fixing of a minimum wage rate in the Tobacco Industry were given an opportunity to be heard and to offer evidence bearing thereon; and

Whereas the complete record of said hearing has been transmitted to the Administrator,

Now, therefore, notice is hereby given:

That the Administrator will receive written briefs (not fewer than twelve copies) on or before March 11, 1942, at the Wage and Hour Division, United States Department of Labor, 1560 Broadway, New York, New York, from any person who entered an appearance at said hearing, and will hear oral argument upon the complete record of said hearing on March 17, 1942, at 10:00 a. m., at the office of the Wage and Hour Division, United States Department of Labor, 1560 Broadway, New York, New York, by any person who entered an appearance at said hearing, provided that on or before March 11, 1942, such person notifies the Wage and Hour Division of his intention to offer oral argument and of the amount of time he will require to make his presentation.

Signed at Washington, D. C., this 17th day of February 1942.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 31-508]

IN THE MATTER OF CANTON ELECTRIC LIGHT AND POWER COMPANY

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 17th day of February, A. D. 1942.

An application pursuant to the Public Utility Holding Company Act of 1935, having been duly filed with this Commission by the above-named party;

It is ordered, That a hearing on such matter under the applicable provisions of said Act and the rules of the Commission thereunder be held on March 3, 1942, at 10:00 o'clock in the forenoon of that day, at the Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in room 1102 will advise as to the room where such hearing will be held. At such hearing, if in respect of any declaration, cause shall be shown why such declaration shall become effective.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

Notice of such hearing is hereby given to such declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before February 27, 1942.

The matter concerned herewith is in regard to the application of Canton Electric Light and Power Company, a New York Corporation, for an order pursuant to section 2 (a) (8) of the Act, declaring it not to be a subsidiary of The United Corporation, a registered holding company, nor of its subsidiary the Niagara Hudson Power Corporation, nor of its subsidiary the Central New York Power Corporation which owns 34% of the voting securities of the applicant.

By the Commission.

IN THE MATTER OF REPUBLIC SERVICE CORPORATION AND IRVING H. ISAAC

NOTICE OF FILING AND ORDER PERMITTING BRIEFS AND ORAL ARGUMENT

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 16th day of February, A. D. 1942.

Notice is hereby given that a petition has been filed with this Commission by Irving H. Isaac, a preferred stockholder of Republic Service Corporation which is a registered holding company, requesting the issuance of an order by the Commission under section 11 (b) (2) of the Public Utility Holding Company Act of 1935 requiring Republic Service Corporation to distribute voting power fairly and equitably among its security holders and/or requesting the issuance of an order by the Commission approving a plan submitted by petitioner for the reorganization of Republic Service Corporation under section 11 (e) of said Act; and

Petitioner having submitted a brief in support of said petition, and having also requested oral argument before the Commission; and

It appearing to the Commission that it is appropriate in the public interest that briefs be filed and oral argument presented on the following questions:

1. Whether a stockholder of a corporation is entitled to have the Commission consider a plan under section 11 (e) of said Act submitted by such stockholder on his own behalf?

2. Whether a stockholder of a corporation is entitled, under proper circumstances, to have the Commission consider a plan under section 11 (e) of said Act submitted by such stockholder for and on behalf of the corporation?

It is ordered, That petitioner's brief be filed and that a copy of the petition filed herein together with a copy of the brief in support thereof be served upon Republic Service Corporation.

It is further ordered, That permission be, and the same hereby is, granted to Republic Service Corporation to file a brief on or before February 26, 1942.

It is further ordered, That permission be, and the same hereby is, granted to petitioner and to Republic Service Corporation to present oral argument before the Commission on the questions hereinbefore referred to on March 2, 1942 at 10:00 o'clock A. M. at the offices of the Securities and Exchange Commission,

1778 Pennsylvania Avenue NW., Washington, D. C.

It is further ordered, That representatives of registered holding companies or their subsidiaries or such other persons who, by reason of their interest in Republic Service Corporation or by reason of their general interest in the questions hereinbefore referred to, are desirous of expressing their views regarding the same may, not later than February 26, 1942, at 4:45 P. M., E. W. T., file briefs and make written request to the Commission to participate in the oral argument on such matters.

By the Commission.

IN THE MATTER OF LOUISVILLE GAS AND ELECTRIC COMPANY (KY.), LOUISVILLE TRANSMISSION CORPORATION (KY.), AND LOUISVILLE TRANSMISSION CORPORATION (IND.)

NOTICE OF FILING AND ORDER RECONVENING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 18th day of February, A. D. 1942.

Notice is hereby given that an amendment to the declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Louisville Gas and Electric Company (Ky.), Louisville Transmission Corporation (Ky.), and Louisville Transmission Corporation (Ind.). All interested persons are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed which amends the declaration or application (or both) heretofore filed by said companies, in the following manner:

Louisville Gas and Electric Company, a Kentucky corporation (hereinafter referred to as the "Electric Company"), a public utility company, proposes (a) to acquire for cash 985 shares of the capital stock at par, having an aggregate par value of $9,850, of its subsidiary Louisville Transmission Corporation, a Kentucky corporation (hereinafter referred to as the "Kentucky Transmission Company"); and (b) to enter into a contract with the Kentucky Transmission Company whereby Electric Company will advance, if necessary, any funds in addition to the proceeds from the sale by Kentucky Transmission Company of its First Mortgage Sinking Fund Bonds hereinafter described, required to complete the Kentucky Transmission Company's construction program. The contract will also provide for the transmission of electric energy by the Kentucky Transmission Company at the request of Electric Company or the Tennessee Valley Authority; for the payment of tolls to the Kentucky Transmission Company by the Electric Company and/or the Tennessee Valley Authority; and an undertaking by the Electric Company that the revenues of the Kentucky Transmission Company from such tolls or otherwise will not be less than the amounts set forth in said contract.

Louisville Transmission Corporation, an Indiana corporation, (hereinafter referred to as the "Indiana Transmission Company"), a subsidiary of the Electric Company, proposes (a) to issue and sell at par to the Kentucky Transmission Company for cash, 1,000 shares of its capital stock having an aggregate par value of $10,000; (b) to enter into a contract with its parent, the Kentucky Transmission Company, whereby the Kentucky Transmission Company will loan to the Indiana Transmission Company sufficient funds to pay for the transmission line to be constructed and owned by the Indiana Transmission Company. Such amounts as may be advanced (but not to exceed $400,000) will be evidenced by a note secured by a first mortgage on the transmission line to be constructed with the proceeds of the loan and the sale of stock referred to above. The note will be dated March 1, 1942 and be due on demand or in the absence of demand on March 1, 1967 and will bear interest from the date of demand (but not before) at the rate of 4% per annum; and (c) the said contract will also provide for the transmission of electric energy by the Indiana Transmission Company at the request of the Kentucky Transmission Company and for the payment of tolls by the Kentucky Transmission Company in an amount equal to the charges for interest, if any, charges for reserves for depreciation made by and the operating expenses of the Indiana Transmission Company during each year the contract is in force.

The Kentucky Transmission Company proposes (a) to acquire for cash at par 1,000 shares of the capital stock having an aggregate par value of $10,000 of the Indiana Transmission Company; (b) to issue and sell for cash at par to the Electric Company 985 shares of its capital stock having an aggregate par value of $9,850 and to its directors 15 shares having an aggregate par value of $150; (c) to publish, pursuant to Rule U-50, its public invitation for proposals for the purchase of $3,850,000 principal amount of First Mortgage Sinking Fund Bonds secured by a first mortgage on its transmission lines and terminal facilities to be constructed; or in the alternative, in the event the necessary funds cannot be secured from customary private sources before March 27, 1942, to borrow not to exceed $3,850,000 from the Reconstruction Finance Corporation and execute its note or notes therefor, secured by a first mortgage on its transmission lines and terminal facilities to be constructed with the proceeds as heretofore described in Holding Company Act Release #3262; (d) to enter into a contract to lend sufficient funds to pay for the transmission line to be constructed and owned by the Indiana Transmission Company which loan will be evidenced by a note of the Indiana Transmission Company heretofore described; (e) said contract will also provide for the transmission of electric energy by the Indiana Transmission Company at the request of the Kentucky Transmission Company and the payment of tolls by the Kentucky Transmission Company as heretofore described; and (f) to pledge with the trustee under the mortgage to be executed (1) 1,000 shares of the capital stock of the Indiana Transmission Company, (2) a note of the Indiana Transmission Company in the principal amount of $400,000 or such lessor sum as may be advanced to it by the Kentucky Transmission Company secured by a first mortgage on the property of Indiana Transmission Company, (3) the contract between it and Electric Company heretofore described, and (4) any cash on deposit or to be deposited in the construction fund described in the aforesaid mortgage.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to said matters, that said declaration shall not become effective nor said application be granted except pursuant to further order of this Commission;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and rules of the Commission thereunder be held on February 27, 1942, at 10:00 o'clock, A. M., at the office of the Securities and Exchange Commission, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing room clerk in Room 1102 will advise as to the room where such hearing will be held. At such hearing, cause shall be shown why such declaration or application (or both) shall become effective or shall be granted. Notice is hereby given of said hearing to the above-named declarants and applicants and to all interested persons, said notice to be given to said declarants and applicants by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under Section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

By the Commission.

IN THE MATTER OF BALMAT & CO., INC., 118 N. MECHANIC STREET, CARTHAGE, NEW YORK

FINDINGS AND ORDER REVOKING REGISTRATION AS BROKER AND DEALER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 16th day of February, A. D. 1942.

1. Balmat & Co., Inc., a New York corporation, is registered with this Commission as a broker and dealer under section 15 of the Securities Exchange Act of 1934. We instituted this proceeding under section 15 (b) to determine whether its registration as a broker and dealer should be suspended or revoked.

2. On July 16, 1941, the registrant and its president, David W. Balmat, were permanently enjoined by order of the Supreme Court of the State of New York, held in and for the County of Onondaga, from engaging in various acts and practices involving the purchase and sale of securities. The Court's order also appointed a permanent receiver to take over all of the assets of the registrant.

3. On December 22, 1941, at the close of the hearing in this proceeding, registrant submitted a request to withdraw its registration as a broker and dealer.

4. We find that the public interest requires the revocation of registrant's registration as a broker and dealer.

Accordingly, *It is ordered*, Pursuant to section 15 (b) of the Securities Exchange Act of 1934, that the request of Balmat & Co., Inc., to withdraw its registration as a broker and dealer be, and it hereby is, denied, and that the registration of Balmat & Co., Inc., as a broker and dealer be, and it hereby is, revoked.

By the Commission. (Chairman Purcell, Commissioners Healy, Pike, Burke, and O'Brien).

TITLE 6—AGRICULTURAL CREDIT

CHAPTER I—FARM CREDIT ADMINISTRATION

PART 27—FEDERAL LAND BANK OF SAINT PAUL

FEES FOR SUBORDINATION OF MORTGAGES AND CONTRACTS, ETC.

Section 27.10 of Title 6, Code of Federal Regulations, is amended to read as follows:

§ 27.10 *Fees for subordination of mortgages and contracts, grants of and consents to easements, partial releases of mortgage security, partial conveyances of contract security, releases of condemnation award funds, substitution of security and division of loans, Federal Land Bank and/or Land Bank Commissioner and/or Federal Farm Mortgage Corporation mortgages and land contracts.* The following fees and charges shall be paid to The Federal Land Bank of Saint Paul in connection with Federal Land Bank and/or Land Bank Commissioner and/or Federal Farm Mortgage Corporation Mortgages and Land Contracts:

(a) For subordination of mortgages and contracts, partial releases of mortgage security, partial conveyances of contract security and grants of and consents to easements:

(1) Where the consideration involved is $250, or less, no fee shall be charged;

(2) Where the consideration is $251 to $500, the fee shall be $5.00; and

(3) Where the consideration is over $500, the fee shall be $10.00.

(b) No fee shall be charged in any of the following cases:

(1) Condemnation of security.

(2) Release of acreage for highway purposes.

(3) Subordination of mortgage to oil and/or gas lease, including any allocation of royalty income.

(c) Where sales of gravel, timber, or other material constituting security, are hereafter made, there shall be charged a fee, as set out in paragraph numbered 1, above, based upon the aggregate consideration paid during the 12 months' period commencing with the date the first payment from such sale(s) is received by the Bank, or the date other disposition thereof is ordered by the Bank.

(d) Where sales of lots or other parcels of land, constituting security, are made hereafter, there shall be charged a fee, as set out in paragraph numbered 1, above, based upon the aggregate consideration paid during the 12 months' period commencing with the date the first payment from such sale(s) is received by the Bank, or the date other disposition thereof is ordered by the Bank.

(e) Where substitution of security is involved, there shall be charged an appraisal fee of $10.00 and a title determination fee of $10.00.

(f) Where new loans are made involving a part of the security underlying an existing loan, partial releases necessitated thereby shall be made without fees.

(g) Where division of Federal Land Bank and/or Land Bank Commissioner loans is involved, there shall be charged an appraisal fee of $15.00 and a title determination fee of $7.50 for each part into which the loan is divided.

(h) In any case arising hereunder, where no appraisal fee is specified, but the requested transaction is one which in the opinion of the Bank necessitates a new appraisal, an appraisal fee of $10.00 shall be charged in addition to the fee charges as stated above. (Secs. 4, 13 'Ninth', 39 Stat. 363, 372, Sec. 26, 48 Stat. 44, Sec. 32, 48 Stat. 48, as amended, Sec. 2, 48 Stat. 345; 12 U.S.C. 676 'Seventh', 781 'Ninth', 723 (e), 1016 (e) and Sup., 1020a; 6 CFR 19.4019) [Res. Use Only As Directed. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Pink Ointment Company, Docket 4622, February 16, 1942]

In the Matter of John B. Armstrong, M. D., an individual trading as Pink Ointment Company

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 16th day of February, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondent, in which answer respondent admits all the material allegations of fact set forth in said complaint, and states that he waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That John B. Armstrong, M. D., an individual trading as Pink Ointment Company, or under any other name, his representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of his product, Pink Ointment, or any other product containing the same or similar ingredients, whether sold under the same name or any other name, do forthwith cease and desist from:

(1) Disseminating, or causing to be disseminated, any advertisement (a) by means of the United States mails or (b) by any means in commerce as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents directly or through inference that his preparation "Pink Ointment" is a cure or remedy for eczema, poison-ivy, ringworm, rash, itch, weed-poisoning, cuts, burns, bruises, athlete's foot, all kinds of skin irritations, chigger bites, mosquito bites, prickly heat, sunburn, hives, dust-poisoning, poison-oak, or sore, tender, itching, or burning feet, or that said preparation is a competent or effective treatment for such diseases and conditions or that it has any therapeutic value in excess of its antiseptic effect and its effect in affording temporary, local relief due to its counter-irritant, anti-pruritic, and analgesic properties; or which advertisements fails to reveal that the use of said preparation may cause necrosis of the skin and tissues and systemic poisoning, including irritation of the kidneys, and that the danger of such injury will be increased if the skin to which it is applied is inflamed or broken: *Provided, however*, That if the directions for use, wherever they appear on the label, in the labeling, or both on the label and in the labeling, contain a warning of the potential dangers in the use of said preparation as hereinabove set forth, such advertisement need contain only the cautionary statement: Caution, Use Only As Directed;

(2) Disseminating, or causing to be disseminated, any advertisement by any means, for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in commerce as "commerce" is defined in the Federal Trade Commission Act, of said preparation, which advertisement contains any of the representations prohibited in paragraph (1) hereof, or which fails to reveal the affirmative cautionary statement required in paragraph (1) hereof.

It is further ordered, That respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

TITLE 32—NATIONAL DEFENSE

CHAPTER III—BUREAU OF MINES

PART 301—CONTROL OF EXPLOSIVES AND THEIR INGREDIENTS IN TIME OF WAR OR NATIONAL EMERGENCY

Pursuant to the authority conferred by section 18 of the act of December 26, 1941 (Public No. 381, 77th Cong.), the regulations under the Federal Explosives Act heretofore promulgated (7 F.R. 305) are hereby amended as follows:

Section 301.2 *Definitions*, paragraph (b), is amended by changing the words:

"Nitrocellulose exceeding 10.18 percent nitrogen" to read as follows:

"Nitrocellulose exceeding 12.2 percent nitrogen"; and by changing the words:

"Nitroglycerin (except in official U. S. Pharmacopoeia solution, or in form of pills, or granules, containing not more than one-fiftieth of a grain each)"; to read as follows:

"Nitroglycerin (except in pharmacopoeia solution, or in form of pills, or granules, containing not more than one-fiftieth of a grain each [1])."

Section 301.7 is amended by adding at the end thereof a new paragraph (f), as follows:

§ 301.7 *Applications for licenses, forms.*

* * * * * *

(f) *Applications of associations, corporations, etc.* Applications of corporations, companies, or other associations or organizations operating through a board of directors, trustees, or similar officers, shall show the name, address, and nationality of all officers, directors, trustees, or persons exercising similar functions. Such applications shall show also the name, address, and the extent of interest in the voting stock or other beneficial voting holdings of the controlling stockholders or members, beginning with the holder of the largest voting interest and continuing in the order of the amount of the respective diminishing voting holdings, until not less than 50 per cent of all voting stock or other beneficial voting holdings is shown: *Provided*, That in any case at least the top three such holdings must be shown, and not more than ten need be shown. The nationality of each stockholder or member listed in the application must also be shown, except that in the case of applicants whose stock or beneficial voting interests are widely distributed among a large number of holders, the nationality of whom is not known or readily ascertainable and which for that reason cannot be shown, the application may contain a statement based upon, and stated to be based upon, belief and the best information available as to what the nationality of the controlling stockholders or members may be, and should contain any evidentiary facts thereof, such as facts of residence. This statement may be accepted in lieu of specific information in regard thereto.

If the controlling stockholders or members of the applicant are one or more corporations or other organizations, the name, address, and nationality of the officers, directors, trustees, or other similar officers, and of the controlling stockholders or members thereof, must be shown in the same manner and to the same extent as is required of the applicant itself.

In the case of organizations such as cooperatives, the individual voting interests in which are equal in amount, no list of stockholders or members need be included in the application, but the application shall contain a statement of the nationality of at least sixty per cent of the stockholders or members. If the nationality is not definitely known by reason of the number of stockowners or members, the statement may be based upon information and belief, as in the case of other corporations or associations in similar circumstances.

Section 301.8 (a) *Purchaser's, vendor's or foreman's applications* is amended by adding at the end thereof two sentences as follows:

§ 301.8 *Filing of applications*—(a) *Purchaser's, vendor's, or foreman's applications.* * * *

Applications for purchaser's, vendor's, and foreman's licenses shall not be filed with the Director except for a special reason stated with the application. Any of such applications filed with the Director unaccompanied by such a statement, or accompanied by a statement deemed insufficient, will be returned to the applicant for filing with a local Licensing Agent.

* * * * * *

There is hereby added to said regulations immediately following § 301.10 a new section, 301.10a as follows:

§ 301.10a *Fees for licenses and copies.* Before any license, whether original, duplicate, or certified copy, is issued by a Licensing Agent, he is entitled to receive from the applicant, and the applicant shall pay to the Licensing Agent, the sum of twenty-five cents for each license issued. In the case of applications filed with Licensing Agents for the purpose of forwarding to the Director, pursuant to § 301.8 (b), the Licensing Agent may collect the sum of twenty-five cents for each application to be forwarded, on account of his costs and fees. Licensing Agents will have and receive for their own account, as compensation for their services all fees paid to them. No fees are required to accompany applications filed with the Director, nor are any fees required for the issuance of a license by the Director.

Section 301.20 is hereby amended to read as follows:

§ 301.20 *Special instructions for the manufacture and sale of fireworks*—(a) *Varieties permitted to be manufactured.* None but the following varieties of fireworks may be manufactured for retail sale.

Roman candles—not over ten-ball.

Rockets—not over a size commercially designated as eight-ounce.

Wheels—not over ten inches in diameter.

Torches and colored lights of all descriptions.

Snakes which do not contain any mercury salt.

Sparklers and dipped sticks.

Fountains.

Shells and mines in which no explosive is used except as a propellant or expellant.

Paper caps having an explosive content of not more than .15 grains of explosive in each cap.

Smoke pots.

(b) *Authority to sell existing stock.* Stock of the varieties above listed, although varying from the specifications in (a) *supra*, which was manufactured prior to January 1, 1942, may be sold under license.

(c) *Compliance with other laws.* Nothing in these regulations will permit the manufacture or sale of any fireworks prohibited by local or State laws or by any other Federal law or regulations.

[1] The foregoing amendment of § 301.2 and the amendments following are issued under authority contained in sec. 18, Public Law 381, 77th Cong.

(d) *Purchase of fireworks at retail.* No license will be required for the purchase at retail of the varieties permitted to be manufactured pursuant to paragraph (a) of this section.

R. R. SAYERS,
Director, Bureau of Mines.

Approved: February 17, 1942.

OSCAR L. CHAPMAN,
Assistant Secretary.

CHAPTER VI—SELECTIVE SERVICE SYSTEM

[No 54]

ORDER PRESCRIBING FORMS

By virtue of the Selective Training and Service Act of 1940 (54 Stat. 885) and the authority vested in me by the rules and regulations prescribed by the President thereunder, and more particularly the provisions of Paragraph 163 and Appendix A to Volume One of the Selective Service Regulations, I hereby prescribe the following change in DSS forms:

Addition of a new form designated as DSS Form 301,[1] entitled "Application by Alien for Relief from Military Service," effective immediately upon the filing hereof with the Division of the Federal Register.

The foregoing addition shall, effective immediately upon the filing hereof with the Division of the Federal Register, become a part of Appendix A to Volume One, Selective Service Regulations.

LEWIS B. HERSHEY,
Director.

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 921—ALUMINUM

Supplementary Order No. M-1-f to Conserve the Supply and Direct the Distribution of Aluminum

Whereas national defense requirements have created a shortage of aluminum; and

Whereas the restrictions and requirements relating to the use of aluminum hereinafter set forth are necessary to conserve the supply and direct the distribution thereof in the interest of national defense:

Now, therefore, it is ordered, That:

§ 921.8 *Supplementary Order M-1-f*—(a) *Definitions.* For the purposes of this Order:

(1) "Aluminum" means any material the principal individual ingredient of which by either weight or volume is metallic aluminum, in ingot or similar raw form or in the form of finished or semi-finished parts, assemblies, or products of any kind; but as provided in (n) below, this Order does not apply to aluminum in certain forms and uses.

(2) "Person" means any individual, partnership, association, business trust, corporation, Governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(3) "Producer" means the Aluminum Company of America, the Reynolds Metals Company, and any other Person who may be so designated by the Director of Industry Operations.

(4) "Approved smelter" means any Person whose name appears on Schedule A attached to this Order, as the same may be amended from time to time by the Director of Industry Operations.

(5) "Fabricator" means any Person (including machine shops, pattern shops, and foundries) who manufactures Aluminum products from raw Aluminum or from Aluminum scrap, also any Person who manufactures Aluminum foil, forgings, impact extrusions, tubing, rivets, or powder.

(6) "Essential item" means any Aluminum to be used in conformity with Supplementary Order M-1-e as the same may be amended from time to time.

(b) *Allocation of output of producers, approved smelters, and fabricators.* No Producer, Approved Smelter, or Fabricator shall deliver any Aluminum except pursuant to allocation or as the Director of Industry Operations may otherwise specifically authorize. Each Producer, Approved Smelter, and Fabricator shall file a shipping schedule for each month, on or before the 15th day of the preceding month on Form PD-26A or on such other form as may be prescribed for the purpose. The Director of Industry Operations will thereupon issue to him specific allocations authorizing the deliveries which he may make during that month.

(c) *Requirements relating to placement of orders with, and acceptance of orders by, producers, approved smelters, and fabricators.* Except as the Director of Industry Operations may specifically authorize, a Producer, Approved Smelter, or Fabricator shall include, in his shipping schedule for any month subsequent to February 1942, Essential Items only; and no item shall be included unless the customer, on or before the 5th day of the preceding month (1) shall have definitively requested the delivery thereof, and (2) shall have filed with the supplier information as to the exact part to be made from the Aluminum, the product in which such part is to be incorporated or assembled, and the end use to be made of such product, also, any further information which may be necessary to enable the supplier to fill out his shipping schedule: *Provided, however,* That where the customer is a Fabricator or Producer or Approved Smelter he need only indicate to the supplier that he has filed such information on his own shipping schedule. No customer shall order or acquire Aluminum from a Producer, Approved Smelter, or Fabricator for the manufacture of any item or use permitted by paragraph (b) of Supplementary Order M-1-e as the same may be amended from time to time, unless the acquisition of such Aluminum has been specifically authorized by a preference rating certificate issued subsequent to October 31 1941.

(d) *Operations restricted to the fulfillment of purchase orders for essential items.* Aluminum in the hands of any Person other than a Producer, Approved Smelter, or Fabricator, may be acquired and disposed of without specific authorization from the Director of Industry Operations, but only in the fulfillment of rated purchase orders for Essential Items: *Provided, always,* That any Aluminum received pursuant to an allocation or other specific authorization shall be used and disposed of only for the particular purpose so authorized: *And provided, further,* That, except in the case of a Producer or Approved Smelter or as the Director of Industry Operations may specifically authorize, no Person shall acquire any Aluminum which he could use only by smelting or melting the same. Except as provided above or as the Director of Industry Operations may specifically authorize, no Aluminum shall be acquired or disposed of by any Person.

(e) *Inventory of and scheduling of orders for aluminum.* (1) No Person shall order Aluminum except in amounts, and for delivery at such times, as may be necessary to maintain the minimum working inventory which he requires for the fulfillment of rated purchase orders on hand, for Essential Items. Where appropriate, he shall reduce or defer his outstanding orders for Aluminum so that his inventory shall be reduced to the practicable minimum.

(2) Each Producer, Approved Smelter, Fabricator, and other Person (other than a Governmental corporation or agency) who uses Aluminum in manufacture shall, on or before the 20th of April, 1942, and thereafter quarterly, file an inventory report on Form PD-40A or such other form as may be prescribed for the purpose.

(f) *Dead stocks.* (1) All Aluminum which is not being used in, or which is in excess of immediate needs for, the fulfillment of purchase orders for Essential Items shall, promptly (i) be sold upon certification in writing to the seller by the buyer that he will use, promptly, the Aluminum in question in the fulfillment of rated purchase orders for Essential Items, or (ii) be scrapped and disposed of as provided in Supplementary Order M-1-d. No such Aluminum shall be acquired or disposed of in any other way except as the Director of Industry Operations may specifically authorize or direct. The provisions of paragraphs (b), (c), and (d) above shall not apply to any transaction required by this subparagraph and specific authorization from the Director of Industry Operations is not required for any such transaction: *Provided, however,* That, except in the case of a Producer or Approved Smelter or as the Director of Industry Operations may specifically authorize, no Person shall acquire any Aluminum which he could use only by smelting or melting the same.

(2) Each Person who owns any Aluminum shall, on or before March 31, 1942, report the amount and kind of all Aluminum owned by him: *Provided, however,* That no such report need be filed (i) as regards any Aluminum to which this Order does not apply as provided in (n) below, or (ii) by a Governmental corporation or agency or any Person who is required to file inventory reports pursuant to (e) above. No special form is prescribed for such report. Failure to make such report on the part of any such Person shall be deemed a representation to the War Production Board, subject to the penalties of Section 35-A of the United States Criminal Code, that such person does not own any Aluminum.

(g) *Tolling.* Except as the Director of Industry Operations may specifically authorize, no Aluminum shall be delivered for processing or returned under any toll, repurchase, or similar arrangement.

(h) *No acquisition or delivery in violation of order.* No Person shall acquire or deliver Aluminum or products made therefrom if he has reason to believe that such material has been or is to be used in violation of the terms of this or any other order of the Director of Industry Operations: *Provided,* That, pursuant to the provisions of (f) above, any Person may freely acquire Aluminum at any time irrespective of the status under this Order of the Person disposing of the same.

(i) *Reports and communications.* All reports required to be filed hereunder, and all communications concerning this Order shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: M-1-f.

(j) *Operation of same person in different capacities.* Any Person who, in the use of Aluminum in manufacture, operates in more than one capacity (for example, both as a Producer and Fabricator) shall, in each such capacity, be subject to the applicable obligations and restrictions imposed by this Order. The initial putting into fabrication or other use of raw Aluminum by a Producer or Approved Smelter who produced the same shall be deemed a delivery thereof hereunder.

(k) *Hardship clause.* Where, under the peculiar circumstances of an individual case, disposition of Aluminum as required by (f) above cannot be effected at regularly established prices and terms of sale or payment, or would otherwise impose an unreasonable hardship or sacrifice, the Person required to dispose of the same may apply to the Director of Industry Operations for exemption in whole or in part from the operation of such provision. Such application shall specify the nature and extent of exemption applied for and shall fully set forth the facts alleged to prove unreasonable hardship or sacrifice. Except as the Director of Industry Operations may otherwise specifically direct, pending determination by him of the merits of any case in which exemption has been so applied for, the filing of the application therefor shall be effective to afford the applicant a temporary exemption, to the extent applied for, from the operation of (f) above: *Provided, however,* That such filing of the application shall not have any such effect if, at any time, the Director of Industry Operations shall find that such application was not filed in good faith.

(l) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(m) *Violations.* Any Person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35-A of the Criminal Code (18 U.S.C. 80).

(n) *Scope of the Order.* (1) This Order shall govern the acquisition and disposition of all Aluminum, but, anything herein to the contrary notwithstanding, shall not apply (i) to Aluminum products which are being used by the ultimate consumer, (ii) to Aluminum products after completion which are being disposed of to, or for resale to, the ultimate consumer, in the normal channels of trade, or (iii) to "Aluminum Scrap" as defined in Supplementary Order M-1-d.

(2) No preference rating order or certificate, outstanding or hereafter issued, shall constitute, hereunder, sufficient authorization for any delivery or acquisition of Aluminum except (i) preference ratings or certificates assigned and applied to purchase orders for Essential Items, and (ii) preference rating certificates issued subsequent to October 31, 1941, which specifically authorize the acquisition of Aluminum: *Provided, however,* That, in addition, specific authorization for delivery is obtained from the Director of Industry Operations where required by the provisions of (b), (d), or (f) above.

(o) *Revocation.* General Preference Order M-1 and Supplementary Order M-1-a as extended, and all authorizations and directions issued pursuant thereto, are hereby terminated effective immediately, except that the following, if operative immediately prior to the effective date of this Order, shall remain effective:

(1) Any allocation issued subsequent to October 31, 1941;

(2) Any approval of any toll arrangement issued subsequent to October 31, 1941;

(3) Any preference rating certificate issued subsequent to October 31, 1941; and

(4) Insofar as concerns completion of delivery of Aluminum which is in transit as of the effective date of this Order, any other applicable authorization issued prior to the effective date of this Order.

(p) *Effective date.* This Order shall take effect immediately upon its issuance and unless sooner terminated by the Director of Industry Operations shall expire on the 31st day of December 1942. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. PART 933—COPPER

Interpretation No. 1 of February 6, 1942 Amendment to General Preference Order No. M-9-a[1]

The following official interpretation is hereby issued by the Director of Industry Operations with respect to § 933.2 (*General Preference Order No. M-9-a*) as amended February 6, 1942:

General Preference Order No. M-9-a, paragraph (d) as amended February 6, 1942, reads as follows:

(d) *Deliveries by all others except refiners.* Except as otherwise specifically

[1] 6 F.R. 3889; 7 F.R. 68, 162, 809.

[1] Filed as part of the original document.

authorized by the Director, orders for Copper from Dealers and orders for Copper Base Alloy and Copper Products from any Brass Mill, Wire Mill, Warehouse or foundry must be accepted and filled by them in accordance with Priority Regulation No. 1 as the same shall be amended from time to time except that no such order shall be accepted or filled by any such Person which does not bear a preference rating of A–10 or higher.

In applying this paragraph, a Warehouse should note that it is only covered to the extent that its operations come within those of a Warehouse as defined by Order M–9–a as amended. That Order defines a Warehouse as "any Person regularly engaged in the wholesale business who maintains stocks of Brass Mill or Wire Mill Products and sells or holds the same for sale without change in form". Thus, paragraph (d) as amended as applied to a Warehouse only prohibits the acceptance or filling of a wholesale order for Brass Mill Products or Wire Mill Products not bearing a preference rating of A–10 or higher. Order M–9–a defines "Brass Mill Products" to mean "sheets, wire, rod or tube made from Copper or Copper Base Alloy", and "Wire Mill Products" to mean "bare or insulated wire for electrical conduction made from Copper or Copper Base Alloy". (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 19th day of February 1942.

Director of Industry Operations.

PART 940—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

Amendment No. 4 to Supplementary Order No. M–15–b[1] To Restrict the Use and Sale of Rubber

Section 940.3 (*Supplementary Order No. M–15–b*) is hereby amended as follows: By striking out subparagraph (a) (1) thereof and substituting therefor the following:

(1) "Rubber" means all forms and types of crude rubber (including crepe rubber for soles or any other purpose) but does not include balata, gutta-percha, gutta siak, gutta jelutong, pontianac, reclaimed rubber, scrap rubber or Latex. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

PART 1032—DIRECT-CONSUMPTION SUGAR

Amendment No. 1 to General Preference Order M–55,[1] as Amended January 24, 1942, to Conserve the Supply and Direct the Distribution of Direct-Consumption Sugar.

Section 1032.1 (General Preference Order M–55, as amended January 24, 1942), paragraph (d) providing for "Quota Restrictions and Exceptions Thereto", is hereby amended by adding thereto paragraph (d) (6), reading as follows:

(d) *Quota restrictions and exceptions thereto.*

* * * * *

(6) *Further Deliveries Not Charged Against Quotas.* Notwithstanding the foregoing limitations, any Receiver who sells Direct-Consumption Sugar to household consumers may accept delivery of Direct-Consumption Sugar from household consumers without charging it against his quota. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

This amendment shall take effect immediately. Issued this 19th day of February, 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1032—DIRECT-CONSUMPTION SUGAR

§ 1032.3 *Supplementary Order No. M–55–b.* (a) The Director of Industry Operations hereby determines that during the Month of March 1942 the quota of Direct-Consumption Sugar Permitted Receivers under Paragraph (d) of Order No. M–55, as amended, shall be 80 percent of use or resale during the base period of 1941 as prescribed by the said Order No. M–55.

(b) This Order shall take effect immediately. (P.D. Reg. 1 Amended, Dec. 23, 1941, 6 F.R. 6680; O.P.M. Reg. 3 Amended, Sept. 2, 1941, 6 F.R. 4865; E.O. 8629, Jan. 7, 1941, 6 F.R. 191; E.O. 8875, Aug. 28, 1941, 6 F.R. 4453; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

Issued this 19th day of February, 1942.

PART 1107—TRACK-LAYING TRACTORS AND AUXILIARY EQUIPMENT

Limitation Order No. L–53 To Direct the Distribution of Track-laying Tractors and Auxiliary Equipment

Whereas, the manufacture of Track-laying Tractors and Auxiliary Equipment consumes large quantities of materials; the requirements of national defense have resulted in a shortage in the supply of such materials and of Track-laying Tractors and Auxiliary Equipment for defense, for private account and for export; it is essential to the national defense program that such materials be conserved and an adequate supply of Track-laying Tractors and Auxiliary Equipment be produced and distributed to essential defense and civilian uses; and to this end it has become necessary that certain restrictions be placed on the distribution of Track-laying Tractors and Auxiliary Equipment;

Now, therefore, it is hereby ordered, That:

§ 1107.1 *Limitation Order L–53*—(a) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Definitions.* For the purpose of this Order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Producer" means any person engaged in the manufacture of Track-laying Tractors and Auxiliary Equipment.

(3) "Track-laying tractor" means a vehicle powered by an internal combustion engine, used for pushing or pulling heavy loads and obtaining traction from a crawler or track-type device.

(4) "Auxiliary equipment" means bull-dozers, angle-dozers, power winches and power control units produced for mounting on Track-laying Tractors.

(5) "Unused" when applied to Track-laying Tractors or Auxiliary Equipment means any Track-laying Tractor or Auxiliary Equipment which has never been delivered to an ultimate consumer.

(c) *Prohibition of sale of track-laying tractors.* Until further order of the Director of Industry Operations, no Producer, dealer or other authorized channel of distribution of Track-laying Tractors or Auxiliary Equipment shall sell, lease, trade, lend, deliver, ship or transfer any unused Track-laying Tractor or unused Auxiliary Equipment except to other producers, dealers or other authorized channels of distribution for resale; and no person (with the exception of other producers, dealers or other authorized channels of distribution for resale) shall accept any such sale, lease, trade, loan, delivery, shipment or transfer of any unused Track-laying Tractor or unused Auxiliary Equipment.

(d) *Exceptions from prohibition of sale.* Nothing in this Order shall prevent any person from making a sale, lease, trade, loan, delivery, shipment or transfer

(i) of Track-laying Tractors or Auxiliary Equipment to or for the account of any person who prior to the effective date of this Order has received an order or certificate of the Director of Industry Operations assigning a preference rating higher than A–2 specifically to the delivery of a Track-laying Tractor or of Auxiliary Equipment and issued to and designating the person seeking to purchase said Track-laying Tractor or Auxiliary Equipment; or

(ii) of Auxiliary Equipment to be mounted on a Track-laying Tractor in the possession of an ultimate consumer.

(e) *Transfer of title and retaking of possession under conditional sale, chattel mortgage, bailment lease or similar installment contracts.* Nothing in this Order shall prevent any person from transferring title to a Track-laying Tractor or to Auxiliary Equipment pursuant to the terms of a conditional sale, chattel mortgage sale, bailment lease or similar installment contract entered into prior to the effective date of this Order or from retaking, repossessing or obtaining re-delivery of any vehicle upon default, breach or other contingency under the terms of a conditional sale, chattel mortgage sale, bailment lease or similar installment contract entered into prior to such date.

(f) *Records.* All persons affected by this Order shall keep and preserve for not less than 2 years accurate and complete records concerning inventories, purchases, production and sales.

(g) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(h) *Reports.* All persons affected by this Order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time require.

(i) *Violations or false statements.* Any person who violates this Order or who willfully falsifies any records which he is required to keep by the terms of this Order, or otherwise willfully furnishes false information to the War Production Board may be deprived of priorities assistance or may be prohibited by the War Production Board from obtaining any further deliveries of materials subject to allocation. The War Production Board may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(j) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from nondefense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The War Production Board may thereupon take such action, if any, as it deems appropriate by the amendment of this Order or otherwise.

(k) *Communications.* All communications concerning this Order shall be addressed to War Production Board, Washington, D. C., Ref.: L–53.

(l) *Effective date.* This Order shall take effect at 9 a. m., Eastern War Time, of the date of its issuance. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. No. 671, 76th Cong., 3d Sess., as amended by Pub. No. 89, 77th Cong., 1st Sess.)

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1340—FUEL

AMENDMENT NO. 4 TO PRICE SCHEDULE NO. 88[1]—PETROLEUM AND PETROLEUM PRODUCTS

Section 1340.159 (b) (6) (ii) is amended to read as set forth below.[2]

§ 1340.159 *Maximum prices for petroleum and petroleum products.*

* * * * *

(b) *Petroleum products.*

* * * * *

(6) (ii) Where the maximum price for products at a given shipping or delivery point cannot be determined under (i) above, sellers may sell such products at the market price prevailing at the time of the sale: *Provided,* That notice of the sale and the price thereof is furnished to this Office, within fifteen days after the sale, when the price is in excess of the price of the last sale of a product of similar quality made by the seller prior to November 7, 1941. TITLE 47—TELECOMMUNICATION

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 5—RULES AND REGULATIONS GOVERNING EXPERIMENTAL RADIO SERVICES

The Commission, on February 17, 1942, effective April 2, 1942, amended § 5.32 (a), *License period,* to read as follows:

§ 5.32 *License period.* (a) Licenses for class 1 and class 2 experimental stations will be issued for a period of 1 year unless otherwise stated in the instrument of authorization. The dates of expiration of licenses for class 1 experimental stations and class 2 experimental stations operating in a service other than broadcast shall be the 1st day of October and the 1st day of November, respectively, of each year. The date of expiration of licenses of class 2 experimental stations operating in the broadcast service will be governed by the rules and regulations governing that service. (Sec. 4 (i), 48 Stat. 1068; 47 U.S.C. 154 (i)—sec. 307 (d), 48 Stat. 1084; 47 U.S.C. 307 (d))

PART 13—RULES GOVERNING COMMERCIAL RADIO OPERATORS

At a meeting of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of February, 1942;

The Commission having under consideration the request of the Defense Communications Board that the Commission consider relaxation of its rules and regulations governing the requirements for operators of broadcast stations; and

It appearing that the demand of the military services for operators holding radiotelephone first class licenses has increased as a result of the war, and that such demand has decreased the number of operators qualified for operation of broadcast stations, resulting in a shortage of such operators;

It is ordered, That until further order of the Commission a broadcast station of any class, which by reason of actual inability to secure the services of an operator or operators of the proper class could not otherwise be operated, may be operated by holders of radiotelegraph first or second class operator licenses, or radiotelephone second class operator licenses, notwithstanding the provisions of § 13.61, paragraphs (a), (c) (1) and (d) (1) of the Commission's Rules and Regulations Governing Commercial Radio Operators;

Provided, however, That these classes of operator licenses shall be valid for the operation of broadcast stations upon the condition that one or more first class radiotelephone operators are employed who shall be responsible at all times for the technical operation of the station and shall make all adjustments of the transmitting equipment other than minor adjustments which normally are needed in the daily operation of the station:

Provided further, That nothing contained herein shall be construed to relieve a station licensee of responsibility for operation of the station in exact accordance with the Rules and Regulations of the Commission; and

Provided, further, That § 13.61 of the Commission's Rules and Regulations Governing Commercial Radio Operators shall remain in full force and effect except as modified by this Order.

PART 14—RULES GOVERNING RADIO STATIONS IN ALASKA OTHER THAN AMATEUR AND BROADCAST

The Commission on February 17, 1942, effective April 2, 1942, adopted a new § 14.4, *License period*, to read as follows:

§ 14.4 *License period.* Licenses for all classes of stations operating in Alaska will be issued for a period of 1 year unless otherwise stated in the instrument of authorization. The date of expiration of such licenses shall be the 1st day of January of each year. (Sec. 4 (i), 48 Stat. 1068; 47 U.S.C. 154 (i)—sec. 307 (d), 48 Stat. 1084; 47 U.S.C. 307 (d))

[Docket No. A-1308]

THE PETITION OF DISTRICT BOARD NO. 8 FOR A PROVISION IN THE SCHEDULE OF EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 8, FOR ALL SHIPMENTS EXCEPT TRUCK, PERMITTING THE ABSORPTION OF THE C. & O. RAILWAY SWITCHING CHARGE APPLICABLE ON SHIPMENTS FROM FREIGHT ORIGIN GROUP NO. 63 TO THE C. C. & O. RAILROAD FOR OFF-LINE RAILWAY LOCOMOTIVE FUEL

NOTICE OF AND ORDER FOR HEARING

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on March 17, 1942 at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Edward J. Hayes or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before March 12, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 8 for an order establishing an addition to the Special Prices established by Price Schedule No. 1—District No. 8—High Volatile section IV, Page 46, Paragraph A 2 (c) (2) as follows: Mines in Freight Origin Group No. 63 (C. & O. only) may deduct $6.93 per car switching charge on coal sold for off-line railway locomotive fuel to the C. C. O. Railroad.

IN THE MATTER OF REYNOLDS LATTIER & SCHIED, ALSO KNOWN AS CHARLES REYNOLDS, DAVID LATTIER AND JOHN SCHIED, INDIVIDUALLY AND AS CO-PARTNERS, DOING BUSINESS UNDER THE NAME AND STYLE OF REYNOLDS, LATTIER & SCHIED, CODE MEMBER, DEFENDANTS

NOTICE OF AND ORDER FOR HEARING

A complaint dated October 7, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, having been duly filed on October 15, 1941, by Bituminous Coal Producers Board for District No. 11, a district board, complainant, with the Bituminous Coal Division alleging willful violation by the defendants of the Bituminous Coal Code or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on March 26, 1942, at 10 a. m., at a hearing room of the Bituminous Coal Division at the Post Office Building, Terre Haute, Indiana.

It is further ordered, That Edward J. Hayes or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said defendant and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given, that answer to the complaint must be filed with the Bituminous Coal Division at its Washington office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the defendant; and that any defendant failing to file an answer within such period, unless otherwise ordered, shall be deemed to have admitted the allegations of the complaint herein and to have consented to the entry of an appropriate order on the basis of the facts alleged.

All persons are hereby notified, that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging willful violation by the above-named defendant of the Bituminous Coal Code or rules and regulations thereunder as follows: (a) that the defendants Reynolds, Lattier & Schied, also known as Charles Reynolds, David Lattier and John Schied, individually and as co-partners, doing business under the name and style of Reynolds, Lattier & Schied, code member, whose address is Staunton, Indiana, sold to various purchasers during the period from October 7, 1940, to April 26, 1941, both dates inclusive, a substantial amount of 1¼" lump coal (Size Group No. 6) produced at their Happy Hollow Mine (Mine Index No. 270), located in Posey Township, Clay County, Indiana in District No. 11, at a price of $1.70 per net ton f. o. b. said mine, whereas the effective price established for said coal was $2.10 per net ton f. o. b. said mine as shown in the Schedule of Effective Minimum Prices for District No. 11 For Truck Shipments, resulting in violation of the effective minimum prices established therefor.

(b) that the aforesaid defendants intentionally represented, invoiced, and recorded in the sales records of said defendants the above said coal as run of mine, whereas said coal was, in fact, 1¼" lump coal, Size Group No. 6, resulting in violation of section 4 II (i), paragraph 8 of the Act, and Rule 8 of section XIII of the Marketing Rules and Regulations.

Notice is also hereby given that upon determination that the defendants have committed any one or more of the violations as alleged in the complaint, an Order may be entered either revoking the Code membership of the defendants or directing the defendants to cease and desist from violating the Code and regulations made thereunder.

Dated: February 17, 1942.

[Docket No. A-1065]

PETITION OF DISTRICT BOARD NO. 7 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR A MIXTURE OF THE COALS PRODUCED AT MINES NOS. 2, 3, AND 6 OF C. H. MEAD COAL CO., A CODE MEMBER IN DISTRICT NO. 7

MEMORANDUM OPINION AND ORDER DENYING PETITION FOR RECONSIDERATION OR FOR A FURTHER HEARING

This proceeding was instituted upon a petition filed with the Bituminous Coal Division by District Board 7, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment of certain price classifications and minimum prices for a mixture of coals produced at the No. 2 & 3 Mine (Mine Index No. 117) of C. H. Mead Coal Company, operating in the Pocahontas No. 3 Seam, and at the No. 6 Mine of Mead in the Pocahontas No. 4 Seam. Thereafter, a hearing in this matter was held before a duly designated Examiner of the Division, at which District Board 7 appeared. The preparation and filing of a report by the Examiner was waived and the record in the proceeding was thereupon submitted to the undersigned.

On January 24, 1942, the undersigned issued his Findings of Fact, Conclusions of Law, and Opinion in this matter and entered an Order amending the District 7 price schedules by establishing certain classifications and effective minimum prices for the coals produced at the No. 6 Mine (Mine Index No. 240) of Mead. On February 7, 1942, District Board 7 filed a petition for reconsideration of said Order or, in the event reconsideration is denied, for a further hearing.

The mixture classifications and prices sought by the petitioner in this proceeding were identical with the classifications and prices presently applicable to the coals of the Mead No. 2 & 3 Mine. The classifications and prices established herein by the Order of January 24, 1942, for the Mead No. 6 Mine were, in the absence of evidence to indicate that the coal of said mine was different in characteristics or quality from any other Pocahontas No. 4 Seam coal in subdistrict 5 of District 7, the same as those established for other Pocahontas No. 4 Seam coals in Subdistrict 5. To the extent that the classifications and prices established for the coals of the No. 6 Mine are identical with the effective classifications and prices for the coals of the No. 2 & 3 Mine, the relief sought herein by the petitioner was thus, in effect, granted, since a mixture of two identically priced coals will take the price of either of the component coals. To the extent that prices were established for the Mead Pocahontas No. 4 Seam coals different from those in effect for the Mead Pocahontas No. 3 Seam coals, the sought for relief was not granted. Such disparity in prices occurs in Size Groups 2, 3, and 4 only. In these size groups the classifications of Mead's Pocahontas No. 3 Seam coals are lower than the classifications of its Pocahontas No. 4 Seam coals. The effect is thus to increase slightly the minimum prices at which a mixture of the coals of the No. 2 & 3 Mine and the No. 6 Mine may be sold over the requested mixture price for those size groups.

While the petitioner, in its petition for reconsideration, emphasizes that there was "merely requested a change in the present classifications to show the coal to be a mixture produced from Mead Mine #2, 3, & 6 in Pocahontas No. 3 and No. 4 seams rather than from Mead Mine #2 & 3 in Pocahontas No. 3 seam alone," the fact remains that the record contains insufficient evidence to warrant granting the relief sought by the petitioner to the extent that it involves establishing but one set of classifications and prices for a mixture of coals produced at the No. 2 & 3 Mine and at the No. 6 Mine. It is clear that Mead's No. 6 Mine coals are produced from a seam different from that in which its No. 2 & 3 Mine coals are found. In these circumstances, and in the absence of other evidence, the No. 6 Mine must be considered to be a separate mine and classified accordingly. In substance, however, as pointed out above and in the Findings of Fact herein, by virtue of the application of Price Exception 3, such separate classification of the No. 6 Mine will nevertheless afford Mead the mixture price sought by the petitioner except, as indicated above and in the Findings of Fact, with respect to Size Groups 2, 3, and 4.

It is thus clear that it is to the coals in Size Groups 2, 3, and 4 that the petitioner presently addresses itself. Mead desires to be able to sell a mixture of Pocahontas No. 3 and Pocahontas No. 4 Seam coals in Size Groups 2, 3, and 4 at the same prices now applicable to the Pocahontas No. 3 Seam coals in those size groups. However, the classifications of Mead's Pocahontas No. 3 Seam coals in those size groups were reduced in Docket No. A-701 from D, C, and A, the classifications presently established for Mead's Pocahontas No. 4 Seam coals, to F, E, and D, respectively. There is no evidence in this proceeding to indicate justification for such reduced classifications in these sizes for the Mead Pocahontas No. 4 Seam coals, a reduction necessary to afford Mead the mixture price for those size groups that the petitioner seeks. The only specific additional evidence which the petitioner, in its petition for reconsideration, states that it will offer in the event a further hearing is granted it, relates to "the inferiority of the coals contained within Size Groups 2, 3, and 4." In these circumstances, it appears that the petitioner's remedy lies in filing a new petition, pursuant to section 4 II (d) of the Act, for the purpose of reducing the classifications of the Mead Pocahontas No. 4 Seam coal in Size Groups 2, 3, and 4. Since the record in this proceeding is devoted almost entirely to the establishment of a special mixture price, I do not consider it advisable to reopen this proceeding for that purpose. I accordingly find that the petition for reconsideration or for further hearing, filed herein by District Board 7 on February 7, 1942, should be denied.

It is so ordered.

Dated February 18, 1942.

[Docket No. A-1284]

PETITION OF DISTRICT BOARD NO. 7 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR CERTAIN COALS OF MINE INDEX NO. 637 FOR ALL SHIPMENTS EXCEPT TRUCK AND FOR TRUCK SHIPMENT AND FOR THE REVISION OF THE EFFECTIVE MINIMUM PRICES FOR THE COALS OF SUCH MINE IN SIZE GROUPS 3, 5 AND 6, FOR TRUCK SHIPMENTS

NOTICE OF AND ORDER FOR HEARING AND ORDER GRANTING TEMPORARY RELIEF

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on March 18, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in room 502 will advise as to the room where such hearing will be held.

It is further ordered, That D. C. McCurtain or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before March 13, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to:

1. The establishment of a "B" classification in Size Groups 1, 2, and 6 to 9, inclusive, and an "A" classification in Size Groups 3 to 5, inclusive, for the coals of the Stover Fork Mine (Mine Index No. 637) of Henry H. Miller, for all shipments except truck.

2. The establishment of a minimum price of $3.15 per net ton in Size Group 1 and $2.50 per net ton in Size Group 2 for the coals of such mine, for truck shipments.

3. The revision of the effective minimum prices from $2.80, $1.95, and $1.90, to $2.60, $1.90, and $1.85 per net ton, respectively, in Size Groups 3, 5, and 6, respectively, for the coals of such mine, for truck shipments.

It appears that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth, that no petitions of intervention have been filed with the Division in the above-entitled matter, and that the following action is necessary in order to effectuate the purposes of the Act.

It is further ordered, That pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, the Schedules of Effective Minimum Prices for District No. 7, For All Shipments Except Truck, and For Truck Shipments, are supplemented to include the price classifications and minimum prices set forth in the Schedules marked "Temporary Supplement R" and "Temporary Supplement T," annexed hereto and hereby made a part hereof.[1]

Notice is hereby given that applications to stay, terminate or modify the temporary relief herein granted may be filed pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to Section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: February 12, 1942.

[Docket No. A-1266]

IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO 11 FOR THE ESTABLISHMENT OF A PROVISION IN THE SCHEDULE OF EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 11, FOR ALL SHIPMENTS EXCEPT TRUCK, PERMITTING THE ABSORPTION OF THE ES&N RAILWAY SWITCHING CHARGE APPLICABLE ON SHIPMENTS FROM THE STAR HILL NO. 2 MINE (MINE INDEX NO. 81) OF THE BOONVILLE COAL SALES CORPORATION, A CODE MEMBER IN DISTRICT NO. 11

MEMORANDUM OPINION AND ORDER GRANTING TEMPORARY RELIEF

This proceeding was instituted upon a petition of District Board 11 filed with the Bituminous Coal Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, on January 12, 1942, and its motion to amend the same, filed January 15, 1942, requesting temporary and final relief granting to the Boonville Coal Sales Corporation, a code member producer in District 11, permission to absorb the railway switching charge assessed by the Evansville, Suburban & Newburgh Railway Company ("ES&N") on shipments of coal from the Star Hill No. 2 Mine (Mine Index No. 81) (1) to all destinations except those located on or reached via the Chicago & Eastern Illinois Railroad Company ("C&EI"), the Chicago, Indianapolis and Louisville Railway Company ("CI&L"), The New York Central Railroad Company-CCC&StL ("NYC-CCC&StL"), the Illinois Central Railroad Company ("IC"), or The Pennsylvania Railroad Company ("Penna."), and (2) for shipments of locomotive fuel for use by the Southern Railway Company ("Southern").

Pursuant to telegraphic notice to District Boards 9, 10, and 11, and the Statistical Bureaus for those districts, and notice by memorandum to the Bituminous Coal Consumers' Counsel, and after notice by District Board 11 to all rail mines in that district, an informal conference was held on January 30, 1942, in accordance with Section 301.106 of the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. District Boards 8 and 11, the Consumers' Counsel, and the Boonville Coal Sales Corporation were represented at the conference, none voicing opposition to the requested relief.

At the conference, the petitioner represented that the Star Hill No. 2 Mine, located in the Boonville Subdistrict, operates in the Fifth Vein and ships by rail. When it was last operated, prior to June 1938, it was served by the ES&N and Southern railways, although due to a tipple arrangement it could load only limited sizes on the Southern's track. Thereafter, the Southern removed a spur track which served the mine and the mine is now served only by the ES&N. Cars are hauled by the ES&N a distance of about three miles from the mine to Boonville, Castle Garden, or perhaps Chandler, Indiana, where they are switched onto the Southern for shipment to destinations on that or intersecting carriers. For this service the ES&N makes a switching charge of $8.80 per car. When shipments are consigned to points beyond the rails of the Southern, located on or reached via the C&EI, CI&L, NYC-CCC&StL, IC and Penna., the Southern absorbs this switching charge, but for all other points, including those on the Southern, it does not. To compete in these latter markets, Boonville Coal would have to absorb the switching charge.

It was admitted that the markets Boonville Coal seeks to reach on which it would absorb the switching charge would be new to it, probably because when the Star Hill No. 2 Mine was previously operated, prices were too depressed to permit the switching absorption by the producer. But it was stated that the new markets are primarily District 11 markets, are generally nearer to the mine and have larger consumption than its present markets, and include Charlestown, Indiana, about 115 miles from the mine, where large plants of du Pont and Goodyear are now located. It was stated that Star Hill No. 1 Mine, which by Order of July 25, 1941, in Docket No. A-743, received permanent relief similar to that sought herein, is identically situated with Star Hill No. 2 Mine, produces the same quality of coal, has the same freight rates, and is owned by the same interests. Likewise, in Docket No. A-195 the Director allowed freight rate absorptions so as to permit all other Fifth Vein mines to deliver coals in Charlestown upon a competitive basis.

Regarding the necessity for relief on shipments of railroad locomotive fuel, the petitioner represented that production of Star Hill No. 2 Mine may reach an estimated maximum of 1,500 tons per day, while the ES&N, the only railroad to which it is on-line, uses only two or three cars of locomotive fuel per month, now supplied by Star Hill No. 1 Mine. A larger outlet for the Star Hill No. 2 Mine is necessary in order to balance its production. The Southern is expected to make reciprocal purchases of locomotive fuel at a price equalized with on-line mines; it now makes such purchases from the Star Hill No. 1 Mine.

It appears, from the representations made at the conference, that without the relief sought, Star Hill No. 2 Mine cannot reopen with marketing opportunities equal to those available to other mines.

In view of the foregoing, the undersigned is of the opinion that a reasonable showing of the necessity for the temporary relief prayed for has been made.

Now, therefore, it is ordered, That commencing forthwith and pending final disposition of the above-entitled matter temporary relief be and the same hereby is granted by amending the Schedule of Effective Minimum Prices for District No. 11 for All Shipments Except Truck, by the establishment of the following Price Instruction and Exception:

"On all shipments from the Star Hill No. 2 Mine, Mine Index No. 81, to destinations located on, or reached via, the Southern Railway Company, except those located on, or reached via, the Chicago & Eastern Illinois Railroad Company, the Chicago, Indianapolis and Louisville Railway Company, The New York Central Railroad Company-CCC&StL, the Illinois Central Railroad Company, or The Pennsylvania Railroad; and on all shipments of locomotive fuel for use by the Southern Railway Company, the charge assessed by the Evansville, Suburban & Newburgh Railway Company for switching to the interchange with the Southern Railway Company may be absorbed, such absorption not to exceed $8.80 per car."

Nothing herein contained shall be taken or construed as an expression of opinion concerning the final disposition of this proceeding.

Dated: February 18, 1942.

[Docket No. B-25]

IN THE MATTER OF A. H. MCCRARY, DEFENDANT

CEASE AND DESIST ORDER

District Board 18 having filed a complaint with the Bituminous Coal Division on June 30, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, alleging wilful violation by A. H. McCrary, a code member in District 18, of the Bituminous Coal Code and the rules and regulations thereunder as follows:

That the defendant during January, 1941, sold substantial quantities of 2½" x 1" nut coal, produced by the defendant at his mine (Mine Index No. 127) located in Sandoval County, New Mexico, at a price $1.65 below the effective minimum price for such coal;

Pursuant to an Order of the Director and after due notice to all interested persons, a hearing in this matter having been held on December 2, 1941, before a duly designated Examiner of the Division at a hearing room thereof in Albuquerque, New Mexico, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard;

The parties to this proceeding having waived the preparation and filing of a report by the Examiner and the record in the proceeding thereupon having been submitted to the undersigned;

The undersigned having made Findings of Fact and Conclusions of Law and having rendered an Opinion in this matter which are filed herewith;

Now, therefore, it is ordered, That the defendant, his representatives, agents, servants, employees, attorneys, successors or assigns, and all persons acting or claiming to act in his behalf, cease and desist and they are hereby permanently enjoined and restrained from selling or offering to sell coal produced by the defendant at less than the applicable effective minimum price established therefor, contrary to the Bituminous Coal Act of 1937 or any rules and regulations promulgated thereunder, the Bituminous Coal Code, the Schedule of Effective Minimum Prices for District No. 18 For All Shipments, and the Marketing Rules and Regulations.

IN THE MATTER OF BLUE LABEL COAL COMPANY, A PARTNERSHIP, DEFENDANT

ORDER GRANTING APPLICATION FOR RESTORATION OF CODE MEMBERSHIP

A written complaint having been filed on June 12, 1941, by the Bituminous Coal Producers Board for District No. 15, as complainant, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act") alleging wilful violation by Eldon J. Daugherty, Alfred Epperson, Claude Schroeder, Henry Rosewald, and W. A. Ford, a partnership, trading as Blue Label Coal Company ("Blue Label Coal Company"), of the Bituminous Coal Code and rules and regulations thereunder; and

An Order having been entered herein on January 24, 1942, cancelling and revoking the code membership of Blue Label Coal Company, effective fifteen (15) days from the date thereof; and

Said Order of Cancellation and Revocation having been duly served upon Blue Label Coal Company on January 30, 1942; and

The Blue Label Coal Company having filed with the Division its application, dated February 4, 1942, for restoration of its code membership to become effective as of the date of said application; and

It appearing from said application that Blue Label Coal Company on February 4, 1942, paid to the Collector of Internal Revenue at Kansas City, Missouri, the sum of $1,075.93 as provided in said Order dated January 24, 1942, as a condition precedent to the restoration of its code membership.

Now, therefore, it is ordered, That said application of the Blue Label Coal Company dated February 4, 1942, for restoration of its code membership be, and the same hereby is granted; and

It is further ordered, That the code membership of the Blue Label Coal Company be, and the same hereby is restored as of February 8, 1942.

[General Docket No. 21]

IN THE MATTER OF DETERMINING THE EXTENT OF CHANGE, IF ANY, IN EXCESS OF 2 CENTS PER NET TON IN THE WEIGHTED AVERAGE OF THE TOTAL COSTS OF ANY OF THE MINIMUM PRICE AREAS: AND OF REVISING THE EFFECTIVE MINIMUM PRICES AS MAY BE REQUIRED BY REASON OF ANY SUCH CHANGE IN COSTS

ORDER GRANTING CERTAIN REQUESTS FOR REVIEW

FEBRUARY 18, 1942.

By an "Order for Procedure" issued by the Acting Director of the Bituminous Coal Division on January 27, 1942, and approved by me on January 28, 1942, it was provided that parties to the above-entitled proceeding might file with the Secretary of the Interior requests for review of specific questions of law and policy that pertain to the determinations embodied in the Order of the Acting Director in this proceeding dated January 27, 1942, such requests to be filed by February 10, 1942.

Pursuant to this Order for Procedure the following parties to this proceeding have filed requests: District Boards No. 1, 2, 3, 4, 6, 7, 8, 10, and 11, Associated Industries of New York, and the Bituminous Coal Consumers' Counsel.[1]

Now, therefore, after full consideration of the merit and importance of the questions of law and policy raised in these requests, review is hereby granted of the following specific questions of law and policy:

1. The question whether the divisor to be used in computing the per ton reasonable selling costs should be the total ascertainable tonnage or the total tonnage sold on the open market.

2. The question whether the criteria employed by the Acting Director in determining "reasonable costs of selling" were correct.

3. The question whether the Bituminous Coal Act permits the adjustment of the weighted average of the total costs ascertained for 1940 in order to reflect changes established to have occurred in 1941.

4. The question of what the standards of quantity and quality of proof shall be to establish anticipated changes in cost occurring in 1941.

Review of all other questions raised is hereby denied.

It is further provided, in accordance with the Order for Procedure approved January 28, that all parties desiring to do so may, not later than two weeks from this day, file briefs on the above enumerated questions of law and policy.

Dated: February 18, 1942.

Surplus Marketing Administration.

[Docket No. AO 122-A 2]

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO THE TENTATIVELY APPROVED MARKETING AGREEMENT, AS AMENDED, AND ORDER NO. 48, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE SIOUX CITY, IOWA, MARKETING AREA

Notice is hereby given of a hearing to be held in the United States Post Office Building, Sioux City, Iowa, beginning at 10:00 a. m., central war time (9:00 a. m., c. s. t.), February 26, 1942, with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and Order No. 48, as amended, regulating the handling of milk in the Sioux City, Iowa, marketing area.

This notice is given pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 et seq.), and in accordance with the General Regulations of the Surplus Marketing Administration, United States Department of Agriculture (7 CFR 900.4).

This public hearing is for the purpose of receiving evidence with respect to the amendments which are hereinafter set forth in detail. These amendments have not received the approval of the Secretary of Agriculture, and, at the hearing, evidence will be received relative to all aspects of the marketing conditions which are dealt with by the provisions to which such amendments relate. The amendments which have been proposed are as follows:

A. Amendments Proposed by the Sioux City Milk Producers' Cooperative Association

1. Delete subparagraph (1) of § 948.4 (a) and substitute therefor the following:

(1) Class I milk—$2.85 per hundredweight: *Provided*, That with respect to Class I milk disposed of by a handler under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, the price shall be $2.40 per hundredweight.

2. Delete subparagraph (2) of § 948.4 (a) and substitute therefor the following:

(2) Class II milk—$2.50 per hundredweight: *Provided*, That in no event shall the Class II price be less than the Class III price, plus 25 cents.

3. Delete subparagraph (3) of § 948.4 (a) and substitute therefor the following:

(3) Class III milk—The price per hundredweight for Class III milk shall be the price resulting from the following computation by the market administrator: Determine the average of the basic, or field, prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat received during the same period in the immediately preceding month at the following plants:

Company and location of plants. Roberts Dairy Company, Sioux City, Iowa; Carnation Milk Company, Northfield, Minnesota; Carnation Milk Company, Waverly, Iowa; Borden Milk Products Company, Sterling, Illinois; Libby, McNeill, & Libby, Morrison, Illinois.

Provided, That if the price so determined is less than the price per hundredweight computed by the market administrator in accordance with the following formula, such formula price shall be the price for Class III milk for the delivery period: Multiply by 3.5 the average price per pound of 92-score butter at wholesale in the Chicago market as reported by the United States Department of Agriculture for the delivery period during which such milk was received, add 20 percent thereof, and add 10 cents.

4. Delete paragraph (b) of § 948.8 and substitute therefor the following:

(b) *Butterfat differential.* If the milk of any producer or new producer has an average butterfat content other than 3.5 percent, such handler shall add to the uniform price for such producer, or to the new producer price for such new producer, for each one-tenth of 1 percent of average butterfat content in milk above 3.5 percent not less than, or shall deduct, respectively, from such prices for each one-tenth of 1 percent of average butterfat content in milk below 3.5 percent, not more than an amount per hundredweight determined as follows:

Three cents if the average butter price used in § 948.4 (a) (3) is less than 30 cents;

Three and one-half cents if the average butter price used in § 948.4 (a) (3) is 30 cents but less than 35 cents;

Four cents if the average butter price used in § 948.4 (a) (3) is 35 cents but less than 40 cents;

Four and one-half cents if the average butter price used in § 948.4 (a) (3) is 40 cents but less than 45 cents; and

Five cents if the average butter price used in § 948.4 (a) (3) is 45 cents or more.

5. Delete in the first line of subparagraph (6) of § 948.7 (b) the term "6th" and substitute therefor the term "7th."

B. Amendments Proposed by the Dairy Division: 1. Delete paragraph (b) of § 948.4.

2. Delete § 948.6 and substitute therefor the following:

§ 948.6 *Application of provisions*—(a) *Handlers who are also producers.* (1) In the case of a handler who is also a producer and who purchases or receives no milk from other producers, the market administrator shall exclude from the computations made pursuant to section 948.7 the quantity of milk disposed of by such handler.

(2) In the case of a handler who is also a producer and who purchases or receives milk from other producers, the market administrator shall, before making the computations pursuant to § 948.7, (i) exclude from the Class I milk, Class II milk, and Class III milk, the milk purchased or received by such handler in the respective classes from other handlers, and (ii) exclude pro rata from the remaining Class I milk, Class II milk, and Class III milk, the milk received from such handler's own production.

(b) *Purchases of milk from a handler who is also a producer.* In the case of a handler who purchases or receives milk in bulk from a handler who is also a producer, the market administrator, in making the computations pursuant to section 948.7 for such purchasing handler, shall add an amount equal to the difference between the value of such milk (i) at the price for the class in which such milk was classified and (ii) at the price for Class III milk.

(c) *Payments for excess butterfat.* (1) In the case of a handler who disposes of butterfat in excess of the butterfat which, on the basis of his reports, has been received, the market administrator, in making the computations pursuant to section 948.7, shall add an amount equal to the value of such butterfat in accordance with its classification.

2. Delete paragraph (a) of § 948.7 and substitute therefor the following:

(a) *Computation of the amount to be paid producers by each handler.* For each delivery period the market administrator shall compute, subject to the provisions of section 948.6, the amount to be paid producers by each handler for milk received from them, by (i) multiplying the hundredweight of such milk in each class by the price applicable pursuant to § 948.4, (ii) adding together the resulting values of each class, and (iii) adding any amounts pursuant to § 948.6 (b) and § 948.6 (c).

3. Reconsider, revise, redesignate, or delete any other provision of the order necessitated by the foregoing proposals for the purpose of clarification or administration.

Additional copies of this notice of hearing and copies of Order No. 48, as amended, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 0312, South Building, Washington, D. C., or may be there inspected.

NOTICE OF REOPENING OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO THE TENTATIVELY APPROVED MARKETING AGREEMENT, AS AMENDED, AND ORDER NO. 46, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE LOUISVILLE, KENTUCKY, MILK MARKETING AREA

Notice is hereby given that the hearing, which was held in Louisville, Kentucky, on November 18, 1941, on certain proposed amendments to the tentatively approved marketing agreement, as amended, and to the order, as amended, regulating the handling of milk in the Louisville, Kentucky, milk marketing area, will be reopened at the Brown Hotel, Louisville, Kentucky, at 10:00 a. m., c. d. s. t., February 26, 1942.

This notice is given pursuant to the Agricultural Marketing Agreement Act of 1937 (7 U.S.C. 1940 ed. 601 et seq.) and to the General Regulations of the Surplus Marketing Administration, United States Department of Agriculture (7 CFR 900.4).

This public hearing is for the purpose of receiving further evidence as to the proposed amendments upon which the hearing was held November 18, 1941, and for the additional purpose of receiving evidence with respect to other amendments which have been proposed by the Falls Cities Cooperative Milk Producers' Association, by the market administrator, and by the Louisville Milk Dealers' Association.

The proposed amendments as to which evidence was received at the hearing on November 18, 1941, are as follows:

A. Amendments Proposed by Producers' Association: 1. Delete § 946.4 and substitute therefor the following:

§ 946.4 *Minimum prices.*—(a) *Class prices.* Each handler shall pay producers, at the time and in the manner set forth in § 946.8, not less than the following prices for the respective quantities of milk in each class computed pursuant to § 946.3 (d) (5):

(1) Class I milk—The prices as shown in the schedule below for the butter price range in which falls the average wholesale price of 92-score butter in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received: *Provided*, That for the delivery periods of December 1941 and January, February, and March 1942, the minimum price for Class I milk shall be not less than $3.20 per hundredweight for any month for which the applicable price as shown in the schedule below is less than $3.20 per hundredweight: *And provided further*, That for Class I milk (i) delivered by such handler to the residence of a relief client certified by a recognized relief agency, (ii) charged to such an agency, or (iii) disposed of by such handler under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, such handler shall pay not less than $2.23 per hundredweight or the Class III price computed under subparagraph (3) of this paragraph, whichever is higher.

Butter price range (cents per lb.):	*Class I price del. per cwt.*

(2) Class II milk—$2.23 per hundredweight, except that for the months of December 1941 and January, February, and March 1942, the Class II price shall be $2.40 per hundredweight.

(3) Class III milk—The price per hundredweight resulting from the following computation by the market administrator: Subtract 2 cents from the average wholesale price per pound of 92-score butter in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, add 30 percent thereof, and multiply the resulting amount by 4: *Provided*, That the market administrator shall ascertain, on the basis of milk of 4 percent butterfat content, the highest price per hundredweight established by handlers for ungraded milk received during such delivery period, and if such price for ungraded milk, as ascertained by the market administrator, exceeds the price computed in accordance with the formula contained herein, such price for ungraded milk shall be the price for Class III milk for such delivery period.

(b) *Sales outside the marketing area.* The price to be paid producers by a handler for Class I milk disposed of outside the marketing area, in lieu of the price otherwise applicable pursuant to this section, shall be the price which, as ascertained by the market administrator, is being paid by processors, in the market where such milk is disposed of, for milk of equivalent use.

B. Amendment Proposed by Dairy Division:

1. Delete § 946.4 (b).

C. Amendment Proposed by Fenley's Model Dairy: 1. Delete subparagraphs (1), (2), (3) and (4) of § 946.7 (b) and substitute therefor the following:

(1) Divide the amount computed pursuant to subparagraph (2) of this paragraph by the total hundredweight of milk received from producers by such handler.

2. Renumber § 946.7 (b) (5) as § 946.7 (b) (2).

3. Delete paragraphs (b), (c), and (d) of § 946.8.

4. Renumber paragraphs (e) and (f) of § 946.8 as paragraphs (b) and (c) of § 946.8.

The other proposed amendments are as follows:

A. Amendments Proposed by Producers' Association: 1. Delete § 946.3 and substitute therefor the following:

§ 946.3 *Classification of milk.*—(a) *Milk to be classified.* Milk of a producer caused to be delivered by a cooperative association which is a handler to a plant from which no milk is disposed of in the marketing area and all milk received by each handler, including milk produced by him, if any, at plants from which milk is disposed of in the marketing area, shall be classified by the market administrator in the classes set forth in paragraph (b) of this section, subject to the provisions of paragraph (c) of this section.

(b) *Classes of utilization.* The classes of utilization of milk shall be as follows:

(1) Class I–A milk shall be all milk disposedposed of as milk and all milk not specifically accounted for as Class I–B milk and Class II milk.

(2) Class I–B milk means all milk disposed of as cream (for consumption as cream), cottage cheese, flavored milk, buttermilk, and skim milk.

(3) Class II milk shall be all milk accounted for (i) as actual plant shrinkage, but not to exceed 2 percent of the total receipts of milk from producers and (ii) as used to produce a milk product other than those specified as Class I–A milk and Class I–B milk.

(c) *Interhandler and nonhandler sales.* Milk disposed of by a handler to another handler, or to a person who is not a handler but who distributes milk or manufactures milk products, shall be classified as Class I–A milk, and cream, cottage cheese, flavored milk, buttermilk and skim milk so disposed of shall be classified as Class I–B milk: *Provided*, That if the selling handler and the purchaser, on or before the 5th day after the end of the delivery period, each furnish to the market administrator similar signed statements that such milk or cream was disposed of in another class, such milk or cream shall be classified accordingly, subject to verification by the market administrator.

(d) *Computation of milk in each class.* For each delivery period, the market administrator shall compute for each handler the hundredweight of milk in each class to which the prices set forth in § 946.4 apply, as follows:

(1) Determine the total hundredweight of milk received as follows: add into one sum (i) the hundredweight of milk received from producers, (ii) the

hundredweight of milk, including buttermilk and skim milk received from other handlers, if any, (iii) the hundredweight of milk produced by such handler, if any, (iv) the hundredweight of milk including buttermilk and skim milk received from any other source, if any, and (v) the hundredweight of emergency milk, if any.

(2) Determine the total hundredweight of Class I–A milk as follows: (i) Convert to quarts the quantity of milk disposed of as milk and multiply by 0.0215 and (ii) if the quantity of milk so computed, when added to the quantity of Class I–B milk and Class II milk determined pursuant to subparagraphs (3) and (4) of this paragraph, is less than the total quantity of milk received, determined in accordance with subparagraph (1) of this paragraph, an amount equal to the difference shall be added to the quantity of milk computed pursuant to (i) of this paragraph.

(3) Determine the total hundredweight of Class I–B milk as follows: (i) multiply the actual weight of each of the several products of Class I–B milk by its average butterfat test and add together the resulting amounts, (ii) divide the total pounds of butterfat thus found by the average test of all milk received from producers, and (iii) divide by 100: *Provided, however,* That the resulting amount shall in no case, be less than the sum of the actual hundredweight of all of the several products of Class I–B milk as enumeratcd in subparagraph (2) of paragraph (b) of this section.

(4) Determine the hundredweight of Class II milk as follows: (i) add into one sum the hundredweight of all milk, cream, and skim milk sold and used to produce Class II milk products, (ii) deduct the hundredweight of milk determined in Class I–B which is in excess of the actual hundredweight of all of the products of Class I–B milk, if there be any such excess, (iii) add an allowance for plant shrinkage, if any, not to exceed 2 percent of the total hundredweight of milk received from producers, and (iv) the remaining difference, if any, shall be added to the hundredweight of Class I–A milk computed pursuant to (a) of subparagraph (2) of this paragraph.

(5) Determine the total hundredweight of milk of producers in each class as follows:

(i) Subtract from the total hundredweight of milk in each class the total hundredweight of milk (and milk equivalent of cream converted at the average test of milk received from producers by the receiving handler) received from other handlers and used in such class;

(ii) In the case of a handler who also distributes milk of his own production, subtract from the total hundredweight of milk in each class a further amount which shall be computed as follows: divide the total hundredweight of milk in each class by the total hundredweight of milk in all classes and multiply the percentage for such class by the total hundredweight of milk produced by him;

(iii) Subtract from the hundredweight of milk in each class the hundredweight of milk (and milk equivalent of cream converted at the average test of milk received from producers by the receiving handler), except emergency milk, received from sources other than producers or handlers and used in such class; and

(iv) In the case of a handler who has received emergency milk during the delivery period, subtract from the total hundredweight of milk in each class an amount which shall be computed as follows: divide the total hundredweight of milk in each class by the total hundredweight of milk in all classes and multiply the percentage for such class by the total hundredweight of emergency milk received.

2. Delete § 946.4 and substitute therefor the following:

§ 946.4 *Minimum prices*—(a) *Class prices.* Each handler shall pay producers, at the time and in the manner set forth in § 946.8, not less than the following prices for the respective quantities of milk in each class computed pursuant to § 946.3 (d) (5):

(1) Class I–A milk and Class I–B milk. The prices shall be determined as follows:

(i) For the months of January, February, and March, add $1.05 per hundredweight to the price for Class II milk as determined under subparagraph (2) of this paragraph;

(ii) For the months of April, May, June, July, August, and September, add $0.95 per hundredweight to the price for Class II milk as determined under subparagraph (2) of this paragraph; and

(iii) For the months of October, November, and December, add $1.05 per hundredweight to the price for Class II milk as determined under subparagraph (2) of this paragraph: *Provided,* That for Class I–A milk delivered by a handler to the residence of a relief client and charged to a recognized relief agency, or disposed of by a handler under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, such handler shall pay not less than the price for Class II milk plus twelve cents per hundredweight.

(2) Class II milk. The price per hundredweight shall be ascertained by the market administrator, and shall be the average of the maximum prices per hundredweight, on the basis of 4 percent butterfat content, established by handlers for ungraded milk received during such delivery periods at Springfield, Lawrenceburg, and Elizabethtown in the State of Kentucky and Salem and Orleans in the State of Indiana.

B. Amendments Proposed by Market Administrator: 1. Delete paragraph (d), § 946.3, and amend to read as follows:

(d) *Computation of milk in each class.* For each delivery period, the market administrator shall compute for each handler the total pounds of milk in each class, as defined in paragraph (b) of this section, as follows:

(1) Determine the total pounds of milk (i) received from producers, (ii) produced by him, if any, (iii) received from other handlers, if any, (iv) received from other sources, if any, (v) received as emergency milk, if any, and (vi) add together the resulting amounts.

(2) Determine the total pounds of milk in Class I as follows: (i) convert to quarts the quantity of milk disposed of in the form of milk and multiply by 2.15, and (ii) if the quantity of milk so computed when added to the quantities of Class II milk and Class III milk computed pursuant to subparagraphs (3) and (4) of this paragraph, is less than the total quantity of milk received, computed in accordance with subparagraph (1) of this paragraph, an amount equal to the difference shall be added to the quantity of milk computed pursuant to (a) of this subparagraph.

(3) Determine the total pounds of milk in Class II milk, as follows: (i) multiply the actual weight of each of the several products of Class II milk by its average butterfat test and add together the resulting amounts, and (ii) divide the result obtained in (i) of this subparagraph by the average test of all milk received from producers and classified in Class II and Class III milk: *Provided,* That in no event shall the result obtained in (ii) of this subparagraph be less than the actual total pounds of all of the several products classified as Class II milk, pursuant to subparagraph (2) of paragraph (b) of this section.

(4) Determine the total pounds of milk in Class III, as follows: (i) multiply the actual weight of each of the several milk products of Class III milk by its average butterfat test, (ii) add together the resulting amounts, and (iii) divide the result obtained in (ii) of this subparagraph by the average of all milk received from producers by the handler and classified as Class II and Class III milk, (iv) subtract from the result obtained in (iii) of this subparagraph the total pounds of the excess milk, weight of Class II milk, if any, computed pursuant to subparagraph (3) (ii) of this paragraph, (v) subtract the total pounds of Class I milk and Class II milk computed pursuant to subparagraphs (2) (i) and (3) (ii) of the paragraph and the total pounds of milk computed pursuant to (iv) of this subparagraph from the total pounds of milk computed pursuant to subparagraph (1) of this paragraph, which resulting quantity shall be allowed as plant shrinkage and classified as Class III milk (but in no event shall such plant shrinkage allowance exceed 2 percent of the total pounds of milk received from producers by the handler computed pursuant to subparagraph (1) (i) (ii) of this paragraph): *Provided,* That if the total pounds of milk computed pursuant to subparagraphs (2) (i), (3) (ii), and (4) (iv) of this paragraph does not equal the total pounds of milk computed pursuant to subparagraph (1) of this paragraph, the difference shall be added to the quantity of Class I milk.

2. Amend subparagraph (2) paragraph (b) of § 946.3 to read as follows:

(2) Class II milk shall be all milk, disposed of in the form of flavored milk and flavored milk drinks, buttermilk and skim milk and all milk, the butterfat from which is disposed of in the form of sweet or sour cream (for consumption as cream), cottage cheese and buttermilk.

3. Amend subparagraph (3) of paragraph (b) of § 946.3 to read as follows:

(3) Class III shall be all milk, and milk, the butterfat from which is used to produce a milk product other than one of those specified in Class II, and all milk accounted for as actual plant shrinkage, but not to exceed 2 percent of the total receipts of milk from producers and handler's own production.

4. Amend subparagraph (c) of § 946.3 to read as follows:

(c) *Responsibility of handlers in establishing the classification of milk.* In establishing the classification of milk as required in paragraph (b) of this section the responsibilities of handlers in establishing the classification of milk received by them shall be as follows:

(1) In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who received the milk from producers to account for the milk and to prove to the market administrator that such milk should not be classified as Class I milk.

(2) With respect to milk, or skim milk, disposed of to another handler, the burden rests upon the handler who purchased the milk from producers to account for the milk, or skim milk, and to prove to the market administrator that such milk, or skim milk, should not be classified as Class I milk.

(3) Milk disposed of by a handler to another handler, or to a person who is not a handler but who distributes milk or manufactures milk products, shall be classified as Class I milk, and cream so disposed of shall be classified as Class II milk: *Provided,* That if the selling handler and the purchaser, on or before the 5th day after the end of the delivery period, each furnish to the market administrator similar signed statements that such milk or cream was disposed of in another class, such milk or cream shall be classified accordingly, subject to verification by the market administrator.

C. Amendments Proposed by Louisville Milk Dealers' Association: 1. Section 946.3 (b) shall be amended to read as follows:

(b) *Classes of utilization.* (1) Class I milk shall be all milk disposed of as milk, and all milk not specifically accounted for as Class II milk, Class III milk, or Class IV milk.

(2) Class II milk shall be all milk, except skim milk disposed of in the form of flavored milk and flavored milk drinks; and all milk the butterfat from which is disposed of in the form of cream, creamed cottage cheese, and creamed buttermilk.

(3) Class III milk shall be all milk the butterfat from which is used to produce a milk product other than one of those specified in Class II and Class IV.

(4) Class IV milk shall be all milk the butterfat from which is used to produce butter, and all milk accounted for as actual plant shrinkage: *Provided,* That such plant shrinkage shall not exceed 2 percent of total receipt of milk from producers and from the handler's own production. No handler shall be permitted in any delivery period to report an amount of milk utilized as Class IV in excess of an amount equal to 10 percent of said handler's reported Class I sales for said delivery period.

2. It is suggested that § 946.4 be amended to read as follows:

§ 946.4 *Minimum prices*—(a) *Class prices.* Each handler shall pay producers at the time and in the manner set forth in § 946.8 not less than the following prices for the respective quantities of milk in each class computed pursuant to § 946.3 (d) (5).

(1) *Class I milk.* The price per hundredweight for Class I milk during each delivery period for the months of August, September, October, November, December, January, February, and March, shall be the price determined pursuant to paragraph (3) of this section, plus 90 cents, and during the delivery periods of April, May, June, and July, the price per hundredweight for Class I milk shall be the price determined pursuant to paragraph (3) plus 70 cents: *Provided,* That with respect to Class I milk disposed of under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, the price shall be the price determined pursuant to subsection (3), or the Class III price.

(2) *Class II milk.* The price per hundredweight for Class II milk during each delivery period for the months of August, September, October, November, December, January, February, and March, shall be the price determined pursuant to subsection (3), or the Class III price plus 45 cents, and during the delivery periods of April, May, June, and July the price per hundredweight for Class II milk shall be the price determined pursuant to subsection (3) of this section plus 35 cents.

(3) *Class III milk.* The price per hundredweight for milk containing 4 percent butterfat during each delivery period shall be the average computed by the market administrator of prices paid during such delivery period to farmers at each of the places or plants where milk is received or purchased listed in the subparagraph and for which prices are reported.

(4) *Location of plants.* Coryden, Indiana; Paoli, Indiana; Salem, Indiana; Madison, Indiana; Taylorsville, Kentucky; Elizabethtown, Kentucky; Owenton, Kentucky; Lawrenceburg, Kentucky; Springfield, Kentucky; Louisville, Kentucky; (Ewing Von Allmen plant—ungraded milk).

(5) *Class IV milk.* Multiply by 4 the average price per pound of 92-score butter at wholesale in the Chicago market as reported by the United States Department of Agriculture for the delivery period during which such milk is received, and add 10 percent.

Additional copies of this notice and copies of the order, as amended, now in effect, may be obtained from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 0312 South Building, Washington, D. C., or may be there inspected.

DEPARTMENT OF LABOR.

Division of Public Contracts.

EXEMPTION FROM THE PROVISIONS OF SECTION 1 OF THE WALSH-HEALEY PUBLIC CONTRACTS ACT TO PERMIT THE EMPLOYMENT OF FEMALE MINORS UNDER 18 YEARS OF AGE IN CERTAIN INDUSTRIES

NOTICE OF OPPORTUNITY TO SHOW CAUSE

Notice is hereby given to all interested parties that they have until March 2, 1942, in which to show cause if any they have why the Secretary of Labor should not grant an exemption from the provisions of section 1 (d) of the Public Contracts Act to permit the award of contracts to contractors in the industries named in the attached list, in amounts exceeding $10,000, without the inclusion in such contracts of the representation or stipulation

"That no • • • female person under eighteen years of age • • • will be employed by the contractor in the manufacture or production or furnishing of any of the materials, supplies, articles, or equipment included in [such] contract."

The Secretary of War has found that the inclusion of such stipulation as provided in section 1 (d) of the Public Contracts Act will seriously impair the conduct of government business by retarding essential production in these industries and has requested that an exemption be granted under section 6 of the Act to permit the employment of female persons between the ages of 16 and 18 on contracts which have been or which may be awarded subject to the Act to contractors in these industries. The matter will be presented to the Secretary of Labor on March 2, 1942, for decision as to whether or not justice or the public interest will be served by the granting of the exemption.

Briefs or telegraphic communications may be filed and will be considered if they are received on or before the date indicated above. No form for the briefs

[1] Acting pursuant to authority delegated by the Secretary of Agriculture under the Act of April 4, 1940 (54 Stat. 81; 6 F.R. 5192)

is prescribed but an original and four copies must be submitted.

[Administrative Order No. 141]

APPOINTMENT OF INDUSTRY COMMITTEE NO. 42 FOR THE GRAIN PRODUCTS INDUSTRY

1. By virtue of and pursuant to the authority vested in me by the Fair Labor Standards Act of 1938, I, Thomas W. Holland, Administrator of the Wage and Hour Division, U. S. Department of Labor, do hereby appoint and convene for the grain products industry (as such industry is defined in paragraph 2) an industry committee composed of the following representatives:

For the public: James M. Herring, Chairman, Philadelphia, Pennsylvania; John T. Caldwell, Nashville, Tennessee; Donald J. Cowling, Northfield, Minnesota; Edward Everett Hale, Austin, Texas; John Ise, Lawrence, Kansas; Joseph A. McClain, Jr., St. Louis, Missouri; Robert D. Patton, Columbus, Ohio.

For the employees: Arthur Bliss, Cedar Rapids, Iowa; Ted Hopkins, Tacoma, Washington; S. P. Ming, St. Louis, Missouri; Sellers Pittman, Houston, Texas; A. W. Rader, Keokuk, Iowa; Harold Schneider, Oklahoma City, Oklahoma; W. A. Younker, Minneapolis, Minnesota.

For the employers: P. W. Chichester, Frederick, Maryland; Hubert E. Foster, Gueydan, Louisiana; Charles B. Long, Shelbyville, Kentucky; J. J. Mullen, Kankakee, Illinois; H. L. McGeorge, Memphis, Tennessee; Walter Vanderploeg, Battle Creek, Michigan; Harold Yoder, Auburn, Indiana.

Such representatives having been appointed with due regard to the geographical regions in which such industry is carried on.

2. For the purpose of this order the term "grain products industry" means: The handling, warehousing, and storing of grain when performed in conjunction with milling operations, and the processing of grain or alfalfa into food products or feeds. It includes, but without limitation, the production of flour, prepared or blended flours, breakfast cereals, coffee substitutes, pearl barley, hominy, flakes, grits, rice, meal, feeds and prepared or mixed feeds, including those made wholly or in part from such products as cottonseed, soy beans, or peanuts (but not the crushing of such products), except those made principally from meat products. It does not include the production of bakery products such as bread, cakes, pastries, and macaroni.

3. The definition of the grain products industry covers all occupations in the industry which are necessary to the production of the products covered by the definition, including clerical, maintenance, shipping and selling occupations: *Provided, however*, That such clerical, maintenance, shipping, and selling occupations when carried on in a wholesaling or selling department physically segregated from other departments of a manufacturing establishment, the greater part of the sales of which wholesaling or selling department are sales of articles which have been purchased for resale, shall not be deemed to be covered by this definition; and *provided further*, That where an employee covered by this definition is employed during the same workweek at two or more different minimum rates of pay, he shall be paid the highest of such rates for such workweek unless records concerning his employment are kept by his employer in accordance with applicable regulations of the Wage and Hour Division.

4. The industry committee herein created shall report at 10:00 A. M. on March 10, 1942, in the office of the Administrator of the Wage and Hour Division, located at 1560 Broadway, New York, New York, and, in accordance with the provisions of the Fair Labor Standards Act of 1938 and rules and regulations promulgated thereunder, shall proceed to investigate conditions in the industry and recommend to the Administrator minimum wage rates for all employees thereof who within the meaning of said Act are "engaged in commerce or in the production of goods for commerce," excepting employees exempted by virtue of the provisions of section 13 (a) and employees coming under the provisions of section 14.

Signed at Washington, D. C., this 13th day of February 1942.

THOMAS W. HOLLAND,
Administrator.

CIVIL SERVICE COMMISSION.

CONDITION OF THE APPORTIONMENT AT CLOSE OF BUSINESS SATURDAY, FEBRUARY 14, 1942

Important. Although the apportioned classified Civil Service is by law located only in Washington, D. C., it nevertheless includes only about half of the Federal Civilian positions in the District of Columbia. Positions in local post offices, customs districts and other field services outside of the District of Columbia which are subject to the Civil Service Act are filled almost wholly by persons who are local residents of the general community in which the vacancies exist. It should be noted and understood that so long as a person occupies, by original appointment, a position in the apportioned service, the charge for his appointment continues to run against his state of original residence. Certifications of eligibles are first made from states which are in arrears.

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 6274]

IN THE MATTER OF INCREASED RATES OF POSTAL TELEGRAPH-CABLE COMPANY (N. Y.) AND MACKAY RADIO AND TELEGRAPH COMPANY (DEL.) FOR ORDINARY PRESS TELEGRAPH MESSAGES FROM UNITED STATES TO FRANCE

ORDER

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of February, 1942,

It appearing that there have been filed with the Commission tariffs containing schedules stating increased charges for ordinary press telegraph messages, to become effective on the 20th and 25th days of February 1942, designated as follows:

Postal Telegraph-Cable Company (New York): F. C. C. No. 43, Tenth Revised Page 8.

Mackay Radio and Telegraph Company (Del.): F. C. C. No. 2, Tenth Revised Page 136.

It further appearing that said schedules make certain changes in rates for the transmission of press communications in foreign commerce, and the rights and interests of the public appear to be injuriously affected thereby, and it being the opinion of the Commission that the effective dates of the said schedules should be postponed pending hearing and decision thereon:

It is ordered, That the Commission, on its own motion, without formal pleading, enter upon a hearing concerning the lawfulness of the charges contained in said tariffs: viz., 10th Revised Page 8 of Postal Telegraph-Cable Company (N. Y.) Tariff F. C. C. No. 43 and 10th Revised Page 136 of Mackay Radio and Telegraph Company (Del.) Tariff F. C. C. No. 2;

It is further ordered, That the operation of the said schedules contained in said tariffs be suspended, and that the use of the rates and charges therein stated be deferred until three months beyond the time when they would otherwise go into effect, unless otherwise ordered by the Commission, and no change shall be made in such rates and charges during the said period of suspension, unless authorized by special permission of the Commission;

It is further ordered, That the rates and charges thereby sought to be altered shall not be changed by any subsequent tariff or schedule, until this investigation and suspension proceeding has been disposed of or until the period of suspension has expired, unless authorized by special permission of the Commission;

It is further ordered, That a copy of this order be filed with said schedules in the office of the Federal Communications Commission, and that copies hereof be forthwith served upon the carrier parties to such schedules, and that said carrier parties to said schedules be, and they are hereby made respondent to this proceeding; and

It is further ordered, That this proceeding be, and the same is hereby assigned for hearing at 10:00 a. m. beginning on the 5th day of March at the offices of the Federal Communications Commission, in Washington, D. C.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-503]

IN THE MATTER OF PHILADELPHIA ELECTRIC COMPANY

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 19th day of February, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Philadelphia Electric Company. All interested persons are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Philadelphia Electric Company, a subsidiary of The United Gas Improvement Company, a registered holding company, proposes to issue and sell privately 48,221 shares of 4.4% preferred stock at $1.10 per share plus accrued dividends thereon from February 1, 1942 to March 2, 1942. The proceeds of $5,304,310 are proposed to be used to discharge a like amount of presently outstanding 1½% promissory notes payable to banks and maturing July 28, 1942.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to said matters, that said declaration shall not become effective nor said application be granted except pursuant to further order of this Commission;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and rules of the Commission thereunder be held on February 27, 1942 at 10:00 o'clock, A. M., at the offices of the Securities and Exchange Commission, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in Room 1102 will advise as to the room where such hearing will be held. At such hearing, cause shall be shown why such declaration or application (or both) shall become effective or shall be granted. Notice is hereby given of said hearing to the above-named declarant and applicant and to all interested persons, said notice to be given to said declarants and applicants by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of issues presented by

said declaration or application (or both) otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

(1) The appropriateness, in the public interest and for the protection of investors and consumers, of exempting the proposed issue and sale from the competitive bidding requirements of Rule U-50;

(2) The appropriateness of the price at which the securities are proposed to be sold;

(3) Whether and to what extent it is appropriate, in the public interest or for the protection of investors and consumers, to attach terms and conditions with respect to said issue and sale.

By the Commission.

IN THE MATTER OF THE ALBION GAS LIGHT COMPANY

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 18th day of February, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The Albion Gas Light Company. All interested persons are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

The Albion Gas Light Company, a gas utility company at Albion, Michigan, proposes to extend to March 1, 1945 the maturity date of $150,000 principal amount of it First Mortgage Seven Percent Twenty Year Gold Bonds, due March 1, 1942, and to solicit the consent of the holders of said bonds to such extension in maturity date. Effective with the semi-annual interest payment of September 1, 1933, by consent of the holders of $149,900 principal amount of the bonds the interest rate thereon was heretofore reduced from 7% to 5% unless 7% is actually earned.

The company represents that the extension is desired as a temporary measure for dealing with the imminent maturity, pending a contemplated merger with Michigan Gas and Electric Company; that in any event it hopes some program for paying the bonds in full may be worked out before expiration of the proposed three-year extension period.

The company reports a deficit in surplus, per books, of $87,336 as of November 30, 1941, after recording a net loss of $11,847 for the twelve months ended November 30, 1941.

The Middle West Corporation, a registered holding company, owns all outstanding common and preferred stock of the company, $29,900 of the said bonds, and a 5% demand note of the company in the amount of $141,249.99 (including $41,249.99 accrued interest). Michigan Gas and Electric Company, a subsidiary company of The Middle West Corporation, owns $36,700 principal amount of the said bonds and a 6% demand note of the company in the amount of $4,000. Both of these affiliated holders of the bonds have joined in the application requesting authorization to effect the extension.

The application states that authorization for the extension will be sought from the Michigan Public Service Commission. Total expenses of the transactions contemplated are estimated at $1,215.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to said matters, that said declaration shall not become effective nor said application be granted except pursuant to further order of this Commission:

It is ordered, That a hearing on such matters under the applicable provisions of said Act and rules of the Commission thereunder be held on February 24, 1942 at 10:00 o'clock, A. M., at the offices of the Securities and Exchange Commission, 1778 Pennsylvania Avenue NW., Washington, D. C. On such day the hearing-room clerk in Room 1102 will advise as to the room where such hearing will be held. At such hearing, cause shall be shown why such declaration or application (or both) shall become effective or shall be granted. Notice is hereby given of said hearing to the above-named declarants and applicants and to all interested persons, said notice to be given to said declarants and applicants by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of issues presented by said declaration or application (or both) otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed form and manner of solicitation of bondholders, and the disclosures made in connection therewith, will be in the public interest and provide for the protection of investors or consumers.

2. Whether in the public interest or for the protection of investors or consumers the proposed extension should be limited to a term shorter than three years.

3. Whether the aforesaid bonds, or as they are proposed to be extended in maturity, are or will be reasonably adapted to the security structure of the company, and whether they are or will be reasonably adapted to its earning power.

4. Whether the proposed extension of maturity will result in an unfair or inequitable distribution of voting power among the holders of the securities of the company.

5. The circumstances under which The Middle West Corporation and Michigan Gas and Electric Company, and their predecessors in interest, acquired their ownership of securities of The Albion Company, and whether the interests of said owners as bondholders should be subordinated, in whole or in part, to the claims of the public bondholders.

6. Whether in the public interest or for the protection of investors or consumers any terms or conditions should appropriately be included in any order of the Commission permitting the proposed transactions to be effected.

7. Generally, whether the proposed transactions comply with the applicable provisions of sections 6, 7, and 12 (e) of the Act and the Rules of the Commission promulgated thereunder.

By the Commission.

IN THE MATTER OF SOUTHWESTERN DEVELOPMENT COMPANY, WEST TEXAS GAS COMPANY, AMARILLO GAS COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 19th day of February, A. D. 1942.

Notice is hereby given that a declaration or application (or both), has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above-named parties; and

Notice is further given that any interested person may, not later than March 6, 1942 at 4:30 P. M., E. W. T. request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Southwestern Development Company, a registered holding company (subsidiary of The Mission Oil Company a registered holding company) and its wholly-owned subsidiary companies, the West Texas Gas Company and the Amarillo Gas Company, propose as follows:

To extend the maturity dates and revise the installments maturing on various dates (without changing the aggregate amount outstanding) of certain 3% promissory notes of Southwestern Development Company (aggregating $4,418,065.77), West Texas Gas Company (aggregating $2,400,000) and Amarillo Gas Company (aggregating $170,000), presently held by Guaranty Trust Company of New York, pursuant to the terms of Loan Agreements dated August 1, 1939, August 9, 1939 and March 2, 1937, as subsequently amended, respectively, between Guaranty Trust Company of New York and each of the aforementioned companies.

To reduce the interest rate on said 3% promissory notes so that all installments of principal maturing prior to January 1, 1947 shall bear interest from February 1, 1942 at the rate of 2½% per annum and the installments of principal maturing on and after January 1, 1947 shall bear interest from February 1, 1942 at the rate of 2¾% per annum.

Sections 7 and 10 of the Act are designated as being applicable to the proposed transaction.

By the Commission.

IN THE MATTER OF MOUNTAIN STATES POWER COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 18th day of February, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above named party; and

Notice is further given that any interested person may, not later than February 25, 1942, at 4:45 P. M., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Mountain States Power Company, a subsidiary of Standard Gas and Electric Company, a registered holding company, proposes to issue to the Provident Trust Company of Philadelphia eleven unsecured serial notes in the principal amount of $30,000 each, or in the aggregate principal amount of $330,000, dated April 1, 1942 bearing interest at the rate of 1¾ per centum per annum and maturing serially at the end of each successive three months period thereafter and to use the proceeds therefrom, together with other corporate funds, to pay the principal and interest and a premium of ¾ of 1% of the unpaid principal on its unsecured serial notes dated January 1, 1940 payable to The Chase National Bank of the City of New York bearing interest at the rate of 3% per annum upon which there remains due and unpaid the aggregate principal amount of $360,000.

IN THE MATTER OF ARKANSAS-MISSOURI POWER CORPORATION

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 18th day of February, A. D. 1942.

The above named company having filed a supplemental declaration pursuant to the Public Utility Holding Company Act of 1935, particularly section 7 thereof, regarding the following:

Arkansas-Missouri Power Corporation, a subsidiary of John E. Dwyer, Trustee of Inland Power & Light Corporation, a registered holding company, has negotiated with Harris Trust and Savings Bank (Chicago, Illinois) a reduction, effective January 23, 1942, from 3½% to 2¾% in the interest rate payable on $180,000 principal amount of unsecured 3½% Serial Notes due July 23, 1942–January 23, 1945. The consideration for said reduction in interest rate was the payment on or about January 23, 1942 of the $30,000 3½% Serial Note maturing July 23, 1945, which note has been paid.

Under date of July 18, 1940 the Commission permitted the original declaration herein, as amended, to become effective with respect to the issue and sale by the Company (among other securities) of $300,000 principal amount of the subject notes to the said Harris Trust and Savings Bank, Chicago, Illinois, said notes being payable in ten semi-annual installments of $30,000 each in the years 1941–1945. The Company has paid at maturity $90,000 principal amount of said notes, in addition to the $30,000 note maturing July 23, 1945, mentioned above.

Said supplemental declaration having been filed on January 26, 1942, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said Act, and the Commission not having received a request for a hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said supplemental declaration under section 7 of said Act that the requirements of section 7 (c) of said Act are satisfied and that no adverse findings are necessary under section 7 (d) of said Act;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said Act and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid declaration be and hereby is permitted to become effective.

By the Commission.

IN THE MATTER OF PENNSYLVANIA ELECTRIC COMPANY; THE CLARION RIVER POWER COMPANY; ERIE LIGHTING COMPANY; SOLAR ELECTRIC COMPANY; YOUGHIOGHENY HYDRO-ELECTRIC CORPORATION; ASSOCIATED MARYLAND ELECTRIC POWER CORPORATION; AND ASSOCIATED ELECTIRC COMPANY

ORDER GRANTING APPLICATIONS AND PERMITTING DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 17th day of February, A. D. 1942.

The above named parties, having filed applications and declarations, as amended, with the Commission, pursuant to sections 6 (b), 9 (a), 10, 12 (c), 12 (d), and 12 (f) of the Public Utility Holding Company Act of 1935, and Rules U-42, U-43, and U-50 of the Rules and Regulations, promulgated thereunder, covering proposed transactions that are part of a general program.

(1) For the issue and sale by Pennsylvania Electric Company, a subsidiary of Associated Electric Company, a registered holding company, and an indirect subsidiary of the Trustees of Associated Gas and Electric Corporation, of $32,500,000 principal amount of First Mortgage Bonds, due January 1, 1972, and $3,400,000 par value of Cumulative Preferred Stock, proceeds of which are to be used in part for the redemption and retirement of the long term indebtedness and bank loans presently outstanding and to be assumed by Pennsylvania Electric Company;

(2) For the acquistion by Pennsylvania Electric Company of the assets of The Clarion River Power Company and Erie Lighting Company, subsidiaries of Penn-

sylvania Electric Company, of Associated Maryland Electric Power Corporation, Solar Electric Company, Youghiogheny Hydro-Electric Corporation, subsidiaries of Associated Electric Company, and of Logan Light, Heat & Power Company, a subsidiary of NY PA NJ Utilities Company, and an indirect subsidiary of the Trustees of Associated Gas and Electric Corporation; and

(3) For the reclassification by Pennsylvania Electric Company of its common stock and the making of certain accounting and other adjustments, including the creation by Pennsylvania Electric Company of a "Reserve for Amount in Excess of Original Cost of Utility Plant", in the amount of $10,100,046, to be set up by appropriations from earned surplus as at December 31, 1941, and from capital surplus, augmented by transfers from stated capital for common stock.

A hearing with respect to the said applications and declarations, as amended, having been held after appropriate notice; and the Commission having considered the record of the proceedings and having entered its Findings and Opinion herein;

It is hereby ordered, That the aforesaid declarations, as amended, be and hereby are permitted to become effective and the aforesaid applications, as amended, be and hereby are granted forthwith, subject, however, to the terms and conditions prescribed in Rule U-24 and to the following additional terms and conditions:

(1) That, prior to the time of settlement with the underwriters or purchasers of the bonds or preferred stock, Pennsylvania Electric Company shall obtain all necessary approval from the Pennsylvania Public Utility Commission for, and shall effect, the reduction of the par value of its common stock from $25 per share to $20 per share;

(2) That Pennsylvania Electric Company shall report to the Commission the results of the competitive bidding, as required by Rule U-50 (c) and comply with such supplemental order as the Commission may enter in view of the facts disclosed thereby.

It is further ordered, That jurisdiction be and is hereby reserved

(1) To determine whether and the extent to which the indebtedness of The Clarion River Power Company to Pennsylvania Electric Company should be subordinated to the publicly-held Participating Capital Stock and the extent to which payments should be made by Pennsylvania Electric Company, as acquirer of the assets of The Clarion River Power Company, to said holders of Participating Capital Stock in satisfaction of their interests;

(2) To pass upon the accounting entries proposed or hereafter to be made by Associated Electric Company in connection with the proposed transactions.

By the Commission.

PART 40—AIR CARRIER OPERATING CERTIFICATION

SPECIAL REGULATION, CIVIL AIR REGULATIONS, AUTHORIZING UNITED AIR LINES TO OPERATE AIRCRAFT INTO THE NEW ROCK SPRINGS MUNICIPAL AIRPORT UPON CERTAIN CONDITIONS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 17th day of February 1942.

Having had under consideration the regular use of the New Rock Springs Municipal Airport in scheduled air transportation,

The Board finds that:

1. The New Rock Springs Municipal Airport located at Rock Springs, Wyoming, has reached a stage of construction which will permit its regular use by aircraft operated in scheduled air transportation;

2. First pilots serving in air transportation for the United Air Lines Transport Corporation between Denver, Colorado, or Cheyenne, Wyoming, and Salt Lake City, Utah, fly within sight of the New Rock Springs Municipal Airport and have become familiar with this airport through examination from the air, so that compliance with the provisions of the Civil Air Regulations requiring each first pilot to have landed once at each terminal, scheduled intermediate stop, and intermediate field is not required in the interest of safety, provided that the familiarity of the first pilot with the New Rock Springs Municipal Airport be sufficiently demonstrated as hereinafter provided.

Now, therefore, The Civil Aeronautics Board acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a), 601 and 604 of said Act, makes and promulgates the following Special Regulation:

Notwithstanding the provisions of the Civil Air Regulations requiring a first pilot of an air carrier, prior to carrying passengers in scheduled air transportation, to have landed at least once at each terminal, scheduled intermediate stop and intermediate field located along the route or part thereof on which he will pilot aircraft, any first pilot listed in the United Air Lines Transport Corporation's airmen competency letter at the time said air carrier is authorized to commence operations at the New Rock Springs Municipal Airport as qualified to operate an aircraft in scheduled air transportation between Denver, Colorado, or Cheyenne, Wyoming, and Salt Lake City, Utah, may operate aircraft into and out of the New Rock Springs Municipal Airport in such air transportation upon furnishing to the United Air Lines Transport Corporation and to the Chief, Air Carrier Branch of the Civil Aeronautics Administration for the Third Region, Chicago, Illinois, a satisfactory sketch of the New Rock Springs Municipal Airport and a written inspection report describing its conditions, construction, and surrounding terrain. Such sketch and report shall be preserved by the United Air Lines as specified in section 40.2611 (b) of the Civil Air Regulations for written reports and sketches of intermediate fields. Each pilot must give evidence satisfactory to the Administrator's representative of his thorough familiarity with the form and condition of the field and with the location and nature of the obstructions around it.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

PART 230—RULES AND REGULATIONS, SECURITIES ACT OF 1933

RULE RELATING TO DISCLOSURE OF INFORMATION CONTRAVENING CODE OF WARTIME PRACTICES

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Act of 1933, particularly section 19 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors, hereby adopts the following rule:

§ 230.171 *Disclosure contravening code of wartime practices.* (a) The Commission may, upon its own initiative or upon application, authorize or direct the omission of specific information from any registration statement, prospectus or other document filed with the Commission or used in connection with the offering or sale of any securities, if publication of the information would, in the opinion of the Commission acting in cooperation with the United States Government Office of Censorship, contravene the Code of Wartime Practices promulgated by that Office.

(b) Any issuer, underwriter or other distributor of securities may apply to the Commission for an opinion pursuant to paragraph (a). Applications may be made by informal letter and need contain only so much of the information in question as may be necessary in the particular case to enable the Commission to pass upon the application in regard thereto.

(c) In any case where information is omitted pursuant to this rule the Commission may authorize or direct the filing of such information with the Commission under separate confidential cover.

(d) Any requirement to the contrary notwithstanding, no registration statement, prospectus or other document filed with the Commission or used in connection with the offering or sale of any securities shall contain any information the omission of which the Commission shall have authorized or directed, or which the Commission shall have directed to be filed under separate confidential cover, pursuant to this rule. (Sec. 19, 48 Stat. 85; Sec. 209, 48 Stat. 908; 15 U.S.C. 77s.) [Rule 171, effective February 19, 1942]

PART 240—RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

RULE RELATING TO DISCLOSURE OF INFORMATION CONTRAVENING CODE OF WARTIME PRACTICES

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly section 23 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors, hereby adopts the following rule.

§ 240.6 *Disclosure contravening code of wartime practices.* (a) The Commission may, upon its own initiative or upon application, authorize or direct the omission of specific information from any application for registration, report, proxy statement or other document filed with the Commission or any securities exchange, if publication of the information would in the opinion of the Commission, acting in cooperation with the United States Government Office of Censorship, contravene the Code of Wartime Practices promulgated by that Office.

(b) Any issuer or other person who is about to file any such document with the Commission or an exchange may apply to the Commission for an opinion pursuant to paragraph (a). Applications may be made by informal letter and need contain only so much of the information in question as may be necessary in the particular case to enable the Commission to pass upon the application in regard thereto.

(c) In any case where essential information is omitted pursuant to this rule the Commission may authorize or direct the filing of such information with the Commission under separate confidential cover.

(d) Any requirement to the contrary notwithstanding, no application for registration, report, proxy statement, or other document filed with the Commission or any securities exchange shall contain any information the omission of which the Commission shall have authorized or directed, or which the Commission shall have directed to be filed under separate confidential cover, pursuant to this rule. (Sec. 23, 48 Stat. 901; Sec. 8, 49 Stat. 1379; 15 U.S.C. 78w) [Rule X-6, effective February 19, 1942]

By the Commission.

PART 250—RULES AND REGULATIONS, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

RULE RELATING TO DISCLOSURE OF INFORMATION CONTRAVENING CODE OF WARTIME PRACTICES

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Public Utility Holding Company Act of 1935, particularly section 20 (a) thereof, and deeming such action necessary and appropriate to carry out the provisions of the Act, hereby adopts the following rule:

§ 250.105 *Disclosure contravening Code of Wartime Practices.* (a) The Commission may, upon its own initiative or upon application, authorize or direct that specific information be omitted from any notification, statement, application, declaration, report or other document filed with the Commission under the Act, and be filed under separate confidential cover if publication of the information would, in the opinion of the Commission acting in cooperation with the United States Government Office of Censorship, contravene the Code of Wartime Practices promulgated by that Office.

(b) Any person who is about to file any such document with the Commission may apply to the Commission for an opinion pursuant to paragraph (a). Applications may be made by informal letter and need contain only so much of the information in question as may be necessary in the particular case to enable the Commission to pass upon the application in regard thereto.

(c) Any requirement to the contrary notwithstanding, no notification, statement, application, declaration, report or other document filed with the Commission under the Act shall contain any information which the Commission shall have authorized or directed to be filed under separate confidential cover pursuant to this rule. (Sec. 20, 49 Stat. 833; 15 U.S.C. 79) [Rule U-105, effective February 19, 1942]

By the Commission.

TITLE 18—CONSERVATION OF POWER

CHAPTER I—FEDERAL POWER COMMISSION

[Order No. 91]

AMENDING THE "PROVISIONAL RULES OF PRACTICE AND REGULATIONS UNDER THE NATURAL GAS ACT, WITH APPROVED FORMS, EFFECTIVE JULY 11, 1938"

FEBRUARY 20, 1942.

The Commission, pursuant to authority vested in it by the Natural Gas Act, particularly sections 7 (as amended February 7, 1942) and 16 thereof, and finding such action necessary and appropriate for carrying out the provisions of said Act, hereby adopts, promulgates and prescribes the following amendments to the "Provisional Rules of Practice and Regulations under the Natural Gas Act, Effective July 11, 1938" as heretofore prescribed and amended:

Part 57 be and it is hereby amended to read as follows:

PART 57—APPLICATIONS FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY UNDER SECTION 7 OF THE NATURAL GAS ACT AS AMENDED

Applications under section 7 (c) as amended for certificates for continued operation based on bona fide operation on February 7, 1942 (under "grandfather" clause).

§ 57.1 *Contents of application.* Every application for a certificate of public convenience and necessity under section 7 (c) of the Natural Gas Act as amended for continued operation based on bona fide operation on February 7, 1942, shall be filed with the Commission on or before May 8, 1942 and shall set forth in the order indicated the following:

(a) The exact legal name of the applicant; if the applicant is a corporation, the state or territory under the laws of which the applicant is organized, the location of applicant's principal place of business, and the names of all states where applicant is authorized to do business.

(b) The same data required by paragraph (a) above with respect to any predecessor in interest of the applicant bona fide engaged in the transportation or sale of natural gas subject to the jurisdiction of the Commission on February 7, 1942.

(c) The name, title, and post office address of the person to whom correspondence or communications in regard to the application is to be addressed. Unless advised to the contrary, the Commission will serve all notices, orders, and other papers, service of which is required, upon the person so named herein.

(d) A statement of pertinent facts showing that applicant or a predecessor in interest of applicant was a natural-gas company within the meaning of the Natural Gas Act and was *bona fide* engaged in transportation of natural gas in interstate commerce or sale of natural gas in interstate commerce for resale on February 7, 1942, and that applicant is entitled to a certificate of public convenience and necessity under section 7 (c) of the Natural Gas Act as amended.

Without limitation upon the requirements of the paragraph next above, such statement shall include a showing of:

(1) The sources of the gas (i) produced by applicant or predecessor and (ii) purchased by applicant or predecessor. In case of gas produced, give the approximate location of the fields and the points of delivery, and in the case of gas purchased, the names of the sellers and points of delivery.

(2) The route or routes of the pipe lines over which such transportation or sale of natural gas was accomplished.

(3) The communities actually served on February 7, 1942 (i) at wholesale and (ii) at retail.

(4) The names of, and points of delivery to, main line industrial customers (i. e., not located within communities under (3) above) purchasing 25,000 M. c. f. or more per year. Such main line industrial customers, purchasing 100,000 M. c. f. or more per year, shall be given the identifying designations I–1, I–2, etc., which designations shall be used in lieu of names on Exhibit B of the application.

(5) Major appurtenant properties and facilities, such as compressor stations, gasoline plants, dehydration plants, purification plants, and gas storage projects.

(e) A similar statement of pertinent facts showing that applicant, or predecessor in interest, if any, has been *bona fide* engaged in the operations described in paragraph (d) continuously since February 7, 1942.

Notice of the application shall be given by applicant by service of a true copy of the application (without the exhibits provided for in § 57.2 following) upon the state regulatory commission, agency, or official having authority to regulate the transportation or sale of gas in every state in which applicant operated on February 7, 1942, or upon the governor of the state when there is no such state regulatory commission, agency, or offi-

cial, by delivery of said copy in person or by registered mail.*

*§§ 57.1 to 57.4, inclusive, issued under the authority contained in secs. 7, 16, 52 Stat. 824, 830; Pub. 444, 77th Cong., 2d sess.; 15 U.S.C. 717f, 717o.

§ 57.2 *Necessary exhibits.* There shall be filed with the application as a part thereof the following exhibits. Any information required which is already on file with the Commission may be incorporated by reference. If applicant is unable to file any designated exhibit on or before May 8, 1942, a statement setting forth the reasons for such failure should be submitted in lieu of the appropriate lettered exhibit and a further extension of time for filing the exhibit, not to exceed 90 days, may be granted by the Commission. The following required exhibits are designed to amplify paragraphs (a) through (e) of § 57.1.

Exhibit A—If applicant is a corporation, a certified copy or photostat of its articles of incorporation and by-laws.

Exhibit A-1—If applicant is a corporation certified copies or photostats of any and all evidences of domestication in or authorization to do business in any state or states other than the state of incorporation involved in the application.

Exhibit A-2—If applicant is an individual or group of individuals, satisfactory proof of the citizenship of such individual or individuals.

Exhibit A-3—A certified copy or photostat of the resolution of the board of directors or other similar legal authority authorizing the filing of the application.

Exhibit B—A general key map of applicant's facilities in use on February 7, 1942, for the production, transportation, or sale of natural gas showing:

(1) The location of gas fields from which gas is produced by applicant or affiliated companies or at which gas is purchased by applicant.

(2) The location of applicant's pipe lines and the diameters thereof.

(3) The points of connection with the facilities or pipe line systems of other companies.

(4) The designation of points of delivery of gas to applicant's system.

(5) The communities served at wholesale and at retail, indicating those served at wholesale by a small square and those at retail by a small circle.

(6) The designation of points of delivery of gas from applicant's system, including points of delivery to main line industrial customers purchasing 100,000 M. c. f. or more per year. Such main line industrial customers are to be designated I-1, I-2, etc. as indicated in § 57.1 (d) above.

The map should be of sufficient scale and in sufficient detail to show the geographical location of the properties. Applicant may be required to furnish the Commission with additional alignment or field maps in support of the application.

Every natural-gas company is hereby ordered and required to keep on hand in its offices subsidiary alignment and field maps properly marked and maintained showing all the facts required in connection with Exhibit B above with sufficient certainty to establish beyond doubt the extent and location of its said facilities in use on February 7, 1942, and to be prepared to furnish information relative thereto or copies thereof at any time to the Commission.

Exhibit C—Certified copy of any order or franchise of any state or municipal agency authorizing applicant's or predecessor's operations and of any order authorizing transfer of such authority to applicant.

Exhibit D—An affidavit of the required service of copies of the application by delivery or registered mail in compliance with the provisions of Sec. 57.1 above, specifying the name and address of the state commission, agency, or official served, with the date and place of service.

Exhibit E—The applicant may submit as many additional exhibits as may be deemed essential for consideration of the application. Such exhibits may be identified as Exhibit F, etc., or may be given sub-numbers, such as Exhibit C-1, etc., as appropriate.*

§ 57.3 *Form of filing.* An application under §§ 57.1 and 57.2 shall be in compliance with §§ 50.31 to 50.40, and in addition the original of the application (which shall include the originals of all exhibits accompanying said application) shall be verified under oath by a person having knowledge of the matters therein set forth.*

§ 57.4 *Other information.* The applicant may be required to furnish such additional information as the Commission may deem pertinent.*

The amendments to the "Provisional Rules of Practice and Regulations under the Natural Gas Act" adopted, promulgated and prescribed by this order shall become effective February 25th, 1942; and the Secretary of the Commission shall cause publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

TITLE 31—MONEY AND FINANCE: TREASURY

CHAPTER I—MONETARY OFFICES

PARTS 130 AND 131, APPENDIX

PUBLIC CIRCULAR NO. 16 UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO, RELATING TO TRANSACTIONS IN FOREIGN EXCHANGE, ETC.[1]

FEBRUARY 18, 1942.

(1) Attention is directed to the fact that pursuant to the Order the provisions thereof have been automatically extended to all of British Malaya to the same extent as the provisions of the Order apply to any other blocked country.

(2) For the purpose of administering the Order and complying with the provisions thereof, British Malaya shall be deemed to be a foreign country separately designated in the Order and specifically named in section 3 thereof. The definition of the term "national" as applied to British Malaya shall be that specified in paragraph E of section 5 of the Order.

(3) General License No. 13[2] is hereby amended by the deletion of the word "Singapore" from subdivisions (a) and (b) of paragraph (1) thereof.

(4) Attention is directed to the fact that, by reason of temporary control and occupation by the military, naval, and police forces and other authority of Japan, British Malaya is no longer included within the generally licensed trade area as defined in General License No. 53.[3]

(5) No transaction shall be deemed to require a license solely because it involves property in which a blocked country or national thereof had an interest which was extinguished prior to the date of the extension of the Order to such country.

(6) As used herein, the term "British Malaya" shall be deemed to include the Straits Settlements and the Malay States, both federated and unfederated. (Sec. 5 (b), 40 Stat. 415 and 966; Sec. 2, 48 Stat. 1; 54 Stat. 179; Public No. 354, 77th Congress; E.O. 8389, April 10, 1940, as amended by E.O. 8785, June 14, 1941, E.O. 8832, July 26, 1941, E.O. 8963, December 9, 1941, and E.O. 8998, December 26, 1941; Regulations, April 10, 1940, as amended June 14, 1941, and July 26, 1941.)

PUBLIC CIRCULAR NO. 15 UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO, RELATING TO TRANSACTIONS IN FOREIGN EXCHANGE, ETC.

FEBRUARY 18, 1942.

General Licenses Nos. 49,[4] 50,[5] 52,[6] and 70[7] are amended by deleting the text of the paragraph numbered "(4)" in General License No. 49 and the texts of the paragraphs numbered "(5)" in General Licenses Nos. 50, 52, and 70 and by substituting the following in each of such paragraphs for the matter so deleted:

A report on Form TFR-149 shall be filed promptly in duplicate with the appropriate Federal Reserve Bank by any banking institution within the United States:

(a) through which any remittance in excess of $5,000 originates; or

(b) which issues, confirms, or advises any letter of credit involving an amount in excess of $5,000; or

(c) which debits any blocked account in an amount in excess of $5,000 for any single item

under the authority of this general license.

Banking institutions within the United States shall also file monthly reports on Form TFER-1 with the appropriate Federal Reserve Bank indicating the total of all debits and, separately, the total of all credits effected pursuant to the provisions of this general license. (Sec. 5 (b), 40 Stat. 415 and 966; Sec. 2, 48 Stat. 1; 54 Stat. 179; Public No. 354, 77th Congress; E.O. 8389, April 10, 1940, as amended by E.O. 8785, June 14, 1941, E.O. 8832, July 26, 1941, E.O. 8963, December 9, 1941, and E.O. 8998, December 26, 1941; Regulations, April 10, 1940, as amended June 14, 1941, and July 26, 1941.)

TITLE 32—NATIONAL DEFENSE

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 977—MANILA FIBER AND MANILA CORDAGE

Amendment No. 3 to General Preference Order No. M-36 To Conserve the Supply and Direct the Distribution of Manila Fiber and Manila Cordage

Section 977.1 General Preference Order No. M-36[1] is hereby amended to read as follows:

Whereas the uncertainty of future shipments of Manila Fiber from abroad and national defense requirements for Manila Cordage have created a shortage thereof for defense, for private account and for export, and it is necessary in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution thereof;

Now, therefore, it is hereby ordered, That:

§ 977.1 *General Preference Order M-36*—(a) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Additional definitions.* For the purposes of this Order:

(1) "Manila Fiber" means fiber which is commonly known in the trade by this term and also known as Abaca or Manila Hemp (either stripped or decorticated), Sumatra Abaca, and Panama Abaca, except that Manila Fiber does not mean the fiber of grades T, O, W, or Y, as established by the Insular Government of the Philippine Islands.

(2) "Manila Cordage" means cables and ropes $^3/_{16}$" in diameter and larger, and twines used for fishing nets, in which Manila Fiber either alone or in combination with other materials is used.

(3) "Class A Cordage" means Manila Cordage which contains such a combination of grades of Manila Fiber as will at least equal the fiber quality requirements of Federal Specifications T-R-601a.

(4) "Class B Cordage" means Manila Cordage which contains such a combination of grades of Manila Fiber as will give a Becker value not in excess of thirty-nine, such Becker value to be determined according to the methods set forth in said Federal Specifications T-R-601a.

(5) "Cordage Processor" means any Person other than the Navy Department who spins, twists, weaves, or otherwise uses Manila Fiber in the production of Manila Cordage.

(6) "Processing" means any use of Manila Fiber for the manufacture of any other article or commodity into which the Manila Fiber goes or of which it becomes a part.

(7) "Dealer" means any Person who procures Manila Cordage for storage or for sale, and includes selling agents, warehousemen, and other commercially recognized agents acting for their own account or for others, whether or not acquiring title to such Manila Cordage.

(8) "Basic Monthly Poundage" with respect to any Cordage Processor shall be 70% of the average number of pounds per month of Manila Cordage sold by such processor during the period January 1, 1939 to December 31, 1939.

(c) *Restrictions on deliveries of manila fiber.* No person shall hereafter make or accept delivery of any manila fiber unless specifically authorized by the Director of Industry Operations: *Provided, however,* That deliveries of Manila Fiber may be made:

(1) By and to the Navy Department.

(2) By and to Defense Supplies Corporation.

(3) By and to persons importing or otherwise handling Manila Fiber in accordance with written instructions from the Navy Department or from Defense Supplies Corporation: *Provided,* That such Manila Fiber is to be delivered, either processed or unprocessed, directly, or through one or more other persons, to the Navy Department or to Defense Supplies Corporation.

(4) By importers to Cordage Processors pursuant to contracts entered into on or before the date of this amended Order: *Provided,* That shipments of such Manila Fiber leave the country of origin on or before April 30, 1942.

(5) By importers to Cordage Processors of Manila Fiber rejected by the Navy Department or Defense Supplies Corporation as unfit for their use.

(d) *Restrictions on processing of manila fiber.* (1) Unless specifically authorized by the Director of Industry Operations, no Person shall begin the processing of any Manila Fiber except for the purpose of manufacturing Class A or Class B Cordage for sale or delivery to fulfill the orders hereafter specified in paragraph (e) (3), or such Cordage as may be required to meet the specifications of orders of the War and Navy Departments and the Maritime Commission.

(2) Unless specifically authorized by the Director of Industry Operations, from the date of this Amendment until August 1, 1942, no Cordage Processor shall put into process more Manila Fiber than six times his basic monthly poundage, and after July 31, 1942 no Cordage Processor shall put into process in any one month more Manila Fiber than his basic monthly poundage.

(e) *Restrictions on sales and deliveries of manila cordage.* (1) Unless specifically authorized by the Director of Industry Operations, on and after the date of this Order no Cordage Processor shall sell in any one month more Manila Cordage than his basic monthly poundage.

(2) Unless specifically authorized by the Director of Industry Operations, from the date of this Amendment until August 1, 1942, no Cordage Processor shall deliver more Manila Cordage than six times his basic monthly poundage, and after July 31, 1942 no Cordage Processor shall deliver in any one month more Manila Cordage than his basic monthly poundage.

(3) In addition to the limitations in paragraphs (e) (1), (e) (2), and (e) (4) no Cordage Processor or Dealer shall sell or deliver any Manila Cordage and no Person shall purchase or accept delivery of any Manila Cordage from a Cordage Processor or Dealer except to fill the following:

(i) "Defense Orders" accompanied by:

(*a*) Prime Preference Rating Certificate bearing an A-1-j or higher rating issued by the War Production Board, or by contracting officers of the Army, Navy or the U. S. Maritime Commission, but only if such Manila Cordage is specified in the prime contract involved.

(*b*) Extensions of only such Prime Preference Rating Certificates set forth in (e) (3) (i) (a) as may cover items to be physically incorporated in the prime contract involved. (Such extensions shall not include orders rated under any Preference Rating Order).

(ii) Purchase Orders of the following categories of usage:

(*a*) For use on vessels engaged in the carriage of cargo, as common carriers of passengers, in towage, in lighterage or in fishing for commercial fish markets or canneries, for use in hoisting for loading or discharge of cargo of such vessels, and for usages for shipbuilding.

[1] 6 F.R. 4534, 5217, 6614.

(b) Manila drilling cables for use in oil wells, gas wells and mines.

(c) Manila torpedo line for use in handling explosives.

Provided, however, That each order placed by a Person pursuant to this subparagraph (ii) shall have endorsed thereon, or be accompanied by, a statement manually signed on behalf of such Person by a person duly authorized thereto which shall state: "The undersigned hereby represents that the Manila Cordage covered by this order will be used by the undersigned for and only for the uses specified in sub-paragraph (e) (3) (ii) of Amendment No. 3 to General Preference Order No. M-36."

(iii) Orders placed by Defense Supplies Corporation. Unless specifically authorized by the Director of Industry Operations no Person other than the Army or Navy of the United States shall hereafter order or accept delivery of any Manila Cordage if the amount of Manila Cordage held by or under the control of such Person exceeds one and one-half month's supply for one Person. No Person shall have outstanding at any one time orders for future deliveries of Manila Cordage greater in amount than one month's supply for such person. "Supply" as used in this paragraph means the average monthly amount of Manila Cordage withdrawn from the inventory of such Person, which has been resold or put into actual use by such Person, in the three calendar months immediately preceding the calendar month in which said order is placed or delivery is accepted, excluding from such amount any Manila Cordage purchased from such Person by the Navy Department, War Department, Maritime Commission, Defense Supplies Corporation, and if such Person is a Dealer any Manila Cordage imported by such Person.

(f) *Control of stocks of manila fiber.* Control is hereby taken of the distribution and use of Manila Fiber. Any Manila Fiber at any time hereafter in the inventory of any person shall be sold and delivered by such person if and as specifically directed in any order of the Director of Industry Operations which may be issued whenever the Director of Industry Operations shall determine that a shortage of any particular grade of Manila Fiber for defense, or for private account and for export, renders it necessary or appropriate so to allocate such Manila Fiber in the public interest or to promote the National Defense by so directing its sale and delivery by such person. Any such sale shall be made at the established prices and terms of sale and payment therefor. No person shall dispose of or use Manila Fiber in any manner inconsistent with any such Order.

(g) *Exclusions from this Order.* The terms and provisions of this Order shall not apply to:

(1) Sales and or deliveries by any Cordage Processor or Dealer of Manila Cordage of any class from stocks on hand or in process as of the date of this Amendment of the following types,

(i) Manila lariat rope.

(ii) Manila yacht lariat rope.

(iii) Manila transmission rope.

(iv) Manila left laid spinning lines, not including cordage of cable construction suitable for use as drilling cables even though such products may have been purchased or sold for spinning lines.

(2) Any sales and/or deliveries by any Cordage Processor or Dealer of Manila Cordage which on December 19, 1941 was in the form of cut lengths of less than 200 feet.

(3) Any stock of Manila Cordage which contains no Manila Fiber of the following grades—AB Davao or non-Davao, I Davao, JI Davao, G Davao, S2 Davao—and which is so processed that the Manila Fiber therein contained is combined or mixed with at least an equal amount of fiber other than Manila Fiber, in the hands of a Dealer or Cordage Processor, or in transit on the date of this Amendment, or made from Manila Fiber actually placed on machines by a Cordage Processor on or prior to December 19, 1941.
